dictating the politics of Texas and the policies for which the party in the State stands, J. W. Bailey, candidate for Governor, declared in an address here. The six men, he said, are Thomas B. Love, Marius Marcellus Crane, Cullen F. Thomas, M. H. Wolfe, Cone Johnson and Thomas H. Ball. He declared that he proposes, if elected to Governor, "to take the government of the State away from these men and restore it to the people."

He declared that the people in the precinct conventions in May did not adopt resolutions of their own making, but resolutions sent them by these six men. He critized the Legislature for ratifying the Federal suffrage amendment after the people had refused to adopt a constitutional amendment granting State suffrage.

He reiterated his postion on union labor, producing a circular which calls upon organized labor to oppose Bailey in the primary.

He again pledged an econimical administration of the State's affairs. He critized the Texas delegation at San Francisco, saying they favored a dry declaration the State platform and then refused to support the Bryan dry plank at San Francisco.

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

The idea that the small car owner doesn't need a good tire is rapidly going the way. of all mistaken ideas.

He needs it more than anyone else. It's part of our job, as we view it, to see that he gets it.

INSTRUCTIONS TO PRESID-ING OFFICERS OF PRIMARY

named to conduct this primary have heretofore had similar service, therefore, it is not necessary to give you lengthy instructions concerning your duties, but the following may be beneficial:

1. Precincts that cast less than one hundred votes at last primary election must have two judges and two clerks, the presiding officer acting as one of the judges; and precincts of one hundred or more votes, two additional clerks shall be appointed and they will be paid two dollars each for this service.

2. Each presiding officer will select and appoint his own assistants. but they should be Democrats and otherwise legally qualified under the law as voters of the precinct, and women may serve on the election

3. The polls must be opened at 1 and closed at 7 o'clock.

4. Each voter must vote in the precinct of his residence; the residence of a married man is where his wife resides, and that of a single man where he usually sleeps at night.

5. It is not within the provence of any person to challenge the good faith of a voter; you can not prejudge what the voter will do at the following general election; however where it is known or believed that a voter did not support the Democratic nominees at the previous general election, his right to participate in this primary MAY be challenged and then the burden is placed upon the voter to establish his right by his written affidavit to the effect that he did support such nominees at that time otherwise he is not entitled to vote when challenged.

6. In every instance where a doubt arises concerning the right of a voter to vote, the doubt should be resolved in favor of the voter, for the reason if the vote is not legal it can be thrown out on contest

7. The certified poll list wi enable you to ascertain we have paid poll taxes in yor precinct and you should carefully check off each voter as he home to himself to vote and peruppear on the 2 hose name does disfied that he is legally you are o vote under exemption or otherwise.

8. No ballot can be counted for any candidate when the primary pledge has in any way been scratched or mutilated: it then becomes void.

9. Mail the returns at once in the two envelopes found among the supplies or send them by private means. but do not make a special trip to bring the returns in, for the reason we have not sufficient funds to pay this charge. Hold the box containing the ballots and bring or send it in at a later time and leave it with the County Clerk.

10. Naturally many things may come up on which you desire advice and I shall always be ready to render you all the assistance I can. Phone me if it becomes important and

11. It is hoped that we will have a large and enthusiastic primary, for experience has taught us that this is the best plan in selecting those whom we desire to serve us; our National Convention has been held, a platform adopted and candidates named for President and Vice President; it now remains for us to make such further nominations as the ballot will indicate, and then go forward to the November election with every hope of victory. Our Policy for Half a Century

When Thrift perches on the window sill, Extravagance walks out through the door. For it is a well known fact that Thrift and Extravagance cannot breathe the same air; it is impossible for both to exist under one roof at the same time; one must choose 'twixt the two. Which is preferable? Extravagance, that sees no further than the sundown of today-or Thrift, that offers the supreme satisfaction of seeing "rainy-day insurance" accummulate, and the future well provided for? This store has chosen Thrift. Hence its policy of "selling what is best, with price the second consideration." It is this policy of economy that has created the powerful incentives of "greater values" for the money-incentives that are saving many dollars.
