## ASKS CO-OPERATION

Lady-Manager of West Texas Fair  
Solicits Aid of the People

It is appropriate right now to call the attention of every one interested in the West Texas Fair, and that should mean everybody in West Texas. That in order to make the Fair a success we have got to get to work at once.

We want to get the advantage of every kind of fruit and agricultural product, and that means, start now.

To the women: I would say, prepare any and everything, from now on, until the Fair. Fruits, flowers, preserves, pickles, catsups and condiments; jellies and can goods of every variety you can get; wines, vinegars, and of course all kinds of needlework.

To the men: Every one of you who has any kind of a fine animal, bring it to the Fair. Don't sit back because you think it won't get a prize, bring it along. It is not the prize you are after, it is to have a Fair that is worth coming to. To have such a Fair everybody must get up and hustle and help.

But it is too much trouble—  
Well, just stop and think if we lady-managers and assistants don't have to take a lot of trouble. So come and help us.

Yours for the success of the Fair.  
MRS. C. C. LOCKETT,  
Lady-Manager.

### Died.

Mr. M. Cumings died at Snyder, Oklahoma, Sunday, May 30. The body was taken to the old home at Leonard for interment. Deceased was a son-in-law of Capt. T. Thomas, of Kerrville. He leaves a widow and no children.

### Says Angoras Are Doing Fine.

J. W. Garrett, the pioneer Angora goat breeder, was in Kerrville from his ranch near Segovia, Kimble county, Tuesday. Mr. Garrett said goats were in fine condition, after having been shorn of a splendid crop of mohair. The veteran ranchman is not at all despondent over the prevailing low prices of the product, and says there is no doubt that there will be a strong demand for mohair in the near future. His idea is when the goats of this section are bred up to a point where the mohair is of the very highest quality, the matter of demand will be settled to the satisfaction of the grower.

### Participates in Athletics.

Oswald Herzog, who is a student in the Columbia, Mo., college, and is a member of the athletic team in that institution, is spending the week in Des Moines, Iowa, where his team is taking part in the athletic contests. He will arrive in Kerrville early next week to spend the vacation with his parents, Mr. and Mrs. N. Herzog.

### Children Make Long Trip.

Bryan and Burnett Pharr, age 12, and their little sister, Oneda, arrived in Kerrville last Saturday, from Douglas, Arizona, making the long journey by themselves. They are the children of J. M. Pharr, formerly of Kerrville, and will spend the summer with their aunts, Mrs. J. B. Mosby and Miss Lucy Pharr, of this city.

## EFFECTS ORGANIZATION

Kerrville Summer Normal Gets Down to Work

The opening program for the Kerrville Summer Normal, as published in these columns last week, was performed as stated.

In his address of welcome, Judge Wallace said:

"In my time I have tried to make public speeches covering a latitude of subjects from Mary's Little Lamb to the grave responsibility of defending a man charged with the first of human crimes, but I assure you that this is my maiden effort—that I am now playing my first engagement on a Welcome Address. Realizing that I was to tread an uncertain path I sought information from some of my friends. Prof. Morelock shined his eyes, shrugged his shoulders like a Frenchman and said, 'Most any old thing will do.' Next was a lawyer friend whom I know to be an expert at functions. One who could ladle out the vocal soothing-syrup without spilling a drop. Now what do you suppose he said? 'Blow the bubbles at 'em, smear them over with sweat em-darments and close with a hot-air serenade.' This gave me no surcease from my sorrow. And like all bewildered, undone creatures, I went to a minister of the Gospel, and what do you think Bro. Barton told me? 'Go down and turn them over the keys of the city.' I presume he intended this as a figure of speech, for I know if he does not, that there are no keys to this city—except on Sunday, and the Baskin-McGregor law prohibits their being turned over on Sunday."

Following this Judge Wallace discoursed at length upon the noble service being rendered to state and nation by the profession of teaching. Paying tribute in glowing terms to all teachers in general, and to the teachers of Texas in particular. In closing his address, the Judge said:

"In behalf of a city that can't be surpassed this side of the New Jerusalem, in behalf of a people as generous as a prince of the royal blood and as pure of honor and motive as the heroes of romance, in behalf of a climate, an atmosphere that will clear your vision and make thinking easy, in behalf of that beautiful, rapid, winding, strange, almost eccentric river, in behalf of these patient and waiting mountains with all of their changing wonders, in behalf of the good that you may do us and that we may do you, in behalf of these high and holy things, I welcome you, and tell you that you are free to exchange hopes and go without a password."

