

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, APRIL 10, 1930.

NUMBER 17

Hagerman—Where the spring with healing in its waters is located.

DEXTER NEWS

G. A. RICHARDSON IS A CANDIDATE FOR THE OFFICE OF DIST. JUDGE

Judge G. A. Richardson, of Roswell, announces this week as a candidate for re-election to the office of district judge of the fifth judicial district. Judge Richardson, a pioneer attorney of Roswell, is well and favorably known in the eastern slope of the state. What we might say by the way of introduction to Judge Richardson is doubtless known to all of the older residents. He has given years of service to the people of eastern New Mexico, both as a practicing attorney and public official, during the time that he has served the people, he has established an enviable reputation, not only as a jurist, but as a lawyer as well.

The duties of the office of district judge were not new to Judge Richardson, even before his first term in this office, as he had previously served this district as judge several years ago. His experience on the bench and with the conditions of this section has particularly fitted him to render a high class service to the people of the Pecos valley, should he be returned to the judgeship in the coming democratic primary.

We commend the candidacy of Judge Richardson to the folks of this section. He will appreciate your consideration.

GREENFIELD HAS ONE MENINGITIS DEATH ON SATURDAY AFTERNOON

Alonzo Dalgarn, 28, son of L. I. Dalgarn, living two miles west of Greenfield, died at 3:00 p. m. Saturday from an attack of cerebro spinal meningitis.

Mr. Dalgarn has been sick since Friday afternoon—about twenty-four hours.

Rev. Garrison, of Dexter officiated at the private funeral held in Hagerman cemetery Monday morning.

The young man is survived by his father, mother and four sisters and one brother.

According to Dr. Phillips, no further cases of the disease have made their appearance near Dexter, and no homes or schools are quarantined. Mr. Dalgarn lived in an isolated location, and no fears that the disease will spread are entertained.

OUR MINERAL WATER

It should put us to shame to find a Roswell man advertising Hagerman mineral water, when we will so neglect such an opportunity ourselves. Pretty soon we'll find some live wire Roswell man putting in a camp ground here, and another group of Roswell citizens with vision establishing a sanatorium here. However, if we on the grounds won't do those things, let's boost the outsider that will.

Mrs. Stafford Brown and son, Jimmie, were here Wednesday visiting with Mr. and Mrs. Jim King, parents of Mrs. Brown. Mr. and Mrs. Brown reside at Carlsbad.

TURNING ON THE GAS

That was a good debate about the installment plan at the high school. In spite of the fact that the affirmative won, we believe that installment buying is the royal bunk. We've had thirteen second hand cars and are still paying on the first one. Another thing, the credit man almost busted up my engagement to my girl by trying to take her diamond ring away from her for the last six months that I had missed. Also up until last week, we momentarily expected Woodhead in Roswell to take our washing machine away full of dirty sox because we owed another payment. However, it is paid for now, and as soon as I can have some new parts put in it, it will wash again. Furthermore, I still owe two payments on the first suit I ever had with long pants, though I've been shining my shoes with it and polishing the car with its well tailored remains for many months now. Again, I undertook to pay the preacher in installments when I got married, but I just paid one and came to the wonderful realization that he couldn't undo what he had already done, and I quit paying him—The only time I ever beat the installment plan—and sh-sh—but when my baby gets old enough to enter college, if I keep my strength, I'll get the doctor paid.

Word comes from O. J. Ford who is an Arkansas traveler, that he is having a good time and expects to bring his wife and son back to Hagerman in a few days.

Judge Maynard of Roswell, was transacting business in Dexter Tuesday afternoon.

Rev. Anderson entertained Rev. and Mrs. Johnson, Rev. and Mrs. Davis at dinner Wednesday.

E. L. Love returned to Dexter Sunday night from a few days business trip to the western part of the state.

Mrs. C. N. Moore who has been in Arizona for the past month is expected home this week.

Owen Phillips and Chester Car of Roswell, attended the dedication services at the Methodist church last Sunday.

The Womans' club will have its April meeting at Lake Van this afternoon. Mesdames J. T. Mills and Frank Wortman, are hostesses for the day.

The Magnolia Service Station in the south part of Dexter, formerly operated by Mr. Fay, of Fort Worth, Texas, is now being operated by Martin Chavez.

C. N. Moore and W. T. Marx, spent a few days of last week at Las Cruces on business. Mr. Moore is not so well again this week, the trip being too much for him.

