BOVINA, TEXAS

VOL. IX, NO. 12

WHITTLIN'

BY DOLPH MOLEN

Interest in the forthcoming national election is increasing on the local level.

Several people have asked us lately about how the vote will go here. Those who know us well know what our answer will be. However, some are really and truly interested in the outcome.

We expect our area to go Democratic, possibly by as much as a 2-1 margin. President Johnson should receive a good majority here for a number of reasons:

First, this section of the country is basically Democratic;

Second, Senator Goldwater offers appeal only to the hard core Republicans who are going to vote that way no matter what; In other words, Goldwater doesn't have the vote-getting ability that General Eisenhower had;

Third, there's no religious issue involved which might distort the political picture in our section of the country this time;

Fourth, times are, for the most part, good and there's no need for an administration change to make the economy better;

Fifth, people here will, in all probability, be pleased at the chance to vote for a Texan for president for the first time in history.

These things should add up to more than a 2-1 margin for LBJ, but that's a hard task for anyone, even him.

The idea of publishing a poll on the local or county level in regard to how people will vote here is being considered. Possibly the idea will be carried through soon.

Smart alecks at Lions Club last week got started talking about want ads in The Blade and one in particular. This ad, in error, of course offered for sale a mobile home, "10 by 6 ft." It should have read "10 by 60 ft."

The cracks went something like this:

"That certainly is a small trailer house advertised in The Blade."

"Yeah, the size of it is all right, but I was impressed by the fact it had two bedrooms in that little space."

"Well, I'd sure see about it if I wanted a small, two-bedroom trailer house."

"I guess it's all right for a man to advertise a small trailer house the same as it would be a large one."

Those are a few of the cracks which were made, and others would have continued indefinitely, no doubt, had not the man in charge of the meeting called a halt to the nonsense.

Willie the Weatherman's offer to depart for and remain in the tall and the uncut if no rain fell during last weekend was a strong one, we'd say.

But when we read it, we had complete confidence that moisture would be forthcoming. . . as certainly it was.

When Willie says something like, "It's shaping up," maybe no rain is in the near future. But when he makes a prediction such as he did last week, best be getting your raincoat handy.

Bovina Businesses Cotton Bowl Football Contest is only two weeks old and already there are two contestants who have been in the prize money two times. Mrs. Earl Richards, and Bill Ellis, editor of The Friona Star, are the repeat winners. Their accomplishments are highly unusual, we'd say, when you consider that something over 130 people have entered the contest each of those two weeks.

So you think you have troubles--

CONSIDER

THE SUPERINTENDENT Consider the Superintendent. His days are long and filled with pain. He rises up early, seeing both the sun come up in the morning and the moon set at night. He is introduced to his children on rare occasions when the oversight of any one of a

(Continued on page 8)

CRITICALLY INJURED --

Girl, 7, Struck By Automobile

Accident Here Monday Night

Ronda Nuttall, seven-year-old daughter of Mr. and Mrs. A. L. Nuttall, was critically injured Monday night when she was struck by an automobile as she attempted to cross Third Street at Avenue D.

The child was rushed to the hospital in Friona and then transferred immediately to Northwest Texas Hospital in Amarillo.

Her condition is showing "steady improvement" at this time, according to Rev. John Ferguson, pastor of First Baptist Church, who accompanied the family to the hospital.

The Nuttall family had just arrived at the church to attend revival services when the accident occurred. Time of the accident was 7:15.

The girl started across Third Street from the west, apparently to join some friends on the other side of the street. Driver of the car was William Clyde Bartley, who lives at Muleshoe and farms north of Bovina. He was driving south on Third Street.

The injured child was rushed to Friona by Don Murphy. She was taken by ambulance from Friona to Amarillo.

Ronda, who is in the second grade here, has a twin sister, Rita. The Nuttalls have two other children in addition to the twins.

The injured girl suffered head and internal injuries, but no broken limbs, according to Rev. Ferguson.

THERE FRIDAY NIGHT --

Springlake Second Mustang Opponent

The Bovina Mustangs, now handicapped by injuries to two key players, take on their second strong Class A ballclub in as many weeks when they journey to Springlake Friday night for an 8 p.m. football match with the Wolverines.

Out of action for the second tilt of the season will be David Anderson, the team's field general who was one of the top players in last week's game with Farwell. He suffered a broken bone in his right wrist in the Farwell tilt. Coach Roy Stone says he expects Anderson to be out at least two weeks because of the injury.

Also hurt in the Farwell game and a doubtful starter this week is Al Shamblin, senior end who also handled the punting chores for the team. His punts last week were one of the bright spots in the Ponies' losing effort. He has an injured ankle. The Wolverines would have been highly favored over the Mustangs even without the injuries to the two Bovina players. Their stock will rise even higher when the Mustang injuries are considered.

Springlake is 1-1 for the season. They looked terrific in upsetting favored Idalou in their opening game, 22-19, but came back last week and took a 54-14 shellacking from Seagraves. Both their previous opponents have been Class A teams.

The Wolverines will have tremendous advantages over the Mustangs in the weight and speed departments, Coach Stone says. They will outweigh Bovina 18 pounds per man in the line and 33 pounds per man in the backfield.

In addition, "Their backs are fast," Stone says.

Replacing Anderson at quarterback will be regular halfback Scotty Rundell. Stepping into Rundell's vacated halfback sport will be Dean Stanberry. "We'll miss Anderson's passing ability," the coach points

Council Votes For Water Line

At two meetings last week, one regular and one called, Bovina city commissioners voted to install some \$4000 worth of 6" transite water line.

The addition will provide more water for residents in the southwest part of town, where there has been a water shortage. The line is being laid by Luther Vaughn of Shallowater and the work is presently underway.

Also, the council agreed to look into installation of blinker lights along Third Street and Highway 86 in an effort to slow traffic at intersections which are used regularly by school children.

134 ENTER --

Flossie Rhinehart Contest Winner

Three tie games and upsets by the bushel left Bovina Businesses Football Contest players averages in shreds last week. Three of the 10 contest games ended in ties during the second week of the '64 contest.

This was the first time in the five-year history of the contest for that many games to end in ties in one week.

Taking first place prize money was Mrs. Flossie Rhinehart. She named six winners and missed the score only 10 points. Three others also had 10 winners, but all were farther away on the tiebreaker than

was the \$5 first place winner. Taking second place and \$3 was Emmett Tabor, the 1962 grand prize winner. In a deadlock for third and taking 50 cents each were Mrs. Mary Richards and Bill Ellis of Friona. The third place winners finished in the money the first week of the contest.

Too, Ellis and Mrs. Richards, with 16 total points each, lead in the race for the grand prize.

A total of 134 entries were submitted in the contest last week after 135 had entered the opening week.

In addition to the four who

team played "fair" defensively but he was keenly disappointed in the offensive blocking.

A good crowd of Bovina fans are expected to make the trip to Springlake for the contest.

ROMING SECRETARY --

Rogers Prexy Of Q'Backers

Jerry Rogers is new president of Bovina Mustang Quarterback Club.

He was elected at an organizational meeting Thursday night in high school library.

Ralph Roming was named secretary-treasurer.

A membership drive was launched immediately after the meeting. Roming said this week that some 70 memberships had

been sold at \$5 each.

Membership cards are being printed and will be distributed to new members as quickly they are ready.

This week's meeting is slated for tomorrow (Thursday) night. It, too, will be in the study hall. The membership is considering changing the meeting time to a night earlier in the week. Action on this is expected to be taken at this week's meeting.

All sports fans in the community are invited to attend the session and join the club, Rogers says. A film of the Bovina - Farwell game will be shown.

Pentecostal Services Next Week

Rev. Paul Finchum of Oklahoma City, Okla. will conduct revival services at Pentecostal Holiness Church beginning Sunday, September 20 and continuing through October 4.

Services will begin at 8 p.m. each evening, according to Archie Cooper, pastor of the church.

Public is cordially invited to attend the services, the pastor announces.

