

# THE KERRVILLE ADVANCE

VOL. 3.

KERRVILLE, TEXAS, THURSDAY, AUG. 26, 1915

NO. 50

## KERRVILLE HAS MUCH TO BE THANKFUL FOR

**Prosperity in a Marked Degree Visited Upon Our Town and County--People Have Cause to be Happy**

In spite of the troubled conditions of business generally and wars, drouths, and storms that have swept many sections of the world, Kerrville and the surrounding country has enjoyed a most prosperous season.

Our farms have produced abundant crops which have brought good prices. Our ranches have been in fine condition and cattle, horses, hogs, sheep and goats and their products have commanded fine markets.

Our country has never been so popular as a resort for those who seek comfort and pleasure in vacation time. They have come in hundreds and have enriched our social life, increased our business and are going home to make the pleasures of the Hill Country more widely known.

The Kerrville Summer Normal had a successful meeting with attendance from all the surrounding country and the teachers themselves were so well pleased that they took vigorous action to perpetuate and enlarge the normal.

The Presbyterian Encampment had the most satisfactory meeting in its entire history. The attendance on its meeting was the largest many hundreds while the actually enrolled, paying visitors who stayed from one to six weeks was six hundred and fifty. This alone means thousands of dollars of business for Kerrville which will grow each year, while the social and moral benefits are beyond estimation.

Now the Kerr County Fair is enjoying its greatest and most sat-

isfactory session, displaying the resources, progress and prosperity of our county and section.

When we remember that this remarkable record has been made while nearly all the world is either being destroyed by war or is starving because of it, and many sections of our own country and even our State are prostrated by drouth and storm, we certainly ought to be profoundly grateful to God for His goodness to us.

These natural blessings come to us as part of His bounty and we should accept them as such and remember them as reasons for praising Him and seeking to honor Him in all our lives.

Fat cattle and hogs, fine wool and mohair, big crops and prosperous business alone can not make a good country to live in, but you have to have God-fearing men and women--at least enough to restrain the others--if you are to have a country that is good to live in. Would you rather be one who has to be restrained by law and public opinion for the good of the country or one whose influence helps to make it a desirable home?

### Fordtran-Brauner.

Last Saturday evening at eight fifteen Mr. Geo. L. Fordtran and Miss Florence Brauner were very quietly married at the Presbyterian Manse by Rev. W. P. Dickey.

The wedding was almost a complete surprise to their friends, but it leaked out Saturday and they received the congratulations and good wishes of many friends.

After a brief wedding journey they will be at home in Kerrville.

Geo. E. Meeks of Center Point was in this city Monday trading.

### An Invitation to You.

Beginning next Sunday Rev. R. E. Vinson, D. D. of Austin will preach at the Presbyterian church eight days including the first Sunday in September.

The demand of today is that the church shall be the friend and helper of all the proper interests of the community. The Presbyterian church of Kerrville through its pastor and members is taking an active part in everything that tends to make a better Kerrville and a better and happier citizenship. Through its pastor and members it is actively supporting every helpful public enterprise. In particular it has been active in the development of the Encampment which has done a great service for the social, moral and financial welfare of the town and county.

Now these same men whose counsel you trust in City and School and Lodge and Fair and Encampment enterprises say to you that there is an interest more important than any of these--the interest of your soul in the personal message of God to you.

We have given days and weeks to these other things. Is it too much for us to give an hour a day, for a week, to an earnest study of the interests of our souls?

Dr. Vinson is not only a prominent preacher and teacher but he is also a practical, every day man who knows just what we have to go up against and he wants to tell us just what Christ's plan of life has done for him and for others.

W. P. DICKEY,  
Pastor Presbyterian Church.

### Medina Local Notes.

(Regular Correspondence)

The big rain came at last. Turnip seed are going into the ground. Dr. Geo. W. Baines, teacher of Bible in San Marcos Academy, visited acquaintances in our community for several days. He addressed the young people at the Baptist church Sunday afternoon.

The Baptist protracted meeting closed Monday. Sixteen were baptized.

William Akin of Port Arthur joined his family here Monday in a visit with relatives.

Claud Mayfield and Emery Hay, who have been working at Port Arthur more than a year, are visiting home folks.

There is a considerable colony of Medina people at Port Arthur. Their relatives here were very anxious during the days following the great storm when all connection with the city was cut off. Two or three parties have not yet been heard from.

Mrs. Virginia Ford and children of Houston are visiting her mother, Mrs. E. J. Coleman.

Mr. and Mrs. Orville Keese are at home after several weeks visiting among relatives in various parts of Texas.

Jos. Newcomer and Tom McBryde returned Saturday from Des Moines where they went with several carloads of stock from the Hansen Ranch. They report a great loss of grain and many corn fields unplanted or abandoned on account of the continued rains in that region.

A crowd of young people from the Hicks, Padgett and Dean families of Tarpley attended church here Sunday.

A Christadelphian meeting of five days was held at the Christian church closing Sunday the 23rd.

The school house grounds which were strewn with trees after the great hail storm have been cleaned up in anticipation of the approaching teachers' institute and the opening of school.

Yesterday was hardly a Fair day.

### Camp Verde Letter.

(Regular Correspondence)

Everything has been quiet since the meeting closed. We had a good meeting with Bro. Potts and Bro. Ozment preaching. The attendance was good.

Mrs. G. C. Sutherland returned home from a visit to San Antonio.

Mrs. J. L. Vining who has been visiting relatives here for a week is visiting in Kerrville.

Mr. George Reeves and Miss Bonnie Aldrige were quietly married at the bride's home at Medina last Friday 13th. They will soon be at home on the John Rees place on Verde. We are proud to have these young people with us and wish them a long, happy and prosperous married life.

O. Nowlin and family returned from Rock Springs Sunday. They report a nice trip and Rock Springs all right.

W. R. Edwards and family attended the Christadelphian meeting at Medina a few days last week.

Jim Moore and wife of Ozona spent Friday night with Mrs. Moore's sister, Mrs. J. C. Baxter.

The young people enjoyed a lawn party given by Mrs. Chas. Landry in honor of Miss Ethel Cross. Every one enjoyed the occasion very much. At 10 o'clock refreshments of ice cream and cake were served.

Mr. Rob Shults and family of Port Arthur were out at Camp Verde last week visiting friends and relatives.

