NO. 25

## SIX MILITANT SUFFRAGETTES ARE CONVICTED

Found Guilty of Conspiracy to Commit Malicious Damage.

JUSTIFY THE OUTRAGES

One of Defendants Ready to Die For Vote.

LONDON, June 17.—Six of the most prominent leaders of the militant suffragettes' organization and one of their male supporters were today found guilty of conspiracy to commit malicious damage to property.

The women, officials of the Women's Social and Political Union, are Miss Harriett Kerr, Miss Agnes Lake, Miss Rachael Barrett, Mrs. Beatrice Saunders, Miss Annie Kenney and Miss Laura Lennox. The man is Edward Y. Clayton, an analytical chemist.

An impassioned speech in defense of the outrages committed by militant suffragettes was delivered during the trial by Miss Annie Kenney, one of the defendants.

"If I have got to die to get the vote," she said, "I will die willingly, whatever the verdict of the jury today."

Greater interest was taken in today's proceedings than in any previous stages of the trial. The courtroom was crowded. Women formed the majority of the audience among them being Mrs. Winston Spencer Churchill, wife of the first lord of the admiralty, and Miss Violet Asquith, daughter of the premier.

Miss Kenney asserted that the action of the Ulster unionists and the speeches of cabinet ministers, who, she said, had asserted that the unfranchised were justified in rebelling to get their grievances remedied, furnished ample warrant for militancy.

"If further justification were necessary," she said, "the trickery and treachery of cabinet ministers supplied it. The present government has treated the aspirations of the women more abominably than any British government since 1847."

"As for myself, I belong to the working class. I joined the suffragette movement because of the terribly cruel conditions under which women work in the British Isles."

"I am a rebel and I shall remain a rebel until women receive the vote. If, like Miss Davison, it should be necessary for me to sacrifice my life, then I will gladly die."

All Arms of Service to be Represented

GETTYSBURG, Pa., June 19.—Practically every branch of the regular military service will be represented by bodies of enlisted men at the battle of Gettysburg anniversary celebration next month, according to announcement here yesterday. Next week the troops will arrive and take their places in the camp, many of them marching to Gettysburg.

The infantry arm will be represented by the first and third battalions of the Fifth. The third battalion has been doing guard duty in camp for four weeks. The first battalion will come by rail next Tuesday, bringing the regimental band.

A battalion of engineers will march to Gettysburg, and are expected to arrive on Saturday, June 28. Battery D, Third Field artillery, Capt. M. E. Locke commanding, will march also and be due at camp on Friday of next week. Several troops of the fifteenth cavalry have been detailed for the Gettysburg camp, although the date for their arrival has not been set. The signal corps is already here and is establishing a complete telephone system throughout the camp, while the large hospital corps is well under way at the hands of a detail.

These troops are expected to figure prominently in the exercises of the anniversary and will remain at Gettysburg for six weeks afterward to participate in the maneuvers at the camp of college and university students to be conducted by the War Department officers. The college boys will live in a portion of the veterans' camp, which will be allowed to remain standing for them.

## ILLINOIS TRAIN ROBBED OF \$25,000 BY MASKED MEN

Diamond Special Held up by Two Highwaymen.

PASSENGERS NOT HURT

Robbery Took Place Thirteen Miles From Springfield.

SPRINGFIELD, Ill., June 18.—The Diamond Special of the Illinois Central was held up at 12:10 o'clock this morning near Glenarm, thirteen miles south of this city. According to Conductor Williams two masked men flagged the train and compelled the trainmen to uncouple the engine and the express car and to run ahead.

Conductor Williams, five minutes after the engine and express car was uncoupled, heard an explosion and believed the express car safe has been rifled.

A special train carrying police and deputies has left this city for the scene.

Deputy Sheriffs, city police and newspaper representatives summoned by telephone from Springfield, came upon the bandits while they were dynamiting the express car. The passengers on the train had been lined up beside it and their revolvers taken from them.

Sheriff Mosier of San Gamon county and Policeman Adams fought a duel with one of the robbers.

When the fusillade became too heavy for the bandits they boarded the engine, commanding Engineer Shell to follow them. They left the train behind the express car with the messengers and curious passengers who had left the train a mile away and followed down the track to where the robbers stopped the express car after cutting it loose from the remainder of the train.

When the robbers jumped aboard the engine to escape from Sheriff Mosier and the posse they ordered Engineer Shell to "pull out fast."

Probably a few miles further the holdup men stopped the engine again and made further efforts to blow up the safe in the express car. They were still working when another automobile from Springfield bearing Chief Underwood, Deputy Sheriff Sullivan came on them.

The express messenger says there was probably \$25,000 in his safe. In his opinion the robbers had not reached it with repeated dynamiting up to the time the posse arrived. Engineer Shell, upon reaching Springfield, reported that the robbers succeeded in dynamiting the safe and believed they secured the money.

George Marney and City Policeman Maurice O'Leary were held up by the bandits. One of them stepped out of the dark as Marney and O'Leary crept through some underbrush and with the drop on O'Leary told him to "throw up your hands." As O'Leary complied the robber picked up the officer's gun and lined the policeman up beside the express car. Marney, who is a reporter for the Illinois State Journal, was unarmed and also obeyed the injunction of the desperado to get down behind the car.

U. S. Lacks Funds For Postoffices.

WASHINGTON, June 16.—Failure of the sundry civil appropriation bill to carry an item for the purchase of sites for public buildings recommended in the public buildings bill and to provide for the cost of making inspections of sites upon which bids have been received by the Treasury Department, will delay action in all Texas cities that were hopeful of getting an early start on postoffices.

Nothing can be done for another year unless Congress at the present session passes an emergency deficiency bill, which will make provision for this work. As it now stands no sites can be purchased nor can any inspectors be sent out by the supervising architect because of lack of funds.

A number of Texas cities are wiring their Congressmen asking that they strive to obtain a fund available for Federal building sites this summer.

## SLAYDEN VISITS KERRVILLE

Congressman Discusses Tariff Matters.

Hon. J. L. Slayden was a visitor in Kerrville last week. Congressman Slayden is in Texas for a few days on personal business and is using the opportunity to visit some of his friends and constituents. The House of Representatives having passed the tariff bill there is no business now before the body in which Mr. Slayden serves, and is not apt to be until August or September, except, possibly, a discussion of the proposed currency law.

This latter measure Mr. Slayden expects to see treated in a non-partisan spirit.

Speaking of the tariff which so immediately concerns the people of this part of West Texas, the congressman said:

"As you know, and as many readers of your paper know, I am not and never have been in sympathy with what is commonly called 'free raw material policy.' Indeed, it is a phrase which it is quite impossible to clearly define. The raw material of one man is the refined, manufactured output of another. Let us take wool for illustration. Sheep and pasture land, plus his skill and care, are the raw material of the flockmaster. The wool is a finished product which he puts on the market. It, in turn is the raw material of the man who spins and weaves. Cloth is the finished product of the manufacturer, but the raw material of the tailor. Now the tailor is just as good and useful a member of society as the manufacturer. Why shouldn't he have untaxed raw material?"

"If the manufacturer is to have it I confess I don't see why the tailor should not."

"But, as a matter of fact, in my humble judgment, none of them should have. The government, at least until such new sources of income are discovered, must have a revenue of three hundred million dollars a year, more or less, from tariff taxes, and part of that should be derived from a customs duty on wool. That, at least is my opinion."

"I need not repeat the arguments for that position. They have been often published through your newspaper."

"Now, holding that opinion, you ask why I voted for the pending measure—the Underwood bill. I will tell you. Mr. Underwood brought forward a bill last year. In it he proposed a duty of 20 per cent on imported wool. It passed the senate with wool carrying an even higher rate. The differences between the two houses were compromised and when the bill was sent to the President it carried a rate on imported wool of 20 per cent."

"That about represents what I believe to be Mr. Underwood's real view. When the bill was prepared it carried a revenue duty of 15 per cent on wool. That was probably lower than Underwood thought the duty should be and was no doubt, fixed low with the idea that the senate would raise it and, finally, a fair compromise be reached and a duty of about 25 per cent be reached. Of course this is only my opinion. The Ways and Means Committee of the present congress it was understood, did not believe in free trade in wool and in presenting the bill it yielded to other influences. Under these circumstances it was thought that in the caucus the bill could be amended. The effort to amend in the caucus was made and it failed. As all the people who care about it know, five Texas members, I among them, voted to put a duty on wool. That we were unsuccessful I regretted, and still regret, but having gone into the caucus, having taken the chances of the contest, with the view of benefiting by it if I won, I was, of course, in honor bound by the result."

"A caucus is nothing more than an assembly of gentlemen of the same organization, political, social, religious, commercial or what not, to discuss the affairs of that association. By going into the meeting members impliedly or actually agree to abide by the result and the man who goes in and takes his chances to benefit by winning and then refuses to abide by the result if he loses is not held to be an honorable man."

"Of course, he can stay out of a caucus if he wants to and will thus escape the censure of acting in bad faith, but a man who belongs to an

army and fails to co-operate with it accomplishes very little.

"I sincerely hope that I have been mistaken in view of the influence of the proposed legislation. Wool is rather high in England, which has absolute free trade. I sincerely hope that our ranchmen will get remunerative prices for cattle and sheep in spite of the tariff bill and I am inclined to believe they will."

The Presbyterian

Among the things that bring people to Kerrville the Encampment is each year becoming more important.

This year its literature has gone out to about four thousand people scattered all over Texas and inquiries are coming from every section and even outside the state in regard to it and the normal.

The encampment manager, Prof. J. J. Delaney from Sherman, Texas, is on the ground now.

He is arranging with the business men for the various lines of supplies etc. that will be needed, preparing the ground and making many improve

A substantial bridge connecting the two camping sites and an easy crossing to the river side will add greatly to the comfort of the visitors.

Two conveniently located bath houses will be new features. We are assured now of several new cottages and a number of lot-owners will make improvements.

The addition of a camp matron and of an entertainer who will be represented by a large delegation of boys and girls chaperoned by a number of teachers. Among them will be the Girls Quartet which will be one of the musical features of this year.

Miss Surratt of Laredo arrived last week and is improving her lot and making a comfortable summer camp.

Money Bill Incomplete.

WASHINGTON, D. C., June 17.—President Wilson had a three-hour conference tonight with Secretary McAdoo of the Treasury and Chairman Owen and Glass of the Senate and House committees, respectively, on banking and currency. The conference is understood to have been the last before the administration currency bill is formally launched in both houses.

Representative Glass expressed doubt in the conference as to whether the bill would be ready by Friday as expected. It may be held until the beginning of next week. No date has been fixed for the reading of the President's Message to Congress. The President will consult Senator Kern and Representative Underwood, the majority leaders of both houses, tomorrow as to the most convenient time for the reading of the document. It was said no variations were made in the essential of the bill at the conference.

Huerta Chief Held in U. S.

EL PASO, Tex., June 16.—General Inez Salazar, the Mexican Federal general who was a rebel against Madero and embraced the Huerta cause, was arrested here today when he came to El Paso from Juarez to get a meal. His arrest was on an old indictment of neutrality violation in the Madero revolution. He is expected to make bond without difficulty.

The Juarez garrison was reinforced today by the arrival of 300 Federal regulars under Colonel Castro. They came on a train which had been stranded for several days on the Mexico Central Railroad. The rebels already have burned the bridges repaired as fast as the train moved north. General Inez Salazar, commander of the Casas Grandes district, was a passenger on the train, coming from a conference at the State Capital.

