## Letter To Whittlin From Tech

Dear Editor:  
Having read your comments in last week's Blade, we three Texas Tech students felt that we simply must "remind" you of the results of the Tech-Aggie game played last night in Jones Stadium. Despite the Aggies' highly successful effort in capturing "Beauty," the Red Raider mascot, we were very pleased with the outcome of the game in which Tech was victorious.

We felt the Aggie effort was very commendable and the score, 10-0, was surely no atrocity for them to be completely ashamed of.

Remembering your comment on how bad the Aggies were going to beat Tech and your following comment concerning the shelling they would then give the University of Texas, we can only wonder how bad this "shelling" will be, the University having beaten Tech a great deal and now Tech having upset the Aggies. We do wish them luck in this endeavor, however.

We receive the Blade weekly here at school and enjoy reading it very much. It is always nice to know what is happening at home.

We hope you realize this "crowing" is all in fun and we did enjoy the game very much as we sincerely hope you did. Thank you very much for your indulgence.

Sincerely,  
Gary Stevenson  
Roger Ezell  
Pat O'Brien  
Three Red Raider Boosters

## WHITTLIN'

BY DOLPH MOTEN

Yeah, sure, a man should be able to think of something clever after the Fightin' Texas Aggies get outscored against the Ready Red Raiders.

But about all we can think of is the same reply that we've been giving people all week when they corner us and say, "What happened at Lubbock Saturday night?"

That reply is an unoriginal, "I don't know."

Then as quickly as we can get the conversation away from football, we try to get the Red Raider fans to talk about the stolen horse which was found Sunday with "AMC" painted on both sides.

That story is a whale of a lot more interesting to us than the one about the football game. Again trying to keep the subject on the stolen horse:

We might have the wrong outlook, but we think it was a great prank. And we'll admit that might be just an A&M man's opinion, but the Tech people we've talked to have taken the prank good naturedly and have been so pleased with result of the football game that they'll even smile about the horse being stolen.

We're glad, too, that the people who got the horse, if they were A&M students didn't get caught...and the horse was returned in reasonably good condition.

Pranks such as that one are fun only if you don't get caught. We'd guess that students caught in such action would be released from their obligations at A&M or most any other college, for that matter.

And maybe it's a good thing that Tech officials aren't going to try too hard to find out who the guilty parties are. Some fans have even suggested to us that if the horse hadn't been stolen, the Tech team wouldn't have been so inspired to win. We doubt that, of course, but it's a thought, anyway.

Had that been the case, we'd have suggested that the horse be returned at halftime.

We're even wondered if we didn't hurt A&M's chances by predicting they would whip

(Continued on Page 2)

## FOR BOVINA --

# Cable TV Only Matter Of Time

"We'll start construction as quickly as Uncle Sam says we can."

That was the report this week on cable television for Bovina from Pudge Kendrick, who is one of a group of Friona men who are planning to install cable TV here.

Today (Wednesday) is the final day for formal protest to be made about installation of the service here to the FCC, a government agency, and no protests are expected, Kendrick says.

Then it will be only a matter of time until the FCC gives approval of the system so that construction can begin.

Construction time is expected to take from 90 to 120 days.

The system will feature a tower which will be approximately 500 feet high. It will be erected in city dumpgrounds on east side of town.

A franchise agreement between the cable television firm and City of Bovina was slated to be approved at a meeting of city councilmen last (Tuesday) night.

"As far as we know, everything is in order and we're ready to start construction when we get government approval," Kendrick concluded.

## THERE FRIDAY NIGHT --

# Bovina vs Friona In ParmerCo. Tilt

A highlight of the Bovina Mustangs' non-district football schedule is slated for Friday

night at 8. It's the clash with the Class AA Friona Chiefs.

The game will be played in Friona. Because of the nearness of the two communities, that isn't expected to discourage Bovina fans and a large following is expected to be on hand for the tilt.

The Chiefs, currently riding high on a five-game winning streak, will be seeking revenge from the Mustangs for last year's game in which Bovina won easily, 35-6.

Friona will be the odds-on favorite to win the game. From a comparative scores standpoint, the Mustangs will be fortunate indeed to stay on the field with the high-flying red and white team.

Friona, for instance, defeated Farwell, 26-13, while Farwell trounced Bovina the following week, 48-0.

Bovina fans are certainly expecting the outcome to be closer than those scores indicate, but chances for an upset are slim. The Mustangs, who have a 3-2

season record, will be as near to full strength as could be expected for a mid-season game.

Ronnie Taylor, who was a starting halfback in the season opener, will be ready for action again after being out since the first game with a broken thumb. Halfback Dennis Johnston,

handicapped last week by an injured ankle, is expected to be in better condition. Donnie Dyer, letterman guard who has been out of action parts of this season because of illness, is also expected to be ready to play.

A doubtful starter for Bovina (Continued on Page 2)

Bank deposits in Bovina were down slightly from a year ago, according to First National's recently-issued statement of condition.

Deposits this week totaled \$1,377,948.66 while at the same time a year ago the total was \$1,405,580.33.

Big reason for the decrease, Bank President Warren Embree points out, is because this bank is no longer the county's depository. County funds totaled in the neighborhood of \$400,000 and that money was deposited here at the time of last year's report.

"Except for that," Embree explains, "our deposits would be higher this year than they were last year."

Loans, however, show an increase over the same period 12 months earlier.

This year's loan total is \$972,130.05. Total at beginning of October of '62 was \$944,633.81. Increased farming expenses are reason for the additional loan total, Embree explains. "Too," he says, "more people have cattle this year than they did last year."

All in all, the report shows that the community's economic condition is about the same as it was going into the final quarter of 1962.

Deposits are expected to be increased in the remaining months of this year as money from this fall's crops comes in. The bank's official statement of condition appears in this issue of The Blade.

Parmer County politics picked up a little more this week, with the announcement by Hurshel Harding, Farwell lawyer, that he will run for re-election to the office of county attorney in the Democratic

Primary May 2. Harding's announcement followed by one week that of Charles Lovelace, who filed for re-election as Parmer County sheriff.

Harding, of the law firm Aldridge, Aldridge and Harding in Farwell, is a graduate of Baylor Law School. He was appointed to fill the unexpired term of Bill Sheehan five years ago and is now completing his first full elected term for four years.

Harding's announcement follows:

TO THE PEOPLE OF PARAMER COUNTY

I take this means of announcing that I will be a candidate for re-election to the office of County Attorney of Parmer County, Texas, in the Democratic Primary May 2.

I appreciate the opportunity of having served as your County Attorney this past term, and would appreciate your vote and the opportunity to serve a second full term in this office.

If elected, I will continue to carry out the duties of this office to the best of my ability. I thank the people for the cooperation given me during this past term.

HURSHEL R. HARDING

## MARY JANE WILSON --

# Football Contest Has Another Lady Winner

Mary Jane Wilson was first place winner in Bovina Businesses Cotton Bowl Football contest last week and the third woman to take the \$5 in prize money in the five weeks of the contest.

Erith Hawkins won second and \$3 and Mike Barraza came in third for \$1 in prize money. The winners each named eight of 10 winners as did eight other contestants with the placings being decided by the tie-breaker score.

Mrs. Wilson predicted the score of the Bovina-Meadow game would be 13-0, while the actual score was 14-0 making her one point off.

Hawkins was 13 points off and Barraza 16.

Paul Jones remained in undisputed possession of first place for the grand prize, which is an expense-paid trip for two to the Cotton Bowl and is presented to the contestant who names the most winners during the 13-week football season.

Jones has a total of 43 points out of a possible 50 for a percentage of .860. He named seven winners and none of his closest competitors were able to do better so the top placings remain same as they were a week ago. Ed Hutto and Ellen Smith are tied for second with 42 points each.

A step behind those two, with

41 each, are C. R. Brandon and Barraza.

Contestants who have 40 right are Donald Jones, Brenda Riddle, Jon Lin Riddle, John Wilson, Mary Jane Wilson, and Billy Whitecotton.

Still in contention for the grand prize with 39 are Wesley Busby, Allen Cumpton, Harriette Glasscock, Ola Lee Jones, Bill Read, Glenden Sudderth, Nell Smith, Larry Webb, V. C. Willard, and Pat Whitecotton.