Mr. Joe Shults had a family reunion at the Camp Verde Springs last Thursday all the children and grandchildren being present. There were about 20 in all. Dinner was spread on the ground and ice cream was enjoyed in the afternoon. Mr. Shults is one of Camp Verde's old Settlers. His father's old home is near Camp Verde and his mother still lives there. Mr. Shults says Camp Verde seems more like home to him than any other place.

Camp Verde is still improving. W. H. Bonnell has built a house near the Correll springs. T. H. Davis will live in it and work on the Bonnell ranch.

The rain we had last Saturday night will insure us a fall garden.

### Resolutions of Respect.

Olive Grove No. 293, Woodman Circle.

Whereas, it hath pleased God in His infinite wisdom to remove from our midst our beloved sovereign, Leah Council,

Resolved that we extend to her bereaved husband and family our sincere sympathy.

Resolved, that copy of these resolutions be spread on our minutes, our charter draped in mourning, a copy sent to the Advance and the Mountain Sun for publication.

Committee.

### Baptist Church Notes.

Mr. Editor, I want to tell the people I am home from a fine meeting with the Baptist church at Medina where we had 22 who professed faith in Jesus and 19 joined the church, 16 being baptized.

We will have the usual services at the Baptist church next Sunday at 11 a. m. and 8 p. m. Feeling my people have had a good long rest I shall expect them to be on hand ready for hard work for the Master.

The recent storms and deaths of neighbors and friends have brought to some of us deep grief, but these things should bring us nearer to that Friend that sticketh closer than a brother. Let's all get ready for a great fall campaign for Jesus.

J. B. Riddle, pastor.

The Advance tells it first.

## WEST TEXAS FAIR UNDAUNTED BY RAIN

Will Make it \$30,000.

County Commissioner Jas. Crotty of Center Point was in town last week to cancel the order for an election in Pre. No. 2 for \$15,000 road bonds. The people of that precinct,

after hearing the arguments of the road experts at the meeting there last Monday decided to ask for an election for \$30,000 instead of \$15,000. This amount will be required to make the improvements desired. It is proposed by the good roads people of San Antonio to build a Mountain Automobile Loop by way of Boerne, Comfort, Center Point, Camp Verde, Bandera, and Medina Lake, back to San Antonio. This would give Kerr County some more good roads, and when the few miles between Kerrville and Center Point are connected with a macadamized road it will place Kerrville practically on the Mountain Loop. Thus it will benefit the entire county, for there is no way to estimate the benefit a first class automobile highway will be to this section. Besides it would place us in close touch and easy access to the great Medina Lake not to speak of the great benefit it will be to our neighbor county and town of Bandera. Good roads never hurt anybody and always help everybody. They are worth the price and if properly carried out the movement will likely have the support of a large majority of the people at the election.

Mrs. Ed. Goodwin and four children arrived from Port Arthur after the storm last week and are visiting Mrs. Goodwin's mother, Mrs. J. H. Davis. Mrs. Goodwin reports the loss of her new residence in the flood and that the city was covered in from three to six feet of water.

The exhibits are better and more extensive than usual this year and if the weather gets fair a large attendance is expected the next three days.

The managers of the various departments worked right on in the rain putting the exhibits in place but of course the day was spoiled for the fair and the attendance was very light. The regular program of events for the first day was postponed until today and the Fair will be extended to include Saturday.

The exhibits are better and more extensive than usual this year and if the weather gets fair a large attendance is expected the next three days.

**First Day Rained Out--Will Be Extended to Include Saturday--Prospects Good for Big Attendance**

Yesterday was the opening day of the West Texas Fair and Kerrville was in gala attire and with prospects bright for a record-breaking first day. But Jupiter Pluviosus called a halt by opening up the flood gates of the heavens and sending down one of the heaviest rains of this year just at the time the exhibition was to be opened. It rained in torrents for nearly two hours and continued in intermittent showers throughout the day.

The managers of the various departments worked right on in the rain putting the exhibits in place but of course the day was spoiled for the fair and the attendance was very light. The regular program of events for the first day was postponed until today and the Fair will be extended to include Saturday.

The exhibits are better and more extensive than usual this year and if the weather gets fair a large attendance is expected the next three days.

### Business Change.

Miss Ida Pfeuffer has purchased the one-half interest of her partner, Mr. A. B. Williamson, and is now sole proprietor of the Rock Drug Store. Miss Pfeuffer is a registered pharmacist and experienced in the drug business and will no doubt enjoy a continuance of the same generous business heretofore received by this drug store.

Ed. Kaiser was in town Monday from Johnson Creek.

### CAUSEWAY TO BE MADE STORM DEFEYING

Galveston, Tex.—Mayor Lewis Fisher said that the causeway will be rebuilt at once stronger and better than ever. The mayor declared he has conferred with the railroad and the street car companies interested and plans were under way to reconstruct it at once.

It is planned to place concrete arches all the way across. In the original construction the arches were in the center, both sides were filled in with sand and concrete. It is estimated it will cost \$750,000 to repair the damage.

Every man in Galveston today who wished it could find work. The railroads had hun-

dreds of men repairing their lines. Broadway used scores to clean up their property. This is no place for a man who does not want to work, and no high wages are being paid. The officials told those employers applying to them for aid today that they should offer workmen only what they had been paying in wages before the storm. If the men refuse to work, the strikers are summoned, the situation is explained and the workmen is put to work any way under the rules of military police—without pay.

Plans for quick restoration of railroad traffic were made at a meeting of representatives of the railroads entering Galveston today.

### SINKING OF ARABIC MAY CAUSE BREACH WITH GERMANY

Attack by Submarine Made Without Warning and Vessel Goes to Bottom in Eleven Minutes.

New York.—The White Star Line received word from its Liverpool office that the liner Arabic had been sunk by a German submarine at 9:15 off the south coast of Ireland. Press dispatches from London had told of the sinking an hour before. Almost at the same moment that the cables were telling of the sinking, the line received a message from London announcing that the vessel had sailed from Liverpool. This was followed in a few minutes by another message stating that the steamer had on board 130 cabin passengers and 45 in the steerage. For nearly an hour this was the only information that the line could give to the hundreds of inquirers who besieged the office in person and by telephone for news.

