

THE KERRVILLE ADVANCE

VOL. 3.

KERRVILLE, TEXAS, THURSDAY, MAR 11, 1915

NO. 22

ROUSING MEETING AT COURT HOUSE

Anti-Saloon League Speaker was Given Attentive Hearing by Large Audience Sunday Evening.

Rev. J. T. Bell, District Superintendent of the Anti-Saloon League, with headquarters at San Antonio, arrived in Kerrville Saturday and remained until Monday afternoon with long-time friend and co-worker, Rev. J. B. Riddle. On Sunday night Bro. Bell addressed one of the largest crowds ever assembled in the Kerr county court house on the subject of Temperance and Prohibition. The various churches of the city gave up their evening services and the congregations came out to hear this great subject discussed. The combined choirs with Mrs. J. T. S. Gammon at the organ rendered splendid music. The following pastors were present: Bishop J. S. Johnston, Episcopal; Rev. W. P. Dickey, Presbyterian; Rev. S. C. Dunn, Methodist; Rev. B. Schleifer, Lutheran; Rev. J. B. Riddle, Baptist.

The speaker dealt with his subject in three divisions, viz: Progress of Prohibition; Excuses of its Opponents, and Some Fruits of the Liquor Traffic. His arguments were fair, logical and convincing. He made it plain that the fight against the liquor traffic which is being led by the Christian men and women of our country is not a fight against men to injure them, but that the object is to save men by separating them from such a demoralizing and death-dealing business. He gave facts and figures to show that the prohibition movement is sweeping the country like a mighty ocean wave that cannot be driven back and that the defenders of the traffic are coming to desperate straits to try to save it.

His audience gave him close and patient attention through his ad-

Bandera Locals.

John Crist is moving to San Angelo to reside.

The barn and contents of J. Tom Williams on the West Prong were destroyed by fire last week. Loss about \$1200.

Rev. Wilson Finch had the misfortune to cut his foot badly with an axe while cutting wood last week.

Tom Flynn and sisters, Misses Annie and Nellie, have gone to Fort Smith, Ark., for an indefinite stay.

Frank Montague attended the Cattle Raisers' Association convention in San Antonio.

W. T. Leavell took Misses Guthrie Rogers and Helen Rugh to San Antonio Friday and returned Sunday.

Charles Montague and wife are at Terrell Wells for an indefinite stay.

Miss Leora Ramble, who has spent several weeks with Mrs. W. B. Wood, has returned to the ranch.

Miss Adah Giddons is visiting Mrs. Fred Risinger.

Mrs. S. J. Mullen of Coperas Cove, who has been visiting her grandson, V. Q. Mullen, for several months, has returned home.

Baptist Ladies Aid

The Ladies Aid held their regular monthly Missionary Meeting Tuesday afternoon with Mrs. J. T. S. Gammon at her pretty home three miles from town. There were eighteen present including visitors. An interesting Missionary program was rendered, led by Mrs. E. E. Bagwell, after which a free will offering of \$5.25 was taken.

After the program was over refreshments were served.

dress of an hour and a half and he was complimented on all sides upon his fair and manly discourse. No doubt this splendid gathering will further stimulate public sentiment against the liquor business, which has no right to exist except that given by government license, and no useful place in any community.

"On With The Battle."

Noll-Hodges.

Mr. Henry Noll of Kerrville and Miss Stella Hodges were united in marriage Sunday at 10 a. m. at the home of the bride's father, Mr. G. W. Hodges in Junction, Rev. J. C. Campbell, the Methodist pastor, officiating.

The happy couple arrived in Kerrville the same evening and went at once to their pretty home just completed by the groom in the Tivy addition.

Both are popular young people and start out as life partners with the prospect of a bright future before them. The Advance joins their many friends in offering congratulations and best wishes.

Class Picnic

Miss Maggie Sutton entertained her Sunday School class with a picnic outing last Saturday. The girls of her class each invited a boy.

Those present were: Bessie Grinstead, Clara Haag, Ruth Peterson, Minnie Mae Beckman, Polly Hamlyn, Lena Vowel, Jack Kent, Roy Smith, Clarence Mittanck, S. B. Ford, Alton Pierce. Miss Maggie Sutton and Miss Leah Buckner as chaperones.

S. B. Ford, Jr., took the party in his car, and as it was a beautiful sunny day, and we glided along so smoothly and happily, we were at Center Point before we realized it. The car halted at the mill dam where we ate our lunch, after which we played games for awhile and then, after a spin around over the city, we turned our faces homeward. Although there were thirteen in the car and our chauffeur not so large as some, we had no breakdown to mar our pleasures. [Reporter.]

Epworth League Program

Sunday March 21, 1915.

Leader—Marie Barfield.

Subject—God's Method of Developing Leaders.

Song.—No. 468.

Scripture. 1 Sam. 16: 11-13.—Leader.

Song.—No. 381.

Paper.—Mrs. Dunn.

1st. Ref. Sam. 2: 7-8.—Miss Cone.

Song.—No. 161.

2nd. Ref. 1 Sam. 24: 1-2.—Floyd Conwill.

A paper; God's chosen Leaders of Old Testament Times.—Mrs. Dunn.

Duet.—Miss Alta McDoniel and Miss Ethel McKiddy.

Respond to Roll Call with the reference word "Leader".

Song.—No. 418.

Benediction.

If you think the Advance is a good local newspaper help us to extend its circulation.

Center Point Letter.

(Regular Correspondence)

A meeting of the Kerr County Wolf Bounty Association has been called for Saturday, March 20 at this place for the purpose of changing the assessment from so much per member to so much per head of goats or sheep owned by each member. Mac Dozier is president of the association.

Mr. and Mrs. Dewitt Burney are building them a nice residence on some lots they bought opposite W. D. Burney's.

J. R. Herndon is building on his lots recently bought off the Harts-horne property.

Ed. Moore is doing some improving on the Moore confectionery in the way of painting and remodeling.

E. C. Meeker has bought the 220 acre farm of J. C. Baxter near Kerrville and we understand the family expect to move up there.

Mr. and Mrs. Jas. Crotch have returned from Fort Worth where they had a big time at the Woodman convention.

Considerable interest is being taken in the stock law election to be held here the 27th. This law carried last year but on account of a defect was declared void. It is uncertain as to how it will go this time.

Fishing is getting fine. J. C. McElroy has been claiming to be champion fisherman but since P. D. Hill has returned from El Paso of course everybody else will have to go way back and sit down.

Both Mrs. Fuller and Mr. Bruff are improving their hotels and putting them in first class shape for the big rush of summer boarders.

If there isn't about half a dozen weddings in and around Center Point pretty soon all signs fail.

The report that Gené Cox, while repairing the roof of his house, fell and landed on his back porch is said to be all a mistake.

A New One.

Baptist Church Notes.

My Friend, I come a gain to give you a cordial invitation to come to church next Sunday. You know I actually saw some grown people and boys coming in town last Sunday with poles and fish lines like they had been fishing. Do you recon a man or boy in Kerrville would actually go fishing on Sunday like the Mayor of San Antonio? God gives us six days for work and recreation and saves the other for Himself. I hope we will remember Him on His day and not spend it as some do.