H. H. Harris, who has spent the winter in California with relatives and friends returned home last week. Mr. Harris states conditions in the Pecos valley are far better than in California.

J. H. Hart of Denver, Colorado, was transacting business in Dexter Thursday of last week. Coming from Colorado's snow capped mountains, Mr. Hart thought the valley delightfully pleasant.

S. S. Bible was taken to the hospital at Carlsbad, last Saturday. Mr. Bible had been ill for several days, and his improvement since being in the hospital has not been as rapid as was hoped it would be.

Miss Ethel Weaver and room mate Miss Marie Rose, spent the week end with the George Weaver family, the girls came over for the dedication of the Methodist church. Both girls are students of the State University at Albuquerque.

J. W. Lowe, who has spent the winter on the Lowe ranch twelve miles west of Dexter, left Monday for Jerseyville, Illinois, to spend the summer with his daughters. The Lowe ranch was sold to Portales parties last week.

A fine little baby girl arrived at the home of Mr. and Mrs. Dick Shaw on last Sunday night. The mother and daughter are doing nicely. It is hard to tell who is the happiest over the first daughter among the little ones, the Shaw family or the John Wiers.

TAILOR SHOP CHANGES HANDS

Last Saturday a deal was consummated by which P. J. Watford, became the owner of the tailor shop and cleaning establishment formerly owned and operated by S. A. Whitcombe. We are glad to welcome this young man to our town and sincerely hope he will do well in his business. Mr. Whitcombe has not yet decided what business he will engage in.

DEDICATION SERVICE

Sunday morning at the eleven o'clock hour, with the church packed, the Methodists rendered a splendid dedication service. Presiding Elder Moore was in charge, assisted by Dr. Anderson, Dr. Hatfield, Dr. Davis and Dr. Hall. There were several special musical numbers given by the choir, "The Gentle Voice," was beautifully sung by Misses Ethel Weaver, Marie Rose and Jewel Sharp. As fitting to the occasion, the address was delivered by Rev. Hatfield, who served this charge several years ago. Mr. Hatfield brought to his hearers a real heart to heart message.

At one o'clock a sumptuous banquet was served in the basement of the church. Don't forget the services being held at this church this week, which are being conducted by Rev. Davis, of Abilene, Texas. Services will continue through the week, and every one is most cordially invited to attend.

MRS GRAHAM AT THE PRESBYTERIAN CHURCH

Mrs. Graham is a member of the foreign mission board of the Presbyterian church. She is much traveled, a most interesting speaker and has a delightfully pleasing personality. Her address at the church last Sunday night was very interesting and entertaining. She gave lots of information relative to diseases brought to our country from other lands, as well as the splendid work being carried on by the Presbyterians. If you were not present, you missed a lot. You did not have to be a Presbyterian to enjoy Mrs. Graham.

STATE COLLEGE TRAIN IN DEXTER TUESDAY

At one o'clock last Tuesday the State College train gave a splendid exhibition in Dexter. They had a wonderful display of grain, canned goods, put up by the 4-H club girls, fine stock, nice kitchen walled equipment and various other things of interest.

Mrs. J. W. Sharp and daughters, Gale and Jewel, came in Saturday afternoon from Albuquerque, to attend the dedication services Sunday, and to visit with Mr. Sharp and their many friends until Monday morning. It was delightful to see these lovely college girls again.

CHURCHES

Presbyterian Church

"To testify the Gospel of the Grace of God"

NEXT SUNDAY

Sunday School 10:00 A. M.
Morning Worship..... 11:00 A. M.
Subject of the morning sermon—"A Great Survey"

Vesper Service..... 5:00 P. M.
Subject of sermon—"Veterans of Life." A sermon for those with years of experience and service of life. Cars will bring those living at a distance.

This service was postponed until next Sunday because the church had to hear a representative of the Boards of the Church last Sunday at this hour.

METHODIST CHURCH

Sunday school 9:45 a. m.
Worship 11:00 a. m.
Subject—"Why Join a Church?" People say they do not have to join a church to be saved, then why waste our time with the outfits?
Epworth Leagues 7:00 p. m.
Evening worship at 7:45 p. m.
Subject—"Resenting the Goodness of God."

Let next Sunday find you in some place of worship. You will be welcome.

BRYAN HALL, Pastor.