Killed by Auto While on His Way to Marry.

DALLAS, Tex., June 16.—Death shattered romance when a speeding automobile bore down on J. T. Smith early Sunday morning and buried him into eternity. In his pocket was a marriage license which he obtained in Hunt County to wed Miss Vera Smith. Tomorrow a permit will be issued for his burial at farmersville.

Smith started across Commerce Street at Murphy, falling to see the approaching car. An instant later

He will face a charge of accidental homicide.

Papers found in the man's clothing indicated his home was in Farmersville. The body was sent there this afternoon.

Get "Cold Feet" When Waiting For Wilson.

WASHINGTON, D. C., June 17.—Job-hunters, senators and representatives opposing President Wilson in his plan to put through currency legislation at the extra session, or "citizens with missions," seeking the president's ear, have found the White House executive offices a chilly place these days. The atmosphere is almost that of a morgue, as far as temperature goes.

"By criketty!" exploded a member of Congress who had been waiting half an hour to gain an audience with Mr. Wilson. "I'm going out of here. The frigidty is beginning to get on my nerves. And to think that outside there on the asphalt the temperature is fully 100 degrees!"

"Wait a minute and I'll go with you" said one of his waiting colleagues. "I'm getting cold feet, too." The nervous deserters of the waiting ranks today discovered that the president's manner was none the less cordial than before. It developed, however, that with the coming of the heated spell, the refrigerating system beneath the offices had been placed in commission and that fans, blowing across cakes of ice, aggregating several tons, constantly were forcing cold air through cleverly concealed ventilators.

English Players Will Try Again.

NEW YORK, June 16.—The Duke of Westminster, who backed the English polo team on its trip to this country, in the unsuccessful attempt to lift the Westchester polo cup, "has only just started his campaign to get the trophy back to England."

This is about as far as any of the English players here would commit themselves today as to the possibility of a challenge for the cup next year.

When the team sails for England on Thursday it will take back only 27 of the 42 ponies which were brought over for the tournament. A few of the mounts already have been sold and there are a number of the older ones still to be disposed of. This weeding out process is taken as an indication that the duke proposes to improve his stable in preparation for another challenge. The

time limit for a challenge for a series next year is December 31.

A special cable dispatch published today hinted the possibility of a challenge from Germany. Polo is coming into great popularity there under the inspiration of crown prince and it is said there is a general desire to send a representative team to America, but probably this will not be realized for a few years at least.

College Graduates Unfit For Business Become Dishwashers.

SAN FRANCISCO, June 16.—Of the 700 members of the San Francisco dishwashers union, 100 are college graduates. This, it is said, is a greater proportion of college men than can be found in any other labor organization in the country.

The statistics were compiled by members of the union, one of whom he says, is a former instructor in mathematics in an Eastern college. He resigned from that position, he said, to engage in a small business in Oswego, N. Y.

"Naturally, I don't care to reveal my name," he said. "We present a class of men who have found themselves unable to cope with some of the harsh requirements of life."

"I was absolutely unfit for business. I was unmarried and came West with just enough money to keep me a week. At first I tried rough work, but I was unable to endure the hardships. So I became a dishwasher."

The union is the only one of its kind, it is asserted. A dishwasher gets \$10 a week.

### New Business.

The Smith Mercantile Company has purchased the stock of general merchandise formerly owned by the D. R. Williams Mercantile Company, at the old Dietert stand on Water Street, and will continue the business. Mr. B. U. Smith, who is at the head of the business, is a business man of excellent reputation. He comes from Aransas Pass, where he was formerly engaged in business. We bespeak for the new concern a liberal patronage from the people of Kerrville and surrounding country.

### To Shorten Working Hours.

In order to shorten hours for clerks the Kerrville Drug Co. and the Rock Drug Store beg to advise their customers that, beginning Monday, June 23rd, their closing hour will be 7 p. m. They therefore, request customers to send in orders early so that all deliveries may have been made by that time.

### Save the Best Bundles.

Now is the time to prepare for the agricultural exhibit at the West Texas fair. I earnestly request every farmer to save a few bundles of the best grain, as he threshes, for this purpose. Put the bundles away and deliver them to me at your convenience. I believe the exhibit this year will be the greatest in the history of the fair.

Yours truly,

L. A. MOSTY,  
Mgr. Agricultural Department.

### Good Roads Meeting.

The Kerr County Commissioners' Court will meet at the courthouse in Kerrville Saturday, (today) June 21. At that time I wish all members of the advisory committee, and every other citizen of precinct No. 1 who is interested in the matter of building roads, to be present and discuss road matters.

Respectfully,  
ARTHUR REAL.

### Figs For Sale.

A few thoroughbred Tamworth hares and gilts for sale. Apply to Howard Lacey, Kerrville, Texas. 4t-17

### Texas Good Enough For Him

GALVESTON, Tex., June 18.—Among the many exhibits in the truck farming division at the Galveston Cotton Carnival, will be one owned by Mr. S. S. Linn, of Alia Loma, Texas. Mr. Linn is 85 years old, strong and healthy, with an intellect clear as a bell, and is known far and wide as the man with the hoe.

Mr. Linn is very enthusiastic over Texas and the brilliant prospects for his future. Mr. Linn was in Texas many years ago when a severe storm swept the state. He lost everything he had, yet remained when others were leaving for other sections of the country, then considered "safer." Commenting upon his decision to remain in Texas, Mr. Linn says: "As a small boy, I was given the advice to look for anything lost in the exact place I had lost it." Following this advice, I have been very successful and intend to end my days in the state I have long loved."

The truck farming exhibit will prove one of the very best of the many exhibits arranged and the Alta Loma people are confident of taking first prize. Exhibits will be entered from all parts of the state.

### Call For Good Roads Meeting.

A meeting has been called to be held at San Angelo, Texas, on the 25th of this month, for the purpose of effecting a permanent organization of the Colorado-to-the Gulf Highway. As the proposed highway, by passing through this county would be about 200 miles shorter, there is every reason to believe that a proper effort on the part of the people would secure it. A delegate from this county has been invited to attend the meeting. Such a great interstate highway would mean a great deal to Kerrville in particular, and to the community in general, and it is hoped that this place will be represented at the convention.

By use of devices to retard the draft of heating tubes of their boilers two German trans-atlantic liners have saved ten per cent in fuel without impairing their required speed.

## CATHOLIC CHURCH NOTES

BY FATHER KEMPER

On Saturday night, the 14th of this month, the first annual commencement exercises of Notre Dame Institute were conducted in Washington Hall before an enthusiastic and appreciative multitude of whom a very large number were quite content to stand during the two and a half hours' entertainment because all seating accommodation in the spacious auditorium had been seized by 7:30 p. m. The entire program was so thoroughly enjoyed that many spectators clamored for a repetition of some of the numbers. This urgent appeal was so insistent that it had to be acceded to in the case of the "Notre Dame Victory March" sung by the Knights of Our Lady. This stirring College song was expressly composed, words and music, for Notre Dame, and it was rendered remarkably well by her loyal sons. The girls distinguished themselves particularly in "The Contest of the Nations" in which operetta fair Columbia is awarded the laurels. The innumerable eulogiums heard on all sides about the several piano selections and elocution recitals were another attestation of the splendid work that the Sisters of Charity are doing at the Institute. Not only from Kerrville and its immediate vicinity do these praises come, but also from the well-known Palmer Penmanship Company. By painstaking effort the Sisters managed that all the higher grade students not only changed their mode of writing, but acquired such proficiency in the new method that they were all awarded a button, and in addition to this four of the scholars who completed the system were honored with a Palmer Certificate, namely: Misses Adna Ruff, Earl Newton, Annie Mosel, and Mabel Clark.

An exhibition of the scholastic work accomplished by the Notre Dame boys and girls was displayed to the critical and admiring public after the performance. High tribute was paid especially to the astonishing grasp most of the children acquired of the German language during their first year. Beautiful pieces of needle-work and water color paintings demonstrated how well the girls profited by the instruction they received from their devoted teachers. Nearly all of the student body accompanied the Sisters to the depot on Sunday afternoon to take a sad farewell of them until the end of August when the teachers will return in increased numbers. Meanwhile the nuns will pursue their annual summer normal course at Alamo Heights.

During the vacation period services will be conducted in St. Mary's at 8:30 a. m. on Sundays, and at 6:30 a. m. every week day. On the last Sunday of this month, Father Kemper will read mass here at 7:30 a. m. and then fulfill his Harper engagement. This Monday he leaves for San Antonio to attend the annual spiritual retreat for the diocesan clergy.

Information has come from Washington that Miss Angelina Kemper and Miss Hilda Mosel are having a delightful sojourn in the American capital. Rev. Prof. Burke, a classmate of Father Kemper, engaged at the Catholic University, became their host and guide. On Thursday they had the privilege of seeing President Wilson and William Bryan. Besides Washington and Mount Vernon they have seen Philadelphia, Atlantic City, Baltimore, and Annapolis, and are now on their way to West Point and the Catskill Mountains.

Now is the time to get rid of your rheumatism. Try a twenty-five cent bottle of Chamberlain's Liniment and see how quickly your rheumatic pains disappear. Sold by all dealers.

### Cleanest Town Contest.

Holland's Magazine is offering a prize again for the cleanest town in Texas. The prize winning town in class C last year was rated at \$2, while Kerrville stood at 77.5. The prize this year will be a sanitary for the public school. Kerrville has again entered the lists, and it rests entirely with the people whether the cleanliness of the town wins this prize. The reward is not alone in the winning if the prize for its money value, but in the benefit to public health of the city, and in the prominence such excellent sanitary conditions would give.

### Shake Off Your Rheumatism.

Now is the time to get rid of your rheumatism. Try a twenty-five cent bottle of Chamberlain's Liniment and see how quickly your rheumatic pains disappear. Sold by all dealers.

### Use Water to Dig Canal.

WASHINGTON, D. C., June 16.—Taking their cue from the great hydraulic mining plants developed on the Pacific Coast, the Army Engineers in the canal zone have resolved to try to wash away the hills which tower above the Culebra cut. Already an elaborate plant of hydraulic "monitors" has been installed near Goal Hill, overhanging the famous cut.

A great supply of water has been obtained by damming the Obispo river and the engineers will seek to slice away the sides of the hill so that the water-borne earth will be carried away from the Culebra cut and into the valley in the rear.

It is hoped in this way to relieve

the tremendous pressure on the lower strata which has been rising up into the cut in defiance of the continuous operation of dozens of great steam shovels which are often themselves overwhelmed and buried by the moving earth.

The United States now ranks seventh among the nations of the world in the provisions made for military aeronautics.

## Use Water to Dig Canal.

WASHINGTON, D. C., June 16.—Taking their cue from the great hydraulic mining plants developed on the Pacific Coast, the Army Engineers in the canal zone have resolved to try to wash away the hills which tower above the Culebra cut. Already an elaborate plant of hydraulic "monitors" has been installed near Goal Hill, overhanging the famous cut.

A great supply of water has been obtained by damming the Obispo river and the engineers will seek to slice away the sides of the hill so that the water-borne earth will be carried away from the Culebra cut and into the valley in the rear.

It is hoped in this way to relieve

the tremendous pressure on the lower strata which has been rising up into the cut in defiance of the continuous operation of dozens of great steam shovels which are often themselves overwhelmed and buried by the moving earth.