The Baptist pastor recently preached on "Faith," and next Sunday he expects to preach on "Faith Tested." You are asked to hear this sermon. At night the sermon theme is "The Sinner's Friend," and if you feel the need of some one to help you in earthly affairs you should hear of this friend of Sinners, The Church, the Pastor, and the Spirit ask You to Come.

J. B. RIDDLE, Pastor.

Scholarship for Sale.

We have a \$50 scholarship in the Draughon Business College, San Antonio, which we will sell at a greatly reduced price. THE ADVANCE.

DOUBLE SERVICE TIRES GIVE GREATEST MILEAGE

The best tires in the country in points of service are those made by the Double Service Tire and Rubber Co. of Akron, Ohio. These tires are made of the same material that goes into the very finest high grade standard tires but the thread is twice as thick in both fabric and rubber. This thickness does not detract from the riding qualities in any way yet it gives astonishing service and makes the tire practically puncture-proof in every way for a tack or similar object cannot penetrate through this quality of material. These tires bear a 7000 miles guarantee, but strange to say the prices are about 40 per cent lower than the standard tires. This saving is chiefly brought about by the fact that the tires are sold direct to the auto owner and thereby the cost of commissions is entirely eliminated which makes the low prices possible.

Baker Granted \$3500 Bond

The coronor's proceedings in the case of H. H. Baker, charged with killing his son-in-law, Dudley Laurie, was closed by Judge Hugh Turner last Friday and upon the evidence Judge Turner fixed the bail of the defendant at \$3,500, which up to the present has not been given.

There will be no further court proceedings in the case until it comes before the grand jury at the regular term of District Court the latter part of June.

There have been no further developments in the case since our report of last week, so far as we are able to learn.

Ingram Locals

(Regular Correspondence)

A meeting will begin at the Baptist church Sunday the 21st, and will continue through the week. Every body is invited to come and take part. Bro. Lee will conduct the services.

Mr. and Mrs. Burnes are visitors in Ingram.

Mrs. R. Colbath and baby from the Schreiner ranch visited her sisters Mrs. Tom Lee and Mrs. Cary Childs last Sunday.

Mr. and Mrs. Meadows and son Glenn visited at the home of Bro. Osborne on Johnson Fork Sunday.

New Telephone Movement.

A petition is being signed by many of our citizens, subscribing for an independent rural telephone system here. To date, fifty-one names are on the list. It costs \$10 to join. Each subscriber must buy his box, and wire to the main line and pay 25c a month for switch-board services. Dr. McBeth has the list.—The Harper Herald.

I have a special sale on buggy whips while they last.

J. E. Palmer.

NEW DEPOT MAY START AT ONCE

General Manager of Sap Spends Two Days Here Making the Final Arrangements to Start New Structure

J. S. Peter, general superintendent of the S. A. & A. P. railroad, came to Kerrville in his private car last Saturday and remained here until Monday afternoon. From the best information obtainable the business of Mr. Peter was to confer with the business men of the city and make final arrangements to begin construction of the new depot which we are needing very badly at Kerrville. We understand he will advertise for bids at once for construction under the plans as adopted over a year ago.

If this plan is carried out Kerrville will have a depot that will be a credit to our splendid little city and we hope there will be no more delay or trouble in getting the new building started. Since the old depot burned a year and a half ago we have been making out with very poor accommodations for a passenger depot, but on account of the great losses sustained by the railroad company from the floods and the depressed financial conditions, our people have been patient and said very little about the matter. But as the superintendent says the company is now able to take up the matter and carry it through, it is hoped we will soon have the new depot.

New Arrivals this Week

Boys knee pant Palm Beach Suits in sizes 6 to 18 years at \$5 a suit. Boys school knee pants, price 50c to \$1.50. Boys Sunday knee pants, price \$1.75 to \$2.25. Boys Palm Beach knee pants at \$1.65. KERRVILLE MERC. CO.

HOSPITAL SHIP WAS NOT RECOGNIZED

British Hospital Ship Artursa Mistaken For Transport.

Washington, D. C.—The following official statement of the German government was given out here by the German ambassador, Count Bernstorff:

"Government sorry to admit British hospital ship Artursa was attacked on February 1, 5:05 p.m. Coming up in twilight, carrying lights prescribed for ordinary steamers, ship was taken for transport conveying troops; distinctive marks showing character of ship not illuminated, were only recognized after shot had been fired. Fortunately torpedo failed to explode. The moment ship was recognized as hospital ship every attempt of further attack was immediately given up."

NEW OFFICERS OF THE CATTLEMEN ASSOCIATION

San Antonio, Texas, J. D. Jackson, Alpine, President; John Landergin, Amarillo, first vice president; Julian M. Bassett, Crosbyton, second vice president; E. B. Spiller, Fort Worth, secretary; A. C. Williams, Fort Worth, assistant secretary; S. B. Burnett, Ft. Worth, treasurer.

Honorary vice presidents W. W. Turner, El Paso; Ike T. Pryor, San Antonio; James Callan, Menard; Ed C. Lasater, Fallsburg; A. B. Robinson, Slaton; Sam Davidson, Fort Worth; Al McFadden, Victoria; R. J. Kleberg, Kingsville.

NO HONORS FOR CREWS OF SUBMARINES

London.—The Admiralty announces that it is not justified in extending honors to the captured crews of German submarine boats owing to their methods, and that it is intended to segregate them under special restrictions, pending their possible conviction at the conclusion of peace. The Admiralty states that this ruling applies to the twenty-nine officers and men of the German submarine U-5 which was sunk recently off Dover.

HOW WILL BLOCKADE BE ENFORCED?

Explanation of Allies Recent Communication Is Desired.

Washington, D. C.—Although Secretary Bryan declined to make any announcement, the general impression in official quarters was that the message of inquiry which has been under consideration for several days finally had been sent to Great Britain and France, asking for a clear explanation of their recent joint communication declaring that they held themselves at liberty to stop all commerce between Germany and neutral countries.

Reports that the inquiry has been sent were generally current, and met with no denial by high officials.

INSECTS ARE LORDS OF UNIVERSE

Birds Are Indispensable As Balancing Force of Nature.

Washington, D. C.—Among the zoological articles in the Smithsonian annual report is one on the value of birds to man, in which is made the astounding statement that although man imagines himself the dominant power of the earth, he is nothing of the sort; the true lords of the universe being the insects. For although man has attained predominance over the most fierce and powerful animals and most deadly reptiles, he and his works would be of little avail before an attack of insects, which include a greater number of species than all other living creatures combined; while possibly twice that number still remain unknown.

The author says that these incomputable hordes feed on nearly all living animals and practically all plants, and multiply into prodigious numbers in an incredibly short time. Computations show that one species developing thirteen generations a year would, if unchecked to the twelfth generation, multiply to ten sextillions of individuals while a single pair of the well-known gypsy moths if unchecked, would produce in eight years enough progeny to destroy all the foliage of the United States. One pair of potato bugs, he states, would develop unchecked 60,000,000 in a single season, at which rate of multiplication the potato plant would not long survive.