Prof. A. R. Thomas responded happily to the address of welcome after which the Normal proceeded to organize.

The attendance is large and everything points to a season of excellent work.

### Married.

Harvey Mosty and Miss Lee Hodges were united in marriage at the home of the brides parents, near Center Point, Sunday June 30, Rev. T. N. Barton officiating.

The bride is a daughter of Mr. and Mrs. J. R. Hodges, and is very popular in society circles of that community. The Groom is a son of L. A. Mosty, whose home is near Kerrville, and is a young man of many sterling qualities. The newly wedded couple will make their home at Center Point.

### Rock Springs Goes Wet.

Rock Springs, Texas, June 1.—A local option election was held in this precinct yesterday. The result was a majority of 23 for anti-prohibition.

### Sells Land.

Henry Henke sold to Ernst Kott 507 acres of raw land on Wolf creek, Gillespie county, for \$10 per acre.

## METHODIST REVIVAL IN PROGRESS

Rev. R. A. Waltrip, Methodist Evangelical Minister is Conducting Interesting Meeting at Kerrville Methodist Church

The protracted meeting at the Methodist church continues to grow. Crowds are increasing and interest is deepening at each service. The singing has been good and will be better as the meeting grows. When you fail to hear the Evangelist you miss a mental and spiritual feast. He will take for his subject next Sunday night, "The Judgment." At each service a subject of vital importance is discussed by Rev. Waltrip. Mr. Waltrip is a master of well chosen English, an orator of ability, and a powerful preacher. His discourses sparkle with interest, and are clear, cut and incisive, reaching the very kernel of the subject under discussion.

Tomorrow at eleven the subject will be, "Heaven and It's Joys," tomorrow night, "The Judgment." Members of other churches, and the general public are cordially invited to attend.

### Holding Mohair for Favorable Market

E. F. Vander Stucken Co., of Sonora, have in their warehouse in Sonora, 20,000 pounds of the choice mohair of the Devil's River Country, but Mr. Vander Stucken says the market for mohair is unexplainably dull and no sales are being made at present. The spring clip of this firm's customer's wool, probably 150,000 pounds, is being shipped to Kerrville to be sold by the veteran wool man, Captain Charles Schreiner. Mr. Vander Stucken thinks that good prices will be received for this season's clip as the wool is particularly light this season. Between 18 to 20 cents per pound is expected and it is to be hoped the expectations will be realized.—Devil's River News.

### A Surprised Bachelor.

A large party of the friends of Frank Brady surprised him at his bungalow home on Washington street, on Friday night of last week.

A bachelor, smoking his pipe at the close of day is apt to "see things," but he gets used to it in a measure. When a fellow sees a whole bevy of pretty girls, and not only sees but hears them, he is likely to sit up and take notice. That is what Mr. Brady did, and he also noticed that the aforesaid bevy were chaperoned by certain staid and dignified men of years and their worthy spouses. He also noticed that each member of the company had brought along a present of some useful household article that would delight the heart of a bachelor. A feast was served, the evening happily spent and when all was over Frank sighed and said to himself, "They left many presents, but it seems like there is yet one thing shy."

### Pioneer Citizen Visiting Here.

Capt. John Sherman, from whom the famous Sherman's mill fishing grounds took its name, is visiting relatives here. Capt. Sherman is a Kerr county pioneer, but a few years ago he removed to Austin, where he now resides.

### Killed by Lightning

London, Tex., June 3.—James Amberson, age 52, was killed by lightning here at three o'clock this afternoon. Mr. Amberson was a prominent citizen, a farmer, and one of the pioneers of Kimble county. He settled at London in 1872, and has resided there since that time. He is survived by a wife and six children.

### Saw the Meteor.

Several persons in Kerrville saw the meteor Sunday night. It had the appearance of a huge ball of fire, having an attenuated tail. It was traveling from east to west and appeared to fall just after passing the city.

## SUCCESSFUL MEETING

Baptists Hold Fifth Sunday Meeting at Bandera

## CHURCH DEBT PAID

Also Large Fund Raised For Other Purposes

The fifth Sunday meeting which began at Bandera, Thursday evening, May 27, and closed Sunday night, May 30, was one of the most successful meetings held in this association of the Baptist church for many years.

Aside from the splendid program of the meeting, which was fully carried out to the great benefit of all who attended, much church business was transacted.

