Iowa Park **Next Foe** For Indians Funds Okayed

Haskell's Indians face another toughie this Friday when they travel to Iowa Park to meet the 3-1 Hawks in their last non-district

Iowa Park suffered its first loss last week when Stamford upset the Hawks 21-7

game of the year.

Coach Harold Hill of Haskell described the Iowa Park team as 'big and strong." They run out of the Wing T and they run right at you, much like some of these other good teams we've faced," the

Meanwhile, Haskell is coming off a 7-0 loss to Quanah, in a game which the Indians came close to

The coach was pleased with the Indians' performance at Quanah. He said youth and inexperience cost them their first victory of the year.

He attributed the good performance to a change in defenses, going from the split 4 to a 26 alignment. "It was simpler, and we looked a lot better," he said. The coach singled out Steven Rodriquez for an especially good performance from his defensive halfback position.

The state has approved \$270,000 for street and water improvements in the southwest part of Haskell.

Street, Water

City Administrator Robert Baker told members of the City Council at their meeting last Tuesday that he has been notified by telephone of the state's approval. He also said the state has indicated there is a good possibility that the entire request of \$400,000 will be granted.

The administrator said that official word will be forthcoming as soon as the governor releases the information. This, he said, is expected soon.

Covered in the planned project are 42 blocks of paving, several blocks of new water lines and about 10 fire hydrants. If the full funding is not okayed, Baker said part of the paving project will be dropped from the project.

Upon official notification of the state funding, the city will order surveying, plans and specifications for the sewer-water project. About two months thereafter, it will be ready to open for bids.

Council members also received status reports on the airport and the creek projects.

Baker told them that the airport renovation project is complete and the airport is now open to general aviation. The runway has been completely renovated and new lights have been installed.

It is estimated the creek project will be completed in about six weeks. All crossings still need to be paved and thee is some work to do in cleaning the channel.

Councilmen voted to order Christene Greene to remove a carport she has built at her home located at 208 N. Ave. E. It had earlier been learned that the carport extends approximately 10 feet onto city property.

Immediately after the city's action on this matter, Erby Wolfe withdrew a request for a building permit to construct a carport on his apartment property. The proposed carport also would have extended onto city-owned property.

In other action, the council: Approved a zoning change for lots located at 1002 N. Ave. M from single family residential to allow Robert Phariss to park a trailer

•Cast all 200 votes allocated to the city for the reappointment of Pat Hill to the Appraisal District Board.

 Heard a presentation by Clayton Neal requesting the city's financial assistance in purchasing pins advertising the community. The plastic pins would be passed out at meetings, conventions and other gatherings, Neal said. No specific amount from the city was requested as Neal said he would be contacting local civic clubs to participate in the project. When the number of participants is know, the city will be asked to contribute a specific amount. Neal said the total cost would be \$1,000.

•Conducted the second public hearing on annexation of the sewer plant. Since there were no protests, the city will pass an ordinance within 40 days which will bring the property into the city.

A column has recently been circulating around West Texas newspapers which was originally published in the Friona Star in

thought the column especially appropriate since the Free Press hired a new editor last

THE POOR EDITOR

Consider the editor! A child is born unto the wife of a merchant in the town. The physician getteth 10 plunks. The editor writeth a stick and a half and telleth the multitude that the child tippeth the beam at nine pounds. Yea, he lieth even as a centurian. And the proud father giveth him a cigar.

Behold, the young one groweth up and graduateth. And the editor putteth into his paper a swell notice. He telleth of the wisdom of the young woman and of her exceeding comeliness. Like unto the roses of Sharon is she and her gown is played up to beat the band. And the dressmaker getteth two score and four iron men. And the editor gets a notice of thanks from the sweet girl graduate.

And the daughter goeth on a journey. And the editor throweth himself on the story of the farewell party. It runneth a column solid. And the fair one remembereth him from afar with a picture postal card that costeth six for a jitney.

Behold, she returneth, and the youth of the town fall down and worship. She picketh one and lo, she picketh a lemon. But the editor calleth him one of our promising young men and getteth away with it. And they send unto the editor a bid to the wedding and behold the bids are fashioned in a far city.

Flowery and long is the wedding notice which the editor printeth. The minister getteth 10 bones. The groom standeth the editor off for a 12-months subscription.

And flesh is grass and in time the wife is gathered unto the soil The minister getteth his bit. The editor printeth a death notice, two columns of obiturary, three lodge notices, a cubit of poetry and a card of thanks. And he forgetteth to read proof on the head and the darned thing cometh out, "Gone to Her Last Roasting Place. "

And all that are akin to the deceased jumpeth on the editor with exceeding great jumps. And they pulleth out their ads and canceleth their subs, and they swing the hammer even unto the third and fourth genera-

Civic Center Seeks Donations For Furnishings

Donations are being accepted to pay for the 106 tables and 636 chairs which have been ordered for the Haskell Memorial Civic Center.

Each set of one table and six chairs is priced at \$125. As of Monday, about 36 families, individuals and businesses had made donations of \$125 each.

Those wishing to contribute to the project may make their donations to Carolyn Everett at Haskell National Bank or to Fire Chief Tom Watson. Or they may use the handy form which is printed elsewhere in this issue of The Free

Fire Issue

Next week's issue of the Haskell Free Press will contain a tabloid section saluting the Haskell Volunteer Fire Dept. and its members.

In observance of National Fire Prevention Week, the section will feature each member of the department.

TWO-PRONG ATTACK It's wheat-sewing time in Haskell County. Here, a tractor pulls a lister and two wheat drills on the J. R. Perry farm, eight miles south of Haskell

RECEIVES MARTIN AWARD

Laurie Hester, right, is this year's recipient of the F. W. Martin Memorial Achievment Award, presented annually by Mrs. Mary H. Martin, left. Laurie displays her individual plaque which signifies her selection. Her name was added to the large plaque held by Mrs. Martin, which hangs in the County Extension office.

aurie Hester Named **Martin Award Winner**

Fifteen-year-old Laurie Hester of Weinert is winner of the F.W. Martin Memorial Achievement Award, given annually to a Haskell County 4-H girl or boy by Mrs. Mary H. Martin.

A sophomore at Weinert High School, Laurie is the daughter of Mr. and Mrs. Jerry Hester.

She has been a member of her local 4-H Club for seven years, during which time whe has carried three main 4-H projects: foods and nutrition, clothing and swine.

Laurie has participated in county and district food shows and state livestock shows.

In her local 4-H Club, she has served as reporter, council delegate, secretary and president. She also has served as the secretary-treasurer for the County 4-H Council.

The recipient is active in school activities. She plays volleyball and basketball and runs track. She is her school's mascot and is a member of Future Homemakers of America.

Laurie attends Weinert Baptist Church where she keeps the nursery and sings in the choir. She is a member of the church's youth group and Acteens.

Laurie enjoys babysitting, playing the piano and doing cross stitch. She plan's to attend college and then some day work with children.

The F.W. Martin Memorial Achievement Award was established in 1977 to honor the life and achievement of F.W. Martin, who served as Haskell County agent from 1944 to 1967.

Guidelines used to determine the winner are: achievement in 4-H activities; responsible citizenship, leadership ability, scholastic excellence and service to club,

school, community and church. Agents currently serving Haskell County make a list of 4-H members considered worthy of the award. Mrs. Martin contacts 4-H leaders, school officials and other persons and then makes the final decision.