Through its predominating insect diet, and on account of its exceedingly rapid digestion, the bird balancing force of nature; without its assistance man, with his poison the weather and animals, as well as the parasite predaceous insects, would be helpless. The author then states how the bird is a benefit to man in a great number of ways, in checking insect infestation in preserving orchards; their service in the meadows and gardens; their value in protecting live stock and their usefulness in the preservation of health and elimination of disease.

Remarkable instances of the bird's service to man include the introduction of the English sparrow into New Zealand with the resulting elimination of the thistle and caterpillar which were ruining the land and crops, and the saving of Australian agriculture from the grasshopper by the straw-necked ibis, in individual flocks of which an average of 2,400 grasshoppers was found.

TURKS SUMMONED TO SURRENDER CITY

Washington, D. C.—A cablegram from Ambassador Morgenthau at Constantinople, stated that the British admiral commanding the allied fleet in front of Smyrna gave the Turkish garrison twenty-four hours to surrender under threat of bombardment.

One rarely sees an old man who is afflicted with self-conceit.

PHILIPPINE ISLAND TRADE PARALYZED

European War Causes Lack Of Ships To Handle Commerce.

Washington, D. C.—Trade between the United States and the Philippines Islands has been practically paralyzed and business conditions in the islands seriously depressed by lack of ships to handle the commerce since the European war began.

This situation was revealed in a letter from Secretary of Commerce Redfield to Secretary Garrison of the War Department to whom Governor General Harrison had appealed for relief for the island shippers.

After reciting the conditions as described by the Governor General the letter says:

"So long as there is no law giving us any power over any shipping the Government is powerless in the matter. Private and corporate interests are in control of the situation and we can do nothing."

ITALY MAY SOON DECLARE WAR

Has Much at Stake And Must Protect Her Own Interests.

Rome.—The Giornale d'Italia, argues that it will be difficult for Italy longer to remain neutral, declaring that the attack by the allied fleet on the Dardanelles has brought up three great problems affecting Italian interests.

"The first of these problems," the newspaper says, "is the new rule to allow Russia access to the Mediterranean through the Dardanelles, the second concerns the equilibrium of the Balkans, and the third the partition of Asiatic Turkey, which affects the equilibrium of the Eastern Mediterranean."

"It is impossible for Italy to keep out of the solution of such problems, unless she is satisfied to see not only the powers of the Triple Entente settle these affairs according to their interests, but also the small, but audacious and resolute nation, Greece."

TO PRINT TEXAS BOOKS IN TEXAS

Amendment To Proposed Law Accepted.

Austin, Texas.—After adopting an amendment, which was accepted by the authors of the bill, providing that no text books shall be adopted or contracted for by the Text Book Board at a higher price than a similar book of equal or better quality would cost if manufactured elsewhere where the House engrossed the Nordhaus' print text books in Texas" bill by a viva voce vote. There was no discussion whatever on either the bill or amendment, which was introduced by Laney Hill and Carter.

The committee amendment to the original bill, providing for a two-year extension of contract to book publishers who manufacture their products within the State, were read and adopted and the bill then engrossed.

STATE SCHOOLS ARE SEPARATED

Texas University and A. and M. College Divorced.

Austin, Texas.—The Senate Committee on Educational Affairs made an undivided favorable report on the Sackett joint resolution providing for separation of the State University and the Agricultural and Mechanical College.

Several committee amendments of a corrective nature were adopted. A clear majority favoring adoption of the resolution seems to exist in the Senate and an effort will be made to give it consideration at the earliest day it can be reached.

GERMAN CRUISER SINKS AMERICAN VESSEL

Crews of Eight Merchant Vessels Brought Into American Port.

Newport News, Va.—The German auxiliary cruiser Prinz Eitel Frederick, after a marine wrecking scouring of Pacific and Atlantic Oceans, which culminated in the sinking of an American sailing ship in the South Atlantic January 28 last, limped into port and anchored for supplies and repairs. She brought with her rescued crews and passengers of American, British, French and Russian ships and lies at anchor proud of the trophies of war that crunched the bottom of the sea but in a state of mechanical exhaustion from the strain of a 55,000-mile journey.

The German cruiser began her expedition at Tsing Tau, China, last November. Commander Thierichsen of the Eitel Friedrich admits sinking eight merchant ships—three British, three French, one Russian and one American. The sinking of the American ship, the William P. Frye, a sailing vessel bound from Seattle to Queenstown with 5,200 tons of wheat, most concerned port officials here and the Washington Government.

AVIATOR SHOWS OFF IN CHICAGO

Loops the Loop Many Times.

Chicago.—Arthur Smith, an aviator, showing off before the members of the American Association of Fair and Expositions, ascended in his biplane over the lake front and described thirty-two somersaults in the air.

Smith ascended his loop-the-loop pointing the nose of the biplane earthward he dropped like a plummet, and then suddenly went up and over backwards. At the completion of the twenty-second turn he was plainly visible from the ground. Then he rose a short distance and again went backwards, turning ten somersaults in the second series.

The aviator's purpose, he said, was to show the association members that the aeroplane is a practical and perfected exhibition feature and not hazardous to aviators or spectators.

OWNER OF FREY ALLEGES CONSPIRACY

Will Appeal to The U. S. For Action Against German Cruiser

Long Beach.—Samuel S. W. Sewall of Bath, Maine, one of the owners of the William P. Frye, the American vessel sunk by the German auxiliary cruiser Prinz Eitel Frederick, said that he had appealed to the United States Government to proceed against the German warship as a sea rover and her crew as pirates. He has asked also that vigorous protests be made to Germany.

Mr. Sewall says the vessel was worth \$175,000 and the cargo of wheat shipped at Seattle last November was valued at \$300,000.

MEXICANS SEIZE BRITISH VESSEL

Carranza Forces Take English Steamer

New Orleans.—The British steamship Wyvisbrook has been seized by Carranza authorities at Campeche and her commander, Captain Muir, has been placed in jail, according to mail advices reaching here from Progreso.

The Wyvisbrook sailed from New Orleans for Progreso, February with a full cargo of merchandise. Arriving at Progreso, it is stated, Capt. Muir found the gunboat Progreso, which since has been sunk, on guard in the harbor, and was informed that the port had been closed to commerce by an order from General Carranza. The Wyvisbrook then went to Campeche, where, according to the au-

ANGORA GOATS WANTED FROM TURKEY

Efforts To Have Embargo On Turkish Goats Removed.

Washington, D. C.—Representative Smith took up with Secretary of the State Bryan a plan to have the embargo on importation of angora goats from Turkey into the United States, established by the Ottoman government, abrogated. The Turkish authorities for a long time have refused to allow angora goats to be exported from any part of the Turkish empire.

As the Turkish animals are superior to goats bred in the United States, Texas goat raisers for a long time have desired to import goats from Asia Minor, Secretary Bryan will take up the matter with the Turkish embassy here.

CAREER OF GERMAN CRUISER ENDED

Whether the Prinz Eitel Friedrich will be interned or will again set out for the high seas, it is considered here that her career as an armed cruiser must come to an end for should she be allowed to sail after repairs, it is believed that cruisers of the allies on the watch will account for her.