The church society at Bandera has just completed a handsome new church. A balance of \$400 was unpaid on the new building. At the meeting that amount was raised and paid in full. In addition to that \$150 was raised for pews for the new church, a like amount for other purposes.

The attendance from various points in the Medina river association was very large. Kerrville was represented by Rev. and Mrs. R. A. Cochran, Rev. and Mrs. J. T. Mayhugh, Mrs. W. H. Rawson, Mrs. J. T. Rawson, Mrs. R. S. Newman, Mrs. Patti Hannis, Miss Nona Shelburne. The Kerrville contingent returned home Monday.

### Home For Vacation.

Miss Mabel Davey, who had been teaching at Lockhart, returned home Wednesday. Miss Davey will teach in Tivy High School next term.

## EASTERN STAR ENTERTAINS

Center Point Chapter Spreads Feast in Honor of Kerrville Chapter

On Wednesday evening twenty-eight members of Kerrville Chapter, Order of the Eastern Star, went to Center Point, and were guests of Center Point Chapter. The Center Point ladies covered themselves with glory in their demonstration of the floor work of the Order, and completely won the hearts of the Kerrville Chapter by their generous hospitality and ability as entertainers.

The Worthy Patron of Center Point Chapter is that venerable and popular Mason, Capt. Neal Coldwell, and the Worthy Matron is Mrs. A. B. Davidson, who is a most lovable lady. These two assisted by a membership of ladies and who are the peer of any, made the evening a most happy and profitable one. Those who went from Kerrville were:

Mr. and Mrs. J. L. Vining, Mr. and Mrs. Otto Diert, Mr. and Mrs. H. Renschel, Mesdames J. E. Grinstead, J. W. Vann, J. M. Hamilton, A. W. Henke, W. A. Fawcett, Geo. Morris, Geo. Colvin, Townes, Robinson, T. B. Elder, Wm. Boeckmann; Misses L. May Rees, Nona and Callie Shelburne, Mary Gowan, Hattie Colvin, Ada Dowdy, Ruth Anderson, Tennie Gardner; Judge Ben H. Kelly, Dr. E. Galbraith and R. B. Knox.

### Ragland Ranch Leased.

J. M. Thompson has leased the Frank Ragland ranch on the Divide, consisting of 5,000 acres. Mr. Thompson also bought 25 cattle from Mr. Ragland. Mr. Ragland will probably locate in Kerrville.

**EDUCATING JAPANESE WOMEN.**

The matter of educating women in Japan is being given more and more attention by the government. There are at present 16 normal schools in the country devoted entirely to women and each year the government sends at its expense one or more of the most promising pupils to foreign countries to study. Such women, on their return, are under agreement to teach for at least six years in the schools of their own land. The university for women in Tokyo, an institution which is not yet ten years old, has 1,300 pupils and 700 alumnae. The course of instruction compares favorably with that in American universities and the charge for tuition alone is only \$14 a year.

**Women Who are Envied.**  
 Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate Stomach, Liver and Kidneys, purify the blood: give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at Rock Drug Store.

**Well Answered.**  
 During the encampment of several regiments of British soldiers in a certain district the wood and turf used for cooking purposes were carted by the neighboring farmers. One day a donkey-cart full of turf was brought in, the driver being a country lad. As a regimental band was playing, he stood in front of the donkey and held the animal tightly by the head. Some of the "smart ones" gathered round, highly pleased, and the wit of the party asked why he held his brother so tightly. The reply was crushing: "I'm afraid he might enlist."

**FOR WALL STREET SUCCESS.**

Just a Few of the Qualifications Necessary if One is to "Beat the Game."

The clergyman who says that he can take "a \$100 bill, a pencil and a pad" and make a fortune in Wall street recommends the process only to those who possess one important qualification. They must know the game. Given that, the rest is easy. To know the game thoroughly it is necessary to be in the confidence of the board when ten per cent dividends are to be declared; to learn ahead of the crowd what stock is next to be marked up on the strength of rumors of dividend guarantees; what bankrupt road is to be sold to a system; what manipulation the bull pool is about to undertake, and to have other advance information equally helpful. It is given to few to possess this knowledge, no doubt by a wise provision of nature which permits the many to be sacrificed that the most fit may survive. If it were possible for any one with a \$100 bill to become a Wall street millionaire the aggregation of swollen fortunes would menace the republic. Doubtless in the case of the clergyman in question the gain to the ministry involved the loss of a magnate to the financial world. But for the ordinary run of speculators there is no place where a little learning is so dangerous a thing as in Wall street.