Then the story came through a few words at a time. Fifteen boat loads of survivors, an early dispatch said, were on their way to Queenstown. Nearly four hours after the first message a cablegram was received conveying the intelligence that 375 survivors had been landed at Queenstown, that only forty-eight were to be accounted for, and that the captain of the liner had wired that his ship was torpedoed without warning and sank in eleven minutes. Short patches from London contained the information that the American embassy had received word that there were fifteen Americans on the ship. The dispatches did not state whether they were all saved.

It was not known officially here that she had left Liverpool until after word came that she had been sunk. Most of the sailings from British ports are made in secret.

The Arabic was one of the largest of the few British vessels remaining in the trans-Atlantic service.

### MAY BRING BREACH WITH GERMANY

Washington, D. C.—News of the torpedoing of the British steamer Arabic by the White Star line, with Americans on board, came as a shock to officials of the United States government who had hoped since the dispatch of the last American note there would be no further aggravation of an already tense situation between the United States and Germany.

Official information was meager and it was only through press dispatches that it was heard here that the vessel was torpedoed without warning. While it was recognized that a canvass of the survivors might reveal that no American lives were lost, the torpedoing without warning of a vessel carrying Americans has, in itself, been pronounced by the United States government as a violation of its rights which, if repeated, would be regarded as "deliberately unfriendly."

What the course of the United States would be no official would predict because of the absence of detailed information. It must be established authoritatively whether any warning was given and whether the vessel attempted to escape. If no American lives were lost, it is thought in most quarters tonight, drastic steps are improbable, but, in the event it is found Americans were downed, a rupture in diplomatic relations is everywhere discussed as likely.

### Editorial Comment on Sinking of Liner Takes Ground It Is "Unfriendly"

The view is taken that the attack on the vessel is clearly one that has been characterized in an United States note as "deliberately unfriendly," and that should it prove Americans were lost, the Washington government would be forced to recognize such an act had been committed and that a breach with Germany is imminent. Extracts follow:

*Unfriendlyness Shown.*

Dallas (Tex.) News: "If press reports have accurately

### CAMP MAY BE ABANDONED

Washington, D. C.—A row is likely to be kicked up in War Department circles because of the disaster at the camp of the United States troops at Texas City, where several soldiers were drowned. For many months there has been criticism because the camp was located on low ground, floods have been predicted repeatedly and the question whether the camp should not be moved has been freely discussed in army circles but nothing was done. Today it was admitted by the War department the camp will have to be moved from Texas City to higher ground. To what place it will be moved is not announced.

Secretary Garrison is not in the city and in his absence no one about the War department would say what will be done. It is deemed possible that before the matter is ended there will be an official inquiry into the question of responsibility for locating the camp on low and unsafe ground.

The latest reports to the War department do not bear out stories that the list of drowned soldiers will reach a score or more. The dispatches from General Ball indicate a loss of ten soldiers. One report to the war general indicates the loss of twelve.

described it, the sinking of the Arabic was that "deliberately unfriendly" act against which the President warned Germany. Even if it should transpire that Germany added nothing to the toll of American lives it still remains a "deliberately unfriendly" act. It is to be hoped the official account will show press reports to be inaccurate. For otherwise, the United States will be put to the inevitable necessity of suspending diplomatic relations.

*Deliberately Unfriendly?* Says London.

London.—The London newspapers of today comment enthusiastically on the sinking of the Arabic. The Pall Mall Gazette says: "There can be no question that the 'deliberately unfriendly' act described in President Wilson's last note has been committed."

The Globe says: "If President Wilson remains quiescent under this latest outrage we shall despair of the United States as we should despair of the future of a man who saw his children mauled by a mad dog and only wagged his finger at the infuriated beast."

### Hope It's Error

Temple (Tex.) Telegram.—We hope that the sinking of the Arabic with loss of American lives can be explained as an error on the part of the commander of the submarine. Otherwise we trust the President to sustain American rights, regardless of consequences.

*Worse Than Lusitania Case.*

Waco (Tex.) News.—Less warranted than the attack upon the Lusitania, the sinking of the Arabic is easily one of the grossest outrages of the war, and if it does not lead to a severance of our diplomatic relations with Germany it will be because fuller details reveal the fact that no American lives were lost.

### Ready to Follow President

Kansas City Star.—The sinking of the Arabic looks like the deliberately unfriendly act against which President Wilson gave his timely and friendly warning. Facing such a crisis the American people will follow to the hilt his (the President's) firmest insistence on American rights and American honor.

### VIGOROUS INVESTIGATION AFTER FRANK'S LYING

Accompanied by Mrs. Frank and Few Friends, Start Is Made at Midnight.

Atlanta, Ga.—With the arrival of Governor Harris from Fitzgerald, Ga., it was expected definite steps for the investigation of the lynching of Leo M. Frank would be taken. The statement last night of R. E. Davidson, chairman of the state prison commission, that he did not believe anyone could be blamed for conditions which made it comparatively easy for the mob to take Frank from the prison, seemed to indicate that the prison feature might not be investigated immediately. The committee has absolute authority in such matters.

The mob had planned its work so carefully and acted so quickly that little excitement was caused at Milledgeville. Marcella rapidly assumed its normal pose after Frank's body had been cut down from a tree near the town and brought to Atlanta. Here immediate interest in the case ended when the E. P. Natarrate, Carranza commander at Matamoros, had published in a Monterey newspaper a declaration that Carranza forces had not the slightest connection with the Texas raids.

At Fitzgerald, Governor Harris said he was instituting a thorough investigation. He ordered his office here to inform the sheriff of Cobb county, in which Marcella is situated, that he would expect him to make a detailed inquiry into the lynching.

The Cobb county commission held a special meeting at which they authorized Coroner John A. Booth to employ extra counsel in his work on the case. A coroner's jury, unimpeded by the identity of the body was established. The jury adjourned until next Tuesday.

### DRUNKEN MEX. SOLDIER INSULTS U. S. CITIZENS

Threats Made Against Party Leaving Interior to Make Escape to Border.

Brownsville, Texas.—Threats against Americans, made by Mexican soldiers because of exaggerated accounts about Texas raids, were reported here today by Americans arriving from the interior of Mexico. These Americans came part of the way by train and part by automobile. On the train they were threatened comparatively easy for the mob to take Frank from the prison, seemed to indicate that the prison feature might not be investigated immediately. The committee has absolute authority in such matters.