BVFD Teams In Contests At Hereford

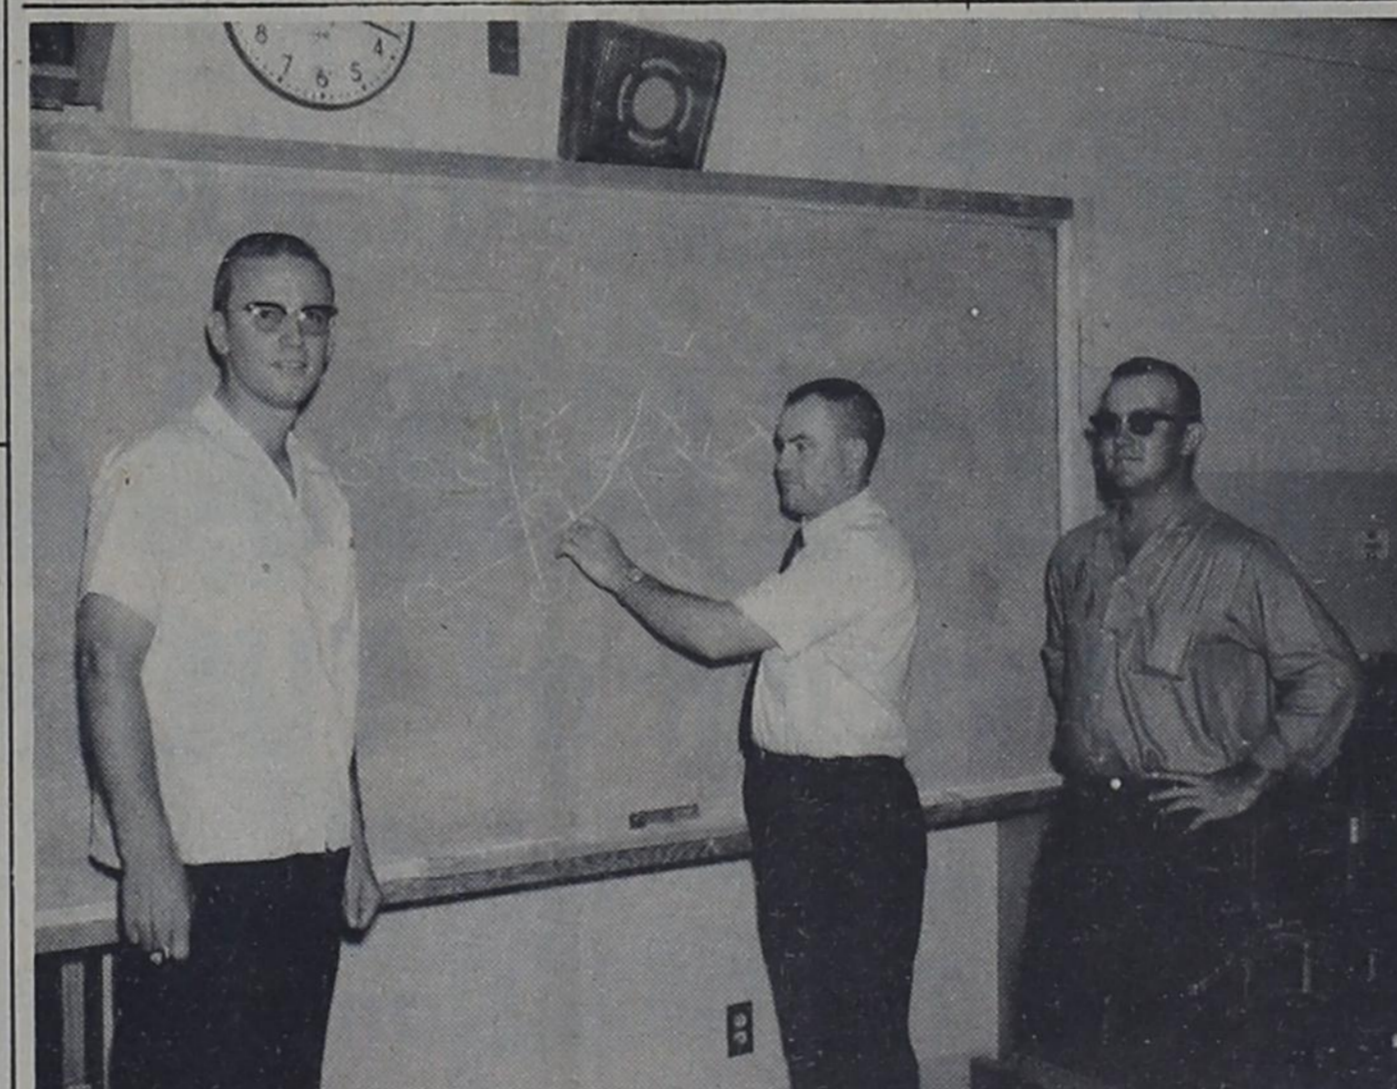

Members of Bovina Volunteer Fire Department participated in contests held in connection with 61st Annual Convention of Panhandle Firemen's Association Saturday in Hereford.

The Bovina department entered teams in pumper racing and in water polo.

The water polo duo was Charles Haney and Tommy Taylor.

On the pumper racing team were Jim Russell, Pat Kunselman, Tommy Taylor, Charles Haney, Alfred Mills and Chief Bill Denney.

Other members of the department attending the convention were Dave Wines, Glen Hromas, Odis White, Paul Holcomb, Ronny Taylor and James Taylor.

"HERE'S THE WAY IT'S SUPPOSED TO WORK" -- Mustang Coach Roy Stone, center, is shown diagramming an offensive football play to Jerry Rogers, left, president of the Quarterback Club, and Ralph Roming, right, secretary of the organization. Rogers and Roming were elected at a Thursday night meeting.

VISITORS IN MOORE HOME

Visiting in the home of Mrs. Pearl Moore over the weekend were her niece, Mrs. Ethel Lois Smith Tindol and her granddaughter, Mrs. Wanda Damron of Crane.

Boys Admit To Vandalism

Two Bovina boys, one 16 and one 15, have admitted to vandalism which occurred here the night of Sunday, September 6, Marshall Bill Denney announces.

Some \$400 in damages was due to buildings occupied by Mustang Theatre and Hammonds Electric downtown and at the school.

The boys appeared before County Judge Loyde A. Brewer in Farwell and were ordered to pay for the damages and to be off the streets by 11 p.m. each night.

This was the first time either of the boys had been in trouble, Denney says.

MUSTANG CHEERLEADERS -- Heading the Mustang cheering section for football season are (left to right) Linda Estes, senior; Zelda Donaldson, freshman; Judy Strawn; head cheerleader, senior; Suzanne Ferguson, sophomore; and LaNell Christian, freshman.

SEPTEMBER 10 --

Dyer Has First Bale Of Cotton

Travis Dyer delivered the first bale of 1964 cotton to Bovina. It was ginned at Lawlis

Gin Co. Thursday. The cotton was picked from a farm operated by Dyer on

Farmerton Hill. Variety of the cotton was Gregg. It was planted April 20 and received two waterings. The 580-pound bale was ginned from 1920 pounds of seed cotton.

Ovid Lawlis, manager of the gin, purchased the bale of cotton for 50 cents per pound. In addition to the premium price, Dyer will receive a \$25 "first cotton of the year" check from Bovina Chamber of Commerce and Agriculture.

Dyer, who has been farming

for several years in Lamb, Swisher and Parmer Counties, says this is the first time he's collected premiums for having a "first."

B. J. Roberts delivered 19-63's first bale here. It arrived in town nine days later

than this year's, coming on September 19.

Tom Ware had the first bale in '62. It was delivered on September 13.

UP TO FIVE INCHES --

Rain Comes Here Monday

After threatening weather from Thursday until Monday, rain fell here Monday night.

The amount of moisture varied greatly in the area with the greatest amount falling from three to seven miles west of town. Bob Wilson, whose farm is in that area, said he received five inches of rain and some hail damage.

Vernon Estes, who farms near Wilson, also reported some hail damage.

South of town reports were that some two inches of rain fell. In Bovina itself, the total was .85.

From an area standpoint, the hail wasn't considered serious and the moisture was highly beneficial.

"Helping Make A Good Community Better"

FOR LIONS --

Broom Sales Total \$1260

Bovina Lions earned approximately \$340 for their treasury Friday during their annual broom sale.

Total sales were \$1260 with the aforementioned figure being the commission earned by the club, according to Ed Dendy, treasurer of the civic organization.

Merchandise sold was manufactured by Texas Lighthouse for the Blind at Fort Worth.

\$1000 Paid On Concession Stand Work

A \$1000 payment was made on the note on the concession stand at the baseball field here. Mrs. Glen Hromas, president of Little League mothers organization, made the payment to First National Bank of Bovina Saturday.

The money came from profits of the concession stand which was operated by mothers during the season.

Balance still owed on the concession stand is \$1360, Bob Estes, bank president, said this week.

The original note, which was made in the spring, was \$2660. Donations made soon after that cut the balance to \$2360.

Total profits from the concession stand during the season were \$1035.12. The difference in that total and the amount paid on the note will be used to take care of any outstanding bills and to start the season next year, Mrs. Hromas says.

Members of Bovina Lions Club signed the note for the new construction stand which was erected for use this year.

Oil or grease stains on nylon need spot treatment before laundering. Rub a solution of detergent and water into stained areas with fingers or brush. Rinse and hand or machine wash in warm or fairly hot water.

This year's sale grossed more than \$200 above what has been sold in recent years. A total of \$800 worth was sold last year.

A pair of sales teams made of Lions members competed against each other. Team captains were Harry J. Charles and Carl Rea. Charles' team was declared the winner.

The promotion got underway early Friday morning and continued throughout the day.

For the past several years, the broom sale has been one of the club's major fund-raising events and is well received here.

"We appreciate the cooperation of the people of the community in helping us have another successful sale," said Dolph Moten, Lions president.

BY FARWELL --

Mustangs Blanked In Season Opener

An outclassed herd of 1964 Bovina Mustangs put up a better-than-expected fight in the football season opener Friday night and took a 21-0 whipping

from the Class A Farwell Steers.

The Ponies, playing their first tilt under Coaches Roy Stone and Milt Fitts, spotted the host team two touchdowns

in the first half and then battled on almost even terms during the final half before the final whistle was blown.

Farwell scored twice in the second stanza and once in the fourth for the margin of victory.

The Bovina boys played a gallant hand of defense, during the first quarter especially, and the score at the end of it was 0-0. Farwell, powered by the

running of Jerry Fields, slammed to Bovina's nine-yard line the first time they had the

ball, but a fumble on the nine was recovered by Radford Venable and the Mustangs were in possession.

The Steers had to make their third stab at the goal line before they could stab it through the determination of the out-weighted Mustangs. The second

time they tried, the Steers lost the ball on down on Bovina's 30.

One of the breaks of the game occurred two plays later. The Steers got possession on the ball on a fumble on Bovina's 19. It took six plays for Farwell to score. Quarterback Bobby Field rooted the last yard for the marker. Jerry Childs' conversion was good and Farwell led 7-0.

Bovina's offensive machine still wouldn't go in gear following the kickoff and Punter Al Shamblyn booted from his own 40 to Farwell's 20. A 17-yard runback allowed the Steers to put the ball in play on their 37.

Fourteen plays later, the Steers crossed Bovina's goal line. Jerry Field did the bulk of the damage during the drive as he carried the ball eight consecutive times. Danny Huffaker put the points on the scoreboard, though, with a three yard squirt into the end zone. Childs' kick made the score 14-0.

Mustangs controlled the ball majority of the time during the second half, but were never able to burst their scoreboard goose egg.

Following the second half kickoff, the teams exchanged punts. Then the Mustangs, operating from their own 25 picked up their initial first down of the '64 season. Halfback Scotty Rundell got it on a determined one-yard smack at the line after Halfback Richard Carson and Fullback Gene Prutt had picked up four and five yards respectively. With a drive going, the Bovina boys banged down to Farwell's 35 on plays highlighted by a nine-yard run by Rundell and a seven-yard pass from Quarterback David Anderson to Rundell.

But 15 yards were lost as Anderson was downed while back to pass and Bovina had to kick. After an exchange of punts,

Farwell launched its final scoring drive on its own 33.

Quarterback Bobby Field passed to his brother, Jerry, for 17 yards. Then Bobby passed to Jerry Childs for 33 yards and a first down on Bovina's 17. Three plays later, Johnny Atkinson banked it across from four yards away. Childs' kick completed the scoring for the night.