**Lightning's Antics in a Church.**  
 Lightning struck the steeple of the little village church of Gassin, near Toulon, France, the other day. The electrical fluid, it is stated, followed the iron cable which is used to ring the church bell and set the bell ringing. Then it tore the door off a cupboard containing a number of candlesticks and lit all the candles as though by enchantment.

It completed its antics by ripping up the floor of the sacristy, but, so it is said, previously rolled up the carpet with perfect symmetry.

**ARTIFICIAL FLOWERS IN BALL-ROOMS.**

Natural flowers are a departed glory just now. The craze for oddities in decoration is at its height. At a ball the house is filled no more with flowering plants and crystal vases of roses or carnations. The dear, familiar screen of green for the musicians in the ballroom has vanished. The entire room is bare. Little fat jardinières bearing pine trees are fashionable for supper parties, so are dwarf orange trees with fruit. Mrs. Anthony Drexel decked her mansion in London with fine silk pear blossoms with artificial trailing arbutus as an offset. London has put the seal of approval on artificial flowers for the house; London, which for years scorned a few American hostesses who had artificial palms in their drawing rooms.

**Bean Milk.**  
 "Pigeon milk is a myth," said a milkman, "but there actually is a bean milk. It is drunk, put in tea and coffee, and even frozen for ice cream. The Japs are its inventors. This milk is made of the Soja bean. The bean is first soaked, then boiled in water. After the liquid turns white sugar and phosphate of potash are added, and the boiling is kept up till a substance of the thickness of molasses is obtained. Nobody could tell this bean milk from condensed milk, and when water is added it can't be told from the fresh. The Japanese poor use nothing else."

**Well-Stocked.**  
 Last summer a typical down-easter furnished a New York author, who had a cottage in a Maine village, with farm produce.

One day when the man called with a wagon-load of vegetables, the author, wishing to make himself agreeable, asked how much stock he kept on his farm.

"Five cows an' a bull," enumerated the farmer, "and two yokes of oxen, a calf, a hoss an' three shares of Maine Central."—Youth's Companion.

**If You are Worth \$50,000 Don't Read This.**

This will not interest you if you are worth fifty thousand dollars, but if you are a man of moderate means and cannot afford to employ a physician when you have an attack of diarrhoea, you will be pleased to know that one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure it. This remedy has been in use for many years and is thoroughly reliable. Price 25 cents. For sale by all druggists.

**LOST BET ON HIS WIFE.**

John B. Richards laid a wager with a friend that his wife would not make an engagement with the friend. The stake was a new hat. He lost the hat. Now he's afraid he will lose the wife.

A divorce suit has been brought against him by his wife, in which she accuses him of having a man call her up and represent himself to be a friend of her brother and ask her to meet him in East St. Louis in regard to railroad transportation.

Mrs. Richards she kept the appointment, and while she was talking to the man her husband appeared and accused her of "making dates" with other men. Richards admits it was a put-up job and says he's sorry, because he lost the hat.—St. Louis Dispatch to New York World.

A young woman living in the neighborhood of Thirty-third and Cumberland streets the other morning bought at a near-by grocery a dozen eggs. On one among them there was scratched the name, with address, of a young farmer up the state. He had also written on the egg a request that the person buying it write to him.

The young woman wrote a letter to the tiller of the soil and received an answer in which the farmer declared himself pleased at having heard from her, etc. He wound his letter up with: "I hope you did not eat the egg, as I wrote that on it a year ago."—Philadelphia Record.

**A Thrilling Rescue.**

How Bert R. Lean, of Cheney, Wash., was saved from a frightful death is a story to thrill the world. "A hard cold," he wrote, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever." For Lung Trouble, Bronchitis, Coughs and Colds, Asthma, Croup and Whooping Cough its supreme. 50c and \$1.00. Trial bottle free. Guaranteed by Rock Drug Store.

**Oriental Philosophy.**

It is good for our arrogant western spirit to meet the calm, if somewhat backward, philosophy of the orient. When the motor cars which raced from New York to Paris went through China, the Chinese were not alarmed or excited. A mandarin blandly explained it thus: "There is nothing extraordinary in the motor car. There is nothing extraordinary in anything. Men invented it yesterday. They will invent something else to-morrow. Still the world goes round, and we are not an atom the happier." A refreshing draft of cool wind upon our fevered progress.—Youth's Companion.