The possible action of the American government with regard to the sinking by the Prinz Eitel Friedrich of the American ship William P. Frye also is being discussed and the general view is that if the United States allows German warships to sink American ships with food supplies for England, that government can hardly protest against the allies prohibition of foodstuffs for Germany.

TRADE BALANCE IN FAVOR OF U. S.

Washington, D. C.—Excess of exports over imports through the thirteen principal custom districts of the United States, rolled up a favorable trade balance of \$25,811,521 for the week ending March 6, according to figures given out by the Department of Commerce. Exports for the week totaled \$55,204,576, against imports of \$29,293,055. During the same period a total of 271,819 bales of cotton were exported, making a grand total of exported cotton since April 1, 1914 of 5,752,867 bales.

The department made public also estimated figures for the month of February complete, showing imports \$130,000,000; exports, \$265,000,000; excess of exports, \$135,000,000. Similar figures for January were: Imports, \$122,372,317; exports, \$267,879,313; excess of exports, \$145,506,996.

GERMANY HOPES FOR AUSTRIAN-ITALY COMPACT

Berlin.—It is announced in diplomatic quarters that a decided realization of tension in the Austro-Italian situation is noticeable. This is attributable, probably, to initiation of direct negotiations between the two countries in response to the Austrian overture.

How far the negotiations have progressed and whether tangible results have been obtained has not been learned, but it is believed improbable in diplomatic circles that any decisive result has been reached.

A man isn't necessarily stingy because he keeps his promise.

Although women are great bargain hunters, a cheap man appeal to none of them.

Neither the agents of the vessel nor the Mexican consul here could confirm the report.

The vessel's crew was composed entirely of British subjects, it is said.

REVENUES OF U. S. ARE INCREASING

Austin, Tex.—A bill seeking to reduce the acreage of cotton in Texas was introduced in the House by Representatives Dayton, Dixon of Harris, Dove, Blackburn and others. The bill provides that each County Judge shall appoint in each school district a chairman who shall call a meeting to discuss and determine the best crops to be grown and the acreage of each. The chairman is also directed to make a canvass of the acreage of each crop. In each county a county executive board is to be formed which shall have the power to determine the amount of cotton and other products for the year 1915 and subsequent years in each district. The acreage to be planted shall be determined by a system of co-operation with the Commissioner of Agriculture.

As a means of enforcing the law a penalty of from \$100 to \$500 is provided for failure of the County Judge to appoint district chairman and a penalty of from \$25 to \$100 for the failure of the district or county chairman to do their duty, as set forth in the bill.

CATTLEMEN'S CONVENTION GREAT SUCCESS

Best Ever Says President Of Association

"The greatest convention in the thirty-nine-year history of the association."

This was the verdict of President Joe D. Jackson pronounced when the vanguard of the stockmen was beginning to leave San Antonio after attending the 1915 round-up of the cattle raisers of Texas.

"The convention," he went on, "was a record-breaker, because we took in 158 new members, increasing the membership to about 3,200. We formed the Old Trail Drivers' Association and thereby linked the past with the present and the future. The convention has brought the cattlemen closer together. It has created a better feeling between the Governor of our state, the Legislature and our Federal officials than existed in the past. As a result of our deliberations I feel much wiser and more needed legislation will be passed. The entertainment features were such as appealed to every stockman. It was of the kind that pleases us all."

"As a result of the San Antonio convention," he concluded, "I am confident the Cattle Raisers' Association of Texas will grow in influence and will henceforth be a greater power for good than ever before."

But a girl never thinks she is too young to marry.

Any girl who thinks as much of a man as she does of herself will do to tie to.

After a girl gives her hand in marriage she may discover later that she put her feet in it.

Most people would rather blame a man for what he doesn't do than give him credit for what he does.

A woman may not accept a proposal of marriage, but she always admires the good judgement of the man who made it.

An enthusiastic meeting is that of two girl chums who haven't seen each other for nearly an hour.

Bachelors always call a baby 'it' No man is so ignorant he cannot give advice.

All's well that ends according to your diagram of the fish.

An old bachelor is a man whom no widow has made a strenuous effort to marry.

Many a man has lost his vitality by drinking too often to the good health of his friends.

The conversation of most people is so unimportant that when they stop talking you wake up.

Marriage is sure to be a failure if he rocks the boat while she rocks the cradle.

Blackburn Makes Good

Representative M. E. Blackburn spent a few hours in Kerrville Friday on his return home to Junction from Austin. He had to go home to appear as counsel in two murder cases set for trial in District Court there this week. Judge Blackburn has been a busy man at Austin, having had several important committee positions and has taken care of the people's interests manfully in the passage of several bills and also in killing of several objectionable measures. He admits that he knows more now than he did before he went to the legislature. The regular session closes this week and the governor has decided to give the solons a month's rest before calling them back in special session.

Kerrville is considered a pretty town but we could make it much more attractive by building more sidewalks. In some places people are compelled to take the streets in rainy weather to keep from sliding through water and mud. Now is the time to build them before our summer visitors come. A cleanup day would not be a bad thing either. What think you?

The merchants advertise in the Advance because this paper is a welcome weekly visitor into the homes of their best customers where it is read by every member of the family and then passed around to the neighbors who don't happen to subscribe for it. One man said, "All the folks on the creek read my Advance until it is simply worn out, and they are all talking about subscribing for it." Counting circulation by the number of readers each week it has about 3,000. Better get your ad. in this paper if you haven't done so. It sure does pay.

The editor and wife and Addison and Emma Ruth had the pleasure of taking dinner and spending the afternoon with Mr. and Mrs. P. W. Bolton last Sunday at their farm home two miles south of Kerrville. They drove us out in their car after church and we certainly enjoyed the day with these good people.

This offer is good only till April 1

For Sale—40 acre farm 12 miles N. W. of Kerrville on the river. 30 acres in cultivation. Pecan grove and subject to irrigation. Price \$2500. Apply at this office.

DOUBLE SERVICE Automobile Tires

Guaranteed 7,000 Miles Service.

ABSOLUTELY PUNCTURE-PROOF

Double Service Tires are double the thickness of the best standard make tires. This 100 per cent greater wearing surface naturally gives that much more mileage and service. The average of 12 tires of tough fabric and one inch surface tread rubber makes these tires absolutely puncture-proof.

These tires exceed all others for use in the country over rough and rugged roads as well as on hard pavements. They are as easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the most economical and "safe" tires made and are used where tires must be depended on and tire trouble cannot be tolerated. Many Double Service tires are in use in the United States government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an Introductory Offer.