Reports of these raids have spread about 200 miles southward into Mexico, causing some feeling among Mexicans. Treatment of Americans by officials in Mexican border sections appears normal.

General Natarrate left Matamoros today on an inspection trip over his territory, including Carranza posts along the lower Rio Grande, where he announced last week, he would issue orders to stop suspicious persons from escaping to Mexican side. Vice Consul Aguiras said that he was informed Natarrate's troops had caught and killed ten bandits.

Subscription \$1.00 a Year Payable in Advance

**The Beer Joint Won**

The question submitted by County Judge Wallace to Comptroller Terrell last week as to whether Fred Real, a director of the Fair, should be granted license to sell beer on the Fair grounds was answered in the affirmative and beer is being sold as usual. Judge Burnett, also a director, who protested the license, cited the law which says a corporation can not "in any manner" be interested in the business. The Comptroller stated in his reply to Judge Wallace that as it appeared there was no agreement or understanding that the Fair Association was to receive the profits from the beer saloon Mr. Real was entitled to the license. By this it is evident that the Comptroller didn't understand the facts in the case, for it is admitted that the beer saloon is run to help finance the Fair.

There is one effectual remedy for preventing the sale of intoxicating liquors in the presence of boys and women and children. Local option will do it and it is hoped and believed by many that Kerr county will soon hold aloft the banner of the "White Ribbon," now so gloriously floating over a majority of the counties in Texas.

The unpurchasable and unsubsidized press of our country has done more to correct the evils that threaten the people and prevent graft and corruption than any other influence could do. People are more afraid of the light of public criticism that shines out through the printed page than of the law and the courts which give direct punishment. The paper that has no strings to it and has the moral courage and backbone to call attention to existing evil and condemn graft and corruption whether in high or low places, even at a financial loss to itself, will always have the good will and support of every good and patriotic citizen. Such papers cannot be hurt by adverse criticism for those who criticize and oppose them only advertise themselves and their ulterior motives.

The latest reports from the great gulf storm indicate that less than 300 people met death but the property loss will run into millions of dollars. The Galveston sea wall withstood the storm and saved that city from another calamity possibly worse than that of 1900.

Good roads are a splendid investment for any community. They pay in public convenience and increase in property values. They help the church, the school and the home, the three greatest institutions on earth, by making it easier for people to travel from one to the other.

**Boosting and "Knocking."**

The Fair is a splendid advertisement for Kerr and adjoining counties in exhibiting their diversified interests and crops and is of great benefit to the people in encouraging industrial pursuits and enterprises. The promoters and managers of the Fair are to be commended for their earnest endeavor and effort put forth to make it a success. While we are always glad to boost the Fair for the good it does and give credit to the management for its good features, we have regretted the presence of the beer saloon under the grand stand and have felt it our right and duty to condemn this feature and criticize the management for allowing it to exist. If any one has been led to believe the Advance is disposed to knock the Fair because of this criticism we hope they will rid their minds of such thought. We have no more been guilty of "knocking" the Fair by this criticism than we have "knocking" our town, county and state by trying to rid them of saloons. In fact, if the files of the Advance are examined it will be seen that all the "knocking" we have done since coming here has been to try to knock out the liquor business and its attendant evils. Our object is to uphold all that is good and helpful to mankind and to oppose that which demoralizes and corrupts and is a menace to our civilization. If this is to be classed "knocking," then we expect to keep right on "knocking."

**How to Make Money at Home**

The following advice by a police court judge to a derelict husband might solve the problem. Read it: "Start a saloon in your own house. Be the only customer (you'll have no license to pay). Go to your wife and give her two dollars to buy a gallon of whiskey, and remember there are sixty-nine drinks in a gallon. Buy your drinks from no one but your wife, and the time your first gallon is gone she will have eight dollars to put into the bank and two dollars to start business again. Should you live ten years and continue to buy booze from her, and then die with snakes in your boots, she will have enough money to bury you decently, educate your children, buy a house and lot, marry a decent man, and quit thinking about you entirely."

**Good Roads Talk**

Rock Springs and Edwards county are alive to the worth and necessity of good roads. There is a strong movement for a bond issue in the big Divide sections of Kerr and Edwards counties, so as to have a fine road between Kerrville and Rock Springs, and we wish the movement success. Regardless of the daily mail line, which will be changed by way of Uvalde, there is great need of a first class highway, for the people over all the Divide section come here to trade and sell and ship their products. We believe the people of that section would just naturally rather come here than go to Uvalde, the opinion of the Leader-News to the contrary notwithstanding.

Good churches, good schools and good roads go hand in hand toward the uplift of humanity to the highest state of civilization and happiness. All good citizens can unite to support and encourage these great agencies for good.

Dee Richardson, Center Point.

FOR RENT—Nice, cool, light housekeeping rooms, also boarders wanted. J. W. Hill, Lockett Hotel.

**KERRVILLE**

Is the county seat of Kerr County, has a population of about 2500, is situated 70 miles northwesterly from San Antonio, and is the terminus of the Kerrville branch of the S. A. & A. P. railroad. It has two daily trains to and from San Antonio, and daily mail route, carrying passengers in hacks, to Ingram, Junction, Rock Springs Harper and other places north and west of Kerrville, and also a daily line to Fredericksburg. From Kerrville to Fredericksburg is 25 miles; to Bandera and Medina City, 25 miles; to Junction 60 miles; Rock Springs 80 miles, Harper 21 miles.

Kerrville has electric lights and a splendid system of water works. The sum of \$20,000 has been spent on the streets and \$10,000 has been voted for road improvements in this precinct.

The elevation at Kerrville is 1750 feet. The Guadalupe river, which heads 30 miles north of Kerrville, runs through the city. On the east side where the city is located, there are high bluffs on the river, and on the west side is a fertile and beautiful valley, and mountains surround the city on the east and west. The Guadalupe valley is occupied by thrifty farmers and ranchmen, and the mountain regions, among which there is considerable valley, creek and arable land, there are large ranches of cattle, horses, sheep and goats, all of which do well in the Kerrville country. The land generally is well wooded, principally with live oak, Spanish oak and cedar, and the range is good, and water excellent.