**Of Interest to Farmers and Mechanics.**

Farmers and mechanics frequently meet with slight accidents and injuries which cause them much annoyance and loss of time. A cut or bruise may be cured in about one-third the time usually required by applying Chamberlain's Liniment as soon as the injury is received. This Liniment is also valuable for sprains, soreness of the muscles and rheumatic pains. There is no danger of blood poisoning resulting from an injury when Chamberlain's Liniment is applied before the parts become inflamed and swollen. For sale by all druggists.

**WHEN SHE MADE CAKE.**

"This is lovely angel food," said she, tasting the cake at the high tea. "Did you make it? Wonderful. I never tried to make angel food but once. I took all day to make it, walking very lightly while it was in the oven, hardly daring to breathe. Then when it was done I put it in the sideboard. The next morning they had to use a derrick to move the sideboard in order to sweep under it. That is, that's the story my husband tells about it. You know how husbands are."

GOVERNOR CAMPBELL is making the appropriations bill look like it had attended a two-night "bailee." The Governor has long been expert with the political "double six," but he has blocked the game for a lot of the peanut politicians when he vetoed the normal scholarship appropriations. That was a very proper thing to do. The giving to each senator and representative six of these scholarships each year was a species of political graft.

WHEN the time shall come that the press of the country cannot speak plainly and frankly of public affairs, without being liable to charges of libel, then the people will have lost their only safeguard against oppression.

PEOPLE who are afflicted with too many white corpuscles in the blood should take a dose of "hustle."

THE Uvalde Leader-News published an illustrated edition May 28, that ranks with the best efforts of the kind ever made by any paper, of any class, in Texas. The publication is profusely illustrated, printed on book paper and filled with the kind of reading matter that does good for Southwest Texas. Uvalde is a good town, the Leader-News is a good paper and the people who gave the support that made such an edition possible, are bound to be "live ones."

WHEN you hate a man very bitterly, examine yourself and see if you are not just a little bit afraid of him. Not physical fear, perhaps, but the greater fear that, perhaps, he out measures you a little in every way.

**Raisers Will Have Inning.**

Fort Worth, Texas, June 1.—After cross examining the appellant's witness, James Peabody, statistician for the Santa Fe of Chicago, for two days and a half, Sam Cowan in the cattle rate hearing before Master in Chancery Seddon, Tuesday afternoon finally dropped the witness at the close of the afternoon session, which completes the case for the railroad.

Wednesday the commission and the cattle raisers will begin their unning in the case involving in the neighborhood of \$1,000,000.

It developed at today's hearing that the cattle shipments on the Santa Fe did not comprise 5 per cent of the freight shipments of the road. In diving into the reports submitted at the hearing by Mr. Peabody, Mr. Cowan sought to show from the witness that some of the costs tacked upon the cost of handling the cattle from different points was really incidental to other classes of freight and should be justly borne on such other classifications. The matter of the utilization of empty stock cars as a means of conveying other freight when not in use for cattle shipments was thoroughly gone into and Mr. Cowan finally asked Mr. Peabody if he had ever made a detailed report covering that point. Upon receiving a reply in the negative Mr. Cowan asked him if it was not possible to get such a report.

"It is," was the reply. "By keeping track of about 1,000,000 waybills a month."

**Taft Pushes Button Which Starts Wheels.**

Seattle, Washington, June 1.—The Alaska-Yukon-Pacific Exposition, the first sod of which was turned exactly two years ago, was officially opened at noon today. The military parade, the speeches, President Taft's signal, the magic response—all were carried out exactly as planned.

When James J. Hill was introduced 40,000 persons cheered and it was several minutes before he could begin his address. The program builders had omitted to count on this ovation, and when President Taft pressed the golden key at noon and touched off the big signal gong, he cut short Bishop Kestor's benediction.

Some of the best men who have ever lived have no tall monuments erected to their memory because they were not good self-advertisers.—Galveston News.

**Blucher's Lost Opportunity.**

M. Arthur Chiquet tells, in L'Opinion, a story of Napoleon and Blucher. The emperor received the general at the Castle of Finkenstein while he was preparing for the siege of Danzig. He drew him to a window in an upper story and paid him compliments on his military gifts, and Blucher, going away delighted, described the interview to his aide-de-camp. "What a chance you missed!" exclaimed the latter. "You might have changed the whole course of history." "How?" "Why, you might have thrown him out of the window!" "Confound it!" replied Blucher. "So I might! If only I had thought of it."

We have every prospect of making good crops. Everybody has gone to work with vigor and we will come out all right in the end in spite of the drought that prevailed earlier in the season. It has cut the grain short, but the cotton and corn will make yet.

