VOLUME 39
NUMBER 4

CIVIC LEAGUE TO RESCUE IN AID FOR TOURIST SITE

In addition to the contributions from most of the business and professional men of Kerrville, the Civic League came to the rescue of the Tourist Camp Site by giving its War Savings Stamps to the amount of \$100.00, and since then has raised an additional \$100.00 in other ways. This \$200.00 contribution will enable the Tourist Site Committee to have the buildings painted, the grounds cleaned and have some possibly to apply on the plumbing and electric wiring.

Those who have subscribed and have not paid, will please do so at once, and those who have not contributed are urged to do so, as this is a most worthy cause, and one that will ensure to great benefit for Kerrville.

As a place where there are as many tourists as come through here, and where there will soon be thousands after our good roads are built, we must have a Tourist Camp.

VARIED PROGRAM RENDERED; MEN'S CLUB IS GROWING

The semi-monthly meeting of the Men's Club of the Presbyterian Church was held Tuesday night at the St. Charles Hotel, the regular place for holding its sessions. There was a varied program, consisting of black-faded comedians—Guy Moses, R. A. Franklin, Herman Saenger and Alois Renschel, with Walter Saenger as leader. Their songs and jokes were much enjoyed. Walter Saenger also sang very effectively with Miss Minnie Dietert at the piano. Two or three religious songs were sung by a choir composed of some of Kerrville's excellent men singers with H. C. Robinson at the piano, and these were much enjoyed.

Talks were made by Leslie Adkins, J. L. Tullis and Miller Harwood, the former and latter making excellent remarks in harmony with the aims and work of the club.

President Will Garrett presided and John F. Reichert acted as secretary. The list of members shows that the organization is growing rapidly, there now being about seventy-eight recorded with an average attendance of about sixty.

Charming Birthday Party

Mr. and Mrs. A. G. Morriss entertained with a charming children's party last Saturday afternoon in honor of the seventh birthday of their little daughter, Pattie Belle.

At 3 o'clock the little folks began to arrive and the living room was soon filled with the ringing laughter of happy voices, as the games so dear to childish hearts were enjoyed.

A short program of music and readings were also enjoyed.

When the door to the dining room was opened and the children were asked to march in, there were cries of delight as they beheld the long table prettily decorated and the large cake with its seven burning candles, and saw at each place a tiny Japanese parasol standing as a favor. Ice cream and cake were served.

Mrs. Morriss was assisted in serving by her daughters, Margaret, Lillie Mae and Ruth.

Pattie Belle received many pretty birthday gifts.

The following children were invited to this delightful party: Kate Knox, Katie Sublett, Frances Eastland, Josephine Fawcett, Margaret and Martha Harwood, Ruth Leavell, Amy Lee Lowrance, Dorothy and Portia Hughes, Charlene Tullis, Marcia Jane Morriss, Nell King, Annie Laurie Canfield, Ruth Prescott and Arline Garrett.

Interesting Auxiliary Meeting

There was an interesting meeting of the Auxiliary to the Legion of Honor Tuesday afternoon at the residence of Mrs. J. D. Jackson.

Mrs. Carl Allen's resignation as first vice president was read, and Mrs. E. E. Palmer was elected to serve in her place. Mrs. J. S. Wheelers was elected second vice president. Committees were read from the president, Mrs. Chas. Mason, who was too ill to attend. Plans were made for an interesting year's work.

At the conclusion of the meeting delicious refreshments were served.

RAIN COMES FINALLY; WILL PROVE OF GREAT BENEFIT

The lengthy drouth in this section was broken early Monday morning when a drizzle commenced, which kept up throughout nearly all the day, winding up about 9:30 at night with a heavy precipitation of an hour and winding again to a drizzle. The way in which the rain came and fell throughout the day caused it to gradually soak into the earth and be of more benefit than a real hard rain would at the first after such a drouth as we have had.

The gauge at the Chas. Schreiner Bank showed that a half inch of rain fell, and as it about covered this entire section the benefit is all the greater than would a harder local rain be. The small grain will be saved and the range improved, while stock water will be replenished.

The rain has made us all more cheerful and optimistic, because in addition to the material benefit that accrues the health of the people of this section is improved.

ANNULLING OF BOND ISSUE IN EDWARDS COUNTY FAILS

The proposition of annulling Edwards County's \$300,000 road bond issue, voted in 1919, a part of which already has been spent, failed to carry last Saturday by the required two-thirds majority, according to a report from Rocksprings, received here. The vote favored the cancellation, 219 to 194, but the margin was insufficient.

Edwards County has no railroad and for that reason the right to support the issue providing money for highways was spirited. Alleged dissatisfaction with the expenditure of about \$100,000 and the claims by some ranchmen that they were unable to pay the increased tax resulted in a petition to the Commissioners' Court to call the special election.

On one project, that of building the Rocksprings-Uvalde road, State and Federal aid in the sum of \$18,000 had been granted. The entire road program previously mapped out will now be finished.

REPRESENTATIVE SATTER- WHITE WOULD END SENATE

Austin, Tex., Jan. 7.—Representative Lee Satterwhite of Carson County, chairman of the House Appropriations Committee, will advocate at the next session of the Legislature a measure which would completely abolish the Senate and reduce the membership of the House of Representatives to 120.

Mr. Satterwhite was at the Capitol today conferring with Governor Neff, and while here made this declaration:

"Such a plan can only be accomplished by an amendment to the Constitution and, of course, would have to be submitted to the people," he said. "However, at the next session I shall also advocate a resolution calling for a Constitutional Convention to frame a new Constitution. I believe the time has come when Texas should have a new Constitution."

By abolishing the Senate and reducing the House of Representatives to 120 members, Mr. Satterwhite believes that the business can be dispatched with greater speed and more efficiency.

Mining in Texas in 1921

Metal mines in Texas produced 544,000 ounces of silver in 1921 as compared with 511,401 ounces in 1920. The principal producing mine was the Presidio mine, at Shafter, which was operated steadily throughout the year.

A very small quantity of gold was also obtained from Texas ores in 1921, but no lead or copper, according to the United States Geological Survey, Department of the Interior.

Real Estate Transfers

W. N. Davis and wife to Jno. R. Leavell, lot 50x208 feet, out of block 50, Tivy Addition to Kerrville; \$100.00, etc.

J. A. Marris and wife to C. H. Brown, 180 feet out of block 78, Tivy Addition to Kerrville; \$250.00.

Wm. R. Young to F. E. Lawrence, 160 acres of Survey 1412, T. A. Dowdy, Kerr County; \$448.00.

MAKING THE HENS PAY A PROFIT BY 13-HOUR DAY

On October 15th, 1921, C. C. Butt of Kerrville culled his flock of hens and found that 93 out of 180 were not laying scarcely at all. These 93 hens were put into a good roomy, well ventilated house. They had been receiving an egg ration but didn't respond to it, as is shown by the fact that on October 15th the lot of 93 laid only two eggs.

Prior to putting these hens into the house Mr. Butt installed electric lights in the house and each morning at 5 o'clock the lights were switched on and the hens jumped off the roost and began eating the dry mash, as the hoppers were kept full at all times. The fact that the lights were turned on at 5 a. m. gave the hens a 13-hour day in which to eat things that make eggs. In other words, the days were made long like spring days and with the addition of sprouted oats to the ration the hens allowed themselves to think that spring had come and began laying accordingly as the records show.

By October 30th the pen laid 23 eggs and November 15th 33 eggs and after that date on through December they averaged an egg per hen every two days, or about 46 eggs per day from 93 hens.

Below are given the rations fed to these hens:

Dry mash in hoppers all of the time, consisting of 40 pounds bran, 20 pounds of shorts, 20 pounds corn meal, 20 pounds meat meal and a little charcoal.

The evening meal was made up of 2 gallons cracked corn per 100 hens, followed in about 20 minutes by the above proportioned mash fed wet at the rate of 2 gallons per 100 hens. Other feeds were 6 gallons of semi-solid buttermilk per 100 hens and sprouted oats at the rate of one gallon per 100 hens before they were sprouted.

From 500 hens Mr. Butt made a profit of \$203.17 above feed and lighting costs for the month of November.

J. A. OSWALT,
County Agent.

POULTRY INDUSTRY ALONG SAP RAILROAD IS MOST THRIVING

San Antonio Express: The most rapidly growing industry along the San Antonio & Aransas Pass Railroad at this time is poultry, according to H. M. Madison, farm agent of the San Antonio & Aransas Pass, and merchants in many cases are advertising attractive credit to farmers who grow grain and keep live stock and no credit for the farmer who places his dependency entirely in cotton. While some farmers sold their grain sorghums for 40 to 60 cents per bushel there were others who fed the grain to hogs and realized \$1 per bushel for it, Mr. Madison said.

Farmers in South Texas who a few years ago took to raising hogs—and were forced to reduce their herds through dry weather and failure of the corn crop are now finding that grain sorghums give a sure crop every year of grain, and it is claimed that South Texas has better advantages than the Panhandle for being a great stock country.

Mr. Madison, who has made a special study of the grain sorghum problem as relates to South Texas and the counties along the San Antonio & Aransas Pass, in a written statement said:

"A short time since one of the specialists of the United States Department of Agriculture called on me and told me of the efforts being made to get farmers to grow a longer staple and better grade of black land cotton. Seed grown and specially tested would be furnished by the department.

"I thought it was a fine opportunity and took it up with one of the best and most successful farmers along our lines. He declined the offer because he was making more by growing feed crops and marketing them through live stock. This year when many farmers were hunting markets for their grain he had already fed his grain crops to hogs and sold the hogs and had the money in the bank. The farmers were complaining that they were not getting more than 40 to 60 cents per bushel and he advised me that he had received over \$1 per bushel by marketing it through his hogs. This is not his first experience in this way. He has been marketing

his grain through live stock for years and has paid for a large farm, has money loaned out and is living in every kind of comfort. He said he could afford to grow cotton, but he could do better by raising feed crops and marketing them through live stock.

"The other day, I was in Floresville and talking to Sam Fore, editor of the Floresville Chronicle. He pointed across the street to a farmer unloading turkeys and chickens and said, 'That is what is keeping the farmer going through this country—chickens, eggs and turkeys are bringing in the money.'