Deadline

Time is running out for unregistered voters to register to be elegible for the Nov. 5 constitutional ammendments election.

Those wishing to register in person must do so at the Haskell County Tax Collector's office by the close of business Friday in order to be eligible to vote Nov. 5.

Postcard registration applications must be postmarked no later than

School Funds Based On October Attendance

Attendance at Haskell schools is all-important during the month of

October. Dr. James Kemp, superintendent, said this week that attendance records for October and March will be used by the State in calculating state funding for the school.

The state pays the Haskell school approximately \$1,774 per student, based on the average daily attendance during the two months. With approximately 600 students, Haskell should approximately \$1,065,000 from this

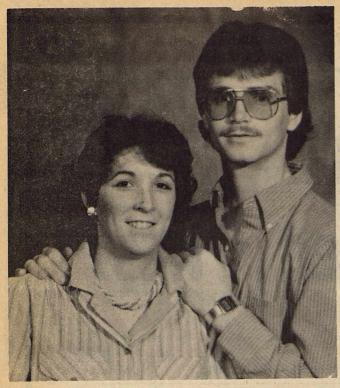

Under a program initiated last year, attendance figures are weighted, meaning that one student does not necessarily count as one person. He may be considered more than one or less than one under the Full Time Equivalent (FTE) system.

Also, unlike former years, the school system will receive its state allocations for this year based on this year's attendance. The state estimates attendance figures in the early months of the school year until the October figures are in. It

then adjusts subsequent disbursements based on the actual attendance records.

Until last year, disbursements were made on the previous year's attendance records.

Dr. Kemp said no special emphasis is being placed on October attendance since normal attendance is 94 or 96 percent. He did say that some schools, especially larger ones, often provide incentives and gimmicks to get attendance figures as high as possible during the recording

PREPARING YOUR TAX RETURN

(You or An Accountant?) The income tax that you pay is probably

one of your biggest annual expenditures. Deciding whether to prepare your own tax return or have it prepared by an accountant is, therefore, an important decision.

In view of the frequent changes in tax law over the past several years, the taxpayer who tries to learn enough to do his own return might feel like he's trying to take a drink from

If your circumstances involved any of the following events in 1984, seeking an accountant's assistance with your tax return makes good sense in both time and money. you are likely to save: marriage, divorce, a move to a new state, starting a new job, going into business for yourself, starting retirement, selling your home, or selling a business or an investment asset.

The 1984 Tax Act changed the rules in a number of areas and if any of them pertain to you, a professional tax preparer will be worth his fee. Areas of change include income averaging, tax shelters, depreciation allowances, medical expenses, interest free loans, requirements for estimated taxes, capital gains, property transfers in divorce, dependency exemptions in divorce, alimony, and recordkeeping requirements on business equipment.

Tax filing time is an excellent time to analyze your general financial situation and make adjustments where needed. An accountant can assist in this analysis with sound, objective advice. It's a good time to establish a relationship with an accountant to begin your 1985 tax planning. Select your accountant as you would any professional advisor. Find one with whom you are comfortable and who provides the services you want.

Opinion

A Tip Of The Hat

All Haskell County emergency units deserve a tip of the hat and a great big vote of thanks for the manner in which they performed last Tuesday following the horrible

Thanks to firemen, ambulance personnel and law enforcement officers, an even more serious disaster may well have been prevented.

Members of these emergency units arrived on the scene without knowledge as to what the oil tanker contained, but this lack of knowledge did not deter them from their dedicated duties. It's hard to imagine that a single one of them did not consider the potential consequences of an overturned tanker truck containing an inflammable and explosive cargo. But is any of them did, it was not apparent to anyone of the many who watched them perform.

Knowing that such personnel are ready and willing to do what is necessary in such situations gives us all a feeling of security.

Haskell Stacks Up Well

Those who travel through towns of Haskell's approximate size no doubt are conscious of how favorably this community stacks up with others of comparable assets.

It is difficult to find a town of 4,000 or so population without a number of vacant buildings, boarded-up store fronts, broken windows and other signs of economic decay.

Some towns are actually gaining population and at the same time suffering from delining business. Merchants in these places have ceded the battle to the neighboring larger cities, drawn closer by modern highways, freeways, huge

chains, massive advertising and customer egoism which falsely dictates that you can get it cheaper and better in a larger city.

Haskell, therefore, is somewhat unique in that it still maintains a healthy business climate, modern stores which offer the needed goods and services demanded by the people it serves, a loyal customer base and a trade territory comprised of individuals who appreciate what they can get here.

It's a two-way street, and most everyone appears to be holding up his end of responsibility. That's one of the big reason why Haskell is not like a lot of towns its size.

Sculpting Classes Set

A special sculpting class in "bronze sculpture" will be offered by the Division of Continuing Education of Vernon Regional Junior College. Jack Stevens of Iowa Park, a well-known sculptor will be the instructor for this much requested class. Students will sculpt their own piece

All students will need their own small sculpting tool at a cost of approximately \$2. Students will observe, at a safe distance, the pouring of the bronze. Due to the intense head and safety hazard, foundry workers only will complete the casting of the sculptures in bronze.

Oh!...For That Coffee Can Of Old

Moving--as I have just done-often uncovers some longforgotten items.

Buried in a store room between treasures and junk the other day was an old-style coffee can, containing nails, pins, a piece of wire, an empty razor blade dispenser and three Coca Cola bottle caps.

The contents, of course, were of no value, but the container brought back memories of that now-extinct squat can which served so many purposes in days

Any grown person today is old enough to remember that kind of can. It was short and fat, giving it a shape which was just right for dozens of things.

Its wide mouth was an easy

By WENDELL FAUGHT

target for snuff-dippers and tobacco-chewers. And since there was room inside for a man to manuever his hands, it was ideal for screws, bolts, nuts and

We used them for water

In the first grade, we brought our money to school to buy flowers for Will Rogers' funeral and dropped our pennies in one of those cans.

Talk about versatility! Those receptables for our chickens and cans had it! You didn't open I remember a house painter who them with a can opener and you carried small batches of paint, didn't close them with a flimsy turpentine and other necessities plastic cap. They opened with a in those cans around in his truck. key which cut a narrow strip of Walking to school as a child, I metal a fraction of an inch from used to pass a service station the top, enabling you to remove where a group of elderly men the top. And then the top could would gather each day to play be replaced snugly on the can. checkers and dominoes, and they When empty of its original kept both their checkers and contents, this enabled the can to their dominoes in those coffee be used to store things which

needed to be sealed--important things like candy, cookies and stink bait.

Some kids even brought their lunches in those cans to school and it took very little ingenuity to convert one into an Easter egg basket. Any ex-GI of my era will recall how the Army used them for "butt cans" by attaching them to barracks posts and adding a little water.

Some years ago, the people at Folgers, Maxwell House, Maryland Club, etal, got their heads together and decided that the public (or the coffee companies) could be better served if coffee was packaged in a more traditional container.

And an American institution

Dear Editor:

An expression appreciation certainly is in order to all those who participated in the rescue of the injured woman following last week's cartruck collision in Haskell.

Its a great feeling to know that emergency situations in community are handled by this kind of people. Not only are they true professionals in every sense, but their personal interest in their jobs and their dedication community service add another dimension to their impact upon our feeling of security.