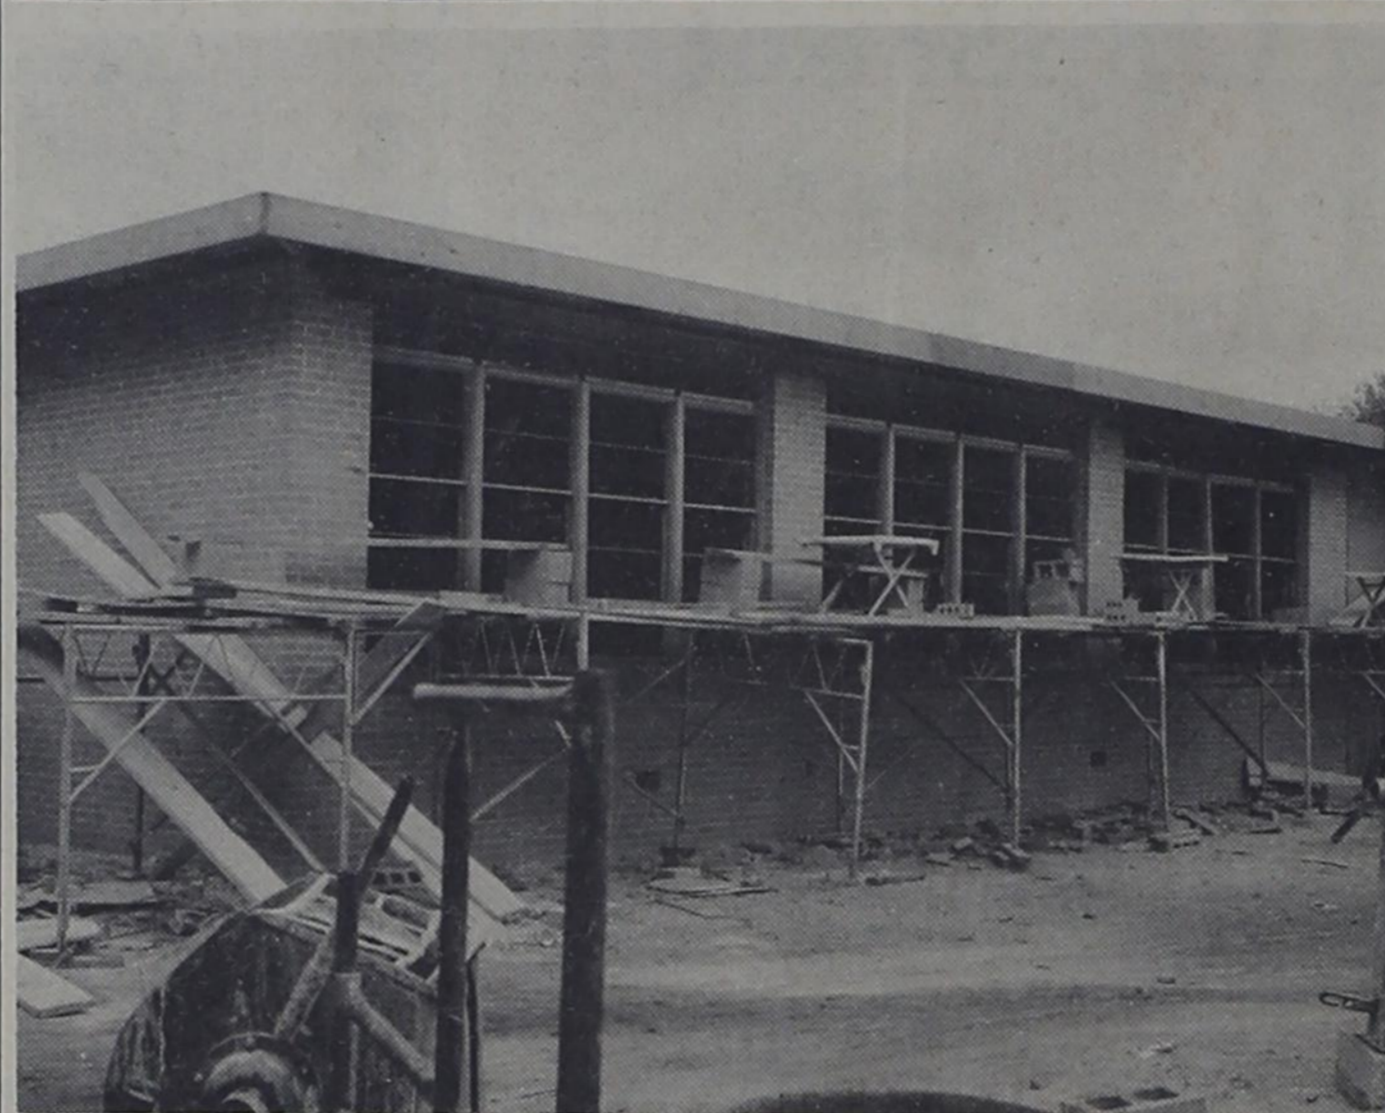

Bovina's most fun was yet to come, however, Farwell's final TD drive had elapsed over into the fourth period and the Mustangs had to hurry if they were to get back in the game.

Dean Stanberry returned the kickoff from his 20 to the 25. Three passes from there were incomplete and Shamblyn was called on to kick the ball. Shamblyn's kicked sailed high to the 40-yard line on Farwell's end of the field. Anderson knocked the ball loose from the Farwell safety man there, recovered the fumble and Bovina had a first down at that point.

With all of the backs picking up short yardage plus a nine-yard, Anderson-Rundell pass, the Ponies went to the one-yard line before losing the ball on downs as the Farwell defense refused to let its goal line be crossed.

In the closing seconds, the Mustangs got inside Farwell's 20 again but were unable to cross the double stripe.

Statistics table comparing Bovina and Farwell stats: First downs, Yards gained rushing, Passes attempted, Passes completed, Yards gained passing, Total offense, Passes intercepted, Number of punts, Punt average, Number of fumbles, Opponent's fumbles recovered, Number of penalties, Yards penalized.

CONSTRUCTION PROGRESS -- Outside walls of the new high school wing have been completed as the school's \$200,000 expansion program is reaching the stage where progress is more evident. School officials hope this portion, as well as additional classrooms for grade school, will be ready for use shortly after the first of the year.

Blade Sawdust

By Sue Moten

We have always thought Goldwater inconsistent, and he gets more so everyday.

It seems he is against all the money and time spent on missiles and unmanned craft, is for abolishing the draft and at the same time wants more manned airplanes. Somewhere this doesn't add up. We also noted that his father was a registered Democrat until this year. No wonder he is confused. People must be in the habit of changing in mid-stream in his family.

The new swing toward smaller bicycles seems to have hit like a plague. Even to the effect that one girl is trying to sell her bike in order to get one of the new ones with the long saddle type seat.

Jean Wiseman had quite an experience recently. It seems she found a snake approximately three feet long in her cabinet. Now if this isn't enough to keep someone out of the kitchen and from having to cook we don't know what it takes. According to the story, Jean couldn't find out where the snake came in. This, too, would have some effect on the sleep one gets at night.

Friday's ballgame found everyone scurrying for coats and blankets to really prepare for the season opener. Usually the first game weather is rather warm and a light sweater is all one needs. However, Friday, one needed warm clothing and a thermos of coffee.

With various clubs and civic organizations reconvening we will appreciate it if you will keep us informed of your activities and meetings. Thanks!

With the advent of stretchy clothing articles everything seems to stretch. Not only do socks, suspenders and belts stretch but now Levis, slacks and even skirts do too. We haven't tested these materials to see just how much "stretch" they have but we would be willing to bet that if one normally wears a size ten it wouldn't be a good idea to buy a size eight, hoping.

Dinner Party Honors Couple

Mr. and Mrs. E. A. Hromas were honored with a dinner party noting their Golden Wedding Anniversary recently at the home of Mr. and Mrs. Glenn Hromas.

Attending the dinner party were Mr. and Mrs. W. E. Lovell and children, Mr. and Mrs. Clinton Skaggs and children both of Fort Worth, Mr. and Mrs. Arnold Hromas and sons, Mr. and Mrs. Frank Pesch, Mr. and Mrs. Tommy Williams and daughter all of Bovina, Mr. and Mrs. J. W. Hromas and family of Levelland, Mr. and Mrs. Adolph Ender of Sagerton. Following the dinner the group visited and sang songs.

FHA Girls Plan Breakfast

Bovina FHA girls plan a kidnap breakfast for members and new members in the near future at Homemaking cottage.

Brenda Pruitt, reporter for the club, announces that the breakfast will be soon and that girls should be prepared for the surprise affair.

Club Meets In Ford Home

Mrs. Lanham Ford entertained several women with an afternoon of bridge Wednesday at her home.

Mrs. Nicky Foster won high and Mrs. Don Owens won the traveling prize.

Refreshments of chips, dips, cake, coffee, tea, soft drinks, nuts and candy were served to the group during the afternoon.

Attending were Mrs. Erith Hawkins, Mrs. Kent Glasscock, Mrs. Glenn Hromas, Mrs. Scoot Guber, Mrs. Nicky Foster, Mrs. Don Owens, Mrs. Bob McMeans and the hostess.

Visitors In Turner Home

Visiting in the home of Mr. and Mrs. George Turner are her sisters, Mrs. Hetty Brown of Oklahoma City and Mrs. Minnie Nelson of Clovis. Also spending Monday night in their home was A. R. Brown of Douglas, Ariz.

Girl Born To Magnesses

Mr. and Mrs. Cary Joe Magness of Lubbock are parents of a baby girl born Saturday at a Lubbock hospital.

The new arrival was named Teresa Ann. She weighed six pounds and four ounces.

Grandparents are Mr. and Mrs. Buck Lloyd of Bovina and Mr. and Mrs. Clyde Magness of Farwell.

Of Interest To THE WOMEN

Anniversary Celebration Fetes Mr. And Mrs. E. A. Hromas

Mr. and Mrs. E. A. Hromas celebrated their Golden Wedding Anniversary recently with a reception and open house at the home of their son and his family, Mr. and Mrs. Arnold Hromas of Bovina.

Hosting the courtesy were their three children and families, Mr. and Mrs. W. E. Lovell, Bill and Judith Ann of Fort Worth; Mr. and Mrs. Clinton Skaggs, Craig and Randal also of Fort Worth; and Mr. and Mrs. Arnold Hromas, Galen and Bradley of Bovina.

Co-hosting the occasion were Mr. and Mrs. Lewis Pesch of Floydada, Mr. and Mrs. C. G. Hromas of Farwell and Mr. and Mrs. Cecil Rundell of Muleshoe.

Mr. and Mrs. Hromas were married in Albany in 1914. They made their home at Moran for four years and at Willspoint for two years. They moved to Parmer County in 1919 and lived in Farwell and the Oklahoma Lane community for many years. They moved to Bovina in 1953 and have made their home here since that time.

Helping receive guests along with the family at the reception were Mr. and Mrs. Wendol Christian.

Mr. and Mrs. Glenn Hromas showed guests the gifts displayed and the younger grandsons, Bradley Hromas, Craig and Randal Skaggs ushered guests through the reception line.

Mrs. Lewis Pesch presided at the guest registry.

The reception table was laid with a white lace cloth over gold and centered with an artificial arrangement of gold and

yellow mums intermingled with golden wheat and other flowers, flanked by gold candles in crystal holders. The white cake was decorated with gold, touches of green and bridal wreath. Gold party punch and mixed nuts were served to guests. The table was appointed with crystal and silver.

Presiding at the serving table were Mrs. Frank Pesch, Miss Judy Lovell, Mrs. C. G. Hromas, Miss Sandra Rundell, Mrs. Cecil Rundell. Also assisting them were Mr. and Mrs. Frank Edwards and Cecil Rundell.

Ushering guests to their places were Bill Lovell and Galen Hromas, grandsons to the couple.

During the afternoon entertainment was provided by Mrs. Harold Hawkins, Mrs. J. C. Boone and Mrs. Harold Carpenter. They sang selections and were accompanied by Harold Carpenter on the banjo.

Mrs. Hawkins was dressed in a man's costume of black top hat and tails dating 50 years ago and the women wore traditional dresses dating of the same period. The trio rode a bicycle-bull-for-two and sang the song by the same name.

Later in the afternoon the group including the honorees sang songs.

Mrs. Hromas complimented her blue dress with a double orchid corsage of gold presented to her by the family and other members of the house-party were gold bougainvees and orchid corsages.

Photographing the occasion were friends, Charlie Hromas, Clinton Skaggs and Mrs. J. C. Boone.

Out of town guests at the courtesy were Mr. and Mrs. Adolph Ender of Sagerton, sister and brother-in-law to Mrs. Hromas, Mr. and Mrs. H. L. Lovell, Bebe and H. L. of Water Valley, Mr. and Mrs. H. C. Atkins of Clovis, Jack Roach of Oklahoma Lane, Mr. and Mrs. Chuck Caldwell of Midland, Mr. and Mrs. E. A. Berry of Portales; Mrs. Millard Stanley, Mr. and Mrs. W. C. Sparks, Mr. and Mrs. H. L. Tidenberg, James Berry, Mr. and Mrs. J. C. Boone and granddaughter, Jai Freeman, and Mrs. Terry Capreter all of Clovis.