CHRISTIAN CHURCH

Those who missed hearing Dr. Royal J. Dye last Monday night missed hearing the most thrilling and

intensely interesting missionary address ever delivered in this part of the southwest. It should prove a great inspiration to all Christians who heard it, to renewed efforts in world wide evangelism.

The pastor expects to occupy his pulpit next Sunday at eleven o'clock, preaching on the subject: "Why Am I a Christian and How I became One." Bible school at ten o'clock. Our promising orchestra will assist in the music. A cordial invitation is extended and a warm welcome will await all who may choose to attend our services.

Your pastor expects to leave the first of next week for Tulsa, Oklahoma, where he will assist his brother, Dr. Claude E. Hill, pastor of the First Christian Church of that city.

(Continued on last page, column 5)

MOHAIR AUCTION WILL BE HELD IN ARTESIA ON APRIL FIFTEENTH

The spring clip of the Pinon Avis Angora Goat Association is practically all stored, it was announced here yesterday. The total clip will amount to approximately 115,000 pounds, several thousand pounds under the fall clip of the association, sold here last year.

Arrangements have been made to hold the public auction of the clip on April 15th, at this time the entire clip will be offered to the highest bidder.

—Artesia Advocate

DEXTER WOMAN DIES

Mrs. Dara Bascom, 30, wife of David M. Bascom, of Dexter passed away at her home one mile south of Dexter at 8:00 a. m. Wednesday, of pulmonary tuberculosis.

The family had lived in Dexter for three months, having come here for Mrs. Bascom's health, from Oklahoma.

Besides her husband, Mrs. Bascom is survived by four small children. The funeral was held in Hagerman cemetery at 10:00 this morning, Rev. Davis of Artesia, officiating.

SHORT CHANGE ARTISTS ARE JAILED AFTER A \$25.00 HAUL IN VALLEY

Short change artists have been making their appearance here in unusual numbers. Saturday three men hit town and made quick work at one place, the Majestic Cafe, where they secured \$10.00. The same game failed to work at the McCann Service Station, but at a Lakewood store, they were more successful and secured another \$10.00. After the arrest of the men in Carlsbad Saturday evening by Walter McDonald, deputy sheriff, it was learned that they had short changed a filling station at Dexter \$5.00. The short change method was worked by two of the men, who usually managed to secure bills in fairly large denominations and would attempt to confuse the victims with changing the bills for small purchases. A third man would usually be stationed in the car with the engine running so that a quick get away could be effected.

A third man was released and the two men who gave their names as Roy Bingham and J. R. Yates were returned to Artesia Monday and arraigned before S. W. Gilbert, justice of the peace. The men were each given a fine of \$50.00 and costs and upon failure to pay the fines were remanded to the county jail at Carlsbad.

Two other short change men were arrested in Carlsbad, charged with short changing the D. and R. Motor Co., out of \$5.00 and were tried here Tuesday before Justice Gilbert. Each was given a fine of \$26.50 and costs and both remanded to jail on failure to pay the fines.

—Artesia Advocate

SOCIAL ITEMS

DINNER BRIDGE

Mr. and Mrs. Jack Sweatt entertained at dinner-bridge honoring the newlyweds, Mr. and Mrs. Clifton Hearn and Mr. and Mrs. John Mann, in their home Wednesday night. The following guests were present: Mr. and Mrs. Clifton Hearn, Mr. and Mrs. John Mann, Mr. and Mrs. Dub Andrus, Mr. and Mrs. W. A. Losey, Mr. and Mrs. R. L. Collins, Mr. and Mrs. A. L. Nail, and Mr. and Mrs. Kenneth Servatius.

Mrs. Losey won high score for the ladies and Mr. Hearn for the gentlemen.

REUNION

Mr. and Mrs. John Henry Slayter took a youth whom Mr. Slayter had trained to the forensic meet in the Clovis district held at Portales. Miss Mary Slayter was there with an entrant trained by herself. When they arrived, they were accorded greetings by Miss Caroline Paddock, sister of Mrs. Slayter, and thus a happy time and reunion was enjoyed by them. Lewis Thomas, of Grady, trained by John Henry Slayter won the contest and is to be the Clovis district representative at the state meet to be held in Albuquerque on May 10th.

WINS HONORS AT T. W. C.

