

ONLY TEMPORARY

South First Street has been temporarily closed between Avenue G and H while work progresses on Spring Branch Creek. City Council members met Tuesday night to discuss possible options at the site. Original plans called for the installation of a bridge at the site but higher than expected bid costs resulted in changing the plans to install a low water crossing at a savings of \$25,000.00. Concern about the close proximity of a low water crossing to an intersection may result in the decision being delayed until nearer the end of the project to see if enough additional funds might be available to install a bridge. Contrary to current rumors, council members and city management have said they have no plans to permanently close the street.

Play Day

There will be a play day

Saturday, August 3rd at the

Aspermont rodeo arena at 7:30

p.m. The age divisions will be 5

years and under, 6-9 years, 10-13

years, and 14-18 years. Trophies

will be given to first place in each

event and also to all-around in each

age division. Everyone will receive

ribbons. Entry fees are \$2.00 per

event. For more information call

Chamber Plans Activities For Haskell's Summer Sizzler

HASKELL, TEXAS 79521, AUGUST 1, 1985

WANDA DULANEY, Manager, Haskell **Chamber of Commerce**

Many merchants and organizations are completing plans for Haskell Summer Sizzler activities on Saturday August 10.

Sponsored by the Retail Merchants Association of the Haskell Chamber of Commerce, Donna Wilson, chairman, the purposes of the occasion are for a community get-together, fun, relaxation, fund raising opportunities for organizations and bargains for shoppers.

"Events are being planned for the entire day, and for all ages", Mrs. Wilson said.

Auction

At 4:30 p.m. an Auction will take place on the East side of the courthouse, coordinated by Tommy Long (Boggs and Johnson), Daryl Roberson (Western Auto), and Lois Richardson (Kids Duds). The auctioneer will be Paul Barnett. Merchants and individuals are invited to include all types of merchandise, with a limit of six items per person. The chairmen report that the interest among businesses is widespread and that many valuable items will be auctioned. Persons interested in participating may call Mr. Long, Mr. Roberson, or Mrs. Richardson for further details.

Other Bargains

Most Haskell merchants will be offering sale merchandise at their stores with prices reduced considerably during the Summer

Chairmen Doug Morrison (Ben Franklin) and Buster Gholson (Buster's Drive In Grocery) are contacting Haskell churches to invite them to sponsor game booths on Summer Sizzler Saturday. Interested church groups are asked to call the chairmen for further information.

Service Clubs

A variety of booths are being planned by some of the Service Clubs on Summer Sizzler Saturday, with several others considering booths also. Any organization needing details should contact one of the chairmen: Lois Richardson (Kids Duds), Sharon Alves (Video Vendor) and Sandy Horton (Sears).

Evening Entertainment Co-chairmen for the entertain-

ment at the close of the day's festivities are: Bettye McBroom (Hayloft) and Sam Rodriquez (Rodriquez Inn). These plans will be announced next week.

Ice Cream Freezeoff

As a part of the Summer Sizzler festivities in downtown Haskell on August 10, the Haskell Chamber of Commerce is sponsoring an Ice Cream Freezeoff on the East side of

According to chairman, Dr. Ed Harris, judging will begin at 4:30 p.m. for two age groups: 9-18, and over 18. No pre-registrations are planned, so entrants may pick up their entry form when they bring

NUMBER THIRTY-ONE

their ice cream no later than 4:15. Dr. Harris said the ice cream must be packed in ice and brought there by the contestant, with his name on the back side of the freezer, a copy of the recipe with no name on it, and each entrant is asked to bring a large spoon. After the judging, their ice cream will be sold to the public. Prior to that, members of the Chamber Board of Directors will furnish homemade ice cream to sell earlier in the afternoon.

Out of town judges will determine the winners, Dr. Harris said. Working with him as co-chairman is Jill Harris.

Several local merchants are donating money for gift certificates in both the youth and the adult divisions; first prize \$50.00; second prize \$30.00; third prize \$20.00. The certificates may be redeemed at any of the participating merchants.

Another highlight will be the Ice Cream Crank Off for which the Chamber is challenging the Lions, Kiwanis and Rotary Clubs to see which group can hand crank a freezer of ice cream to completion the fastest. Each is being asked to pay an entry fee, with the winner to take all. Each team will have three

Taxi Service, Removal Of **Museum Top City Agenda**

By Janet Wilke

Locating someone to operate Haskell's taxi service, opening bids on the old railroad museum, and reviewing departmental reports were some of the items on the agenda which the City Council handled last Tuesday July 23.

It was brought to the council's attention that the former taxi service operator, W.H. Pennington, would no longer be operating the service, and that there still existed a need for taxi service in the city.

The council is looking for applicants to fill the position. This service is not subsidized by the city, and the operator would be on

his or her own to make the taxi service profitable.