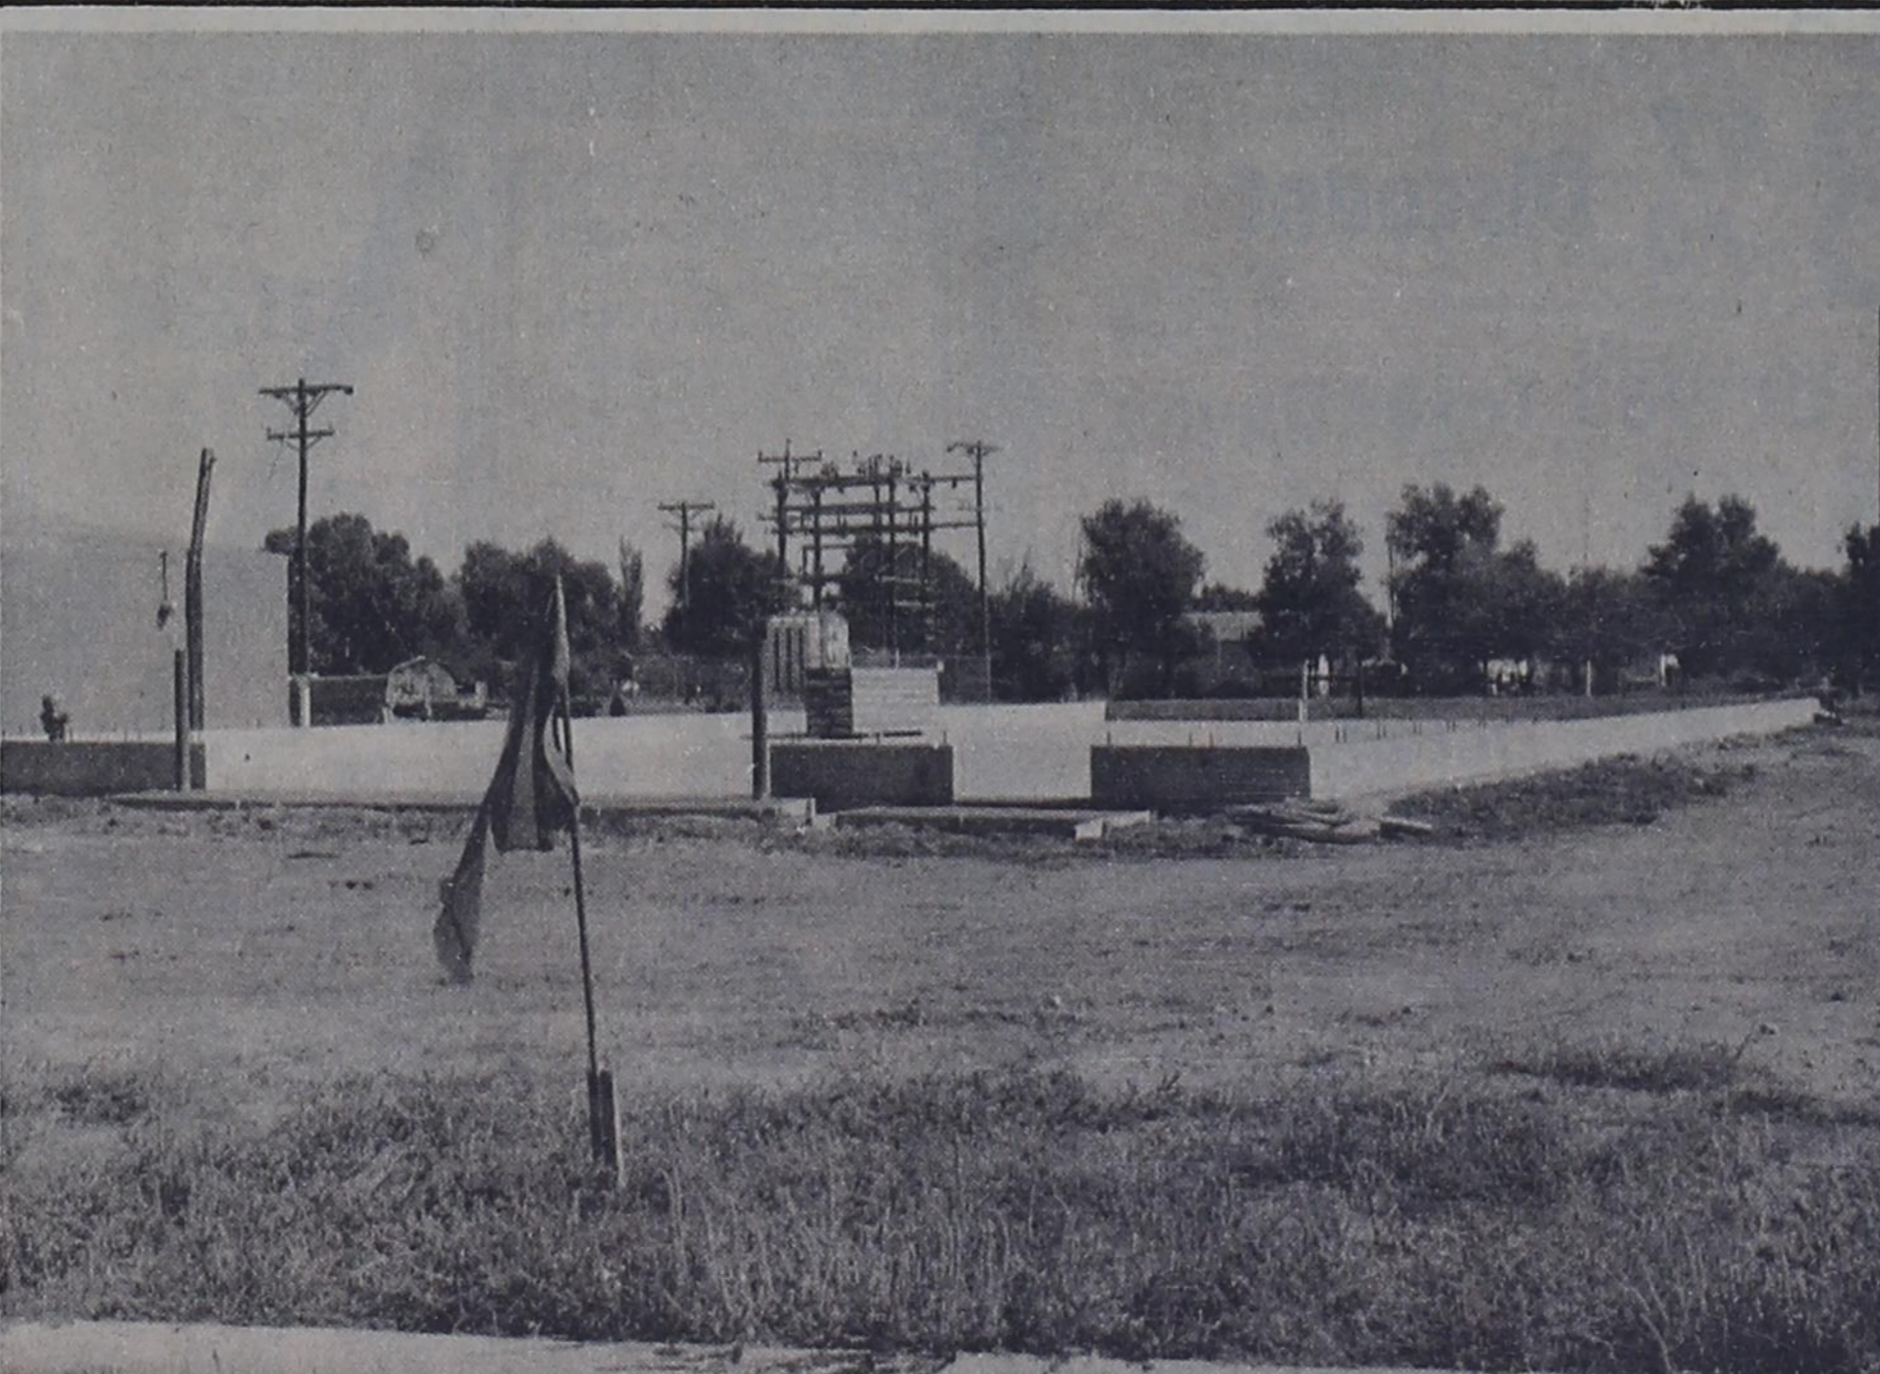

The leaders' percentage was hurt last week by the fact that the Lazbuddie-Amherst game ended in a tie and thus was counted wrong on all blanks. In addition to the tie, there were a couple of upsets, which kept overall scores from being higher.

Others who named eight right, but finished out of the money because of the tiebreaker were, Elva Brandon, Leon Grissom,

(Continued on Page 2)

NOTHING TO IT!---Mrs. Mary Jane Wilson, winner of fifth week of Bovina Businesses Cotton Bowl Football Contest poses with her \$5 first place check and a contest entry blank. Mrs. Wilson is the third woman to win the contest in five weeks. She is also in the running for the grand prize as she had named 40 of 50 winners to trail the contest leader, Paul Jones, who has 43, by three points.

