Number 22.

THE ELECTION RETURNS.

Partial Figures Indicate The Republicans to Have the Victories.

BOTH OF THE PARTIES CLAIM KENTUCKY

By a Small Plurality Republicans Carry Ohio Maryland Is Democratic The Nebraska Fusionists Win New York Goes Republican Democratic Mayor Wins in San Francisco.

Detroit, Mich., Nov. 9.—Mayor McWay, a democrat, has been elected for a third term by 5,757 majority over George T. Fisher, the republican. The city clerk, John S. Smith, a republican, was elected for a third term. The democratic party has gained the bulk of the vote in the city.

Detroit, Mich., Nov. 9.—The republican party has carried the city of Detroit by a small plurality over the democratic party. The city clerk, John S. Smith, a republican, was elected for a third term. The democratic party has gained the bulk of the vote in the city.

San Francisco, Nov. 9.—The republican party has carried the city of San Francisco by a small plurality over the democratic party. The city clerk, John S. Smith, a republican, was elected for a third term. The democratic party has gained the bulk of the vote in the city.

ities, a complete overturn. Mayor James K. McGuire, democrat, is re-elected mayor of Syracuse, a tribute to his personal popularity.

Lincoln, Neb., Nov. 9.—It is evident to both parties in today's fight that Nebraska has repeated her allegiance to the fusion standard. While republicans are not yet willing to admit defeat, early figures point that way. There has been a steady falling off from both parties but while the fusionists have suffered but little the republican loss has not been less than three to a percent. If the present ratio is maintained by Governor Holcomb and the fusion state ticket will be elected by not less than 10,000. Fusionists claim much more. The Omaha World Herald, a democratic estimate, Holcomb's plurality at 16,000.

Columbus, O., Nov. 9.—After 11 p.m. the returns show that the democratic gains in Cincinnati were reduced and that McLean was likely to hold Cleveland and possibly at Toledo, which he carries. Jones drew 1,000 votes from the democratic party and the republican gains. At Toledo the republican gains. At Columbus, the republican gains. At Cleveland, the republican gains. At Toledo, the republican gains.

St. Louis, Mo., Nov. 9.—The republican party has carried the city of St. Louis by a small plurality over the democratic party. The city clerk, John S. Smith, a republican, was elected for a third term. The democratic party has gained the bulk of the vote in the city.

Baltimore, Md., Nov. 9.—The republican party has carried the city of Baltimore by a small plurality over the democratic party. The city clerk, John S. Smith, a republican, was elected for a third term. The democratic party has gained the bulk of the vote in the city.

Aberdeen, S. D., Nov. 9.—Returns are coming in slowly. They show republican gains, especially in the cities. Sioux Falls gives a republican gain of nearly 200 and Aberdeen a republican gain of 190 over last year. Judge Fuller, upon whom the fusion forces concentrated their fight is spinning behind his ticket, but not enough to defeat him. The indications are for the election of the republican candidate for the supreme court by a majority from 500 to 1,000. The city of Sioux Falls, complete, gives a republican majority of 2,8, republican gain, 195.

Frankfort, Ky., Nov. 9.—A bulletin issued at 1 a. m. by the Goebel campaign manager says: "We have not enough information concerning the state to go into detail, but we are confident that we have won, though the majority is small."

Want a Settlement Made.
Chicago, Nov. 9.—The old fight of the interstate commerce association against nine railroads running into Chicago which are charged with imposing an exorbitant terminal fee on all carloads of live stock brought into the Union stock yards is up before Judge Kohlsat in the United States district court for final settlement. It is expected that the case will last at least two days. The issue is the legality of the switching charge of \$2 made on cars of live stock upon the terminal of the several roads to the stock yard. The interstate commerce commission some time ago declared this charge excessive and fixed the rate at \$1. The railroads, however, have never complied with this ruling and a petition for a restraining order was filed by United States Attorney Bethea.