Miss Eleanor Paddock attractive

WOOD ALCOHOL HELD RESPONSIBLE FOR THE DEATH OF ARTESIA BOY

Andrew Roe, age 17, son of H. C. Roe, died at the home of his father, this morning about 6:25 a. m. The cause of young Roe's death has not been definitely determined as this is written, although it is thought probable that it was caused from drinking wood alcohol. The youth was found in an unconscious condition, lying near the oil field highway, in the driveway of the Alf Coll farm, last night about 11:30 by Harvey Wilson and Mr. Gleason employees of the Pecos Valley Gas Co., and was brought to the home of his father and placed in bed. The seriousness of the lad's condition was not realized by members of the immediate family, even Mr. Roe, who occupied the bed with his son. The youth was still alive at 6:00 o'clock this morning when members of the family first awoke, but is believed to have died near 6:25. The end came peacefully.

In connection with young Roe's death, officers found two gallons of alcohol near the old highway just south of the cemetery last night. According to information first received by the officers, the alcohol catches consisted of five gallons in gallon cans, three gallons, however, had been removed, when the catches were located.

Young Roe was last seen in town last night shortly after 10:00 p. m. and is believed to have started drinking soon after leaving Main street. A companion of the deceased, is also said to have been intoxicated after imbibing some of the drink, but had not been located at a late hour this morning. A coroner's inquest will be conducted by S. W. Gilbert, justice of the peace at the request of Mr. Roe. Funeral arrangements are pending. The body will likely be shipped to Jonesboro, Arkansas for burial.

—Artesia Advocate

TAX COMMISSION HEARING DATES

Hearings on the valuation of corporations are to begin April 14, according to a schedule given out today by the state tax commission.

The railroads are slated for April 14 and 15; telephone and telegraph companies for April 17; pipe line companies for April 21; transmission, water, light and gas companies for April 28, 29, and 30.

young daughter of Mr. and Mrs. E. A. Paddock of near Hagerman, is winning many honors at Texas Womans College at Fort Worth. She was elected one of the five representative girls recently and also president of the student body for the college year 1930-31 which will be her senior year. Miss Paddock was graduated from Dexter high school in 1926 and taught one year at East Grand Plains before entering T. W. C.

The Fort Worth Star Telegram recently carried a charming picture and the appended:

Miss Eleanor Paddock of Hagerman, N. M., left Wednesday for Commerce to represent T. W. C. at a meeting of the Council of the Scholarship Societies of the south to be held at East Texas State Teacher's College on Friday and Saturday. Register C. M. Howard also will attend.

Representatives from some 30 colleges will be present for the meetings in which speakers from various parts of the country will participate.

HOME IMPROVEMENT UNIT 1

The Home Improvement Unit No. 1 will meet at the home of Mrs. Leon Cole at 10:00 a. m. Monday April 14, for an all day meeting. The lesson for discussion is on cheese and cheese dishes.

A large crowd is expected and each member is requested to bring only the sandwiches and dishes which she will need for the luncheon. The cheese dishes that Miss Borschell will make will take the place of the regular covered dish luncheon.

MARRIED

Mr. Frank H. Morgan and Miss Inez B. West, both of Roswell, were united in marriage at the Hagerman Methodist church Tuesday morning by the pastor Rev. Bryan Hall.

Mr. Morgan is an employee of the Kemp Lumber Company, of Roswell. The wedding was a private affair being performed in the presence of J. H. Ruble and Eddie Mae Agnew-bright of Roswell as witnesses.

An Epworth League council meeting that was in progress in the educational building, dismissed in time to thoroughly rice the couple.

Mr. and Mrs. Morgan will make their home in Roswell.

HAROLD DYE, Managing Editor

OUR CONTRIBUTION

In our imagination, the mist of years partially lifts, and we see the figures of men—whether young or old, we cannot say, whose names we cannot speak, yet ones who looked into the future with sighs as they set out row after row of cottonwood saplings along the lanes and the by-paths of the Pecos valley. To-day as our motor cars hurtle along the highways that have ceased to be mere lanes marking section lines, we are moved to silently thank those ones who long years ago waved goodbye to the stalwart trunks of the sons of shade, and laying down their spades, stepped out into the unknown.

What greater monuments could these men have left to show that they lived in the pioneering days of the valley? It takes foresight and patience as well as a thought for others to cause us to plant and care for trees.

Tomorrow, April 11, has been set aside by official proclamation of Governor Dillon as Arbor Day. Hagerman should fall in line with the governor's wise suggestions about the planting of trees and the care of those already planted. A few more trees should be planted around our mineral springs. A row next to the alley would help to beautify this little park, as well as one or two others at strategic points. Tourists will soon be passing by. They will not stop because we have no attractions to offer them in the way of camping facilities, or even a shady nook on which to rest during their long trips.