\$140 Weekly From Eggs

"I was at another place and a farmer came in with 150 pounds of butter and a great many dozens of eggs. 'Yes, I have 40 cows and sell 150 pounds of butter weekly, and my eggs bring me over \$140 per week. I grow my own crops, I farm over 300 acres, but all my feeds go to chickens and cows. I treble my money this way.'

"The most rapidly growing industry along the S. A. & A. P. Railway is poultry. Every phase of poultry raising is being gone into more and more extensively. Breeding, egg production and turkey raising. Bankers are talking about poultry raising increasing deposits. Merchants are finding it is killing the old credit system. Poultry slaughtering, packing and storage plants are being more rapidly established along our lines than any other industry.

"This is already a country of dairies and that business is being expanded with a rapidity that is gratifying. The rapid and unusual profits of hog raising are beginning to be appreciated. There is an unmistakable trend in favor of feed crops. The best farmers are not selling these as crops but feed them to their cows, chickens and hogs. Once this was a great cattle country and it is yet, but poultry and eggs are already bringing in more income than cattle, and if the poultry, eggs and dairy cows were combined it might possibly double the amount received from cattle.

"The one thing that needs to be more fully realized in this country is that the methods for feed should be more fully placed in the grain sorghums. That big family of feed crops embraces kaffir, milo, feterita, sorghum, red top, schrock kaffir and latest and best of all, darso. Sudan grass is also a member of this great family. In general it might be said that grain sorghums thrive on a lower rainfall than corn. They refuse to fire or dry up during drought but just cease growing and then revive when the rain comes and go on to maturity.

Sorghum Country Right Here

"This great family supplies grain, forage, hay and silage. It supplies all these in far greater quantities than corn. Every year the Panhandle counties have exhibited these grain sorghums at the Dallas Fair, and thus advertised their country as a great feed country. They have gone further and grown hogs and made it great hog section.

"In this section, we have been more fully wedded to corn. We have not realized that this is the greatest grain sorghum country that can be found under the sun. If properly handled, the seed of the grain sorghum can be marketed at very desirable prices by feeding them to hogs or chickens. The fodder and silage produced by grain sorghums makes excellent prices marketed through dairy cows and also through the better grade of hogs and poultry.

"The best cash crop of Texas is not the crop that is taken directly from the fields, but those that are turned into cash through butter, chickens, dairy cows, eggs, turkeys and hogs. Merchants are already advertising any desirable line of credit to farmers who are keeping a certain number of hogs, cows and chickens, but no credit to the farmer who clings to cotton only. No greater and better profit can be outlined in South Texas farming than grain sorghums, dairy cows, chickens, turkeys and hogs, and some cotton to be sure, but don't forget the garden and some fruit.

"The final steps to success will be taken when there is some fine grass started, such as Rhodes grass and there is an abundant acreage of Southern spotted leaf clover planted for winter pasture."

Masonic Notice

Called meeting of Kerrville Lodge No. 697, Saturday night, January 14th, 7:30 p. m., for work in E. A. Degree. Visitors invited.

H. E. BUTT, W. M.

Chas. Schreiner Bank

WOOL AND MOHAIR COMMISSION MERCHANT

Thoughtful Bank Service

There is much to be gained as a patron of this institution, even when you make our service useful from day to day.

But we try to make our service of real value to your interests. We like to look ahead with our customers—help them plan for the future, for a larger success.

So we invite you to associate with the Chas. Schreiner Bank, that you may have all the benefits of a helpful, every-day service in your money matters, and also the advantages of our experience in discussing your problems and forming safe plans for the future.

We want you as a friend of this bank, and will be happy to serve you.

KERRVILLE, TEXAS

ARMAMENT CONFERENCE SUCCEEDS IN EFFECTING PEACE SETTLEMENT

The Armament Conference will soon quit, as it has about finished all it can accomplish at present. The main thing done is the stopping of the race for construction of capital ships, the providing for scrapping many of those already built, the preventing the use of submarines against commercial ships, the curbing of poison gas attacks, and the guaranteeing of peace in the Pacific sphere.

In addition to these great aids to a reduction of the heavy burden on the people for war equipment, there was even more accomplished in reaching a better understanding between the larger powers of the world.

There are some objectors in the United States Senate, the principal ones being Senators Borah and Johnson, but it is believed there will be a majority for the results of the Conference.

OFFICERS AND DIRECTORS ELECTED AT MEETING OF FARM LOAN BOARD

The local stockholders of the National Farm Loan Association in Kerr County met Tuesday at the First State Bank and elected the following officers and directors: H. Schulze, president; Geo. E. Meeks, vice president; A. B. Williams, secretary-treasurer; H. Schulze, B. F. Denton, D. S. Griffin and J. R. Rodgers, directors.

The loans in Kerr County amount to \$80,610.00, upon which interest of 6% per cent was declared. There are twenty-seven members of the Farm Loan Association in the county.

It is expected that the Government will soon sell more Farm Loan Certificates and have money to loan other applicants. Each stockholder is a borrower and also gets a per cent on his stock in addition to the benefit of the loan he secures at a low rate of interest.

Justice Turner's Court

Castillo Gutierrez and Hulien Andricke entered pleas to charge of gambling and were each assessed fines and costs of \$33.20.

L. J. Vanlaningham, who was charged with hunting without license, is reported to have escaped to Oklahoma.

Marsimo Espinosa, Serfina Espinosa, Louis Flores and Modisto Madrid were each charged with fighting in public place, and fined \$14.20 each.

Wilbur Ellis, charged with disturbing the peace, was fined only \$12.70, with the promise that he would be sent off to school.

Deputy Sheriff Staudt has been apprehending these law violators, as he also did most of the others reported the past few weeks, which is a commendable record.

IRISH FREE STATE FINALLY CARRIES BY SEVEN MAJORITY

Friday night of last week, the real patriotic and sensible Irish in the Dail voted to accept the pact entered into with England by a majority of seven.

DeValera resigned as president and later tried to get re-elected while some of the strong supporters of the Free State were absent, but was beaten by a majority of two. He has been the disturbing element, aided by Miss MacSwiney, sister of the crank who starved himself to death.

It will be seen if Ireland can govern herself, which is doubtful. A large per cent of them don't want any kind of orderly government, as they feel more at home raising h—l than anything else.

Without the liberal financial assistance of America, the disturbing Irish elements could not have so long prevented a peaceable settlement with England.

TIVY HIGH SCHOOL BASKET BALL TEAMS BEAT COMFORT PLAYERS

Last Saturday afternoon the Comfort first and second basket ball teams came up to Kerrville and played the Tivy High School fives two games, the latter winning both. The games were hard fought and at first it was anybody's game. The Comfort first team outplayed Kerrville for three quarters of the game, but weakened and the local offense began to work better near the end of the contest and a score of 26 to 18 was piled up in favor of Tivy. The following men showed up well for Kerrville: Chaney, Hagens, Hamilton, Fisk and Rawson.

The second team game was hard fought, but the visitors were outclassed in every department of the game, and the final score was 22 to 9.

The Kerrville teams showed a lack of team work, which would be naturally expected in their first matched game of the season. They are fairly fast and the coach hopes to put a classy team on the court in their next game, which will be played here Friday afternoon of this week, when they meet the Center Point first and second teams.

A game also will be played Saturday between the Kerrville boys' first team and the St. Anthony Business College team of Fredericksburg.

Road Building Machinery

The road building machinery is being concentrated near the Kimble County line for the beginning of construction of the highway from there to Kerrville.

The transcript for the bond issue has been forwarded, so in a short while the money will be here for them.

THE QUEEN THEATRE

Has been shut down this week on account of making improvements in the building. We now have a stage and You Know what that means. OH BOY, a Snappy Vaudeville after a Classy Five-Reel Feature or Western! Why not? People want it, why not have it? Vaudeville will start some time next week, date to be announced later. Will resume our Picture Service again Saturday, January 14th, with a Special.

SATURDAY, JANUARY 14—
"Three Sevens" by Antonio Moreno (Special Feature).
Pathe News.

MONDAY, JANUARY 16—
Alice Joyce in "Sporting Duchess."
Kineto Review.

TUESDAY, JANUARY 17—
Unknown (Western).
Big V Comedy.

WEDNESDAY, JANUARY 18—
"The Juggernaut" by Anita Stewart.
Big V Comedy "Vamps and Variety."

There Will Be a Matinee Saturday, Beginning at 2:30 P. M.
Night Show, Beginning at 7, Continues Two Hours.

T. N. WHITE, Manager
PHONE 49, KERRVILLE, TEXAS.

MINTON'S GIRL

By HELEN M'DONOUGH

J. Van Arden Perkins (the "J. Van Arden" lately substituted for plain John) laughed heartily from the depths of the fraternity sofa.

"Don't miss this, fellows," he cried. "Use your imagination and dramatic instinct to picture a country lass in a calico dress sitting in a hair-cloth, family-portraited old parlor—a mouse-colored creature—and then listen to her metropolitan nerve:

"Sunshine wouldn't be sunshine, Skies wouldn't look so blue, Life would be so drear, dear, Without a thought of you."

"And here's a snapshot. How do you like the inscription? Taken the day we parted, when you asked me to wait for you. Waiting, as ever, Nell."

"Look out," warned a gay, cynical voice, "there'll be a breach of promise, old man!"

Arthur Minton, a serious-faced chap, took the picture, first respectfully—then reverently. "If a girl like that—a girl who can look at the world with so level and innocent a gaze—with lips from which only sweetness and charity fall—with hands worn with service—if such a girl loved me I'd go to the ends of the earth to win her—and I wouldn't make her loyalty a jest of my fraternity."

With that he flung himself out of the smoking room and locked himself in his own. So, he reflected, Perkins was the man Nell loved so devotedly—the man for whom she refused him.

He went back over the golden summer days two years ago when he first met her. He had been touring through the wonderful northern Vermont country—when there had been an accident to his machine and he was hurried over the embankment. Nell, off on a solitary stroll, found him lying senseless, a mass of lacerations.

Rich in the lore of simple, medical help, she did what she could, then rode miles for a doctor.

All summer he was at their farmhouse, and Nell, despite her many household duties, delegated herself as his special attendant.