**Broken Rope Spoils Flight.**

Brownsville, Texas, May 31.—The attempted flight of the New-man aeroplane at West Brownsville Saturday afternoon proved a failure, due to the breaking of a rope by which the machine was being towed by a 77-horse-power automobile.

The auto had made a good start and the rope snapped and the aeroplane darted to one side of the road, one wing of the machine being caught in the brush and partly torn away. Had not this accident occurred the flight of the machine would have been successful in the opinion of the crowd present. Another trial will be made some time next week.

The loss will probably be a complete one, and it is estimated at about \$1,500. There was \$1,000 insurance on the house and \$500 on the furniture. It is supposed the fire originated from the kitchen flue. Mr. Staples is one of the proprietors and editors of the San Marcos Leader.

**Rains a Foot at Natchez.**

Natchez, Miss., June 1.—As a result of the torrential rains of the past seven days, including today, the streets of the city are in bad condition. The total rainfall during the past week has been one foot.

The embankment under the Natchez & Southern tracks caved away for about twenty feet, leaving the tracks unsupported, wrecking a large wooden aqueduct connecting the canal sewer with the South Canal Street bayou and forcing the heavy timber against the piles of the Mississippi Central trestle, forcing them from their position and placing the bridge out of commission for a few days. Workmen have been placed at the branches on both roads and it is expected to have them ready for traffic some time tomorrow night.

H. Remsche, W. M., A. E. Self, S. W., A. W. Henke, J. W., R. B. Knox, Treasurer, J. J. Davidson, Secretary, Rueben Vining, tiler. A public installation, to which all Masons and their families are invited will be had on Thursday night, June 24, at the Masonic Hall.

MORAL SENSE IS FORGOTTEN

Hard to Understand Why Distinction Between Right and Wrong Is Not Present in Dreams.

But if, as many writers have suggested, it is the soul itself that guides the imagery of dreams, how are we to explain the fact that in this chaos of ideas and feelings there is so little distinction between right and wrong that, when dreaming, we commit acts for which we should weep tears of blood were they as real as they seem to be. As Prof. Hoffman has said: "The familiar check of waking hours, 'I must not do it because it would be unjust or unkind,' never once seems to arrest us in the satisfaction of any whim which may blow about our wayward fancies." From all of which we must conclude that the dream realm is a world that is entirely oblivious to any moral sense, and that, though it may be true that a troubled conscience may produce or affect our dreams, the dreams themselves are never burdened with a conscience.—John R. Meader, in Bohemian.

Moonlight Picnic.

The members of the Kerrville Social Club loaded a couple of wagons with themselves and baskets of good things to eat Tuesday evening and went out for a picnic. Arrived at a picturesque spot on the river, where the moonlight silvered the cypress tops and dimpled the cheeks of the laughing river, they kindled a fire, made coffee, spread the cloth and proceeded to revel in the joy of "a bivouac of feasting fairies."

WILLING TO LET MATTER DROP

Prisoner Was Mope Than Ready to Save the Valuable Time of the Court.

"Jed Blake to the bar," ordered the judge in a rural Alabama court. A big, hulking negro ambled up to be arraigned for murder.

"Jed," began the judge, "you are charged with the gravest crime known to the law, that of taking the life of a fellow man. One of the forms of punishment for murder is death. Have you made any arrangements for your defense in this case, Jed?"

"No, suh, judge. I ain't done nuthin'."

"Have you a lawyer, Jed?"

"No, suh, judge. I ain't got no lawyer. I ain't got nuthin', judge."

"Well, Jed," said the judge, showing a little impatience, "have you talked to anybody about this case?"

"I talked to de sheriff some dat night when he come after me, judge, but you knows dat didn't do no good."

"For your information, Jed, I will state that it is within the province of this court to appoint counsel to any defendant who has none. I am now ready to appoint you a lawyer. Do you want one?"

"No, suh, judge. I don't want nuthin'," replied Jed, rather dolefully.

Sunday School Picnic.

The Baptist Sunday school had a very enjoyable picnic on the Guadalupe, above Kerrville Wednesday. Mrs. G. H. Coleman managed the entertainment and the day's outing was greatly enjoyed by those who attended.

Concert a Success.

The old time concert given at Pampell's Opera House, by the Ladies' Guild of St. Peter's church, Thursday night, was a pronounced success. The music was high-class and greatly enjoyed by those in attendance. A neat sum was realized for the church.

