'WE WANT BREAD,''

TRICT DEMAND' FOOD OF MAYOR MITCHELL.

New York, Feb. 20 .- The cry of city's seat of government today, when several hundred women from the tenement district stormed the city hall

"We want bread."

They came to place their plight before Mayor John Mitchell. Many car-steps and tried to push their way into the building. Policemen on guard shut the gates, and from the basement, where there is a police station, reserves rushed up and restored order. The women were informed that Mayor Mitchell had not yet arrived.

The leader was Mrs. Ida Harris, president of the Mothers' Vigilant League. She and three other women were allowed to enter and await the mayor's coming.

"We are starving," Mrs. Harris told the mayor's bodyguard. "We demand help from the mayor. We will not be responsible for what happens if we don't get it."

The leaders were told that the mayor would not be at his office, today, but would arrange a meeting

"Sweet Marie" Gansome, one of Mrs. Harris' companions, addressed the women from the city hall steps. She was arrested and charged with disorderly conduct.

When the police removed her a group of women charged the police scratched their faces and tore their clothing. The police fought them off and a guard was thrown around the

The women remaining near the spot continued to shout, "we are starving" until mounted police scattered them.

THE OLD SENTINEL

When the camps of commercial industry were first pitched in Southwest Texas, almost half a century ago, this house was one of the first in this part of Texas and is, in fact, the pioneer store of Kerr County.

Time has brought its changes in many things, but while this business has grown, and has prospered, the policy of the "House of Quality" has ever been the same.

Old faces have disappeared from behind its counters and in its offices, but new ones took their places and the business went on undisturbed. Old customers have passed away, and new ones, including their children and their grandchildren, have taken their places, but the policy of the house is the same today as it was when conducted in a little building of cedar palisados.

We appreciate the steadfast confidence the people have had in us, and have earnestly striven to merit that confidence. That we have succeeded in a large measure is evidenced by the great growth of the business.

We offer you the same service, the same quality, the courteous treatment today, and the same full value for your money that has marked the course of the business from its founding. You are always welcome at the store of
