Reddy's helpful tips for your Home Laundry

PLAN AHEAD Sort clothes according to type of fabric, color-fastness, degree of soil and garment construction. You'll save both hot water and electricity by doing similar items together. Accumulate a full load before running your washer.

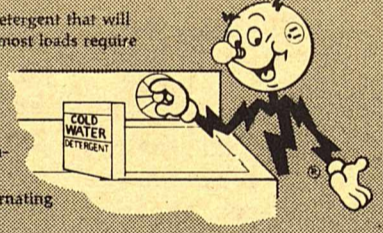

BE SELECTIVE

Choose the cycle that is precisely appropriate for the clothes you are washing. Is a "hot" temperature setting really necessary? Except for heavily soiled items, most loads will come clean in either a cold or warm wash. Look into cold wash detergents.

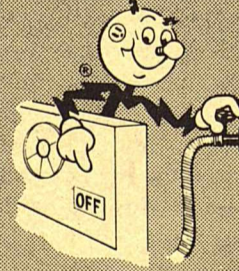

Use the least amount of detergent that will get your clothes clean--most loads require only an ounce or less!

Overloading causes extra strain and wear on your equipment; check the manufacturer's recommendations for load weight. Balance your load by alternating small and large items.

FOR SAFETY SAKE

Be sure control is "off" before reaching into your washer. If one is necessary, use only a heavy duty extension cord. Be sure your washer is grounded. Keep dry cleaning agents, color remover and Fibergias out of your washer. It's a good idea not to wash clothes containing cleaning fluids in your washer.

Notes From The Oil Field

A wildcat has been staked five miles west of Robert Lee by Marshall R. Young Oil Co.

of Fort Worth who will drill the No. 1 Fred H. McCabe Jr. The test is scheduled to drill to 6,200 feet.

It is located 660 feet from the north and east lines of Section 284 Block 2, H&TC Survey.

It is one mile north of the depleted one-well Robert Lee (Palo Pinto) Field and 5/8 mile east-northeast of a 5,580 failure.

The Robert Lee Field opener, the No. 1 Fred McCabe, was completed in 1955 to pump 72 barrels of 43.4 gra-

vity oil, plus 40 per cent water from perforations at 5,462-470 feet.

Mr. and Mrs. Sloan Boone went to Sweetwater Saturday afternoon to make the acquaintance of a new grandson, Kevin Sloan

Glasgow, and visited with his parents, Mr. and Mrs. Bill Glasgow, and with Mr. and Mrs. Marvin Glasgow. Mr. and Mrs. Charles Bloodworth of Kermit visited with the Sloan Boones and the Raymond Bloodworths from Thursday night until Sunday.

COKE COUNTY LANDOWNERS: Many of your friends and neighbors are making good money leasing the mineral rights to their property. You can do the same thing.

As you know, many landowners in Coke County are receiving payments for lease rights and they also get part ownership of any oil or gas wells found on their property.

Even if you own only part of the mineral rights to your property, you probably can still receive a good lease payment.

Why haven't all landowners leased their land?

In many cases, big city oil companies have not made much of an effort to contact landowners. And most landowners do not have the time to look up the oil companies and try to lease their property to them. Many times, too, landowners own only part of the mineral rights, and it would take a lot of time and effort for them to locate all the owners and work out an agreement.

And sometimes, the oil companies have not offered to pay as much as the leases were worth, and so the landowners refused to lease their property.

Perhaps you have not leased your land for the same reasons. In any case, here is an easy, no-trouble, confidential way for you to find out how much money the mineral rights to your land are worth.

Our oil company is interested in your land because it is in Coke County, and good oil and gas production has been found pretty well all over the county.

In drilling for oil we work very closely with landowners. In addition to paying top-of-the-market prices for leases, we "go the second mile" to take care of the property when we drill. If any damages occur, we pay for them, without argument. The people in our company grew up in West Texas, and we remember how our folks liked to be treated. That is the kind of treatment we give to landowners.

What Happens When Property Is Available To Lease

After you let us know that you have some property you might want to lease, we go to work on the history of your area, checking the logs of old wells and seismograph reports and all the other geological information available.

All this is done at absolutely no cost or obligation to you.

Then, we tell you what we have found out. If it looks like there is a chance there *might* be oil or gas under your property, we will attempt to lease your land.

If there are other owners of the mineral rights involved, we will contact them and work out arrangements for their portions.

What About Land That Has Already Been Drilled On?

We are interested. Brand new developments in the oil exploration industry have made it possible to complete good wells even where holes were once considered "dry." So if your land has been leased before, with or without being drilled, and the old lease has expired, we are interested in looking at it.