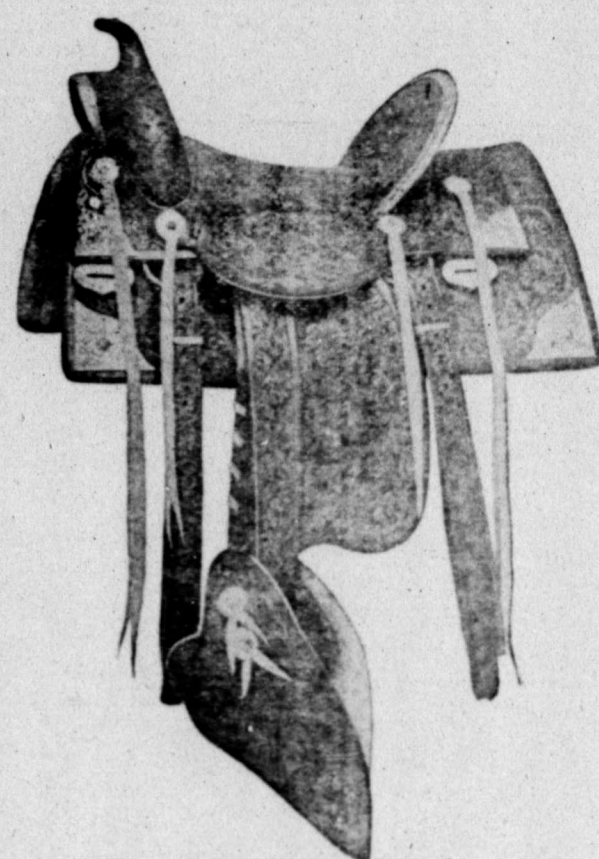

TIRE	Extra Heavy Tires
28x2	\$7.25
30x2	8.40
32x2-2	10.85
34x2-2	11.45
32x3-2	12.75
34x3	14.25
32x4	14.90
34x4	16.15
36x4	16.70
38x4	18.50
36x5	17.45
38x5	17.85
36x4-2	21.20
38x4-2	22.40
36x4-2	22.60
38x4-2	24.40
36x5	24.80
38x5	26.30

All other sizes not included in above list also furnished. Non-skids at 10 per cent additional.

Terms: Payment with order at above special price, a 10 per cent discount allowed on orders for two or more tires. All personal checks must be certified. Try these tires and be convinced of their very high qualities.

Not sold through dealers.

S. C. DUNN,
 Kerrville, Texas.

FOR SALE

747 acres, 100 acres in cultivation good fences, barns and out houses. Good 5-room house, two good wells and three tanks, one windmill. Located 19 miles Northwest of Kerrville on Kerrville-Reservation road. All farm implements and machinery, consisting of reaper, grain drill, mowing machine, rake, molasses mill, cultivators and single and double disc plows go with place for \$12000. Apply to The Advance.

Automobile Owners Receive Good News

The great boon to the automobile owners has just been given them recently in the form of a tire constructed of double the thickness of such tires as Diamond, Goodyear, Firestone and other standard makes. This added thickness in wearing surface makes the tires the best on the market today for real service as they are punctureproof and withstand great wear and hard service. Notwithstanding the added features of these tires they are being sold now as an introductory offer at a price about 10 per cent lower than the regular price of standard tires. These tires bear a 7000 mile guarantee which is also double that of the regular made standard goods. These tires are being sold direct to the consumer by the Double Service Tire and Rubber Co. of Akron, Ohio.

Baptist Philathea Class Meeting

The usual "Quarter Day" meeting was held at the home of Leah Buckner, Friday afternoon.

As is the custom, each member turned in their quarter (25c) with an appropriate rhyme. An interesting program was rendered, the subject being "The Girl who Couldn't." A contest was given to see who could guess the largest number of advertisements cut from the Advance. Bessie Raines was the most successful guesser. Refreshments were served. Thirteen were present. The meeting adjourned to meet again as Quarter Day in July.

The Philatheas are glad to welcome any young lady to their class. [Reporter.]

Last years MEBANE Cotton Seed for sale. S. G. Wray, Center Point.

Call on J. E. Palmer for Fire Insurance.

BEST AUTOMOBILE TIRES FOR HARD USE

Some automobiles drive over 20,000 miles service without a new tire. The reason is that they have the best tires. POULTRY NOTES

CHOOSING AN INCUBATOR

Possibly about the best advice one can give in this connection is about as follows: Visit a number of successful poultry plants in your neighborhood and ascertain what particular incubator has given the greatest degree of satisfaction.

Then secure a machine of that make, because it has shown that it will hatch well under the conditions existing in your locality and you will be able to obtain help from experienced operators if anything goes wrong.

Having purchased the incubator plan to give it a fair chance to do its best work. If it reaches you in a crate, unpack it with care and set it up in exact accordance with the accompanying sheet of instructions. Study this carefully. Do not attempt to assemble the various parts without knowing exactly where each goes and what it is for. The manufacturer probably knows best, so follow his directions and conduct experiments at a later date.

Place the machine in a room where there is free ventilation, a fairly even temperature and considerable moisture. Sluggish ventilation, excessive fluctuation of room temperature and bone-dry air will adversely affect results. The machine should not be placed in a direct draft, since the lamp will give trouble under such conditions.

Set the machine level to secure even temperature in all parts of the egg chamber. Then run it for a few days before putting the eggs in it so that the proper care of the lamp and the adjustment of the regulating device may be learned. After these points have been worked out, and only then, the eggs may be put in.

Selected Eggs Hatch Best

Now, a word about eggs of proper quality. Big hatches of sturdy chicks are to be secured only through the use of selected eggs. Better to operate the machine two-thirds full of really good eggs than to fill up the remaining space with those of doubtful quality. The egg cost per chick will be less than in the former case, and there will be a smaller proportion of weaklings, which are of little or no value, anyway.

Hatching eggs should be secured from well-matured, healthy, vigorous breeding birds, which insure strength in the chicks. They should be of good size, not abnormally large, since the chicks will be heavier and heavier when hatched and will usually retain this advantage over those from small eggs until maturity is reached. They should be of good shape and free from serious imperfections in shell, as such appear to hatch better than those which are very round, extremely pointed, or have ridged or mottled shells. They should be fresh, as hatchability decreases steadily with age. They should be collected frequently during cold weather to prevent possible chilling, which is always injurious. Finally, the eggs in each machine should be from fowls of the same general type, as mixed

lots from Leghorns and Bantams, for instance, do not hatch evenly.

Virtually all modern incubators are self-regulating, so far as temperature is concerned, and when once adjusted will maintain the proper degree of heat, unless the temperature of the room fluctuates violently. The proper incubating temperature, as indicated by the thermometer, varies according to the location of the latter. When the bulb is suspended at the level of the top of the eggs, the temperature should average 103 degrees for the entire three weeks, running slightly higher at hatching time.

Some operators prefer to keep the temperature at this point continuously. The writer has had best results from holding the temperature at 102½ degrees during the first week, 103 degrees the second week, 103½ degrees the third week, and 104 to 105 degrees when the chicks are hatching.

The machine should be running evenly at the required heat before the eggs are put in. When ready place the tray of eggs in position in the morning. They will heat up during the day and give opportunity to make any regulator adjustments before bedtime arrives. When the eggs are placed in the machine at night, there is more chance of things going wrong because of the absence of the attendant.

The eggs should be turned once every twelve hours, beginning thirty-six to forty-eight hours, after they have been placed in the machine. The exact method of turning them is of little moment, so long as their relative position is changed and they are partially rotated. It is not necessary to turn each egg squarely over.