Payments Being Received.
Austin, Texas, Nov. 9.—The receipts of payments of interest on school land purchases for 1899 continue to come in at a rapid rate at the treasury department, and the indications are that this year's list of purchasers will be the smallest on record. This indicates that the act of 1893 reducing the price of West-ern lands and of the rate of interest on purchases was a piece of wise legislation as it placed purchasers of said lands in an attitude to conveniently meet their obligations to the state and to contribute regularly to swelling the available school fund.

He Was Bounced.
San Antonio, Texas, Nov. 9.—Senor Alphonso Soules, a prominent stock trader of Tampico, Mexico, parted with \$5,200 in currency in this city last night. The confiding senator met a slick-tongued man in his home

city a few days ago who introduced himself as a cattle broker. The slick-tongued individual persuaded him that during the fair if he came here with plenty of money he could make a big "spec" on cattle as well as learn a great deal about the business from the Americans. He came, brought the money and lost "friend" and money.

A New Branch Line.
Austin, Texas, Nov. 9.—The secretary of state today filed an amendment to the charter of the New York Texas and Mexican railway providing for the construction of a branch line from the town of Wharton, in Wharton county, through said county in a southeasterly direction, thence through part of Matagorda county along the general course of Caney Bayou to a point in Matagorda county, thirty miles distant from Wharton.

Adopted the Same Plan.
Fort Worth, Texas, Nov. 9.—Some time ago the Santa Fe inaugurated a system of "double headers" on freight trains. The Fort Worth and Denver has also adopted the same plan and a prominent railroad man said today he believed the system could spread to other lines in the state. It is estimated that the system will result in reducing the transportation forces fully 50 per cent. A petition was recently forwarded to Governor Sayers by railroad workmen asking that legislative act on in restraint of double headers be recommended at the extra session to meet in January.

FOREIGN BRIEFS.

New York.—Frank Erne, light weight champion of the world, and Jack O'Brien have been matched to fight before the Coney Island Sporting Club on November 15.

Hattiesburg, Miss.—John F. Bennett, chief of police of Hattiesburg, Miss., was shot and killed by A. N. Bellingsworth, the traveling representative of a patent washing machine.

Paris.—The Berlin correspondent of the Figaro says Emperor William is resolved to occupy Tiger bay, south of Angola, on the west coast of South Africa, if England occupied Delagoa Bay.

Kinston, Jamaica.—The latest Colombian advices report an engagement with insurgent convoy steamers by the Colombian cruiser Hercules; the insurgent steamer, the Prag, was rammed and sunk, while the mariners were captured after a sanguinary fight.

FROM ALL OVER THE STATE.

News Gathered From Different Towns and Counties in a Condensed Form.

A MURDEROUS BURGLAR SUCCEEDED IN

Getting Possession of a Woman's Small Earnings—He Threatened Her With a Hatchet and Threw the Weapon at Her—A Well Educated Young Man She Describes Him.

Galveston, Texas, Nov. 8.—A murderous robbery was perpetrated at 4 o'clock Monday morning, of which a lady who conducts a boarding house for medical students in the old Sweney homestead, at Tenth and Strand streets, was the victim. That she is able to tell of her experience with the burglar is due more to her discretion than to any desire on his part to spare her. She occupies a small room on the ground floor of a small building which is detached from the main house, with which it is connected by a gallery enclosed in lattice work. The room is immediately joined by the kitchen. She retired late Sunday night, as was her custom, and was sleeping soundly at 4 o'clock Monday morning, when she was awakened to find a man standing over her with the kitchen nightlamp in one hand and a murderous looking hatchet in the other. Her two little boys were sleeping on a small bed in the room and were not awakened. She tells the story this way:

"He told me to keep quiet or be killed and I at once begged him not to take my money. He replied that he had to have the money, that he needed it worse than I did and proposed to have it. He then took me by the neck as if searching for a chain or something and then raised up the corner of the mattress and took a little tobacco bag in which I had \$60. I had put the bag there before retiring and think the man must have been watching me, as he knew right where to look for it. I never use a pillow, so I put the money under the mattress. He then went to a bureau and rummaged around the linen, looking for more money, all the time threatening me with instant death if I made the least outcry. I sometimes keep small sums of money there, but he failed to find any. He next went into the kitchen and I jumped out of bed and screamed. I could see him in the kitchen with a lamp in his hand and he hurled the hatchet at me, it striking the floor with great force right at my feet. I continued to scream and make an outcry and he became alarmed, threw the lighted lamp on the floor of the kitchen and made

his way out the window, where he had gained entrance to the house."

