

THE KERRVILLE ADVANCE

VOL. 3.

KERRVILLE, TEXAS, THURSDAY, MAY 13, 1915

NO. 32

Center Point Letter.

(Regular Correspondence)

Maek Weston of Kerrville was a visitor here Saturday.

J. F. Davenport made a short visit to Kerrville Saturday.

"Fisherman" P. D. Hill returned to Center Point after a three weeks business trip to different states.

R. L. Wellborn of San Antonio is here for a few days.

Robt. L. Bennett, editor of the News, went to Turtle Creek Saturday and came back Monday. He was accompanied back by his wife and baby.

R. A. Holland and family of Kerrville spent the day in Center Point Saturday.

T. A. Buechner of the Kerrville Advance was in town Saturday shaking hands with friends.

The Avenue Hotel looks good in its new coat of paint.

Both ball games between Kerrville and Center Point Saturday were won by Center Point. The C. P. first team beat the Athletics 11 to 2. The C. P. school team won by a score of 13 to 5 in a 7-inning game.

Rev. S. C. Dunn and family of Kerrville were Center Point visitors Saturday.

A. D. McBryde, mayor of Camp Verde, was in town Monday.

H. M. Nowlin went to San Antonio Monday to continue taking medical treatment. We are glad to report him much improved.

Mr. and Mrs. W. H. Rishworth left for San Antonio Sunday.

Camp Verde Letter.

(Regular Correspondence)

Sam Bradford who has been at Medina for a few days returned home last week.

We are sorry to report Miss Amie Burleson not doing well. She was threatened with lock jaw Friday and Saturday but is resting easy.

The Bonnell Ranch was the scene of a card party last Friday night, given in honor of Mrs. Bonnell's sister, Miss May Huntoon.

R. J. Irving and family and Mrs. R. W. Nowlin visited Mr. and Mrs. Ivey Rees Sunday.

The Camp Verde school closed Friday night with a concert which was unusually good, considering the time the children had to prepare for it. There was quite a large crowd out. Mr. Storms and Mrs. Smith are to be praised for the way they have handled the school. They have given perfect satisfaction so far as we have heard.

Miss Enlow, Miss Bernice Cox and Miss Bettie Burney of Center Point visited Miss Bessie Nowlin Saturday and Sunday.

We are glad to report Nat Fine who has been on the sick list the past week able to be up.

Grandma New of Ingram is visiting her son J. J. New of this place for a few weeks.

Manual Ferris and wife of Medina passed through this place en route home from Mac Dozier's where he had been shearing sheep.

Miss Eula Eakins of Center Point visited Mrs. G. C. Sutherland a few days last week.

Bandera Weekly Letter

From Regular Correspondent.

Every one seems to be enjoying the sunshine after the rainy season. Crops are fine and the farmers are smiling.

Commissioners' Court is in session this week and District Court will begin next Monday. The District Court docket will be very light; almost no criminal docket, but there's a reason. No saloons.

Joe Chisum, tax assessor, and W. R. Fletcher, County and District Clerk, spent Thursday at the Medina Lake.

A crowd from Wijnans Creek returned from the Medina Lake last Wednesday. They report a good catch.

Geo. Harper and Wm. Smallwood, citizens of Utopia, were in Bandera Sunday.

W. R. Fletcher and Henry Rackow attended a meeting of the Masons at Boerne Saturday night.

Prof. Aron Meadows and wife of Ingram are visiting friends and relatives in and around Bandera.

Frank Kring, mule and horse buyer visited Bandera Monday in search of fat stock.

Ed Pfefferling will be in Bandera Wednesday to buy horses and mules.

The school board has extended to Miss Emma Rodgers, the present principal of Bandera public school, an unanimous request to fill the same place another year. It is to be hoped that she will accept. The present term now nearing a close, has been a success, and Miss Rodgers is an untiring worker and succeeds every where she goes.

The piano recital given by Miss Montague's music pupils several days ago met with such success and because of requests, was repeated Saturday night. The proceeds went to the Mothers' Club.

Mr. and Mrs. R. E. Jump and Judge F. W. Dorow of Pipe Creek, were at church Sunday and visited relatives.

From one to a half dozen fishing parties passed through Bandera almost every day en route to the Medina Lake and all seem to be satisfied with the catch.