The United States now ranks seventh among the nations of the world in the provisions made for military aeronautics.

**New Law Will Be Tested.**

AUSTIN, Tex. June 17.—The Supreme Court tomorrow will be presented the certified question as to the constitutionality of the special district courts created by the legislature at the regular session. The question comes from the Court of Civil Appeals at Dallas.  
 The question arises in the case of Mack Carter vs. the Missouri, Kansas & Texas Railway Company from Grayson. It was tried before Judge W. J. Mathis, judge of the special district court for that county. When tried in the lower court, the railroad company raised the question of the constitutional right of the court to try the case which was overruled and on the trial the judgment was rendered in favor of the railroad on the facts. The plaintiff appealed and raised the issue of the court's status himself in which the defendant railway company has joined. The Court of Civil Appeals in order to have a speedy settlement of the question passed it up to the Supreme Court.  
 Contention is made that the constitution provides for the organization of district courts and fixes the term of the judges at four years. The legislature in creating the special courts, limited the term to two years, which, it is claimed, is a violation of the constitution, and therefore the acts of such courts are void.

**Assistance Is Needed.**

AUSTIN, Tex., June 17.—W. N. Waddell, chairman of the State Live Stock Sanitary Commission, was here today conferring with the Governor relative to assistance needed by the commission at the hands of the coming special session of the legislature. Mr. Waddell speaks interestingly of the work accomplished by the commission.

According to his records a total of 390,604 head of cattle and 18,181 horses and mules were shipped during the last two years in order to be moved north of the quarantine line. This year is even busier, as a total of 168,000 cattle were dipped and certified to in the month of April.

The foregoing does not include any of the tick and scab eradication work being carried on by the United States Bureau of Animal Husbandry and the State Live Stock Sanitary Commission. That joint work has effected the reclamation of 200,000 head of cattle and 9,000 square miles of territory. The cattle may now be shipped at will without inspection to any part of any part of the United States. Cattle from that territory have the same privilege. It was, in effect, moving the quarantine line further South. Additional cattle and territory will be reclaimed this year. The topography of Texas ideal for the reclamation work because the streams all run in a southerly direction and, therefore, as the line is pushed Southward no infection washes in from the counties above. They have been cleaned.

Two years ago, says Mr. Waddell there was one dipping vat in the State, one maintained by State or Federal Government at every port of entry, that is, where every railroad crosses the quarantine line, and also at about forty large cattle shipping points below the line. He wants to establish about 150 more dipping and inspection stations in order to expedite the shipping and movement of cattle and predicts that at least one hundred more will be added within the next two years. At this time free transportation is limited to twenty-three inspectors and he has had as many as twenty-eight inspectors at work.

**Test Oil Suit Dismissed.**

CHEYENNE, Wyo., June 15.—The Government suit against the Midwest Oil Company, a test suit involving the title of \$1,000,000 worth of oil land in California and Wyoming, was dismissed Saturday by John A. Riner of the United States District Court. While the Government sought to recover only 4,000 acres of land in this suit, the issues involved cover thousands of acres of other California and Wyoming lands withdrawn by President Taft's sweeping order of 1909, designed to conserve the country's oil resources and especially to afford the Government a supply of fuel oil for the United States Navy.

President Taft made the withdrawal on the assumption that he had the power to act for the protection of the oil deposits. His authority was questioned and Congress, by the act of June 25, 1910, affirmatively gave him the power to make the reservations. The lands then were withdrawn. Between the first and second withdrawals, however, a great number of settlers went on the lands. Judge Riner held that the act of Congress authorizing the withdrawal was not retroactive.

**Clubwomen Want Women For Police**

AUSTIN, Tex., June 15.—The various women's clubs of this city have started a movement for police women for Austin. Some of the supporters, at a conference held in the offices of the Austin Humane Society, made preliminary plans.

It is the plan of the Austin women to make the campaign State-wide, to become operative in other cities of the State as well as in Austin. The women will first urge the appointment of female censors for motion picture shows and other public amusements.

When the movement has been organized in Austin women will be sent to other cities, and by this manner and by the aid of communications by letter it is the purpose to interest women's clubs elsewhere.

**SHERIFF'S SALE**

**THE STATE OF TEXAS  
 COUNTY OF KERR**

By virtue of an execution and order of sale, issued out of the Honorable District Court of Bexar county, on 31st day of March A. D. 1913, by the Clerk thereof, in the case of Lore Alford in his capacity as independent executor of the will of E. L. Alford, deceased, versus A. G. Morris, E. E. Morris and Adam Morris and each of them, No. B-5,000, and to me, as Sheriff, directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the First Tuesday in July A. D. 1913, it being the 1st day of said month, before the Court House door of said Kerr County, in the town of Kerrville the following described property, to wit:

Situated in Kerr County, Texas, to wit, lots numbers 72, 73 and 74 in block 7 in the town of Kerrville, Texas. Also 640 acres being school section No. 20, certificate No. 479, T. T. Ry. Co., purchased by E. E. Morris, December 11th 1902; and also 520 acres of land out of school section No. 1444, certificate No. 16, Georgetown Ry. Co. and being the whole of said section, which contains 640 acres less 120 acres now owned by G. A. Stowers, which 120 acre parcel is bounded as follows:

Beginning at the South corner of survey No. 1355 S. H. Larrimore, Thence N 29 degrees, W. 950 varas with the line of No. 1355 to the East corner, Thence South, 1209 varas with the East line of survey No. 1442, to its S. E. Corner and in North line of No. 1441, Thence S. 75 degrees, E. 672 varas to corner No. 1441; Thence S. 15 degrees, W. 190 varas to corner of survey No. 1443, Georgetown Ry. Co., Thence E. 753 varas to corner of No. 1443 and in W. line of survey No. 1241, G. C. & S. F. Ry. Co., Thence N. 47 degrees 30 minutes, W. 1118 varas to the place of beginning, levied on the 4th day of April, 1913 as the property of A. G. Morris, E. E. Morris and Adam Morris to satisfy a judgment amounting to \$2299.27 in favor of Lore Alford in his capacity as independent executor of the will of E. L. Alford, deceased and costs of suit.  
 Given under my hand, this 4th day of April, A. D. 1913.

J. T. MOORE, Sheriff.

**Attack On Sasabe Fails.**

NOGALES, Ariz., June 11.—Insurgent Sonora State troops guarding the town of Sasabe, six miles west of here were attacked last night by a party of Mexicans from the Arizona side of the international line. The attackers were driven off after two of the Sonora guards were killed.

General Obregon's State troops were reported today to have made another stand against Ojeda's Federal column advancing north from Guaymas along the Southern Pacific of Mexico toward Hermosillo, the Sonora State capital. The result of the fighting was not made known.

Two troops of the Fifth United States cavalry from Fort Huachuca, Ariz., have been sent along the border near Arvaca, Ariz., to pursue insurgents who have been raiding ranches on the Arizona side.

**Lake Steamer Missing.**

CALUMET, Mich., June 15.—The ore steamer Jesse Spalding, damaged in a collision with the coal steamer William M. Snyder Jr., is missing on Lake Superior tonight somewhere, it is thought in the vicinity of Keweenaw Point. Distress signals from the yalping ceased suddenly after the collision during a heavy fog this morning and the Snyder Jr., which had backed clear, was unable to find the Spalding. The Snyder Jr. was only slightly damaged above the water line.

One million pounds of copper has been spun into wire for the extension of Texas telephone lines this year.

**Woman Suffrage Congress Opens.**

BUDAPEST, June 15.—The woman suffrage congress was formally opened in the Academy of Music this afternoon. The Minister of Education, in behalf of the government, the Burgomaster of Budapest and Countess Isak Teleki, president of the Hungarian organizing committee, delivered addresses of welcome.

Mrs. Carrie Chapman Catt of New York in her presidential address devoted her attention to the phenomenal growth of women's movements, saying that there are only a few countries now without an organized movement. When China is enrolled tomorrow the standard of the alliance will have been raised in five continents and more than twenty-five nations.

During the past winter woman's suffrage bills had been considered in seventeen national Parliaments and thirty-three State and other Legislatures. The greatest gains had been in America, and she was confident of ultimate woman's suffrage on the whole North American continent.

Mrs. Catt denounced the "White slave" bondage of brown and yellow women by Western men living in the East as one of the saddest of western influences whereby thousands of Eastern girls are sacrificed every year.

The women of the Orient, however, she added, are awakening to a new and hopeful standard of thought tending to the emancipation of women, and she appealed to their Western sisters to come to their aid.

The Rev. Anna Howard Shaw preached in the Protestant church in the morning before a large congregation. She spoke from the font, some of the church presbytery objecting to her occupying the pulpit.

**Move On Now!**

says a policeman to a street crowd, and whacks heads if it don't. "Move on now," says the big, harsh mineral pills to bowel congestion and suffering follows. Dr. King's New Life Pills don't bulldoze the bowels. They gently persuade them to right action, and health follows. 25c at The Kerrville Drug Company.

**To Teach Journalism.**

AUSTIN, Tex., June 14.—A school of journalism will be established at the University of Texas next session. The board of regents of the university came to this decision at the commencement session held in Austin. It is in response to a great demand. The Woman's Press Association of Texas and Lieutenant Governor Mayes, former president of the National Press Association, are very strong in the advocacy of this establishment, while those students who are interested in journalism through their press club, were insistent in the call for such a school. The official report to the board showed an increased attendance of over 300 students as compared with the registration last year. All indication show that there will be a similar increase at the coming session.

**Progressives Want Party Convention**

WASHINGTON, D. C., June 16.—Members of the "conciliation committee" of progressive Republicans, who recently made demands upon the Republican national committee for a national convention this year, have decided as the result of meetings here Saturday and yesterday to oppose any action by the national committee to effect reforms without a party convention.

At conferences to be renewed later this week questions of reducing the Southern representation in national conventions, recognizing delegates chosen in primaries, the "unit rule" and several others, are to be considered.

"We have heard there is a growing belief that the national committee may try to settle these questions," said Senator Cummin today. "I think the committee might have power, but the holding of a national convention would have a more salutary effect on the country."

**Take Plenty of Tome to Eat.**

There is a saying that "Rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. For sale by all dealers.

**Who Will Be the Lucky 1000?**

This month we will produce one thousand HUDSON cars. That is a small percentage of the number of people who will want them, for before a single HUDSON was offered, more than one thousand individuals had paid their deposit to assure getting cars.

**Electric Self-Cranking-Electrically Lighted**

**Why This Great Demand.**  
 People recognize now the importance of engineering brains in their relation to mechanical perfection. Without knowledge a smooth, simple, safe, satisfactory car is impossible.  
 These cars were designed by 48 skilled engineers gathered from Europe and America, representing 97 factories. They had a hand in building over 200,000 automobiles. These men represent about all that has been learned in motor car design. Some have made the greatest headway of all in designing six-cylinder cars. Some are specialists in other lines. So the combined skill and knowledge of all these men is focused upon the perfection of HUDSON cars.  
 All who are motor-wise recognize the importance of having a car built under such favorable conditions. That is why, with the maximum of 1,000 cars for delivery this month, only one out of three of those who will want HUDSONS will be able to get them.  
 What better assurance could be offered than that these men who possess about all the knowledge that has thus far been gained in automobile building have joined in saying, "The New HUDSONS are the best we know."  
 The HUDSON "37" is their four-cylinder masterpiece. It sells at \$1875, completely equipped with electric lights, speedometer, clock, top, windshield and twelve inch upholstery. There is nothing more to buy.  
 The "54" HUDSON—a Six, capable of doing 65 miles an hour and a speed of 58 miles in 30 seconds from a standing start, is offered as a car superior to any automobile on the market regardless of price. It sells at \$2450, completely finished and equipped as above. Prices are f. o. b. Detroit.

