

THE KERRVILLE ADVANCE

VOL. 3

KERRVILLE, TEXAS, THURSDAY, JUNE 17, 1915

NO. 34

CENTER POINT ITEMS BRIEFLY CHRONICLED

From Regular Correspondent.
Mr. Hawthorne of San Antonio visited J. W. Scott last week.
Mrs. W. C. Coleman and Miss Ola Jettton visited relatives here Sunday.
Prof. M. O. Britt left Monday for Austin to attend the summer school.
Editor Bennett and wife spent Saturday and Sunday in Kerrville.
Hubert Merritt came in from Georgetown Friday.
Orville Surber of San Antonio is up for a few weeks.
Prof. Vernon Rumsey and family moved here from Nixon last week.
Sid Peterson is down from Kerrville attending to business this week.
Sheriff Jack Moore was in town this week getting jurors.

Buys Kimble County Ranch.

A deal has recently been closed whereby Tom Dial of this city, purchased the Nat Sanders ranch five miles north of Junction. The ranch includes 3500 acres of land, is well watered and an exceptionally fine piece of property. Mr. Dial and family will, after about July 1st, make their home on the ranch. — Brady Sentinel.

Morriss-Mosty.

Mr. Hal Morriss and Miss Addie Mosty were married at the home of the bride's parents, Mr. and Mrs. L. A. Mosty, one mile east of Kerrville, at 8 o'clock Monday evening, Rev. S. C. Dunn, pastor of the Methodist Church, officiating. It was a quiet home wedding, only the members of the families of the bride and groom and a few friends being present. After the ceremony refreshments were served.
These are two of Kerr County's most highly respected young people and their host of friends will join the Advance in extending them congratulations and best wishes.

Stroman-Cloudt.

Will A. Stroman, Deputy District and County Clerk, of Kerr County, was married yesterday to Miss Elsie Nora Cloudt, at the home of the bride near Rock Springs. Both are popular and prominent young people and have many friends here and at Rock Springs who will join us in wishing them much joy and happiness. They will make their home in Kerrville.

J. R. Saucier, of the Texas Star Garage, made a business trip to San Antonio Monday returning Tuesday.

LOCAL HAPPENINGS AT BUSY MEDINA

(Regular Correspondence)
Mrs. Doss Caton is now at home after several weeks in the Kerrville Sanitarium.
Miss Audry Buchanan of Tarpley has been visiting the Misses Walker on Loxson Creek.
Mrs. J. R. Johnson left Sunday for a month's visit with her mother at Stockdale.
Miss Maggie Tomlinson went to San Antonio Monday on business. She was accompanied by Miss Jessie Means.
Douglas Hay and sister, Miss Virginia, of Bandera attended church services here Sunday.

A. Mr. Bundick of Dewitt county is visiting his aunt, Mrs. Mabel Richards.
C. B. Coulter and daughter, Lonie, were Kerrville visitors last week.
Dudley King and family have moved to Port Arthur where they will make their home.

There has been an epidemic of tonsillitis for some days past.
On the afternoon of the 8th Mrs. Marsh gave Hilda a birthday party, the little Miss being five years old. Twenty-two little ones were present and had a jolly time at games stories and riddles until they were all called to the dining room where the little hostess drew her presents from a great Jack Horner pie, where they had been hidden. Then refreshments were served, before the guests departed.
A mass meeting of the citizens is announced for Tuesday afternoon to meet representatives of the proposed San Antonio-San Angelo railroad.

Dr. Grosselose of San Antonio, presiding elder, preached at the Methodist Church Friday night. He was here to investigate the damaged condition the church received by the recent storm.
There was a large audience at the Baptist church Sunday morning. Representatives of all auxiliary organizations of the church presented reports and discussed the relation of each society to the church. Sunday evening Rev. Ira Garrison preached. All were pleased to see him in the pulpit of his home church.
It is announced that Rev. C. E. Painter will occupy the pulpit at the Baptist church next Sunday.

Dressmaking.

I am a dressmaker from San Antonio of several years experience and guarantee all work. Call or phone, Mrs. Caston at Miss Alice Williamson's residence.

Mr. and Mrs. J. G. Cannon came up Sunday from San Antonio and went out to the Cannon farm at Hunt for a week's visit, after which they will likely move to Kerrville to make their home.
T. H. Phillips and two daughters, Misses Ethel and Jessie, came over in their Ford from Lima Sunday. Miss Ethel remained over to attend the Normal.
Clifford Freeman passed through Kerrville the first of the week on his return home to Wallace creek from the A. & M. College.
Comptroller H. B. Terrell and wife of Austin spent two days in Kerrville last week. They made arrangements to come and spend a month's outing in camps on the banks of our beautiful river.
Payne Williamson returned Sunday from the A. & M. College which he attended the past session.
J. J. Sublett from the upper Guadalupe was in town Tuesday.

LOCAL HAPPENINGS AT CAMP VERDE

(Regular Correspondence)
Threshing is the order of the day. Everybody busy, busy too busy to talk, now you know they are busy. Klein and McFarland have been doing more good work, and have been very fortunate in not having a break down or any trouble to amount to anything so far.
H. T. Hunter and family returned from Telegraph Thursday and report Mrs. Smith's mother, Mrs. Holms, much better.
W. H. Bonnell and wife spent Thursday night in Kerrville. Mrs. Bonnell went up to have some dental work done.
Roy Nowlin and wife were Kerrville shoppers Saturday.
W. L. Ezzel and a friend from San Antonio were Verde visitors Sunday.
There was quite an excitement in town Wednesday when some one reported a run-away team coming, some said no it's an auto; but when we looked to see what it could be we saw Henry Geisler's team coming down the road at full speed with a reaper, and Mr. Geisler no where to be seen. Some of the boys ran out and stopped the team, and then went back to hunt for Mr. Geisler, they found him near where the team started pretty badly bruised, but not seriously hurt. The reaper was not damaged very much.

Mrs. Wright of San Antonio who has been visiting her mother, Mrs. Mathews, for a few days returned to San Antonio Friday. Mrs. Lillie Oatman going with her for a few month's visit with her sons, Hilbert and Jack Oatman.

Epworth League Notes.

Program for Sunday June 20.
Topic—"The kind of Living and Thinking that makes Leaders." (Daniel 1: 8-17).
Leader—Miss Lula M. Doniel.
Opening Hymn—No. 434.
Prayer—Mr. C. W. Moore.
"Loyalty to an Ideal." (Daniel 1: 8)—Mr. Martin Moos.
"A definite Belief in God." (Daniel 2: 26-28)—Miss Alta McDaniel.
"Selective Thinking."—Miss Lola McDaniel.
"Obedience." (John 14: 15-23, and 1 Peter 1: 14.)—Rev. S. C. Dunn.
Reading—"The New Age and its Dangers."—Miss Mary Horne.
Closing Hymn—No. 329.
Announcements.
Benediction.

Mr. Herman Harper and daughter Miss Audrey, passed through Kerrville Tuesday on their return to Harper from a visit to Bandera.

FOR RENT—Furnished room, close in, with bath. South exposure, cool and pleasant. Apply to S. P. Benton.