Our sincere thanks to members of all law enforce-

ment agencies, the fire following letter, from Dear Folks: department and the Janice (Scott) Stewert. ambulance crew for your very successful efforts

Letters To The Editor

(EDITORS NOTE: The Haskell Free Press will publish letters

to the Editor dealing with any subject. All letters must be

signed but names will be withheld by request. All letters are

The Sam Scott family (Sam, his wife Octavia and dangerous three children, Juanita, conditions. We're proud of George and Janice) lived in you, and we're proud of our Haskell Co. about 45 years before moving to Boyd, Texas. Sam passed away just a few years ago. Now Octavia is ill and so many of their friends are asking about her that I thought they would like to read this letter.

O.W. Tooley

This letter is to tell all of you about the condition of Octavia Scott.

First, I want to thank you for your calls, visits, cards, letters and flowers. It is great to realize how many people have expressed their concern since Mother became ill. I wish I had the time to thank each of you personally, but, there are and so many of you and I do not recommended that she get wish to leave anyone out. a Pacemaker and arranged appreciate your

interest and concern.

To those who may not have heard exactly what her illness is, I will try to give a brief explanation. On Aug. 29, she went to her doctor here in Boyd. He had been treating her for high blood pressure and after getting it under control, he did an EKG to check for heart damage. After seeing the result, he immediately made an appointment with a heart specialist in Ft. Worth. The heart specialist put her in the hospital in Ft. Worth for further test.

By the next day (Aug. 30) her heart beat was shown to be very irregular too slow. He

Vets Sometimes Overpay

According to C.H. Herren, Veterans Service Officer for Haskell County, veterans often create problems with overpayments in GI Bill school benefits because they fail to keep the Veterans enrollment period, the Administration informed of their classroom status.

Veterans attending school under the GI Bill are awarded monthly payments from the VA based upon their course load. A

INDIANOLA QUEEN CITY OF THE WEST QUEEN CITY OF THE WEST... Indianola, Texas' first scaport, was called "Queen City of the West." French explorer La Salle used it. The European immigrants of the 1840's and 1850's set foot on Texas soil there. Indianola suffered four plagues of cholera, Union occupation, and a great fire; but she always came back. On September 17, 1875 a hurricane leveled the "Queen City." She was never rebuilt. HASKELL NATIONAL BANK 864-2631 • 601 N. First Haskell, Texas • Member F.D.I.C.

to put it in that afternoon. Before the permanent one could be installed it became necessary to put in a temporary one. She made it through the surgery fine and was able to come home on Sept. 3.

She seemed to be improving rapidly and by Sept. 6 was able to go to a family (Scott) reunion at Bastrop. That evening at supper she had a stroke and was rushed to the local hospital. Sept. 7 she was brought back to Ft. Worth by Careflite. She remained in intensive care until Sept. 13. She was released from the hospital Sept. 19.

Three From Area Make Honor Roll

Three Haskell area students have been named to the summer quarter honor rolls at Texas State Technical Institute in Sweetwater, according to Dr. Herbert Robbins, campus president.

Ray Burnett of Haskell and Lane Herttenberger of Rule were listed on the Campus President's Honor and is carrying 12 semester enrollment period began. Roll in the Electronic Technology Servicing

Gonzales of Gilbert Haskell was listed on the Dean of Instruction's Honor Roll in the Electronics Servicing Technology program.

To be eligible for the Campus President's Honor Roll, a student must maintain a 4.0 grade point average in all casses for the quarter. Students maintaining a 3.5 to 3.99 grade point average, qualify for the Dean of Instruction's Honor Roll.

Registration and the first class session for Adult Basic Education will be from 6 to 9 p.m. Monday in Room 106 at Haskell High School. The three-hour classes will be held at the same time each Monday.

County Junior College for two

All materials and instruction are furnished at no charge to the

Classes are preparatory for the

General Education Development language. (GED) test which is given every Tuesday and Wednesday in Abilene. The program has helped many in the community to obtain the GED certificate, equivalent to a

high school diploma. Courses also will be offered at these sessions to those desiring to learn to speak English as a second at 864-3004.

The Adult Education program is provided by the State of Texas, in cooperation with the Haskell Independent School District.

Complete information will be available to those attending the Monday session. Or interested persons may call Melodee Christian

Stratton Fund Planned

A fund is being established at Haskell National Bank for the benefit of Mrs. Sherry Stratton who was seriously injured in a car-truck collision in Haskell last Tuesday

Mrs. Peggy Mathis of Rule, a friend of the injured woman, said persons wishing to help the Stratton family may make donations at the 14-year-old daughter, moved to

Friends said the family has no income and had no insurance except on the car.

Mrs. Stratton's husband, Byrd, had recently taken a job in North Carolina, but he had to give up his job and return here when his wife was injured.

The family, which includes a Rule from North Carolina four years ago. They moved to Haskell several months ago where Mrs. Stratton worked at a rest home and a grocery

Stratton's condition remains serious, but stable. She is expected to remain hospitalized at Hendricks Medical Center in Abilene for three or four more weeks. She is in room 4718.

Foursquare Church.

color film, is a sequel to Mark IV Pictures' 1973 release, "A Thief In the Night." It begins where "Thief In The Night"

Patty, the leading character in "A Thief In The Night," is among a held prisoner because they have not received the Mark of the Beast. Since the day Patty awoke and found Jim, her husband, had of the questions raised by disappeared, she has suffered grief, loneliness, hunger, and fear because of the Evil One that works for the control of the world.

Patty and her two friends,

Wenda and Sandy escape The picture, a 78-minute the attention of the authorities for a time. When Wenda and Sandy

attempt to help an elderly man, they are arrested by an armed patrol. The girls succeed in warning Patty that their hiding place has been discovered. Patty makes a daring attempt to large number of people outwit the soldiers sent to sieze her. Audiences are thoroughly engrossed with her predicament.

The film answers many recent motion other pictures. Events foretold in the Bible as part of the Great Tribulation are vividly portrayed in "A Distant Thunder".

Exchange Students Data Available

Information is available to any Haskell area student interested in becoming an exchange student in Germany, Scandinavia, France. Switzerland, Britain, Holland, Spain or Canada.

Those interested should contact Carroll Draper, 4, Box 33, Comanche, Texas 76442, phone 915-966-3588.

Qualified high school

students are being offered the opportunity to spend an academic year or six-week summer holiday in these countries.

Students, 15-18 years old, qualify on the basis of academic performance, character references and a genuine desire experience life abroad with a volunteer European or Canadian host family.

The exchange program is sponsored by International (formerly American Scandinavian Student Exchange), which is officially designated as Haskell. an exchange visitor MUST SELL: 1985 Kawasaki program by the U.S. KX125. Raced only 3 times. Information Agency.

ASSE families in Europe and Canada are carefully screened to provide a caring environment in the host country. Summer exchange students live with a family abroad which speaks English.

Indians Lose Close One To Quanah By 7-0

By Wendell Faught

victories counted, the Haskell Indians would have won their first football game Friday.

But the official record will show that the Indians went down to their fourth consecutive defeat, losing 7-0 at Quanah by virtue of a fourth-period touchdown by the host Indians.

Coach Harold Hill's pregame forecast that the Indians would be ready to play proved to be an accurate one.

The coach didn't predict that Haskell would win, but wipe out a costly clipping penalty which erased a 38-yard touchdown jaunt by Kendall Larned and a last-period pass interception by Quanah which set up the game's only score, and the Indians would have done just that.