Confident that there was no one else, he asked her at last to marry him, telling her that she was the most adorable girl he had ever met. It was only then she told him she was promised to another, whose family, suddenly becoming heir to an unexpected fortune, had moved away.

Minton pressed his case and came back to see her more than once, but though there was an exquisite camaraderie between them, she still kept her faith in her first love.

Minton winced when he thought that Perkins—weak-willed, silly, impressionable—was the unappreciative recipient of her constancy.

He immediately made up his mind to go to her.

He went into the hall to find a room-mate. Poised as if for flight—a look of fear and indecision on her lovely face, stood Nell. She was not the unfashionable country girl whom he knew and loved, but an exquisitely gowned creature, still simple, but distinctively so.

He wondered afterwards why he was not surprised to find her in his fraternity rooms. All he knew was that he was inexpressibly happy. He took her, unresisting, in his arms.

"I still love you," he said breathlessly, "and I'm not going to let that Perkins interfere any more, either!"

"I heard everything!" she said, "and your aunt, whose real identity I did not know until a few moments ago, told me a great deal more. After you had told her about me last year, she came to us, asking to stay with us so that she might paint the river and the mountains. She was very good to me, and taught me so many wonderful things—to modulate my voice—to walk gracefully—to play, sing and to paint.

"Then one day she received a letter from your sister, regretting that she could not attend your fraternity dance. Unknown to both you and me, your aunt planned that I should go instead, and she would chaperone me. The rest-rooms which the hostess provided for the women-guests happened to adjoin the room you and John were in. I didn't know either of you were here until I heard your voices.

"At first I thought—well, I can't tell you what I thought. But now I know that I can really honorably love you. You don't know how hard I had to try to be loyal, and not to think of you too much—not to care for you!"

That night, during an intermission in the fraternity dance downstairs, "J. Van Arden" Perkins remarked to one of the boys:

"Where's Minton tonight? Guess he got over his peevish all right. Saw him taking a deuced pretty girl and her chaperone over to the hotel for dinner, and he was pretty hilarious. I'm trying to think where I met his girl before. She's a 'peach' and too good-looking to waste her fine looks on an old foggy like Minton. Must meet her!"

But at that precise moment the "deuced pretty girl" found great happiness in promising to be with the "old foggy" for life.

A Natural Cave Man.

"Why don't you be a cave man?" "I wish I could," replied Mr. Mockton. "If I had a hole I'd hide in it."

When You Go Marketing—BREAD

The loaf of Bread you buy guarantees bigger food value, dollar for dollar, than any other food.

BUSINESS COURSE

With the reopening of Notre Dame many new applicants sought admission, but unfortunately none of them could be accommodated because the maximum had been reached last October and since then about thirty students had been rejected. The faculty dislikes to refuse anyone, but they realize that a crowded condition will hamper the rigid standard that they are obliged to maintain.

It is true that we have lost the Jones children, but these vacancies were already spoken for. Among others we regained Miss Elsie Ducote, who had been attending a girls' school in San Antonio.

We were able to accommodate additional music scholars and registered in our conservatory Miss Imogene Ewing and Master Robert Mueller. Misses Velma Brown and Madeline Peterson have passed their Christmas examinations and have been promoted to a higher grade.

As soon as the semi-annual examinations are over, the High School principal will add commercial training to her curriculum. No charge will be made for the study of typewriting and the use of the machine. On account of the many inquiries that have been made, we beg to publish the information that the Sisters are not at present in position to open an independent business course for outsiders. The commercial training they are offering is merely a free addition to the standard high school program.

Farewell Dance

Many socials were held during the Yuletide in Washington Hall but none was planned more elaborately by the younger set than that which they gave on Tuesday night, complimentary to Willie and Henry Voiss and Freddie Nye, which trio left on the following day for St. Louis College. The school auditorium was patriotically festooned and the dancing floor was waxed and polished till it became dangerously slippery.

Miss Marie Rogers and her brother, Debs, spent part of the holidays in San Antonio. With them went Miss Emma Laughman. The latter's father brought them all back in his car on Wednesday.

Mrs. M. A. Wyrick motored to Kerrville on Tuesday with her daughter, Eugenia.

Margaret Rose Cross came back on the following day, but Miss Madeline Sinn remained in Dallas till Friday, where she mourned the loss of one of her former teachers, Mother Gertrude, who had belonged to the Sisters of Charity of the Incarnate Word for forty-one years.

Brownson Literary Society

Now that most of the members have made up the handicap of a late start in autumn, the regular monthly program of the Brownsonites will be resumed. The first public appearance will be for a short patriotic entertainment on Washington's Birthday.

Valuable reference books have been added to the students' library. The treasurer hopes to purchase the latest supplementary volume of the Catholic Encyclopedia and also another set

written in a more popular style for younger students.

It is also the intention of the club to adorn their assembly room with a bust of their namesake, the great Orestes Augustus Brownson, America's foremost philosopher.

Speaking of ornamentation reminds us of the artistic, light, sanitary and fire-proof flower boxes made by Walter Meyer for Notre Dame.

HIGH SCHOOL NOTES

By Annie Claire Enderle

The basket ball boys' first and second team defeated Comfort last Saturday, the first team winning by the score of 26 to 18 and the second, 22 to 9. A good game was played by the firsts. John Saucier received a sprained knee cap, but is at school again. The second team caused a great deal of laughter on the side lines.

Friday afternoon the boys' first and second teams play Center Point on the local grounds.

The girls' first team play Medina at 2:30 o'clock next Saturday on the local courts. Alice Moore, guard, and Anna Neblett Thorburn, center, will not be able to play, causing substitutes to be taken from the second team.

The boys' first team play the St. Anthony Business College team of Fredericksburg here Saturday afternoon.

Everyone is promised a good game both days. Come out and see them.

Mrs. Kendall is filling the vacancy made by Miss Griffith of the Sixth Grade. Miss Irene Freeman is filling Miss Manning's vacancy as Spanish teacher.

Examinations were started Tuesday noon, lasting until Friday afternoon.

CONSUMER IS BEING ROBBED. GOVERNMENT PROBERS FIND

Washington, D. C., Jan. 5.—The consumer is paying too much for meats, fuel, clothing and other household necessities and building materials. Somewhere between the producer and the consumer an exorbitant toll is being exacted—a toll amounting to profiteering and robbery of the consumer.

This is the conclusion of investigators for Attorney General Daugherty in his drive to lower retail prices. Data on necessities has been gathered in all parts of the country and now is being whipped into shape for Daugherty's consideration.

Daugherty believes that retailers, particularly grocers and butchers, are largely responsible for high provision prices. The Attorney General believes that the housewives have it within their power to stop price abuses by boycotting high priced shops or by reading the riot act to the proprietors.

The Department of Justice and the district attorneys of the various States will prosecute wherever violations of the law are uncovered.

Through the transparent ice of Moose Lake, Manitoba, searchers saw the frozen body of Walter Goynne, famous American dog derby racer, sitting bolt upright on a sled in eight feet of water. He was partly covered by an eiderdown robe. Stretched out in front, in perfect alignment, were the nine racing dogs he had been driving.

Official Statement of the Financial Condition of the FIRST STATE BANK

at Kerrville, State of Texas, at the close of business on the 31st day of December, 1921, published in The Kerrville Mountain Sun, a newspaper printed and published at Kerrville, State of Texas, on the 13th day of January, 1922.

RESOURCES table with columns for Loans and Discounts, Real Estate, Furniture and Fixtures, etc.

LIABILITIES table with columns for Capital Stock, Surplus Fund, Undivided Profits, etc.

RECAPITULATION table with columns for Loans and Discounts, Overdrafts, U. S. Bonds, etc.

CORRECT—ATTEST: A. A. ROBERTS, J. L. FOWLER, A. B. BURTON, Directors. Subscribed and sworn to before me this 5th day of January, A. D. 1922.

THE STATE OF TEXAS, To the Sheriff or any Constable of Kerr County, Greeting: You Are Hereby Commanded to cause to be published, in a newspaper of general circulation, which has been published continuously and regularly for a period of not less than one year in your county, at least once a week for four consecutive weeks to the return day thereof the following citation:

LIABILITIES table with columns for Capital Stock, Surplus, Undivided Profits, etc.

WHEREAS, On the 3rd day of January, 1921, E. H. Turner, Executor of the last will and testament of Georgia Ann Mansfield, Deceased, filed in the County Court of Kerr County, Texas, his application and petition for a partition of the said estate, and

and numerous other persons therein named were entitled to distributive shares of said estate as heirs of the said Georgia Ann Mansfield, and also alleging that the said Georgia Ann Mansfield left unknown heirs, and that certain of the distributees mentioned in said petition were non-residents of the State of Texas, and praying in said petition for citation by publication to issue to said non-resident and unknown heirs; and WHEREAS, The said E. H. Turner has filed on the 3rd day of January, 1922, his supplemental petition for partition of the said estate, stating that there is some question as to the sufficiency of the citation issued heretofore for the unknown heirs of the said Georgia Ann Mansfield and praying for citation to issue by publication to the unknown heirs of said Georgia Ann Mansfield; THEREFORE, You are hereby commanded to summon, by publica-

tion as required by law, the unknown heirs of Georgia Ann Mansfield, Deceased, to be and appear before the said County Court of Kerr County, Texas, on the first Monday in February, 1922, the same being the 6th day of February, 1922, then and there to answer and show cause why such partition and distribution of said estate may not be made. Herein fail not, but have you then and there before said court on the said first day of the next term hereof, this writ, with your return thereon showing how you have executed same. WITNESS: JNO. R. LEAVELL, Clerk of the County Court, Kerr County, Texas. GIVEN under my hand and seal of said Court, at my office in Kerrville, Texas, this 3rd day of January, 1922. (Advertisement 3-4tc.) (Seal) JNO. R. LEAVELL, Clerk of the County Court of Kerr County, Texas.

Kellogg's Corn Flakes snap up fussy appetites something wonderful!

No coaxing needed to tempt family folks and visitor folks to eat a-plenty—not when there's a big pitcher of milk or cream and lots of Kellogg's Corn Flakes—and, maybe some handy fresh fruit—ready to tickle fickle palates!

Kellogg's are unlike any corn flakes you ever ate! They're the original kind—they ought to be best! No other corn flakes are so deliciously flavored; no other corn flakes retain such wonder-crispness till eaten! And, Kellogg's are never leathery or tough or hard to eat!