Mrs. Ed. Morriss and sons, Ernest and Carl, came down from the ranch Monday to attend the Morriss-Mosty wedding.
Attorney Henry P. Burney of San Antonio spent Saturday and Sunday at the home of his father, Judge R. H. Burney, in Kerrville.
Claude Reagan of Del Rio came in this week to visit his brother, J. G. Reagan, who is for the present stopping at the Reagan ranch near Hunt.
Mr. and Mrs. J. P. Freeman left Tuesday for the Wilson ranch on the head of the Frio, returning yesterday. Will Beckman took them out in a jitney.
Miss Mary Washburn of Hallettsville and Miss Minnie Tiner of San Antonio arrived in Kerrville Sunday to attend the Normal.

Baptist Church Notes.

Last Sunday Rev. J. E. Johnson of Waxahachie came as was announced and has been preaching great sermons both day and night. On Monday evening Rev. J. E. Byrd of Floresville came and now leads the music to the delight of all our hearts. Many of the teachers now in the Normal here are attending the meeting and helping us with the singing and we are delighted to have them with us.
On Tuesday afternoon at four o'clock we had a very profitable and pleasing occasion under the direction of the Ladies Aid. Mrs. E. E. Bagwell led and Mrs. R. S. Newman gave the welcome address. Miss Graves Dewees responded for the Young Women's Auxiliary. The theme was Unity in our Aid and this was discussed by the pastor and Rev. Johnson, after which Miss Ferrol Rawson delighted us with a piano solo, and this was followed by a recitation by Miss Josie B. Newman. We then had the roll called and responses on Prayer. Then followed most delicious refreshments and a chain of prayer closed by Rev. Dunn.
Now my friend, if you can't enjoy things like the above there is

something had the matter with you and you need the Great Physician and if you will attend these meetings you will learn much about Him. Meetings daily at the Baptist Church at 10: a. m. and 8: 15 p. m. Come and be helped.
J. B. Riddle, pastor.

Car Load of Fords.

Lee Mason & Son, the local Ford agents, received a car of Ford cars Monday. There were eight of them all knocked down and the new cars were assembled in their show rooms where they have established an exclusive Ford house with a full stock of supplies. The new cars had all been previously sold and are being delivered as fast as they are put together to the following parties: Kerrville Livery Co., Dr. A. A. Roberts, T. D. Wills, J. R. Leavell, J. H. Youngblood, T. A. Duderstadt and R. Holdsworth. They have orders booked for many more cars to be delivered as soon as the factory can turn them out.

J. A. Jackson of Austin, A. J. Wolcott of Dallas and J. R. Hill of Fort Worth came up from San Antonio Tuesday and went out to the Jackson ranch on the Divide for a few days outing.

CROP CONDITIONS ARE ABOVE THE AVERAGE

Prospects of Billion-Bushel Wheat Harvest Strengthened by Good Weather.

Washington, D. C.—Prospects of a billion-bushel wheat crop were brightened during the last week by favorable weather for both winter and spring wheat, according to today's National Weather Bureau bulletin.

“Despite further rains in some of the important winter wheat states,” says the crop bulletin, “the wheat crop appears not to have suffered to any extent save from flooding and too rank growth in limited areas. Over the remaining districts wheat generally improved during the week. Harvesting is under way in the Southern limits of the belt and the crop is heading satisfactorily farther north and in the far West, where it is reported as being in splendid condition.”

The composite condition of all crops June 1 was about 1.1 per cent above their ten-year average condition on that date compared with 2.2 per cent last year. Fewer extremes than usual prevailed in the growing conditions generally. Only one—sugar cane—of twenty-two crops reported was below its average condition. The peach crop ranked highest with 28.4 per cent better than average condition.

California, with 12.8 per cent above average, was first among the states in general average crop conditions on June 1. Kansas was second with 12.1 per cent above average, and Nebraska third with 11.2 per cent above. Louisiana stood lowest with 8.9 per cent below average condition. About half the states were within 3 per cent of their general average. This spring was unusually favorable for farm work, enabling farmers to put in large acreages of field crops. The acreage in wheat, oats and barley combined is estimated at 107,003,000, or 7.5 per cent above last year. The area of clover intended for hay is estimated to be 4.7 per cent larger than last year's average.

Man, not God, fixes the death rate.

If one man in a horse trade does well, the other man is well done.

Free To You

If you wear glasses write to Charles Rees, “The Original Rees,” 217 E. Houston Street, San Antonio, Texas. He will send you a new case, a glass cleaner and a book on the eye FREE. SEC. BRYAN RESIGNS FROM WILSON'S CABINET

Meeting Finds Position of Secretary Parlous—Note to Germany the Cause.

Washington, D. C.—When the principles on which the note to Germany should be based were discussed at the cabinet meeting Mr. Bryan found that he could not reconcile his own position with that of the administration. Work on the note went forward, however, Mr. Bryan keeping his secret, as did other officials, awaiting the hour when the communication would be ready to be cabled. Today the cabinet assembled for a final reading of the note. Mr. Bryan was absent. He declined to receive newspaper men or callers and sent out word that he had been delayed on account of important business. At the White House no word as to the reasons for his failure to appear at the meeting were given, but after the cabinet had been discussing the note for an hour Mr. Bryan arrived, telling newspaper men at the White House that he regretted being late.

It was learned tonight that with the knowledge that his resignation had already been accepted by the president, Mr. Bryan felt it would be indecorous to attend today's session unless his presence was desired by the president. When Mr. Wilson telephoned an invitation to the secretary hurried to the White House, his face somewhat drawn and pale.

When the cabinet adjourned shortly after 1 o'clock Mr. Bryan entertained seven of his colleagues, all who could attend a luncheon at the University Club. The luncheon was in the nature of a farewell.

That there has been friction between the president and Mr. Bryan has been the undercurrent of comment for several weeks, but as the president heretofore had always been able to secure acquiescence of the secretary in his point of view, talk of resignation was discounted generally, and the president reflected the same sentiment in his letter. Admirable and praise for the courageous manner in which Mr. Bryan had fought for and held to his convictions were expressed by officials on every side, including those who had been most vigorous in their opposition to his policies.

The strong personal attachment of the president and Mr. Bryan has long been noticeable in their every-day conferences. Even today as they met in the cabinet room their greetings was one of affection and regard. It became known only tonight that twice before in the two years and three months of his term Mr. Bryan had offered to resign, so as to save the president from embarrassment, and each time the president refused to accept the resignation. Through the constant newspaper bombardment of Mr. Bryan for his views on peace, his advocacy of prohibition and his speeches on the Chautauqua, the president has stood by the secretary, resenting criticism of him.

No decision has been reached by President Wilson as to the choice of a successor to William Jennings Bryan as Secretary of State. He probably will not make a selection for several weeks.

In well informed quarters the belief was expressed that Robert Lansing, counsellor of the department of state, who was commissioned today by the president as secretary of state ad interim, eventually would be given the permanent appointment.

Even a married man's love is apt to grow cold if his breakfasts are not kept warm.

AVOID HAVING WEEDS.