Quanah got its touchdown with 4:35 remaining when freshman Setrick Dickens bolted over from a foot out. The scoring play climaxed a three-play, 26yard drive which had started when Quanah's Greg Johnson intercepted a Haskell pass at the Haskell

Actually, the game was divided into two contrasting halves. Haskell completely dominated the first half, holding Quanah to a single first down and a scant 44 yards in total offense. Haskell had five first downs and 90 yards in offense during the first two periods, but the generous visitors twice coughed up the ball on fumbles. In addition, they suffered the effects of three penalties, including the 15-yard stepoff which wiped out their touchdown.

Haskell surrendered the ball on its own 35 on the very first play from scrimmage. Then after two exchanges of the ball, the Indians again fumbled to Quanah.

The Indians got their offense cranked up midway through the second period. Taking over on their own 23, and then being penalized back to the 13, they moved all the way to the Quanah 5. The drive featured a 25-yard run by Joel Torres, a 14-yard pass from Young to Ponciano Lopez and a 23-yard aerial from Felipe to Sam Baker. Also included was Larned's 38-yard TD scamper which went for naught.

After Larned's sevenyard gainer put the ball on the 7, Johnny Castillo picked up two yards to the 5. But Arredondo was hit for a five-yard loss. On fourth down, Arredondo picked up three to the 7, three yards short of a first down, so the Indians gave up the ball with 49 seconds left before intermission.

128

6-34

6-50

182

Haskell

48

On Quanah's first play from that point, Len Winter picked up five yards to the 12, where he fumbled and Baker recovered for the Indians. But with a first down from the 12, Haskell fumbled the ball right back to Quanah. A few seconds later, the scoreless first

half came to a close. The second half belonged to Quanah. The hometown Indians' Rusty Brawley returned the second-half kickoff from the 12 to the 35, as Quanah began a ball-control, timeconsuming drive which the Indians finally shut down when Larned nailed Quanah's Dickens for a five-yard loss and Torres broke up a Brawley pass.

Late in the third period, Quanah took over on the Haskell 36 and marched to the 21, from where Johaquin Jalomo's field goal attempt was no good. Three plays later,

Quanah had the ball again, thanks to the pass interception by Johnson. Jay Knight promptly passed 24 yards to Dickens to the 2. Fred Shaw and Andy Griffith stacked up Winter just short of the goal, but on the next play, Dickens

8th Grade Loses, 22-6

By Val King

The eighth-grade Warriors faced Stamford Bulldogs last Thursday. The final score was 22-6 in favor of Stamford, but that doesn't tell the whole story.

Early in the game, both the Warrior offense and defense looked rounded with an interception by Shane Osborn and some good offensive drives that fell short of the goal

Rodney Johnson ran a kickoff back 55 yards, but couldn't score. The only score came from Salvador Rodriquez, but the point after was missed.

The Warriors were hurt mainly by small mistakes and their inability to get GAINER across the goal line.

The Warriors will face the Hamlin Pied Pipers at 6 p.m. Thursday in Hamlin. leaped over all defenders to as the clock expired. rack up the touchdown.

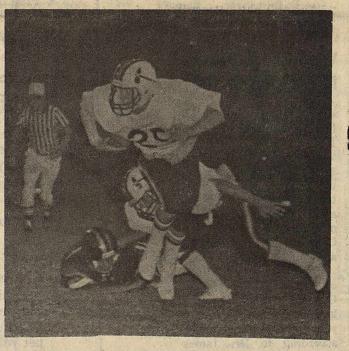

Jalomo's kick made it 7-0. After an exchange of possessions, Haskell had one last chance. The Indians took over on their own 6 after a rolling Quanah punt went out of bounds with 18 seconds left. Castillo ran six yards to the 12 and then Young passed 13 yards to Torres

Statistically, the game was just as close as the score. Quanah held 9-7 first-down advantage and a light 128-139 edge in rushing yardage, while the Indians' 54-24 advantage in passing yardage gave them an overall total offense margin of 182-163. Haskell ran 48 offensive plays, to Stamford Quanah's 53.

GOOD EFFORT

Haskell's Joe Torres breaks up a Quanah pass in this third-quarter action Friday night. The incompletion, coming on third down, killed a Quanah drive which had begun with the secondhalf kickoff and had carried to the Haskell 32.

Mark Young of Haskell picks up yardage on this play during the Haskell-Quanah game Friday

7th Graders Beat Stamford

By Lance Hanson The seventh-grade Warriors hosted the Stamford Bulldogs Thursday afternoon and defeated them 25-8.

'The kids weren't as intimidated this week; they were more aware of the game and everybody gave a good effort," Coach

George Martin said.

The offensive unit did a good job this week. David Foreman scored the first time on a 26-yard quarterback keeper. Jay Miller kicked the PAT.

Rusty Stocks took an option pitch and ran 32 yards for the second touchdown of the afternoon.

The next score came when Jay Miller rammed through the line and ran 40 yards for another six. Miller also scored the last touchdown with a 26-yard

The starting offensive team this year includes David Foreman, Rusty Stocks, Jay Miller, Jason Davis, Chris Brown, Steve Quattlebaum. Chad Gibson, Renee Garcia, Adam Coleman and Eric Harvey. Raul Chavez and Rod Jeter switch in and

The Warriors will face the Hamlin Pied Pipers there Thursday afternoon

V-ballers Win Game

Weinert volleyball team traveled to Knox City Monday for their first district game. The girls came out victorious by defeating the Houndetts, 11-15, 15-11, 15-7.

The girls played very well after losing the first game. They came back and won the next two to take the match.

Kelly Earp and Karen McGuire spiked the ball well, with help from Darla Griffis and Laurie Hester setting the ball. Stacia Adams served and all of the girls played good defense.

This was the first district game for each team. The same two teams will meet again Monday for another district game in Weinert.

This weekend, Weinert will be in the Asperment tournament. First game will be against Clyde.

Hamlin

Second-ranked Hamlin continued to mop up on non-district opposition last week as the unbeaten Pied Pipers crushed Roscoe 31-0. Roscoe had been ranked fifth in Class A.

The only other district 6-AA team to win last week was Stamford, which upped its record to 3-1 with a 21-7 victory over Iowa

Anson saw its record dip to 2-2 after losing, 54-6, to Munday, the state's top-ranked Class A team.

Hawley (1-3) lost, 40-20, to Class A Knox City; Haskell (0-4) bowed to Quanah, 7-0, and Rotan (0-4) was clobbered by Clyde, 44-7.

DISTRICT 6-AA

LAST WEEK'S RESULTS

Hamlin 31 Roscoe 0; Munday 54 Anson 6; Stamford 21 Iowa Park 7; Knox City 40 Hawley 20; Quanah 7 Haskell 0; Clyde 44 Rotan7.

THIS WEEK'S GAMES Stamford; Hawley at Early; Haskell at Iowa Park; Bangs at Rotan. **DISTRICT 46-MAN**

Cooley than passed 12 yards to Mickey Burkett with 20 seconds left in the third quarter for the score. The extra point made the score, 39-14.

The fourth quarter had just gotten underway when Forehand ran 36 yards for a touchdown. converted.

Then with 7:28 left in the fourth quarter, Forehand passed 30 yards to Louis Perez for a touchdown. White again made the extra point to make the score, 55-14.

Borden County got its iast touchdown when David Martinez ran two yards with 2:42 to go. The extra point attempt failed.