If the editor is fish hungry, visit Bandera and I guarantee he will be filled.

NOTICE!

I am here to do your mattress work. I do not know how long I will be here, its owing to the business. If I get work to justify me I will have to have the support of the people. Kerrville is large enough, I am pleased with the country, and think you have a healthy and beautiful little city, and there is no reason for not having a nice little mattress plant here. I find that the people have nothing of the kind nearer than San Antonio. I believe in having everything of the kind at home. It is building up the city, meeting the demands of the entire community. It keeps several thousand dollars at home, also you know that you get a clean, sanitary mattress, made to fit your furniture. It will always be in proper shape as long as the ticking lasts.

I beg to say I have made mattresses and upholstered for 35 years. I do know my business, and clean renovated mattresses means health in your family. I want your work. I have to have it to live. I will renovate or make you a new mattress, upholster or repair your furniture, re-varnish, etc. I will take eggs, chickens, butter, hog, sheep or goat, but never refuse to take the cash.

Yours very truly,
J. S. BURKETT.

DIED

John Britton who came here recently with his mother from Memphis, Texas, died yesterday morning at the Schreiner cottage on Main street. He was 20 years of age and had been ill for some time. The body will be interred at 10 a. m. today at Glen Rest Cemetery. Our sympathy is extended to the grief-stricken mother.

I have a nice lot sewing machines worth from \$7.50 to \$10.00 that I will close out at from \$3.50 to \$6, or will exchange for anything in household furniture. Phone 157.

Injunction Refused.

The suit of H. Mosel and others, for temporary injunction forbidding the Sap railroad company from removing the passenger depot off the depot grounds, was heard Tuesday before Judge R. H. Burney. After arguments by R. J. Boyle, attorney for the railroad company, and J. R. Burnett and H. C. Geddie for the plaintiff on the law points involved, Judge Burney held that the alleged contract to maintain the depot on the depot grounds could not be enforced by the court, and therefore refused to grant the injunction. The plaintiff excepted and gave notice of appeal, which will be heard next week in the Court of Civil Appeals at San Antonio, and then can be carried to the Supreme Court at Austin by either party.

The law provides for speedy hearings in injunction cases and gives them preference on the docket, so it is expected that the question will be finally settled by the higher courts within the next thirty days.

University Examinations

Fall Entrance Examinations to the State University, at Austin, may be taken at Tivy High School May 17th, 18th, 19th and 20th.

Questions for these examinations have been received by Supt. E. E. Bagwell, of Tivy High School, and any one wishing to take them may see him for further information.

Cannot Prove Ship Sunk by Germans

Wilson and Cabinet discuss Subject, but Decide on No Plan of Action.

Washington, D. C.—President Wilson discussed briefly with his Cabinet the torpedoing of the American steamer Gulf Light off the Scilly Islands, but in the absence of a detailed report on the incident no policy was formulated.

Messages received from American Consul Stephens at Plymouth and Consul General Skinner at London added little to the information obtained previously. Both were instructed to get complete statements from members of the ship's crew and to gather such evidence of a technical nature concerning the damage done to the ship as could be learned by an examination of the vessel on its arrival in port.

Officials want to establish beyond doubt whether the vessel was struck by a torpedo or a mine, and, if possible, the nationality of the explosive. Thus far it is known only that a submarine was sighted by one of the officers of the Gulf Light twenty-five minutes before the attack and that the submarine submerged immediately. No proof has been reported to establish that the submarine then sighted committed the attack, or what its nationality was.

Nor is there information to show whether the Gulf Light flew the American flag at the time or what colors were shown by the two British patrol boats which are said to have accompanied her.

To enable the German government to present any information it may have, Secretary Bryan explained that an inquiry had been directed to Ambassador Gerard. This action, he said, should not be construed as implying that the United States assumed that a German submarine had attacked the Gulf Light.

Naval officers here think it will not be difficult to establish whether the damage to the Gulf Light was caused by a torpedo or mine, when the vessel has been towed into port. Some think it will be possible to determine from the nature of the damage the nationality of the explosive.

Why Texas Suffers.

Every permanent increase in prices of farm products means an increase in the price of land, which ultimately results in an increase in rent. If the increase in the price of land is only in proportion to the increase in the price of products, it is no easier for the tenant farmer to buy a farm. But if the increase in the price of land out-runs the increase in prices of farm products, as it has done in many cases, it is actually harder for the tenant to buy land. That, no doubt, explains conditions in Texas.—(Lincoln) Nebraska Farmer.