The lady says the burglar was a young man of about 20 or 21, and very fair—so fair, in fact, that she thinks he must have bleached his face or it was blanched through determination. He was smooth shaven and well dressed. She noticed his hands particularly and observed they were smooth and almost effeminate, showing plainly he never did any manual labor. He used good language in addressing her and is a man of apparent education. He declared he was desperate and was determined to have the poor woman's money, come what might. The police have no clues and even deny the robbery.

Granted a Continuance.

Dallas, Texas, Nov. 8.—John T. Carlisle was Monday granted a third continuance in the murder case against him for killing Professor William Lipscomb in the First Christian church on the night of July 10 last. The present continuance, however, is only till November 27. It is believed the case will go to trial on that date.

Was Badly Crushed.

Fort Worth, Texas, Nov. 8.—Frank King, brakeman on the Rio Grande road, was caught between two box cars in the yards here Monday morning and frightfully crushed through the breast. He was taken to St. Joseph's infirmary, where he lies in a critical condition. King is single and is 25 years old.

Instantly Killed.

Dallas, Texas, Nov. 9.—James Bennett, a prosperous farmer living near Coppell, in the northern part of Dallas county, was shot and instantly killed about 9 o'clock last night. Bennett, who was an old man, was called to the door of his room by unknown persons and shot without warning. The contents of a double-barrelled shotgun were emptied into him and he died without a struggle. Sheriff Cabell was notified of the tragedy this morning and started a posse to the scene of the murder. They have not yet made a report. Bennett, it is reported, has been in numerous quarrels of late and his assassination is attributed to the bad blood growing out of these neighborhood rows.

SHORT TEXAS SPECIALS.

Jefferson.—It is expected that the iron furnace will be put in blast about November 15; its capacity is 150 tons per day.

Fort Worth.—Charles Breckham, who was shot in the breast last Friday by Jim Wilson, a 15-year-old boy, died Tuesday morning. Both colored.

Sherman.—Frank Harris was badly hurt and Carnie Rogers seriously injured by being thrown from a scaffolding on which they were at work.

Gainesville.—The pecan crop of the county is by no means heavy.

Mineral Wells.—J. N. Warren of Barker county, who was thrown from his wagon near this place, died in this city from the injuries received from the fall. Mr. Warren resided near Millsap and was 56 years old. His remains were shipped to Millsap for interment.

Tyler.—Business men here are in receipt of letters from New York and St. Louis capitalists inquiring about the rolling mill with a view of purchasing and operating it. The mill has a capacity of thirty tons and when running at its full capacity gives work to 150 people.

Waxahachie.—The cotton mill soliciting committee has succeeded in raising \$60,000 on stock subscription and will now proceed to organize.

Annual Report Issued.

Washington, Nov. 8.—The auditor in the postoffice department has issued his annual report, which shows that during the last year the number of postoffices increased from 73,182 to 74,415. The number of domestic money orders increased from 27,898,207, representing \$401,113,717, to 29,007,870, representing \$442,872,240, a net increase in number of 1,290,272 and in volume of \$41,369,636. During the year the revenues of the postal service increased from \$89,012,189 to \$95,021,384 and the expenditures from \$97,853,407 to \$101,632,160, a net increase in the receipts of \$6,008,765 and in expenditures of \$3,778,752. The postal revenues for the year are shown to have been \$95,021,412 and the expenditures \$101,435,265, leaving a deficit of \$6,043,885, of this amount the treasurer has advanced \$6,000,000, the balance unpaid being \$43,885.

Banks Consolidated.