NEW COUNTY BUILDING -- Construction is underway on a new Parmer County building on county-owned property on North Street in Bovina. Contractor is Joe Boeckman of Friona. Materials are being furnished by Cicero Smith Sumer Co.

Work began on the structure last week and it is slated to be completed in two weeks. Dimensions of the building, which will be used as a warehouse, are 36 by 84 feet. It is located west of the present county warehouse building.

## OCTOBER 18 --

# Parade Highlight Of Homecoming

Bovina High's annual homecoming parade has 10 floats entered with the deadline still several days away.

Six of the floats are entered by school classes while four are from organizations and individuals outside the school.

The parade, which will begin at 2 p.m., will be a highlight of homecoming activities which are scheduled for Friday, October 18.

The parade will begin at 2 p.m.

A homecoming queen and a football hero will be crowned at halftime of the Bovina-Hart game, which will be the Mustangs' first district clash.

Floats in the homecoming parade will have nursery rhymes as their theme.

More floats are needed in the parade, Allen Staley, high school principal and student council sponsor, says. Student council is in charge of homecoming activities. Floats may be entered by contacting Staley.

There will possibly be a get-together of Bovina High ex-students. Details on this part of the activities are yet to be worked out.

Candidates for queen and king are slated to be announced next week.

# Jurors Named

Names of forty-eight county residents have been listed for petit jury duty. These persons are to report to the Parmer County courthouse Monday, Oct. 14, 1:30 p.m.

Listed are T. F. Taylor, C. L. Mahaney, Howard Hays, Jimmie Dixon, Sam White, L. R. Vincent, Leroy Johnson, Leon London, Harry Lookingbill, D. G. Hand, Mrs. Myron Hillcock, Charles Sanders, Mrs. R. S. Burleson, Ovid Lawlis, C. D. Noland and Earl Drake.

Also Royce G. Welsh, Kenneth Cass, Mrs. Bill Brandt, Earl Peterson, Raymond Houston, Lester Sims, Jimmie

Charles, Mrs. R. D. Dale, S. A. Barbee, Eugene Ellis, Grady H. Dodd, J. V. Bouldin, Weldon Dickson, Ivan Adkins, Mrs. Carrie M. McLearn and J. E. Vaughn.

Also Robert Armstrong, A. C. Clarke, D. M. McGuire, Jesse Walling, Mrs. Joe White, J. T. Eubanks, Mrs. Jimmie Seaton, Donald Shuman, Mrs. Elmo Dean, Mark Charles, Sid Kilough, Scott Gober, Ray Dean Fleming, C. V. Potts, E. L. McCutchan and Larry Fairchild.

Six civil cases are on the court docket for Mondays as well as three criminal cases.

# Reflections

From  
*The Blade*

Six years ago  
 October 9, 1957  
 O. W. Rhinehart, local real estate man and farmer who owns the building which the post office occupies, has announced that an agreement between himself and the government has been reached concerning remodeling the post office.

Bovina School board of education voted unanimously in a regular meeting Monday to start action to collect delinquent taxes.

In the interest of getting Bovina's insurance key rate lowered, Mayor J. E. Sherrill and City Secretary Henry Minter went to Austin Tuesday to confer with the state insurance commission.

With this issue, a new page one feature begins in the Blade. It will be headed "Weather By Willie," and will offer accurate predictions of coming weather.

The public is invited to attend a special meeting of Bovina Lions Club Thursday evening in American Legion Hall, J. W. Wright, Lion president, has announced.

The program will feature the showing of movies taken by Coach Bob Willis when he and six Boy Scouts from here attended the National Scout Jamboree this summer.

Thirty members of the Future Homemakers of America and five adults returned home Sunday afternoon from a weekend at the State Fair in Dallas.

Three Years Ago  
 October 12, 1960  
 Duane Rea will receive the American Farmer Degree in Kansas City, Missouri this week.

The national degree is one of the highest to which a Future Farmer member can aspire.

City Secretary Henry Minter has resigned effective November 1 -- eight years to the day since he took the position. Minter submitted his resignation at a City Commission meeting last Tuesday night. He said he is resigning to become full-time deputy sheriff, to be stationed here.

J. P. Macon, elevator owner-operator, has announced plans to construct new rent property in Bovina.

I. W. Quicquel of Bovina recently received an award "for 10 years of service as an uncompensated member of Selective Service System."

Whittlin --  
 (Continued from Page 1)

Tech. We also predicted last week that the New York Yankees would win the World Series in six games.

We didn't play any favorites, though, one prediction was as true (?) as the other.

Before we dismiss the subject, we want to express our appreciation to all the nice people, all of them Texas Tech fans, of course, who were so nice to call after the game and Monday and who otherwise inquired about our health, attitude and sportsmanship.

There are some few Tech supporters we haven't talked to yet about the game--we've been dodging them--but we hope to talk with them in the next few weeks.

Though we didn't express ourselves so openly, we felt, after the game, like the Tech fan here did after TT's game with University of Texas 10 days ago.

The Lubbock school came out on the short end of that score, you'll remember. Darrell Read, who does his boosting for the Texas Christian Horned Frogs, says he saw this man we have in mind in the post office the day after the game.

"Good morning, ---, How are you?" Read inquired in what he says was his most friendly tone.

"Shut up!" was the reply in a different kind of tone.

Billy Richards, a former Bovinan now coaching at Reserve, N. M., was as happy as a Tech fan after the A&M game or a Dodger supporter after the World Series, a couple of weeks.

His football team won its first game in history!

That history is a short one, however, so the losing streak hasn't been as long as the use of the world, history, makes it sound.

According to the El Paso Times, the win was over East Fort, Ariz., High School. Score was 13-0.

"Reserve installed varsity football for the first time a year ago (at the beginning of the 1962 season when Richards went there). Of the 40 boys in high school, 27 on the football squad," according to the Times' report.

Last season was a long one for Richards and his Reserve team, but when we saw him this summer, he said he had hopes that the situation would be better.

And better it is already.

We'd make a prediction here about the outcome of this week's Bovina-Friona football game, but we don't want the Mustangs to have to battle this department's kiss of death and the Chiefs, too.

## Bovina

(Continued from Page 1)

is Big Eddie Reeves, a center, who received a knee injury in the Amherst game.

"They're terrific," Mustang Coach Hallie Gee says about the Chiefs. "They're fast as well as quick, block well and play good defense. Our scouting reports indicate that they'll have the best blocking we've faced this season."

"I don't guess we have a Chinaman's chance to win the game, but we're going to show up."

Depth, speed and experience are the three departments in which the Chiefs have the Mustangs bested. They have 15 seniors on the squad while Bovina has seven. Weights of the teams are expected to be about even with Friona expected to have a small--not more than 10 pounds per man--advantage there.

The Chiefs get their speedy backs off and running from variations of T formation, Gee points out.

In addition to the Farwell game, the Chiefs have won over Sudan, 28-14; Memphis, 33-14; Plains, in a come-from-behind effort, 15-13; and Happy, which is in Bovina's district, 40-14.

And, as if those disadvantages for the Mustangs weren't enough, this week is also Friona's homecoming. That is expected to swell size of the crowd and give the home team added incentive to win which shouldn't be needed.

Until this season, the Chiefs were mired in a 27-game losing streak. But this year they came up with a new coach and a new attitude and the situation has been reversed. They could be compared with the first train the mountaineer saw. The train was stopped when he saw it. "They'll never get it started," he allowed. And when it started to move, his opinion was, "They'll never get it stopped."

Bovina begins its district schedule against Hart the following week while the Chiefs are idle.

Directors were elected, and a set of resolutions to the state Farm Bureau convention were adopted at the 15th annual meeting of the Farmer County Farm Bureau in Friona Monday night.

One new director was elected, Dod Gerles will replace Vernon Symcox in the Farwell area. Harry Hamilton was re-elected county president.

Other directors elected were Frank Hinkson (Lazbuddie area), James Norton (North Bovina area) and Charles Hough (South Friona area). Directors with a year left to serve are J. T. Jones, Bovina; Jim Dixon, North Friona; Grady King, Lazbuddie, John Armstrong, Farwell and John Henderson, Black.

A Rhea community director will be elected at the local meeting there.