Kellogg's are always a delight to serve—and a treat to eat at any meal! In fact, you'll never know how good corn flakes can be until you know KELLOGG'S! The difference is astounding!

Do more than ask for Corn Flakes—say KELLOGG'S CORN FLAKES! The kind in the RED and GREEN package!

KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND.

CATHOLIC CHURCH NOTES

By Father Kemper

DEATH OF R. L. JONES

However joyful the Christmas season was for others, it wore a very sorrowful aspect for Mrs. Robert Littletop Jones, whose husband died on January 3rd, leaving behind six small children from 18 months to 13 years of age.

"Twelfth Night," or "Little Christmas," known in the liturgical year as "Epiphany," was celebrated on the First Friday with a High Mass in the Convent Chapel.

Beginning with St. Peter's feast on the 18th, and ending with the feast of St. Paul's conversion on the 25th, the annual Church Unity Octave will be observed for the return of all Christian sects to the trunk and true vine of Mother Church from which they cut themselves loose in the era of the Reformation and subsequently.

Through the kindness of the big Notre Dame University, over one hundred cloth-bound hymn books were donated to our little Notre Dame for the purpose of instituting congregational singing at some of our morning services.

At Comfort, last Sunday, Father Kemper donated to the mission church a box of altar linen and accessories costing over twenty dollars.

Mr. and Mrs. Leo Blanchard of Fredericksburg took Father Kemper to Comfort last Sunday in their auto.

Columbus' Landing Place

Very Rev. Chrysostom J. Schreiner, O. S. B., Vivar Forane of the Bahama Islands, has studied the journal and memoranda of Christopher Columbus, and made intensive researches and surveys until he established with a great degree of certitude the location where the immortal Catholic discoverer set foot on American soil.

In the San Antonio headquarters of the K. C's., on Jan. 28th, Dr. Conde B. Pallen will deliver a lecture on the greatest of all poets, Dante, author of the Divine Comedy.

In February our local council is planning to hold a musical concert. Miss Augusta Rowley, who attended one of the Catholic encampments at Kerrville, is managing the appearance of Sousa's Band and of several operatic stars.

Honeymoon Guests

Our picturesque mountain town has been selected quite frequently as an ideal retreat for newly weds. Last week we entertained Mrs. John W. Leahy, who had been Miss Byrnes of

Houston. She left on Saturday to make her home in San Antonio.

Mrs. Wm. Stoufflet came on Christmas eve from Lake Charles, La., to regain her health. She is rooming with Mrs. Boudreaux, who knew her thirty years ago when Mrs. Boudreaux was a public school teacher.

Ed. Walsh of San Antonio is employed as brick-layer at one of the new dormitories nearing completion at the Soldiers' Hospital.

On Wednesday Miss Angeline Kemper motored to San Antonio with her nephews and L. W. Laughman. With the Bishop's niece, Miss Maria Esser, and her hostess, Miss Cecilia Menger, she witnessed "Over the Hills" at the Rialto.

After a fortnight, spent with her folks in Missouri City, Miss Jennie Smith Martin returned to our health resort.

Courts Are Too Slow

San Antonio Light: Sometimes it would seem that the gentlemen of legal acumen who adorn the judicial benches of our country must have some ostrich blood in their veins. Certain it is, that when it comes to putting their heads in the sand the long-legged bird has nothing on them.

It is only a few days since a judge up-state somewhere, delivered himself of several profound sentences regarding the evils of lynch law. He took occasion to lay the responsibility for lynchings upon the public. He declared in mournful accents that the public does not look with sufficient seriousness upon lynchings.

All he said is probably true, but it is not upon the public that the responsibility rests, unless it is in the remote sense of not compelling public servants to perform their duty in a more expeditious and thorough manner.

The real reason for lynchings is that the public distrusts the courts. They doubt whether crime will be punished with sufficient celerity or even whether it will be punished at all. Having doubts regarding the manner and speed with which the criminal will be punished they decide to take the law into their own hands and see for themselves that the crime is treated as it should be.

Nobody defends lynchings, no matter for what cause. There are few men in the world that like to participate in such things, but the public has grown to have a sovereign contempt for some of the subtleties and rascalities of the law and, despairing of obtaining justice in the manner in which it should be obtained, they take weapons in their hands and go out to find out just this—whether there is justice in the land or whether there is not.

There have been cases without number in the criminal jurisprudence of this country where men, absolutely known to be criminals, have been allowed to escape justice through legal quibbles or because some letter of the alphabet was missing in the indictment or some lawyer failed to file his pleadings in time, or for some other nonsensical reason which has no meaning to real men who are earnestly in search of justice.

Whenever a crime is committed, that instant the courts are alert to see that the criminal is not deprived of his legal rights. The community which has the absolutely paramount right to be protected from criminals receives but scanty consideration. The important thing is, to see that none of the privileges of the criminal are infringed upon. The privileges of the public can—and frequently do—go hang.

If the courts of this country will see to it that criminals are promptly

arraigned, swiftly tried and that justice is meted out to them without delay they will go far toward improving their own reputations and do much toward the elimination of lynchings.

Mob law is not to be approved under any circumstances, but there is one thing that can be said for lynchings. They are seldom guilty of miscarriage of justice and the courts constantly are.

FIRST BAPTIST CHURCH

J. B. HOLT, Pastor

The work for the New Year is starting off very encouragingly. Somehow there is a revival spirit among the faithful and a real interest on the part of the lost.

Through the ages, poets, writers, painters and sculptors have devoted their best efforts to the glorification of Motherhood. The theme is endless. Humanity's debt to mothers infinite. And yet, our own particular mother, with whom no other mother can compare, many and probably does owe us a debt, just a trifle now, but to become invaluable in the years to come—a photograph of herself.

There are two fundamental things in the Christian life which a child of God cannot neglect without grieving the spirit of God and losing all joy and power. One of them is soul winning and the other is tithing.

Why is it that some Christians will not tithe? Well, are they Christians? I think they are. Then why do they not keep this plain commandment, taught in both the Old and New Testaments? Do they love God? Are they zealous for His cause? Have they really trusted their souls into His keeping and are they faithless enough not to be able to see their own selfish way through, without using God's one-tenth for themselves? The surest way to poverty for one who knows better is to deliberately rob God of His tithe while at the same time expecting God to bless him with health and means.

Most people who say they do not believe in the tithe, claim that belief as an excuse to save that money for themselves. My brother you cannot pray with any expectation of being heard while you are robbing God of the money He has ordained shall be used for His cause. There is little use of a robber trying to look or act pious. He can neither deceive himself, the world or God. These are plain words, but true ones. If all will tithe this year what a happy prosperous year it will be. Who will sign the pledge?

Sunday was one of the best days we have had. At the close of the morning service Robt. Reece and Floyd Van Hooser were received into the church for baptism. At the close of the evening service the above named young men and Miss Alynne Welborn were buried with their Lord in beautiful baptism. These young people give promise of being very useful. They are among our finest young workers.

Our new Bible School superintendent, F. E. Garrett, is taking hold of the work in a splendid way and will make a success of it.

The Intermediate B. Y. P. U. had as their guests at 6:30 o'clock last Sunday evening the Senior B. Y. P. U. Their leader, Miss Edith Tullis, had many of her young members on the program, which was good.

Mexican Baptist Church

The pastor was absent during Christmas week, as he was called to Del Rio to help Rev. M. C. Garcia with his Christmas program. We had a glorious time. Brother Garcia is doing great work over there among the Mexican people, who so much need

the Gospel of our Lord, Jesus Christ. In the short while he has been here he has had 44 new members to join our church.

While the pastor was absent, Rev. A. M. Lopez of Rosebud was called to have a revival meeting with us. Brother Lopez is one of the greatest evangelists in Texas. At the close of the meeting there were 18 new members to join our church, and they are ready to receive baptism as soon as the weather permits.

Sunday we had a large Sunday School and a large congregation at our evening service. Our church is progressing rapidly, and we will soon have to get more seats. We extend a cordial invitation to all to come and worship with us.

MOTHERS

Through the ages, poets, writers, painters and sculptors have devoted their best efforts to the glorification of Motherhood.

The theme is endless. Humanity's debt to mothers infinite. And yet, our own particular mother, with whom no other mother can compare, many and probably does owe us a debt, just a trifle now, but to become invaluable in the years to come—a photograph of herself.

Not as she was when "dad was courting her," though we treasure that highly; nor as a child, we are glad to have that, too; but in the glory of womanhood, as she is today, and as we wish to remember her always.

The foregoing is not a thesis by a high school student—just a gentle reminder to Mothers. (Advertisement)

EVER HAVE IT?

If You Have, the Statement of This Kerrville Citizen Will Interest You.

Ever have a "low-down" pain in the back?

In the "small," right over the hips? That's the home of backache. If it's caused by weak kidneys, Use Doan's Kidney Pills.

Kerrville people testify to their worth. Read a case of it: Mrs. A. E. Materne, Kerrville, says: "Doan's Kidney Pills have been a great friend to me. I suffered with kidney trouble for a long time and my back ached so I could hardly do my housework and I felt run down and languid. I had no energy, and my kidneys acted irregularly until I read of Doan's Kidney Pills and used them. Doan's relieved the backaches and all the symptoms of kidney trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Materne had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Advertisement.)

Card of Thanks

I desire to sincerely thank the friends, and especially those of the Baptist Church and Eastern Star, for the kindnesses extended and favors done for my sister, Ora, during her fatal illness. (Advertisement 1tp.)

Singer Sewing Machines

P. A. OTTINGER, Agent Phone 286, Kerrville, Texas

Will give demonstration any time. The Singer is known everywhere. Has few equals and no superiors. Have second-hand machines for lease.

FIRST METHODIST CHURCH

J. GRADY TIMMONS

Due to the fact that Dr. Dickey of the Presbyterian Church was absent from his pulpit last Sunday we were delighted to have a number of our friends from that church worship with us at both morning and evening services.

The Women's Missionary Society met Tuesday afternoon in Bible study session, and a splendid program was enjoyed. The society is making a careful study of the Gospel of Mark. This Gospel is the shortest of the four, it was the first Gospel written and deals in the main with those incidents that make up a simple narrative of the earthly life of our Lord.