Washington, D. C.—More important than killing weeds, says the Agriculture Department in a recent pronouncement, is to avoid having weeds to kill. Such evidence is made possible by observing the following principles:

1. Prevent weeds from going to seed on the farm.
 2. Prevent weed seeds being brought to the farm.
 3. In the case of perennial weeds, prevent them from making top growth and thus finally starve out the underground parts.
- Annual weeds live only one year, maturing their seeds and then dying. Biennial weeds live two years, during the first year they grow rather slowly, producing usually a tap root and a rosette of leaves close to the ground, but the second year they send up flower stems that produce seeds and then die. As the biennial and the annual weeds propagate themselves by seeds alone it is necessary to observe only the first two of the principles stated above in their control.
- Perennial weeds, on the other hand, produce each year underground parts, which live over the next year and produce top growth. These weeds propagate themselves by their underground parts as well as by their seeds, and, even, if prevented from going to seed, keep on growing. In dealing with perennials, therefore, it is necessary to observe all three principles.

MARKET NEWS SERVICE.

Austin, Tex.—G. C. White, representative of the transportation and storage investigations office of markets, United States Department of Agriculture, who is making a tour of the principal cities of Texas in the interest of the market news service inaugurated by the Federal Department of Agriculture a year ago, was in Austin today. He conferred with traffic men and shippers, and also called on some of the departments at the Capitol. He left tonight for San Antonio. From that city he will go to Houston.

The market news service is proving a success, according to Mr. White. At present it is being devoted to four crops—strawberries, peaches, cantaloupes and tomatoes. “So successful has the service been that it is likely it will be extended to other crops,” said Mr. White. “Railroads, shippers and growers approve the service and find that it is working to the benefit of all concerned. The movement of the shipments are watched with the view of preventing any one market being glutted. When the market is found to be overloaded shipments are then diverted to other markets. By this plan no market is overstocked and all of the shipments are absorbed.”

PENITENTIARY STATISTICS

Austin, Tex.—According to the report of the Penitentiary Commission for May, the penitentiary population at this time is 3,630. During the month an increase of 54 was noted over that of April. Of the total number of prisoners, 3,044 are working on the prison farms and 586 on lands leased by the State. Huntsville has the largest number of prisoners with 596. Clemons Farm has 559; Imperial, 502; Ramsey, 500; Harlem, 410; Wynne, 167; Shaw, 150; Camp Goree, 94; Rusk, 45; asylums, 12.

The report also shows that during the month 126 new convicts were received; recaptured, 4; returned by Sheriff, 1; paroled, 3; delivered to Sheriff, 1.

ASSAILANT CAPTURED.

Madisonville, Tex.—Frank Morgan, charged by indictment with criminal assault, was arrested in Southwest Texas a few days ago and returned to Madisonville.

The offense was committed about three months ago near Neal, six miles south of Madisonville, his victim being a young girl. This is his second offense, he having been forced to marry his first victim.

NAVY ACADEMY SCANDAL TRACED TO BASIS

Superintendent at Annapolis Reports Attempts to Get “Dope” on Examinations.

Annapolis, Md.—That there is reason to believe attempts had been made to enter the desks of the heads of at least four Naval Academy departments and get examination questions in advance, was the testimony given today by Rear Admiral Fullam, superintendent of the academy, before the naval court of inquiry appointed by Secretary Daniels to investigate charges of irregularities in examinations.

It is the belief of the authorities, however, that only one attempt had been successful. This was in the case of the department of modern languages. Testimony read from the record of the preliminary investigation showed that the examination papers for the first, second, third and fourth classes in Spanish were stolen and that, following this, there was general dissemination from the hands of the friends of Midshipman James Moss of the third class, of “good dope” for all of these classes.

Six members of the graduating class who last Friday received their diplomas and became ensigns were ordered recalled. The record publicly developed that two of the seven men regarded as most seriously involved by the disclosures had not been recommended for dismissal by the board. These were T. W. Harrison Jr., Virginia, and D. E. Duncan, Michigan, whose resignations, however, were asked for.

Midshipman Wessell said there was some doubt about the “dope” being right, and that a night or two before examination Midshipman G. C. Kriner, now a graduate, was to see Professor Casache, and then to telephone to Midshipman H. H. Harrison, also a graduate, who in turn would tell Wessell know. Kriner, it was said, telephoned, “Dope all right.”

Prior to the opening of court there was obtained from Judge Harrison of Virginia, father of one of the accused midshipmen, a set of resolutions which were, he said, adopted by the first class of the academy on graduation day.

The resolutions refer to Midshipman Ralph McK. Nelson Jr. of New York, who stood third in the graduating class. He is not accused of cheating, but it is said he knew unfair methods were being used and it was his duty to tell the authorities. The resolutions declared: “We as a body feel ourselves guilty in equal degree of failing to report having advance information of the annual examination in modern languages,” and asked “exhaustive reconsideration of the whole affair.”

After years of patient research the scientific experimenter had succeeded in combining several rare chemicals into a new and powerful remedial agency.

“What will it cure?” they asked him.

“I don't know yet. I am hunting for the disease,” he exclaimed, his eye kindling with the enthusiasm of the born inventor.

Village Grocer: “What are you running for, sonny?”

Boy: “I'm tryin' to keep two fellows from fightin'.”

Village Grocer: “Who are the fellows?”

Boy: “Bill Perkins and me.”

Don't scowl. Look pleasant. It pays.

He who would have friends must show himself friendly.

Don't buy a thermometer now, they will be lower in December.

MEXICO GETS NEW PROVISIONAL PRESIDENT

Convention Forces in Capital City Depose Garza and Elevate a Civilian.

Washington, D. C.—Roque Gonzales Garza, head of the Villa-Zapata government in Mexico City, was deposed June 9 by the convention in session there. Lagos Chazaro, a Villa delegate from Chihuahua, was elevated to the provisional presidency. State Department dispatches today told of the change. Villa headquarters here said the new executive's full name is Francisco Lagos Chazaro, and that he is a civilian who had been Governor of the state of Vera Cruz during the administration of President Madero. The Villa agency was without advices of the change or its significance.

The advice to the State Department gave no details. Chazaro had been acting as president of the convention.

A letter from South America says that the east coast of Brazil has been very noticeably settled during the past few years. Why not? The east coast of Brazil is coffee grounds, and ought to be settled.

VICTORIA HEN PRODUCES LARGEST OF ALL EGGS

Victoria, Tex.—J. E. Poole, an industrious Victoria County farmer, brought in a hen egg yesterday which is the largest one of which there is any record. The circumference of the egg is six and one-half inches one way by three inches the other. It weighs a quarter of a pound. It is on exhibition here.

Yes, Break Up Your Washboard!

Didn't you break your back, break your arms, break your hands and break your clothes? Break up the washboard used enough clothes to deserve breaking up!

Magic Washing Stick

Finished Mr. Washboard.
And by such gentle means. Face as you know, never settles things right. Magic Washing Stick is not soap but is used with the regular soap. It is not washing powder, but by its soft action, it loosens the dirt by gentle means. It is not harsh, nor acid, nor any other harmful thing. It does not damage the finest texture, nor sapon the delicate one that the Ramsell. The soft, spongy cleanliness of your face means a continual delight.
Once you show your help how much labor is saved, how much your clothes, you need have no fear of their miring your clothes again.
"I use no machine and use four sticks Magic Washing Stick puts my clothes on the line. I recommend it to everybody."
MRS. L. Ark.