**To conduct Campaign.**

AUSTIN, Tex., June 16.—From now on, an active campaign is to be conducted for the adoption of the proposed constitutional amendments. As the amendment which proposes to authorize the issuance of university, penitentiary and public warehouse bonds, is an administration matter, the governor is very much interested in the adoption by the people on July 19 of this amendment.

Rollins M. Colquitt, son of the governor, who so successfully managed the campaign for his father at both elections, has been placed in charge of the campaign for the proposed amendments. Headquarters have been opened in the Littlefield building and the voters of Texas are being supplied with literature showing the benefits of the adoption of these amendments. The governor also intends to make a limited number of speeches throughout the state in support of the proposition.

**Boy Aciator Dies.**

BALTIMORE, Md., June 16.—Archie Erwin Caltrider, 17 years old, said to be the only Boy Scout in the United States that ever had passed successfully the examination in aviation, for which he received a gold medal about eighteen months ago, died at the home of his father here yesterday after an illness of ten months. The young man was formerly a student at the Baltimore Polytechnic Institute and devoted all his spare time while there and later to aero-mechanics. Over a year ago he constructed two model aeroplanes which attracted very much attention.

**Tyler Franchise Granted Hewitt.**

TYLER, Tex., June 15.—The City Council of Tyler, at a called session, presided over by Mayor Beard, granted a franchise to Daniel Hewitt of Cleburne for the construction of a system of electric railways over the various streets of the city, the life of the franchise being 50 years.  
 The condition provides that the entire system of several miles shall be completed within six months; that portion connecting the city with the fair grounds to be completed and in operation by October 1.  
 The citizens of Tyler have donated a bonus of \$25,000.

**Kelos Beat Stanford.**

TOKIO, June 16.—The Keio University baseball team defeated the nine of Leland Stanford Jr. University by a score of 5 to 1 yesterday. Six hits were made by each team but the American university players made five errors, to one misplay by the Japanese.

**Fort Worth Auto Bandits at Large.**

FORT WORTH, Tex., June 15.—Fort Worth's auto bandits continue as great a mystery as ever, though the police searched and watched again last night, waiting for renewed hold-ups and alarms. The latest development is the finding of an abandoned automobile near Dallas. This contained auto numbers from four cities and undoubtedly belonged to the daring trio.

The last hold-up by the bandits was reported to the police early this morning. A belated pedestrian, trudging home Sunday morning at 4 a. m. was stopped on the south side and robbed of \$2. As soon as the automobile rolled out of sight the victim set up an alarm by yelling at the top of his voice and arousing the neighborhood. Hundreds left their beds and gave chase but the bandits escaped. All this while the police were searching the east side in automobiles and on motorcycles. The total of holdups by the auto highwaymen were five, but their booty was less than \$2.

Entered at the postoffice in Kerrville for transportation through the mails at second-class matter.

Advertising rates and circulation made known on application.

The behavior of the justices of the appellate court is a disgraceful demonstration of the length to which men will go in fanatical feeling over the liquor question. No question has ever arisen in America that has created such bitter partisanship, not even the slavery question. It is deplorable that the question cannot be settled for all time, and especially so that men in high office, becoming partisans, allow the matter to sway them in the performance of a sworn duty to the state. Both sides of this controversy have carried the matter too far every time the question has been raised.

There is just at this time much discussion of the matter of "Practicing Influence" in the lobbies at Washington. Practicing influence is a perfectly legitimate business, as long as they do not use fraud and intimidation and shot sacks full of quarters.

There is a big fight being made just now against cigarette smoking. Cigarette smoking is bad, but a boy that has no more sense than to smoke them will very probably never amount to anything anyway, so what's the use.

It is reported that Morris Shepard has found a "joker" in the tariff deck. We are astonished, it must have been a deck of "Authors."

Fourth Class Postmaster-Examination

The United States Civil Service Commission announces that on July 12, 1913 an examination will be held at Kerrville, Texas, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class postmaster at Center Point, Texas, and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was \$858 for the last fiscal year.

Age limit, 21 years and over on the date of the examination, with the exception that in a State where women are declared by statute to be of full age for all purposes at 18 years, women 18 years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the post office for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements.

Application forms and full information concerning the requirements of the examination can be secured from the postmaster at Center Point, Texas or from the U. S. Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the Commission at Washington at least 7 days before the date of the examination.

ANNOUNCEMENT

We have purchased the stock of general merchandise formerly owned by D. R. Williams Mercantile Company, at the old Dietert Stand on Water Street. We shall continue the business at the same stand, and will appreciate all patronage given us.

We shall conduct the business along strictly modern merchandising lines, and carry a complete stock of dependable goods in all departments. Respectfully soliciting your trade.

Yours very truly,

SMITH MERCANTILE CO.

otherwise it may be impracticable to examine the applicants.

U. S. CIVIL SERVICE COMMISSION

Bryan Tells Why Dollar Diplomacy Was Abandoned.

WASHINGTON, D. C., June 15.—Secretary Bryan today discussed with Dr. Lapro Miller, Brazilian Minister of Foreign Affairs, on a special mission here, the reason for the abandonment of the Wilson administration of the so-called "dollar diplomacy policy." Dr. Miller had called at the home of Mr. Bryan to pay his farewell respects.

There is no lack of desire to encourage increase of commercial relations between the United States and Brazil and other nations, Mr. Bryan told his visitor. This is to be done, however, without having the Government back of enterprises of American citizens in foreign countries.

The Administration, he added, desires to see American business spread abroad through the establishment of friendly relations with those countries, and their people and by the use of absolutely honorable commercial methods. Dr. Miller agreed that this was the wisest policy, and he asserted that he would do what he could do to encourage Brazil's indorsement of it.

Mr. Bryan suggested that the State Departments of the two governments could do much to prevent improper business from gaining a foothold by reporting promptly any cases they discovered. Dr. Miller promised to do this.

Tonight shortly before the Brazilian minister and his party left their hotel for the train Secretary Bryan called to say farewell.

President Wilson's friendly reception last week, Secretary Bryan's cordiality and the recess by the Senate in his honor Friday afternoon were the three features which Dr. Miller said pleased him most in his five days here. Today the Brazilian embassy staff gave him a luncheon at the Chevy Chase Club.

On the special cars the Muller party, accompanied by Dudley Field Malone, Third Assistant Secretary of State, and others left at midnight for South Bethlehem, Pa., where tomorrow will be spent inspecting the great steel plant there. They will reach New York tomorrow night to spend Tuesday. Wednesday they go to West Point on a torpedo boat destroyer, then to Boston and Niagara Falls.

The party will reach San Francisco on June 27, and will be back in New York on July 7, whence they will take the battleship Minas Geraes for Brazil.

Monterey Faces Famine.

BROWNSVILLE, Tex., June 15.—Almost surrounded by the Constitutionalists the city of Monterey is in a most desperate condition, according to two Mexicans who arrived here today. They travelled most of the way by handcar.

The poor people are suffering from hunger and the Constitutionalists have cut off all avenues of supplies, they say. Even carts carrying corn are not allowed to reach the city and this product is selling in Monterey for 15 pesos a cargo, in ordinary times bringing 7 or 8 pesos per cargo.

Industry in the city has been brought to a standstill and there is no way for the laboring class to make a living wage, they said.

The smelter is not operating and railroad traffic is cut off. There appears to be a well defined plan, according to the report, on the part of the Constitutionalists to starve the city and force the garrison to withdraw.

Savages On Amazon Massacre Twenty.

NEW YORK, June 14.—In a message from Caracas, Venezuela, today, D. Bejiman Baldo, vice president of the Latin American Press Advertising Agency here, received news of the death at the hands of a savage tribe of Indians in the heart of the Amazon jungle, of his brother, Manuel Baldo; his brother-in-law and governor of the Amazon territory, General Roberto Palido, and more than a score of others, who were members of an exploring expedition. Of the safety of his sister, Mrs. Roberto Palido has not been informed. He believes, however, that while she accompanied her husband into the interior, she had been left behind at a settlement while the men of the party penetrated further into the jungle, where they were killed.

The expedition had been authorized by the governor of Venezuela, said Dr. Baldo today, and while the Jocoeres tribes of Indians are known to be savage and well armed, it was not thought that they would molest the Venezuelans, who were not armed or equipped for military service, although two leaders were members of the army of Venezuela. The details of the massacre said Dr. Baldo, have not been learned yet. All that is known is that his brother, with General Palido; the general's brother, Colonel Pedro Palido; a physician, a botanist, two engineers and a staff of more than twenty men were found dead. It is believed, said Dr. Baldo, that they met their death early last month.

QUEEN OF AUTOMOBILES

VELIE MODEL R, 36 h. p. The Queen of the City. A handsome, luxurious touring car with all the latest equipment, such as the world renowned Bosch-Dual ignition system separate and apart from the starting and lighting system. Stromberg carburetor. Underslung spring made of the finest material, 42 inches long, 3-4 elliptic. (We will replace springs on Velie cars if broken within five years.)

Velie, Model R, has the longest stroke motor of any car built in America, in its class. The Velie is the greatest hill climber built. We will put the Velie 36, Model R against any 40 h. p. car on hills, mud or sand. It is the most powerful car of its h. p. rating, built 36 h. p. at only 1000 revolutions.

We might add for your benefit that the Velies are nephews of John Deere—you know John Deere goods. (This car is backed by \$70,000,000). Every car carries a factory guarantee.

The Velie Model R is easy to operate and is built especially for ladies. You enter the Velie from the curb unhindered, when comfortably seated you start the car by a light touch of the foot and you are off. The Gray & Davis starting and lighting system, built especially for the Velie motors, is the most positive in the world.

If the best car at any price would suit you—if you want the handsomest and most up-to-date car, such as left-hand drive, center control, etc., you will buy a VELIE, price \$1561, delivered to you.

VELIE AUTO SALES CO., Alex Parrigin Mgr., 351 E. Commerce Street, San Antonio, Texas. (Advertisement)

Supreme Court Adjourns.

WASHINGTON, D. C., June 16.—When the Supreme Court adjourned today until October some twenty-five important cases were left undecided. Among these were the cases of Samuel Gompers, John Mitchell and Frank Morrison, the officers of the American Federation of Labor, who are asking a review of the decision of the District of Columbia court holding them in contempt for alleged violation of an injunction in the Buck stove and Range Company case. Execution of the sentences thus will be delayed until fall.

Gompers, who was sentenced to a month in jail, has been very ill for several months.

Other cases on the left-over list include the Intermountain rate case, the citrus fruit rate case, affecting the Florida East Coast railroad, the Nashville-Atlanta reshipping privilege case, the harbor sugar lighterage case and the California oil land suits by individuals against railroads.

Among the State laws whose constitutionality remain undecided are those of New York giving the right to city officials to tax National bank stocks regardless of debts of owners; the Georgia law regulating headlights on locomotives, the Kentucky law taxing those who furnish information to commercial rating houses, the Vermont law taxing savings deposits in National banks and the Massachusetts foreign tax law.

Baseball at the park tomorrow. Athletics vs. Fredericksburg. Game called at 2 o'clock. Admission 25c, Children 15c.