Made a Difference.

Philadelphia Telegraph.
Little Willie became slightly indisposed, and when the family doctor was called he prescribed some medicine in powder form. "Come, Willie," said the fond mother, preparing one of the powders as soon as the medicine arrived from the drug store, "you must take this right away so that you will be well."
"No, I don't want to take it," whined Willie, backing away from the dose. "I don't need no medicine."

"Why, Willie," pleaded mother, gently drawing the boy toward her, "you never heard me complain about a little powder, did you?"
"No, an' neither would I," was the startling rejoinder of Willie, "if I could just put it on my face like you do, but I have to swallow it."

Japan Forces China to Accept Demands

Tokio's Ultimatum Causes a Prompt Back-Down At Peking.

Peking—The attaches of the Foreign Office were at work all night, May 7, translating Japan's ultimatum and drafting the terms of China's compliance with the demands which will be submitted to Yuan Shi Kai and the State Council. The reply was delivered to M. Hioki, the Japanese Minister, May 9.

The note will accept the demands without qualification.

The government expects no serious outbreak from the people. The military leaders have assured Yuan that their support would continue.

GOOD ROADS MEN CALL ON GOVERNOR

Austin, Tex.—Members of the Legislative Committee of the State Good Roads Association, after an appointed conference with Governor Ferguson, stated that they felt fully assured from his attitude that he would submit the subject of highway legislation at the current session. The committee included President John W. Warren and Vice President D. E. Colp of San Antonio, Secretary Homer D. Wade of Stamford, Engineer George D. Marshall of the Agricultural and Mechanical College, and Representative Leonard Tillotson. These were reinforced by several members of the House Committee on Roads, Bridges and Ferries, including Judge Rilar of El Paso, who is the co-author of the high commission bill which it is proposed to introduce at the present session.

The Governor told the committee frankly that he was very much interested in any project that would bring about better roads and that he was of the belief that the State needed a uniform road law. He asked the committee to submit any bill or bills it might approve on the subject in order that he might take them under advisement as soon as the appropriation bills are out of the way. He made it plain that it would not be his disposition to submit the good roads and other subjects until pending measures virtually have been disposed of. The committee did not ask him to state definitely whether or not he would submit the State Highway Commission subject, but the inference seems plain that affirmative action by the Governor will be the result.

POULTRY MEN READ THIS.

The following letter tells its own story. Follow in their foot steps, and profit like they did—use Chlorine Dip and be successful.

Gentlemen—Our poultry yards include winners as follows: First, St. Louis; first, Chicago; second, Missouri State Fair; first, Kansas City; third, Chicago; first, Birmingham; first, Galveston; first, International Fair, etc., etc.
So with such valuable birds, you can rest assured we are most particular as to the quality of disinfectant we use.

Ever since we organized this poultry farm, we have used your Chlorine as we find it cannot be equalled for keeping down disease and sickness among poultry. It is the greatest stuff on the market for Blue Bugs, Lice and Mites.

We have bought other disinfectants from time to time, but always return to Chlorine.

Conclude Public Hearing of Insurance Measure

Proponents and Opponents of Robertson Law Make Final Arguments.

Austin, Tex.—The House Committee on Insurance concluded public hearings on the Gibson bill late Friday afternoon. On motion of Fuller, the committee voted to go into executive session for further consideration of the measure.

The first speaker was Ed Woodall of Hillsboro, a proponent of the Gibson bill. He described his organization of a trust company at Hillsboro and of his subsequent visits to Northern cities in an attempt to find a company to whom he could sell Texas mortgages. He visited Chicago, Wisconsin, Newark, New York and Hartford without the result he sought. All the companies he visited told him that they could not lend money under the Robertson law.

W. W. Collier of San Antonio spoke briefly, confining himself to the opinion of others on the Robertson law, prefacing his remarks with the statement that Texas has been the pioneer in the passage of good laws, touching upon insurance. "I pronounce the Robertson law as the best insurance law ever passed by any State," he said.

He related the consideration of the Robertson law before a convention of insurance commissioners of twenty-eight States and said that an official of one of the Northern life insurance companies had declared that the Robertson law was fair, but that the exiled companies could not afford to do business in Texas under it, because it would set an example for other States.