WONDERFUL COLIC REMEDY A Remedy That Does Not Contain Any Opium

Edward's Colic Remedy is one remedy for flatulent and spasmodic colic that does not conflict with any law for it contains no opium. It relieves flatulent and spasmodic colic, retention of urine and all intestinal pains in horses, but does not bind up the secretions.

Edward's Colic Remedy is prepared from a prescription by Dr. Burby, the well-known and famed veterinarian of San Antonio. The remedy is not distasteful to the animal and consequently is not difficult to administer. It is sold wholesale by the San Antonio Ed. C. Jungkind, 111 Ave. C, San Drug Co. and manufactured by Antonio, Texas. If your dealer does not handle it, will be sent postpaid for fifty cents.

Liverpool.—Crawling through the darkness and with her lights out in order to avoid being seen by prowling German submarines, the Cunard liner Lusitania reached this port.

The Lusitania, which carried 475 passengers, sailed under the British flag all the way from New York, although Captain Dow declared that he stood ready to "run up any flag from the emblem of Ireland to the stars and stripes.

PACKERS REQUIRE CASH FOR MEAT

Beligent Nations Must Pay Cash In Advance.

Chicago.—Chicago packers announced that they would ship no more meat to Europe unless payment in full, in cash was made in advance.

This was the only defense left it was stated, against enormous losses as a result of Great Britain's holding cargoes of perishable meats en route for Copenhagen and other neutral ports. The packers have now \$8,000,000 worth of their product tied up in British admiralty courts and fear that the cargoes will spoil before a decision is rendered.

Alfred Urion, attorney for Armour & Company, is in London, where he has been appealing daily to the courts for a decision regarding the cargoes held.

CITRUS CANKER WILL BE ERADICATED

Austin, Texas.—The Senate bill appropriated \$5,000 for the suppression and eradication of citrus canker which has been doing great damage in South Texas was signed by the Governor. The appropriation is now available as the bill carried the emergency clause.

The Governor also signed House bill conferring concurrent jurisdiction on the two criminal districts of Dallas County with the Dallas County court at law in the trial of misdemeanor cases. The bill is now in effect, having carried the emergency clause.

NO MOTOR BUSES NOW IN BERLIN

Motor Service Abandoned But May Be Resumed.

Amsterdam.—The Telegraph says it learns that all the motor bus services in Berlin, have ceased but that the companies believe the prohibition against their running is temporary.

According to Berlin newspapers received here, an official celebration of the birth of the late Prince von Bismarck has been ordered by the Minister of Public Instruction. Bismarck was born April 1, 1815, and died July 30, 1898.

NORWAY HAS SUBSTITUTE FOR GASOLINE

Will Make Cheap Alcohol For Motor Fuel.

Christiana.—Seeking independence from the United States in the matter of gasoline supply, Norwegian chemists are trying to produce a cheap fuel for motor fuel.

Already a method has been discovered by a young chemist for utilizing the sulphite lye in the waste from wood pulp and cellulose, which heretofore has run off into sewers polluting the rivers and poisoning fish. This waste lye, it is found, can be made to produce alcohol at a cost of 25 cents a gallon, as against the price of 35-cents for gasoline. It is said if this process were fully developed Norway could produce five or six million gallons of motor alcohol a year, and thus become practically independent of gasoline.

The increased demand for motor fuel here, which has excited some comment in England because of the suspicion that the imports from the United States were being reshipped into Germany, is due largely to the increasing number of motor boats used for freight, passengers and fishing along the fjords and straits of the Norwegian coast. Owing to the few railroads in the country, automobile traffic has also increased enormously. Motors are now used for the delivery of even rural mail.

PEACEFUL COUNTRY HAS HARD ROW TO HOE

Peaceful Country Has Hard Row To Hoe.

Berne, Switzerland.—Though Switzerland suffers as much as it she were at war, she bears it good-temperedly. Life at Berne goes on much as before. There are no tourists, but then Berne never was a popular tourist center, as the absence of a Cook's office testifies. The young persons one meets in the street carrying skis and alpenstocks are Swiss—sign that the Swiss have begun to cultivate their mountains in the winter time. There being no business in the plain to occupy them this year, professional men and merchants, untouched by the mobilization have betaken themselves to the heights. Thus the season has not been a pure disaster to those who live by it.

"Sport Hotels" are still open, while the train, panted through the gleam of lights from hotels placed far above. None the less, the crisis is real. If it continues, those pleasant summer touring grounds frequented by the Anglo-Saxon and the German will feel the pinch of famine.

Wheat is another matter of prime importance. The war has stopped supplies by way of Amsterdam and the Rhine, Russia and Rumania. And now Italy, the Swiss say, is stopping cargoes at Genoa—a clear proof, is it not, that she is influenced by England? And scarcely a day passes without some evidence of friction.

And yet the better informed acknowledge the English consideration in the matter. Obviously, if Italy enters the fiery circle of the war the plight of Switzerland is a great deal worse. She will be enclosed by an issueless wall composed of France and Italy, Germany and Austria. Her position is increasingly precarious. She is in the dead center of the conflict. Thus she is forced to maintain a triple neutrality—Political, financial and economic.

ENGLAND EXPECT CITY WILL FALL EASILY

London.—England anticipates taking possession of Constantinople about March 20. The great ocean liners formerly in New York service is due to the use of more of them as transports for the expeditionary arm. It is probable that when Constantinople is occupied by the allied armies, Syria, the chief city and seaport in Asia-Turkey, will also be taken by the allied fleets and occupied by English and French forces.

AUSTRALIA PROHIBITS LEATHER EXPORTS.

Washington, D. C.—Exportation of leather from Australia has been prohibited except on consent of the trade minister, according to a cablegram received at the Department of Commerce, from Consul General Skinner in London.

The consul general at Christiania cabled that Norway had placed an embargo on copper and brass plates, bars, bolts, spikes, nails, pipes and foundry pieces.

LAND TENANT BILL HAS BEEN SIGNED.

Austin, Texas.—Governor Ferguson signed the land tenant bill. But the Governor, although it was his pet measure and the first platform demand to be given recognition by the Legislature, examined it carefully before affixing his signature. There was no ceremony attached to the signing of the bill. The Governor was alone. He just signed it, and sent it to the Secretary of State for record.

"The bill is all right" was the only comment made by the Governor after signing the bill.

SUBMARINES HAVE BEEN DISABLED BY STORM

Crippled Submersibles Are Sighted In The North Sea.

Copenhagen.—Scandinavian merchant ships returning from the North Sea report having sighted two or three German submarines disabled by a heavy storm and steaming slowly for their base.

Advices received here from Berlin say it is admitted there that the German submarine warfare against English shipping has been a complete failure. The strain on the submarines and their crews has been so great, it is said, that the underwater warfare has been discontinued and will not be resumed for several weeks.

The captains of the vessels that sighted the disabled submarines reported that the German craft made no attempt to approach them, their torpedoes evidently having been exhausted.

Travelers arriving here from Berlin state that Emperor William visited the German admiralty a few days ago and had a long conference with Admiral von Tirpitz, and that the emperor has abandoned his plan to visit the naval bases to inspect the returning submarines.