A NOTE TO YOU

We would be pleased to have you accept this as a standing invitation to drop in any time, whether in need of anything in the line of Pure Drugs, or not. Come in out of the wet, or out of the cold. The latch string is always out.

Yours truly,  
W. H. Rawson & Son

Gary Saved Many From Bankruptcy.

NEW YORK, June 17.—"Pierpont, I am the happiest man in the world. I have unloaded this burden off my back to your shoulders. I am off for Europe."

This is what Andrew Carnegie told the late J. P. Morgan when the sale of the Carnegie Steel Company to the United States Steel Corporation was concluded, according to James H. Reid corporation, who testified at today's hearing of the government suit to dissolve the corporation.

The witness said he had attended never heard of any agreements and had the so-called Gary dinners and had understandings made to the fix prices.

"Judge Gary would exhort us like a Methodist preacher in a camp meeting," said Judge Reed, "telling us not to cut prices and to get everything in our own net. The policy he laid down saved a thousand men from bankruptcy. If prices had gone down, ruin would have followed."

Cotton Men Will Be Heard

WASHINGTON, D. C., June 17.—Hearings on all questions pertaining to the raising, handling and shipping of cotton will be held by a subcommittee of the House Committee on Interstate and Foreign Commerce, beginning next Tuesday. Representative Sam Rayburn of Texas is a member of the subcommittee.

It is expected, according Representative Adamson of Georgia, chairman of the committee, that cotton growers spinners, ginners and all others in any way interested in the cotton industry, will be heard. These hearings will be preparatory for legislation in the next session of Congress.

Income Tax Bill Changed.

WASHINGTON, D. C., June 17.—An additional exemption of \$500 for each child of a family in the income tax section of the tariff revision bill was determined upon tonight by the Senate Finance Committee, of which Senator Williams is chairman, and the change will be recommended to the majority members of the committee tomorrow.

The subcommittee also is seriously considering recommending changing the \$4,000 exemption in the Underwood bill to \$3,000. This, it is argued, would greatly increase the revenue, and with the provisions proposed for children would not impose a hardship upon the head of families.

Senator Simmons of the Finance Committee said tonight that the Democratic caucus of the Senate would be called for Thursday whether the Finance Committee majority had concluded with the schedules already approved while the committee was finishing its work.

Tomorrow the full committee will take up the income tax and administrative features of the bill, having concluded the sundries schedule late tonight. A recommendation of the subcommittee to decrease the 20 per cent duty on cut diamonds was not accepted by the majority.

Fatal Heat in Chicago.

CHICAGO, June 16.—Records of the local weather bureau for hot weather in June were equalled today when at 2 p. m. the mercury in the "comparatively" cool observatory tower registered 98 degrees.

Five deaths today were attributed to the weather and there were numerous prostrations.

The county board scheduled a meeting to discuss a plan to furnish free ice to the poor. The health de-

Real—Rosenthal  
Felix Real and Miss Esther Rosenthal were married at the home of the bride's parents, Mr. and Mrs. Oscar Rosenthal 2902 Milby Street, Houston, Wednesday, June 18.

Misses Naomi McWilliams, of Houston, Dora Nimitz, Emma Real and Hilda Real, of Kerrville, were bride's maids, Misses Hilda Rosenthal and Clara Herzog, attendants to the bride and Oscar A. Rosenthal attendant to the groom.

The groom, who is the eldest son of Walter Real, is a prosperous young Kerr County ranchman, who has a wide circle of friends in this county. The bride is a lovable and lovely young woman who spent her life in Kerrville until two years ago when her parents removed to Houston. Friends without number wherever these two popular young people are known will join in wishing them happiness.

Among those who attended the wedding from Kerrville were Mrs. H. Weiss, and Misses Clara Herzog, Emma Real and Hilda Real.

Miss Regenia Hesse returned to her home in San Antonio Wednesday after a short visit to her sister, Mrs. William C. Seale.

Important Decision Affecting Riparian Rights of Farmers.  
WASHINGTON, D. C., June 16.—The Supreme Court today affirmed the decision of the Supreme Court of Arizona, upholding the right of William A. Gillespie to water for his irrigated land free from contamination from the reducing plant of the Arizona Copper Company at Clifton, Ariz., twenty-five miles above him, on the Gila River. The copper company will be allowed to complete its plant, provided it installs apparatus to stop the contamination.

Death of Mrs. Lathrop.  
Mrs. K. C. Lathrop died Saturday, June 14, from the effects of a serious surgical operation which she was unable to sustain in her weakened condition. The funeral took place Tuesday from the residence of Dr. E. Galbraith, services being conducted by Dr. W. P. Dickey, pastor of the Presbyterian Church. Interment was at Glen Rest.  
Mr. K. C. Lathrop, husband of Mrs. Lathrop, died on the 2nd of May. One son survives these parents who passed over the river so near together. Mr. and Mrs. Lathrop came to Kerrville several years ago in quest of health. Their excellent character won for them many friends who sincerely mourn their passing in the midday of life. The son, Eugene Lathrop, left Thursday for Searcy, Ark., where he will make his home with his grandmother, Mrs. Huntley.

The behavior of the justices of the appellate court is a disgraceful demonstration of the length to which men will go in fanatical feeling over the liquor question. No question has ever arisen in America that has created such bitter partisanship, not even the slavery question. It is deplorable that the question cannot be settled for all time, and especially so that men in high office, becoming partisans, allow the matter to sway them in the performance of a sworn duty to the state. Both sides of this controversy have carried the matter too far every time the question has been raised.

There is just at this time much discussion of the matter of "Practicing Influence" in the lobbies at Washington. Practicing influence is a perfectly legitimate business, as long as they do not use fraud and intimidation and shot sacks full of quarters.

There is a big fight being made just now against cigarette smoking. Cigarette smoking is bad, but a boy that has no more sense than to smoke them will very probably never amount to anything anyway, so what's the use.

It is reported that Morris Shepard has found a "joker" in the tariff deck. We are astonished, it must have been a deck of "Authors."

**Fourth Class Postmaster Examination**

The United States Civil Service Commission announces that on July 12, 1913 an examination will be held at Kerrville, Texas, as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class postmaster at Center Point, Texas, and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was \$858 for the last fiscal year.

Age limit, 21 years and over on the date of the examination, with the exception that in a State where women are declared by statute to be of full age for all purposes at 18 years, women 18 years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the post office for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements.

Application forms and full information concerning the requirements of the examination can be secured from the postmaster at Center Point, Texas or from the U. S. Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the Commission at Washington at least 7 days before the date of the examination.

**ANNOUNCEMENT**

We have purchased the stock of general merchandise formerly owned by D. R. Williams Mercantile Company, at the old Dietert Stand on Water Street. We shall continue the business at the same stand, and will appreciate all patronage given us.

We shall conduct the business along strictly modern merchandising lines, and carry a complete stock of dependable goods in all departments. Respectfully soliciting your trade.

Yours very truly,

**SMITH MERCANTILE CO.**

otherwise it may be impracticable to examine the applicants.

**Bryan Tells Why Dollar Diplomacy Was Abandoned.**

WASHINGTON, D. C., June 15.—Secretary Bryan today discussed with Dr. Lapro Miller, Brazilian Minister of Foreign Affairs, on a special mission here, the reason for the abandonment by the Wilson administration of the so-called "dollar diplomacy" policy. Dr. Muller had called at the home of Mr. Bryan to pay his farewell respects.

There is no lack of desire to encourage increase of commercial relations between the United States and Brazil and other nations, Mr. Bryan told his visitor. This is to be done, however, without having the Government back of enterprises of American capital in foreign countries.

The Administration, he added, desires to see American business secured abroad through the establishment of friendly relations with those countries and their people and by the use of absolutely honorable commercial methods. Dr. Muller agreed that this was the wisest policy and he asserted that he would do what he could do to encourage Brazil's endorsement of it.

Mr. Bryan suggested that the State Departments of the two governments could do much to prevent improper business from gaining a foothold by reporting promptly any cases they discovered. Dr. Muller promised to do this.

Tonight shortly before the Brazilian minister and his party left their hotel for the train Secretary Bryan called to say farewell.

President Wilson's friendly reception last week, Secretary Bryan's cordiality and the recess by the Senate in his honor Friday afternoon were the three features which Dr. Muller said pleased him most in his five days here. Today the Brazilian embassy staff gave him a luncheon at the Chevy Chase Club.

On the special cars the Muller party, accompanied by Dudley Field Malone, Third Assistant Secretary of State, and others left at midnight for South Bethlehem, Pa., where tomorrow will be spent inspecting the great steel plant there. They will reach New York tomorrow night to spend Tuesday. Wednesday they go to West Point on a torpedo boat destroyer, then to Boston and Niagara Falls.

The party will reach San Francisco on June 27, and will be back in New York on July 7, whence they will take the battleship Minas Geraes for Brazil.

**Montejay Faces Famine.**

BROWNSVILLE, Tex., June 15.—Almost surrounded by the Constitutionalists the city of Montejay is in a most desperate condition, according to two Mexicans who arrived here today. They travelled most of the way by handcar.

The poor people are suffering from hunger and the Constitutionalists have cut off all avenues of supplies, they say. Even carts carrying corn are not allowed to reach the city and this product is selling in Montejay for 15 pesos a cargo, in ordinary times bringing 7 or 8 pesos per cargo.

Industry in the city has been brought to a standstill and there is no way for the laboring class to make a living wage, they said.

The smelter is not operating and railroad traffic is cut off. There appears to be a well defined plan, according to the report, on the part of the Constitutionalists to starve the city and force the garrison to withdraw.

**Savages On Amazon Massacre Twenty.**

NEW YORK, June 14.—In a message from Caracas, Venezuela, today, D. Bejiman Baldo, vice president of the Latin American Press Advertising Agency here, received news of the death at the hands of a savage tribe of Indians in the heart of the Amazon jungle, of his brother, Manuel Baldo; his brother-in-law and governor of the Amazon territory, General Roberto Palido, and more than a score of others, who were members of an exploring expedition. Of the safety of his sister, Mrs. Roberto Palido has not been informed. He believes, however, that while she accompanied her husband into the interior, she had been left behind at a settlement while the men of the party penetrated further into the jungle, where they were killed.

The expedition had been authorized by the governor of Venezuela, said Dr. Baldo today, and while the Joroco tribes of Indians are known to be savage and well armed, it was not thought that they would molest the Venezuelans, who were not armed or equipped for military service, other two leaders were members of the army of Venezuela. The details of the massacre said Dr. Baldo, have not been learned yet. All that is known is that his brother, with General Palido; the general's brother, Colonel Pedro Palido; a physician, a botanist, two engineers and a staff of more than twenty men were found dead. It is believed, said Dr. Baldo, that they met their death early last month.

**QUEEN OF AUTOMOBILES**

VELIE MODEL R, 36 h. p. The Queen of the City. A handsome, luxurious touring car with all the latest equipment, such as the world renowned Bosch-Dual ignition system separate and apart from the starting and lighting system. Stromberg carburetor. Underlung spring made of the finest material, 42 inches long, 3-4 elliptic. (We will replace springs on Velie cars if broken within five years.)

Velie Model R has the longest stroke motor of any car built in America, in its class. The Velie is the greatest hill climber built. We will put the Velie 36, Model R against any 40 h. p. car on hills, mud or sand. It is the most powerful car of its h. p. rating, built 36 h. p. at only 1000 revolutions.

