Mr. Peddy was a staunch supporter of Jim Ferguson and handled his headquarters at Houston. This resulted in the superintendent of the Methodist Sunday School there asking the resignation of young Peddy as Dr. G. M. ## NOMINATION OF GEORGE PEDDY

San Antonio Express, Sept. 19th: Judge C. K. McDowell, former chairman of the Republican State Committee of Texas, has "bolted" the nomination of George E. B. Peddy of Housday for the United States Senate in opposition to Earle B. Mayfield, regular Democratic nominee, on the ground that between two Democrats there is nothing for Republicans to do save lots of scratching on both names. Mc-Dowell, former County Judge of Val Verde County, head of the Texas Republican State organization under William Howard Taft and chief "pie' dispenser during the same rule, proposes voting for neither and says he room was in a profusion of brilliant any Republican for voting for Peddy.

This attitude of Judge McDowell has caused something of a sensation in local political circles and Republican leaders and anti-Mayfield Democrats are wondering how far the defection among "straight" Republicans against Peddy will extend. McDowell makes no secret of his position and has let it be known that he will "tell it to the world." He has been regarded as a "regular of regulars" until just after the recent Republican State convention at Fort Worth. Or coming back to San Antonio he gave an interview to San Antonio Express saying State Chairman Creager was far more of a "boss" than ever Cecil A. Lyon, whom McDowell succeeded as State chairman, ever dared to be.

McDowell Will Rebel

"Texas Republicans, because of the actions of a small coterie of the party bosses," said McDowell, "are asked to line up for an avowed Democrat for United States Senator. For one, I am going to rebel and when I go to the polls there will be two heavy lines drawn with equal force through the names of both Mayfield and Peddy. There would be just as much sense and right in asking Republicans to support one as there is in asking us to support the other.

Mesdames C. W. Daggett, J. D. Jackson, Lee Mason, J. S. Wheless, Wm. Lee Secor, Payne Williamson, Al Manny, Emma Siddy, Laney Sandel, A. P. Utterback, J. E. McDonald, James Young and Henry Kuhlmann, and Misses Yolande Robinson, Mabel Thorburn, May Louise Schreiner, Neil Barnes, Mary Louise Barnes, Lucille Williamson, Camille Lodovic, Bess Booth and Elsie Johnston.

"The Republican machine, obeying the mandate of Chairman Creager, has endorsed and nominated a man who doesn't know the first principles of Republicanism. He is out for high office and will seek the support of Republicans while campaigning for the job, but he will consistently maintain that he has not quit the Democratic party, that Pat M. Neff should be re-elected Governor and that the Democratic nominee for Congress in this district should be elected in place of "The Republican machine, obeying

Congressman Wurzbach. That is a nice stew for Republicans to be served and it is one that is so unpalatable to me that Chairman Creager can not force it down my throat.

"If the Republican bosses had acted with sense and courage at Dallas they could have brought about the nomination of a man who would have met every requirement of the bolting Unless the chief architect of the could be left unfinished and also some manded the united and hearty support of all the Republicans and independents of the State. But Peddy does not and cannot fill the bill. I have nothing to say against him personally. He has very little of a record on which to base an opinion of any sort.

Will Boost Democrats

"But I know he is a Democrat, that he boasts about not having quit the Democratic party and we have every reason to assume that he will plead with Republicans to vote for him for the highest office within the State's gift while at the same time he will urge the election of Governor Neff and the entire State, district and county Democratic tickets. That's a new kind of a candidate to expect me to sup-AFTER HARD WORK AT RESCUE port. I don't recognize the brand. He may be all right in the Democratic pasture, but he surely doesn't belong on the Republican ranch. He is not even a maverick, for he has refused to be branded. He wants our votes, but nothing else the Republicans have to give.