Our farmers grow wheat, oats and all other small grain, cane and alfalfa, cotton and corn, and fruit and vegetables do well. Kerrville is one of the largest wool markets in the state, and large quantities of wool, mohair, cotton, oats, cattle, etc., are shipped from this point.

The climate of the Kerrville country is unsurpassed. The winters are short and generally mild and invigorating owing to the dryness of the climate and the prevalence of sunshine. The summers are cool and delightful, and the mountain air is pure and bracing. Game abounds in the Kerrville country, and fishing in the Guadalupe, especially north of Kerrville, is good. Kerrville and the adjoining towns are popular resorts for health and recreation.

# Wilmon Newell Resigns

The Friend of Texas Beedom Leaves the A. & M. Faculty.

"College Station, Texas, Aug. 7, 1915. Dear Sir: You may possibly be interested in learning that I have tendered my resignation as State Entomologist, effective October 1. This step has been taken by reason of my having been offered the position of State Plant Commissioner of Florida at a salary much higher than I have been enjoying here.

"While I have never received a dollar of salary for what work I have done in connection with the eradication of foul brood in Texas, I have, nevertheless, always had the interest of the beekeeping fraternity at heart and have conscientiously tried to conduct the work for their best interests.

"I wish to take this opportunity of expressing my hearty appreciation of the co-operation and support which the beekeepers of Texas have always accorded me and you can rest assured that I will not sever my friendly relations with the Texas beekeepers without some regrets.

Sincerely yours,  
WILMON NEWELL,  
State Entomologist."

Texas Beekeepers will read with a feeling of dismay the above letter which your editor has received from Professor Newell, the man who, above all others has been the leader of our fight for the eradication of bee diseases and the up-building and safeguarding of our industry. We have all been benefited again and again in the past few years by his untiring efforts and devotion to our cause. Since he has not press-agented his work nor boasted of it, there are many who do not realize how great a debt of gratitude is due him, and not until his efforts cease will be felt the need of urging upon the powers that be the necessity of calling him back to the work he has done so well.

In the few years since Wilmon Newell came to Texas as professor of Entomology in the A. & M. College, this state has risen from the condition of having no adequate and enforceable laws for the protection of the beekeepers, to that of being the foremost of all the states in this regard and of having the best foul brood laws in existence anywhere. This law was written by Mr. Newell and almost wholly by his personal effort and insistence was it finally enacted.

When he was made State Entomologist and realized the state of affairs in the beekeeping industry of Texas he took up the work as a labor of love. (As a matter of fact he received not a cent of pay for his work in the eradication of foul brood). Realizing the value of honey raising to Texas and the danger from the disease that was sweeping over our apiaries he prepared a bulletin on the subject and made a direct appeal through the press to the farmers of Texas to use the information he was preparing to disseminate. In a short time he secured the names and addresses of over 5000 actually interested Texas beekeepers. His personal interest in bees and beekeeping and his belief in the value of honey as an adjunct to the resources of the state was alone responsible for the fact that he has labored so incessantly to get the names and addresses of the total of human knowledge concerning them. The bulletins issued by the A. & M. College on apiculture in Texas during his service there have been the subject of praise and encomiums from the beekeeping world. The National Beekeeper's Association has recognized Mr. Newell's work by electing him one of its directors.

It is a sad commentary upon the parsimony of the great State of Texas in its treatment of the A. & M. College that having one of the best known entomologists of the United States in its faculty, and one that has proven by his work to be at the head of his profession as a for the beekeepers—at times in the face of many obstacles which we beemen have never even heard of. Wilmon Newell loves the bees as more closely than they have in the past. The next man who is named as State Entomologist may not be a beekeeper, and may not be willing to sit up nights and Sundays over foul brood eradication work, or be as keen as he has been to see that the beemen received their dues.

For instance, no specific amount has been named by the Legislature for the relief of bee men. The appropriations committee granted \$5000 to be expended by the State Entomologist's office for entomological work, foul brood eradication included. The experiment station is in no way bound to expend this money, or any part of it, for the beekeepers, for under the terms of the appropriation it can be used in any way the director sees fit.

Wherever Mr. Newell goes we know that he will carry the best wishes of the beekeepers of Texas whose interests he served so well and faithfully. Let us hope that this knowledge will in some slight way repay him for the days and nights of work and worry that he spent in waging our battles for us. May he be as successful in his new field and make as many friends as he has done while in Texas.

## PLANTING BEE PASTURES

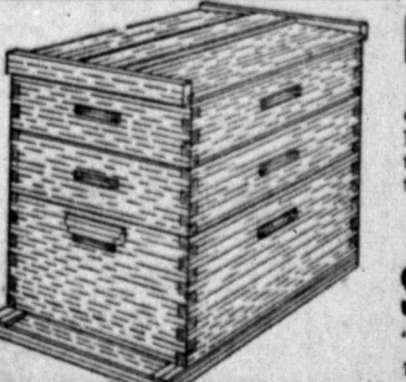

Paige, Texas. Is the white sweet clover the honey plant for this country? If so, can it be sown this summer, or is it too late? Then where can the seed be bought?

Does the Rocky Mountain bee plant (Clematis integrifolia) do well here in Texas? If so, where can the seed be bought? Is the Spider plant, as Mr. Danat calls it (Clematis pungens) the same what the enclosed clipping calls Electric Light plant? I know this plant was doing well in Austin county and ought to grow here. I am going to order some seed and make trial.

What other plants could you advise for this section?  
REV. L. H. Paige, Texas.

August 7, 1915. Your favor of the 6th to hand and most of the questions that you ask revolve around the proposition of whether or not it is necessary or expedient to plant anything for your bees to feed upon. We are fortunately situated in Texas. God has bountifully provided enough nectar everywhere for the bees to gather without any effort at all on our part. What little of any kind of flowers that we might plant would make practically no difference when the honey flow starts. We do not know of any large beekeeper in Texas who plants anything particularly for the bees and in fact it is not necessary. Every valley is full of flowers and shrubs that produce nectar. Every time a farmer plants an orchard he provides a place for the bees to feed; every time the fields blossom into bloom, the bees like buccaners go and carry away the sweets for us. We do not think that it is at all necessary for you to plant anything flowers and plenty of nectar for your bees. The humblest flower growing in the field is as likely to be as valuable as the most valuable plant that you can grow.