When you get right down to it, what have you got to lose? We will keep your business in complete confidence. If we notify you that we are interested in leasing your land, you will have plenty of time to discuss the arrangements with your attorney or the people who help with your income tax.

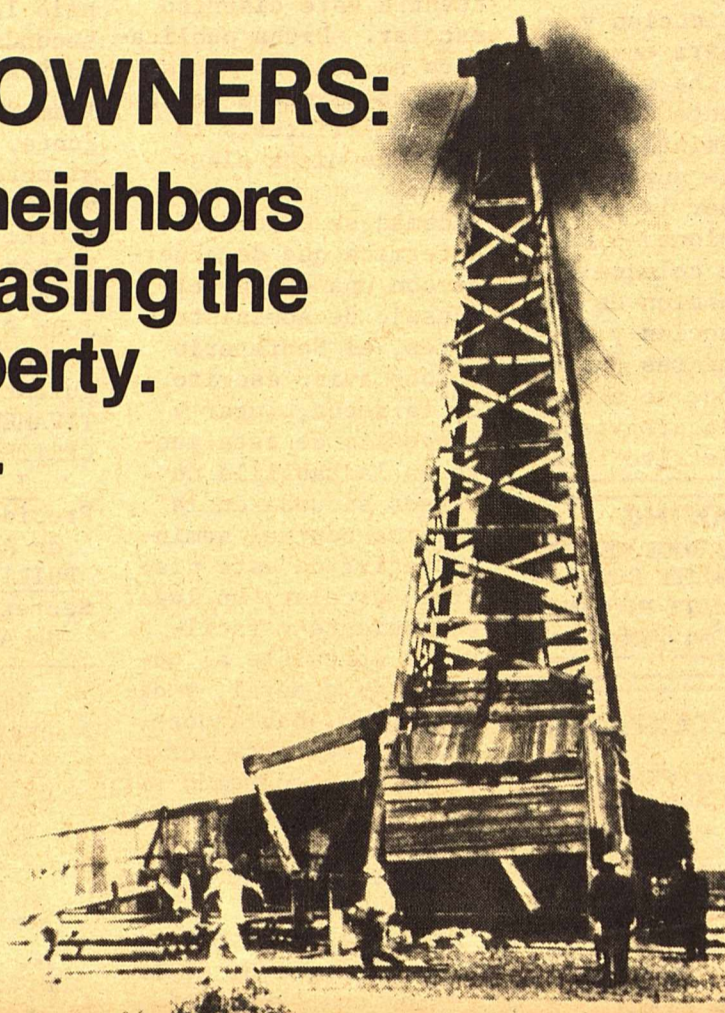

Without losing any time or effort, or obligating yourself in any way, here is a chance for you to see if you are missing some income you should be receiving. All you have to do is fill out the coupon below and mail it to us. No other information is needed at this time.

And by the way, you may know of some folks who own land in Coke County, but who don't live here. You might be doing them a big favor if you would clip this ad out and send it to them.

I hope you'll take a minute to fill out the information and mark the map and send it in. The four or five minutes that it will take might really pay off for you.

Directions:

Put an X near the approximate location of your property on the map. Then, fill out the coupon and mail the coupon and the map to Texas Energy Company, Box 1739, Abilene, Texas 79604.

LETTERS TO THE EDITOR

I thought my friends back home might like to know that even in far away Alaska "Rabbit Twisters" can find and enjoy each other.

While I was attending the State Teachers' Conference in Anchorage, I accepted an invitation from Linda McBroom Bacon to have a Mexican dinner. Linda is teaching at the Bartlett High School in Anchorage. It had been 12 years since I had Linda in a Spanish class at Robert Lee; however, she could still "produce", and each of us practiced our Espanol as we ate in La Cabana.

Then I spent a day in the home of the Lendon Schoolers here. He is the son of my girlhood friends, Joe Schooler and Margaret Cook. In the Edith Community about 1920, when entertainment was at a minimum in those early times, I used to pick the guitar while Joe played his fiddle for "musicals".

Contacting these dear friends surely made my teachers' convention a memorable occasion.

Sincerely,
 Pauline Reed Coalson

Mrs. Roy Ford of Big Spring visited last Thursday afternoon with her parents, Mr. and Mrs. J. M. Prine, Jr., of Sanco. Sunday afternoon guests of the Prines were Calvin Bell and daughter, Leslie, of San Angelo.

Mmes. Bryan Yarbrough and Mildred Sparks attended a Symphony Concert in San Angelo on Feb. 28. The event was held in the City Auditorium. Included on the program was Jerome Hines of Metropolitan Opera Co.