The foregoings is not a thesis by a high school student—just a gentle reminder to Mothers. (Advertisement) WHEELUS.

SOUR STOMACH INDIGESTION

Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, head ache, bad liver, indigestion, and all other troubles that are the result of a torpid liver."

"I have known and used it for years, and can do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it." Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities. Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E. S.

of this year, so that the Centenary Commission will know how to disburse its funds. Our life as a church depends upon our meeting the needs before us. Our faithfulness as disciples will be tested by our willingness to carry out the command of the Great Commission. That Commission cannot be made real unless we come through with this proposition. Let us, therefore, see Bro. A. E. Self as soon as possible and attend to this matter.

The program for next Sunday follows: Sunday School meets at 9:45 a. m. W. D. Reed is superintendent. The school is flourishing, and let us keep the good work going.

The Junior League will meet at 3:30 p. m. Last Sunday there was a large number, the largest of the year. Let us make this work go in big fashion. At 6:45 p. m. the Senior League will meet. And at 7:30 we will have our evening worship. The subject will be: "An Ancient Supposition."

The Mid-Week Prayer service meets each Wednesday night at 7:30 o'clock and choir practice follows immediately. The Fifth Sunday in this month we will have our first group meeting at Center Point. It will be an all-day affair and let us plan now to go. The good people of Center Point will provide dinner on the ground, and it will be a day of inspiration and profit. All phases of church life will receive consideration and the program of music and speech-making and sermons will make a day that shall be helpful to us all. It will be a gathering of all the Methodist Churches in this vicinity with a program to fit every department of our church life and work.

AGENTS HELPING FARMERS

Amarillo News: Roy W. Hendrix, county agent in Donley County, is helping the farmers of the Clarendon country to dispose of their enormous though low priced feed crops. This is being accomplished by bringing the feed producers in touch with the growers of live stock, and the former are trading their feeds to the latter for animals to which to feed the residue of their products.

The man who finds himself with an overplus of feed is introduced to the one who has more animals than feed. They exchange a part of the feed for a part of the animals, so that the whole may be used and sustained. Dairy cattle are to be brought into the Clarendon country on this basis of exchange, and much good will be accomplished thereby.

Hurrah for the county agent for he is an institution—one that is here to stay, for the blessing of society as a whole.

Political Party Complexions

Fort Worth Star-Telegram: The Johnstown Democrat, whose name proclaims its politics, makes the following very pertinent observation:

"The Republican party is a fiction. There isn't such a thing. Some question exists as to whether there is a Democratic party. What we have in this country is a primary system that makes it politically advisable for people to use certain fixed party designations without any reference to the policies the names stand for. Senator Lodge is a Republican. And so is Senator Borah. They do not belong to the same party at all. They are oceans apart both as to domestic and foreign governmental policies. Senator Capper and Senator Penrose are Republicans, but they do not belong in the same party. The Republicans of North Dakota have no kinship with the Republicans of New Hampshire. The Republicans of Massachusetts and the Republicans of Illinois do not speak the same language. There is no party agreement on the tariff, on taxation, on foreign policies."

But is not the same true of the Democratic party? How can Senator Tom Watson and Senator Oscar Underwood be regarded as members of the same political party? Certainly they have not the same political faith. And Senator Reed and Senator Hitchcock are quite as far apart. Indeed, there are a half dozen or more political complexions on the Democratic side of the Senate, and the situation is little better in the House.

What's the answer?

The good road building provided for in Kerr County will be the best investment that has ever been made here.

Poultry, pigs and cows can do more to bring this section into a state of prosperity than any other combination. Try it and quit the ruinous habit of buying everything the family consumes.

Candidates are announcing for office in adjoining counties. Nothing is heard about candidates in Kerr County. Suppose those in office are about the only ones who care to hold them.

Recently, there have been two interviews by special writers with Henry Ford. He says that soon the Dearborn Independent will cease its exposure of the Jews in what has been charged their cornering of the whiskey business, which by its concoction and adulteration sooner forced prohibition, also being principals in the nationwide bootlegging; then, the getting charge of most of the movie business, thereby corrupting it and degrading the youth of the land that witnessed so much of the shady side of life as depicted; then the world-wide financial trust of the Jews, that was used to promote warfare instead of peace. Mr. Ford says that the Independent will now appeal to the better part of the Jewish race to assist in securing a more stable currency throughout the world, as well as bringing about better conditions for mankind. In this connection, Mr. Ford says that the Jews nor anyone else can hurt him financially, as he has between one

Furniture of Distinction for the Home

Good Furnishing creates an atmosphere of harmonious taste with the provisions of actual comfort.

For lovers of Fine Furniture, who wish to practice economy, a cordial invitation is extended.

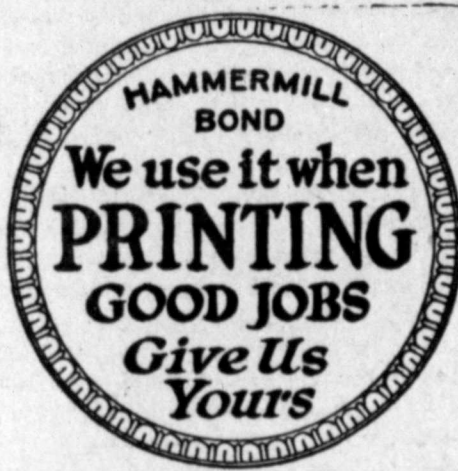

These are days of quality buying. So it's up to you to remember quality—real, genuine quality—rather than the price. Think rather of the article's lasting value than the low amount you may pay for it. Get better furniture and, in the long run, greater satisfaction and greater value.

The economy in furnishing homes lies in knowing where to look for Quality Furniture at moderate prices. This is the reason we ask you to come here, if only to look and compare. You will find all that you could desire to satisfy your ideas of comfort and individuality, and the prices much less than you would expect to pay.

FURNITURE, DRAPERIES, RUGS
"Everything for the Home"

Phone 4, Kerrville, Texas

hundred and forty million dollars in actual, cash on hand, scattered in banks, and that he doubtless could cash out for a billion dollars. However, he says that money is of no object to him except to develop the resources of the country and give employment.

While the New York Giants are at San Antonio, why not have them come to Kerrville for an exhibition game? It would be an excellent advertisement for this little city, and the Giants would be given a chance to see the finest scenic section of Texas.

A Texas Legislator suggests the abolishing of the State Senate and reducing the number of Representatives. Any change would be welcomed. The State Senate has not truly represented the people of Texas in many years, as it is that body that has prevented the right kind of redistricting of the legislative districts.

With the expenditure of \$1,500,000 by the State in completing the Memorial Sanatorium, the construction and improving of highways with cost of about \$300,000, the starting of the Schreiner Boys' Institute about June to cost nearly \$200,000, not counting the hundreds of visitors at the Presbyterian Encampment, and the thousands of tourists expected through here this year, needn't tell us there won't be anything doing in this section during 1922.

President Harding has held a conference with leaders of the Senate and House, in which he laid down the fiat that if the Republican majority in those bodies intended to combat the policies of the party he wanted to know it now, so as to arrange to meet it. There is no doubt that a large majority of the Senators and Representatives, posing as Republicans, are not in harmony with the supposed tenets of their party, while the same is true, to a lesser degree, among the Democrats of Congress. Party lines are not near so binding as in the past, and the chances are they will grow more elastic. The interests of the South and West are more in harmony than those of the East and North, so any legislation affecting the country, these diverse interests must be considered. Another thing, in most instances, a different type of Senator and Representative is needed. The professional politicians have served their day of usefulness. More successful business men are needed in Congress and fewer

Items of Interest Gathered Here and There

A. C. Schreiner Jr. has gone to Rockport on his annual duck hunt.

Miss Dorris Wright of Junction spent Sunday with Mr. and Mrs. W. L. Jordan.

Lemons, large size, dozen 21c, at C. C. Butt Cash and Carry Grocery. (Advertisement 4-1tc.)

Mr. and Mrs. Milton Pampell have moved into their beautiful new bungalow on Jefferson Street.

Cotton seed hulls—excellent feed—at \$1 per hundred. Mosel, Saenger & Co. (Advertisement 4-2tc.)

Mrs. Chas. Swearingen of Louisville, Ky., is spending several weeks with her sister, Mrs. A. C. Schreiner Jr.

Mr. and Mrs. J. A. Wickes have returned from spending the holidays in Galveston and are at home with Mr. and Mrs. G. M. Doyle.

Mrs. Emerson and family of Marlin are again occupying their cottage in the Presbyterian Encampment, after an absence of three weeks.

Mr. and Mrs. Scott Schreiner and little daughter returned Sunday afternoon from a week's visit to Mr. and Mrs. Harry Harrison in San Antonio.

Dodge Sedan, 5 wire wheels, 1918 model, good condition; will sell part cash, balance monthly. R. L. Scherbeck, Kerrville, Texas. (Advertisement 4-1tc.)

Hamilton Wilson, a prominent young ranchman of the Leakey community, was a Kerrville visitor Tuesday and Wednesday. Mr. Wilson states that about half an inch of rain fell in their section Monday.

Mrs. Reuel Haskell Jr. of Oklahoma City, Okla., arrived Wednesday noon for a visit of several weeks to her parents, Mr. and Mrs. J. L. Tullis. Mrs. Haskell reported that the first rain in Oklahoma for five months and a half had begun as she left there.

Mrs. G. M. Doyle received the sad intelligence Thursday of last week of the death of her mother on that day at Valparaiso, Ind. The remains were carried to Nevada, Mo., the former home of the deceased, and where her husband was buried, where interment took place. Mrs. Doyle left at once upon receipt of the news to attend the funeral. She and her family have the deep and sincere sympathy of many friends in their bereavement.

MARRIAGE OF REV. WALKER AND MISS ELLEN BYAS

Rev. Roger C. Walker and Miss Ellen Byas, both of Kerr County, were quietly married at the Baptist Parsonage Wednesday evening at 4 o'clock. Only a few of the immediate family and friends were present to witness the ceremony.

The young couple entered the living room to the strains of Mendelssohn's Wedding March, played by Martha Holt, where an impressive ceremony was said by Rev. J. B. Holt. The bride wore a blue coat suit with accessories to match.