Also Mr. and Mrs. C. C. Christian, Mrs. Sterlin Billington, John West, Raymond Martin, Ann Smith, W. N. Foster, Mr. and Mrs. Joe McWilliams, Mr. and Mrs. Mike McManigal and Kent and Mr. and Mrs. L. L. Norton all of Farwell.

Others included Mr. and Mrs. D. W. Carpenter, Mr. and Mrs. H. W. Carpenter and Richard, Gwen, LaNelle, Loy and Tammy Christian, Mr. and Mrs. Ponce Billingsley, Mr. and Mrs. J. L. Gober, Mr. and Mrs. Clyde Perkins, all of Oklahoma Lane, Mr. and Mrs. D. H. Carson of Friona, Mr. and Mrs. Joe W. Hromas, Sherri, Larry, Lynetta and Kevin of Levelland and

Mr. and Mrs. W. C. Hromas of Hereford.

Approximately 175 guests registered at the courtesy honoring the couple.

Following the reception relatives and members of the house-party were feted with a salad supper at the Arnold Hromas home.

Unable to attend the celebration for her grandparents was Mrs. Jerry Wilburn and family of Madrid, Spain.

Thrifty Club Meets In Grissom Home

Highlighting Thrifty Club meeting Monday was the presentation of a farewell gift to Mrs. C. R. Brandon, who is moving to Hereford.

The group met in the home of Mrs. L. M. Grissom. Ladies spent the afternoon embroidering for the hostess. Refreshments of homemade ice cream, ice tea and cake were served to guests.

Those attending were Mrs. H. H. Kelso, Mrs. C. R. Brandon, Mrs. Earl Ware, Mrs. J. D. Stevens, Mrs. P. O. Dixon, Mrs. G. A. Bandy, Mrs. Wilbur Charles and the hostesses, Mrs. L. M. Grissom and Miss Lola Grissom.

Shower To Fete Recent Bride

Mrs. Olen Johnston will be honored with a bridal shower Friday, September 18, in fellowship hall of Bovina Church of Christ.

The come and go courtesy will be between the hours three and five p.m.

Friends of the couple are cordially invited.

Sewing Club Plans Party

Mrs. Jesse Sisco hosted Good Neighbor Sewing Club at her home Friday.

During a short business session the women decided to host a Stanley party at their next meeting with proceeds going to their annual project, Girls Town.

Special guests for the meeting were Mrs. Don Billington and Mrs. Everet McCormick of Clovis.

Members present were Mrs. W. W. Wilcox, Mrs. T. J. Hopfinger, Mrs. Mable Newberry and Mrs. Sisco.

H. H. Kelso Hospitalized

H. H. Kelso is hospitalized at a Lubbock Hospital. He is reported to be improving.

CLUB LUNCHEON. . . Members of Bovina Woman's Study Club open the year with a luncheon meeting at Bovina Restaurant. (Photo by D. R. Bushnell)

Study Club Hears District President

Mrs. Robert Tipps, president of Caprock District of Federated Women's Clubs, spoke to Bovina Woman's Study Club Thursday at a luncheon meeting at Bovina Restaurant.

Mrs. Tipps is from Denver City. She spoke on the "American Clubwoman."

Two new members were accepted into the club. They are Mrs. Bob Estes and Mrs. D. R. Bushnell.

Yearbooks were given to members by program chairman, Mrs. Earl Stevenson. Members present were Mrs.

Stevenson, Mrs. Jesse Walling, Mrs. J. R. Caldwell, Mrs. Clarence Jones, Mrs. A. E. Crump, Mrs. Billie Sudderth, Mrs. Jack Clayton, Mrs. Ovid Lawlis, Mrs. Rouel Barron, Mrs. I. W. Quikkel, Mrs. Earl Richards, Mrs. Buck Ellison, Mrs. H. D. Bradshaw, Mrs. Reagan Looney, Mrs. H. L. Ivy and the special guest, Mrs. Tipps.

Guild Has Salad Supper

Wesleyan Service Guild of Methodist Church opened its season with a salad supper Tuesday evening at church.

Table decorations carried out the theme "A New Age Opens New Doors."

Mrs. Vernon Estes presented a preview of the study for October and Mrs. Margaret Caldwell gave a devotional entitled "Our Hands and Christ's Hands."

Mrs. Bedford Caldwell sang, "He'll Understand and Say Well Done."

Hosting the salad supper were Mrs. W. E. Williams, Mrs. Bedford Caldwell, Mrs. Margaret Caldwell and Miss Rita Caldwell.

Guests present were Mrs. Otis Spears, Mrs. Robert Kidd, Mrs. Victor Ward, Mrs. C. O. Edens, Mrs. Dick Dobbs, Mrs. Earl Ware and Rev. Harold Morris.

Other members attending than those mentioned were Mrs. Earl Stevenson, Mrs. Jimmy Charles, Mrs. Edward Isaac, and Mrs. Harold Morris.

Bridge Club Opens With Couples Party

Thursday Afternoon Bridge Club members entertained their husbands with a couples party Thursday evening at the home of Mr. and Mrs. Don Sides.

A buffet supper consisting of finger sandwiches, chips, relishes, assorted cakes, jello dessert, soft drinks, tea, lemonade and coffee.

Vernon Estes and Mrs. Jay Sherrill won high prizes for the evening and Mrs. Durward Bell and R. E. Wilson won low. Traveling prizes went to Mrs. Johnie Horn and Jim Hemke.

Couples attending were Mr. and Mrs. Jim Hemke, Mr. and Mrs. R. E. Wilson, Mr. and Mrs. A. M. Wilson, Mr. and Mrs. Jay Sherrill, Mr. and Mrs. Durward Bell, Mr. and Mrs. Vernon Estes, Mr. and Mrs. Johnie Horn, Mr. and Mrs. Bedford Caldwell, Mr. and Mrs. Dean McCallum and Mr. and Mrs. Vernon Willard.

Hosting the evening were Mr. and Mrs. Jimmy Charles and Mr. and Mrs. Sides.

Sub-District MYF Meet Here

A total of 80 youth and sponsors registered at Sub-District meeting of Methodist Youth Fellowship Sunday afternoon at Bovina Methodist Church.

Theme for the program was "God Is Love."

Gary Beauchamp presented a talk on the youth convocation which he attended at Purdue University this summer.

Karen Estes and Mrs. Leon Ware gave a devotional on the things studied at the convocation.

Following the program refreshments were served to the group by Mr. and Mrs. Thomas Beauchamp, Mrs. Bedford Caldwell and Mrs. Jimmy Charles.

"Pioneers In Bovina"

YOU DON'T NEED TO PAINT AGAIN until you want to change colors

because SPRED SATIN with poly-AM gives you Stay-Fresh beauty that lasts!

• New wonder ingredient—poly-AM—makes SPRED SATIN outperform all other interior paints because it dries as 2 paint films in 1 with colors that stay bright—keep your rooms new-looking until you want to change the color scheme. Colors are bound in the 100% latex film by an interlocking film of poly-AM which makes SPRED SATIN so tough, so durable that it can be washed repeatedly without damage or fading.

Giant 4" color chips help you choose your favorites from over 170 dramatic SPRED SATIN decorator colors . . . make it easy to match floor coverings, fabrics and other furnishings.

SPRED SATIN flows on twice as fast with brush or roller . . . dries in only 20 minutes free from annoying painty odor . . . and water's all you need to clean painting tools and splatters.

Every gallon of SPRED SATIN contains over 4 lbs. of liquid latex. Competitive latex paints contain only a fraction of this amount. The result: superior performance with SPRED SATIN.

Grand Prize Consists Of Expense-Paid ★ Trip For Two To Cotton Bowl In Dallas, January 1, 1965

You Don't Have To Be A Football Expert

Contest Rules

1. There are 10 high school and/or college football games listed in ads on this page.
2. Pick the team you think will win in each game and place the WINNER'S NAME beside same advertiser's name in the contest entry blank at bottom right of this ad.
3. Pick the score of the tie breaker game and place your guess in the appropriate blanks on the entry. The tie breaker game will not count on your won-lost record. It will be used only in case of a tie.
4. Winners will be named by the Monday following the contest deadline each Friday and they will be named by Saturday, if possible. Cash prizes of \$5 for first, \$3 for second, and third prize of \$1 will be awarded.
5. Tabulations of individual entrants will be kept all season and at the end of the season a grand prize winner will be named. Grand prize winner will receive two free tickets to Cotton Bowl games plus hotel, food and traveling expenses to Dallas and the January 1, 1965 football classic.
6. There is nothing to buy. No requirements other than to bring the entry blank, filled out, to The Blade office by 5 p. m. Friday of each week.
7. Only one entry blank may be submitted per individual. If more than one blank is submitted by an individual, all will be disqualified.
8. Tabulations will be available for public inspection. Members of Blade staff will serve as judges for contest.
9. Everyone, except employees of this newspaper and their families, is eligible to enter.

- ★ Expenses Include 2 Tickets To Cotton Bowl Game, Paid Hotel Reservations For 2 And \$55. For Food And Traveling Expenses

LEGAL NOTICE
THE STATE OF TEXAS

TO: Loodema D. Hewett, L. D. Hewett, Joseph De Oliviera, Juan Jose De Oliviera, Joseita De Oliviera, Salome Madrid De Oliviera, Rhea M. De Oliviera, Paul F. De Oliviera, R. E. Dunlap, and the unknown wife or wives and husband or husbands of each of the above named parties, each of whom is unknown to Plaintiff, and if any of the above named parties is deceased, then his unknown heirs, assigns and legal representatives, all of whom are unknown, and all of whose addresses are unknown, and the unknown persons owning, having or claiming any interest or lien of any nature in or to the land and property hereinafter described, and all of the unknown heirs, assigns, and legal representatives of all of said above named persons, Defendants,
GREETING:

You are hereby commanded to appear by filing a written answer to Plaintiff's Petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of the issuance of this Citation, same being Monday, the 5th day of October, A.D. 1964, in this cause, Numbered 2498 on the docket of said court, and styled:

SAM ALDRIDGE, Plaintiff vs LOODEMA D. HEWETT, ET AL, Defendants.

The names of the parties to the cause are as follows: Sam Aldridge is Plaintiff; and Loodema D. Hewett, L. D. Hewett, Joseph De Oliviera, Juan Jose De Oliviera, Joseita De Oliviera, Salome Madrid De Oliviera, Rhea M. De Oliviera, Paul F. De Oliviera, R. E. Dunlap, and the unknown wife or wives and husband or husbands of each of the above named parties, each of whom is unknown to Plaintiff, and if any of the above named parties is deceased, then his unknown heirs, assigns and legal representatives, all of whom are unknown, and all of whose addresses are unknown, and the unknown persons owning, having or claiming any interest or lien of any nature in or to the land and property hereinafter described, and all of the unknown heirs, assigns and legal representatives of all of said above named persons, are Defendants.