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* enough to say to Mr. Creager and his lieutenants that they can't put the halter on me. It would tickle me to see a real Republican sent to the Senate from Texas, or even an ex-Democrat who has become politically re-pentant and wants to see the light. But I simply refuse to be a party to a choice between Democrats of the

same stripe. The main difference be-tween Mayfield and Peddy is that both want the same office with one trying to get it by one route and the other by another route.

"I suppose they will be bringing Peddy here to speak for himself, for Neff and for Candidate Herzberg. How will that sound in the ears of Republicans who believe in building up their party into a respectable or-ganization in Texas? The only sensible course for Republicans to follow after the way the party's real interests have been balled up by the men in charge is to do as I intend doing—obliterating and eliminating both the Democratic names that will appear on the ballot. And there will be enough of us to count. Mr. Peddy is going to be more deficient on election night in the matter of Republican votes then any other than any other can votes than any other man whose name is on the official ballot."

McDowell recently resigned as spe-cial Assistant United States Attorney General at Washington. He held the job about a month and then quit. To San Antonio friends he declared on his return that he didn't care for the "Speaking for myself and, I believe, place and accepted it only "to show for thousands of other Texas Republicans, I am going to be stubborn ment without their help."

#### lium Cut to 9 Cents a Foo

Fort Worth, Tex., Sept. 13 .- The biggest price reduction on record has just been put into effect here by the Government's helium plant. The cost has been cut from \$2,000 to 9 cents a cubic foot! Even at that there is no crowd at the doors to take advantage of the great reduction. Experiments are now going forward to make the cost only 5 cents.

An immense warehouse at the plant has stored in it 2,000,000 cubic feet of helium. Two weeks ago two carloads of the product were shipped East for army use. The institution has been closed for six months but, on October 1st, it will resume operations, Congress having appropriated \$800,000, which will keep the plant working for one year. When the plant starts up in the fall it is expected that 150 men will be employed here and work will continue night and day.

This is the only helium plant in the whole world, giving this Government a monopoly of the supply. Experiment has shown that only the Texas gas contains belium. Gas from other States and other countries, when tested, did not contain the ele-

Miss Julia Haass, an expert typist at the Bexar County Court House, gave our fifteen High School boys and girls a speed demonstration Monday of last week. Miss Haass is a former pupil of Sr. Hilda, who is principal of the High School. Miss Haass returned to San Antonio last Sunday. She had been our guest at the Convent for a fortnight.

Miss Louise Strackbein, one of our graduates, was also a guest for a couple of weeks, until she had to resume her teaching in Edwards County. Her niece and nephew of Rocksprings will remain at Notre Dame. Chas. Keitz Morris, an oil operator bor.

Res. Phone

Fort Worth Star-Telegram: W. O. Connor, president of the Republic Na-tional Bank of Dallas, sees a big season ahead for Texas. Returning from his vacation he has given out a statement to that effect.

"Out of a mercantile experience in Texas of 50 years' duration," he said, I see unmistakable signs of the greatest season of profit taking we have ever had in the State. The expense of raising the 1922 crop in Texas has been phenomenally small. I venture to say that the overhead expenses of farm operations in Texas this year are lower proportionately than they ever were before. The farmers' credits have been over-extended. His banker has not been in position to finance extended operations and he has been forced to fall + back on his own resources. The average farmer has eaten corn bread and chickens and eggs and bacon that he raised. He has purchased little at the store and fought shy of loans.

"And coupled with this is every + prospect for a good crop. The average farmer has done his own labor in the main and the harvest is going to be greater than he expected. I confidentally look forward to the settling + of many old bills at stores and the cancellation of numerous notes in banks this fall. I've seen the same situation many times, but never in so marked a degree as now.

There can be no doubt that Texas will make big strides toward normal prosperity this fall. And if things go right we shall enter the following year with the certainty that the prosperous times will continue. The future is assured.