The bride is the youngest daughter of Joe Byas and has spent her life in Kerr County. She is a popular and charming girl, and will no doubt fill well the important sphere of a minister's wife. The groom is also a native of this county, and is at present the efficient Associational Enlistment man for the Medina River Baptist Association. He is a successful and growing young preacher of the Gospel.

After a brief stay with their relatives near by, they will spend a few days in San Antonio. Upon their return they will make their residence at Hunt for a time. Their many friends wish them much success and happiness in their married life.

Geo. Miller has returned from San Antonio and is again with the W. A. Fawcett Furniture Co.

Boeckmann & Weston have received notice from the Dodge Bros. to announce a reduction of price on that well known make of autos, effective January 1st, but not made public until February 1st. See their large advertisement elsewhere in this issue.

Mrs. W. G. Carpenter was called to Austin Sunday by the illness of her daughter, Miss May, who is a student in the State University there. Miss May was well enough to accompany her mother home on Wednesday, and she will undergo an operation for appendicitis.

J. D. Motley of Junction was in Kerrville the first of the week attending to some business matters. Doug says that the people of Kimble County surely appreciate the contract being let to join their good road, and that it will result in great benefit to both counties.

Mrs. John Williams, who lives on Lamb's Creek, was in The Sun office the other day to renew her subscription. Mrs. Williams has been a subscriber to The Sun for thirty-six years, which is quite a time, and we appreciate her faithfulness in standing by the paper.

Local sportsmen have been enjoying some excellent duck shooting the past two weeks up the North Fork of the Guadalupe. So far no one has been able to classify the ducks, but they are there by the thousands and heavy shooting so far has failed to drive them away for any length of time.

The statement of the First State Bank at Kerrville, published this week, makes an excellent showing, as it has held its own in deposits since the former statement, which is something that few banks in the country are doing. The First State is a strong bank and capably managed.

O. H. Graham, formerly a resident of Kerr County, and who still owns a place on the Upper Guadalupe, and now of Pharr, was a pleasant caller Wednesday and renewed for The Sun. He reported that they still had fresh vegetables of all kinds, including roasting ears. They have irrigation there, so don't bother about rain.

Judge Will Burnett and his son, Walter, were visitors at Kerrville the first of the week. Judge Burnett served as County Judge of Kerr County in the early days and was also a Representative in the Legislature from this district. He was warmly greeted by his old time friends here. The Judge now lives on his ranch in Hays County.

Mrs. W. L. Secor has returned from a short stay in San Antonio, where she went to accompany Miss Morey, who had been visiting her for several weeks on their ranch. Miss Morey will be remembered as the attractive guest of Mrs. Secor several years ago, and while here helped very materially with war work which was much in evidence at the time.

Chas. F. Bierman, with two of his boys, was a pleasant caller Saturday of last week to get a copy of The Sun, as his had failed to reach him on time owing to delay in issuing last week because of no electric current Thursday morning, the time of publication. Mr. Bierman wants his Sun regularly, and it is such friends that gratify the management.

HAS SEEN LIFE'S BITTERNESS

Granddaughter of the Mighty Napoleon I Worthy of Remembrance by the French People.

Paris observed the centenary of Napoleon Bonaparte's death with elaborate ceremonies a few weeks ago. Amid all the pomp in honor of the one-time arbiter of Europe another figure stood out in contrast—that of a woman of fifty, dressed in black, with a fine, open face, lined by sorrow and the incessant effort to eke out a livelihood, a teacher in an ordinary elementary school near the Boulevard St. Michel. This poor teacher, now living in a tiny apartment with her cat and a few meager possessions, is the granddaughter of Napoleon I. Her father was the illegitimate son of Napoleon and Eleonore de la Plaigne, a maid of honor to Caroline Murat. Napoleon gave the boy the title of Count Leon. Born in 1806, "Count Leon" died in 1881, after an exciting and feverish life, into which he crowded excessive gambling, many duels and love affairs and some mystical meditations. The count's only daughter, Charlotte Leon, was born when her father was sixty years old. She began life as a teacher in Algeria to support her widowed mother, to whom the count had left but small means of subsistence. After hard years of struggle on a pittance she finally went to Paris, where she married a M. Mesnard, taking the name of Mine, Mesnard-Leon. Her husband is now dead and she lives alone, barely removed from want, meditating on the strange destiny of her grandfather, the great emperor of her father's wild and stormy life—and of her only son, who died for France at Rheims during the war.

ALCOHOL FROM THE JUNGLE?

May Yet Be Economically Manufactured From Moist Vegetation of Tropical Forests.

We clutch at anything as a substitute for gasoline. Professor Whitford of the Yale school of forestry says that alcohol could be economically manufactured from the moist vegetation of tropical forests and jungles. "The evidence is conclusive," said Professor Whitford, "that the tropical sun has the power to store up more energy in the form of cellulose in a given time than has the temperate sun. If this is in a utilizable form it remains for the ingenuity of man to overcome the difficulties of profitably applying it. With the increasing needs of the nation it is reasonable to expect that sooner or later it will be necessary to utilize more fully the plant resources of the tropics." Professor Whitford said that the annual production of alcohol from the nipa plant in the Philippines was now nearly 3,000,000 gallons and that one distillery there had produced 93 per cent alcohol at a cost of about 20 cents a gallon, and if operated to full capacity could make it at a cost of 15 cents a gallon.—Scientific American.

Reversing Speech. A curious photographic instrument was invented by Poulsen, capable of reversing the sounds of a word or a sentence. A steel piano wire, carried on two spools, passes between the poles of a small electromagnet so connected with a telephone transmitter that spoken words are magnetically recorded on the moving wire and reproduced in a receiving instrument. When the motion of the wire is direct, the words are heard as in ordinary conversation, but if the motion is reversed, the sounds come to the ear in reverse order, like words spelled backward. To represent the order in which the reversed sounds strike the ear, however, not only must the order of the letters composing a word be reversed but each letter must itself be reversed from right to left, as when reflected in a mirror.—Christian Science Monitor.

Remarkable Calculation. Charles L. Dodgson, professor of higher mathematics at Christ Church, Oxford, known to most people as "Lewis Carroll," and the author of "Alice in Wonderland," is responsible for the following peculiar calculation: Write down the number of your brothers that are living. Multiply this by two. Add three. Multiply the result by five. To this add the number of your living sisters. Multiply the result by ten. Add to this result the number of your dead brothers and sisters. From the total subtract 150. The right hand figure gives the number of deaths, the middle figure gives the number of living sisters, and the left-hand figure gives the number of living brothers.

Lodgings or Lollypops. Referring to our note on the disappearance of cottage pudding because of the shortage of cottages, a correspondent asks if the high cost of lumber isn't really due to the vast quantities of it now being used in making lollypop handles. Probably, sir, probably. So that while we use our lumber in making cheap sweets we cannot expect to have cheap suites.—Boston Transcript.

German Blind Soldiers Increase. There are 3,322 blind soldiers in Germany from the World war and one hundred have died. The discouraging feature of it all is that there were only 1,954 war blind when the armistice was signed. In addition to the totally blind, there are at present 4,129 who have "bad eyes" as the result of war service.—New York Evening Post.

IMPORTANT NEWS!

Our Great January Clearance and White Goods Sale begins Saturday, January 14th. A big house full of bargains will be ready for inspection. Come and look them over. (Advertisement 4-1tc.)

F. J. MAIER,
Opposite Bank of Fredericksburg,
Fredericksburg, Texas.

Bullets from high-power rifles and explosive mines have failed to exterminate the hair seal from the Fraser River of British Columbia. The hair seal is the enemy of the fisherman, because it eats tons of salmon and has a voracious appetite. They frequently consume 10 large salmon at a meal, raiding the fishermen's nets and eating all but the heads. Their skins are of no value, and the department of fisheries has granted the fishermen permission to use cross-lines in an endeavor to exterminate them.

BURNETT'S BULLETIN

Flour, sugar, meats, oats, honey, tobacco are all lower priced. My dry goods are also offered lower. Eggs are plentiful at 30c; butter, 40c—that's what we pay. Hides are up, good packer hides selling at 15 to 17 cents; all leather goods are strong. I have coming more tents and wagon sheets at bargain prices.

What I need the worst, is more customers—don't be afraid to come in—O are welcome. (Advertisement.)

C. C. BUTT GROCERY

More Eggs or Money Back!

The Purina System of Feeding keeps the flock laying in the fall and the winter, because it supplies plenty of material for whites as well as for yolks. This enables the hen to make complete eggs of all the yolks that develop in her body.

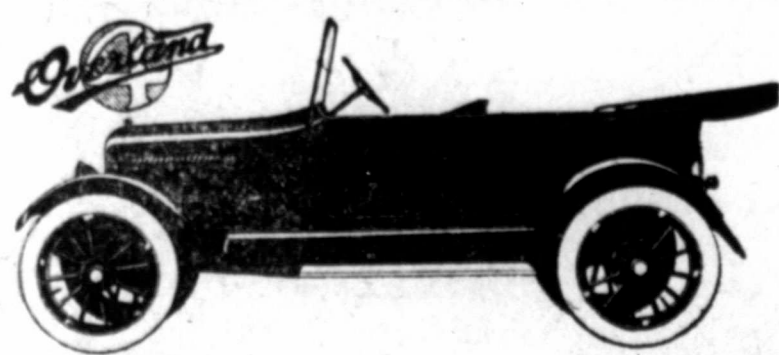

When a grain ration is fed there is not enough protein for whites. Many yolks that form are not laid, but are eventually absorbed back into the system as fat.

More-Eggs Guarantee

Purina Chows, when fed according to directions, are guaranteed to make hens lay more eggs than any other feed, or the money paid for Purina Chows will be refunded.

Dodge Sedan, 5 wire wheels, 1918 model, good condition; will sell part cash, balance monthly. R. L. Schmerbeck, Kerrville, Texas. (Advertisement 4-1tc.)

Word has been received in the city of the arrival of a fine boy to Mr. and Mrs. W. M. Wheelless. Mrs. Wheelless will be remembered as Miss Mamie Heinan of Kerrville.

To accommodate those who haven't time to wait for a made-to-measure pair, I have ordered some of the Justin Boots, which will sell at \$21.55, tax included. Geo. Shumaker. (Advertisement 3-1tc.)