As a matter of fact white clover is a wonderful honey plant but if one plants it he plants it for meadow and pasture and not for honey. I do not recognize the plant, picture of which you sent me, as it must grow in this locality. I do not know if the California plant that you speak of would grow in Texas as I have not seen it, and whenever you plant anything that is beautiful or decorative you are indirectly assisting your bees but it is not necessary that you do so for should you not plant anything the bounteous hand of nature would spread the seed there that would bring forth plenty of orers.

# MAJESTIC THEATRE OPENS SEASON AUGUST 29

Talk about "new stuff!" Tom Smith and Ralph Austin offer it; Chris Richards, eccentric Englishman, offers it, galore, and Norman and Claire, two very juvenile juveniles, are the cleverest pair of youngsters who've ever been sent to Texas. The boy and the girl might have been twice as old in years and experience from the way they "get over" to the audience, with their clever song hits and their clever dancing, including a brand new maxixe that was as graceful as it was well executed.

Smith and Autsin call their act "All Fun." It is, and then some. One can't tell what they are going to pull next, and the demure little woman who works with them is just the proper foil for their originality. Chris Richards—well, he's English and clever, and when you run across such you've got a combination that's as rich as cream. Richards is a comedian of parts; as devoted, apparently, of bones or refractory joints as an eel, and he bubbles over with the very joy of making people enjoy themselves.

Johnny Singer and the Ziegler twins are dancers and bully dancers at that—especially the twins. The girls are as pretty as Texas Elbertas, and their semi-classic offerings are the apotheosis of natural grace and perfect training. Singer is an aerobist, and mighty good.

Ryan and Lee—man and woman—are as good a team as one will see in a day's journey, the girl in her topsy-turvy dancing presenting a feminine characterization rarely if ever seen here before. Both are excellent dancers.

The bill concludes with the tight wire act of the Leon Sisters company, as good a number of its kind as the Majestic has ever offered.

And say, we almost forgot about the best thing there will be on the bill—Thos. Swift and company, in "Me and Mary." Swift reminds one of Kid Burns in "Forty-Five Minutes From Broadway," as does the song, "My Mother's Name was Mary," given by a woman whose personality is relied upon for her attractiveness, rather than a plethora of grease paint and fluffy ruffles. The little company is made up of a trio—two girls and Swift—and the action is all new. Their "movie" stunt is nothing short of great.

For opening night the theater will be elaborately decorated, and its rehabilitation for the season just begun is apparent in new paint, brand new stage settings and other particulars. The bill will continue throughout the current week commencing August 29 daily, matinees at 2:30 and evenings at 8:30.

essay for you to plant anything flowers and plenty of nectar for your bees. The humblest flower growing in the field is as likely to be as valuable as the most valuable plant that you can grow.

As a matter of fact white clover is a wonderful honey plant but if one plants it he plants it for meadow and pasture and not for honey. I do not recognize the plant, picture of which you sent me, as it must grow in this locality. I do not know if the California plant that you speak of would grow in Texas as I have not seen it, and whenever you plant anything that is beautiful or decorative you are indirectly assisting your bees but it is not necessary that you do so for should you not plant anything the bounteous hand of nature would spread the seed there that would bring forth plenty of orers.

# RIFLE SHOOTING CITIZENS TO BE ENCOURAGED

Congress Expected To Provide General Plan of Range Making.

Washington, D. C.—The National Board for the Promotion of Rifle Practice makes public the following:

It is expected that the army estimates, when submitted to the next Congress, will contain provisions for a general plan of range construction throughout the country as the preliminary steps toward the training of the male citizens of the country in military rifle shooting. High military authorities are in accord as to the necessity of such training for those who are available as volunteers and that any scheme for a reserve must provide also for the rifle training of its members.

Provision will probably be contained also for the proper supervision and training ammunition and target supplies. Congress at the last session authorized the chief of ordnance to issue free to rifle clubs the Krag rifles in storage at the arsenals as well as ammunition to be used with the same. This ammunition was left over from the Spanish-American war and it has deteriorated greatly. The supply will soon be exhausted, however, and provision must be made for the further manufacture of Krag ammunition at the Frankford Arsenal if the rifle club movement is to be encouraged.

When the new law went into effect the organization of these clubs was put in the hands of the National Rifle Association of America, which had already done considerable work in the promotion of rifle training among the citizens of the country, and the War department since that time has equipped 167 clubs with 1016 rifles and issued to them for practice 634,580 rounds of ammunition. In addition to this, there has been 916 rifles and 470 carbines, besides 86,840 cartridges issued to school cadet corps, the same law having authorized the issue.

Rifle training of citizens in this country had become almost an unknown factor up to about ten years ago, when the National Rifle Association of America began a serious propaganda for a revival of the sport, having in view the benefit which would be derived from the standpoint of National defense. The association appealed to prominent men of the land for co-operation and received very material assistance from ex-Presidents Roosevelt and Taft, ex-Senator Root, ex-Secretary of the Navy Meyer, Colonel Robert M. Thompson, ex-Secretaries of War Dickson and Wright, Robert Bacon, Seth Low, Herbert S. Hadley, John R. Drexel, George Westinghouse, Judge E. H. Geary and many other prominent men of the country. In view of the present almost universal demand for a better state of preparation the association is again appealing for aid to expand its work, especially among the schools and colleges. Its plans include a modified Swiss system of rifle training for the young men of the country.

There has been considerable discussion in the newspapers regarding the Swiss system of training for National defense and some of our foremost military writers have advocated the adoption of this system, overlooking the fact that the conditions in the United States are far different from those in the little old republic among the Alps.

No doubt, however, a modified Swiss system could be very effectively put into operation. With the 10,000,000 available young men in this country to select from there is no reason why rifle clubs should not be organized with selected applicants. The National Rifle Association of America has demonstrated what can be done with very little funds available for the work along such lines. It has under its jurisdiction nearly 500 clubs now with an estimated membership of about 25,000. With proper governmental support, inspection, supervision and training these 500 clubs could be increased to 5000 with at least 300,000 members, and in time this easily could be increased to 1,000,000. We then would be getting all the benefits of the

best features of the Swiss system without running any danger from the free issue of rifles. Before this should be done, however, the way should be paved for the successful carrying out of the scheme by the building of rifle ranges by the government throughout the country where rifle club members could shoot. This is another feature of the Swiss system which we might well pattern after. In that country nearly every canton, which might for comparison sake be called a miniature State, has a fine large, well equipped range, and in addition there are thousands of rifle clubs which have their own ranges.