Lampasas, Texas, Nov. 8.—The two banks of this city were Monday consolidated and the First National bank of Lampasas will henceforth have the field to itself. The First National is one of the oldest and most reliable institutions of this section and has always been a money maker to the stockholders and a strong supporter of the merchant, wool raiser, stockman and planter as well. Under the reorganization H. N. Key of the bank of Harris & Key purchased some stock and becomes second vice-president of the First National.

A New Rate.

Austin, Texas, Nov. 9.—The railroad commission this morning received a telegram from General Freight Agent Jones of the Houston and Texas Central announcing that he has notified the Illinois Central that from and after November 10 his line will observe a rate of 20 cents for the movement of oats from Texas to Mississippi river crossings.

War News Condensed.

London, November 8.—The officials of the British war office, when shown the dispatch from Durban of November 3 said they had no further news regarding the military situation in Natal, but though no undue significance should be attached to the concluding phrase. They could not say whether the railroad to Ladysmith was intact, but they admit that Ladysmith is now completely surrounded.

A dispatch from Estcourt, Natal, dated Saturday, November 4, says it is reported that the Boers lost 800 men killed and wounded and captured in Thursday's battle at Tatham's farm, near Ladysmith.

Another dispatch from Estcourt, Natal, dated Saturday noon, says a reliable messenger has just arrived from Ladysmith, passing the Boer lines during the night, reporting that heavy fighting occurred Thursday around Ladysmith. The hottest engagement was on George Tatham's farm, in the Orange Free State. The English drove the Boers back to their camp. The enemy suffered great loss and thirty mounted Boers were captured.

The fighting was resumed Friday, the Boers firing from Noswathana Hill, near Hepworth's farm. Again they were driven back with loss on their camp. A large Boer force, with the artillery under John Wessels, has taken up a position on the left of Bacon, locating on the Woodhouse Piccionas and Lagvaracht farms, facing Bectors, and a small command is now encamped on the outside of Pieters Station commanding the railroad. The Boers have torn up the culverts of the railway near Pieters Station and have burned the wooden portions.

TELEGRAPH BREVITIES.

San Angelo.—J. B. Stribling was given a life sentence in the Sutton county court for wife murder.

Waco.—The suspected case of smallpox reported a few days ago in this city turns out to be a case of chickenpox.

Denton.—There are between 1100 and 1200 residences in the corporate limits, but there is not a rent house to be had.

San Angelo.—Prominent wool buyers have arrived in town. The fall clip of over 1,000,000 pounds will likely be sold next week.

San Antonio.—John Murphy, aged 46, section foreman on the Southern Pacific railroad, was found dead on the track near Pine street in a horribly mangled condition.

Clarksville.—Two sons of Fidd, a farmer, were thrown from a wagon by a runaway horse. One of them was instantly killed and the other sustained injuries which may prove fatal.

TELEGRAPH BREVITIES.

Schulenburg. — In a runaway, Joseph Ripper had his leg broken just above the ankle.

Rockport.—A few people are dropping in from the North and inquiries from the far North are coming fast from people who want to get out of the ice-bound North for the winter.

Dallas.—John White, an aged farmer, driving through the city to attend a circus, was run over by Monroe Phillips, a negro, who was riding in a buggy at a high rate of speed, and fatally injured.

Georgetown. — November 15 the Williamson County Farmers' institute will hold its second meeting for the purpose of erecting a cotton mill in Williamson county by the farmers and business men of the county.

North Salem, Ind.—Shade Mackey, who came here some time ago from Tennessee, where he claims to have killed two men and served a term in prison, was killed by William Rogers, a drug clerk, with whom he became involved in a street fight.

Gonzales.—Ada Warren, a negro woman who has been sick for two months past, was found dead early Monday morning in the yard near her door. It is said that a negro leat her very severely sometime ago. An investigation is being made by the officers.

London.—The St. Petersburg correspondent of the Times telegraphs that various rumors are afloat there regarding Russian designs upon Afghanistan.

Berlin.—A divorce has been granted to Count Von Moltke, the emperor's aide de camp. The decree placed the entire blame on the wife. The case caused a sensation.

London. — A parliamentary bye-electin was held in Exeter, resulting in the return of the conservative and unionist candidate, Sir Edgar Vincent, by a majority of 659 votes over his liberal and radical opponent.