The following resolutions were passed by the convention, for recommendation to Texas Farm Bureau:

**NATIONAL ISSUES**  
**TAXES--** 1. Be it resolved that PCFB opposes any tax reduction proposal, such as HR 8363, which would reduce taxes while increased deficits are contemplated. Tax reduction should be accompanied by a reduction in federal spending.

**GRAZING VOLUNTARILY LAID OUT LAND--** 2. Be it resolved that PCFB opposes the practice of allowing grazing of lands previously in the soil reserve, but which still draw payment on the basis of voluntary reduction of basic crop acreage.

**SEDIMENTATION FACTOR IN WHEAT GRADING--** 3. Be it resolved that PCFB favors elimination of the sedimentation factor in the grading of wheat.

**COTTON PROGRAM--** 4. Be it resolved that PCFB urges support of the Ellender cotton bill, and opposes alternate plans presently proposed.

**LIMITING CONSECUTIVE TERMS FOR ELECTED PERSONS--** 5. Be it resolved that PCFB favors legislation on the national level limiting elective offices on all levels to two consecutive terms. This proposal would seek to give each elected official equal opportunity to represent the people who elect him, without regard to seniority.

**CIVIL RIGHTS--** 6. Be it resolved that PCFB opposes the public accommodations section

# Hamilton Re-elected Farm Bureau President

of the civil rights bill.  
**WHEAT TO RUSSIA--** 7. Be it resolved that PCFB supports the wheat sale to Russia for cash at a non-subsidized price.  
**STATE ISSUES**

1. Be it resolved that PCFB urges that there be a called session of the Texas Legislature for the purpose of redistricting the state for congressional representation.

2. Be it resolved that PCFB favors legislation on the state

level, limiting elective offices to two consecutive terms.

3. Be it resolved that PCFB opposes any person's being denied the right to vote, an education, or the right to work because of race, creed or religion, enforcement to be left to individual state.

4. Be it resolved that PCFB favors legislation giving irrigation gas users the right to appeal to the railroad commission on their gas rates.

(Continued from Page 1)

Ola Lee Jones, Brandon, Donald Jones, Little Al Kerby, Dixie Carson, and Patsy Sherrill.

Women to win the contest prior to Mrs. Wilson's winning have been Mrs. Sherrill and Mrs. J. W. Wright. Paul Jones and Ed Hutto have been the men

to take first place honors.

A total of 122 entries were submitted last week. This total is down slightly from the five-week average which is 135.

Thirty contestants named seven right last week as 43 had six, 21 picked five correctly, 14 had four and three were right about three games.

This week's contest, which is sixth in the series which is sponsored by 10 Bovina businesses appears on an inside page of this issue of The Blade.

## Plead Guilty: Sentenced Friday

Four persons were sentenced in district court Friday by Judge Pat Boone after pleading guilty as charged.

Receiving suspended sentences were Joe Dawkins, four years, theft; Isreal Letja, four years, forgery.

Sentenced to five years each in the penitentiary for burglary of the Cooper Gin were Billy Ray Cox and Guillermo Brinoes. They will be taken to Huntsville to begin serving their sentences in the next few days.

**NEW YORK** -- It is estimated that there are 7,500,000 tennis players in the United States, with the number increasing by a half million each year.

## Gas Users Association Calls County Meeting

The Parmer County Irrigation Gas Users Board of Directors met at the Bovina Restaurant at 6 a.m. on October 3, pursuant to a call from its president, Bruce Parr, who is President of the Parmer County Board and also President of the Board of Directors of the Plains Irrigation Gas Users Association, made up of one director from 14 West Texas counties.

Present at the meeting were Fred M. Burch, E. T. Ford, Keith G. Brock, D. L. Carmichael, Ellis Tatum, Clyde Weatherly, Wendel Christian, Gilbert Kaltwasser, Vernon Symcox, and Bruce Parr. R. C. Godwin, Secretary-Treasurer of the Plains Irrigation Gas Users Board from Hereford was present along with John D. Alkin, the Plains As-

sociation's attorney. Godwin and Alkin gave a summary of the gas users most recent activities and brought the Parmer County Board members up to date.

Parr discussed with the Board a letter received by the PLAINS Gas Users Board from Pioneer Natural Gas Company and it was felt generally by the Board that a county-wide meeting should be called and some decision with respect to the letters from Pioneer made at the County meeting.

The meeting was fixed for Thursday, November 7, at 7:30 p.m. in the Bovina High School Cafeteria and Parr requested each director to make every effort to have all of the irrigation gas users in Parmer County advised of the meeting before November 7 and to have as many present as possible.

Most fishermen have old lures around which might well fit into a collection now being assembled in Dallas.

Jeff W. Moore, superintendent of the Dallas Aquarium, is developing a museum of old lures. He asks that people who own some of these old-timers send them to him.

Nearly everyone who has been to the State Fair of Texas has visited the Dallas Aquarium. If you haven't, you should. It is one of the finest in the United States. Operated by the Dallas Park Department, it is open (free of charge) to the general public year in and year out.

In this building Superintendent Moore hopes to establish a museum of old plugs. All plugs sent in will be properly identified and mounted. However, because of limited time and funds, it will be impossible for him to acknowledge receipt of the lures. But they will be placed on proper display.

If you have an old lure or a box full, this would be a good place to send them. Address your package to Jeff Moore, Superintendent, Dallas Aquarium, 963 Rustic Circle, Dallas 18, Texas.

Then put the aquarium on your "must-visit" list. It is open Mondays through Saturday from 8 to 5 and on Sundays and holidays from 12 noon until 6. Feeding time is 3 p.m. on Mondays and Thursdays.

This famous Aquarium was built in 1935-36 as a part of the Texas Centennial Celebration, which means it actually is a Texas heritage.

Displays are divided into three general classifications. In division 1 are fishes native to Texas waters. Here the water temperature is kept at a constant 68° throughout the year. This constant temperature has helped keep the fish in a better state of health and substantially has reduced diseases.

Division 2 consists of fishes from mountain lakes and streams. Refrigeration equipment maintains a constant temperature of 50°. In this section will be found northern pike, five species of trout, blackfish from Alaska, muskies, walleyes and saugers.

In division 3, water is kept at 80° for the benefit of tropical fish from around the world.

Displayed are more than 3,500 individual fish of 200 species collected from Texas, New Mexico, Wyoming, Missouri, Tennessee, Arkansas and Iowa. Also on display are numerous species of turtles, salamanders, frogs, alligators and a pair of Harbor Seals.

In the Aquarium are two alligator gar fish which were caught near Dallas and placed in the museum on the day it

was opened, June 6, 1936. Both are in good health, indicating something of the life span of this fish, which biologists say dates back to prehistoric times.

Water for the aquarium is supplied from a nearby well. Its flow is a crystal clear 68° throughout the year. This assures ample fresh water, without minerals or pollutions that would be harmful to the fish.

Additions to the tank space are making possible a display of salt water fish from the Texas coast.

By adding lures to their displays the aquarium will have another attraction appealing to the general public—but especially the anglers.

So if you have a few real old lures, send them in, whether you can identify them or not. There are old-timers around who can.

It may be too early to know what the water fowl situation in the Central Flyway will be this year, but it is not too soon to learn about ducks.

Just issued by the U.S. Fish and Wildlife Service is a 25¢ bulletin titled "DUCKS AT A DISTANCE."

You can get this bulletin by sending a quarter to the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

If your local club wants to buy them in lots of 100 or more, there is a 25 percent discount.

This is an exciting little booklet.

It's in full color and illustrated by noted wildlife artist Bob Hines. Furthermore, it carries illustrations of all the major species of ducks and geese.

Unlike other field guides which show mating colors, "Ducks at a Distance" offers invaluable identification clues for students, hunters and everyone who enjoys the study of birds, or just a walk along the shore.

Booklet contains 24 pages. It reveals the shapes, colors, voices, flight patterns, rising views and flock formations of these fascinating fowl.

Because of an anticipated heavy demand, a delivery delay of at least six weeks is expected. So send your order as early as possible.

There is increasing necessity for such a book among hunters. Bag limitations on certain species now make it a requirement to know your ducks. For the average hunter, who gets out after waterfowl only two or three times a year, this identification is no easy job. Especially where the duck supply is limited!

Mrs. Edens Has Dorcas Circle

Mrs. C. O. Edens hosted Dorcas Circle of Methodist Church last Wednesday at Methodist parsonage.

Mrs. John Wilson presented the devotional from "Romans" and Mrs. Pat Kunselman gave "My Brother Is A Stranger"

as part of the program. "These Cities Glorious" is title of study the group presented. Those taking parts were Mrs. Pearl Moore, Mrs. T. J. Hopingardner, Miss Ellen Reminsnyder, Mrs. C. O. Edens, Mrs. John Wilson, Mrs. I. W. Quicquel and Mrs. Billie Sudderth.