We might add for your benefit that the Velies are nephews of John Deere—you know John Deere goods. (This car is backed by \$70,000,000). Every car carries a factory guarantee.

The Velie Model R is easy to operate and is built especially for ladies. You enter the Velie from the curb unhindered, when comfortably seated you start the car by a light touch of the foot and you are off. The Gray & Davis starting and lighting system, built especially for the Velie motors, is the most positive in the world.

If the best car at any price would suit you—if you want the handsomest and most up-to-date car, such as left-hand drive, center control, etc., you will buy a VELIE, price \$1561, delivered to you.

**Supreme Court Adjourns.**

WASHINGTON, D. C., June 16.—When the Supreme Court adjourned today until October some twenty-five important cases were left undecided. Among these were the cases of Samuel Gompers, John Mitchell and Frank Morrison, the officers of the American Federation of Labor, who are asking a review of the decision of the District of Columbia court holding them in contempt for alleged violation of an injunction in the Buck stove and Range Company case. Execution of the sentences thus will be delayed until fall.

Gompers, who was sentenced to a month in jail, has been very ill for several months.

Other cases on the left-over list include the Intermountain rate case, the citrus fruit rate case, affecting the Florida East Coast airroad, the Nashville-Atlanta reshipping privilege case, the harbor sugar lighterage case and the California oil land suits by individuals against railroads.

Among the State laws whose constitutionality remain undecided are those of New York giving the right to city officials to tax National bank stocks regardless of debts of owners; the Georgia law regulating headlights on locomotives, the Kentucky law taxing those who furnish information to commercial rating houses, the Vermont law taxing savings deposits in National banks and the Massachusetts foreign tax law.

Baseball at the park tomorrow. Athletics vs. Fredericksburg. Game called at 2 o'clock. Admission 25c, Children 15c.

**Gary Saved Many From Bankruptcy.**

NEW YORK, June 17.—"Pierpont, I am the happiest man in the world. I have unloaded this burden off my back to your shoulders. I am off for Europe."

This is what Andrew Carnegie told the late J. P. Morgan when the sale of the Carnegie Steel Company to the United States Steel Corporation was concluded, according to James H. Reid corporation, who testified at today's hearing of the government suit to dissolve the corporation.

The witness said he had attended never heard of any agreements and the so-called Gary dinners and had understandings made to the to fix prices.

"Judge Gary would exhort us like a Methodist preacher in a camp meeting," said Judge Reed, "telling us not to cut prices and to get everything in our own net. The policy he laid down saved a thousand men from bankruptcy. If prices had gone down, ruin would have followed."

**Cotton Men Will Be Heard**

WASHINGTON, D. C., June 17.—Hearings on all questions pertaining to the raising, handling and shipping of cotton will be held by a subcommittee of the House Committee on Interstate and Foreign Commerce, beginning next Tuesday. Representative Sam Rayburn of Texas is a member of the subcommittee.

It is expected, according Representative Adamson of Georgia, chairman of the committee, that cotton growers, spinners, ginners and all others in any way interested in the cotton industry, will be heard. These hearings will be preparatory for legislation in the next session of Congress.

**Income Tax Bill Changed.**

WASHINGTON, D. C., June 17.—An additional exemption of \$500 for each child of a family in the income tax section of the tariff revision bill was determined upon tonight by the Senate Finance Committee, of which Senator Williams is chairman, and the change will be recommended to the majority members of the committee tomorrow.

The subcommittee also is seriously considering recommending changing the \$4,000 exemption in the Underwood bill to \$3,000. This, it is argued, would greatly increase the revenue, and with the provisions proposed for children would not impose a hardship upon the head of families.

Senator Simmons of the Finance Committee said tonight that the Democratic caucus of the Senate would be called for Thursday whether the Finance Committee majority had concluded with the schedules already approved while the committee was finishing its work.

Tomorrow the full committee will take up the income tax and administrative features of the bill, having concluded the sundries schedule late tonight. A recommendation of the subcommittee to decrease the 20 per cent duty on cut diamonds was not accepted by the majority.

**Fatal Heat in Chicago.**

CHICAGO, June 16.—Records of the local weather bureau for hot weather in June were equalled today when at 2 p. m. the mercury in the "comparatively" cool observatory tower registered 98 degrees.

Five deaths today were attributed to the weather and there were numerous prostrations. The county board scheduled a meeting to discuss a plan to furnish free ice to the poor. The health de-

Leavell, K. of R. and S., S. J. Drake, Prelate, A. F. Thigpen, M. A., R. A. Shelburne, M. of W., E. Galbraith, M. of F., A. Enderle, M. of E., R. S. Newman, I. G., John H. Ward, O. G.

### Miss Schreiner's House Party.

Miss Hester Schreiner is entertaining a party of young lady friends at a house party at the home of her parents, Mr. and Mrs. A. C. Schreiner, this week. In the party are Misses Eleanor Barclay, Christabel Moore, Virginia Hurst and Margaret Shock of San Antonio, and Miss Margaret Mangum, of Uvalde.

The week has been taken up with auto trips, card parties, tennis and other social features. On Tuesday afternoon a Rook Party was the feature, and was a most pleasant gathering. To-night a dance will be given and a large party of Kerrville young people, as well as several young men out of town who came today for the week end, will be in attendance.

The house party has been a great social success, and the guests are highly pleased with the graceful manner in which Mrs. Schreiner and Miss Hester entertain.

Sheer wash silks, 25 to 50c a yd. KERRVILLE MERCANTILE CO.

**To Our Customers.**

**Capt. Bill Whorton Sustains Injury**

In the early part of the week Capt. Bill Whorton had the misfortune to get one of his fingers caught in the cogs of a harvesting machine at a ranch on the divide, and badly mangled. He came to Kerrville and had the injured member treated, but it grew worse and yesterday was amputated. It is hoped that the removing of the injured finger will allay the spread of the inflammation, and that the balance of the hand will be saved.

Enamel ware, chinaware, from everywhere, at right price. KERRVILLE MERCANTILE CO.

**Real—Rosenthal**

Felix Real and Miss Esther Rosenthal were married at the home of the brides parents, Mr. and Mrs. Oscar Rosenthal 2602 Milby Street, Houston, Wednesday, June 18.

Misses Naomi McWilliams, of Houston, Dora Nimitz, Emma Real and Hilda Real, of Kerrville, were bride's maids, Misses Hilda Rosenthal and Clara Herzog, attendants to the bride and Oscar A. Rosenthal attendant to the groom.

The groom, who is the eldest son of Walter Real, is a prosperous young Kerr County ranchman, who has a wide circle of friends in this county. The bride is a lovable and lovely young woman who spent her life in Kerrville until two years ago when her parents removed to Houston. Friends without number wherever these two popular young people are known will join in wishing them happiness.

Among those who attended the wedding from Kerrville were Mrs. H. Weiss, and Misses Clara Herzog, Emma Real and Hilda Real.

Miss Regenia Hesse returned to her home in San Antonio Wednesday after a short visit to her sister, Mrs. William C. Seale.

**Important Decision Affecting Riparian Rights of Farmers.**

WASHINGTON, D. C., June 16.—The Supreme Court today affirmed the decision of the Supreme Court of Arizona, upholding the right of William A. Gillespie to water for his irrigated land free from contamination from the reducing plant of the Arizona Copper Company at Chifton, Ariz., twenty-five miles above him, on the Gila River. The copper company will be allowed to complete its plant, provided it installs apparatus to stop the contamination.

**Death of Mrs. Lathrop.** Lathrop, died on the 2nd of May.

Mrs. K. C. Lathrop died Saturday, June 14, from the effects of a serious surgical operation which she was unable to sustain in her weakened condition. The funeral took place Tuesday from the residence of Dr. E. Galbraith, services being conducted by Dr. W. P. Dickey, pastor of the Presbyterian Church. Interment was at Glen-Rest. Mr. K. C. Lathrop, husband of Mrs. Lathrop, died on the 2nd of May. One son survives these parents who passed over the river so near together. Mr. and Mrs. Lathrop came to Kerrville several years ago in quest of health. Their excellent character won for them many friends who sincerely mourn their passing in the middle of life. The son, Eugene Lathrop, left Thursday for Searcy, Ark., where he will make his home with his grandmother, Mrs. Huntley.

**Makes The Nation Gasp.**

The awful list of injuries on a Fourth of July staggers humanity. Set over against it, however, is the wonderful healing by Bucklen's Arnica Salve, of thousands, who suffered from burns, cuts, bruises, bullet wounds or explosions. It's the quick healer of boils, ulcers, eczema, sore lips or piles. 25c at The Kerrville Drug Company.

**Wilson to Aid Ball Team's World Tour.**

WASHINGTON, D. C., June 16.—When James J. Callahan, of the Chicago American baseball club, called on President Wilson today to explain the proposed world tour of the White Sox and the New York Giants, Mr. Wilson expressed his approval, not only because he said he considered himself a baseball fan but because he thought the movement might result in the creation of an international league in a large sense.

President Wilson promised that through official channels, every courtesy would be extended to the baseball teams abroad. The trip will begin next November, including visits to the Philippines, Japan, China, Australia, Egypt, France and Ireland and return about March 1, of 1914.

**Can't Keep it Secret.**

The splendid work of Chamberlain's Tablets is daily becoming more widely known. No such grand remedy for stomach and liver troubles has ever been known. For sale by all dealers.

**Nation Fights to Save Babies.**

WASHINGTON, D. C., June 15.—Warning every community in the Nation that the great death rate of babies is due to diseases, which, to a large extent, are preventable, the Children's Bureau of the Department of Labor has prepared a compilation of the steps which various up-to-date cities are taking to protect child life and will circulate it in a National campaign of diffusing child welfare ideas. This bulletin, which will be a feature of the Children's Bureau, exhorts every locality to wage summer campaigns to save the babies' lives.

In wards in such cities as New York and Philadelphia, where systematic summer baby saving campaigns were undertaken, the death rate of infants decreased between 30

## HUSBAND RESCUED DESPAIRING WIFE

### After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. 100-18 and 40 per cent.

A baby-nursed by its mother, the Children's Bureau declares, has approximately 10 times the chances to live than a bottle-fed baby has.

The bulletin describes various municipal and philanthropic activities in the direction of child welfare, such as inspection of milk supply, municipal milk dispensing stations, baby clinics, visiting nurses, instruction of mothers and the destruction of the death distributing fly.

**Chamberlain's Colic, Cholera and Diarrhoea Remedy.**

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed, and is almost certain to be needed before the summer is over. It has no superior for the purpose for which it is intended. Buy it now. For sale by all dealers.

**Wife Shot Husband, Wound Held Fatal.**

DALLAS, Tex., June 16.—Little hope is held out for the recovery of J. McAuley, who was shot by his wife following a quarrel which, Mrs. McAuley declares, her husband threatened to kill her. The shooting occurred while McAuley and his wife were at the zoo in Forest Park, Oak Cliff. She shot him three times, the bullets taking effect in his left side. The wounded man was taken to St. Paul's Sanitarium.

Mrs. McAuley, who is under arrest, is in the care of Police Matron Farley pending the result of her husband's condition.

The woman was returning from mass at Sacred Heart Cathedral and took a short cut through the park on her way home, when she was met by her husband, who threatened to kill her. He was flourishing a pistol. She declares she took the pistol from her husband and does not remember what occurred afterward. Her statements were corroborated by her young daughter. The McAuleys are the parents of 13 children, six of whom are living.