The Play House Theatre

A story of Tox Mix's famous horse, Tony. For once in his picture career Tom Mix will play second fiddle, as it were,

to Tony, for the animal is to be the featured player. A more lovable and intelligent creature has never been seen on the screen and all true lovers of animals will be thrilled with

sympathetic delight over the adventures of this most re-markable horse. This is Tom Mix's latest picture.

The 13th Episode of "GO-GET-'EM HUTCH" will be shown Friday.

You got a big laugh out of "PECK'S BAD BOY." Jackie Coogan is making a SENSATION with the SMILES and SOBS of "MY BOY." The kid is indescribable! To see him is to love him, that's all. He has a hundred new smiles for you, a hundred loveable pranks, and—let's whisper this—a natural way of living his role as the immigrant kid who adopts a surly

old sea captain that reaches clear down your throat and drags up a sob at times. You must see this, as Jackie Coogan says: "US KIDS HAVE GOTTA GET TOGETHER."

"THE CRADLE BUSTER" ran all last week at the Ma-

jestec Theater in San Antonio. This is a whirlwind comedy of an adolescent youth, tired of being his mother's little "Sweetie." He busts his cradle on his 21st birthday, which happens to be July 4th, and lets loose a volley of mirth, comedy and romantic doings with whirlwind rapidity.

## Self-Serve Stores Tend To Reduce High Cost of Living

Robert Babson, the noted statistician, whose opinion is considered authority in financial circles, in remarking upon the rapid increase of the self-serve stores, sees in them a very wise and strong movement to lower the high cost of retail groceries by dispensing with expensive service—and he believes that these stores have a great future in the retail grocery game.

The American housewife has become accustomed to phone for her groceries to be delivered several times daily and probably charged, thus creating the heavy delivery and credit expenses which amount to at least 10 per cent of the cost of groceries at service stores. Self-Serve Stores not only do away with credit and delivery costs but they also eliminate a large portion of the clerk-hire expense, as the customers select their own goods

There are many advantages to be gained by the housewife who does her Monday. own shopping—she can select a better variety of goods, she can pick goods of better quality and by comparing prices and trading at the Self-Serve Stores she can make a substantial saving in her grocery bill.

TODAY, try this simple treatment. The results will surprise

First: Cleanse face and neck thoroughly with a good cold cream, pinching face gently to stimulate circulation and dislodge superfluous oil from the pores. Don't pinch hard enough to hurt, however.

Second: Remove cream with a soft face-cloth, wrung out

Third: To the still moist skin, apply Combination Cream TEEL. Pat gently with finger-tips-especially under chin. A work, dip finger-tips occasionally into warm water-finishing a dip or two into cold. You'll be delighted with the cool, refr feeling this cream gives-at the eagerness with which your drinks it in, and the velvety smoothness it imparts to the flesh.

Fourth: After cream has thoroughly disappeared, leaving soft and smooth, go over lightly with Face Powder JONTEEL more color is desired, add a touch of Rouge JONTEEL.

'Then take a good look in the mirror. Your complexion will fresher and younger. You'll be surprised that such a simple, little treatment can have accomplished so much.

And like thousands of others, you'll be in love with cool, frag Combination Cream JONTEEL-you'll be using it daily, to beau heal, and protect the skin; especially before powdering-for it le such a uniform surface for the powder to cling to.

Don't put off trying it. Ask for Combination Cream JONTI ONLY at a REXALL STORE. It is obtainable nowhere else.

It has not been given respectful consideration since the famous flasco which terminated the efforts of Professor Semler of Germany, in the latter part of the Nineteenth century.

Semler experimented with a combound known as the "Salt of Life," the discovery of a certain Baron Hirschen, which was supposed to be the universal medicine. He left a solution of this composition in warmth for several days and, on examination, was astonished to discover in it some thin scales of a yellowish metal which, when tested, proved to be pure gold. His discovery caused immense excitement, which terminated in a legal inquiry of Semler's claims. It was finally brought to light that an old and devoted servant of Semler's had been slipping small pieces of gold leaf into the solution slyly, and with no idea beyond gratifying his beloved master. One of the great laughs of the affair was furnished by the discovery, during one of the tests, of a sort of brass composition in the jar, instead of gold. It turned out that this had been placed there by the servant's wife, who had been intrusted with the money to purchase the gold leaf. She had procured brass instead, spending the balance of the money for her favorite beverage.