The Coyotes then kicked off to the Bulldogs and Robert Estrada took the ball and ran it back 54 yards for a score. The extra point attempt failed, leaving the score 61-20.

Weinert's next game will be Oct. 12 at Rochester.

Whooping Cranes May Number 100

Federal and state wildlife biologists hope an even 100 whooping cranes will arrive at the Texas coastal marshes during October-the largest population of the endangered birds to make the 2,600-mile migration since Canada-Texas migrants hit a low of 18 birds in 1938.

Excellent water and food conditions in the cranes' Canadian nesting area helped the birds fledge 16 young during the summer, according to Dr. James Lewis, whooping crane coordinator for the U.S. Fish and Wildlife Service. He said the chicks are exceptionally healthy and larger than normal for their

Texas Parks and Wildlife Department officials said Texas hunters, landowners and others should be on the alert for migrating flocks of the whoopers as they pass southward through the state.

Whooping cranes are America's largest aquatic bird. They weigh about 16 pounds and stand five feet tall, with a wingspread of more than 7 feet.

AT POWER LINES!

NEVER SHOOT AT POWER LINES or the insulators that hold them, because the result could be a dangerous downed electric line. A severed line

could cause a serious electrical outage. and the downed line itself could be extremely hazardous.

ADDITIONAL SAFETY TIPS: · Use Power Tools Wisely

Be sure wiring is in good condition and all circuits are grounded. Never use electric tools in the rain or on wet surfaces. Also, when buying new equipment, look for the "UL" seal of approval from Underwriters Laboratories.

· Keep Children Away from **Electrical Outlets**

Don't let small children play near electrical outlets. A child could put some object in an outlet when you're looking away. A wise safety precaution would be to put safety caps in all wall outlets.

· Always Disconnect Cords by Pulling on the plug

When disconnecting electrical items, be sure to pull on the plug - not the cord! If you pull on the cord, you'll eventually wear it out and expose hazardous wires. Also, don't overload extension cords or outlets.

Remember REDDY Supplies the energy but only YOU can use it safely!

Pride.

A tradition in the good country. And at Olney Savings.

The tradition of pride runs deep in the good country, and it sets the people here apart from others. In one sense, it's pride in being the best they can

be. But more importantly, it's pride in knowing that their efforts are directed toward a common good—the kind of pride that can be experienced only through shared achievement.

At Olney Savings, that's the kind of pride we encourage—and always will. Because that's the kind of pride that makes the most important things in

Murder Suspect Acaded **To Most Wanted List**

Combine a dispute over a Most Wanted list. Rojas is woman, alcohol and a pistol 29 years old, 5-6, 135 and you have all the ingredients for a murder.

That's what happened in Sept. 1, 1982, outside a cocktail lounge

that shortly after 2 a.m., a plates 078-DBY. They disagreement over the affections of a cocktail waitress escalated into a fight between two men.

It culminated with one of the men pulling out a .22-caliber pistol and firing several shots. Two bystanders were hit, one of them fatally.

The offender fled the

area in a white Dodge pickup truck, colliding with two parked cars as he left. Witnesses identified the offender as Ruben Rojas,

who also uses the name

Javier Leal. This week Rojas has been added to the Texas pounds with black hair and brown eyes.

Investigators say Rojas was last known to be in Dallas in April, 1984. At that time he was drving a 1979 Chevrolet four-door Police reports indicate sedan with Texas license

caution that Rojas might be

RUBEN ROJAS

automatic pistol and should be considered dangerous.

Anyuone with information on Rojas' possible whereabouts is asked to call the Texas Crime Stoppers Advisory Council toll-free at 1-800-252-8477 or their local Crime Stoppers program.

In all cases callers do not have to reveal their

offered for information leading to Rojas' arrest. Texas Most Wanted is a

cooperative between the Department of Public Safety and Texas Crime Stoppers and is designed to solicit information concerning the whereabouts of fugitive felons wanted for major crimes committed in the

October 6-12, 1985

In 1865, America began forming volunteer fire brigades.

Today's firemen do more than quench fires and rescue fire victims. These resolute and dedicated people are called upon to deal with emergencies other than fire. They face complex fire hazards that demand highly skilled and trained performances.

As always, qualities of strength, courage, skill and daring are special qualities to be found in the men of our fire department.

We extend our heartfelt thanks for all they have done and continue to do to protect our lives and property. We salute them, especially, during Fire Prevention Week, this October 6th, through 12th

The Haskell Volunteer Fire Dept. is always represented at the Texas Firemen's Training School, held one week each year at Texas A&M University.

It is widely recognized as the finest fire school in the world, and it annually attracts about 3,000 firemen from 30 or 40 states and as many as 20 foreign countries.

Local businessmen and other citizens benefit to the tune of several thousand dollars a year by virtue of having its fire department in attendance at the school.

The State Board of Insurance authorizes a five-percent discount on insurance premiums on property in cities which send personnel to the school.

Fire Chief Tom Watson of Haskell has taught a class on hose loads at the school for 15 years, and Don Comedy of Haskell has been teaching a public relations class for the past five years.

Fireman Gets No Compensation

What does a man receive for serving as a volunteer fireman in Haskell?

He gets the satisfaction of knowing that he is serving his community and fulfilling a vital need. He also gets the fellowship which comes in the closely knit organization.

The City allows a fireman 5,000 gallons of water a month which is worth about \$10 to \$12 a month. The City pays the registration fees for any out-of-town meetings the fireman attends and those who attend the Texas Firemen's Training School in College Station are reimbursed part of their expenses.

Each fireman is furnished with a helmet, coat, pants, gloves, boots and a radio receiver. Most firemen buy extra protective gear so they will have one set available at home and another at work since they never know which place they will be when they are called. They also buy, at their own expense, sirens and lights for their vehicles, radios and other necessities.

Crowd Control Is Big Problem For Firemen

Lack of crowd control poses one of the biggest problems for Haskell firemen

Curious people, often without realizing they are getting in the way, can play havoc with the fire department.

Following a fire truck to a fire is not only dangerous, but it's irritating to firemen.

On-lookers, arriving at the scene of a fire, often block streets, park in front of fire hydrants and hinder the route of firemen arriving on the scene.

Although firemen have the legal authority to order people to move away, it's difficult to do in a small town where firemen know just about everyone.

EARLY DAY EQUIPMENT & MEN

First Fire Chief Was Bob Robertson

Bob Robertson was Haskell's first fire chief. He was named to head to newly organized Haskell Volunteer Fire Dept. in 1906, a year before the city charter was granted.

After getting its charter in 1907, the City created a "Water and Fire Commission," composed of R.C. Montgomery and A.C. Foster.

Jack Simmons was appointed fire chief in 1909 by the City Council. On Aug. 26 of that year, J.L. Odell and W.M. Stephens were appointed to contract for a hose and reel house.

The first fire marshall position was created June 16, 1910; and R.E. Sherrill was appointed to the office.

The first fire trucks were purchased in 1923 when the city bought two Dodge Brothers' trucks equipped with Northern fire apparatus hose and chemicals for \$3,350 each.

In 1939, an American LaFrance 500gallon pumper was bought. In 1951, a Ford truck with American LaFrance apparatus was bought and in 1970, the department added a 1970 Ford truck

with apparatus, built by Texas Fire Appliance.

In 1957, the department built its first rural grass fire truck, which was paid for by the volunteer fire department and through donations from area farmers and ranchers.