Wash Days Are Made Joy Days

FIFTEEN WASHINGS 25 CTS.
For less than 2c. a day you save two hours time, you save your clothes, you save your feelings, you save your looks. Use one stick, five washings, and if not elated your 25c. WILL BE RETURNED.

After using twice you will break up or throw away, or forget old washboard. All dealers will have Magic Washing Stick—they will get it for you if they don't have it now.

A. B. Richards Company,
Sherman, Texas.

LATEST U. S. NOTE SENT TO KAISER

American Government Accepts Its Duty to Demand Justice for the People.

Washington, D. C.—The United States in its latest note to Germany formally asks the imperial government for assurances that measures hereafter will be adopted to safeguard "American lives and American ships" on the high seas.

The alternative in case of refusal is not stated. It was this note which William Jennings Bryan refused to attach his signature, resigning instead his portfolio of Secretary of State and thereby precipitating a dramatic cabinet crisis. Robert Lansing, Secretary of State Ad Interim, signed the communication which went forth with the approval of President Wilson and his entire cabinet.

The communication informs Germany that it is "on the principle of humanity as well as upon the law founded upon this principle that the United States must stand." The text of the note follows:

The Secretary of State Ad Interim to the American Ambassador to Berlin: "Department of State, Washington, D. C., June 9, 1915.—American Ambassador, Berlin: "You are instructed to deliver textually the following note to the Minister of Foreign Affairs:

"In compliance with Your Excellency's request, I did not fail to transmit to my government immediately upon their receipt your note of May 28, in reply to my note of May 15, and your supplementary note of June 1, setting forth the conclusions so far as reached by the imperial German government concerning the attacks on the American steamships Cushing and Gulf Light. I am now instructed by my government to communicate the following in reply:

"The government of the United States notes with gratification the full recognition by the imperial German government, in discussing the cases of the Cushing and the Gulf Light, of the principle of the freedom of all ports of the open sea to neutral ships, and the frank willingness of the imperial German government to acknowledge and meet its liability where the fact of attack upon neutral ships which have not been guilty of any hostile act by German craft or vessels of war is satisfactorily established; and the government of the United States will in due course lay before the imperial German government, as it requests, full information concerning the attack on the steamer Cushing.

"With regard to the sinking of the steamer Falaba, by which an American citizen lost his life, the government of the United States is surprised to find the imperial government contending that an effort on the part of a merchantman to escape capture and secure assistance alters the obligation of the officer seeking to make the capture in respect of the safety of the lives of those on board the merchantman although the vessel has ceased her attempt to escape when torpedoed.

"These are not new circumstances. They have been in the minds of statesmen and of international jurists throughout the development of naval warfare, and the government of the United States does not understand that they have ever been held to alter the principles of humanity, upon which it has insisted. Nothing but actual forcible resistance or continued efforts to escape by flight when ordered to stop for the purpose of visit, on the part of the merchantman, has even been held to forfeit the lives of her passengers or crew. The government of the United States, however, does not understand that the imperial German government is seeking in this case to relieve itself of liability, but only intends to set forth the circumstances which led to the

RUSSIANS MAKE ADVANCE THROUGH BALTIC STATES

German Forces on the Dubysa River Threatened by New Encircling Movement.

London.—Russian reinforcements have advanced in the Baltic provinces and in Galicia and it has become their turn to attack. According to the German official report, received tonight, part of the German forces on the Dubysa river in the Baltic provinces, threatened by an encircling movement, were obliged to withdraw, although in the region of Shavi, and on the Niemen they claim to be making progress, despite a stubborn Russian resistance.

More important in the belief of military observers here, however, is the apparent change that is taking place in the Galician battle. Here, again, according to the German account, the Russians are advancing to the south and southeast of Lemberg, and also are attacking the Dniester near Zurawna.

commander of the submarine to allow himself to be hurried into the course which he took.

"Whatever may be the contents of the imperial German government regarding the carriage of contraband of war on board the Lusitania or regarding the explosion of that material by the torpedo, it need only be said that a view of this government these contentions are irrelevant to the question of the legality of the methods used by the German naval authorities in sinking the vessel.

"But the sinking of passenger ships involves principles of humanity which throw into the background any special circumstances of detail that may be brought to affect the cases, principles which lift it, as the imperial German government will no doubt be quick to recognize and to acknowledge, out of the class of the ordinary subjects of diplomatic discussion or of international controversy. Whatever be the other facts regarding the Lusitania, the principal fact is that a great steamer, primarily and chiefly a conveyance for passengers and carrying more than a thousand souls who had no part or lot in the conduct of the war, was torpedoed and sunk without so much as a challenge or a warning, and that men, women and children were sent to their death in circumstances unparalleled in modern warfare. The fact that more than 100 American citizens were among those who perished made it the duty of the government of the United States to speak of these things and once more with solemn emphasis to call the attention of the imperial German government to the grave responsibility which the Government of the United States conceives that it has incurred in this tragic occurrence, and to the indisputable principle upon which that responsibility rests.

"The government of the United States cannot admit that the proclamation of a war zone from which neutral ships have been warned to keep away may be made to operate as in any degree an abbreviation of the rights either of American shipmasters or of American citizens bound on lawful errands as passengers on merchant ships of belligerent nationality. It does not understand the imperial German government to question those rights. It understands it also to accept as established beyond question the principle that the lives of non-combatants cannot lawfully or rightfully be put in jeopardy by the capture or destruction of any unresisting merchantman and to recognize the obligation to take sufficient precaution to ascertain whether a suspected merchantman is in fact carrying contraband of war under a neutral flag.

"The government of the United States therefore deems it reasonable to expect that the imperial German government will adopt the measures necessary to put these principles into practice in respect of the safeguarding of American lives and American ships and asks for assurances that this will be done.

"ROBERT LANSING,
"Secretary of State ad interim."

ITALIANS CALL TO ARMS.

San Antonio.—An official call notifying all Italian military reservists of the first, second and third classes that they are now needed for military duty has been received in San Antonio. The call was issued by Consular Agent Nicolini at Galveston and is being posted here by Pietro Gianotti.

The order affects Italians between the ages of 20 and 39 years. It is estimated that there are 200 such reservists in and immediately around San Antonio. Mr. Gianotti requests that all reservists report to him at 602 West Houston Street. The official call follows:

"Be it known to the Italian residents in San Antonio and vicinity, belonging to the first, second and third classes, that whereas there has been a general call to the colors throughout Italy, and all countries where Italians of the first, second and third classes reside that they are hereby notified to present themselves as soon as possible to Sig. Pietro Gianotti, at 602 West Houston street, who is the authorized agent of the Italian consul agency at Galveston, Texas.

GERMAN ADMIRALTY OFFICER ACCUSED

Washington, D. C.—Ambassador Page has advised the state department of the circulation in London of stories to the effect that Robert Rosenthal, a German held there as a spy, recently made a confession in which he charged that Captain von Priezer of the German admiralty office had a complete equipment for issuing fraudulent American passports. Department officials said today it is presumed the ambassador was investigating and will report later.