City of Mexico.—Importers complain that owing to the rush of business in the United States orders for structural iron and other articles demanded by the prosperous condition of Mexico are filled with exasperating slowness.

City of Mexico.—Two large influential committees of the liberal party are at work organizing a political campaign to aid the renomination of President Diaz by a great convention of delegates, which will early in the coming year assemble in this city.

Ordered to Return Francs.

Paris, Nov. 8.—Major Count Esterhazy, alleged author of the bordereau in the Dreyfus case, was brought Monday by default on his charge of a Christian's charge of swindling to three years imprisonment and to pay a fine of 50 francs. He was also ordered to refund the 35,000 francs claimed by Christian.

The Medical Association.

Hearne, Texas, Nov. 8.—The convention to be held here on the 14th and 15th of this month by the Brazos Valley Medical association will be their eighth semi-annual meeting and a most interesting programme of medical subjects will be read and discussed. Just four years ago the association was organized in Hearne with a membership of thirty doctors and up to the present time it has made wonderful progress, numbering now about one hundred and fifty members. The local physicians and citizens expect to entertain their guests in such a manner as to make this one of their most pleasant meetings.

Preparing to Close Up.

Pittsburg, Pa., November 8.—The local plants of the American Tin Plate company are preparing to shut down indefinitely. They will be idle, probably, after November 15, and just when they will start up again, if ever, is a question in which some 700 workmen are much interested. Although not definitely decided on the officials of the trust are contemplating the complete dismantling of the Monongahela and Star works, and a concentration of their business at the plants in Indiana and Newcastle, Pa.

Chowder.

Wool receipts for the past week at the Colossal have been of a closing up kind, many clips heretofore incomplete are now all in, and only a few more lots yet to arrive. The clip, on a whole, is in good condition, and a desirable line of wools, well handled and in a complete merchantable condition for transportation—just such a line of wool as a manufacturer would desire. Some sampling has been done, but as yet no offers have been made, but as good goods always sell we feel much encouraged.

The activity in the Eastern market has exceeded anything ever before known, passing the twenty million pound weekly deal, while the unusual demand coming from all kinds of mills, both great and small, bears out the fact that all want wool, and that the trusts and speculators are not the only buyers, but reflects a condition of affairs in our woolen and worsted industries, the like of which has not been for years. It indicates a confidence on the part of consumers of a coming demand for manufactured goods. The tone of the market is very strong, mostly on long staple. Montana or Territory wools running well in length are in demand.

The situation is strengthened by the fact that there is considerable speculation in the goods market, especially of heavy-weight goods

Texas wools are conspicuously

active, the demand chiefly for eight months on a basis, clean, of 50 cents; for short clean, 45 cents. We should all feel encouraged by the unusual activity of the staple. While we expect no boom the demand must increase the price some.

Cotton also is somewhat on the advance and prices are better than for some years past. The Beehive is making a closing sale of their ginnery and collections at very satisfactory prices.

Hides and skins are higher than for several years. Country produce generally is in good demand at living prices.

Rye, wheat, and winter oats will be sown in great abundance—a fine season is in sight.

It is said that the boatswain had a special car for himself Sunday to the great International fair. Surely he was big enough for it.

Maj. Simon Fraser, of Noxville, after delivering his wool and mohair at the Colossal, visited the San Antonio fair, and reports having seen some fine horses, cattle, and goats on exhibition, but says the sheep were a few long-legged, razor-backed, unknown grades to him. Probably they were from South Africa.

Bubber says the Boers and the

Lions are doing considerable butchering in South Africa; for his part he prefers the spareribs to the sirloin, if he had to eat any of it.

Saint Peter, of the St. Charles, took in the fair Sunday. What else he took in one can only guess from appearance.

The water power of the electric plant may fall short, but the electric flash of Roquey George's eyes shine with the brilliancy of a hole in a water bucket.

Kerrville, Texas, Nov. 11, 1899.

THE population of Texas is estimated by Bradstreet's at 3,400,000. Great state!