Those who are interested in the position may contact the city hall for more information. Applicants need to have a city permit in order to operate the service, and must be able to obtain, or currently hold, a chauffer's license.

The council accepted the bid of \$625 from Chief Escobedo for the purchase and removal of the old Railroad museum. The building had been located near the park, and the city was hoping that someone would purchase and move the building because of the problem it presented as a temptation to vandals. Escobedo told the council that the building would be moved in 90 days from its current location.

Workers and materials for the airport re-surfacing project are to arrive in Haskell soon, with the caliche top to be laid within 30 days, according to City Administrator Robert N. Baker. After the caliche is down, the paving can begin, and the project will be on its way to being completed.

Also in their discussion about th airport, the council members gav their approval for a survey of th airport area to be conducted. appears that the city may own mor land at the airport than they ha expected. More information on thi matter will be available after th survey is completed.

A budget workshop was set fo Tuesday night, July 30 whereb council members and cit administrator Bob Baker could have a chance to sit down and review th expenditures that must be faced b the next budget. One of the major areas of increase that the city looking at is the possibility securing employees insurance for the city workers. Another large item to be writte

into the next budget will be the cos for repairs on both of the city' water towers. This labor specialized, and will be contracte out. The city is looking at repairin both the inside and outside portion of the structure.

First Nat'l Bank Tops **Five Million Dollar Mark**

First National Bank, Haskell's newly chartered bank reached the five million dollar mark in total assets today according to Will Parker, Executive Vice President of the bank. As of July 29th, according to Parker, assets of the bank were \$5,155,918 with deposits at \$4,117,380.

Parker expressed pleasure with the new bank's growth and stated

"our growth is indicative of the potential of Haskell surrounding communities and v are looking forward to continued growth and service to the community." Plans, Park indicated, for the bank's 600 square foot banking home we finalized with the architect Monday and requests construction bids for the ne facility would be made shortly.

For the past ten years I have been privileged to attend Firemens Training School at Texas A&M University and each year proves to be more educational and enjoyable.

In addition to 30 hours of intense classroom and practical training the week long school features non-stop talk about fires. Students and instructors are constantly discussing new techniques, methods and equipment and the exchange of knowledge is unbelievable.

In addition, there are always a few funny things that happen and this year was no exception.

The week started with a Haskell fireman (who will remain unnamed) moving into the dorm and deciding to test a smoke detector. After all if he was going to live in the room for a full week he wanted to know if the smoke detector would work.

A slight puff of smoke from a cigarette activated the device but several frantic seconds of fanning fresh air failed to silence it. After several minutes of looking for a way to disconnect the appliance, a dorm maid quietly walked into the room picked a bright yellow piece of paper from the bed and handed it to the fireman, shook her head and walked out.

The top line on the paper said, "Please don't activate the smoke detectors--you can't turn them off". It went on to explain the procedure for contacting someone to solve the problem if a smoke detector did go

Only after the arrival of a campus security officer who quickly announced that he couldn't silence the device did the fireman mutter, "I wonder if the Ramada has any empty rooms?"

Dr. William J. Kemp **Reappointed To State Dental Examiners Board**

Dr. William J. Kemp has received word that Gov. Mark White has appointed him to a six year term on the Texas State Board of Dental Examiners.

The appointment marks the fifth Texas Governor under which Kemp has filled the position, for times serving as president of the Board.

First appointed by Gov. John Connally, Kemp has been appointed by Governors Smith, Briscoe and White and also served during the term of Gov. Bill Clements.

Dr. Kemp opened his dental practice in Haskell in 1949 and has served a total of 20 years on the State Board. That tenure is surpassed only by the late Dr. R.T.

Webber of Austin who served a total of 40 years on the board.

Santa Fe 2nd: Chad Ballard,

When you're a kid growing up in a little town, you tend to take the town and the people for granted. You move away and have your own life. Then suddenly, there's a big reason to go back...and you get the opportunity once again to feel the warmth of a town that cares about its own. Haskell is that kind of town.

Two weeks ago it reached out its arms to comfort me and mine in the loss of my precious dad, Ralph Merchant. Dad always loved Haskell and took great pride in the accomplishments of the people who lived there. He believed in you. Having a servant's heart, he wanted and did become personally involved in a lot of lives. Sometimes it worked out right, sometimes it didn't. But there's one thing that Ralph Merchant was always right about. Haskell is a wonderful place to grow up...and to die...because Haskell takes care of its own. Thank you for caring so much.

Watch Children During Hot Weather For Heat Exhaustion

children playing outside run the risk of heat exhaustion.

Children run a higher risk for several reasons, says Dr. Mary Ann Heussner, health education specialist with the Texas A&M University Agricultural Extension Service.