COUNTRY OF THE CIGARETTE

Russian Public Opinion Educated to the Sight of Women Enjoying the Weed in Public.

"Russia is the only country in the world where women smoke cigarettes in public without attracting attention," said R. E. Denison, who formerly was in the consular service in that country.

"It is customary for Russian ladies to go into restaurants or confectionery stores in the afternoon, and while enjoying a cup of chocolate to puff a cigarette. Nothing is thought of it and it does not attract notice. But Russia is the greatest cigarette smoking country in the world. More cigarettes are consumed there in a year than in several other European countries combined. Turkey is popularly believed to be the greatest cigarette country, but it is not in it with Russia. Women do not smoke cigarettes in Turkey.

"In Germany cigarette smoking in public is prohibited among boys attending schools, not by law but by the rules of the schools and universities, and severe punishment is meted out for a violation of the rule."

On a Sad Journey.

George Amberson, who is a soldier in the United States Army, and is stationed at Fort Sam Houston, arrived in Kerrville Thursday evening, en route to London to attend the funeral of his father, who was killed by lightning at that place Thursday afternoon. The young man left at once for London in one of Hamlyn's livery automobiles, intending to make the run through to London without a stop.

PUMP AIR INTO DEAD WHALE.

Hunter's Prize Made Sufficiently Buoyant to Float; Marked with Buoy and Set Adrift.

Then began the work of bringing the whale to the surface and blowing it up so that it would float. Taking a hitch about a convenient post, the rope was slackened and run through a pulley block at the mast head to relieve the strain of raising the great body. The winch was set in motion and for 15 minutes nothing was heard save the monotonous grind of fathom after fathom of line was wound in. When the line was brought alongside the lobes of the flukes were cut off and lifted to the deck. Then a long coil of small rubber hose, one end of which was attached to a pump and the other to a hollow, spear-pointed tube of steel with perforations along its entire length, was brought into play. The spear was jabbed well down into the whale's side, the air pump started and the body slowly filled with air. When inflated sufficiently to keep it afloat the tube was withdrawn, the incision plugged with oakum and the chains cast off. A buoy with a flag was then attached to the carcass and the whole set adrift to be picked up at the end of the day's hunting.—Popular Magazine.

A Necessity.

He had just been accepted. "And do you really think you can be happier with me than with anybody else in the world?" he asked. "No," replied the girl, "but if these 600-button gowns are to be fashionable, I must get a husband quick and get him in practice."

### The Torpedo Bug and Its Home

BY HEINDRICH VON ROOSKERMITT

We sometimes wonder that men and women whom we meet do not know the things we know, while they, very probably, feel the same way about our ignorance of the things they know. This is particularly true of people from different parts of the world, or even from different parts of a state or nation. That which is common in a community, to the people who live there, is perhaps a curiosity to persons from another part of the country if they happen to see it. Thus it comes about that many things of great interest, especially in geology and natural history, are not generally known.

In this connection I am reminded of a peculiar geological freak that I have seen nowhere, except in the southern part of Oklahoma, in that part of the new state which was formerly the Chickasaw reservation. There are great prairies in that country covering many thousands of acres of fine, fertile lands in a single body, all of which are arable, except where the wonderful slanting rocks have fallen in showers, sometimes covering a scope of land 100 yards to a quarter of a mile across, and extending through the prairie for a mile or more. These rocks do not form a rocky, gravelly ledge that renders the land where they are found worthless, as one might suppose. They are simply flat stones of a lime and shell formation, usually of a size that a strong man could lift, but in rare instances weighing a ton or more. Every one of them is standing on edge with the thick, heavy side in the ground, while the thin, light edge protrudes from the earth. Wherever one of these remarkable stone showers is found the stones are all leaning in the same direction, and at the same angle. What is still more remarkable is that in every instance the stones lean toward the southwest. No place has been found where a shower has fallen that stones lay in any other direction. There they are by the thousands, looking

for all the world as if they had fallen slanting from the skies like so many mammoth drops of rain. The land where these rocks are is just as fertile as land can be, and the most luxuriant grasses grow among them.

Besides the wonderful appearance of the "Slanting Shower Rocks" from a geological view-point, they harbor an insect which I am persuaded exists nowhere else in America, perhaps not in the world, and of which very little is known. It is a small black bug, apparently of the beetle family, about a half an inch in length and rather slender in form. Upon first appearance there is nothing unusual about this entomological freak, its chief peculiarity being a rather unique habit which caused it to be called by the few people who have examined it, the "Torpedo Bug."