A brief statement of the nature of this suit is as follows, to-wit:

Plaintiff sues for title to and possession of the following described land, to-wit:

All of Garden Lots 4 and 5, of Section 31, Township 9 South, Range 1 East, of a Capitol Syndicate Subdivision in Farmer County, Texas, having filed a petition alleging suit in trespass to try title in the above case, alleging ownership and title to said land and claiming title to said land by virtue of the 10-year statute of limitations, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within 90 days after the date of its issuance it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law and make due return as the law directs.

ISSUED AND GIVEN under my

Whittlin'--

dozen different organizations permit him to hang his hat in his own house prior to midnight.

Consider him! His security is in the Lord, for surely he has little of it on earth. He has seven bosses besides his pupils' mothers. At the end of his contract, having endured tribulations which the Lord vested neither on Pharaoh or Job, if he has not offended a majority of his board, the P. T. A., band mothers, civic clubs and class sponsors, and if he has produced winning football teams, kept peace and harmony among a score of highly individualistic teachers and bought not more than ten dollars worth of merchandise from non-board members, he is granted the privilege of serving another sentence of from one to three years, pending the abstinence from building programs and consolidation.

During his sleeping hours he dreams of taxes, whooping cough, influenza and cotton picking, all of which affect his A. D. A. He mutters in his sleep and his nightmares are not ordinary. He dreams not of the devil, but of auditors and reports, buses and buildings, taxes and economic index, teacher placement, and the fury of mothers whose children are

hand and the seal of said Court at office in Farwell, Texas, this the 20 day of August, A.D. 1964.

ATTEST: Dorothy Quickel, District Clerk, Farmer County, Texas.

Party Honors Jimmy Taylor
Jimmy Taylor, son of Mr. and Mrs. Jimmy Taylor, celebrated his birthday with a party at his home recently.

Favors of hats, blowouts and masks were give to youngsters. Traditional birthday cake was decorated with a cowboy and Indian theme. Refreshments of cake and punch were served from cups and plates decorated with Mickey Mouse motif.

Attending were Beverly Page, Robert Haney, Ted Hopper, David Howard, Mrs. James Taylor, Mrs. Hazel McKinney of Amarillo, Peggy Howard of Friona and Mrs. Len Edwards.

not promoted.
Consider the Superintendent! Surely he needs the patience of Job, the wisdom of Solomon, the courage of Peter after the third crow of the rooster, and the cast iron gall of a mountain jackass.
He will never be reconciled but resigned to people asking, "Where are you going to spend your three months vacation?" This makes his temperature soar higher than the mercury in Hades.
Yet considering the trials, troubles, vexations and griefs that come, the longness of his days, he would not exchange places with anyone on this earth. He has a hand in the most inspiring task of all -- the Molding of Tomorrow's Citizens and the Making of America's Strength.

Big travel bargain for cities along Santa Fe

Off-season
round trip fares
cut approximately
20%
Sept. 15, 1964 to April 30, 1965

It's Chico Bargain Fare time again on the Santa Fe,--from September 15, 1964 to April 30, 1965.
For example, a regular round-trip ticket costing \$100 will be sold at the off-season bargain fare of \$80. Round-trips costing \$75 now will be only \$60, and similar reductions will apply for round-trip tickets from all stations except for local trips within the State of California.
No matter where you travel on Santa Fe trains round-trip bargain fares will save you approximately 20%. Tickets on sale every day with a return limit of 30 days. Yes, bargain fares apply for both round-trip coach and first class tickets.
Now you can leave the car at home and save money traveling by Santa Fe.

See the Santa Fe Agent
in your home town for
complete information

THE HIGH PLAINS FARM AND HOME

Open House Set At Texas' First Beet Sugar Refinery

Dedication and public tours of the first beet sugar refinery in Texas, the big Holly Sugar Corporation facility at Hereford, have been set for the weekend of Sept. 19 and 20, it was announced today by Holly President Dennis O'Rourke.

Highlight of the weekend will be the principal dedicatory address by Governor John Connally at public ceremonies scheduled to begin at 10:30 a. m. Saturday, Sept. 19, at the refinery.

Immediately following the dedication program, conducted tours of the plant will start and continue through Saturday afternoon and again on Sunday

from 10 a. m. until 4 p. m. The public will be able to view some of the world's biggest and latest sugar-making equipment, and will see a number of the principal stations along the process route from the start with sugar beet roots to the point at which pure sugar crystals will emerge.

Actual sugar-making operations at Hereford are not scheduled to begin until harvest of the region's promising sugar beet crop begins on Oct. 1, but the public will get a view of the tremendous array of specialized machinery and equipment necessary in the processing of sugar beets and production of finished sugar.

In addition to Governor Connally, many national, state and local officials and dignitaries, including several members of Congress, have indicated they will attend the dedication.

The hour-long dedicatory ceremonies will be presided over by Mr. O'Rourke. Austin Rose, Jr., President of the Texas Sugar Beet Growers' Association, Inc. and President of the Deaf Smith County Chamber of Commerce at Hereford, will speak in behalf of all the sugar beet farmers who will

supply beets to the Hereford refinery and for the business people of Hereford.

Mayor Ray Cowsert, of Hereford, will welcome the visitors. Music for the program will be furnished by the Whiteface Band of the Hereford Independent School District. Invocation will be by The Reverend Mr. Herschel L. Thurston, Pastor of the First Methodist Church of Hereford, and Benediction by Father Cletus McGorry, Pastor of St. Anthony's Church, Hereford. A color guard will be furnished by the Hereford Post of the American Legion.

Souvenirs of the dedication, including special gift packages of Holly sugar, will be given to those attending.

Opening of the imposing plant

complex will mark the culmination of several years of planning and effort to bring this new agricultural-industrial enterprise to Texas. The big plant has been named the Merrill E. Shoup plant in honor of the late Chairman of the Board of Holly Sugar Corporation.

Ladies planning to tour the big new Holly Sugar Corporation refinery here are urged to be prepared with low-heel or flat sole shoes for their trip through the plant.

"There are some open gratings and metal stairways on the tour route," plant officials announced, "and ladies will be much more comfortable in walking shoes than in high heels."

NOTICE OF SALE
The C. H. Fallwell Estate will sell for cash all of Lots 21, 22, 23 and 24 in Block 61, of the Original town of Friona, Parmer County, Texas, on Friday, September 18th, 1964. Sealed bids will be received at the office of Sheehan and Conner, 715 Main Street, P. O. Box 997, Friona, Texas, until 2:30 P.M. September 18th, 1964. The C. H. Fallwell Estate reserves the right to reject any and all bids.

AMMO NOTES
By Bill Bennett, Agronomist

The fertilizer industry has made a lot of progress in improving fertilizers. Dusty, caked fertilizer materials are no longer common. Different types and kinds of fertilizer are becoming available. Further development will be made in 3 types of fertilizers - gases, liquids and solids.

One relatively new type of phosphorus fertilizer material has been developed called superphosphoric acid. This material, which contains 76 to 80% P₂O₅, is being used to make