Rev. Harold Morris and Mrs. Turner, visitor of Mrs. Quicquel's were luncheon guests.

WMU Has Royal Service

New officers for WMU presented program to group Tuesday afternoon at First Baptist Church.

Mrs. Don Murphy, president presented a brief preview of work for coming year. Mrs. Ovid Lawlis, program chairman, previewed some of programs dealing with Royal Service, Mrs. John Ferguson, mission study chairman, reviewed some of books to be presented to women, Mrs. Keith Garner, Mrs. Allen Cumpston, Mrs. E. H. Moody, Mrs. Bobby Englant and Mrs. R. N. Williford presented other parts of program.

Attending other than on program was Mrs. J. O. Combs.

Mrs. Lloyd Has Quilting Club

Mrs. Travis Lloyd entertained members of Quilting Club Thursday in her home.

Members brought covered dishes to complement the hostesses luncheon.

During the afternoon they quilted a quilt for the hostess.

Those present were Mrs. J. R. Caldwell, Mrs. Mel Gunn, Mrs. T. P. Griffith, Mrs. Levi Johnson, Mrs. Reagan Looney, Mrs. E. H. Moody, Mrs. J. E. Owens, Mrs. W. J. Parker, Mrs. F. O. Turner, and Mrs. C. P. Warren.

Hollands Have Baby Daughter

Mr. and Mrs. Darrell Holland are the parents of a baby daughter born Monday night at Memorial Hospital in Clovis.

The infant weighed seven pounds, eight ounces and is named Becki Lynn.

Class Meets In Stevens Home

Mrs. J. D. Stevens entertained members of Gleaners Sunday School Class of First Baptist Church Thursday afternoon at her home.

Mrs. Ronald Minyen was elected president, Mrs. Herman Estes, vice president; Mrs. Jack Patterson, secretary; Mrs. Henry Minter, treasurer and group captains are Mrs. Arnold Hromas, Mrs. Tom Payne, Mrs. James Taylor and Mrs. Charles Hawkins.

Mrs. Ovid Lawlis is teacher for the group and Mrs. Hromas assistant teacher.

Following the business meeting refreshments of angel food cake and coffee were served to guests.

Those attending other than above mentioned were Mrs. Ed Denny and Mrs. F. G. Howard.

Of Interest To THE WOMEN

Mrs. Galloway To Instruct Ballet Classes

Mrs. Angela Galloway of Clovis is organizing ballet classes in the area. Those interested in enrolling students will meet Tuesday, October 15, at Friona Country Club at 7 p.m.

Mrs. Galloway will teach beginner, advanced beginner, intermediate or professional ballet. Mothers are encouraged to watch any class.

She has studied with Serge Nadajin, once ballet master for the Imperial Ballet in Russia, Ballet Arts in New York City and with Madam Kraz, Anton Caton, Numuri, Anton Dolan, Nora Kaye, Alicia Markova and Maria Tallchief.

She has danced for the Metropolitan Opera Company, New York City; with the Ballet Russe De Monte Carlo, also of New York City, Chicago Opera Co.; Radio City Music Hall and NBC Television in New York City.

Mrs. Galloway has taught at the Ballet Arts in New York City, and the Billie Tilton School of Dance and Modeling in Cleveland, Ohio and Santa Fe, N.M.

She is married to Bill B. Galloway, civilian manager of the Base Exchange at Cannon Air Force Base.

ANGELA GALLOWAY

Ex-Students' Addresses Needed

Help of the public is needed in locating addresses of ex-students of Bovina High School. A banquet is being planned for ex-students in connection with homecoming activities Friday, October 18.

Officers of the association need to know the addresses of more than 200 ex-students in order to invite them to the banquet.

People who know addresses which they feel aren't known by the ex-student association should phone Mrs. Jerry Rogers at 238-4031 or Mr. and Mrs. Weldon Moody at 238-2832.

Mrs. Bradshaw Visits Daughter

Mrs. H. D. Bradshaw returned from Atlanta, Ga., where she visited her daughter.

Shower To Fete Mrs. Palmer

Mrs. Wesley Palmer will be honored with a pink and blue shower Saturday, October 12. The come and go courtesy will be between the hours three and five p.m. in fellowship hall of Church of Christ.

Hosting the occasion will be Mrs. Billy Marshall, Mrs. Don Stone, Mrs. James Boardman, Mrs. Joe Pinner, Mrs. Paul Jones and Mrs. Carrie Milear.

Daughter: "Dad certainly went to work in a awfully good humor this morning." Mother: "He thinks I forgot to ask him for money, but just wait till he looks in his purse."

"All that glitters isn't gold... and that goes for hobby supplies. At C and J Hobby you can be sure of getting quality items!"

Party Honors Read Children

Denise and Mike Read, children of Mr. and Mrs. Billy Don Read celebrated their birthdays Tuesday afternoon at their home.

Denise was two years old and Mike three.

Favors of party blow outs, were given to youngsters.

The birthday cake carried out a clown theme and was served to guests with punch.

Those present were Tamara and Cindy Read, Kay and Terry Stanberry, Mickey Willborn, Randy Ritchie, Sharon Steelman, Billy Whitecotton, Wesley Hall, Sissy Stowers, Danny Wassom and Lyndon Read.

Adults attending were Mrs. Robert Read, Mrs. Joe Wellborn, Mrs. Cloys Stanberry, Mrs. Glenn Ritchie, Mrs. Dickie Steelman, Mrs. Billy Whitecotton, Mrs. Gene Hall, Mrs. J. C. Stowers and Mrs. Doyle Wassom.

Boy Born To Hamburgers

Mr. and Mrs. Arlin Hamburger of Weatherford, Okla., are the parents of a baby boy born recently at a Weatherford Hospital.

The new arrival weighed six pounds four ounces and is named Kevin Lesley.

Grandparents are Mr. and Mrs. Carl Rea.

Mrs. White Speaks To Democrats

Mrs. Ken White, New Mexico state Democratic committee-woman from Clovis, was guest speaker at a regular meeting of Parmer County Young Democrats Tuesday night at Hub Community Center.

Mrs. White was high in her praise for the Kennedy administration and condemned the John Birch Society in encouraging her audience to work in support of the Democratic party and its candidates.

Club To Tour River Project

Members of Bovina Woman's Study Club will tour the Canadian River Project Thursday at 2 p.m.

The group will have lunch in Amarillo then tour the project during the afternoon, according to Mrs. Warren Morton, president of Woman's Club.

Frank Spring, a student at University of Texas, was elected representative of the Parmer County Club to the state executive committee.

STYLISH—Fashion's new cape look is interpreted in orange and red printed cotton. The cape effect begins at the sleeves to give a marvelously fluid look to the back of this high fashion design by Bud Kilpatrick.

Leon Smith Jr., vice president of the organization which was formed only last month, presided in the absence of Clayton Graef, president. Smith introduced Mrs. White.

Club members voted to rotate monthly meetings of the club in various county communities in order to encourage membership. The November meeting, however, will be at Hub, Meeting date is November 12. Time is 8 p.m.

The organization is open to all Democrats between the ages of 16 through 35. Annual dues are \$2.50 per member.

Boy Born To Paul Lloyds

Mr. and Mrs. Paul R. Lloyd are the parents of a baby boy born Wednesday, October 2 at Parmer County Community Hospital in Friona.

The new arrival weighed seven pounds four ounces and is named Colin Gayle.

They also have three other sons, Richard, Larry and Daryl. Grandparents are Mr. and Mrs. T. B. Whitfield of Fort Worth and Mr. and Mrs. Paul L. Lloyd of Bovina.

### Contest Rules

1. There are 10 high school and/or college football games listed in ads on this page.
2. Pick the team you think will win in each game and place the WINNER'S NAME beside same advertiser's name in the contest entry blank at bottom right of this ad.
3. Pick the score of the tie breaker game and place your guess in the appropriate blanks on the entry. The tie breaker game will not count on your won-lost record. It will be used only in case of a tie.
4. Winners will be named by the Monday following the contest deadline each Friday and they will be named by Saturday, if possible. Cash prizes of \$5 for first, \$3 for second, and third prize of \$1 will be awarded.
5. Tabulations of individual entrants will be kept all season and at the end of the season a grand prize winner will be named. Grand prize winner will receive two free tickets to Cotton Bowl games plus hotel, food and travelling expenses to Dallas and the January 1, 1964 football classic.
6. There is nothing to buy. No requirements other than to bring the entry blank, filled out, to The Blade office by 5 p. m. Friday of each week.
7. Only one entry blank may be submitted per individual. If more than one blank is submitted by an individual, all will be disqualified.
8. Tabulations will be available for public inspection. Members of Blade staff will serve as judges for contest.
9. Everyone, except employees of this newspaper and their families, is eligible to enter.