Through United States District Attorney Atwell Mrs. McAuley some time ago filed a claim to one-third interest in an estate in England valued at \$3,500,000.

**Ends Hunt For Rich Girl.**

Often the hunt for a rich wife ends when a man meets a woman that uses "Electric Bitters." Her strong nerves, steel in a bright brain and even temper. Her peach bloom complexion and ruby lips result from her pure blood; her bright eyes from restful sleep; her elastic step from firm, free muscles, all telling of the health and strength Electric Bitters give a woman, and the freedom from in digestion, backache, headache fainting and dizzy spells they promote. Everywhere they are woman's favorite remedy. If weak or ailing try them. 50c at The Kerrville Drug Co.

Apparatus by which gas lamps can be lighted and extinguished by wireless waves has been invented in Germany.

Sound in new electric fog horn is produced by half a dozen clappers striking a gong about 600 strokes a second.

**Advises District Clerks of New Law.**

AUSTIN, Tex., June 16.—District clerks in every county in Texas are being advised by the comptroller's department of the provisions of the act passed at the last session of the Legislature which measure provides for the payment of witness fees in felony cases where such witnesses reside in the county of the prosecution. There is at present no law providing for the payment for such witnesses, and under this new act which becomes effective on July 1, each witness shall be allowed \$1.50 per day.

While it is estimated by the comptroller that this law will cost the state considerably over \$500,000 a year that official is now making an effort to ascertain as close as possible the exact amount so it may be included in the appropriations to be made for that department by the coming extra session of the Legislature.

"The fact that the law referred to will create a considerable expenditure of money and we have nothing upon which to base the amount of appropriation necessary to cover the expenses," writes the comptroller to the district clerks, "I will respectfully ask that upon receipt of this letter, you forward to this department the exact number of witnesses who reside in your county and who were subpoenaed in felony cases between June 1, 1912, and June 1, 1913. Also give your estimate of the average number of days the witnesses were in attendance."

**Friedmann Sails For Berlin.**

NEW YORK, June 17.—Dr. Friedrich F. Friedmann, the Berlin physician who announced several months ago that he had a cure for tuberculosis, sailed for home today. His institute here was closed recently, after the board of health had forbidden the use of his vaccine. The doctor did not say whether he would return.

**CALOMEL IS UNSAFE**

Local Druggist Who Sells Dodson's Liver Tone Guarantees it to Take the Place of Calomel.

If your liver is not working just right, you do not need to take a chance on getting knocked all out by a dose of calomel. Go awson & Son, who sell Dodson's Liver Tone, and pay 50 cents for a large bottle. You will get a harmless vegetable remedy that will start your liver without violence, and if it does not give complete satisfaction the druggist will refund your money with a smile.

If you buy a bottle of Dodson's Liver Tone for yourself or your children, you have insured your family relief from attacks of constipation, biliousness, lazy liver and headache. It is as beneficial and safe for children as for adults. A bottle of Dodson's Liver Tone is something every man or woman should keep in the house. Your money is safe because you can return the bottle, if it fails to satisfy.

**Kaiser Disregarded an Appeal to Abolish Prussian Constitution.**

BERLIN, June 16.—A remarkable story showing Emperor William's attitude toward a constitutional monarchy was related today during the celebration of the twenty-fifth anniversary of his reign by the faculty and students of Berlin University.

Prof. Otto Hintz, professor of constitutional and administrative history, declared the Emperor himself had told him yesterday how he had first disregarded and then destroyed the standing appeal made by Frederick William IV of Prussia to his successors to abolish the Prussian constitution. The Emperor said the first document he found in his desk after his accession was an envelope containing the political testament of Frederick William IV, which was to be delivered to each of his successors on his accession.

One of the first delegations received by Emperor William today to congratulate him on attainment of the twenty-fifth anniversary of his reign, was that headed by Andrew Carnegie. The Americans presented to the Emperor an address signed by a large number of their countrymen.

The anniversary of the accession of Emperor William to the imperial throne was celebrated today throughout the German Empire as a general holiday.

The commemoration, which had been deferred from its actual date, out of respect to the memory of the Emperor's father, Frederick, coincides with the forty-second anniversary of the triumphal return of his grandfather at the head of his victorious army after the Franco-Prussian war, and was marked by considerable military display.

**Chamizal Zone Not Claimed.**

EL PASO, Tex., June 16.—Sunday was the last day provided by the treaty between the United States and Mexico for the settlement of the Chamizal dispute between the two countries as to the possession of the southern El Paso strip of real estate. It may be that another treaty will be necessary.

An international commission three years ago fixed an award for this very valuable piece of land, which gave to Mexico all land south of where the river bed existed at a certain date, but failed to say where the river bed was located. In effect, the commission agreed that Mexico is entitled to part of the land now in El Paso and in dispute, but did not fix the boundary. By treaty the decision was annulled for two years. It now becomes effective, but Mexico does not know where to try to take possession and probably will do nothing for the time being.

### Coal Strike Renewed.

CHARLESTOWN, W. Va., June 16.—Word came to Charlestown early this morning from various sources that the miners at work in the operations on paint and cabin creeks had voted at mass meetings yesterday to renew the strike which for a year has convulsed the coal fields.

According to reports reaching Governor Hatfield, meetings at Eskdale and in the mountains above Kayford voted not to return to work this morning.

Cigarettes that light by rubbing them on the box like safety matches are an English novelty.

### Died.

The angel of death has come to the home of Lew and Ella Baldwin and taken their only child, Lettie Oliva.

She was born Oct. 2nd, 1911. Was a bright, lovely child. She was sick 34 days. God came to her relief June 12th at 11:40 o'clock. God called the Bud from earth to Bloom in Heaven. Oh! grief-stricken parents, you cannot bring her back, but you can go to her. Lettie Oliva Baldwin was buried at the Baldwin cemetery June 15th, 1913. May the Lord comfort the grief-stricken ones. Though the earth may boast one gem the less,  
May not e'en Heaven the richer be.

### Water Power Tax Will be Based on Company's Rates.

WASHINGTON, D. C., June 16.—"The lower the rate charged to consumers by electric power companies the lower will be the tax which such power companies must pay to the Government.

Secretary Lane of the Interior Department today announced this as the heart of the policy adopted as to the disposition of water rights of the Government."

Mr. Lane has pending before him several applications for rights to use the public lands and the waters of navigable streams for the development of electrical power. He is opposed to make use of these waters as a source of revenue to the Government, but is in favor of requiring the fullest use of them for the benefit of the people and has laid down five conditions as an "ideal standard." These conditions are:

"1. The greater the development of horsepower the lower the charge per horsepower to be made on the part of the Government. This is intended to secure the full use of the streams.

"2. The lower the rate to consumers the lower the charge on the part of the Government.

"3. No charge whatever for a period of five or ten years, during which the power company is finding its market.

"4. Acceptance as public utility of the State's jurisdiction over intrastate rates and service, and of Federal jurisdiction over interstate rates and service.

"5. Absolute prohibition of combination or monopoly and the right of revocation on the part of the Government in event it is established to the satisfaction of the Secretary of the Interior or the courts that such combination has been made or that prices have been fixed by agreement with competing plants."

### Blackhand Wrecked Home.

LOS ANGELES, June 16.—J. D. Trappini, a wealthy fruit dealer here, formerly of New Orleans, whose residence was dynamited early today, told the police he believed the attempt on his life was planned by an organized society, with headquarters in New Orleans. Trappini and his family were not at home when the explosion occurred. The building was wrecked.

Peffelino Principe and a man who refused to give his name were arrested. They were both badly burned when their clothing caught fire from the explosion.

Trappini told the police a story of demands for money, threats and pursuit covering a period of 11 years. He was the object of mysterious attacks in New Orleans for nearly nine years, he said, and shortly after his arrival here two years ago, received letters demanding various sums. These he ignored. Last week he said he received a demand for \$300, accompanied by a threat that his family would be killed unless the money was paid to a blackhand society. This letter also, he ignored.

### Saw no Harm in Offer to Buy Postmastership.

LOS ANGELES, June 16.—Charles Ercanbrack, 63 years old, indicted by the Federal grand jury on a charge of having offered a bribe to a United States Senator to obtain the office as postmaster at Santa Barbara, faced arraignment today. He placed reliance in the promise of his wife, Lucinda, and daughter, Bessie, to "bring the whole of Santa Barbara down to tell the Judge" that he meant no wrong when he wrote Senator John D. Works promising him \$1000 for the postmastership.

Ercanbrack admitted having offered Senator Works his cash savings, disavowing any intention to commit a crime and added: "Lots of times we carpenters pay the boss carpenter two bits or four bits a day to get a job, and nothing is thought of it."

The sentence from Ercanbrack's letter to the Senator, "Now, Mr. Works, if this doesn't conform with your ideas just burn this," is explained by the writer thus: "I figured I might

# LOOKING For Trouble

**A**BOUT the most profitless occupation one can possibly be engaged in is looking for trouble. We are not looking for trouble, we are trying every way possible to avoid it. There is an old saying, "Never trouble trouble, until trouble troubles you." That is all right for a freak phrase, but often, if you are not looking which way trouble is coming you may not have time to dodge until after you are hit, and a close observation of the process is that dodging afterwards is largely if not entirely wasted energy.

Of course there is no wisdom in "old-womanish" crossing of bridges before you get to them, but when there is a bridge there, and you know it, it is your business to get ready to cross in the best shape possible. There are bridges to cross in every kind of buying in the world. Sometimes your own judgment will get you across all right, and again the judgment of the seller, his knowledge when he buys the goods, must help you over.

We want to call your attention to the fact that we are prepared to help you across the bridges when you want to buy LUMBER. Every piece of lumber we handle is purchased by a man who was identified with the oldest lumber business in Southwest Texas. He has crossed some bridges in the Lumber Business, and we have the satisfaction of knowing that when we buy lumber we are looking ahead for bridges, in the quality of the stock and the price we pay. If you buy lumber cheaper than we sell it you don't get as good lumber, or else the seller loses money—and people are not bad about losing money in any kind of business, in that way.

Then again, there are a lot of little bridges. Such, for instance, as estimating short on lumber for a certain building. This is not really a little bridge. If you know what the work on your building will cost, you will know, after we make an estimate, just about what the finished structure will come to. Another thing that is a little bridge is starting in on a job and not being able to get what you want, and having the lumberman give you "something just as good." We carry a stock of lumber that will meet your requirements, no matter what you want to build, nor how soon you want to build it.

This business is more than half a century old, and for more than a quarter of a century has had a yard at Kerrville. We have a reputation to sustain, and we are sustaining it. We want your business on a safe, straightforward business basis. We offer no chromos as an inducement. We do, however, offer as good lumber as can be bought in Texas, and sell it at a price that assures you of first-class service, and leaves us a fair profit for our labor. We appreciate all patronage given us, and shall be pleased to have you call on us any time for prices and estimates.

get turned down, and I didn't want none of the home people to know about me trying to get this place."