Another rural truck was built in 1972 to serve for grass fires and as a tank truck on rural residential fires and oil fires.

Today the department has six trucks, including a 1980 750-gallonper-minute pumper, a 1970 and a 1965 500-gpm pumper, a rescue van and two trucks for fighting rural and grass fires.

The department consists of three companies, totaling 32 firemen, each equipped with the most modern protective clothing and equipment to fight any type of fire.

The department is a member of the Texas State Firemen and Fire Marshall's Assn. and it has a mutual assistance agreement with fire departments in nearby cities.

Fire Dept. Had Three Companies Meetings, Drills **Back In 1909**

Back in 1909, when lack Simmons was Haskell fire chief, the department consisted of three companies, just like it does today.

Members were:

Company 1: John G. Russell, captain; Charles Irby, Henry Johnson, Mack Mauldin, Jesse B. Smith, R.M. Craig, C.C. Garrett, J.W. Gilliam, Henry Brewer, Ollie Henderson and C.M. Hunt.

Company 2: J.T. Ellis, captain; J.U. Fields, K. Jones, W.R. Alexander, O.B. Norman, B.F. Norman, H.E. Fields, R.D.C. Stephens, T.F. Brooks, J.V. Hudson and K.D. Simmons.

Company 3: I.B. Russell, captain; W.H. Patterson, Dave Parnell, T.C. Williams, Walter Hicks, L.C. Killingsworth, W.A. Marsh, W.K. Whiteman and T.J. Arbuckle.

Partial List Of HVFD Chiefs

Following is a partial list of men who have served as fire chief of the Haskell Volunteer Dept. since it was organized

Bob Robertson, 1906 Jack Simmons, 1909 George Fields, 1927 Gene Tonn, 1930 Alonzo Pate, 1935 R.A. Lane. 1942 Mr. McClintock, 1942 Jess Collier, 1943 George Neely, 1943-1946 Frank Reynolds, 1946-1948 R.R. (Ray) Lusk, 1948-1957 Jim Byrd, 1958-1960 Tom Watson, 1960-present

Consume Much Of Fireman's Time

Haskell firemen respond to about 100 calls per year. That's an average of one every three days.

But that's only the visible portion of their duties.

They meet every Monday evening at the fire station. The meetings alternate between a business meeting and a two-hour drill. Business meetings do not count toward training requirements.

State law requires that a fireman attend no less than 75 percent of all fires and drills. The local department has about a 95-percent attendance record at drills and meetings.

There are no excuses for missing a fire. On any structure fire, when a hose of an inch and a half or large is used, an attendance record is taken.

As part of a fireman's oath upon coming into the department he agrees to voluntarily resign if there is ever a time when he cannot comply with the requirements.

Hot Liquids Burn

Heat from the stove cooks water for tea. Heat cooks soup, hot chocolate, and hot cereal. If hot liquids spill, they can cook skin, too. The skin gets burned. The burn is called a *scald*.

New words

scald

Here are ways children get scalds from hot liquids:

Water from the faucet scalds a child's hand.
A child falls into scalding hot tub water.
An adult spills soup or a hot drink on a child.
A young child pulls a pot off the stove or counter.

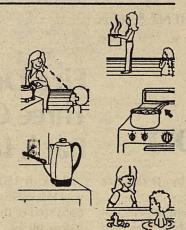

You always test the tub water. (Tell grownups and babysitters to test the tub water, too.) Stay with a small child who is taking a bath.

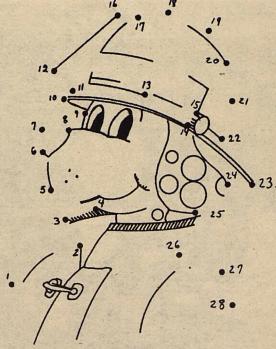

Watch little kids closely when ever they are in the kitchen. Put them in the playpen.

Roll up cords so kids can't pull on them.

Turn pot handles in so kids can't pull on them.

Hot liquids burn — stay away from someone who is carrying hot liquids.

NOW YOU KNOW SOME THINGS ABOUT FIRESAFETY.
REMEMBER TO PRACTICE THEM WITH YOUR FAMILY.

DON'T OVERLOAD CIRCUITS!

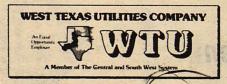

Fuses and circuit breakers warn when you are overloading the circuit by blowing the fuse or opening the circuit breaker. Thus, the power is shut off to the overloaded circuit. Overcrowded outlets cause burned wiring and damaged cord starts a fire.

We Salute Our Firefighters...

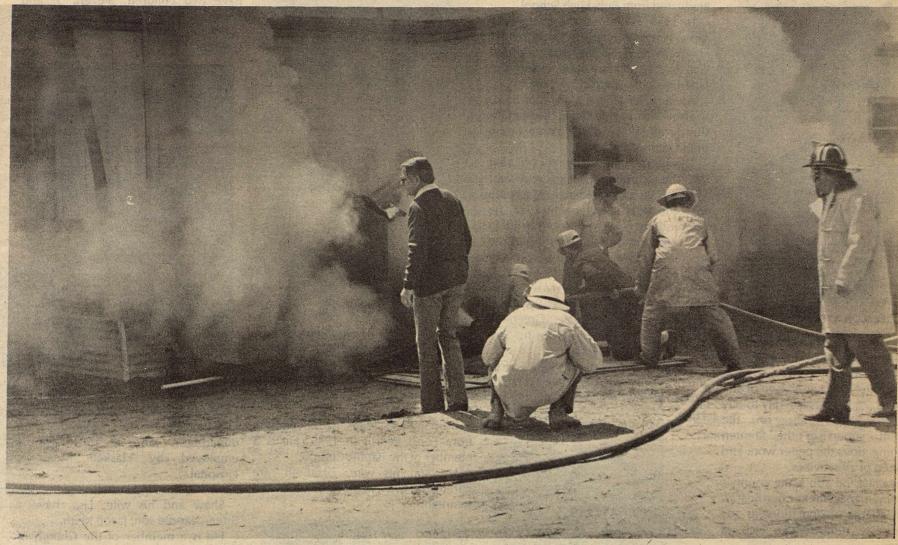

NOZZLE PRACTICE

Remember REDDY Supplies the energy—but only YOU can use it wisely!

Meet Your Firemen

TOM WATSON

Head man at the Haskell Volunteer Fire Dept. is Tom Watson, a 32-year veteran of the force.

As fire chief and supervisor of the department, he oversees day-to-day operations, keeps tabs on the equipment, supervises the firemen and training, does the paper work and stays on top of all activities.

As fire chief, he also is the county's emergency management coordinator. He is in charge of operations in any major disaster emergency, such as tornadoes.

The retired Borden milk distributor has been fire chief since 1959 having served in that capacity longer than anyone in the department's 79-year history. He has been a member of the department since 1953. Since the retirement of Floyd (Satch) Lusk in 1984, he also has held the role of supervisor, a part-time position for which he receives a modest salary.

"The fire department has meant a lot to me," says Watson.. "I'm associated with a group of great guys. I enjoy the training. And I'm very proud of our department."

Watson is extremely popular with the men he leads. He's also highly regarded other firemen with throughout the state. He has been an instructor at the Texas Firemen's Training School at Texas A&M University for the past 15 years.

Except for a seven-year stint in the Army, Watson has resided in Haskell County since he was seven years old. He was born in Jonesboro, but he moved to Rule when he was seven. He

graduated from Rule High School.