The C. C. Butt Grocery is conveniently and nicely arranged for the Cash and Carry plan of doing business. Watch their space for prices and see where you can save money by doing your own delivery.

Tanlac is the ideal strengthener and body builder for old folks, because it creates a healthy appetite for wholesome food and strengthens and invigorates the digestive organs. Rock Drug Store. (Advertisement.)

Last Friday night Mrs. C. W. Moore entertained her Sunday School class with an automobile party. Much mirth was occasioned by the various answers given to questions pertaining to autos. After a delightful evening, hot chocolate and cake were served.

An unusual incident at the windup of the deer hunting season was the killing of a fine eight-point buck by Mrs. J. L. Pampell. It is a hunting trophy that few ladies are lucky enough to secure, and she has received many congratulations upon her prowess with the gun.

Wm. Boeckmann received a telegram Thursday of last week, January 5th, announcing the death of his brother, Jim Boeckmann, at El Paso that morning from cancer of the stomach. Deceased was formerly a resident of Kerrville and a host of friends here extend sympathy to the bereaved wife and other relatives.

It is against the postal rules to send a paper on credit for longer than one year. There are several on The Sun list owing for more than one year. Look at the label on your paper and you can see if you are among this number. If so, this is the last issue of the paper you will receive and we expect you to settle the amount due to date. Please aid us in putting our subscription list in harmony with the postal rules and regulations.

SEE EXHAUSTION OF RADIUM

Many Authorities Believe There Will Be None Remaining in About Twenty-Five Years.

Some authorities predict that, 25 years from now, there will be no radium left in the world. By that time, it is claimed, all available ores of this wonderful mineral will have been used up.

The so-called radium emanations are supposed to be electrified particles—though just what these particles are nobody knows. They do not seem to be identifiable as any kind of matter. But after being given off, they cease to be electrically charged and assume the form of helium.

Here is a case altogether extraordinary, in which one element is actually transmuted into another element—a phenomenon which has hitherto been thought impossible.

Helium was first discovered in the sun. It was later found in our own atmosphere, which contains a minute percentage of it. Natural gas from some wells in Texas and elsewhere yields considerable quantities of it—so much in certain instances that, being noninflammable, it renders the gas less useful as fuel.

Is it to be imagined that all of the existing helium was originally derived from radium? Nobody can answer that question.

GOSSIP FORM OF INSANITY?

City Authorities Who Have Dealt With the Problem Are Strongly of That Opinion.

Men and women who gossip, said Dr. E. H. Bullock of Chicago, city health director, cannot be in their right mind, and should be given the closest attention to get them back to normal. They have been called "assassins of character," and E. C. B. Jenkins, a psychologist and secretary to the board of police commissioners, Chicago, says, in the Detective, February, 1921, that the neighborhood gossip and the anonymous letter writer have one of the nastiest, lowest and most vicious forms of insanity known to medical circles. Their distorted imagination visualizes scenes which they would have come true, and their insane mind immediately grasps the story and they repeat it as if it were true.

Gossip and anonymous letters, says the New York Medical Journal, are a constant pest at police headquarters, but reports registered with police officers in an attempt to injure character by these means or false telephonic reports are a failure; in fact, the police take more pleasure in tracking the informer than the one informed about.

Latest in Slang.
The next time you are threatened with a legacy, don't cross your fingers. When you have on your best frock, and want to keep the rain god in a happy mood, don't carry an umbrella. If you tear your Sunday trousers climbing a barbed wire fence don't say "Iskhabibble."

Of course you have to say something, when you are surprised, or pleased, don't give a hang, doubtful, amazed or vexed. However, instead of the proverbial "go on," "damn," "Gefniny," "ye gods" and others, the Chinese have provided a new word, which is being taken up by the smartest buds from coast to coast, and the beauty of it is that you can express any emotion under the sun with just this one word, "Moskee."

So "Moskee" it is now, no matter what happens, if you want to be right there with the last word in proper slang. It suits any situation, so don't fear. Use it whenever and wherever you like. It means just whatever you want it to mean.

Useful on a Long Walk.

Nature's most ardent lovers cannot enjoy a long tramp over hills, fields and country roads, if a blister on the foot has presented itself. A simple remedy, often marvelously beneficial, comes from the old country, merely the use of a cabbage leaf. Cut a piece of the cool leaf larger than the painful area. Then place it over the spot and fix down the borders with stamp paper. If the cabbage plaster is applied flat it will not seriously hamper the putting on of the stocking and shoe. A wonderful sense of relief is experienced, and it is possible to continue the walk without pain. Of course if a little rest can be taken after the cabbage leaf has been placed on the painful part so much the better.

Where Men Must Marry.

An anti-bachelor bill introduced into the Turkish parliament makes marriage compulsory for men over twenty-five. Defaulters will be fined a quarter of their earnings, which will be deposited in agricultural banks to help peasants to marry. No adult civil servant may be a bachelor. Gifts of land, loans, and state education for children are held out as rewards for marriage, with a penalty of hard labor for a confirmed bachelor.

Rank Ingratitude.

"The professor of political economy made an inexcusable blunder in his classroom this morning."
"What was it?"
"He asked Snubbs, our star halfback, a question."
"And Snubbs couldn't answer it, I suppose?"
"Certainly not. The idea of embarrassing the greatest ground gainer we've had on the team in ten years!"
—Birmingham Age-Herald.

Rawson's For Prescriptions— Up-To-The-Minute Service

Our way of doing business calls for no apologies about service. We have a reputation to maintain for courtesy and promptness with our customers. We stand back of our goods because we pay the price for the kind that give satisfaction.

Your prescriptions filled by us will be right therapeutically because we use Eli Lilly & Company's drugs and chemicals—and skill and care in compounding. The difference between our method and others is not in the price, it's in what you get for the price. Quality speaks in strong terms at

INGRAM ITEMS
+++++

Jim Smith and wife of Johnson Creek were shoppers last Saturday. Carl Morriss of Big Paint called on relatives here Monday of this week. J. R. Schruached of the Hunt community was an Ingram visitor Tuesday of this week.

Pat Washburn of the Johnson Creek community came in on business Tuesday of this week.

W. H. Page of Hunt made a business trip to Kerrville last Saturday, stopping here en route.

Miss Ellis Bradford of Rocksprings spent the last week-end with her aunt, Mrs. J. A. Hodges.

Henry Duderstadt and wife of the Divide were among the early visitors Friday morning of last week.

County Commissioner Jim Peril was an Ingram visitor from the Divide community Wednesday of last week.

Mrs. Frank Ragland and daughter, Miss Didia, of the Divide, were Ingram visitors Tuesday of this week.

Mrs. Mary Phillips of Sherman's Mill visited the family of her son, Butler Phillips, in Kerrville last week.

H. I. Hardin and wife of Sherman's Mill were the guests of Mrs. W. E. Williams in Kerrville Friday of last week.

The ground had a fairly good soaking Monday of this week, a good rain having fallen during the forenoon and night.

Bob Thompson and Charlie Blevins, prominent ranchmen of the Divide community, were business visitors Monday of this week.

George Smith of Bandera is the guest of his sister, Mrs. A. C. Knibbe, of the Divide, and came in for the Masked Ball last week.

The Basket Supper, which was to have taken place at the school building Friday night of this week, has been indefinitely postponed.

C. E. Salter of Kerrville and Louis Domingues, a student at the Texas University, were holiday guests at Riverside Inn, Sherman's Mill.

Roy Huffmeyer and wife of Wichita Falls are camped on the river banks about a mile below town, and are very much enthused with the Hill Country.

Brice Snodgrass and Gatlin Merritt of Big Paint community were visitors in Ingram Friday of last week, and remained over for the dance that night.

After a delightful visit with her parents in Del Rio, Mrs. Thomas Morriss returned to her home near Big Paint Tuesday of this week, stopping here en route.

Wiley Evans and wife and Mrs. A. W. Bittel and children have just returned from a very pleasant trip to Medina, where they visited Mrs. Dwight Henderson, daughter of Mrs. Bittel.

The Masked Ball at the old school house last week afforded a lot of pleasure and amusement for those present, and the financial end of it will aid the expense account of the new building very materially.

It is very gratifying to notice from the number of heavily laden trucks passing through this week that preparations are actually under way for the commencement of the road work on the new highway, the construction and progress of which will be watched with keen interest by the entire population of this community. The many complaints from tourists about poor roads at this end were becoming embarrassing, to say the least.

Leroy Tolle, wife and little daughter, Shirley, of Houston, accompanied by his parents, Mr. and Mrs. E. B. Tolle, passed through last week, en route to the ranch of the former on the North Fork of the Guadalupe, near the head of the river, for a much needed rest and recreation. Leroy Tolle is a druggist of Houston, while his father, E. B. Tolle, has just retired from the mercantile business near Peoria, Ill. The party drove through in two cars and a large truck and from the paraphernalia aboard will spend some time at the ranch.

Putting Kerrville On the Map

The following appeared in the Sunshine Bulletin, the official publication of the International Sunshine Society, which has a circulation in all parts of the United States and foreign countries as well:

"Geo. W. Walther of Kerrville, Texas, has a Sunshine Free Library. He makes a plea for new books to stock the shelves. He takes care of the library himself. He tells of the many who are seeking health in the climate of Texas and to whom a book means so much pleasure. Mail your book direct to Mr. Walther and send him a card to say you are doing so. The following appeared in the local newspaper last month:

Sunshine Free Public Library
The Sunshine Library will be found in Recreation Hall. We have five hundred books, but I ask the good people of Kerrville and Kerr County to contribute as many volumes from their private collection as they can spare to help build up the Sunshine Library.

All books will be loaned free to the public and will be appreciated especially by the strangers within our gates.

Who will give a book?
GEO. W. WALTHER, Librarian.

TRAINS IN GERMANY
NOW HAVE PHONES

Berlin, Jan. 5.—After wireless telephones, the train telephone. The day train between Berlin and Hamburg is now equipped with apparatus enabling the traveler to ring up any one he pleases within a wide area.

The phone is a combination of wireless and wire telephone. The traveler speaks through an ordinary mouthpiece, but on top of the car is a wireless set with the regulation antennae. The wireless talk is picked up by the telephone wires running alongside the railway track, and the speaker is thus connected with an exchange which gives him the right number.