TOM REED is showing that the politician who retires from sight is soon forgotten.

TEXAS is shipping oats to Germany, mules to Africa, wool and cotton to the ends of the earth. Great state!

AMERICAN sentiment is divided on the Transvaal contest, but the United States' mules seem to be on the Boers' side.

Now, that Jim Jeffries has proved that his arm is all right, we would like to know something about the condition of Mark Hanna's leg.

THE extension of the Fort Worth and Rio Grande railroad from Brownwood to Kerrville will be made within two years, giving this city railroad facilities equal to those of any town in West Texas.

THE street sprinklers of Rochester, N. Y., have formed a combine and raised their bids from \$25,578, in 1898, to \$51,277, in 1899. Tobacco and whisky trusts are bad enough, but the idea of a water trust calls for tears!

THERE should be a lesson in the fact that the part of country which is enjoying the greatest prosperity is not that which is producing the raw material, but is the section which is turning it into manufactured products. Texas needs more factories.

THE Western Union Telegraph company is adopting a telegraph-printing machine which, it is said, will save them a million dollars a month in salaries—and send many of their employes to struggle for a place in some new occupation, of course.

THE PAPER has received volume 1, number 1, of the Peacock Drummer, published quarterly by the students of Peacock's school for boys, of San Antonio, of which J. W. Pritchett, a former employe of this paper, is editor in chief. The Drummer is an excellent journal, editorially and mechani-

cally, and the boys who conduct it should be proud of the publication.

Mr. D. Martin, proprietor of the Martin Telephone company, was in our town this week soliciting patrons for a local exchange. He informed us that he was very successful, and that the necessary apparatus would be here on the 20th of this month. Mr. Martin has one of the most beneficial lines in the country, and the exchange will be a good thing for our town. About twenty of the business men have ordered phones, and a 50-drop switch board has been ordered. —Gillespie County News.

We are grieved to chronicle the death of our friend and neighbor, J. C. Campbell, who died at his home last Monday morning, after two weeks of suffering from acute pneumonia. His illness developed acutely while off on a trip to Kerrville, and he was unable to drive his conveyance home. Reaching home, under the helpful and protecting care of his wife, medical and friendly aid were at once summoned. The disease had, however, gotten firm hold, and the patient never rallied. He was patiently mindful of suffering all along, and bore the intense pain of all these days with Christian and manly fortitude. —Rock Springs Rustler.

Without a Thought or a Thank-You.

If you should ask that pale-checked, hollow-eyed woman to tell you her ideal of physical comfort, she would answer, To be able to get a quiet night's rest. That cripple in a wheel chair has a slightly different ideal. The joy he craves is to swing himself along on two strong feet, up hill and down, without pain or weariness. And a sallow, dyspeptic millionaire of our acquaintance would cheerfully part with a few thousand dollars if he could sit down to a meal with the keen hunger of his boyhood.

Instead of thinking it a hardship that you have to take such a long walk to school or to your work, rejoice in the strength which enables you to do it. Instead of grumbling over the plainness of your daily fare, be thankful that your healthy appetite makes the simplest food palatable. We would be ashamed of our ingratitude many times if we realized that the things we take without a thought or a thank you, are the blessings for which countless hearts are hungering. —Young People's Weekly.

Samoan Question Settled.

London, Nov. 6.—Although the exact terms are carefully guarded, the Associated Press is able to say that an agreement on the Samoan question has been practically reached and the finalities will take place within a few days unless an unexpected hitch occurs. But it can be said that American control of Tutuila islands is confirmed and agreed to, while the United States has, it is understood, signified its approval of the projected arrangements between Germany and Great Britain. It is emphatically denied that the United States had been neglected in any way in the negotiations. It is clearly pointed out that the United States, having Tutuila island, obtained all she expected or desired; but, though thoroughly satisfied, she was kept conversant with and always consulted about the negotiations.

While Miss Lucy Newton, of this city, was examining an unusually interesting exhibit at the San Antonio fair last week a bold pickpocket took her purse out of her pocket. The young lady discovered the theft before the scoundrel could conceal it, and quietly requested him to return the property to her, which he did very politely. The pickpockets in San Antonio may be coarse in their work, but they maintain the chivalric gallantry of that ancient city when their "business" brings them in contact with ladies.