CULEBRA CUT HAS NEW LANDSLIDE

Panama Canal Partly Closed By Slide of Earth.

Panama.—The Panama Canal has been closed to all but the lighter draft ships by a slide of earth from the top of the Culebra Cut, at a point north of Gold Hill. A further slide is probable, but not serious but no tie-up is expected.

The channel is sufficient for navigation by ships with a draft of twenty feet. At one point the channel is very narrow. It is not likely that ships of 30-foot draft will be able to pass through the canal until the middle of next week.

CITY OF MEXICO IS FACING ANARCHY.

The City of Mexico faces anarchy almost beyond modern conception.

Starving people refuse relief of international committee.

Troops to be withdrawn and city given to looters.

Joint expedition like that to Peking in Boxer troubles possible.

JEWIS IN PALESTINE ENJOY SAFETY.

Washington, D. C.—Assurance that the Jewish population of Palestine "enjoy perfect safety," was given in an official communication from Constantinople dated March 2, made public here by the Turkish embassy.

If the world doesn't understand a man it calls him a crank.

A wise youth passes up the doll and marries a girl who can broil a steak.

Handsome is as handsome does—and the handsome women usually does as she pleases.

SURVIVORS OF EMDEN STILL AFLOAT

Men From German Cruiser Reported In Indian Ocean.

Tokio.—The Japanese Steamship Luzon Maru, sailing from Moji, reports that the schooner Aysha still is active in the Indian Ocean. The crew of the Aysha feign to be shipwrecked, attempting by this means to entrap steamers flying the flag of Great Britain and her allies.

There have been several conflicting reports regarding the schooner Aysha. When the German cruiser Emden was sunk by the Australian cruiser Sydney in the Indian Ocean, November 10, some forty members of the crew of the Emden, under command of Lieutenant von Muecke, escaped.

These men were members of a landing party which was on Cocos Island at the time of the battle. They commandeered the Aysha and sailed away. From that time their movements are in doubt.

A Manila report stated that the crew of the Aysha had captured a collier on which they mounted two Maxim guns, presumably brought from the Emden, and has been making raids on commerce. Ministry of Marine announced on December 18 the French that the auxiliary cruiser Empress of Japan had captured the collier with the men on board.

A Berlin dispatch, February 9, said the Aysha had reached Hodeida, Arabia, where the members of the crew were given an enthusiastic reception by the Turkish troops.

USURY BILL CAUSE OF MUCH DEBATE

Austin, Texas.—The House refused to engross the Nabour's bill to prohibit usury by a vote of 53 to 58. It was the only measure that caused any debate. Representative Nabour in speaking for his bill declared that it would do the farmers and poor people of Texas more good than any other measure proposed this session. He declared that many banks are violating the law of usury and are charging all the way from 15 to 115 per cent interest on small loans and that the small loans are the kind which the tenant farmers usually make.

Representatives Sackett, Spencer, Middleton and Veach all spoke for the measure. Representative Hill spoke against the measure.

Any man can start a woman talking but no man can stop her.

An old bachelor says that matrimony is the best cooking school.

Some men's idea of pleasure is to do the things they can't afford to do.

The average man displays a lot of enthusiasm when he gets a chance to talk about himself.

A girl never fully appreciates a young man until some other girl tries to get a corner on his affections.

Fish are wise. They begin business on a small scale.

Any old thing that goes against the grain of a porcupine gets the worst of it.

MANY FOREST FIRES ARE EXPECTED

Snowfall in Mountains Much Below Normal.

Washington, D. C.—The possibility of a dangerous spring and summer fire season in the National forests that two forest fires occurred in January, and that the snowfall in much of the Rocky Mountain region and in the foothills has been much below normal, the Forest service announces.

January fires are almost unheard of in the National forests, and the snow reports are regarded as especially significant, as they indicate that unless the deficiency is made up the forests will be dry earlier in the spring than usual, with consequent increases of the fire menace.

The fires reported occurred in the Pike forest, in Colorado, and in the Black Hills forest, in South Dakota. The latter is believed to have been of incendiary origin, according to the district forester at Denver. The total area burned over comprises about seventy-five acres.

The district forester at Ogden, Utah, in charge of the National forests in Nevada, Utah and Southern Idaho, reported that the snow in this region also is below normal.

COTTON WILL NOT BE CONTRABAND OF WAR

London.—The Daily Express says there is a strong belief in well informed circles that the British government does not intend to make cotton contraband.

The Express says it regards this, if true, as a grave danger, and urges that it would be better for the government to buy every pound of cotton in the United States than allow Germany to get cotton to make explosives.

CANADA HAS REGULAR STEAMER SCHEDULE

Tri-Weekly Sailing to France Promised.

Ottawa, Ont.—The inauguration of a tri-weekly steamship service from Canada to France for the conveyance of war supplies for the British War Department, was announced by the Canadian government.

The Admiralty has undertaken to supply eighteen freight boats for the service until the end of the war. Immense quantities of supplies for the British and French armies are being obtained from Canada and the United States.

HORSES ARE MENACED BY INCENDIARY

Kansas City, Mo.—Four fires which were reported by the fire department as incendiary broke out almost simultaneously in a horse and mule barn in which 800 horses belonging to the British government were stabled. All the horses were saved.

The same barns were damaged by a fire two weeks ago while British horses were stabled there preparatory to shipping.

NEUTRAL FLAGS USED IS CHARGE

Gothemburg, Sweden.—German merchant ships are using neutral flags. Three cargo vessels passing Gothemburg hoisted the Swedish colors, but when they arrived at Christiania they had the German flag displayed.

INFECTED PRIZE CATTLE HAVE BEEN KILLED

Victims Of Foot and Mouth Disease Include Prize Winners.

Philadelphia Pa.—One hundred and fifty prize-winning cattle, valued at \$50,000, victims of the foot and mouth disease, were slaughtered by officers of the Bureau of Animal Industry on the Haddon farms, Haddon Field, N. J., owned by former Assemblyman Gill.

Among those killed were many blue ribbon cows known all over the country as aristocrats of the bovine world, but the greatest loss of all came when a magnificent bull, Glenwood's Mainstay, was driven into a separate trench and shot. As a mark of his esteem for the magnificent brute, Mr. Gill arranged that he be reserved for the final shot. He was driven out for slaughter wearing a fancy halter bedecked with ribbons and medals which he had won.

Further to pay homage to the animal Mr. Gill will erect a marble monument over the grave.

DEFICIT MAY BE WIPED OUT BY JUNE 1.

Washington D. C.—Government revenues have begun to show slight increase, due largely to the usual spring import business, with consequent enlarged receipts from customs. The Treasury deficit, which a few weeks ago was in the neighborhood of \$85,000,000, has fallen to about \$80,000,000 and in the next few months there may be a further reduction.

Although Treasury officials are both to make any predictions when such unusual conditions prevail, the experience of years has taught them to figure on increased receipts from customs from about March 1 until the end of the fiscal year in June. If the increase is sufficient to keep the present deficit at a standstill the income tax may wipe it out entirely.