OBREGON WOUNDED.

Washington, D. C.—General Obregon, Carranza's commander in the fighting against Villa at Leon, lost his right arm and narrowly escaped death by a shell while directing operations on the firing line. Consul Silliman reported from Vera Cruz several days ago that it was rumored General Obregon was wounded, and it was confirmed today in an official dispatch to the Carranza agency here. Obregon refused to abandon the command of his troops until victory was assured, and for this reason the wound all but cost him his life.

Obregon is now out of danger and improving daily. The statement says:

"The Villistas are being pursued, and Obregon reports that they will be unable to make any further serious stand against him as he marches north to Juarez. The movement on the City of Mexico is progressing successfully and speedily, the Zapatistas being routed in every engagement."

PROTECT WOUNDS FROM FLIES

It is important, when an animal is wounded, to treat the wound so it will heal and yet prevent screw-worm and house flies from attacking the open surfaces. The house fly alights on the wound to suck up the exudate and is the source of considerable annoyance to the animal. It may introduce germs of infection in addition to preventing the wound from healing. Other flies, the screw-worm flies, particularly, deposit their eggs in the wound. The larvae or maggots hatching from these eggs infest the wound and burrow more or less extensively into the surrounding tissue. Serious losses may result from these attacks of flies. The United States Department of Agriculture gives these formulas for mixtures to apply to wounds to prevent fly troubles:

- Mixture No. 1—Oil of tar, 8 ounces; cottonseed oil to make 32 ounces.
- Mixture No. 2—Powdered naphthalin, 2 ounces; hydron wool fat, 14 ounces. Mix into an ointment.
- Mixture No. 3—Coal tar, 12 ounces; carbon disulphite, 4 ounces. Mix and keep in a well stoppered bottle. Apply with a brush.
- Mixture No. 4—Oil of turpentine, 1 dram; Phenol, 1 dram;

INNES CASE TRANSCRIPT.

Austin, Tex.—The transcript from the Court of Criminal Appeals in the case of Victor E. Innes and wife, Ida May Innes, to be filed in the United States Supreme Court, is being prepared by Judge R. H. Ward of San Antonio, attorney for Innes and wife, who arrived in Austin today. The transcript will be filed soon, according to Judge Ward. Innes and wife are fighting extradition to Georgia.

Texas Press Association.

The writer had the very great pleasure of attending the thirty-sixth session of the Texas Press Association held at Corpus Christi last week from Thursday till Saturday. The attendance was the largest in the history of the association and the increase of new members during the past year broke all former records.

The sessions were most interesting and helpful to all and the program was so varied that its benefits extended to every branch of the profession from the job printer to the managing editor.

The entertainment given the pencil pushers by the people of Corpus Christi was praised on every side and could not possibly have been improved upon. For unbounded hospitality the beautiful city by the sea, the "Naples of the Gulf," is unsurpassed and on this occasion she simply outdid herself. We were given auto rides, fish fries, sails on the beautiful bay, etc., and a banquet at the Nueces Hotel that would have done credit to the "upper tens" in New York or any other city. The keys to the city were thrown away in advance of our coming, the gates torn from their hinges, and as Mayor Roy Miller in his opening address of welcome said, the police were ordered to make no arrests while we were in the city. The members of the local press opened their offices to us and extended the free use of everything from the editorial chair to the office towel. The business men gave us the glad hand and the ladies charmed us with their beauty and their pleasing smiles, and if it had been put to vote no doubt Corpus would have been selected as the permanent meeting place of the Association. This beautiful city by the sea is destined to become one of the greatest seaport cities of the American continent. At present she has a population of some 20,000 with the finest hotels, the prettiest streets, beautifully paved, the finest public buildings, school buildings and churches, and most lovely surf bathing to be found anywhere in the south in a city anywhere near her size. The Nueces Hotel, where Association Headquarters were located, is not surpassed in beauty or equipment by any hotel in the south. The management made special rates for the members of the press and treated us most royally.

The new officers of the Association are, Walter B. Whitman of Holland's Magazine, President; Henry Edwards of Troupe, Vice President; Sam Harben, Richardson, Secretary; C. F. Lehman, Treasurer. The next meeting will be held at El Paso.

"I had intended to locate permanently in Kerrville, but I have become so disgusted with the saloons since my short sojourn here that I have decided to go back to Mississippi where I can raise my boy away from their demoralizing influence." This statement was made by a prominent gentleman, refined and well to do, to this writer a short time ago. And he is gone.

The President and Mr. Bryan.

Mr. Bryan is again a private citizen, having resigned as Secretary of State because he has long been an advocate of peace and the settlement of controversies between nations by treaty and an international court. Germany proposed to refer the differences between it and the United States to this court, but President Wilson and the other members of his cabinet deemed that our government in the interests of humanity and American citizenship, should demand of Germany assurances of obeying the laws of the sea and of safe guarding American lives and American ships. Our government protested against the sinking by Germany of the Lusitania ship without challenge or warning and sending to their death a thousand men, women and children, including more than a hundred Americans, "in circumstances unparalleled in modern warfare."

The issue is now up to Germany and it is believed and hoped that the controversy will be adjusted without war. The great body of the American people will unquestionably stand by the President in upholding the rights of American citizens and the laws of humanity, while at the same time they sympathise with all efforts for peace without a stain on American honor and human rights.

As to Mr. Bryan it is conceded by all who know him that he has acted from a sense of duty and conviction. As Secretary of State he had negotiated a large number of treaties favoring settlements by arbitration and international courts, including treaties with England, France, Russia and other great nations, and Germany had accepted the principle and but for the sudden war now shocking the civilized world would have also been included in the treaties. As a citizen Mr. Bryan will do all in his power to end human slaughter and misery and waste by referring to a calm, dispassionate court all national controversies instead of having them adjusted in blood and agony by the passions of war lords, and we wish him God's speed in his noble efforts.

Kerr County in Clover.

With the fine clip of mohair and wool marketed by our stockmen, the bumper crops of wheat and oats now being harvested and the fine corn and forage crops growing in our fields, it may truly be said that the Kerrville section is in clover. Better prices than for many years are being paid for both the products of the farm and the ranch and the stimulating effect upon business is beginning to be felt. Truly we are blessed that we have a diversified country. At all seasons of the year we have something to put on the market to bring money to the producer and trade to our merchants and other business men. Besides our field crops and wool and mohair there is seldom a week but that several car loads of cattle, sheep goats or hogs are shipped out to market. Then we have our gardens, poultry, eggs, butter, all raised at home, not to mention the pure sparkling waters of our river, springs and deep wells. Gentle reader, if you have never been to Kerrville, and doubt the whole truth of the above assertions, we invite you to come and make us prove it.