A. A. Green of Dallas, representative of the Manhattan Life Insurance Company of New York, declared that his was the only New York company which had remained in Texas, and he told of the exit of this company because of the deposit feature in the original Robertson bill and of its return when this odious feature had been eliminated. He stated that all of the other New York companies had agreed among themselves not to return to Texas until the entire Robertson law had been repealed, and he gave this as one of the reasons why they did not return.

"They say they cannot do business under a compulsory law, but New York has more compulsory laws than Texas, and I say as a representative of the New York companies that the Robertson law is the best law on the statute books. A similar law was passed in New York in 1867, and was kept there until its purpose had been accomplished.

TALK OF PEACE IS PREMATURE

New York—That the end of the war in Europe in 1915 is too remote for serious consideration is the opinion of Roy W. Howard, head of the United Press, who has just returned from Europe.

"All Europe recognizes that the great war has developed something new in history—the siege of a Nation—and has resolved itself into an endurance contest of indeterminate length," said Mr. Howard.

"America will eventually have the greatest opportunity in the world's history to act the peacemaker—unless that opportunity is killed by ill-advised and premature talk of peace at this time.

"Belligerent and neutral in Europe have adjusted their life—national, commercial and social—on the basis of an indefinite war," he said. "They have eliminated every consideration contingent upon early peace. With

Farmers Favor Houston.

Austin, Tex.—Petitions from farmers asking the Railroad Commission to rescind its order on the Houston-Galveston differential, continue to be received, but no action has yet been taken by the commission. In these petitions it is alleged that it is an unjust discrimination against Houston as the rate now exists, and will eventually drive Houston out of the cotton business, much to the detriment of the State.

The petitions are being circulated by the State Farmers' Institute and the State Farmers' Union.

Phoenix, Ariz.—Vice President and Mrs. Marshall, accompanied by the latter's parents, Mr. and Mrs. W. E. Kimsey, left tonight for New Orleans, where Mr. Marshall will be the guest of various organizations before he proceeds to Mississippi to deliver a series of six lectures.

this point of view Europe—especially France and England—is dumbfounded at America's insistent peace talk and her reluctance to accept the situation as it exists and readjust business accordingly. Europe has accepted the worst as a probability—a war of from two to five years—and at the same time is prepared to be happily surprised should the trouble terminate earlier.

"The situation is general in both England and France that a considerable force is meddling in this country in the direction of early peace. Such a movement is regarded as an impertinence. In purely military circles, it is construed as pro-German."

STATE NEGLECTS ITS CONSUMPTIVES

Austin, Tex.—Discussing the bill now pending in the Legislature to appropriate sufficient funds for the Carlsbad Sanitarium for Tuberculosis, to maintain that institution properly and increase its capacity, Representative Metcalfe, in whose district it is located, has issued the following statement:

"The State Health Department estimates that there are 50,000 consumptives living in Texas.

"There are 10,000 deaths annually from consumption in our State. Two out of every 1,000 persons living in East Texas die of tuberculosis every year. In West Texas the number is larger, because so many sick come to that favorable climate for cure.

"Statisticians estimate that each human life is worth \$1,700. Consumption kills men and women at the productive period of life when they are worth most. The economic loss to the State through tuberculosis is therefore over \$17,000,000 annually.

"Science teaches, and has proven, that consumption can be cured. There are thousands of persons whose lives have been saved by treatment in sanitarium.

"Nearly all States and many counties and cities in America have established sanitarium for the treatment of tuberculosis. Pennsylvania has expended several million dollars in the construction of sanitarium for tuberculosis. Chicago has just opened an institution costing \$2,400,000 for

building for the care of consumptives.

Texas has made a splendid start and should enlarge the sanitarium at Carlsbad. Many more beds and other accommodations are needed.

"The consumptive's life is saved by treatment in sanitarium, and in addition he receives an education in the methods of preventing the spread of consumption. When the cured consumptive returns to his home he is able to teach others how to live to avoid contracting tuberculosis. The sanitarium is, therefore, a powerful preventive agency as well as a place of healing.

"Over 90 per cent of those treated at Carlsbad are improved or cured. It is the ark of refuge into which too few may enter.