In 1938, he joined the peace-time Army. A month after the Dec.7, 1941, attack on Pearl Harbor, Watson's 93rd Anti-Aircraft battery was facing the Japanese in the Pacific.

As a first sergeant in the 93rd, Watson was in the Pacific theater for the duration. He didn't come home until October 1945.

Discharged in November of that year, he returned to Haskell and went to work almost immediately as a route man for Mead's Bakery. In 1953, he established a Borden distributorship in this area, a business he continued to operate until he retired in January

Watson and his wife, Mary, have two daughters, Elouise Perry of Arlington and Christyne Green of Haskell, and three sons, Tom Jr., Sam and George, all of Haskell.

George is a Haskell High School junior. All ofthe other Watson offspring are graduates of Haskell

SONNY REYNOLDS

Sonny Reynolds, assistant chief of the Haskell Fire Department joined the department in 1954.

A self-employed house mover, he is a Haskell native.

Reynolds is a member of the First Baptist Church, the American Legion and the Disabled American Veterans. He is past president of the Midwest Texas Firemen and Firemarshall's

Reynolds and his wife, Carolyn, have three children, Leisa, 24; Laurie, 22, and Mark, 19.

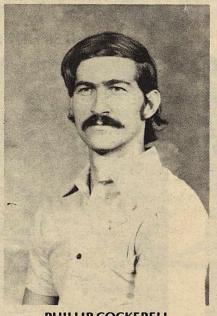

E.J. STEWART

E.J. Stewart, a captain in the Haskell Fire Department, has been a member of the department since 1950. He is employed with North Central Texas Muncipal Water

Born in Paris, Texas, he moved here from Forth Worth in 1946. He is a member of the Baptist Church.

He and his wife, Elizabeth, are paretns of two children, Eugenia and Kenneth.

PHILLIP COCKERELL

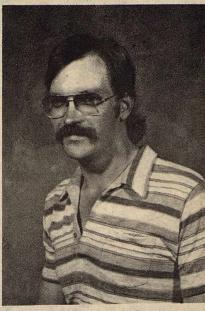

Phillip Cockerell serves as captain in the Haskell Fire Department. An employee of Lone Star Gas Co., he has been a fireman since December 1978.

Born in Abilene, he moved to Haskell from Paint Creek in 1977.

Cockerell and his wife, Floradean,

have two children, Steven, 3, and Jimmy, 1.

He is a member of the Trinity Baptist

RANDY SHAW

Randy K. Shaw is captain of Company 3 with the Haskell Fire Department. He joined department Jan. 5, 1981. He is employed by Haskell Memorial Hospital.

He has lived in Haskell all of his life. Shaw and his wife, Lisa, have a three-year-old son, Jason Keith.

He is a member of the Church of Christ, the Haskell Emergency Medical Services and the fire department's Rescue Squad.

B.J. RAY

Billie Jack Ray, fire marshall, joined the Haskell Fire Department in 1969. He is an employee of Walling-Rieger

employed by Matador Pipeline.

Born in Stamford, he moved to Haskell in 1959.

Hise and his wife, Jerrie Sue, are parents of two children, Coy, 3, and Whitney, three months.

He is a member of the East Side Baptist Church.

W.H. McBROOM

W.H. (Mac) McBroom has been a member of the Haskell Fire Department since 1981. He is a farmer. He and his wife, Bettye own the Hayloft in Haskell and Graham.

McBroom moved to Haskell from

Abilene in 1967. He was born in Old Glory.

Mr. and Mrs. McBroom have four children, Lisa, Renae, Holly and Walter.

He is a member of the Presbyterian Church. A certified firefighter, he has attended the Texas A&M Fire School and the Abilene Fire School.

Firemen Do All Work On Dept. Equipment

Haskell firemen do all of the routine maintenance on their vehicles and equipment.

They also "built" a fire truck to fight grass fires. They purchased a chassis, and then built the tank themselves, as well as all protective railing. They installed the pump and did the plumbing.

Fire Safety Tips

A smoke detector is an inexpensive device that has been proven to save lives by giving off early warning signals when a fire occurs. Follow these tips to maximize their life-saving effectiveness in your home.

- Place at least one smoke detector close to the bedrooms where it can be easily heard. In a multi-story home, make sure there is a minimum of one on each level.
- Avoid placing smoke detectors near air vents that could blow any smoke away from the detector, delaying its ability to detect dangerous smoke early.
- Replace the batteries in smoke detectors at least once a year old batteries may fail suddenly.
 - Test smoke detectors regularly at least once every two weeks or after having returned from a trip. Hold a lit candle under the alarm; it should respond within 20 seconds.

Home Fire Inspection Game

Go on a house hunt to see how you can prevent a fire. Number the pictures to match the descriptions.

- If a fuse blows, find the cause. Replace a fuse with one the correct size.
- Have heating equipment checked and cleaned each year.
- Move flammable liquids away from heat.
- Sort and remove rubbish. Don't store things near the furnace or heater.
- Don't fill a hot lawnmower or other motor. Let it cool off first.
- Keep portable space heaters away from people, curtains, and furniture.
- 7. Use a fireplace screen to prevent sparks from flying.
- Avoid using extension cords, especially small-wire cords used with high-wattage appliances.

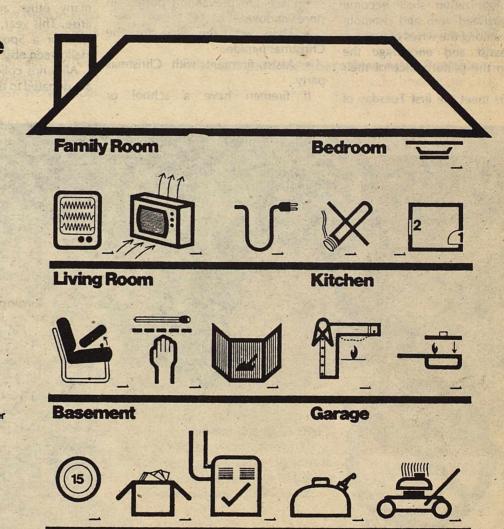

9. Keep matches and lighters

for children to reach).

above the 'strike' zone (too high

- Plan how you would escape from your bedroom if the front door were blocked by smoke. You might have to use the window.
- 13. People who smoke in bed are dangerous to the whole family.
- Smoke detectors can wake you up if there's a fire while you are asleep.
- 15. Wear tight-fitting clothes when you cook.
- Smother a pan fire with a lid. Never use water. If cooking oil starts to smoke, turn down the heat.

Ladies' Auxiliary Helps Firemen

Members of the Haskell Fire Dept. are helped tremendously by the Ladies' Auxiliary, composed of wives of members.

Each member of the organization is pledged to uphold the purpose of the auxiliary, which is:

"This organization shall become better acquainted with and promote fellowship among the wives of firemen and to assist and encourage the firement in the performance of their duties."

Members meet the first Tuesday of

each month at the fire station to plan their functions and activities.

Among the activities in which the auxiliary is involved are:

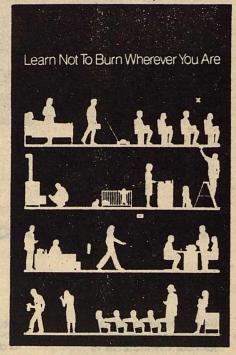

- Assist with and provide judges for the Fire Prevention Contest in the schools during Fire Prevention Week.
- Place fire prevention posters in store windows.
- Help with the float for the Christmas parade.
- Assist firement with Christmas party.