#### BIRD'S "NEST" REALLY RAFT

Water-Hen Prefers Floating Home-Classed by Some Naturalists as a Land Creature.

You know the green weed that grows in great patches on any rocky shore. We call it seaweed, but really it is a land plant which for some strange reason has taken to the sea.

The water-hen is one of the most interesting examples of such curious transfers. Everyone knows this bird. with its red beak, its long dangling legs, and its white tail. As you walk along the bank of a stream, it starts up suddenly with a fearful fuss, flapping its wings and beating the water with its feet. Finally it manages to rise into the air, and moves off with a lumbering flight.

Though it is more at home on the water than in the air, or on dry land, the water-hen is really a land bird. ago that food was easier to obtain in ponds and streams, and decided to adopt an aquatic life. Its feet are not webbed, but it has learned to swim and dive as well as duck.

The water-hen's nest consists of a raft as big as the top of a barrel, and is made of rushes and twigs anchored to the stems of water plants. Sometimes it is not moored at all, and the parents follow it about as it drifts over the surface of a pond .-London Tit-Bits.

Peace Convention of 1861.

The peace convention is the name given to a convention held in Washington on the invitation of Virginia in February, 1861, just before the outbreak of the Civil war, for the purpose of arranging a peaceful settlement of the difficulties between the North and South. Fourteen free states and seven slave states were represented and each state was allowed only a single vote. Ex-President Tyler presided over the convention. A committee upon which each of the 21 states was represented submitted a report recommending the adoption

of certain specified amendments to the federal Constitution. The report was adopted by the convention. The amendments urged generally favored the South, but were not wholly satisfactory to either section and were not favorably received by either house

The town of Patzcuaro was the seat of the old Tarascan kings, and in its plaza women and boys still sit beside their fires at night, selling vegetables in sacks, says the New York Evening Post. Fishermen from the huts that cling to the steep sides of the lake islets are picturesque figures in the streets. Once when a great king moved from Patzcuaro across the lake to Iguazzio-where now are pyramids and a ruined amphitheater—he left his royal kitchen behind, but not wishing te change his diet, he had a train of very fit slaves carry his meals 18 miles around the lake shore from the ovens at the court.

#### Alligators and Crocodiles.

Alligators differ from crocodiles mainly in having relatively broad snouts and by the circumstance that as a rule the first and fourth tooth on each side of the lower jaw enter into pits in the upper jaw, whereas those of crocodiles slide outside of the jaw and are visible.

MOSCOW LEADER TO DIS-PLACE NICOLAI LENINE

Moscow, Sept. 18.—A sensation was caused here today by a report that Leo Kamenoff, president of the local Moscow soviet, has been appointed chairman of the council of people's commissars of Russia, the

official post held by Nicolai Lenine.
It was reported also that Kamenoff has been appointed chairman of the council of labor and defense. These two official positions are the most powerful in Russia and if the reports are true, Kamenoff would be practically premier of Russia.

STREET WEDDING IS PRO-TESTED BY CHURCH HEAD

Selma, Ala., Sept. 18 .- Protesting against a proposed public wedding to be held on the streets of Selma as a feature of a trade event next month Dr. Edward Gamble, rector of the St Paul's Episcopal Church, in the course of his sermon yesterday pleaded with the members of his congregation to go before those in charge of the celebration and demand that this plan be abandoned.

One hundred and thirty-six thousand, four hundred and forty-one boys and girls were enrolled in agricultural extension clubs in 1921 for training in various phases of live-stock work. Last year these boys and girls owned 76,148 head of farm animals and 554, 286 fowls, representing a total of \$3,