"It costs about \$14 a week to care for a patient. This per capita cost will be materially reduced by building adequate dormitories. They stay at the institution from three to six months. At an expense of \$150 to \$400 the State can save a man and restore him to his family and friends and to a life of usefulness. And to disseminate preventive knowledge it is surely worth while.

"An appropriation to erect additional buildings to care for more patients and reduce the per capita cost is needed; also an appropriation to feed and care for more patients. The present capacity is totally inadequate, the waiting list of applicants is a long one.

"Every dollar thus invested by the State will return to it a hundredfold."

THE KERRVILLE ADVANCE

Published Every Thursday at Kerrville, Texas, by T. A. Buckner.

SUBSCRIPTION \$1.00 A YEAR IN ADVANCE

Entered as second class matter at the postoffice at Kerrville, Texas.

Spring has arrived, bringing us many pretty things in the way of flowers, greeneries and birds, but in Miss Spring's luggage is one package we all wish she had left at home—Spring fever. While Spring has her attendant glories and joys, she also has her constant evils, and one of the very worst of these is spring fever. We don't know what spring fever is any more than we know what love is—all we know of these afflictions is that they come over the human family at certain periods and that when a fellow is afflicted with either he isn't worth any thing. One of the first symptoms of spring fever is an appetite for bacon and onions. The victim eats a few pounds of the edibles named, and then puts in most of the afternoon spitting grease and cussing the government. During the spring fever season most people would fish if the fish would bite naked hooks, but since nobody has energy enough to dig bait there is very little fishing.—Honey Grove Signal.

Jim Lowry is the last man we would have expected to write such an article as the above. His sunny disposition has always been so free from a semblance of dyspepsia and grouch that his optimism has been thought to be perpetual. We invite him to come to the Hill Country and be permanently cured.

Mother's day was fittingly observed in Kerrville. The various churches were decorated with white flowers and the ministers preached sermons appropriate to the occasion. Hundreds of people in Kerrville honored Mother by wearing a white flower as a memorial of her pure and unselfish devotion and unstained character. All honor to our mothers and their blessed memory.

Inquiries about the Normal continue to come in. No doubt there will be a large attendance at the opening June 7. There could not be a more delightful place to hold a Summer Normal than in Kerrville. The cool atmosphere, delightful bathing, boating and fishing, beautiful scenery, etc., are admired by all and our faculty is as good as the best.

There never was a brighter prospect for big oat and wheat crops in this section before, but the extensive rains have begun to do some damage and if they don't let up the crop may be cut short.

There is sadly too many little boys learning the cigarette habit in Kerrville. Somebody is violating the law by either giving or selling them tobacco or cigarets.

The fly nuisance is a big question to deal with and one which needs the attention of health officers all over the country. While our little city is usually clean, there is some things that could be urged at this time that would be of great assistance to health and sanitation.

Is the county seat of Kerr County, has a population of about 2500, is situated 70 miles northwesterly from San Antonio, and is the terminus of the Kerrville branch of the S. A. & A. P. railroad. It has two daily trains to and from San Antonio, and daily mail route, carrying passengers in backs, to Ingram, Junction, Rock Springs, Harper and other places north and west of Kerrville, and also a daily line to Fredericksburg. From Kerrville to Fredericksburg is 25 miles; to Banderita and Medina City, 25 miles; to Junction, 60 miles; Rock Springs, 80 miles; Harper 21 miles.

Kerrville has electric lights and a splendid system of water works. The sum of \$20,000 is being spent on the streets and \$10,000 has been voted for road improvements in this precinct.

The elevation at Kerrville is 1250 feet. The Guadalupe river, which heads 30 miles north of Kerrville, runs through the city. On the east side where the city is located, there are high bluffs on the river, and on the west side is a fertile and beautiful valley, and mountains surround the city on the east and west. The Guadalupe valley is occupied by thrifty farmers and ranchmen, and the mountain regions, among which there is considerable valley, creek and arable land, there are large ranches of cattle, horses, sheep and goats, all of which do well in the Kerrville country. The land generally is well wooded, principally with live oak, Spanish oak and cedar, and the range is good, and water excellent.

Our farmers grow wheat, oats and all other small grain, cane and alfalfa, cotton and corn, and fruit and vegetables do well. Kerrville is one of the largest wool markets in the state, and large quantities of wool, mohair, cotton, oats, cattle, etc., are shipped from this point.