When a stone is turned over with one or more of these bugs on it they will, if unmolested, run away, as any other insect would do, but if one takes a small stick or straw and pokes the hard shell of the little fellow, his bugship will at once emit a little cloud of bluish vapor, having very much the appearance of smoke. Then, while the vapor hangs near the ground and the investigator is recovering from his astonishment, the bug disappears. This gave rise at first to the belief that the bugs actually exploded and went up in smoke, hence the name "Torpedo Bugs."

I have never heard any theory advanced by students of geology, entomology or natural history in regard to these two truly wonderful things in nature. Whether the rocks were ripped loose from the crown sheets of "Old Ocean" during some terrible submarine seismic disturbance, and, carried by the irresistible force of the elements far inland, where they fell in showers, I do not know. Nor is it within my ken whence came the little bugs with such remarkable habits. They may be descendants of some strange species of insect salamanders that lived in the heated regions of volcanic fire, and acquired their ability to "make smoke" by emitting vapor to avoid becoming too hot. Whatever the necessity that compelled mother nature to produce these two remarkable phenomena, certain it is that

they exist in that country for all to see who care to take the trouble to look for them.

### ICELANDIC FORM OF PEDIGREE.

Simple But Effective Manner of Keeping the Record.

The inhabitants of Iceland have kept their pedigrees in a zealous way. Numbers of them can trace their descent from the Vikings who emigrated from Norway to Iceland in the ninth century. Unlike many other countries, there have never been really any nobles in this island, the nation having ever been a republic in spirit. Consequently upon the smallness of the population there has been a considerable amount of inbreeding, and all Icelanders seem to be cousins. There is an old Icelandic adage which translated into English reads: "Cousins are worst to cousins." The most curious circumstance in this connection is that there are scarcely any surnames, as known on the American continent. As a distinctive mark an Icelanders places his father's Christian name after his own Christian name, adding to the former "sson," which signifies "the son of," and this is continued from generation to generation. An Icelandic pedigree reads as follows: Thorstein Asgerdson, Sigurd Thorsteinsson, Einar Sigurdsson, Baldur Einarsson, Thorstein Baldursson, Hafstein Thorsteinsson, and so on.

### Crusty Old Gentleman.

"Some people are so queer," said the young mother with a pout. "Now, I think there is nothing that should be more appreciated than a generous child."

"What are you referring to, my dear?" asked her neighbor.

"Why, the baby. I had him in the car the other day and right in front sat a crusty old gentleman with side whiskers. Four times the baby offered him a stick of candy and each time he only frowned. When the soft candy got stuck in his side whiskers he became very fiery and told the conductor. Wasn't he rude?"

Within a few weeks it is proposed to hold an election in the Elmo and Terrell (Tex) precincts to vote upon the issuance of road bonds to the amount of \$250,000.

### HUBBY EFFECTED QUICK CURE

Sick Wife Aroused by Contemplation of Her Successor.

"William, dear," feebly called the invalid wife, who was supposed to be nearing the end of her earthly career. "Yes, darling," answered the sorrowing husband. "What is it?"

"When I am gone," said she, "I feel that for the sake of the motherless little ones you should marry again." "Do you really think it would be best, darling?" asked the faithful William.

"Yes, William, I really do," replied the invalid. "After a reasonable length of time you should seek the companionship of some good woman."

"Do you know, my dear," said the husband, "that you have lifted a great burden from my mind? Now, there is that charming widow Jones across the way. She has acted rather friendly toward me ever since you were taken ill. Of course, dear, she could never fill your place, but she is young, plump and pretty, and I'm sure she would do her best to lessen my grief."

"William Henry Brown!" exclaimed the female whose days were supposed to be numbered, as she partly raised herself upon the pillow. "If you ever dare install that red-headed, freckle-faced, squint-eyed hussy in my shoes, I'll—I'll—" And then she fainted. But the next day Mrs. Brown was able to sit up, and two days later she was downstairs.

### Gangrene of Caste in India.

Those who have not lived in India nor have made a special study of its unique conditions can hardly understand the differences and hatreds that exist among the different peoples. Between the Mussulman and the Hindu, the Punjabi and the Bengali, the Sikh and the Brahmin, and between many of the smaller divisions of religion, race and caste there is no such thing as cohesion or co-operation; and if, to a small degree, the rigid lines of caste have been broken down here and there so that labor and commerce under modern conditions have been made possible it is due in no small degree to the efforts of Great Britain.