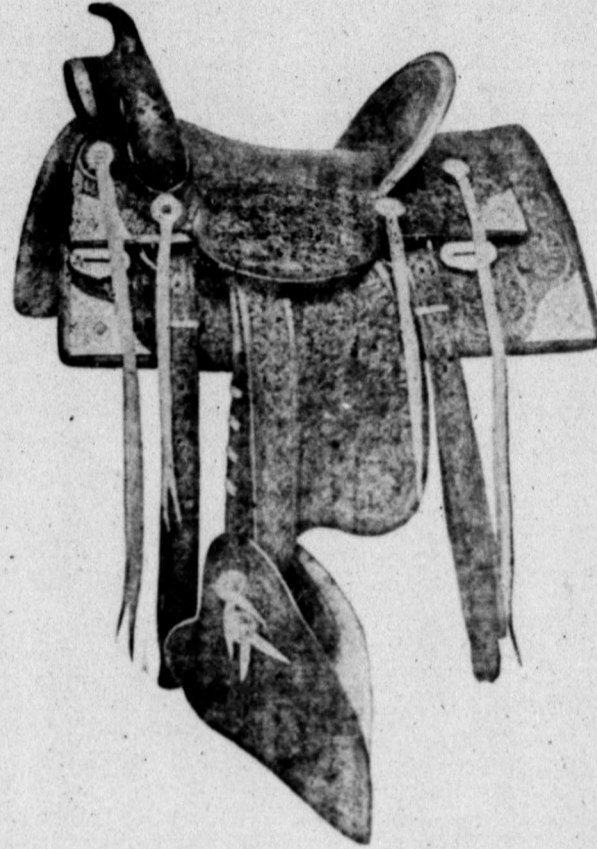

Mr. Bryan has fallen overboard, so some politicians say. Well he is a good swimmer.

New students enrolled in the Normal this week are, Miss Maude Yett, Miss Mabel Hagens, Kerrville; Miss Ethel Phillips, Lima; Miss May Washburn, Halletsville; Miss Minnie Tiner, San Antonio; Miss Ellen Thalmann, Bandera.

Dr. J. L. Fowler and Mr. P. A. Crenshaw of Ingram will start Sunday for California to attend the Exposition. They will go by way of Denver, the Yellow Stone Park, Spokane, Seattle and Portland.

District Judge R. H. Burney returned last Sunday from Rock Springs where he held court last week. The business of this term was very light as most of the criminal cases had been transferred to other counties for trial.

A. F. Hatch was down from his farm above Ingram Tuesday.

A Mr. Seiler of Mason was in Kerrville Tuesday prospecting for a farm location.

BEEKEEPERS NOTES

—By E. G. LeSturgeon

Any question pertaining to Beekeeping or Honey-making will be gladly replied, either directly or through these columns. Address letters to P. O. Box 1048, San Antonio, Texas.

THE DOUBLE TITE CAN.

The new doubletite closure for the sixty-pound bulk comb honey can has proven an instant success. After present stocks are used up it is very doubtful if any more of the old style eight-inch screws will ever be used.

The can is ant-proof and leak-proof. It is the tightest closure known, next to solder. The doubletite plug may be taken out and put in hundreds of times without impairing it. Before packing any honey in sixty-pound cans it will pay the producer to investigate this improvement. The beauty of it is that the better can costs no more than the old style.

The Bexar County Beekeepers Association is arranging for a field meet and picnic of beekeepers and their families to be held Sunday, June 27, at the apiary of Mr. A. P. Heinen at Southton park, 10 1-2 miles South of San Antonio.

Launch will be provided by the association and all bee men or persons interested in beekeeping are cordially invited to attend. Should you contemplate coming, please communicate with the secretary, P. O. Box 1048, San Antonio.

A good program of speakers has been arranged and practical demonstration of bee keeping methods are being provided for. Prof. Louis Scholl of New Braunfels will be present and

Mr. Wilmon Newell the State Entomologist is expected to report the present status of the disease eradication work.

The Siberian Beekeeper's Ten Commandments—1. The bee is God's working insect, love her with all your might.

2. Don't be allured by foreign races of bees. The northern bees are just as good for rational beekeeping.

3. Don't grumble at ill-success, don't lose courage. Find the cause of your failure and let it serve as a lesson.

4. Help the bees in their work and learn their life, spring, summer, fall and winter.

5. Prefer strong colonies to weak ones, transfer log hives to frame hives and supersede the old queens, then you will see your apiary flourish.

6. Pack the hives in the fall to keep them warm during winter and spring.

7. Never admix anything to the honey you wish to sell that will spoil its high quality and character.

8. Never supply any one with irregular supplies for the apiary. After harvest, extract the honey with care, but leave enough for wintering.

9. Don't let any one know that, in Amour Province, bad beekeeping is due to your neglect.

10. Be not jealous of the success of your neighbor beekeeper. His example may make you acquainted with the requirements of the bee's life and nature.

REV. A. L. LUPPOV.
Translated by Peter Schaffhauser.

TURKISH GUNBOAT IS SUNK BY BRITISH

Transport Captured and Force Which Threatened Kurnah Demoralized.

London.—The Turkish gunboat Marmarias has been sunk and the Turkish transport Mosul has been captured, according to an official statement given out this evening by the British government. The action took place in the Persian Gulf region. The text of the statement follows:

"Fuller reports of our advance up the Tigris river and the occupation of Amara show that as the result of an action May 31 and June 1 the enemy's force, which had been threatening Kurnah for some time, became completely demoralized.

"No resistance appears to have been offered to the small party pursuing by river, the Turks trying to escape as fast as they could in mahals and steamers. The former surrendered on being overtaken, while the Turkish gunboat Marmarias was sunk and the transport Mosul captured.

"Although the strength of the forces which arrived at Amara in the Comet (British destroyer) and some small launches was quite insignificant, the entire garrison, which numbered more than one thousand, surrendered, including the Turkish civil governor of Amara, Halim Bey, the commandant of the force recently opposing us at Kurnah, and Said Ullib, commandant of two fire brigade battalions.

"Shortly after our occupation of Amara the advance guard troops of Daghestani's column, which had retreated hastily from the Kherka Valley, entered the town and were captured. The remainder of this force estimated at about 2,000, fled, leaving a heavy gun in our hands.

"The remnants of the enemy who so far have escaped capture are retreating in a state of disorganization, many having discarded their arms."

WOMEN'S SUFFRAGE ASS'N HITS AT UNIONS

Chicago.—The National Woman Suffrage Association is distinctly opposed to the Congressional Union. This appeared unmistakable here at the first session of the mid-year conference of the association.

The only chance that the union had for recognition by the national body disappeared when a resolution introduced by Mrs. T. W. Youmans, president of the Wisconsin woman suffragists, proposing arbitration on the subject, was tabled, 49 to 25. Mrs. Youmans accused Dr. Anna Shaw, president of the association, with "steam roller" tactics in declining to allow discussion of the resolution.

The alleged attitude of the Congressional Union in opposing political parties which oppose suffrage at Washington furnished the main topic of the day.

Mrs. Harriet Taylor Upton epitomized the sentiment of the conference's resolution, which was adopted unanimously, to the effect that the association is unalterably opposed to the attacks on the Democratic party of the Congressional Union, which the resolution said had failed of benefit in suffrage states and worked harm in states where women still are seeking the ballot.

Dr. Shaw said that she now devoted ten minutes in every speech to explaining that the association does not sanction the activities of the Congressional Union, and that she blames the union for defeats in Nebraska and South Dakota.

CEYLON BUDDHISTS RIOT; MANY MOSLEMS VICTIMS

London.—That there has been a riotous outbreak in Ceylon by Buddhists against the Moslems and numerous Moslems shops were looted and many murdered, is told in an official communication made public here tonight.