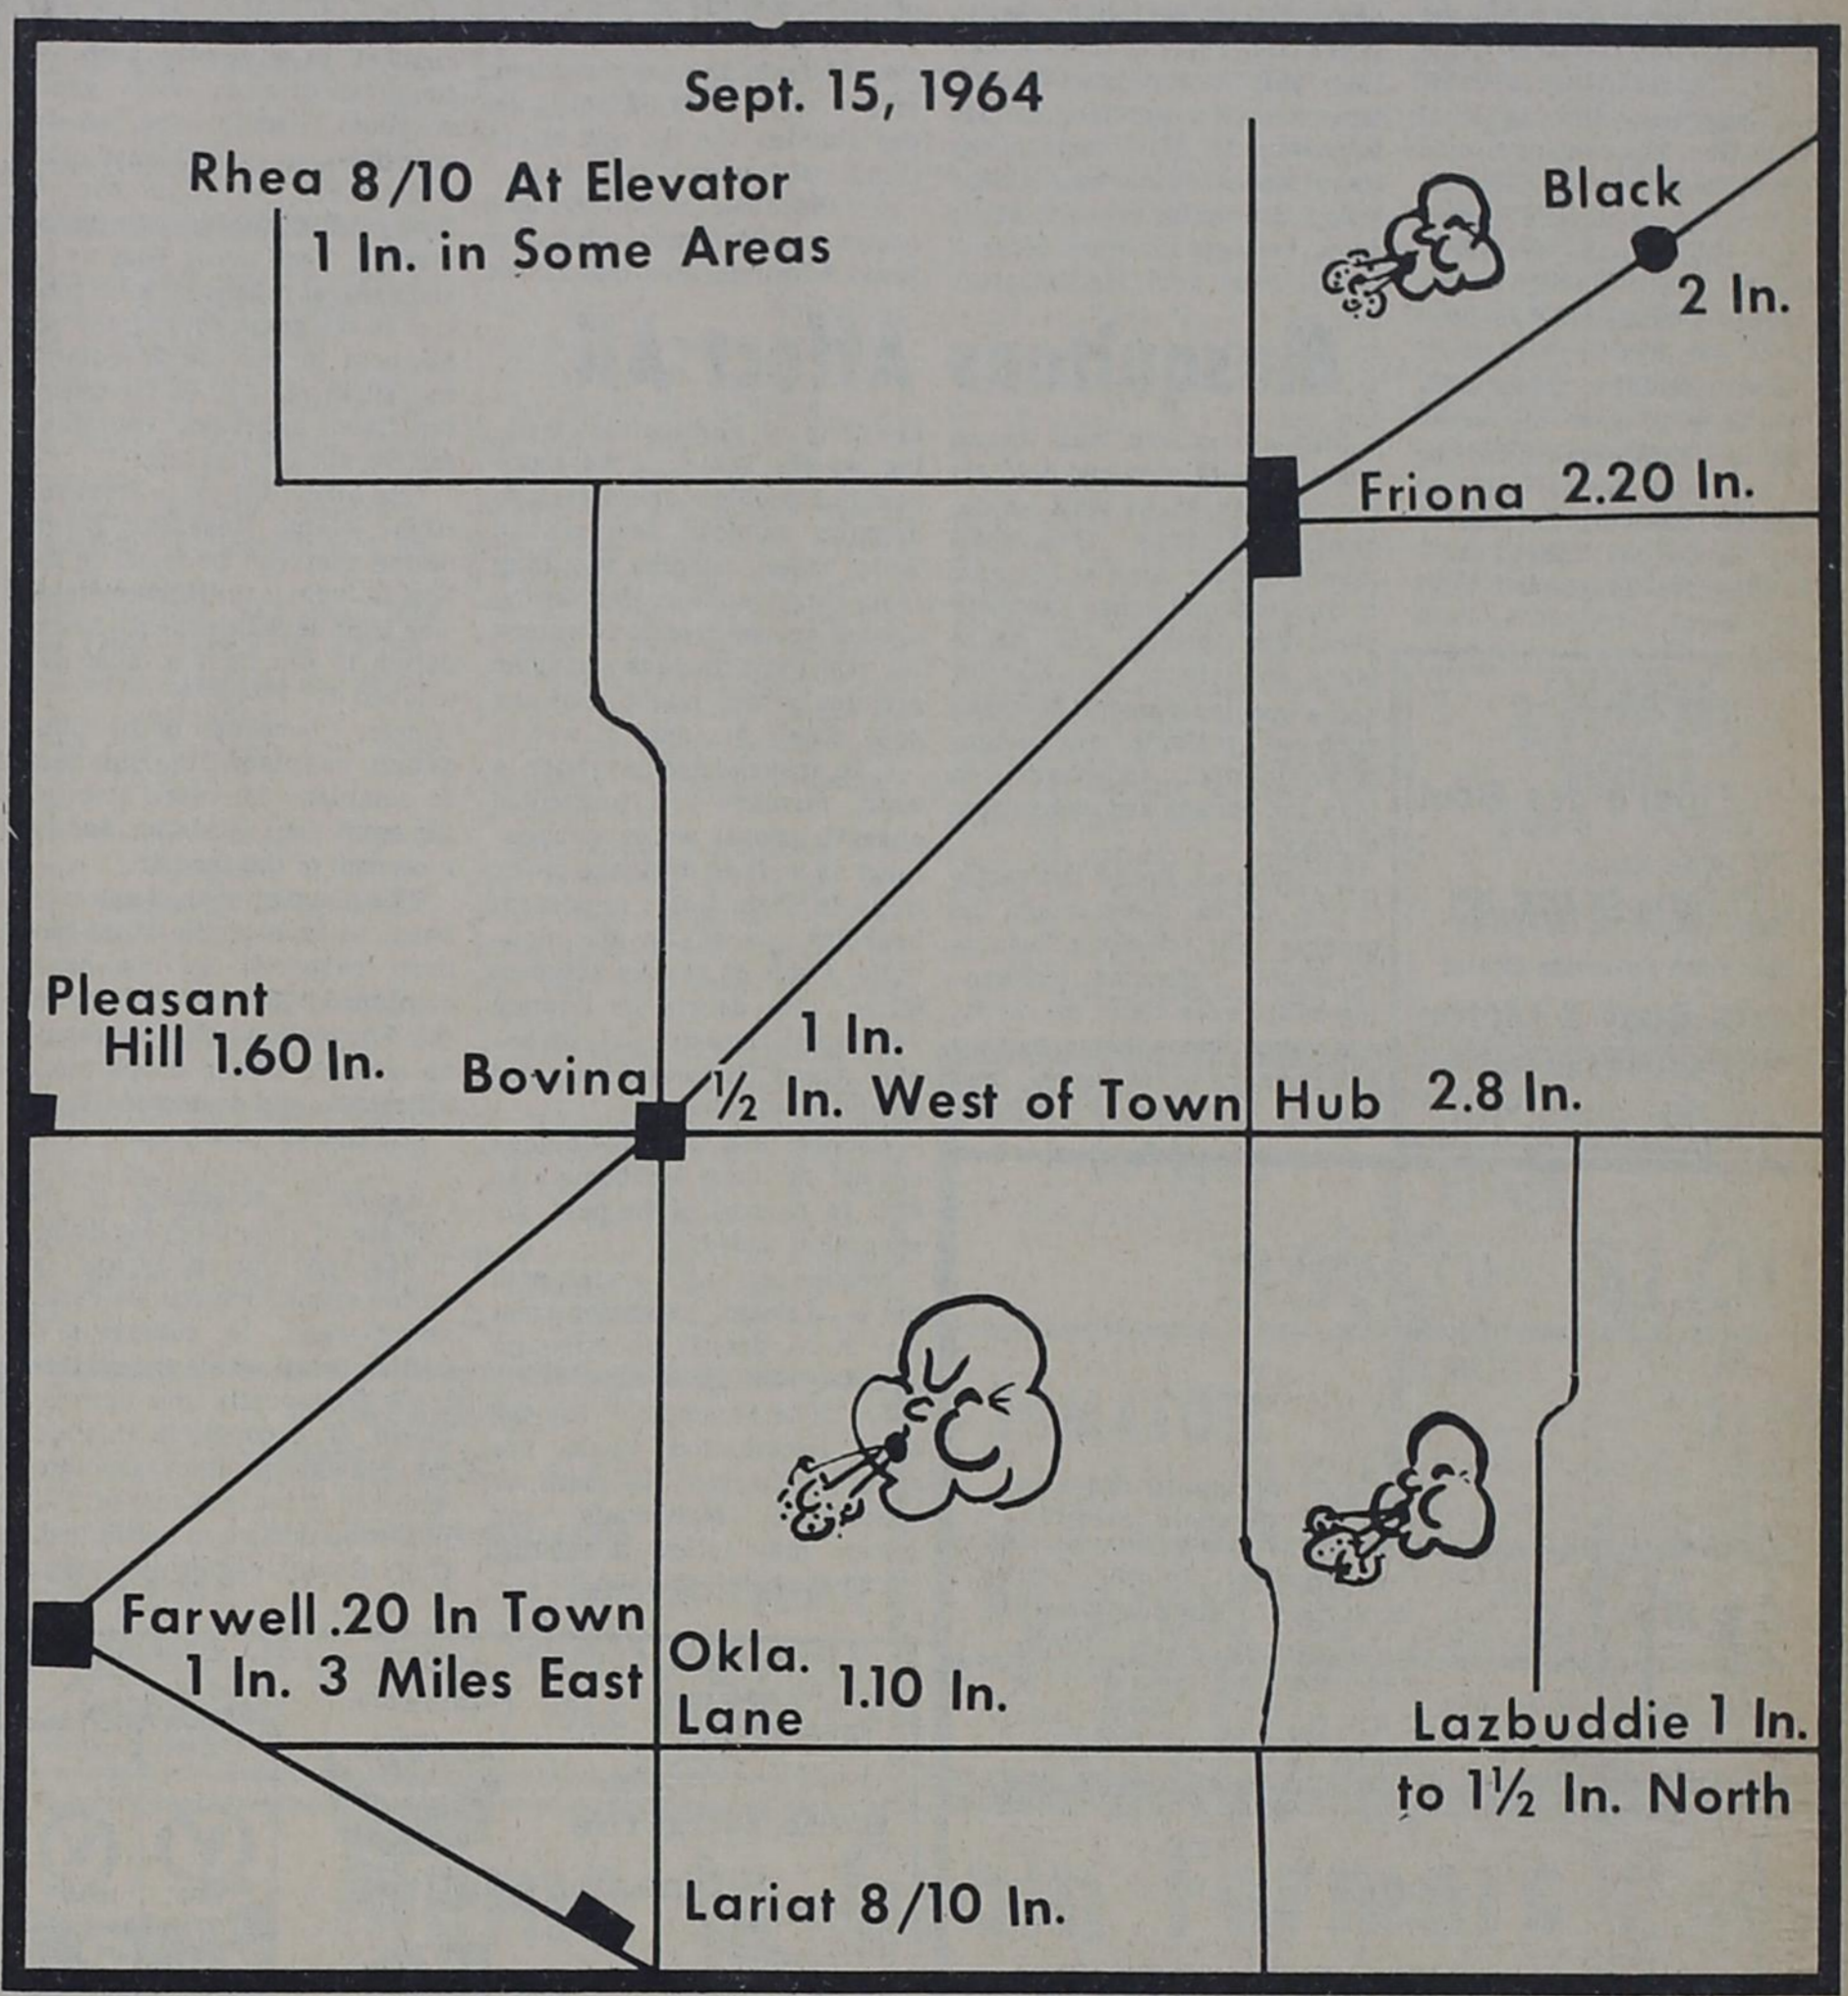

higher analysis liquid and dry fertilizers. With the advent of this material, tow phosphorus terms will become common. They are orthophosphate and polyphosphate. Orthophosphate has only one phosphorus atom per molecule. Polyphosphates are compounds in which the molecules contain two or more phosphorus atoms in a chain.

The orthophosphate is the type of phosphorus present in the phosphorus materials com-

Wheat Program Signup Is Going Slowly

There have only been a little over 400 wheat farms signed up for the 1965 Wheat Program as of this date, (September 15, 1964). This is approximately one-third of the wheat farms in Parmer County.

It is felt that a number of producers are forgetting that the signup period is now open and that it closes on October 2, 1964. They may also be forgetting the flexibility of next year's wheat and Feed Grain Programs. It is felt that many producers will want to signup in this program just for the "insurance provisions" if nothing else.

Wheat producers are to be reminded that the intention to participate which they sign by October 2, can be changed next spring during the Feed Grain signup period. But, they will have this option only if they do signup in the wheat program by October 2, 1964.

We would suggest that all wheat producers should visit their ASCS Office, at least for an explanation of the program provisions, prior to the final signup date of October 2.

There's a new kind of cotton rickrack on the market. It's a no-iron variety

PLANT X OPEN HOUSE
1 TO 5 P.M.
Saturday & Sunday, September 19-20

Be our guest for a tour of Plant X, one of the Nation's largest and most modern generating stations. You'll see how electronic computers, huge turbine-generators and steam boilers as tall as a 14 story building help to meet your needs for electric service, efficiently, economically and dependably both today and in the future.

Plant X is located 4 miles south of Earth and 12 miles north of Amherst on Farm to Market Road 1055.

Flame Cultivation Works For Hinkle

Flame cultivation as a means of weed control has made the full cycle, from research to the farmer, Harold Hinkle of Plainview, working with his local LPG dealer, has worked toward complete weed control using the research information developed by the High Plains Research Foundation. Now the High Plains Research Foundation has been able to see research go from the experimental to the applied.

Hinkle, a 26 year old farmer located 9 miles north and one and one half miles west of Plainview, has been flaming his crops for the past three years. His objective is toward total weed control.

Harold has been farming the same quarter section for seven years and reports that he has been able to cut his weed control costs in cotton from \$20.00 per acre to \$8.97 using both flame and hand hoeing. Hinkle states that on his present cotton crop, his cost for weed control is \$5.71 per acre for hoe labor

and with two flaming, the first of which cost him \$0.36 per acre and the second cost him \$0.90, Harold feels that he must then add a cost of \$1.00 per acre per flaming for the cost of his flame cultivator.

On the other crops that are grown on his farm, the cost breakdown indicates that it cost

\$10.00 to \$12.00 per acre for weed control with conventional tillage tools as compared with a cost of \$1.45 lay-by with his flame cultivator. With grain sorghum, Hinkle, who did not practice any type of weed control stated, "when I did not use flame, all I had was a grown up mess!" Now, using heat as an economical means of weed control in the grain sorghum crop, his cost is: for the first flaming \$0.45 plus \$1.00 for use of the flame cultivator and \$0.81 for the second flaming.

One other full cycle from the High Plains Research Foundation that can be found on the Hinkle farm is the Hinn soybean. The Hinn developed by the Foundation is the first soybean developed for this area of Texas. Hinkle, a supporter of the Foundation, has planted the Hinn bean to complete one more step going from the Foundation and its research to the farmer.

The planting of the Hinn soybean, as an example of the new crop research for the area, combined with other research at the Foundation helps the farmer produce better crops more efficiently and economically.

Mosquitoes Affect All

Mosquitoes are well known pests to both man and animals in rural areas as well as the cities and towns. They spoil man's leisure time at home or in recreational areas and their persistent attack can cause farm animals to lose weight. Some species transmit diseases such as malaria and yellow fever to man, encephalitis to man and horses and heartworm to dogs.