Children are prone to heat illnesses because they have more skin surface for each pound they weigh than adults, so they absorb more heat, she says.

Because children's sweat glands don't work as well adults until after puberty, their bodies don't

During summer weather regulate temperature as cups of plain water each well either. Children also take almost twice as long as adults to get accustomed to different temperatures, explains the specialist.

When children get involved in playing, they may ignore thirst, become overheated, fatigued and

To avoid problems with heat illnesses, Heussner recommends that children, and active adults, follow these guildlines:

•Drink at least eight

•Drink at least half a cup of cool water every 15 minutes during the activity. The body absorbs cool water faster than

•Weigh before and after the activity. Drink two cups of water for every pound lost during the activity.

•Drink water, since it is absorbed faster than electrolyte drinks, sodas and juices.

· Avoid salt tablets.

helping irrigators, being recognized more and more as a problem not on the farm, but beyond the farm gate too.

More than 65 million acres of the Nation's cropland is irrigated-almost three-fourths with furrow, or flood, irrigation and the rest with sprinkler systems.

Applying too much water--or applying it the wrong way, especially on sloping fields, erodes soil carries sediment, nutrients, and pesticides into streams, rivers and

Overirrigation can also cause water to percolate beyond the root zone into ground water and carry pollutants to underground supplies.

In some states, SCS field employees are using field water conservation laboratories to help irrigators conserve water.

SCS and other USDA, Federal, State, and local agencies are cooperating to help farmers develop irrigation systems that are compatible with local soils, slopes, crops, supplies, and climatic.

For help in assuring that your irrigation system is operating most efficiently, contact the local office of the USDA's Soil Conservation Service.

Second Lt. Larry K. Sanders, son of Kenneth and Brenda Sanders of Rural Route 1, Weinert, has graduated from U.S. Air Force pilot training, and has received silver wings at Reese Air Force Base, Texas.

He is a 1984 graduate of the U.S. Air Force Academy, Colorado Springs, Colo.

Hermann Sons Membership **Drive Underway**

A "Campaign to Secure More Members" will be conducted from Aug. 1 to Nov. 10 in all 159 lodges of the 81,000-member Order of the Sons of Hermann in Texas, Louis B. Engelke of Antonio, grand president, has announced.

The lodges are located in 141 cities and towns across the state.

On July 14 more than 800 lodge leaders from around Texas met in San Antonio, home office site of the fraternal society, in a rally for the campaign. This rally followed a seminar attended by some 140 local membership lodge representatives.

Hermann Sons in Texas dates back to 1860 when Harmonia Lodge No. 1 was being organized in San Antonio. The lodge was officially chartered July 6,

Originally part of a national society founded in New York in 1840, Hermann Sons in Texas became autonomous in 1921. Headquarters are located in San Antonio where the Grand Lodge was established in 1890.

The order in Texas operates a retirement home to enter various contests for aged members and a youth summer camp, both Comfort, and will be at Pioneer Hall with sponsors 30 dancing Larry Sanders of "Photo schools for its junior Focus" fame in Abilene members. Local lodges returning as judge. sponsor both social and benevolent activities. As required by law, the Sanders had identified fraternal benefit society categories for the contest also provides life insurance as for the benefit of adult and people, junior members.

Have you ever considered just how much money it Service Education workwould take per year to run the City of Haskell?

I asked this question of City Administrator Robert Baker, recently, and the answer is astonishing.

To run Haskell for one year, the price tag comes out to Education Department of about \$1 million. Actually the costs to run the city for a the year are higher than that, but that was the figure given at Agency, Austin, under the the bargain-basement level budget.

This figure doesn't include the salary increases, costs for Director, new equipment, or money for a major overhaul or a major Agriculture Education. problem. This money would have to come out of the cashon-hand fund in the bank, which is generated by the city's CD's and investments.

While I realize that some people continuously complain Perry. about the tax rate in Haskell, it might be well to know that this city's tax rate is the lowest in the state, except for those Session will begin at 9:00 cities who have oil floating on top of the ground!

money come from? I am sure that the Council and City Manager Bob Baker, have had some sleepless nights

We, as citizens together in this town, need to look really close at the possibility of a tax increase in order to see that the goods and services that the city provides for us is not cut because of lack of necessary funds.