HOG RAISING

The following mixture recommended by the United States Department of Agriculture, is used by many hog raisers to aid digestion, stimulate circulation and to prevent worms: Wood charcoal one pound, sulphur one pound, common salt two pounds, sodium bicarbonate two pounds, sodium sulphate one pound, black antimony one pound. These ingredients should be thoroughly pulverized and mixed. The dose is a large tablespoonful for each 200 pounds of live weight of hogs treated. It can be given in the slop. It should be remembered that this is not a cure for cholera, or even a preventative, but it will tend to keep the animal's digestive system in good condition and make it better able to ward off diseases. In addition to feeding this mixture it is important that the animals be fed properly, kept in clean, dry pens that are disinfected regularly and kept free from lice and other parasites.

With systematic handling and judicious management, the hog is pretty nearly sure money. The cheapest and most profitable way to insure a healthy and rapid growth with young pigs is through the sow. She should be possessed of a strong and unimpaired digestion that is capable of digesting coarse grains and roughage into easily digested milk.

There are two very different

types of hogs raised in the United States—the fat or lard type and the bacon type. Both can be successfully raised in Texas. The lard type, which is a broad, long, deep, compact, thick fleshed, short legged hog, is most profitable in sections where fattening feeds can be grown successfully. This type of hogs has been very popular because it makes quick, consistent and economical gains, produces a large amount of lard, and will dress out a high per cent of meat. The Poland China, Duroc Jersey, Chester White and Berkshire are the leading breeds that represent the lard type.

The butcher prefers the hog that will dress out the highest per cent of the best quality of meat. At the same time he desires that the maximum amount of this meat be located in the most valuable cuts. Quality in hogs refers to the character of the skin, hair, bones and the general smoothness and firmness of covering. The hair should be soft and silky, the skin smooth, thin and free from wrinkles and the bone fine and medium sized. The body should have an even, thick, smooth and firm covering of flesh. The hog with large coarse bone, heavy head, thick ears, thick wrinkled hide, coarse hair and shoulders, a large paunch and soft, flabby flesh is usually unprofitable to the putcher. It dresses out a low per cent of inferior meat.

EUROPEAN WAR NEWS

Weekly Review

June 8th.

In the eastern theater the Teutons are still driving the Russians before them, notably in Galicia.

Unofficial advices from Berlin are to the effect that in Northwestern Russia the Russian offensive has shifted to a weak defensive and that the Germans are making headway day by day, which is only overshadowed by their Galician gains.

To the north of the Aisne 2,000 Germans have been killed in an endeavor to retake from the French two lines of trenches which were captured Sunday.

Heavy casualties were suffered by the Germans, according to Paris, southeast of Hebuterne. Progress is also reported for the allies between Soissons and Rheims and in Champagne. The French report mentions the use by their troops of a flaming liquid which was sprayed on the German trenches "by way of reprisal."

Since June 1, in the vicinity of Przemsyl, the Austrians claim that in their advances they have captured more than 30,000 Russian prisoners.

The Italians, according to Vienna, seem to be pushing forward with strong forces against the Isonzo River. In this southern theater the Austrians declare their troops have been successful in several minor engagements.

June 9.

London.—The big battle in Galicia has not reached a decision. The Austro-Germans, having crossed the Dniester south of Lemberg, have assumed the offensive further south, and according to the Austrian official report, have pushed the Russians back between Kolomea and Kalusz, in Eastern Galicia.

The French are considered to have been very successful in what they have undertaken, North of Arras they have gained additional ground and

north of the Aisne have repulsed four German counter attacks and extended their previous gains.

On the other hand, the Germans claim to have repulsed some of the French attacks north of Arras and to the north of Soissons, the scene of the Germans' last important victory in the west.

The operations on the Italo-Austrian frontiers are pretty well screened by the censorship. There are indications, however, that a big battle is imminent, if it has not already begun, along the Isonzo river, where the Italians apparently have decided to launch their principal attack. The Italian cavalry have all crossed the river at one point and it was reported from Geneva to day, although there is no confirmation that they have pierced the Austrian line.

Roumania, according to a German report, has declined the first offer of the entente allies to join them and Bulgaria, in agreement with Roumania, is said to be willing to take any action that country decides upon.

June 10.

Determined fighting is in progress on all the battle fronts, while on the sea a Turkish gunboat, a Turkish transport and a French transport have been sent to the bottom by gun fire, a German submarine has been sunk, her crew being rescued, and several small British vessels have been torpedoed.

The Turkish gunboat and transport were accounted for by the British forces operating in the Persian Gulf. The French transport was sunk by the Turks in the waters off Gallipoli Peninsula.

On the western front the French have completed their occupation of Neuville St. Vaast, north of Arras, have made additional progress in the intricate maze of trenches known as the labyrinth and have beaten back a strong counter attack delivered by the Germans at the Queneviers farm, which was taken by the French troops June 6.

June 11.

While the United States is endeavoring to arrive at a settlement with Germany all the belligerent nations are engaged in heavy operations, particularly with artillery, which have provided a heavy drain on war supplies and the cry still goes up from England and France for more shells and ammunition. In the French Chamber of Deputies War Minister Millerand made the announcement that 650,425 men had been taken into the munitions branch of the service.

In England Sir William Robertson Nicoll, editor of the British Weekly and a close personal friend of David Lloyd-George, minister of munitions, declared that the only way for the allies to avert disaster is to equip themselves and to do this Great Britain must stand behind Lloyd-George as one man.

Galicia still retains its position as the battleground of chief importance so far as sanguinary engagements are concerned. In the north, in the Baltic provinces, the Germans have been forced to withdraw one of their wings in the Dubyso river region, owing to a threatened flanking movement by the Russians, who have brought up strong reinforcements.

With the occupation of Montefalco the Italian forces are within sight of Trieste and are in possession of the chief railway junction of that region. The Austrians claim to have repulsed repeated attempts by the Italians to cross the Isonzo river and add that in various other sections of the Austro-Italian boundary fighting is in progress.

Germany's submarine warfare continues vigorously. The latest victims include two British torpedo boats, ten British trawlers and a British steamer.

June 12.

While fighting is going on in all the various theaters of war, it is evident from the official statements of the belligerent war offices that it is partaking of the same character as has been the case for many days. As is usual there is some divergence in the reports as to victories claimed.

Russia chronicles the repulse

BRITISH SOLDIER PLAYS BALL WITH LIVE BOMBS

London.—The exploit of a British soldier, who lay in the crater made by a shell and hurling back at the Germans bombs which they tossed into the excavation to kill him, is related in a dispatch from the front under date of June 4, from the official observer attached to the British army, as given out in London tonight.

After having got into a German trench and finding that he was the only survivor of his party, he managed to crawl deep into a shell crater near by," the observer says, "The Germans knew where he was, but could not shoot him and were prevented by our rifle fire from approaching. They therefore contented themselves with lobbing hand grenades into the crater."