Turn This Blank Into Blade Office By 5 P. M. Friday

WIN BY 14-0 SCORE--

# Mustangs Romp In The Meadow

In a performance lacking inuster, Bovina Mustangs picked up their third victory in five football starts this season as they blanked the Meadow Broncos, 14-0, there Friday night.

The Ponies weren't able to pick up a first down until midway of the second period. They scored on a second period drive that covered 78 yards and added the second TD as time ran in the game. The game clock showed 0:21 remaining to be played when Tally Kelso, big

fullback, blasted over the goal line from three yards away. The first touchdown came on a 16-yard run by David Anderson, passing quarterback turned runner, highlighting the 78-yard march which included five first downs.

The drive took 11 plays with Kelso carrying seven of those, six in succession.

Al Hamblin, who plays end in addition to his placekicking chores, added the single extra point after each of the touchdowns.

In spite of the low score, Bovina seemed to have control of the ball game, especially from the second period on. The win, however, wasn't completely nailed down until the second touchdown as time was running out.

The maroon and white did a good job of controlling the ball

in the final quarter. The hosts had possession for only one series of plays during the last stanza.

The drive which resulted in Bovina's score consumed a major portion of the time in the quarter as it required 18 plays.

The Mustangs put a Bronco punt in play on their own 22 to begin the scoring effort. Kelso was the big gun in the attack as he carried 10 times on the way, the last four in succession.

Meadow made only two threats to score and neither of those was serious. First of those was in second period when they got down to Bovina's 21 before they were caught by fourth down. A fake field goal and an incomplete pass gave the ball to Bovina at that point.

In the third quarter, the Bronchos launched a drive from their 23 after intercepting an Anderson pass. They shoved the ball to Bovina's 26 before fate dealt them a five-yard penalty and the Mustang defense issued them a three-yard loss. With the ball on the 34, a Meadow pass was intercepted by Defensive Halfback Richard Carson and the threat was killed.

The Mustangs led in the statistics department as they totaled 260 yards compared with Meadow's 128 and made 16 first downs while Meadow managed for only four.

Linebacker Phillip Lloyd and Tackle Jerry Lorenz led the Mustangs defensively.

Bovina had a 77-yard touchdown called back late in the third quarter. Anderson passed to Al Hamblin for that one. An offside penalty nullified it, however, and the Ponies then had to get their second score the "hard way."

From a spectator standpoint, the game was marred by an excess of penalties and time-outs. This was especially true early in the game as neither team was able to pick up sufficient yardage in a series of three plays to earn a first down.

Kelso was the workhorse among the Bovina backs. He carried a total of 27 times for 120 yards. Anderson, in addition to completing three passes for 51 yards, picked up 60 yards in 11 tries on the ground. Halfback Lloyd made 24 in six carries while Halfback Dennis Johnston, who was handicapped by an injured ankle and saw limited action, went five times to net eight yards.

A good representation of Bovina fans made the 100-plus mile trip to support their team. This was the second consecutive road game for the Mustangs and the farthest from home.

Commenting on the game, Coach Hallie Gee said, "We didn't play well at all, especially during the first half. I think Meadow had a better team than we were expecting and it was hard for us to get started."

The win brought the Mustangs season record to 3-2. The two losses have been Class A teams, Springlake and Farwell, while the wins have been over

## Colts Best Lazbuddie

Bovina's Junior High Colts made their season football record 2-2 and their district mark 2-1 with a 6-0 whitewashing of Lazbuddie Tuesday of last week.

The game's lone score came on a 20-yard gallop by Bovina's Carl Harris in the second quarter.

The Colts, coached by Carroll Powell, have won district games from Hart and Lazbuddie and lost to Happy. They also lost to Farwell in a non-district tilt.

The Colts had a touchdown called back a couple of plays before they ran the one which counted.

## Outdoors In Texas--

a glance. They'll recognize a spoon bill or a teal. But they have difficulty in identifying a canvas back, sprig or other species.

Same is true of geese. If you see them every day, or if you hunt a good many times each year, it soon becomes easy to know the species. But when the laws say you can't kill but certain species and perhaps only one or two, at that, then it becomes very important to every hunter to know the difference.

I have been told many times about hunters in the rice fields of south Texas finding dead birds stashed away in straw stacks where hunters have hidden them. Such a bird doesn't do anyone any good.

Sometimes we wonder at the manner in which biologists reach their conclusions about bag limits.

Most of them will tell you that legal gun pressure will not deplete the birds. Then they will put a limit on them that is so impractical it results not only in violation, but worse still, in loss of the game entirely.

Same can be applied to turkeys.

In Texas we have an all-gobbler law. Yet in the field every year there are hundreds of hens killed and left in the woods. Occasionally one winds up in the pot, but most of them are wasted.

No sportsman will shoot a hen intentionally. In fact it is seldom that a hen is killed by a sportsman accidentally.

Usually he knows the difference between a hen and a

gobbler. And in hunting season the two seldom run together, unless it is a young tom not yet broken away from the mother hen.

Basically there is no reason for a hunter to kill a hen. But when one is killed, it is a shame that its meat has to spoil. Perhaps a longer look at the system might improve this. Other states have.

Anyway, if you really want to learn how to identify ducks, get off your order right now for one of these new books, "DUCKS AT A DISTANCE"

**Hoblitzelle Award Search In Progress**

A pair of fortunate, hard working Texas farmers or ranchers engaged in unselfish tasks will find themselves next spring amid some unexpected glory reaping a bountiful harvest of green.

The two will receive the 1964 Hoblitzelle Awards for the Advancement of Texas Rural Life -- honors that will be conferred upon them during Texas Research Foundation's Awards Dinner at Renner on Wednesday, May 20.

"Search for the two men is underway through a team of statewide committees," Dr. C. L. Lundell, Director of the Foundation, said this week. "One recipient will be a junior farmer or rancher who is 35 years of age or younger. The other will be a senior who has passed his thirty-sixth birthday."

"One recipient will be a junior farmer or rancher who is 35 years of age or younger. The other will be a senior who has passed his thirty-sixth birthday."

Next May each will be presented an award of \$5,000 in cash, a gold medal and a scroll in recognition of his outstanding contribution to the improvement of rural life. The four year period of service covered by the awards is from July 1, 1959 through July 1, 1963.

Eligibility for nomination for the 1964 Hoblitzelle Awards is open to any farmer or ranchman, Dr. Lundell continued. Any organization, business, institution or person may make nominations to the proper committee. The actual plan of land improvement used by a candidate on his own land will receive prime consideration, the Director added.

"The 1964 awards change a precedent set several years ago when the rural life awards were presented only every two years," Dr. Lundell said. "Keen statewide interest in the 1963 awards prompted the decision to make them again in 1964."

There are five state regional committees -- one in each of the five areas of the State Association of Soil Conservation Districts. Nominations may be made to any member of the regional committee in the area where the candidate lives.

Members of each regional committee are the Area Vice President of the State Association of Soil Conservation Districts, a resident official of the Young Farmers of America, an Area Supervisor of Vocational Agriculture, a District Agent of the Texas Agricultural Extension Service, an Area Conservationist of the Soil Conservation Service and an outstanding banker.

All nominations for the honors must be submitted to the proper committee by December 1, 1963.

The awards are donated by the Hoblitzelle Foundation of Dallas and presented at Renner by the Karl Hoblitzelle Agricultural Laboratory of Texas Research Foundation, administrator of the awards.

The Hoblitzelle Foundation was established in 1944 by Karl St. John Hoblitzelle, Dallas philanthropist, who has been active for half a century in civic, educational, cultural, patriotic and charitable movements.

Winners of the 1963 awards were Bill Lane, Comanche County dairy-livestock farmer

of Gustine, and Richard McAdoo Riley, Travis County dairyman of Del Valle, junior and senior respectively.

NEWS FROM THE

**FARM BUREAU**

BY RAYMOND EULER

Farmers and ranchers do not need to feel inferior politically or otherwise when they look at their contribution to the economy in which they live and participate. The fact that they are a minority group should not make them feel that "There's no use in joining an organization or participating in policy development activities." Here is a

break-down of moneys spent by farmers and ranchers in Texas each year: \$449 million for hired labor and machinery hire; \$389 million for seed, feed, plants, fertilizer and lime; \$310 million for livestock bought and livestock expenses; \$301 million for machinery purchased, repairs, maintenance; \$119

million for petroleum products; \$67 million for construction materials; \$57 million for miscellaneous crop expenses; \$147 million for all other expenses including interest and insurance. The grand total is \$1 billion, 148 million. Merchants, city congressmen, etc. take note. (And they do).