STOCKMEN'S DOINGS.

**Movement and Sales of Live Stock as
Reported by an Exchange.**

Ozona Courier.
W. E. West bought three Hereford bulls from Charlie Broome yesterday at \$27.50 a head.

J. L. Crawford, so we have recently been informed, sold his ranch on the Pecos to W. J. Mills for \$500. Mr. Mills will winter his sheep on the ranch.

Emmett Noelke, of Sherwood, was in Ozona Sunday. Emmett informed us that he was on his way to N. G. King's ranch with two flocks of sheep to winter there.

E. A. Dragoo has leased pasturage for 1,000 steers from E. E. Crosson, of Crockett county. Mr. Dragoo will move the cattle from the Willis Johnson pasture in a few days.

Devil's River News.

John McKee, the stockman, was in Sonora Tuesday from the Gunzer ranch, and says they had good rains out there, and the stock are doing all right.

The well-known live stock firm of McMullan and Myers, of Val Verde county, have divided their interests. W. C. Myers takes the sheep, about 4,500 head, and the old Newman ranch, and D. K. McMullan retains the upper ranches and the cattle, about 600 head.

Ed Decie, the cattleman from Edwards county, was in Sonora Wednesday for a windmill and well outfit. Merck Bros., the steam well drillers, again being fortunate in striking a fine flow of

Bandera Enterprise.

Mr. T. A. McBryde, of Centre Point, was over the other day looking for mules to purchase.

Rock Springs Rustler.

Mr. Markendale, the goat man, passed through town, Monday on his way back to the ranch with a couple of extra fine goats. He had started with them to the fair in San Antonio, but was delayed by heavy rains. Mr. Markendale was very much disappointed at not getting to exhibit his goats.

J. B. Stribling, who was tried at Sonora for wife murder, was convicted and sentenced last week to imprisonment in the penitentiary for life.

Wash Barker Captured.

A telegram came to Sheriff Sowell Tuesday morning that Wash Barker had been arrested in New Mexico by State Ranger John Matthews. The last grand jury indicted Barker for the killing of Frilan Hernandez, which occurred about eight miles east of Ozona one month ago. Barker will be brought to Ozona as soon as the necessary requisition papers can be obtained from the governor of New Mexico.—Ozona Courier.

W. F. Walker, who has been engaged in the sheep business for several years past in Val Verde county, near Juno, committed suicide recently at Del Rio. Frank Walker was well respected by his neighbors, and at the time of his death was pretty well off in this world's goods. No cause can be assigned for the deed, other than that he was in poor health. He was an own cousin of Mrs. A. S. Gantt, of San Angelo. We are indeed sorry to hear of his untimely death.—Ozona Courier.

That rain on Thursday night of last week was a chunk floater. It rained about all night. The river rose here about ten feet. It's the best soaking we've had since June.—Bandera Enterprise.

Death of Mrs. S. M. Newton.

Captain and Mrs. H. M. Newton were called to San Antonio last Sunday to attend the funeral of the former's mother, Mrs. S. M. Newton, who died at her home in that city on Saturday, the 4th instant, in her 80th year. Many old friends who knew her and loved her followed the remains to their last resting place. Old, gray-haired men viewed the body of her who taught them their A, B, C's, and the words of Christ, of whom she was a faithful disciple. Six grandsons acted as pall bearers to the First Presbyterian church, and thence to the grave.

Mrs. Newton had been gradually failing in health during the past two years, but, happily, being very fond of books and writing, she retained her clearness of mind until recently, and never tired of good literature or bright company.

She was a conscientious Christian and an earnest and faithful worker in the Presbyterian church, being one of the seven who founded the first Protestant Presbyterian church of San Antonio, which then held its meetings in an old adobe structure on Commerce street in the rear of where stands the block of large buildings, next to the John James homestead.