"All day long this British soldier remained in the hole, within a few yards of the enemy, picking up and hurling back bombs with which he was pelted. At night he managed to crawl safely back to our lines."

of the Germans on the right bank of the Dniester in the vicinity of Zuraawa and also at several other points in this region and asserts that thousands of the Austro-German soldiers were captured. Vienna, on the other hand, says that in Southeast Galicia and in Bukovina the Teutons were successful in their attacks on the Russians south of the Dniester and along the Pruth.

While the Italians are claiming the capture of Ploeken, a strategic point on the Austro-Italian frontier, the Austrians assert that Italian attacks on all fronts have been repulsed.

On the western line the French declare they have fortified their positions in front of Neuville St. Vaast and in the region of the Tout Vent farm, southwest of Hebuterne. Little fighting is going on along this front.

The Serbians are reported to have captured Elbasso and Tirana in Albania and to be marching on the important seaport of Durazzo.

It is declared that the Albanian insurgents have proclaimed a republic, which it is considered may complicate matters in this region.

Both London and Rome deny the Austrian assertion that a British cruiser of the Liverpool type has been sunk in the Adriatic by an Austrian submarine.

In the three weeks that have elapsed since the declaration of war by Italy on Austria the Italian forces have been making slow, but steady, progress. The Italian efforts for the time being are being directed mainly at the east, with the Peninsula of Isthria, in which lies Pola, Austria's chief naval station, as their great objective. The Italians already have occupied strategic points along the Isonzo river, which they have crossed, and for several days a battle of really large proportions has been in progress in this section of Austrian territory.

From the Italian side it is reported that Plava has been occupied, but this has been denied by the Austrian war office. Pola has been visited by an Italian airship, and, according to unofficial reports, the arsenal has been almost destroyed by bombs.

The Austrians are said to have brought 45,000 troops and 64 batteries to aid their defense-guarding Gorizia, Trieste and other important towns against which the Italians are advancing. The fortifications defending Gorizia have been heavily bombarded and communications between Gorizia and the remainder of the empire have been cut with the exception of a mountain road.

The French continue their offensive, particularly in the neighborhood of Arras, without cessation. They report the capture of a ridge at Souchez, north of the sugar refinery, also held by the French. This ridge was strongly organized by the Germans, but was taken by assault.

Near Hebuterne a series of German trenches were captured by the French, according to the report, although the German war office merely makes reference that infantry engagements are being fought there.

The situation in the eastern war zone is somewhat problematical, both sides claiming advantage, but at different points,

EXECUTED MEXICANS HAD MILLIONS ON THEM

Thirteen Parties on Its Way to United States to Start Revolt Caught and Killed.

Brownsville, Tex.—Authentic advices telling of the execution of thirteen Mexicans, three of them generals, by the forces of General Emiliano P. Nafarrete in Tamaulipas, near Aldamas, Nuevo Leon, have been received in Brownsville. The executions are said to have taken place after the capture of the party, following a short fight with a detachment of forty of Nafarrete's Indians. The men were en route to the United States and had with them Mexican gold and other moneys valued at \$1,500,000, Mexican gold, with which they proposed to aid Felix Diaz in forming another revolution.

These facts, it is claimed, were revealed by papers found on the men. The money was sent to Monterey.

The party included General Eugenio Aguirre Benavides, who has been active in many campaigns in the late Mexican wars; General Julian Delgado, Guillermo Moran, a lawyer; Adon Tellez, Alfonso Bolanos, Cachon, Remigio Zertuche, Ricardo Corral Terrazas, Aureliano Ruiz, Magdalenro Robles and four others, whose names were learned. Jose Ysabel Robles, the fourteenth member of the party, escaped during the confusion of the fight.

All these men had been serving with General Eulalio Gutierrez, who recently issued a proclamation that he recognized his error in quitting General Venustiano Carranza and the Constitutionalist cause, and said he placed himself again under the Carranza banner. In the same proclamation Gutierrez is said to have given permission to all men who did not believe as he did to depart and the fourteen took advantage of the offer. Whether Gutierrez was aware that the men had the money said to have been found when they were captured is not known here.

The first intimation of the killing of the three generals was received in Brownsville the early part of last week and was the cause of the report that San Luis Potosi had been captured. San Luis Potosi, so far as known here, has not fallen.

San Antonio.—It is reported that the enrollment of the Draughton Practical Business Colleges reached the 265,000 mark since the organization of this great school concern this month.

This big Educational concern, with colleges in 18 states, organized 25 years ago, is the author of the "Draughton System" of Business Training and publishes in its own plant the publications used by it. More than 150,000 bookkeepers use the Draughton system of bookkeeping. "Double Entry Made Easy." Nearly 1000 bankers endorse their system of training.

Their largest college and the closest here, at San Antonio, will be glad to give any information along educational lines or to send a free catalog.

BOMB FACTORY AT FRONT.

Boulogne.—Close behind the French lines near Rheims is located the largest bomb factory in France, or England. It turns out 7,000 bombs of all varieties every day, as well as a variety of trench mortars and other devices for use in trench warfare.

Among the newer bombs being manufactured here is a chemical hand grenade with a charge which rips open the grenade and frees a liquid chemical similar in general nature to the laughing gas used by dentists. Visitors to the factory are taken to an experimental trench close at hand and given an illustration of the effect

which the explosion of one of these bombs has on a group of soldiers. To show that the gas has no unpleasant after-effects, a squad of soldiers is sent into a trench in which a specimen bomb has been thrown. The effects of the fumes is to bring water to the eyes in such quantities that the occupants of the trench would be quite incapable of defending themselves for several minutes. Using a weapon would be out of the question.

What is the difference between a cat and a comma? A cat has its claws at the end of its paws, a comma a pause at the end of a clause.

BIRTHS AND DEATHS.
4 births reported and 5 deaths.

MARRIAGE LICENSES.
Since June 1st 1915.
Frank Buckner Jeffries Jr. and Miss Effie Rosilene Lowrance.

S. F. Edge and Alma Kneupper. R. M. Montell and Miss Alice E. Burleson.

Genaro Martinez and Viviano Trevino.

COMMISSIONERS COURT.

The court met as a board of equalization on Monday June 7. Seven renditions were raised and one lowered.

The taxes for 1915 were levied, the only change being the advalorem fund changed from 16 to 18 cents. The county road bills and other bills were ordered paid.

Walter H. Paine appeared at the clerk's office and filed his medical license for record and took the usual oath.

Probate court is now in session.

FINE CHICKENS.

I have some six or eight fine young Cockerels, Rhode-Island Reds, for sale. You can get them for \$1.00 each, but by spring these same birds will be from \$2.50 to \$5.00 and \$10.00 a piece.

S. C. Dunn.

A view of that lovely residence and lawn of yours would delight some of your relatives and friends, and prove a pleasure to you. Let us make it for you. The M. & W. Studio.

TO THE PUBLIC

I wish to inform the public that I do not buy old mattresses. Also, I do not renovate mattresses when I know people have died, or been used by consumptives. I have small children who help in my work and I do not want any one to give me mattresses to work over as above mentioned. At the same time you need not fear getting a new mattress from me as I buy samples from the cotton buyers and linters direct from the oil mills and do not use one pound of old cotton. I work over old mattresses for \$1.50 but no consumptives. "Do unto others as you would have them do unto you," is my motto.