COMPOUND INTEREST (The Eighth Wonder)

Suppose you were offered the following choice of wages for 30 days of work: (a) A flat \$10,000 or (b) a penny the first day, two cents the second day, four cents the third day, and so on, with each day's pay doubling. The \$10,000 sounds very attractive, doesn't it? And working for pennies even then they're doubling each day can't possibly add up to as much, can it? Well, the fact is that the doubling pennies will add up to

\$5,368,709.12 at the end of the 30th day. That's a very simple illustration of the power of compounding, a phenomenon some call "the eighth wonder of the world." Earning compound interest on an investment is simply earning interest on interest. The interest earned each year is added to the principal amount, and over a period of time a small amount can grow into a surprisingly large amount. In the illustration the compounding rate is 100% per day. A more down-to-earth example is putting \$1,000 into some investment. If the investment earns 8%, compounded annually, your \$1,000 will grow to \$10,063 in 30 years. At a 10% rate, it will grow to \$17,449; at 12%

Certain hand calculators can quickly compute accumulated sums for specific interest rates. You can also use a very simple method and get a close estimate. It's called the "Rule of 72," a formula that tells you how long it will take to double your money with annual compounding at various rates of return. Divide 72 by your rate or return; your answer is the number of years it will take to double your money. For example, \$1000 invested at 8% will double to \$2000 in 9 years; invested at 10% it will double in 7.2 years, and at 12%

it will double in 6 years. The other side of the coin is inflation. The yield on your investment must exceed the rate of inflation or you lose ultimate purchasing power.

GINA CALK

Gina Calk Represents PCHS In Queen Contest

Gina Calk, age 15, a sophomore at Paint Creek High School, represented PCHS for title of Six-man Coaches Association Clinic and All-Star game queen July 20 in Stephenville.

The clinic's all-star basketball and football games were held Saturday, July 20, at Tarleton State University. Teams from all over the state are represented in the all-star games, and each team enters a contestant in the queen's contest.

Twenty-eight ladies entered the contest. Laura Baker of Christoval H.S. was chosen as the All-Star Queen for 1985 during halftime at the six-man All-Star football game at Tarleton State Memorial University's Stadium.

Gina is the daughter of Mr. and Mrs. Max Calk of Paint Creek.

You are hereby commanded to

appear and answer before the

Honorable 39th District Court of Stonewall County, Texas, at the Courthouse of said county in Aspermont, Texas, at or before 10:00 o'clock a.m. of the Monday next after the expiration of 42 days from the issuance of the citation herein on July 22, 1985, which appearance and answer date is September 9, 1985, then and there to answer the fourth amended petition of Dean Hagler, Clinton Hagler, Larry Smith, Tommye & Joe Foreman, D.S. Ellis Oil & Gas, Inc., Leslie Gordon Irvin, and David Hoy, plaintiffs filed in 1985 against Charles Harrell, Norma Harrell, Trail Oil & Gas Corp. and Norcha Operating Corp. defendants, being cause #3596 on the docket of said court, styled, "Glen Rock, et al vs. Trail Oil & Gas Corp., et al", the nature of which suit is an action for breach of contract, fraud and other statutory and common-law causes of action involving malfeasance in the development and operation of the Trail-Ellison lease in Stonewall County, Texas and to divest your working interests and other undivided interests in said oil, gas and mineral lease in the following described land situated in

Stonewall County, Texas to wit: The S.E. 1/4 of Section 104, Block D, H&TC Ry. Co. Survey, Stonewall County, Texas, containing 165 acres, more or less, recorded in Vol. 286, page 96, D/R, Stonewall County, Texas.

/s/ Betty Smith District Clerk Stonewall County, Texas

July 22, 1985 NOTICE OF BUDGET HEARING PAINT CREEK INDEPENDENT SCHOOL DISTRICT

The president of the Board of Trustees of the Paint Creek Independent School District, pursuant to Section 23.45 of the Texas Education Code and Article 29e, V.A.T.S., has called a meeting of the Board of Trustees for the purpose of adopting a budget for the 1985-86 fiscal year of the district, that shall cover all expenditures for the fiscal year.

The meeting shall be held on the 12th of August, 1985 at 8 o'clock p.m. in the Superintendent's Office of the Paint Creek School in Haskell County, Texas. Any taxpayer of the district may be present and participate in the hearing.

Card of Thanks CARD OF THANKS

We, the family of W.B. Hill, Sr. wish to extend our warmest appreciation and gratitude to our wonderful and thoughtful friends. We thank you for the memorial gifts to the West Texas Rehabilitation Center, the food, flowers, cards and expressions of love and comfort you so freely and lovingly gave. A special "thank you" to Dr. Frank Cadenhead, Dr. Wayne Cadenhead, Dr. Joseph Thigpen and the entire nursing staff at Haskell Memorial Hospital. We appreciate the loving and excellent care you gave our 'Papa''. He had many special friends and a deep love for Haskell and the surrounding communities. We, his family, thank God for people like you-what you meant to him and mean to us-especially at this time. Again, thank you and may God bless each of you. In God's love, the Hill family. 31p

CARD OF THANKS I want to thank all my friends for their kindness and help. Also special thanks to Dr. Frank Cadenhead and the nurses. Myrtle