Private homes also should be thus beautified. Let it be remembered that no improvement of grounds is worth more than that offered by growing trees. The man who does not appreciate trees is worse than dead. To say the least, his heart is petrified. In closing these words, we might steal a thought from Joyce Kilmer's immortal poem and paraphrase it thus: "Editorials are made by fools like me, but only God can make a tree."

We don't imagine the fellow with a bottle of the latest jamaica ginger would be considered a jolly good fellow. Recent investigations into the contents of jamaica ginger leads us to believe that it might pass for a sheep dip, but would hardly be thought of as a respectable beverage. Carbolic acid, creosote and alcohol flavored with jamaica ginger is the latest drink to be put out by the bootleggers.

"Hoover's first year one of fact fact finding," says a news headline. Judging from the number of unemployed in our large cities it will take all of the president's other three years in job finding.—Ray Record.

SUDAN GRASS IN A BIG WAY

When Guadalupe county farmers ordered 13,000 pounds of Sudan grass seed in one cooperative shipment, they laid the foundation for about 2,600 acres of summer pasture, for dairy cows that will keep the milk flow coming and cut on grain rations during the summer perhaps more than could be had for the same money any other way. Sudan grass is at last coming into a section of the state where its real mission lies—where dairy cows and beef cattle graze on rich pastures during the season that the native pastures are often sparse, cutting down greatly on the cost of dairy products and getting the cheapest gains that can be had on beef cattle which are to be fed in the fall.

In Guadalupe county 2,600 acres of Sudan grass means summer grazing for from one to three animals per acre for several months, depending somewhat on the season. It may be 100 of 200 pounds of beef, \$10 to \$13, or it may be 250 to 600 gallons of milk, that Sudan will return to Guadalupe county farmers for every acre of the grass that is properly planted and cared for. It will depend also on the kind of stock which graze on it; whether they be dairy or beef, the better bred the animal, the more profit will be made.

Sudan can be planted any time from right after cotton planting to after small grain is harvested. Few farms in the southwest but would profit by the use of this excellent summer grazing crop, especially all those who have not yet built up permanent pastures of other grasses which furnish summer grazing.

JAKE PARALYSIS

It is inconceivable to the ordinary man or woman why the young folks and old folks too for that matter will continue to risk their lives by sampling "jake," after a wide spread attack of paralysis attributed to jamaica ginger. We can attribute this weakness to bad judgment with a desire to obtain a thrill as the principal cause. It is very unfortunate that some of our young people have never found what real happiness consists of; they are constantly seeking the artificial stimulant and in so doing often fix upon themselves a habit, which is practically impossible to quit.

Those who are setting the pace, perhaps feel just as sorry for us as we do for them. They think we are slow. They have never stopped to consider the experience of some of the older people.

HAVE A HEART

In a recent examination for citizenship papers here a young man answered most of the questions correctly until the judge asked, "Who is the president of the United States?"

"Al Smith," was the prompt reply.

"What makes you think Al Smith is president?"

"Well," replied the applicant, "all I know about it is that before election the republican orators told us that if Al Smith was elected we would have a general panic in the country; that prices in Wall street would drop, that men would be out of employment, that farmers would go broke, that banks would fail and there would be more liquor than ever. All these things have happened, so I think Al Smith must be president of the United States."—Fort Morgan Herald.

AN AWFUL THOUGHT

Wonder what would happen if newspapers were suspended entirely? How would you like to close each day dependent entirely upon word of mouth gossip for your news, local, state and world wide? We rather think that if the world were suddenly to slum back into that condition that something terrible would happen, simply from the lack of news of what was going on. To-day dispatches from all corners of the world pour in the newspapers offices. Within a short time of happening news is spread all over the world, its volume depending upon its importance.

Congress has passed another bill directed at newspapers. It requires publishers of newspapers and magazines to furnish the postmaster general any information desired concerning the ownership of the publications. Nowadays its a rare day when a publisher is not busy making out some sort of a report to some department of the government.—Roswell Record.

BILLIONS LOST THRU WASTE DUE LARGELY TO CARELESSNESS

By S. W. Straus, President American Society for Thrift.