Bill Wedemeyer, Texas Farm Bureau Research and Education Director, questions the advisability of selling wheat to Russia with facts and figures: The amount of the 1963 wheat crop

More grain storage is being built every year to handle the ever-increasing Farmer County production of wheat and grain sorghums and especially the latter. Here a workman is completing installation of an electric motor on an auger high above the ground near the just-completed West Friona Grain company.

placed in the loan program by wheat producers through August 31 amounts to only 79% of the amount placed in the program on the same date a year ago. Also, according to the USDA's Grain Market News publication of Sept. 20, 1963: "Hard winter wheat advanced 4-5¢ a bushel reflecting light receipts and improved demand. Red wheat gained 8¢ with a strong demand for light offerings. Spring wheat went up 5¢ per bushel in Minneapolis as county selling continued light and both exports and domestic demand was good.

Durum wheat climbed 9 to 10¢ largely due to light offerings. White wheat closed six cents higher in the Pacific northwest as export demands became active and farm marketings continue to lag." Wedemeyer also shows that if the poll tax is eliminated \$2,239,189 would be eliminated from the state school fund; \$1,119,594 would be eliminated from the state general revenue fund. Remaining would be the 25¢ fee which provides \$559,797 local funds for collection of the tax.

CONSIDER THIS: Let a bear robbed of her whelps meet a man, rather than a fool in his folly. Proverbs 17:12.

Gifford-Hill Western workmen were busy late this week unloading steel beams which will be used in construction of the new office building being erected at the new plant site in east Farwell.

# GIFFORD-HILL WESTERN EXPANDS PARMER PLANT

Gifford-Hill Western, which began operation in the Farwell area in July 1955, is at the present time in the midst of an expansion program which when completed will house some of the most modern offices, shops and manufacturing plants in the entire Gifford-Hill Western Co. The present plant in Farwell was built during the period July 1955 through October of the same year. At that time the plant was adequate to take care of the irrigation pipe needs of the surrounding area; however with the expansion of the irrigation program in this and surrounding counties the facilities became inadequate to supply the demand for the concrete pipe which the company manufactures and installs.

The facilities under construction (to cost an estimated \$200,000) will include office space for the manager, a bookkeeper-receptionist, dispatcher, office clerk and an inventory clerk; the plant which will be equipped to manufacture not only the old mortar type concrete pipe but also the newer lock-seal pipe, that which fits together and is sealed with a rubber gasket, and a shop where fabrication work and maintenance of equipment will

be done. Site of the construction now underway is a tract of land covering 24.2 acres lying east of the present Gifford-Hill facilities. When completed the operation will be able to handle all irrigation needs of the area in the foreseeable future says, Buck Clarke, manager of the Farwell operation. \* \* \* \* \* Gifford-Hill Western began

operations in Farwell in July 1955 with a crew of three men, a manager, salesman, and dispatcher, located in a small office on highway 70-84 in east Farwell. All pipe sold from that location was hauled in and installed by crews contracted from either the Lubbock or Plainview plants. In October 1955 when the Farwell plant was completed the operation was enlarged to include 25 men, who manufactured the pipe and installed it in this area. The operation has expanded until at this time three salesmen are employed to cover most of a five-county area and additional offices are maintained in

Hereford, Muleshoe and Portales. Other key men in the operation are a plant foreman, two foremen of the installation crews and a dozer operator, with plans calling for a second with the completion of the new plant, in addition to the office personnel. At the present time a crew of approximately 55 men is employed during the slack season with an additional 30 men employed during the busy season, November through May. Other Gifford-Hill Western Co. plants are located in Plainview and Lubbock in Texas and in Roswell. Main office for the company is in Lubbock. The Gifford-Hill company has

plants which cover a five-state area, including Kansas, Texas, New Mexico, Nebraska and Colorado which manufacture other types of pipe and construction needs. **Weight-Recording Equipment New Stockyards Law**

Raw milk can be produced with a bacteria count of under 10,000 per cc with average conditions on Texas dairy farms. And with a little extra care in washing, cleaning and sanitizing equipment it can be reduced to less than 3,000. Milk temperature, the health of the cows, milking equipment, udders and teats, and the milking parlor should be checked when unusually high bacteria counts persist. A good swine management program should include a boar lot of about one-fourth acre in size, with shade, water and a feeding area.

Horse mounted patrols were employed by U. S. Marines in Santo Domingo and later in Nicaragua.

The Lazbuddie folks held their community fair this past Monday and I don't believe I have ever seen a better group of exhibitors. I certainly think the Lazbuddie people are to be congratulated for the way they work together and especially the way they help their young people. This year we have a good bit of grain sorghum where the kernels failed to develop completely,

and to date we have not been able to completely distinguish the exact trouble. Our plant Pathologist suspected nematodes, so several soil samples have shown nematode numbers to run between 100 and 500 to the pint. These stunt nematodes can be a severe pest of sorghum. It seems that sorghum fields all over west Texas have had this trouble and to date no single cause can be found for the failure of the kernels to fill properly. It appears that anything which may affect the development of the root can later affect the head through failure to supply adequate nutrients and moisture to the plants, 2,4-D could cause some of this trouble, by causing roots to be injured. In some cases improper fertilization and irrigation could be the trouble. There are many things that could cause abnormal kernel development and I certainly think that we should rotate our crops as much as possible. With the farm programs we have now, everybody should be able to rotate most of their crops.

## Soil Testing Labs Being Kept Busy

The three soil testing laboratories operated by the Texas Agricultural Extension Service at College Station, Seymour and Lubbock tested 1,997 soil samples during July and August. The Service reported that the number was about normal for this season, but noted a sharp increase for August. This increase was attributed to the preparation of farmers for small grain planting and the fertilization of winter pastures. The four top counties in numbers of samples submitted for testing were Taylor with 254; Travis, 213; Brockmorton, 80; and Harris with 79. Six other counties submitted 50 or more samples and in order of numbers were Montgomery, Washington, Archer, Kaufman, Milam and Young. In addition, 9 samples were received from New Mexico, 8 from Oklahoma and 6 from Nevada. A new service, water testing by the laboratory at Texas A&M University, has been offered since September 1, 1962. A total of 471 water

samples were analyzed by the lab during the 12-month period ending August 31. Water analysis at the lab is made only on water used for plant growth or livestock consumption. Water to be analyzed for human consumption should be submitted to the Public Health Service in Austin, the lab technicians pointed out. In connection with the submitting of water samples, the technicians said that samples should be sent to the lab in plastic containers. The containers should be rinsed with the water to be analyzed at least three times before being filled to prevent contamination. The samples should be well packaged for mailing. Several samples have been broken in transit during the past year because of careless packing. The counties submitting the most water samples were Tom Green, Childress, Fisher, Nueces, Kent, Frio and Scurry. In addition to the samples analyzed for Texas, 15 samples were received from California.

Mechanical weight-recording equipment will be required on all scales owned by stockyard owners, livestock dealers, market agencies, and meat packers subject to the Packers and Stockyards Act, says the U.S. Department of Agriculture. The requirement is contained in an amendment to the Act effective September 30, the Department says. The amendment says that all livestock scales owned by P&S Act registrants, stockyard owners and packers must be equipped by January 1 of 1965, with a type-registering weighbeam, a dial and mechanical ticket-printer, or a similar device which mechanically prints or stamps the weight and values on scale tickets. Packer and Stockyards officials explain that such a device helps to eliminate errors in recording weights, and reduces the opportunity for altering weights on scale tickets. Equipping a scale with such a device does not require installation of new scales, USDA says.

Justin McCarty adds just the right touch of sophistication to the jumper with the interesting shaped body lines, and the check plaid that combines black and white with thin lines of blue, red, or gold. # At Home In Parmer County

By CRICKET B. TAYLOR  
County HD Agent

How is your breakfast I.Q.? These cool fall mornings call for a good breakfast, with so many activities planned for the day. A good breakfast is one that is attractive, tastes good, gives you energy and furnishes material for building the body. It will supply one-fourth to one third of your daily food requirements. One cannot feel perky on an empty stomach. At breakfast it has been 12 or more hours since the body has had food and your body needs fuel to start the day feeling full of vim and vigor. Actually food is the most urgent need of your life and the most important influence on life.