Mosquitoes breed primarily in the spring, summer and fall months, says Weldon Newton, assistant Extension entomologist at Texas A&M University. Newton urges home owners and farmers to take every precaution to prevent mosquito

breeding by eliminating standing water. Some of the more common problem areas include dripping outdoor faucets and leaky pipes, puddles resulting from evaporative cooler drainage or around livestock watering tanks and tin cans and other articles which might trap and hold small amounts of water.

In areas where irrigation is used, farmers are warned to observe proper water management as well as drainage practices in their fields to prevent breeding places for the mosquito. Pools of shallow stagnant water with debris or floating vegetation are extremely favorable areas for mosquitoes and should be eliminated.

Proper use of insecticides around the farm and home also aids in control of the pest, the specialist added.

Newton suggests a visit with the local county Extension agent for more details on mosquito control. Ask for a copy of L-625, "The Mosquito." It contains information of the life cycle of the pest and outlines procedures individuals and groups may follow in fighting outbreaks of mosquitoes.

Research scientists in the College of Veterinary Medicine, Texas A&M University, say that coffee senna, sometimes called styptic-weed, is poisonous to cattle, sheep, goats and rabbits. It is apparently the primary cause of a condition in which muscle degeneration associated with red urine is observed. This condition occurs in cattle in the Gulf Coast region of Texas.

As of this writing (September 11) we are only a couple of days away from seeing the first spray plane taking the air in the High Plains boll weevil control program. The first plane will be the forerunner of 12 others on hand to spray some 200,000 acres of area cotton from three to four times between now and frost with technical malathion -- a chemical deadly to the boll weevil and offering practically no danger to people, pets or livestock.

The beginning of the actual spray program will bring a great easement to the minds of the hundreds and hundreds of High Plains residents who have toiled so long and so faithfully to lay the plans and gather up the loose ends that, when tied together, would make the program possible. The entire Plains Cotton Growers staff has been so caught up in the feverish activity necessary to thwart a terrible fate for the Plains that it is possible we have failed in our duty to give full credit to the many, many individuals and groups that have given so unstintingly of their time for the program, if so, such failure has been entirely unintentional.

The Texas Agricultural Extension Service, through its County Agents, has certainly done yeoman service in helping tell the general public what the program was all about and why it is so vital to our cotton industry. District Agent W. O. (Bud) Jones, did a fine job of coordinating the County Agents work until his retirement August 31, and was vigorously succeeded by Billy C. Gunter.

Teachers of Vocational Agriculture, often working hand in glove with Young Farmer Organizations, have also been a great help in carrying the boll weevil story to the people. Without a full understanding on the part of the public concerning such phases of the program as the 50 cent compress deduction; the safety of the chemical to be used; the seriousness of the weevil problem to farmer and businessman alike, and the necessity for obtaining spray permits from farmers in the control zone -- without this -- that first plane might never have left the ground. Walter Labay, as Area Supervisor of Vocational Agriculture teachers, has earned our profound respect.

And speaking of the 50 cent compress deduction, the High Plains compress industry, by agreeing to accept this unpleasant but vital chore, has earned the appreciation of all on the Plains who have a stake in cotton's future -- and who on the Plains hasn't such a stake.

The job of actually getting signatures of farmers in the seven-county control zone -- some 3,500 of them -- was assigned to the Texas Department of Agriculture and responsibly carried through under the direction of Commissioner of Agriculture John C. White, his assistant Charlie Chapman, Fred Roy of the Lubbock office, and others.

The very base on which the whole program is founded begins with the research work carried out by Texas A&M and the South Plains Research and Extension Center. Charles Fisher, Superintendent, and W. L. Owen, entomologist at the Center, along with their associates, are the names that stand out here. From A&M the Plains is indebted to Dr. J. C. Gaines, Head of that school's Entomology Department, Dr. Perry L. Adkisson of the same department, and Dr. R. E. Patterson, A&M's Dean of Agriculture.

Helping to determine what research was needed and lending other valuable advice to the program has been Dr. James Brazzel of Mississippi State

College who is the virtual "father" of the diapause method on which the program depends for success; Dr. Johnny Johnston, entomologist for the National Cotton Council; Dr. Ellis Huddleston, Assistant Professor of Entomology at Texas Tech, and Dr. Gerald Thomas, Dean of Agriculture at that school; Joe Ramsey, President of Texas Aerial Applicators and many others who served on Plains Cotton Growers Technical Advisory Committee.

The Plant Pest Control Division of USDA, headed by Dr. E. D. Burgess has lent invaluable aid in support of our request for Federal matching funds and in addition has assumed the actual operation of the program. In that division of USDA and deeply involved in the details of the program are D. M. McEachern, State Supervisor; D. H. Russell, Lubbock Supervisor, and Dr. Sloan E. Jones, Director of Cotton Insects Research Branch at Beltsville, Maryland. Besides these advisory and supervisory personnel, Plant Pest Control has assigned some 30 men to this area for putting on the program.

Ralph E. Griffiths, Superintendent of the Farmers Home Administration has had a hand in pushing the program forward; Gordon Treadaway, Lubbock Attorney has lent valuable legal assistance; Byron W. Frierson, Farm Manager for the Texas Prison System made his experience with diapause control available; officers, directors and personnel of area ginners associations, oil mills, compresses, Chambers of Commerce, even women's clubs, all have made their contribution to the cause and all are greatly appreciated.

Then there are the various Plains Cotton Growers committees -- Steering, Advisory, County and Community Committees, all serving without pay or even expense money -- that have done such a marvelous job of making crucial decisions, removing obstacles to the program and bolstering the program throughout.

A complete list of the people and the organizations or the agencies and their personnel which have been so necessary to getting that first spray plane up would be almost without end. As examples, in the absence of ready funds for early season sprayings, Lubbock banks offered the short term loan of up to half a million dollars, and the offer was accepted; and news media throughout the entire 23 counties have whole-

Area Requests Ginning Laboratory

A public cotton ginning research laboratory for the High Plains region, to be operated by the U. S. Department of Agriculture, was the unanimous desire expressed by representatives of the Texas Cotton Ginners Association, the Texas Independent Ginners Association, the Plains Ginners Association, cooperative ginners of the Plains, and Plains Cotton Grower, Inc. at the meeting on September 3.

The meeting was held at the office of Plains Cotton Growers, and it was also agreed that a permanent committee of representatives from all these organizations would be appointed to work closely with the laboratory in development and execution of its program of ginning research. The complete accord was reached by those present after more detailed in-

formation had been received from the USDA concerning the operation of the proposed laboratory.

Funds for drawing up plans and specifications for such a laboratory on the High Plains were recently approved along with other research funds in the

1964-65. Agriculture Appropriations bill, but no funds have yet been appropriated for actual construction. This project is a part of the overall effort to reduce the cost of producing and processing cotton, a stated objective of the new cotton-wheat law passed this year.

Ammo Notes--

(Continued from page 1)

monly available such as 0-20-0, 0-46-0, 11-48-0, 7-21-0 and 8-24-0. Polyphosphates are present in materials in which superphosphoric acid is used such as 21-53-0 and 11-37-0.

The polyphosphates are usually higher in analysis, generally more soluble and better micronutrient carriers than orthophosphates. The polyphosphates may result in lower cost micronutrients and keep them in a more readily available form.

Plant X Open House This Weekend

Southwestern Public Service Company's Plant X, largest of the electric company's 11 generating stations, will be the scene of an Open House on Saturday and Sunday, September 19th and 20th. Plant X is located in Lamb County, four miles south of Earth on Farm Road 1055.

Visiting hours at the \$43,000,000 plant will be from 1:00 p. m. to 5:00 p. m. each day, and area residents are invited to tour the ultra-modern facility during those hours. Refreshments will be served to visitors. The largest single generating unit in service on Southwestern Public Service Company's system, a 210,000 kilowatt

machine, has just been put in service at Plant X. The fourth unit at the plant increases the capability of the station to 487,500 kilowatts. The turbine room at Plant X which houses the four generating units is more than 522 feet long. Plant operators on the early morning shifts insist that the plant is now so large that the sun rises on the east side of the building five minutes earlier than it does on the west.

Plant X features a number of installations of electronic equipment which are used to make possible the most efficient and economical generation of electric power. The plant has a central in-

formation system which provides the control room with 400 different readings from various equipment every two minutes. This information is constantly studied in order that the most efficient results can be obtained at all times.

An automatic load dispatching system is also used, which takes into account both the cost of producing the electric power and the cost of transporting it to the point of ultimate use, in order that, once again, maximum economics can be obtained.

Three times the distinction of housing what was then the largest single generating unit on Southwestern Public Service Company's system has gone to Plant X.

The original unit at the station, which went into service in 1952, was the first 50,000 kilowatt generator that the electric company installed. However, while it was still in the construction stage itself, work began on a 100,000 kilowatt machine, which went into service in 1953. The 210,000 kilowatt unit which has just gone into service makes the third "largest unit" distinction for Plant X.

Perhaps no statistic more significantly records the growth and progress of an area than the increase in the generating capability of the electric company serving a region. Certainly, only as the area it serves grows can an electric company grow.

Plant X, and Southwestern Public Service Company's 10 other major generating stations, provide dramatic evidence of the growth of the 45,000 square mile area that the electric company serves. Plant X, itself, has a generating capability that is more than four times greater than the entire company had when it took its present form in 1942, while the system capability has increased more than 11 times.

Plant X was designed and engineered and its construction supervised by Southwestern Public Service Company engineering personnel, under the direction of E. W. Robinson of Amarillo, the company's chief engineer, generating station design. All of the construction at the plant has been done by Missouri Valley Constructors of Amarillo, chief of construction.

When painting your home, always follow the sun. Paint the north side early in the morning, the east side late in the morning, the south well after noon, and the west side during the late afternoon, specialists in the Forest Products Laboratory of USDA's Forest Service advise.

On The Farm In Parmen County

BY JOE VAN ZANDT
County Agent

This weather we had last weekend was certainly an abrupt change from our hot, dry summer. It certainly slowed our maturing cotton down, which at this point is getting real important to much late cotton in the county.

The time required from white bloom to open boll averages from 50 to 65 days. The date of our first frost occurs on an average around October 20. This late cotton sure needs plenty of warm days the next month to go ahead and make.

COTTON DISEASE
We have found some cotton fields lightly infested with verticillium wilt the last 10 days. Verticillium Wilt is caused by a soil-borne fungus. The organism is generally distributed throughout the cotton belt and continues to spread into irrigated alkaline soils. Many commonly grown vegetable, ornamental, and field crops are susceptible to the disease so it should be of serious concern to all people who grow plants.

Verticillium Wilt can attack and kill cotton seedlings although the most frequently observed and most serious outbreaks occur in cotton at blossom stage and later. The first symptoms is a yellow mottling of irregular shape on lower leaves. These areas are usually bounded at first by the principal veins of the leaf. The chlorotic areas die and turn brown; newer leaves show the yellowing; lower leaves are shed; upper leaves and young squares are lost; older bolls fall; and finally the stalk dies during the course of disease development. Sometimes the roots live and sprouts emerge from the base of the plant late in the season. A cross-section of a stem reveals a dark discoloration of the vascular tissues. Scattered cotton plants may be affected in a row of healthy plants and in other cases, many plants are killed over a large area.