Figures of recent compilation give an idea of the vast amount of waste that exists on every hand. The national Board of Fire underwriters says our annual fire loss is approximately \$425,000,000. Eighty per cent of these fires are said to be preventable, thus making the value of property needlessly destroyed by fire, \$340,000,000. Armour & Co., recently announced that \$8,000,000,000, an amount greater than our total export trade, is lost in the United States every year through waste in distribution.

An authority on crime says our national bill to thieves and other criminals is \$500,000,000 a year. One might add many millions more to the list—waste in the kitchens of our 25,000,000 homes, waste due to faulty lumbering operations, waste through unnecessary traffic congestion.

It is not to be assumed that all waste can be eliminated no matter how well organized we may be in commerce, industry and the home. American business is efficient and means of eliminating waste are being developed constantly. One element alone is very largely responsible for the prodigious waste in this country. This is the element of human carelessness.

Education in thrift can help remedy this defect. Industrial leaders should bear in mind that the employee who is thrifty in his personal habits is quite apt to be careful in his work and through force of habit do what he can to eliminate waste. The development of greater individual thrift will mean not alone more prosperity and more substantial standards of living by individuals; it will mean likewise a saving of billions of dollars to national industry.

Clock Operated by Sun

In the observatory at Sydney, Australia, is a clock that apparently never can register incorrect time as long as the sun is shining on it, for the light from the sun operates it.—Popular Mechanics Magazine.

"BILLIE" SADLER

HARLEY SADLER OPENS IN ARTESIA NEXT MONDAY

When the Harley Saddler's Own Company comes to Artesia on next Monday, they will erect their beautiful new tent theatre.

This is the largest tent ever built for a dramatic repertoire company, but Harley Saddler needs the largest. His eleven consecutive years in New Mexico have convinced the people that he always carries the very best entertainment possible to secure both as regards plays, vaudeville, and music.

Some idea as to the immensity of this tent theatre beautiful, may be realized when it is known that it required forty thousand yards of canvas, for its construction, over 20,000 spools of thread, and more than 10,000 feet of rope, this is just for the tent alone.

For the entire equipment of the company, two 80 foot special baggage cars and one 50 foot care are required to transport the show from town to town. This year Mr. Saddler has secured some of the very latest royalty plays, among his repertoire being "Jonesy," "The Watts Family," "The Sap," "The Nut Farm," "New Brooms," "Slander," "Skidding," and a revival of the old classic "Ten Nights in a Barroom." A special feature this season is Eddie See, and his eighteen piece uniformed concert band. Mr. See is recognized as one of the ablest directors in the country, and has been the trumpet soloist with some of the greatest bands in the United States. Last year he was soloist with the feature band at Texas State Fair, at Dallas, and Mr. Saddler is fortunate in securing the services of this wonderful director. No outside concerts are given this season, but fifteen minutes after the doors are opened, Mr. See's band will give a 45 minute program from the stage before the rise of the curtain on the first act of the play. There will be overtures, classical selections, and also popular numbers of the day. Soloists, duets, trios and many novelty and descriptive selections. Mr. See also directs the twelve piece orchestra which will play during the intermissions between the acts of the play. A few of the vaudeville artists with the company this season are "Skeets" Molleson, juggler supreme, Billie Mack, juvenile buck and wing dancer, the greatest of his class. You'll say the same after you have seen him.

Henry Russ, and his "Georgia Crackers" a typical "mountain band," Paul Robinson, "the harmonica king," world challenger. After you have heard Paul, you'll change your opinion of the lowly harmonica. The music is there, and he "gets it."

Jimmie Travis, dancer and sax teaser, Billy Weldon, "the boy with the saw." Travis and Kinsley high class entertainers. Alice Mae Arnold, the singing ingenue, and many more. The vaudeville is changed each night, as well as the plays. The opening play will be, "New Brooms," a delightful little story, and a wonderful cast.

The Saddler company will be with us all next week. Special reserved chairs will be on sale Monday at the Palace Drug Store.

HOW MANY WIVES?

CHICAGO, Illinois. — Paul Ellis, who sometimes walked to the altar under the name of Peter, said he married three wives. A former wife suing him for back alimony said he married six. An attorney brought in to court records Saturday to prove he married ten.

Thus the wife who sued for support of one of Ellis' 16 children, became No. 9, though she thought herself No. 5, and his present wife, under the impression she was No. 3, became No. 10.

The court finding wife No. 10 in better circumstances than wife No. 9, ordered Ellis to pay the former wife \$25 each for three coming Saturdays and \$7 weekly thereafter.

Two of Ellis' former wives are dead it was shown. The others divorced him.