If firemen have a school or

convention here, auxiliary members assist with any needed concessions or luncheons. They take food to firemen when they are on a lengthy fire or rescue, and they help keep supplies in the Fire Department kitchen.

Auxiliary members participate in many other activities as occasions arise. This year, on Oct. 26, they will sponsor a Spook House during the Halloween observance.

All funds collected by the Auxiliary are donated to the Fire Department.

Auxiliary Officers

Linda St. John is president of the Ladies' Auxiliary of the Haskell Volunteer Fire Dept.

Other officers are:

Nancy Trussell, first vice president; Merry Harvey, second vice president; Margaret Tatum, secretary-treasurer, and Floradean Cockerell, racing captain.

Satch Lusk Devoted 40 yrs To Department

No account of the Haskell Volunteer Fire Dept. would be complete without highlighting the role played by Floyd (Satch) Lusk who spent 40 years with the department and who served as supervisor for 35 of those years.

Lusk, who still spends a good part of each day at the fire station, joined the department as a volunteer fireman March 13, 1944. He became supervisor Aug. 1, 1949, and served in that capacity until he retired Aug. 31, 1984.

"I would not take anything for all of the experiences during the time I was a fireman," Lusk told an interviewer upon his retirement last year.

And the people of Haskell probably wouldn't take anything for the services Lusk has rendered to the community.

He saw the department grow from two trucks to six trucks, from 100 feet of two-and-a-half-inch hose to 6,000 feet, from 300 feet of inch-and-a-half hose to 2,600 feet and another 1,200 feet of red line. Pumping capacity increased from 800 gallons per minute to 2,700 gallons.

In the retirement interview, Lusk recalled that firemen were summoned in the old days by a siren atop City Hall. Now firefighters are called by a dispatcher who sends messages via a Plectron receiver in the fireman's home.

For more than 25 years, Lusk attended the annual Texas Firemen's Training School at Texas A&M to keep abreast of the ever-changing firefighting procedures.

Lusk was born Jan. 10, 1910 in Bridgeport, but he moved with his family to Haskell when he was four years old.

He and his wife of 51 years, Annie Pearl, still live in the apartment above the fire station. Their son, Bobby Joe Lusk, is an elementary school principal in Rule. They also are grandparents of Mrs. Shannon Kittley and Stephen Lusk of Rule and great-grandparents of Trey Kittley.

Understanding Bosses Enable Men To Serve

Were it not for some understanding employers, many of Haskell's volunteer firemen would not be able

An employer who has a fireman in his employ never knows when that person will be called away from work—sometimes for several hours.

In most cases, employees are not docked for the time they take off work to answer fire calls.

persons Self-employed understand that they are on call at all times and must immediately drop what they are doing when a fire

Public Generous In Support Of FD

responding to the needs of the Haskell Volunteer Fire Dept.

Although the City of Haskell appropriates funds for the basic needs of the department, it would be impossible for Haskell to have the firstclass fire department it does without the assistance of the public.

Firemen raise money through several projects. Among them is the flag and banner program in which they put out flags in fronts of businesses every holiday and place welcome banners across the streets to promote rodeos, fairs, etc. Businesses pay the firemen \$12 per year each for this

When a specific need comes up,

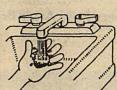

The public has been generous in firemen will put on a special fundraising project or ask the public for donations.

> Rural firefighting is financed largely through donations. While the county contributes \$3,500 a year to subsidize rural firefighting, it is common practice for the person who has had a fire to make a donation to the department. Others make donations or other contributions on a regular basis.

> When the present fire station was built in 1979, it was financed entirely through donations of money, goods, services and labor. The department paid to have foundation installed and the building erected, but firemen and other volunteers did everything else.

Put Cool Water On Burns

Put cool water on a burn. Cooling stops the burning.

New words

ooze scar char first degree second degree third degree fluid

What kinds of burns are there?

First Degree Burn.

A first degree burn is red and sore. There will not be a scar.

Second Degree Burn

A second degree burn has blisters and may ooze fluid. There may be light scars later.

Third Degree Burn

A third degree burn is a very bad burn. But it may not hurt at first. It looks white, brown, or charred. It will leave scars.

What to do:

Get help. Go to the hospital or call emergency right away. Use

cool water while you wait for help.

Put cool water on the burn.

Treat a third degree burn the same as a second degree burn.

Answer questions about burns and fire.

- 1. What cools a burn? _
- 2. What do you do if you get a bad burn?
- 3. What burn is worst?_
- _ degree.
- 4. What does a second degree burn look like?
- 5. What does a third degree burn look like?

HASKELL FIREMEN ATTENDING SCHOOL

It's Not Easy To Be A Fireman

Becoming a member of the Haskell Volunteer Fire Dept. is no easy task. And once a man has joined the department, he gives a big part of his life to the job.

The fire department does not solicit members. Anyone interested may make application for membership on the force, but his application must be training, divided into about 25 signed by two members, who categories, before a fireman completes

of the applicant.

When there is a vacancy, members study the applications on file and then select (by vote) a person to fill the position.

Once a person joins the department, he begins basic fire training. It requires 162 hours of signatures represent an endorsement his basic certification requirements.

Training includes classes in rescue, first aid, inspections, driving, categories.

Training continues after the basic elsewhere. certification as the new fireman advances to intermediate and then such subjects as chemistry and math.

It takes about three years, under operation of breathing apparatus, normal conditions, for a fireman to complete the basic courses. He can report writing and many other expedite certification by attending seminars and training courses

Upon completion of all the levels of advance preparation. These courses certification, a Haskell fireman has are much more advanced, and include completed virtually the same courses that a paid fireman has.

Help Prevent Fires

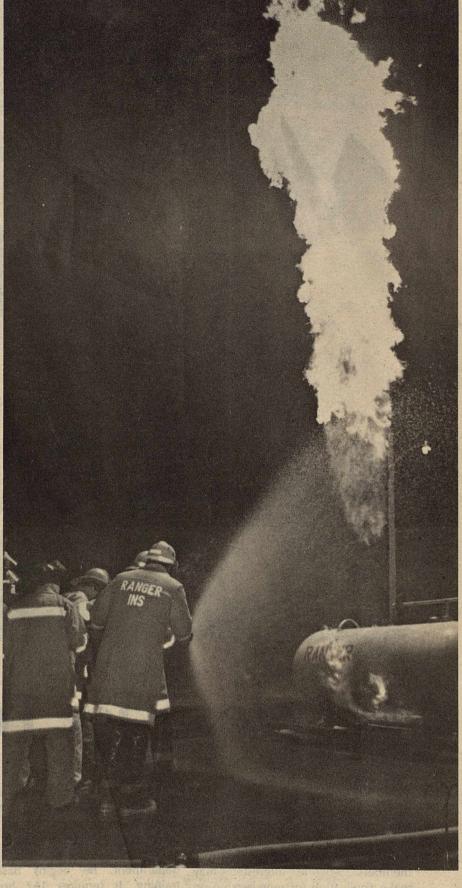

It's in the line of duty — everyone's duty — to observe good fire safety practices every day of the year. During Fire Prevention Week, October 6th through 12th, we want to call attention to the dangers and tragedy that a fire can bring to family, property and home.