Control of Verticillium Wilt is difficult in fields where the fungus is established. The first consideration for control should be adoption of strict sanitation measures to prevent spread of the fungus to clean fields on diseased cotton plant material. Crop rotations with dry-fallow-deep-plowing grain sorghum or wheat--cotton will assist in reducing the disease. Certain cultural practices have influenced the severity of Verticillium Wilt. Excessive nitrogen fertilizer or inadequate potassium levels tend to increase the disease. A soil test is the best indicator of the proper fertility program if the grower uses no more nitrogen than recommended. Excessive amounts of irrigation water tend to lower soil temperatures, making the disease more damaging while losses can be reduced by having thick uniform stands of 5-7 plants per foot of row. Avoid heavy manure applications and excessive amounts of unrotted old crop trash.

No stripper type cotton varieties have satisfactory resistance.

There is no practical chemical control for Verticillium Wilt. Chemicals which eradicate the fungus generally cost too much for field scale use. In summary, a cotton producer should use extreme caution to avoid contamination of his soil with the wilt fungus. Having failed in this, losses to the disease can be reduced through crop rotation, wise use of fertilizers, good irrigation practices, and thick planting, 5 to 7 plants per foot of row.

HARVEST CHEMICALS
A meeting to discuss harvest-aid chemicals for cotton and techniques of application will be held Wednesday, September 23, at Muleshoe starting at 2:00 p. m. in the Bailey County Electric Co-Op meeting room. The affect on cotton quality, yields profitable use and preserva-

Screwworm Danger Increases

Texas farmers and ranchers should take special precautions in handling their livestock during the coming weeks to prevent new attacks by the screwworm fly.

Stepped-up vigilance by livestock producers is important, not only to protect their animals from becoming infested, but also because an impending shortage of funds for the screwworm eradication program may limit emergency control measures that can be taken.

Eradication authorities pointed out that in past years, the livestock pest has always made large, rapid gains during the fall months when wet, cool weather is extremely favorable for insect development, and an increase in livestock management practices produces an abundance of wounds attractive to the insect.

Infestations have been rare this summer, with only two dozen cases reported by livestock producers in Texas. Only one case was detected during August.

Eradication officials warned, however, that the screwworm fly can migrate great distances when conditions are favorable and failure of stock to be alert to the danger could result in a sudden explosion of cases. Infestations detected, treated and reported during the early

stages of development can be quickly and easily controlled, officials said. Eradication activities may have to be reduced because of recent action by Congress in trimming a budget request for \$5 million to carry the program through the current fiscal year. Only \$2.75 million will be made available by the federal government, and \$2.5 million of this cannot be spent unless it is matched by non-federal money.

Practically all of the \$6 million contributed voluntarily by farmers and ranchers and appropriated by the State of Texas will be expended by Dec. 1, campaign authorities said.

The Southwest Animal Health Research Foundation, which spearheaded the producer fund drive, along with industry and government leaders, is studying ways of getting the program out of its financial straits. In the meantime livestockmen--through careful management of their animals--can prevent an

upsurge in screwworm cases that could cause even more difficulties for the eradication project.

Crossbred calves have better preweaning records than straightbreds in first of a 3-phase experiment to evaluate crossbred vigor in beef cattle. Crossbred calves excelled in birth weight, average daily gain, weaning weight at 200 days and weaning conformation score. Scientists of USDA and Nebraska Agricultural Experiment Station are using Angus, Hereford and Shorthorn breeds in these studies.

Production Credit Executives To Attend Lubbock Conference

Seven executives of the Plainview Production Credit Association will attend a regional group conference of directors and general managers of the agricultural financing institutions, to be held in Lubbock Thursday and Friday, September 17-18.

Representatives of the six PCAs, covering a 51-county area of West Texas and the Panhandle will attend the meeting. It is sponsored by the Federal Intermediate Credit Bank of Houston, discount and supervisory agency for the 36 associations in Texas.

Attending from the Plainview PCA will be President Grady Shepard of Hale Center, Vice President Henry Hayes of Plainview, Directors Don Garrison of Silverton, Billy W. Carthel of Friona and Loyd

Widener of Lockney, General Manager Noel Woodley and Assistant Manager Fred Conner, both of Plainview.

Farmer and rancher owned and operated, the Plainview Production Credit Association provides more than \$45,000,000 annually in low-cost agricultural credit in Bailey, Briscoe, Castro, Floyd, Hale, Lamb, Tulla, and Swisher counties. Offices are operated in Plainview, Muleshoe, Littlefield, Floydada, Friona, Dimmitt, Tulla, Silverton, and Olton.

W. B. Mansfield of the Engineering Extension Service, Texas A&M University, will lead a discussion on the role of directors in PCAs. Other speakers, who will discuss

operational and organizational procedures and problems, will include President W. N. Stokes Jr., Vice President W. H. Calkins, Secretary Ellis Lanier and Assistant Vice President Alton B. Cook, all with the Intermediate Credit Bank.

Other associations to be represented at the conference include Amarillo, Lubbock, Memphis, Plainview and Stamford. Loan volume for the six Production Credit Associations totalled more than \$95,000,000 to farmers and ranchers in 1963 in their 51-county area.

To get the most out of your fertilizer dollar on your grain sorghum land, use TIDE bulk blend fertilizer and their fine equipment.

NOW IS THE TIME:

As soon as possible after combining, shred stalks and apply TIDE'S prescription blend fertilizer to get maximum decomposition of the stubble and bring your soil nutrient level up to its needed point. See your TIDE representative. All nutrients 100% water soluble, easily and economically applied.

A SPECIFIC FERTILIZER BLENDED FOR A SPECIFIC CROP USE:

Prescription blended on this basis to meet your soil needs:

1. BY SOIL TEST
2. BY THE AMOUNT OF CROP REMOVAL
3. BY THE AMOUNT OF ORGANIC MATTER LEFT TO DECOMPOSE
4. BY THE ROTATION SYSTEM USED
5. BY THE SOIL TYPE AND ITS CURRENT CONDITION

TIDE'S TILT BOX SERVICE:

Only TIDE can give you the convenience of bulk service at the field... with no handling, 4,000 lb. spreaders filled in minutes with high analysis. Prescription blended fertilizer... no time lost in "LOADING" equipment. Fertilizing at its peak efficiency for efficient growers who desire to reduce operational cost.

Farwell 481-3346

TIDE'S COMPLETE LINE OF FARM CHEMICALS:

1. All fertilizer 100% water soluble.
2. Bulk or Bag
3. Anhydrous Ammonia
4. Herbicides
5. Insecticides
6. Fungicides
7. Defoliant

LET THE EFFICIENCY OF OUR EQUIPMENT AND EXPERIENCE HELP THE EFFICIENCY OF YOUR FARMING.

No Bags to Burn
No Bags to Handle

4-H'ers
make the best...
BETTER

More than 8,600 Texas 4-H Club members completing a beef animal project are analyzing records, evaluating the year's work and making plans to show their prize livestock at county fairs and stock shows.

There is a saying in 4-H that "blue ribbon animals make blue ribbon boys and girls." This is especially true in the beef program. Besides cash, the participants derive lasting benefits.

The National 4-H Service Committee in its current bulletin on the beef awards program prepared in conjunction with the Cooperative Extension Service, states:

"Through judging, demonstrations and showmanship events you will sharpen your skills, learn to justify your decisions, develop leadership and attitudes helpful in adult life."

While these are broad objectives of the national beef awards program sponsored by E. I. du Pont de Nemours & Company, there are other distinct realms of learning open to 4-H youth.

The young Lone Star stater are assisted in their work by county agricultural extension agents and local 4-H Club leaders. Frequently local veterinarians, feeders and breeders offer guidance and useful information.

Awards await members whose projects are outstanding. Du Pont provides a trip to the National 4-H Club Congress for the 1964 state winner, and medals for county winners.

The 1964 Texas state winner will be judged along with 47 other state winners for one of six \$500 beef scholarships to

be presented during the congress held in Chicago the week following Thanksgiving.

To be eligible for state or national awards, 4-H members must be over 14 years of age and have completed at least three years of club work. The Extension Service supervises the program and names the winners.

Boys and girls thinking about starting a beef project in 1965 should see the county agricultural agent or a local club leader.

Give Wood Furniture Proper Care

Too much wax, oil and polish can actually dim the beauty of wood finishes, says Mrs. Wanda Meyer, Extension Service home management specialist at Texas A&M University.

Furniture manufacturers themselves point this out. The best cleaning care, according to the American Walnut Manufacturers Association, is to wash furniture with suds and water.

Wash it once or twice with a cloth wrung out of warm soap or detergent suds, then wipe all surfaces with a clean damp cloth and rub dry. All wood pieces -- modern or antique -- thrive on this basic cleaning, as the suds remove various types of soil which are not affected by simply applying another coat of oil, polish or wax.

When all surfaces are thoroughly clean, use any preferred type of finishing touch.

Polishes or waxes applied too often tend to build up a film which reduces the beauty of the original finish. Authorities recommend that most furniture be waxed only once or twice a year.

Place cotton denim or canvas sneakers on shoe trees to dry after washing them. This enables the fabric to dry more smoothly and eliminates puckers around the toes.

American cheese production in July, the latest report shows, was 1 per cent below July 1963, but 6 per cent above the 1958-1962 average. Production for the first seven months in 1964, at 732,000 pounds, is 4 per cent above 1963 and 10 per cent above the five-year average. July's estimate was 108,690,000 pounds.

CLOTHING THOUGHTS

Fall is almost here and interest in clothing by the "fair" sex is mounting.

One of the secrets of Smart dress, is the way a man or woman wears clothes.

Often the well put-together look can do more than money for one's appearance.

We all wear clothes, but it is what we wear and how we wear it that makes the real difference.

Grace with which one wears accessories add much to your attractiveness too.

Jewelry, for instance can be worn very effectively if various ways are considered. Beautiful,

well chosen jewelry can also lose through the way it is worn. Too much matching jewelry on one costume becomes monotonous and loses its appeal. The big question is when, where and how much?

A pin or other accessory can emphasize good points and moods. Important thing is to have the contrast (or focal point of interest) at or near point you wish to emphasize, such as pretty hair, nice complexion or pretty eyes. This helps create a dominate idea. Use less dominant and related colors to play down less attractive features such as big feet, unattractive hands or a little too large waistline. It's rarely advisable to use intense color on the hands, as the eye is focused

on contrast and the movement of hands can distract from the over-all appearance.

PLANNING A WARDROBE?

When planning a fall wardrobe it is well to think through a few points when selecting new design in garments to be worn.

First ask yourself, "what kind of an image do I want to create?"

Do I want to look taller, shorter, wider, or slimmer?

There are ways of creating the kind of picture you wish to

be. Of course this may require a little study of lines, designs and color and how to make the application to ones self but it can pay off well in the overall picture that is presented day by day to the seeing public.

If you are interested in information on use of accessories, a bulletin entitled "Accessories Around The Clock" is available for the asking.

Come by my office on second floor in the Courthouse in Farwell for a copy.