Mr. Samuel Newton and Mrs. Joslyn were both doing missionary

duty in the Cherokee Nation, when one lost a wife and the other a husband. They were married in 1835. Each had children by their first unions, and children were born to them after their marriage, making in all a family of eleven, who lived together in loving unison. At her death there had been born 52 grand children, 50 great-grand children and three great-great-grand children.

Samuel Newton came to San Antonio in 1847. Returning the following year for his family, he arrived with them in that city Nov. 20th, 1848. 51 years ago this month, Samuel Newton died in 1865, in his 74th year, having at the time five sons and four grandsons in the Confederate army. Four of the eleven children still live: Mrs. Ellen Heard, of San Antonio; Mrs. George Cochran, of Virginia; Mr. F. McC. Newton, of San Antonio, and Capt. H. M. Newton, of this city.

Mr. Grogan (feebly): "Begorrah, after Oi've drank all the whisky that's good for me Oi can't say ashp'rilla!"—Puck.

A Mystery Cleared Up.

About three months ago Mr. John Oeffinger, an aged resident of Upper Quihi, disappeared from home, and although diligent search was made for him at the time not a trace of him could be discovered, and his relatives and neighbors were reluctantly compelled to give up the search.

Last Friday, however, the mystery surrounding his disappearance was cleared up when a skeleton was found in a pasture between Upper Quihi and the Medina river. The bones were scattered promiscuously, but there were remnants of clothing that enabled relatives of Mr. Oeffinger to positively identify the remains as those of the missing man.

The supposition is that the deceased wandered away from home, got lost in the brush, and perished for want of water and food.

Justice Scoorobiny held an inquest over the remains, after which they were interred.—Hondo Herald.

Mexican Killed at Juno.

George Metcalf reports the killing of a Mexican at Juno Friday night. It seems that the Mexicans were having a grand baile in the city and six white boys came around and wanted to go in and dance. The Mexicans told them

to stay out. The boys went back down town, touched up a little more on "bug-juice," came back to the dance and proceeded to shell the greasers to a "hard-boil finish." One greaser received a bullet about the waistband of his pantaloons, and then hung his clothes on a limb and swam across the river. The boys were arrested next morning, brought before Justice Edmonds, waived examination, and each placed under a \$2,000 bond.—Ozona Courier.

Of Interest to Hotel Men.

The following letter was received this week from the secretary of the Tennessee Railway Commission by the PAPER. It is one among several of like purport which have come to us recently from different parts of the United States:

"Dear Sir: Will you please send me a copy of your paper? I want to get the address of the leading hotel of your city. Am thinking of taking my family to Kerrville for the winter.

"Thanking you in advance, I am,
Yours truly,

"FRANK AVENT."

The PAPER was sent to the writer, of course.

Joe Anderson received notice yesterday that his landscape photograph, which he had entered at the San Antonio fair, had taken first premium. This is a conspicuous honor for Mr. Anderson, as his view was in competition with the work of the best photographers throughout the state. The premium view was made last sum-

mer at Camp Ranch, at the head of the Guadalupe, and shows the Boneyard water pool and the high bluff by its side. The scene is a well-known one to many of our readers. Mr. Anderson also took second prize on his picture, "Saddling a Wild Broncho."

A hunting party from San Antonio, consisting of T. A. Coleman, J. C. Proebor, Tom Borne, and A. M. White were registered at the St. Charles Thursday night, and left yesterday morning for the Divide.

The PAPER received a telephone message from Messrs. Comparette and Gilmer Thursday. They were then at Rock Springs, the Kerrville and Rock Springs telephone line having been completed and connections made with that place that day. The line is now in good condition, and places eleven more communities in connection with Kerrville, the great trade center of the Southwest.

Capt. A. W. McKillip returned Sunday from a four days' visit to the fair at San Antonio. To a PAPER reporter the Captain said: "I have been attending fairs and expositions for the past forty years, but have never seen a better one, except the Centennial exposition at Philadelphia in 1876, and the World's fair at Chicago in 1893. The stock exhibits were immense. As a trade bringer to the city it was a big success, and as an agricultural and industrial exhibition it was the biggest thing the state has ever produced."