WILL YOU TELL

DUCKS STARVE IN ILLINOIS

The American Game Protective association has long contended that the vital need of waterfowl is food and more water in concentration areas. Proof of this comes from Illinois where 10,000 wild ducks were reported to be starving in the Illinois river bottoms after a survey by Kenneth R. Roehen, U. S. game protector. Food was provided.

NOTICE OF CONTEST

Department of the Interior, United States Land Office, Las Cruces, N. M., March 26, 1930.

To Denver C. Wright of Rt. 1, Box 54, care E. Bishop, Roswell, N. M., Cumberland, New Mexico, nearest the land, Contestee:

You are hereby notified that William A. Helms, who gives 111 E. 2nd St., Roswell, New Mexico, as his post-office address, did on January 16, 1930, file in this office his duly corroborated application to contest and secure the cancellation of your homestead Entry No. 036889, Serial No., 036889, made September 7, 1928, for all Section 14, Township 11-S., Range 26-E, N. M. P. Meridian, and as grounds for his contest he alleges that said Denver C. Wright has wholly abandoned the said entry for more than six months last past; that he has not established his residence on the land.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

V. B. MAY,
Register.

HIGHWAY SERVICE TO BE EXTENDED TO THE TOURISTS OF THE STATE

SANTA FE—With the beginning of the tourist season, the service bureau of the state highway department is making preparations for extending and improving its service to tourists.

A new and more comprehensive plan has been evolved for giving out accurate and timely information on the condition of the roads. The district engineers of the highway department, as well as dependable private individuals are providing the data in weekly reports, supplemented by telegrams and telephone messages when the condition as reported changes due to the weather. This information from all points in the state is gathered together in bulletins sent by the service bureau to 300 touring bureaus, hotels, automobile clubs and garages all over the U. S. Every known source of information for the tourist is included in the mailing list, which is increasing daily.

The number of individuals coming into the office of the service bureau in Sena Plaza to make inquiries is also increasing. All newspapers, hotels, garages, etc., are urged to send the tourist seeking information to this office, as the bureau is equipped to furnish complete data, not only on road conditions, but on other subjects of interest to tourists. A policy of entire impartiality and fairness to every section and every highway in the state is observed scrupulously.

SCHOOLS PLAN A MUSICAL PROGRAM

The Pecos valley grade school chorus with a membership of about three hundred and twenty-five from the following schools and communities: Artesia, Berendo, Cottonwood, Dexter, East Grand Plains, Hagerman, Hope, L. F. D., Lake Arthur and Roswell, assisted by the Pecos valley orchestra will give National Music Week Sunday program at Roswell Junior High school auditorium, Sunday afternoon, May 4, at 2:30 p. m.

The chorus will sing "Old Glory," by Vaughn DeLeath. "America the Beautiful," and other familiar patriotic numbers will be featured by the chorus.

The valley orchestra leader and pianist will rehearse each school and community grade school chorus one or two times before the program, so chorus members will know how to proceed to sing with orchestra accompaniment.

Each school or community chorus will be assigned a room to assemble in just before the program and the stage committee will direct the seating on the elevated seats.

An invitation is extended to every grade school singer in the valley to join in the valley chorus numbers. It will be a worth while experience to assist in a large chorus accompanied by an orchestra.

The Pecos valley orchestra will play "Pilot Me," arranged by C. L. Barnhouse, "Love and Loyalty," by George D. Barnard and "Billy Sunday's Overture" by Henry Fillmore. C. A. Bulot, of Artesia will sing "Ave Maria," by Gounod.

This will be a free program sponsored by the Roswell Ministerial Alliance. An invitation is extended to the public to attend.—Current-Argus

INSIDE INFORMATION

In selecting a trouser pattern for a small boy, see that the back seam line is longer than the front, gradually slanting from the top to the crotch. A center front line should drop straight down and then curve out to the crotch as does an armseye line that leads to an underarm seam.

Natural material for bird homes are not so abundant as formerly, and substitutes will be welcomed by the feathered tenants. Many birds will make use of rags, ravelings, and twine if these are cut into small pieces. Excelsior, straw, hay cotton, hair, (such as is used in plastering), and feathers are welcome. An ordinary wire broiler is excellent for holding the nest-making materials. Robins, phoebes and swallows are eager to get thoroughly wet clay for nest building.