So far the emergency tax law has failed to live up to expectation and the Post office Department is running behind its usual business. Calculations made at the direction of Mr. McAdoo, however, of revenue and expenditures have differed widely at different times.

The question of issuing Panama Canal bonds has not been decided, but it is understood that if there is a deficit, Mr. McAdoo will not hesitate to use his authority to put out such an issue.

COTTON STEAMER FROM GALVESTON RELEASED

Boston, Mass.—The cotton-laden Steamer Pacific, bound from Galveston to Rotterdam, which was detained at Deal, England, was released, according to a cablegram from Capt. Mundy, her commander.

"Am sailing for Rotterdam," he reported to the owners of the vessel. The officials of the company now believe that the steamer was held up only to take a pilot.

BUCKING BRONCHO IS PURCHASED FOR WAR

Pondleton, Ore.—Cyrus Noble, one of the greatest little bucking bronchos that ever came out of Oregon, is going to Europe to aid to the horrors of war as the mount of a French cavalryman.

Cyrus was sold to a French officer who, as agent for his government, is buying horses for use against the Germans. The officer failed to discover the broncho's bucking abilities.

Oregon awaits with interest the advent of Cyrus Noble into the theater of war.

"I pity the fellow that first tries to ride him," said a bucker who rode Cyrus for ten minutes last year.

"That boss is liable right there to put both sides to flight and end the war."

BEEKEEPERS NOTES

By E. G. Le Sturgeon

We have made arrangements to have this column devoted each week entirely to beekeeping. We have secured the service of Mr. E. G. LeSturgeon, secretary of the Bexar County Beekeepers' Association, and one of the best known beekeepers in the State of Texas, to conduct this department for our readers. Any questions concerning apiculture or any request for advice about beekeeping should be addressed to E. G. LeSturgeon, Box 1048, San Antonio, Texas, and will be fully and carefully answered in this column.

We trust that every one of our readers will take advantage of this opportunity, because beekeeping is rapidly becoming one of the

most extensive industries in our part of Texas.

ORGANIZED FOR DIVERSIFICATION

Taylor County is leading every county in the state in the matter of diversification. Experience has shown that organized into a community is being organized, and while all of the communities have been organized, a county-wide organization will be perfected, says Secretary Fred T. Wood of the Adams Chamber of Commerce. United States government dairy experts are making each community and doing an organization. As a result of the work of these two men the cotton acreage will be reduced at least 50 per cent during the next year, and more attention will be given to the dairying and chicken business, for which that county is especially famed.—Texas Stockman.

The example of these dairy men could be followed to good advantage by our honey producers in South West Texas. We may not have any help from federal experts, but we ought not to wait for outside help. Let some good man in each county take on himself the work of calling together the bee men and perfect some such organization. This paper will aid in every way that it can.

There are two good results sure to follow this effort. First, prices will never again become demoralized as was the case last season. Second, all will be aided in our effort to break away from our slavery to one crop. Who in this community will take the lead?

THE BITTERWEED

This honey plant made its appearance in the South about 60 years ago. It comes up from seed the latter part of spring or about May 1, and grows to a height of about 14 inches by the middle of August when it begins to bloom. It is about the middle of October, during down just before frost. The bulk of the blossom which cluster about the stem, yellow, and the tiny, seedling, this plant will grow and bloom any where and on any kind of soil in the South except on very low wet land, but it spreads slowly where the seeds are scattered by the tramping of animals and passing vehicles. That is why we see it along roads and by-places where animals most frequently pass.

It is truly a nectariferous plant. Though it does not grow to great height as yet, bees will store from 20 to 25 pounds of surplus per colony from it. Its flowers are a deep yellow, and the honey is light yellow, heavy body and soon granulates when extracted. It is very sweet, in fact it is about as offensive to the palate as quinine. In most sections in the South the cotton plant begins to yield in two or three weeks before bitterweed, and if it was not for the well established fact that the bees desert a honey plant for another as long as it yields well, nearly all the summer and fall honey would be unfit for market on account of the bitterweed in sections where cotton does not yield much the honey is all bitter, and a small amount of it will ruin a tank of good honey. Bitterweed is also a great pollen plant, furnishing abundance of bright yellow pollen throughout its blooming period. Even the stems and foliage of this plant are intensely bitter and no animals eat it.

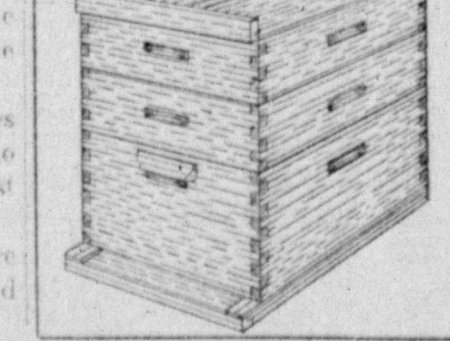

To give the reader an idea of how bitter it is, let me relate an incident that happened in my backyard days while we were traveling in Texas. We camped one evening, and after supper my father went down and brought back a good home-cured ham to eat on our long journey to the next town. On the way back with it, swinging down in his hands, he had some of these weeds crushed it, and having no covering it came in direct contact with them. On the following day when we prepared some of the ham to eat it was so very bitter that we could not eat it. It was several days before we learned where the "quinine" lay.

J. Wilder.

Mr. Wilder always writes entertainingly and his department in the American Bee Journal is one of the best. In this district this weed is called "sneezeweed" but luckily it is not plentiful enough to damage our honey flow.

NEWS NOTES

Spring conditions are favorable.

ously encouraging. We have seldom seen better prospects. In some of our yards during the latter part of February we found conditions pointing to early swarming. Several colonies already had capped drone brood at that time. Some neighbors are reporting the presence of drawn queen cells. If you have not overhauled your bees this spring it will pay you to do it because you are likely to see a swarm issue any day.

Bees consumed less winter stores during the past season than usual. Many beekeepers report having actually more honey in the hives now than when the bees were put in winter quarters.

In our Loma Linda Apiary in Bexar county we found empty supers put on 34 colonies in October to be filled with capped honey on visiting them last week. This apiary is located in an irrigated farm district and its condition shows that our bees worked practically all winter. There is a world of broomweed and other ground flowers growing along the irrigation laterals.

An important meeting of the Frio County Association was held Monday, March 15 at 2 p. m. in the court house at Pearsall. B. I. Gilman is secretary of this association and he is setting a pace for other associations to follow with advantage.

The beekeeping industry in Texas is receiving a great impetus from the agitation of the cotton reduction idea. Farmers whose sole dependence for a cash crop has been the fleecy staple will do well to look into beekeeping and its possibilities.

Prof. Geo. W. Page of Victoria, superintendent of the public schools, has been elected president of the Victoria Association in the place of President Tally, who resigned to accept the office of Inspector for his county. Both of them are undoubtedly the right men in the right place.

Aug. Saathoff of D'Hanis is fast becoming known as the bee king of Medina county and richly deserves the success he has found. His latest move is in the line that, if followed generally, will prove of benefit in every county. He is taking orders at the best quantity prices for bee supplies and appliances of proven worth and purchasing them together for his neighbors.