### Trustee's Sale.

By virtue of power in me vested by deed of trust made by William Wehmeyer to me on Sept. 2d, 1910, recorded in Deed of Trust Records of Kerr County, Texas, Vol. 5, pages 132-133, I will on Tuesday, the 3d day of June A. D. 1913, between the hours of 10 o'clock a. m. and 4 o'clock p. m., sell at the court house door of Kerr County, State of Texas, in the town of Kerrville, at public outcry, for cash to the highest and best bidder, the 303-acre tract of land situated in Kerr County, State of Texas, on waters of Tegnors Creek about 10

miles S. 80 minutes W. from Kerrville, known as survey No. 1217, located by cert. No. 497, issued to H. E. & W. T. Ry. Co. and patented to Chas. Schreiner, assignee, by Patent No. 49, Vol. 58, dated July 13th, 1889.

### Sparks Boy; Upsets Stove And Starts A Fire That Costs The Town \$100,000

MONTECENO, N. Y., June 17.—Mrs. B. Wolfe of Ferndale tried to spank her young son today, and in so doing upset an oil stove. In the fire that resulted twelve business houses and three dwellings, including the Wolfe home, were destroyed. The loss will reach \$100,000.

Firemen from three towns finally checked the flames with dynamite.

### Nurses In Convention.

TEMPLE, Texas, June 5.—Delegates to the seventh annual convention of the Graduate Nurses Association of Texas, which will be held here three days, commencing Monday, June 6, are beginning to arrive and about one hundred in all are expected from abroad.

The headquarters will be at the Marton and Stegall Hotels and the sessions held at Grace Presbyterian Church.

Information was received today that the Houston nurses had engaged a special sleeper in which to travel to the convention and would arrive here tonight at a late hour.

Eggs can be boiled, steamed and poached at the same time with a new cooking utensil on the chafing dish order.

# Every Day for Over FORTY YEARS

Because we say it, does not, we admit, absolutely make it true, but the fact that we have proved it every day for forty years warrants us in saying "Quality and Service are the keystone of the business arch of the world."

**¶ We have proved that our methods of doing business are RIGHT**

**¶ We handle Superior Grain Drills, Springfield Wagons, Studebaker Hacks and Buggies, Moline and Avery Disc Plows**

**¶ We Carry a Complete Line of GENERAL MERCHANDISE, DRY GOODS, CLOTHING, GROCERIES, HATS, SHOES, Etc.**

**¶ You probably trade at our store—most people in this section do—if you are not a customer we would like to have you become one.**

### Judges Leave Bench, Refuse to Hear Case.

AUSTIN, Tex., June 19.—In the Court of Criminal Appeals yesterday afternoon the submission of the case of W. C. Roscher from Travis county, two of the judges left the bench and declined to hear argument in the case. It is one which involves the constitutionality of the provision of the liquor law which authorizes the forfeiture of a liquor license by the comptroller. The relator was represented by Judge A. S. Fisher of Georgetown and State Senator T. H. McGregor of Austin.

Comptroller Lane filed an affidavit alleging the proceeding was fictitious. He had Assistant Attorney Keeling to represent him. When Mr. Keeling arose to address the court in behalf of the comptroller, Presiding Judge Davidson informed him, Comptroller Lane was not a party to the suit and that he could not be heard in support of the affidavit.

A motion then was made by Judge Harper and seconded by Judge Prendergast that Mr. Keeling be permitted to speak, and the motion prevailed, at which point Judge Davidson excused himself and left the bench. Mr. Keeling then declined to speak and Judge Davidson soon returned to the bench.

Senator McGregor then arose to address the court, and immediately Judge Harper declared he would not hear Senator McGregor, as the presiding judge had declined to hear Mr. Keeling, and Judge Harper left the court room, saying as he left he would have nothing to do with the case. It may become necessary for the governor to name a special judge to preside.

### Senators Return From Mine Probe.

WASHINGTON, D. C., June 19.—Senators Swanson, Kenyon and Martine returned to the Senate to take up their legislative duties after a week of strenuous investigation in the coal strike of West Virginia. During a week in Charleston, the committee examined nearly a hundred witnesses, worked 10 or 12 hours a day, often sitting until after midnight, and took about one million

words of testimony.

The committee will resume hearings in Washington in a few weeks and will take up the charge of the West Virginia coal operators that the Miners' Union is in league with operators in the competitive fields of Pennsylvania, Ohio, Indiana, Illinois, to ruin the West Virginia field. When the committee resumes the coal operators will press their claim that Senator Martine has prejudiced the case against them. The Martine matter will be taken up by the subcommittee and presented to the full committee on education and labor.

### British Cabinet Ministers Apologize

LONDON, June 19.—For the first time in many years British cabinet ministers were compelled yesterday to defend their personal honesty before Parliament. The attorney general, Sir Rufus Isaacs and the chancellor of the exchequer, David Lloyd-George, excused their dealings in American Marconi shares on the floor of the House and the scene in the Marconi affairs, which their enemies had attempted to magnify into a scandal, rivaling the Panama debacle.

The two ministers admitted that they had acted thoughtlessly without dishonest intention. Having finished their defense in deference to the tradition that the House should be left to discuss their conduct without the embarrassment of their presence, they walked from the chamber together.

The resolution introduced by George Cave, unionist, in behalf of the resolution which brought the debate went no further than to express the regret of the House at the transaction of the ministers and the lack of frankness displayed towards the House.

By expressing their regret, the two ministers spiked the guns of their bitterest opponents. This comparatively tame ending to a fierce controversy was apparently the result of a truce between the parties to protect the good name of the Parliament.

Sounds produced by an electric siren invented in Germany are hastened on their way by a fan built in the machine.

### CONFIRMED TESTIMONY

#### The Kind Kerrville Readers Cannot Doubt.

Doan's Kidney Pills have stood the test. The test of time—the hardest test of all. Thousands gratefully testify. To quick relief—to lasting results. Kerrville readers can no longer doubt the evidence. It's convincing testimony—twice told and well confirmed.

Kerrville readers should profit by these experiences.

Mrs. M. S. Freeman, 116 S. Presa St., San Antonio, Texas, says: "I have had no backache or any other symptom of kidney trouble since I used Doan's Kidney Pills three years ago and consequently, I can confirm the testimonial that I gave in favor of this remedy shortly after I used it. Doan's Kidney Pills did me more good than any other moving the constant backache, but regulating the passages of the kidney secretions and restoring my kidneys to their proper working order."

For sale by all dealers. Price 50 cents. Foster-Milbourn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

#### 80 Women Are Burned to Death.

ST. PETERSBURG, June 19.—Eighty women were burned to death today by villagers enraged at the importation of cheap girl labor to work on a sugar estate in the district of Piriatin, in the province of Poltava, Southern Russia, according to the Kiev newspaper Liama.

The excited villagers first securely fastened all the means of exit from a wooden barn in which the girls were housed. They then set fire to the building while the inmates were asleep and all were burned to death without a chance to escape.

A New Jersey woman has invented a stew pan with a removable lid, hinged across the center and provided with a vent that can be opened as much as desired to permit steam to escape.

### Governor Cannot Revoke Pardon, Says Higher Court

AUSTIN, June 18.—In the reversal of the case of ex-parte D. R. Rice, appealed from Tarrant county and ordering relator discharged from custody, the court of criminal appeals today upheld the right of the governor to issue unconditional pardons but limited his power of revocation to a violation of the conditions named in the pardon.

Rice is in the county jail at Fort Worth. He was arrested two days after Governor Colquitt had pardoned him. The governor's revocation followed the complaint of relatives of the woman with whose murder Rice was charged. They claimed that the true facts had not been represented in the petition for pardon.

Rice's pardon was one of several pardons Governor Colquitt granted on Mother's Day. The aged man was released from the penitentiary on Tuesday following Mother's Day and had started out in search of his son, 18, whom he had not seen since he went to the penitentiary with a life sentence, when he was arrested by a policeman at Fort Worth on orders from the governor.

Rice was convicted on circumstantial evidence after three trials.

Fort Worth attorneys, assisting Rice's Hillsboro attorney, applied for a writ of habeas corpus for Rice. District Judge Marvin Brown at Fort Worth refused the writ, but he said that he knew the court of criminal appeals would reverse him.

"If the state were permitted to appeal criminal cases," Judge Brown said, "I would grant the writ now, but this is a matter of whether the governor's act was constitutional and I prefer to let the higher court interpret the constitution."

Rice will be released as soon as the higher court's order is received at Fort Worth.

Rice was a merchant at Joshua when his wife died mysteriously. The prosecution contended that Rice had intimate relations with another woman. Mrs. Rice was poisoned, the autopsy showed.

Foremost business and professional men of Joshua and of Hillsboro, where Rice was tried on a charge of venue from Johnson county, petitioned Governor Colquitt for his pardon.

### Male Suffragist Dies Under Hoofs of Horse

ASCOT, England, June 19.—Fired by the recent example of Miss Emily Wilding Davison during the race for the derby, a male suffragist today committed suicide by flinging himself in front of August Belmont's 4-year-old "Tracery" during the race for the Vanderbilt Ascot gold cup.

His act deprived the American sportsman of a good chance of capturing the trophy.

The man was killed on the spot. The horse and its rider were brought to the ground, were not harmed.

Waving a flag of the suffragette colors in one hand and brandishing a revolver in the other the militant suffragist sprang over the rails just as the field of eight horses, with the American colt, "Tracery," leading, was nearing the straight-away for the run home. With a loud yell of "stop," he bounded in front of the horses. "Tracery" collided with and felled him before the jockey, A. W. Halley, had time to avert the catastrophe.

#### Message Read Next Monday.

WASHINGTON, June 19.—President Wilson now plans to read his currency message to Congress next Monday and the Owen-Glass bill carrying the administration's ideas on currency reform will be introduced soon thereafter. By postponing presentation of the bill a few days the President hopes to have absolute harmony.

The president today specifically denied that Secretary Bryan had interjected a note of opposition to the currency bill. Mr. Wilson declared that was "not a shred of truth" in reports of friction.

Secretary Bryan had what he said was his first long talk on the question today when he met Secretary McAdoo just outside the executive office. The two men stood nearly an hour leaning against the iron fence along the executive avenue.

Chairman Glass of the House Currency Committee, however, was not sure that the bill would be introduced next week. He seemed to regard it "subject to delay," and it was indicated that the delay had been caused by conferences at the White

House last night.

Samuel Untermyer of New York, counsel for the Jujo Money Trust Investigating Committee, conferred today with Representative Henry on the Congressman's movement to reopen the "money trust" hearings.

#### President Will Read Message on Monetary Reform.

WASHINGTON, D. C., June 16.—President Wilson is not in the least perturbed by the slight manifestation of opposition among Democrats to the enactment of currency legislation in the present session of Congress. In a session with the newspaper correspondents today, the President was serenely confident that his plan to have an elastic currency measure go upon the statute books, about the same time the Democratic tariff bill becomes law, will prevail.

The President had read the "speech" of Representative Henry of Texas, it was admitted. When the President was asked if it was not considered that Mr. Henry insinuated that Wall Street is behind the so-called McAdoo-Glass bill—the administration currency measure—the correspondents were advised that it seemed Mr. Henry had not read the bill.

The fact that Mr. Henry has created some discord in Democratic circles is being discussed freely here. It is generally recalled that Mr. Henry was an active candidate for a place in the Wilson Cabinet, and procured the endorsements of a number of the Texas Congressmen for appointment as attorney general. Many Democratic newspapers are censuring Mr. Henry for his present course.

The Democratic majority view is that only unnecessary turmoil and strife in business would result from another "investigation" and further postponement of action on remedial legislation.

Rubber tree tapping by series of small borers set in a circle, the invention of an English expert in the Belgian Congo, has proven a more productive method than the customary vertical incision system.