The climate of the Kerrville country is unsurpassed. The winters are short and generally mild and invigorating owing to the dryness of the climate and the prevalence of sunshine. The summers are cool and delightful, and the mountain air is pure and bracing. Game abounds in the Kerrville country, and fishing in the Guadalupe, especially north of Kerrville, is good. Kerrville and the adjoining towns are popular resorts for health and recreation.

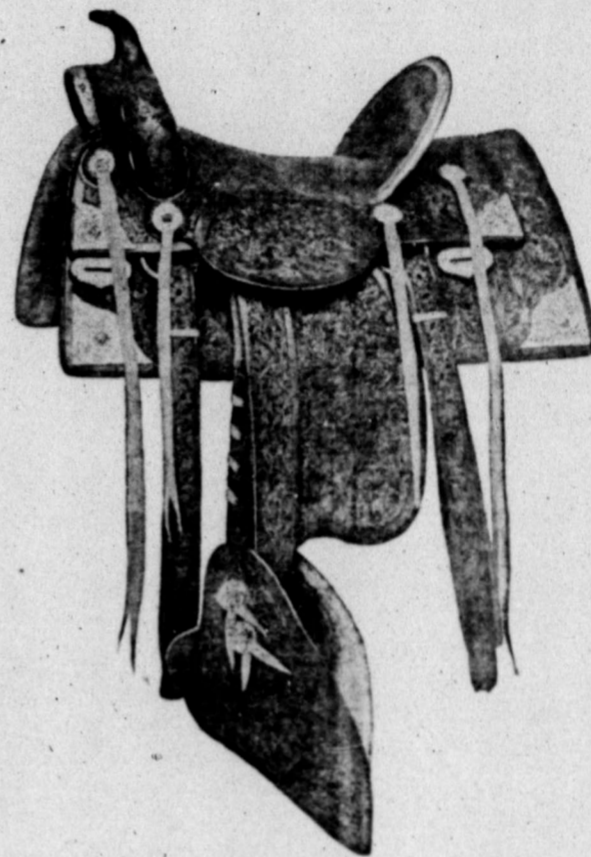

The Kerrville Commercial Club, any of the different Realty Companies or any of our citizens, will be pleased to give prospective residents or visitors further information.

DOUBLE SERVICE Automobile Tires

Guaranteed 7000 Miles Service.
ABSOLUTELY PUNCTURE-PROOF

Double Service Tires are double the thickness of the best standard make tires.

This 100 per cent greater wearing surface naturally gives that much more mileage and service. The average of 12 piles of tough fabric and one inch surface tread rubber makes these tires absolutely puncture-proof.

These tires excel all others for use in the country over rough and rugged roads as well as on hard pavements. They are an easy riding and resilient as any other pneumatic tire—the air space and pressure being the same.

They are the most economical and "safe" tires made and are used where tires must be depended on and tire trouble cannot be tolerated. Many Double Service style tires are in use in the United States government and European War service.

Our output is limited to a certain amount, but for a short time we offer the following reduced special prices as an **Introductory Offer.**

TIRES	Extra Heavy Tires
28x3	\$7.25
30x3	8.00
30x3 1/2	10.85
32x3 1/2	11.10
32x3 1/2	12.75

Methodist Church Notes

Our observance of Mother's Day last Sunday was indeed a pronounced success. We had the largest crowd we have had this year and we certainly appreciate it. And bid all a welcome to come again.

We had 150 in the Sunday School which was also the largest number since Conference. Now listen, Hustlers the Rustlers pulled up in the lead last Sunday morning. You fool-a-long with that shepherd-dog if you do you are sure gone; take him in the car or send him back home, so you can drive. Yes, they are working and now if all the Hustlers will bring one next Sunday morning, and be sure and all be present, the cars will swap places again next week. Let every fellow do his best.

S. C. DUNN, Pastor.

Upper Guadalupe Church Notes.

Wednesday, May 5, the ladies of the Upper Guadalupe Baptist church met and organized a Ladies' Aid Missionary Society. Brother and Sister Robb of Kerrville were with us.

Sunday, May 2, was a good day for Upper Guadalupe church. Services were well attended both morning and evening. A B. Y. P. U. was organized at 3:30 p. m., with twenty-seven members.
