You can now get Grove's Tasteless chill Tonic in Tablet form as well as in Syrup, the kind you have always bought. The Tablets are intended for those who prefer to swallow a tablet rather than a syrup, and as a convenience for those who travel. The tablets are called "GROVE'S chill TONIC TABLETS" and contain exactly the same medicinal properties and produce exactly the same results as Grove's Tasteless chill Tonic which is put up in bottles. The price of either is 60c.

# NO WORMS In A Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance.

Grove's Tasteless chill Tonic

contains just what the blood needs. Iron and Quinine in a form acceptable to the most delicate stomach and if given regularly for two or three weeks will enrich the blood, improve the digestion and act as a general strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. It is pleasant to take. Price 60c.

PERFECTLY HARMLESS. CONTAINS NO NUX-VOMICA OR OTHER POISONOUS DRUGS.