There is a breakfast pattern to meet each person's need. A teenage girl does not need as heavy a breakfast as a teenage boy or his father. The office worker who sits at a desk does not need as heavy a breakfast as the very active homemaker, but all need breakfast. Breakfast is one of the quickest meals to prepare if planned ahead.

A good breakfast includes a fruit or fruit juice which acts as an appetizer early in the morning and this is easy to prepare. This is the time to get that very important vitamin C or ascorbic acid which is needed daily for good health. Research Nutritionists tell us that Vitamin C is necessary to the healthy growth and maintenance of bones, teeth, tissues and blood. You need a daily supply because you can store only small amounts. It is true to say that Vitamin C actually holds your body together. This Vitamin (found in greatest amounts in citrus fruits and cantaloupes) is vital to the material which holds the billions of body cells together like cement holds bricks.

Milk is a part of every good breakfast for children, teenagers and adults. Over cereal, to drink or in other beverages - its high in calcium needed for bones and teeth and a rich source of protein.

Eggs are a good source of protein, vitamins and minerals. Research has proven that a breakfast including high quality protein such as egg, milk or meat is more satisfying and prevents fatigue longer than breakfast without animal protein.

Bread and cereals are a part of a good breakfast. Nothing is better to serve with ham and eggs on a cold frosty morning

than a good hot biscuit. Some women tell me that they don't always have time to prepare hot biscuits and too, with only two in the family preparing such a small amount seems impractical. Here is a good way to overcome this problem. Try Whiz Biscuits. (Brown & Serve)

### WHIZ BISCUITS

12 cups all-purpose flour  
6 T. Baking powder  
3 1/2 to 5 1/2 C. milk  
2 T. salt  
1 1/2 cup shortening  
Sift dry ingredients together into large bowl, putting salt and baking powder into first sifter load. Cut in shortening with pastry blender until evenly blended. Gradually stir in milk, enough to make a very soft sticky dough which pulls away from sides of bowl easily. Turn into floured board or canvas. Knead lightly until smooth enough to roll. This takes 40 to 50 strokes. Divide into 3 parts for easier rolling. Roll or pat 1/4 to 1/2 inch thick. Cut into biscuit shapes, various sizes for various uses.

Bake on ungreased sheets in very hot (450) degrees oven until faint flecks of brown shows on top, 6 or 7 minutes.

Remove to wire racks to cool. Store in plastic bags in the refrigerator or freezer. (Those you plan to serve right away, bake 12 to 15 minutes, to a golden brown.)

To finish baking the partly-baked biscuits which have been stored: Place in 450 degree oven 5 to 7 minutes, or until nicely browned.

Note: Biscuits rolled 1/4" thick bake just right for the various uses we suggest, including those you serve piping hot with butter.

Many products have been used to control pests on agricultural crops. Lime-sulphur, compounds of arsenic, lead, mercury and copper, coal tar products, soap, petroleum products, and plant extracts such as pyrethrins, rotenone, and nicotine are among them.

Small children are often injured while riding on farm machinery. They are also hurt in driveways and work areas and should be kept away from these areas unless properly supervised.

## Texans Lose Thousands Of Dollars To Termites

Few insect pests are more discouraging or annoying to a homeowner than hungry termites, says John G. Thomas, entomologist with the Texas Agricultural Extension Service. Texans lose thousands of dol-

lars each year satisfying the enormous appetite of this tiny wood-chewing pest, he says. Nothing short of financial or natural disaster is more damaging to the homes of Texans in some areas.

trolling termites is to read the label carefully and follow its instructions to the letter, warns Thomas.

### Houseflies Produce Attractant

Science has moved a step closer to biological control of houseflies with the discovery that female flies produce a chemical substance that attracts male flies, says the U.S. Department of Agriculture.

Entomologists have found that the substance is highly specific in its attraction, not attracting female houseflies or flies of other species. The Department says that though more work is needed before the attractant is practical, it could be a preliminary step in developing new ways to control this insect pest.

The substance may be used to lure male flies into traps, to poison baits, or to a chemical sterilant. A prime advantage of attractants is that any chemicals combined with them do not come in contact with people, crops, livestock, fish or wildlife, the USDA explains.

Scientists of the USDA tested the attractant with the use of a device which did not allow the male flies to see the females. Female flies were also frozen so that they made no sound and placed in the device and the male flies once again were attracted to them. From these tests researchers conclude that the smell emitted by the females was the attracting force.

Future work on the project will attempt to isolate, and chemically identify the substance and learn where it is produced in the female fly's body. By the use of such attractants USDA scientists hope to be able to develop insect control methods that are specific in their action and thus lessen the danger to beneficial forms of life.

For the house already infested, several insecticides are recommended. Five percent DDT and two percent chlordane are the two most common materials, but dieldrin, lindane, and sodium arsenite are also effective, says the entomologist. Injecting a .5 per cent gamma isomer of BHC in fuel oil into the tunnels of the termites is also effective, says Thomas.

A precaution on the use of any of these chemicals for con-

## Freeman Schedules 13 Rural Report Meetings

Secretary of Agriculture Orville L. Freeman will begin Sunday, September 8, a series of 13 "Report and Review" meetings with farmers and other citizens in rural America in nearly every section of the country during the next two months.

"I intend to get out and talk with dirt farmers throughout the country. I want to listen to what farmers are saying and thinking, and to find out what individual attitudes are toward the

way programs are being administered, toward farm legislation, and toward the Department of Agriculture," Freeman said.

Here in Washington, the grass roots thinking from rural America is being drowned in a babble of voices. Farm organizations disagree as to what the farmer is saying as well as the kind of program -- or absence of program -- he wants. The Congress is sharply divided on legislation, and has been for years. Newspapers and magazines claim they know what the farmer is thinking and what is good for him, but you can get almost as many different opinions as there are magazines and newspapers.

"As a result, we are hearing more today from those who say they know what the farmer wants than we are from the farmer himself. Since I have been in public life, I have learned the best way to find the most practical program is to go to the

people directly. Personally, I look forward to these meetings with great pleasure and expectation.

"And I hope that as I listen to farmers, other people also will listen to what the farmer on the land is thinking and saying. The farmers of this Nation -- who feed us better and cheaper in proportion to our income than in any Nation today or in history -- have earned the sympathetic attention of the American people.

"We are moving through a period of profound and irreversible change in American history, not only in the city and factory, but in the towns and on the farms as well.

These changes flow from the same root cause -- automation and mechanization, products of an age of science and technology -- but the meaning and impact of these changes on the farmer are even less well understood than the changes in

the industrial segment of our society.

"Few Americans understand the dilemma of a farmer who wants to use all his land efficiently and to produce food to his maximum ability -- and yet who knows that if he does, he will produce more than can be sold at a fair profit. Yet this dilemma is being distorted, for the farmer is far too often pictured not in relation to the economic crisis he faces, but rather as a man who wants to be subsidized and pampered. The farmer wants to resolve his dilemma -- and he wants to do this even more strongly than do those who enjoy the benefits of our super-efficient agriculture."

The Secretary said the meetings are being arranged in small communities in 11 States selected geographically to reach nearly every major agricultural area in the Nation.

# SUBMERSIBLE PUMPS

Left to right are Eulis Waggoner of Dimmitt and O. D. Scheller, owner and operator of O. D.'s Pump and Machine Shop of Earth. The water is 350 feet down and being pumped up by this 40 horse power motor.

Since the U.S. Submersible Pump operates entirely in the well, it has many advantages over the standard shaft-type deepwell turbine pump. The submersible pump can be lowered to any depth desired where it will furnish years of efficient, automatic, trouble-free service without adjustment during or after installation. Because there is no power-drive shaft, no shaft alignment is required nor are costly replacements of bearings and shaft ever necessary. Submersible pumps are especially adaptable to crooked wells and to situations where surface space is too limited to permit building a pump house. Being in the well U.S. Submersible Pumps are unaffected by floods or atmospheric conditions; positively cannot contaminate water and are safe from vandalism.

This submersible pump is being installed by Francis Kelley, left, and Wa'lon Scheller, right. This three stage pump will pump 600 gallons of water per minute from a depth of 350 feet.

### NEW PLUS-FEATURES are now available!

- ★ Vitrierglass, porcelain-lined water passages to resist corrosion and sand damage
- ★ Long bronze bearings on each side of each impeller
- ★ Extra-heavy, all stainless steel shaft to prevent vibration and give long life
- ★ High operating efficiency to keep power costs at a minimum
- ★ Hand-finished bronze impellers; balanced for smooth operation
- ★ Heavy cast iron bowls; performance-proved for years on shaft-type pumps