## BANKS ARE ABLE TO FINANCE CROP SELLING

Comptroller Williams Issues Statement Showing Great Resources Available.

Washington, D. C.—A statement issued by the Comptroller that banks are able to finance cotton referred to the prospect for unusual demands for funds, particularly in the event cotton should be declared contraband by the European belligerents, and declared a survey of the condition of the National and reserve banks is distinctly encouraging. Never before, Mr. Williams said, had the banks been so strong and so thoroughly prepared to handle any problem that might be presented to them.

Just before the statement was issued the British embassy had authorized the announcement that the allies had agreed upon the principle that cotton is contraband. Special requirements which the banks may have to meet in the near future were summarized by Mr. Williams as follows:

"1. The yearly recurring demand for funds which to move the crops which this year, except as to cotton are unusually large and commanding full prices.

"2. The unusual demand for funds which may arise to enable cotton growers to meet any contingency.

"3. The demands which are gestion in the movement or marketing of the crop in the event that cotton should be declared contraband.

likely to be made on the National banks, both directly and indirectly, in connection with the extension of credit to foreign purchasers of supplies of all kinds and to pay for the American securities which may be returned to us by foreign creditors."

## AMERICAN DOLLAR NOW IS WORLD STANDARD

Sharp Decline in the English Pound Sterling Creates Novel Situation.

New York.—The value of the English pound sterling went downward rapidly Friday until it touched \$4.64 in American money, the lowest value ever placed upon it since New York became a financial center. Utter demoralization of the foreign exchange markets resulted. Francs followed suit, falling to 16 2-3 cents. Normally, pounds sterling are quoted at \$4.87 and francs at approximately 20 cents.

The sharp fall in exchange rates was ascribed to the demand of American manufacturers for pay for the goods sold by them abroad. Within the last few days the money market has been flooded with millions of American bills against England and her allies. It was reported that last Friday between \$25,000,000 and \$50,000,000 of such bills were presented to one big banking house alone. Today's demands were believed to be far in excess of this sum.

Consequently the American dollar was today the standard of the world in the financial market. In financial circles the rapid lowering of foreign exchange rates was regarded as presaging difficulties ahead.

In the face of this belief there was a rally for sterling about 2 p. m. which brought quotations back to within one cent of the opening. Francs steadied likewise. Other continentals also rose in sympathy.

## MOVING PICTURING LINCOLN HIGHWAY

Ever since early spring the public has been reading that transcontinental tourists have found travel through the middle western states extremely difficult in the matter of roads.

Such statements are flatly contradicted by the men in the moving picture party now filming the great cross country route.

Those in the Studebaker car accompanying the expedition say that not once have they encountered roads impossible to get through. Even at Marshalltown, Iowa, stories of stalled cars were heard, but on going forward these reports were not verified. At Omaha stories of dozens of machines mired along the road were heard, yet no difficulty at all was encountered and not a single car was seen stuck. Hearing similar reports of cars which could not get through, some motorists have become alarmed and shipped their cars by rail, and probably told other people that the roads are impassible. Perhaps shortly after rain, parties might find the roads slippery and soft, but in from three to six hours after a storm the roads are normal again, due to the quick-drying qualities of the soil throughout the middle west.

The Studebaker party, in charge of Ray C. Sackett, have found, that as a whole, the roads in Indiana, Illinois, Iowa and Nebraska are as good as one will usually find on a long tour. In many places, road improvements are being made and many of the dirt roads are easier to travel over than those with harder surfaces, for they are kept more easily in repair and are not full of unseen holes. The dirt roads of Illinois and Iowa are usually a great surprise to tourists from the east. They are perfectly crowned, dragged, scraped, rolled, and in many cases oiled. Some of the more fifty feet in width, with fences on each side. As an instance of the quick-drying qualities of these roads, on the 6th of July the Lincoln Highway caravan passed through a severe storm lasting for some hours, yet they did not stop and in less than six hours after the storm ceased, dust was flying and chains were no longer necessary. This was due, no doubt to the fact that two or three hours after the deluge farmers were at work dragging the roads. Tourists who do not like to travel muddy roads, need only wait four or five hours and the roads will be dry again.

In spite of the erroneous reports as to road conditions many people are making the trans-continental trip. One day the official cars passed twenty-five trans-continental parties. Practically everybody who is making the trip is surprised at the good roads and beautiful scenery, for with so much rain through the west, everything is green and the abundant crops make the countryside appear at its best.

## COTTON DAMAGE COSTS MILLIONS

Austin Reports Staple Crop of Texas Has Suffered Heavy Inroads as Result of Wind and Rain—Austin Sustains Damage.

Austin, Tex.—Damage which will run into millions of dollars has been done to the cotton crop in Texas by the storms of Monday and Tuesday. Reports from towns in Central Texas say that cotton open in the bolls has been blown out of the bolls and beaten into the ground by the heavy rain with accompanied it. It is estimated that fifty per cent of all the cotton in this section was open and that from one-fourth to one-half of the open cotton was lost. On this calculation the damage will be from 15 to 25 per cent of the entire cotton crop of Central Texas.

At the state house one great pane of glass, three inches in thickness in the dome of the capitol fell in the lobby on the ground floor, a distance of 200 feet, but fortunately no one was hurt.

Trees in the capitol grounds in various portions of the city were blown down, but as far as can be learned no buildings suffered as a result of the storm, with the exception of one of the shacks on university campus unroofed. Trains are delayed, but none have been put out of commission as yet.

Cotton which was now ready to pick has been entirely destroyed, according to reports received from the country in this vicinity; corn has also suffered to a considerable extent.

## IMPURE DRUGS ARE SOLD ON BORDER

Mexican Druggists Accused of Violating State Pure Food Laws.

Austin, Tex.—Certain Mexican dealers in drugs along the border are using adulterated drugs, according to the information of the State Pure Food and Drug Department. Inspectors of the department have been working for several weeks in the border towns and have ascertained that pharmacopeia specifications are not being maintained in the mixture of many common drug supplies. Some samples have been analyzed showing the percentage to fall 85 per cent or more below that required.