So successful has been the service that its extension all over Germany is regarded as merely a matter of time.

Washington, D. C., Jan. 5.—Deaths from tuberculosis in the "registration area" of the United States during 1921 totalled nearly 100,000, the Census Bureau announced today, estimating the mortality from this one cause in the entire country at 122,000. This would indicate a reduction of 10,000 from the total of the previous year, it was said.

"The trend of the tuberculosis death rate is downward."

Bandera Budget

New Era, Jan. 5: Sheriff Henry Stevens sold certain property of the Wood-Texas Oil Co. at Vanderpool under execution last Thursday to satisfy a judgment of \$7,237.52. The property levied upon consisted of derrick, casing, piping and water tanks, and was bought in by F. G. Jones of the Sinclair Oil and Gas Co., H. A. Harman, J. N. Word and R. H. Thompson, the proceeds of the sale totaling \$7,672.10.

In view of the progress made in the past twelve months, there is good ground for the belief that we are entering on a new era of prosperity. Our readjustment tasks, however, have not been finished. There are problems still to be met and solved, but there is an expressed determination on the part of the American people to hasten complete recovery from the after effects of the war. We may not see a great boom in 1922, but it is predicted that it will bring a vast improvement to our basic industries and it will be one of the best business years of history.

A few days ago the New Era editor spent a whole afternoon with Judge George Hay, our venerable alcalde, taking data for writing a sketch of the good old man's life, which sketch will appear in our big illustrated edition. Judge Hay reached Bandera March 1, 1854, coming here with Elder Lyman Wight's company of Mormons. He was then a young man in his teens, but he foresaw wonderful possibilities would come with the development of this favored region, and right here he cast anchor. He will soon be 86 years old, but is still spry and active, and has a ready recollection of early day events and tragedies that belong to history. Judge Hay has 10 children living, 41 grandchildren and 30 great grandchildren.

TUBERCULOSIS DEATH RATE DECREASES 10,000 IN 1921

Washington, D. C., Jan. 5.—Deaths from tuberculosis in the "registration area" of the United States during 1921 totalled nearly 100,000, the Census Bureau announced today, estimating the mortality from this one cause in the entire country at 122,000. This would indicate a reduction of 10,000 from the total of the previous year, it was said.

"The trend of the tuberculosis death rate is downward."

See Your Local Dealer First

In your search for bargains and savings you can often do best right here at home. Our local dealers frequently undersell the catalog houses and give you just as good values.

And many times they can give you much better quality for the same money you would have to send away. So when you have selected the article you want, go to your local merchant and see what he has to offer.

It takes little effort to do this and may result in real savings — of money, time, trouble and disappointment.

The Best Buying Policy

FOR YOUR CONVENIENCE

We have added to our stock a complete line of

Excelsior Trusses, Abdominal Supporters, Shoulder Braces, and Arch Supporters.

No more waiting for mail orders, we can fit you from our complete stock. Give us a trial. The surgical supplies of the Ohio Truss Co. are the best money can buy.

Ask Your Doctor About This

The well equipped bath room is now one of the fundamental necessities of decent, healthful living. If you have no bath room in your home, or if you are putting up with out-of-date plumbing, it means that you and your family are depriving yourselves of an economic convenience and luxury which most of your neighbors are enjoying.

Your doctor will tell you that a morning shower or a dip in the tub just before retiring will increase your vitality and with it your mental and physical efficiency.

Considering the matter from a standpoint of health, it will pay you to have a modern bath room in your home.

LIKE IN "FLANDERS FIELDS"

Poppies Bloom in Kearney, N. J., in Soil That Was Transported From Beautiful France.

"In Flanders fields the poppies grow," but not only in Flanders fields. Over in the Federal Shipbuilding company's yards in Kearney, N. J., French and Belgian poppies bloom with the same brave colors they showed on the battlefields overseas. How did they get there? Well, that's a long story. Remember when our troop ships were speeding over the waters guarded by swift destroyers? And when other vessels were making the trip carrying food and other supplies to the brave armies overseas? Well, no troops were homeward bound in those days, but the vessels did not come back with empty holds.

Instead as ballast they used soil from Belgium and France. What to do with this ballast when the ships touched New York was a problem until officials of the shipbuilding concern in Kearney asked for the soil for filling in purposes. As a result more than 100 large loads were transferred from transports docked in Hoboken and carried to the yards, where the soil was used to fill a sort of trench caused by the removal of a pipe line. And there the poppies have been blooming for more than a year unbroken except now and then by a passing ship worker. They have flourished in their transplanted home perhaps because they are used to trench life. Intermixed with the blood-red poppies are French daisies, their petals blunter than the American variety and with several blossoms growing from each stem. Probably these newcomers would still be unnoticed if the other day some one hadn't stopped the young son of the shipyard's chief of police to ask where he picked his scarlet "poppies?" remarked the boy, holding the flowers out for observation. "Oh, these are Belgian poppies that grow wild down in my father's yards. Want to get some? I'll show you."

WONDERS FOUND IN NUMBERS

Although Undoubtedly an Exact Science, They Are in Many Ways Full of Imagination.

All things are full of wonder, but what is more wonderful than numbers? Who discovered them, or can they boast an existence before the world was, with the Ancient Days? At the first awakening of human knowledge numbers were there, for there can be no gathering together nor any separating, no collection and no distribution, without numbers. They stand hovering over all, prototype of eternal law.

Numbers are said to be an exact science and to deal with facts which cannot lie; yet how full of imagination they are, as viewed in the geometrical exactness of the snowflake, determining the turn of the tides, the changes of the moon, the procession of our days and the return of the seasons in the vale of the years. May Straumann writes in the Pittsburgh Dispatch: "They are the measure of our three dimensions and, should time be discovered to our fourth dimension, as some prophesy, there numbers are found also."

How Was He to Know?

The most embarrassing moment in my life came when I was a junior in high school. As in the case of most boys of that age, I had a girl friend. One evening we attended a lecture given by a prominent lawyer. After it was over I took the girl home and we went into the library to study for an exam. Soon her parents arrived and were taking their wraps off in the hall when her mother called to us and asked us how we liked the lecture. I immediately spoke up: "Well, I didn't think much of it."

No sooner had the words been spoken than in walked the speaker with the rest of the folks. Unknown to me he was to stay at their home over night—Chicago Tribune.

Strong "Make-Believe"

Donald and his sister Helen delight in playing house together. Each child has a house in different parts of the same room. Helen is making a call on Donald, and Donald invited her to sit down on the only chair he had in his house, while he sat down on the small bucket, which he had turned upside down. Finally Donald grew restless sitting on the upturned bucket, and in the course of the conversation he asked: "How long are you going to stay?"

"I think I'll stay all night." Donald twisted around on the little bucket which was becoming a more uncomfortable seat all the while, and said quite emphatically: "Well, if you're going to stay all night, I guess you'll have to give me that chair, can't I stand this bucket?"

Plan to get gold from sand. It has been known for many years that Adirondack sand contains gold deposits that will run from five to seven dollars per ton. No practical process was known by which the gold could be obtained at a profit, although several attempts have been made in various sections of the mountains. Now, however, it is reported that a process has been perfected which will insure a profit, and that two large mills will soon be erected in the northern Adirondacks. Each will be equipped to handle ten tons of sand per hour. It is rumored the capital is to be furnished by a group of Canadian and United States bankers.

TRUTH OUR BOND

OUR greatest humorist once said: "Truth is our most precious possession, therefore, I personally use it very sparingly." Sometimes we feel that he was not the only one who economized in its use. Truth is always a relative term—perhaps no two individuals will agree concerning many aspects of common honesty. But for our store, it is absolutely necessary that we reach a decision that our printed message meets the truth requirements of an intelligent public. To deserve and hold the confidence of our customers, we must not indulge in any hair-splitting approaches to near-truth, but rather must censor our expressions so that there may not be even the appearance of garbling or carelessness. The printed word of this store is its bond, and, within human limitations, is the absolute statement of facts as we know them.

"THE HOUSE OF QUALITY"

Subscription Honor Roll

The following have either subscribed or renewed the next week to The Kerrville Mountain Sun:

- H. L. Lacnece, L. W. Laughman, T. D. Wickson, T. B. Butler, L. W. McCoy, Thompson's Sanatorium, C. H. Wolfmueller, T. F. W. Dietert, Rev. J. B. Holt, Dr. J. E. McDonald, Dr. G. A. McLimsey, Mrs. Carl Mosty, Mrs. Wm. L. Secor, M. J. Wilson, Miss Sarah Scofield, Kearney Butt, Mrs. J. G. Lantz, W. B. Anglin and O. J. Brockman, all of Kerrville; Mrs. John Williams, Rural Route; Jake L. Smith, Ingram; F. J. Maier, Fredericksburg; Chas. Schreiner Jr. and I. H. Burney, San Antonio; H. W. Dietert, Houston; Mrs. Lucy A. Rees, Cleo (Kimbale County); O. H. Graham, Pharr, Texas.

The modern violin is superior to the ancient, according to the decision of a critical audience of music students and musicians of Paris. Six old violins and six of modern make were selected for the test. Among the old violins were instruments by Stradivarius, Guaragnini and Amati. All 12 were numbered and lots were cast for the order in which they should be

Just Say

played. Before an audience of critics, in a darkened conservatory, the player performed on each violin in succession. Like the audience, he was in the dark and could not know what the violin he had in his hands. Each member of the audience held a voting card, and an easy victory went to the moderns.

A Canadian recently left Ottawa on a 9,000-mile jaunt which, when completed, will take him to Punta Arenas, the most southern city of South America, situated on the Strait of Magellan. During his long hike the walker will carry only a sporting rifle. He will pass through many wild parts of South America, including territory where the head hunters live.

The French companies, which own the New Hebrides, have offered the islands to the Government of Australia for 500,000 pounds sterling, according to good authority. A time limit has been placed on the option, as private interests in the United States have been endeavoring to purchase the islands. Unless the French Government surrenders official control of the islands it is doubtful the deal will go through.

I WILL STILL BUY PRODUCE.

You are always welcome.

Respectfully,

J. R. BURNETT,

Phone 181, Kerrville, Texas.

The Dixie Theater

SHOW STARTS AT 7:45 P. M.