The drugs are, it is said, being sold principally by Mexican druggists in the neighborhood of Brownsville, Laredo, Corpus Christi and throughout that section. Complaints will be filed at once with the county officials and steps taken to prevent further sale of such drugs. Among those found to have fallen below the standard are tincture of iodine, camphor and sweet spirits of nitre.

Some investigations have also been made toward enforcement of the sanitary code of the State and some investigations have been made of slaughter houses and dairies. According to Pure Food and Drug Commissioner Hoffman the department will take every step possible to bring up the standard of food and drug supplies in that section of the State. The department has never before made an organized investigation of pure food and drug conditions in the border country.

## PLAYGROUND FOR SAN ANTONIO CHILDREN

San Antonio officially as a city came into possession of a public children's play ground last week when the deed to the "Belle D'Alger Playground" at Smith and Buena Vista streets was formally presented to Mayor Clinton G. Brown. S. C. Kile, acting president of the Playgrounds Association, presented the deed on behalf of the members of the organization which made the grounds possible.

This event was the culmination of the efforts of a group of San Antonio men and women who have been striving since 1910 to pay for a big lot of land at this location so as to turn it over to the city free of debt for the benefit of all the children in San Antonio. The gift carries the provision that the area is "to be used for a playground forever." Mrs. D'Alger was not present, she being in California on a tour of studying public playgrounds but a message of congratulation from her was read.

The affair was a gala event. Between 700 and 1000 persons were present. The Municipal band, under the direction of Professor William H. Smith, gave its regular Wednesday night concert here. There was speech making, readings, the formal presentation and acceptance of the grounds and Mrs. Pettiere sang.

On the lot, besides several swings, a slide and other children's playground equipment, is a permanent pavilion. This was gaily decorated with flags, bunting and pennants bearing the word "Playground." Also there were banners with the sentence, "Let the children play."

Mayor Brown and the City Commissioners had been invited to be present to accept the gift to the city and the children. Mayor Brown and Commissioner Ray Lambert, the only officials there, arrived at 8:45.

Mr. Kile made a brief talk of presentation and then handed to the Mayor the deed and other papers relative to the playground. Mayor Brown, in response, spoke of the achievement of the men and women who had spent their time for years in soliciting money to pay for the land and congratulated them on their success. "This first playground," the Mayor said, "is a nucleus for others which will come into existence. I consider it an honor to accept these papers and this place of play for the children. Our budget of appropriations has been made up and some things have been very costly among them being the widening of Commerce street. But I feel confident that we will find money to care properly for this playground, to buy equipment and to maintain it. I cannot say how much money will be expended on it, within the next few months, but what is spent will be for permanent improvements."

## GALVESTON MAY ASK TAX EXTENSION

Galveston—Mayor Fisher said it was probable that the citizens of Galveston would send an appeal to the Texas Legislature asking that they be given an extension upon their taxes in order to meet the big financial drain caused by the storm. The people, according to the Mayor, already are discussing additional grade raising and filling to meet the new problems which the latest storm brought to light. They are determined Galveston shall be made safe.

A wall inclosing the inner harbor has been suggested as a protection in case of further storms of the nature of the titanic hurricane of Monday and Tuesday.

## HENRY SUGGEST PLAN FOR HANDLING COTTON

Correspondence With Federal Reserve Board Points Way to Get Money.

Waco, Texas — Congressman R. L. Henry received the following telegram Saturday under Washington date:

"Your telegram has been brought to the attention of the Federal Reserve Board, and I feel warranted in replying as follows: No power in Federal Reserve Board to control member banks receiving rediscounts (whether cash, credit or Federal Reserve notes) as to rate of interest such banks shall charge on loans of proceeds. Federal reserve notes issued to Federal reserve banks only upon request is accompanied by tender of eligible collateral to Federal reserve agent. Forty per cent gold reserve must be held by Federal Reserve bank against such notes. Lending power of member banks is amply sufficient to take care of cotton, and the problem must primarily be solved by them. It is to be hoped such member banks will see that all necessary credit is afforded at fair and reasonable rates, and we feel confident that under their power to rediscount Federal reserve banks will co-operate to fullest extent possible. W. P. G. HARDING."

Mr. Henry replied as follows: "Let me thank you for your telegram touching cotton situation. Permit me to suggest that it is not entirely responsive and does not cover the whole subject matter. I am fully aware that the board cannot control member banks receiving discounts and that Federal reserve notes can be issued to Federal reserve banks only upon initiative of banks, and am bearing in mind the gold reserve provision of section 16.

"You say, 'Lending power of member banks is amply sufficient to take care of cotton and the problem must primarily be solved by them. It is to be hoped such member banks will see that all necessary credit is afforded at fair and reasonable rates, and we feel confident that under their power to rediscount Federal reserve banks will co-operate to fullest extent possible.'

"I am in touch with a large National bank in the heart of the cotton country of Texas that will lend money to the amount of \$35 per bale for six months, at 4 per cent per annum, upon notes accompanied with warehouse receipts showing that cotton is properly stored and insured. This bank will make such loans to the extent of \$1,000,000 on such terms, provided the Federal Reserve board will authorize and urge the Federal reserve bank at Dallas to fix the discount rate at 4 per cent at its full value on this class of paper with a view of accommodating the commerce and business of this state. Will the Federal reserve board authorize and urge the Dallas Federal reserve bank to rediscount this class of paper on the terms above outlined?"

"If the Federal Reserve board will use its plenary power to this end, as given in sections 13, 14 and 16 of the Federal Reserve act, this bank will not only be enabled to relieve the local situation, but, I am sure, many banks in Texas will follow in its wake, if the Federal Reserve board will initiate and inaugurate the movement guaranteeing them this opportunity and power. R. L. HENRY."

## GOV'T PASSES THREE

James Stafford and Miss Hermina Hampa, graduate of Draughon's Practical Business College, San Antonio, who took the recent government examination for stenographers have been notified that they were successful in passing the tests. Miss Hampa has already been appointed to the government arsenal at San Antonio. Mr. Stafford who is employed by the Citizens Bank & Trust Company, will not likely accept an appointment for the present. This makes three students from Draughon's to pass the last government examination. Walter Knopp went to Washington a few weeks ago.

## STOMACH TROUBLE FOR FIVE YEARS

**Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.**

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me." Theford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter.

**Subscription Payments.**