Try apple and rhubarb pie for a change—using 1 large apple, 3 cups sliced rhubarb, 2 tablespoons butter, ¼ to ½ cup sugar, and ¼ teaspoon salt as the filling for a pre-baked pastry shell. Prepare and cut the apples in thin slices and cover the crust with them, sprinkle with part of the sugar and salt; spread the rhubarb over the apple, add the remaining sugar, and dot with butter. Lay strips of pastry criss-cross over the fruit and bake in a moderate oven until the fruit is tender.

The length of time required to roast a leg of lamb depends chiefly on the size of the leg and the temperature of the oven. Most people prefer lamb from medium to well done, and if a roast meat thermometer is inserted in the meat uniform results will be obtained at every cooking. The thermometer should register 175° F. for medium and 182° F. for well done meat. Place the leg of lamb skin side down and cut-flesh side up on a rack in an oven roasting pan. Do not add water and do not cover. Sear for 30 minutes in a hot oven (480° F.) to develop flavor, and then reduce the oven temperature rapidly to 300° F. and continue the cooking at this temperature to the required degree of doneness.

Curly Hair
It is not known why some people have curly hair and others not. Curliness depends on the shape of the hair. Circular hair is straight; flat hair is curly. The difference can be seen under a microscope.

PAIR ARE FOUND GUILTY OF THE CONSPIRACY TO COMMIT LARCENY

ALBUQUERQUE—"Guilty of conspiracy to commit larceny" was the verdict returned by the jury Saturday night in the case of Mrs. Carrie Adair Armijo and Luis Martinez, former employees of the auto license bureau of the state comptroller's office, under charges in connection with the robbery of the courthouse December 19, last.

The jury was specific in announcing that it did not find the pair guilty of larceny, which was one of the charges on which they were tried.

The case went to the jury about 3:35 o'clock Saturday afternoon. Under the instructions of the court, the jury would find both defendants guilty or not guilty.

George R. Craig, defense attorney in his closing argument, attacked the credibility of the state's main witness, Roy Gentry, on whose written confession and testimony, the state built its foundation for guilt. He ridiculed the two confessions of Gentry, saying the youth had changed the time in each, at which he had admitted Mrs. Armijo and Martinez to the treasurer's office on the night of the robbery.

Mr. Craig referred to the corroborative testimony to the effect that Martinez was at a church rehearsal the night of the robbery. He also pointed out a discrepancy he said existed in the times at which Gentry, then a courthouse employee said he was offered a \$100 bribe, and the testimony of the defense that Martinez, at that same hour, was eating his dinner in a restaurant.

Attorney General M. A. Otero, Jr., making the final argument for the state, attacked the demeanor of H. Charles Roehl, former assistant state comptroller, as shown on the witness stand, charging that Roehl had not answered questions directly, but had replied in evasive terms.

SECTIONS WHERE SAVINGS DECREASED

A regional analysis of the drop in the nation's savings deposits in banks, as recently reported by the American Bankers Association's Savings Bank Division in its annual compilation for 1929 showing the first recession in national savings in the twenty years during which it has published this data, reveals that all sections except the New England and the Pacific States groups recorded losses.

The published figures showed that on June 29, 1929, the total savings deposits in banks and trust companies of continental United States stood at \$28,217,656,000, which was \$195,305,000 below the similar total for 1928, when there was an increase of \$2,300,000,000.

The regional analysis by state groups discloses, however, that the six New England states as a group gained more than \$88,800,000 in savings and 152,984 in savings depositors, while the seven Pacific states as a group gained over \$79,000,000 in deposits and nearly 278,000 in number of depositors. The gains in these two sections, however, were smaller than the gains recorded there for 1928. The sections which showed losses are the Middle Atlantic States, Southern States, East Central States and the West Central States.

How Selenium Is Employed
Solid bubbles of selenium, the strange element that transmits electricity when light shines on it, though at other times it offers great resistance to an electric current, can be blown with the aid of a glass tube, reports Charles E. S. Phillips, in Nature, a London publication. The selenium is melted, and then when the tube is dipped into it, withdrawn and blown through, a rather sausage-shaped bubble can be blown. A curious effect reported is that when two bubbles, even twenty-four hours old, are brought into contact, they seize violently together and cannot again be separated. The method, he says, is a convenient one of getting flakes of selenium for experimental purposes.

Triumph Assured
There never was a right endeavor but it succeeded. Patience and patience and we shall win at last. . . . Never mind the ridicule, never mind the defeat! Up again, old heart, there is victory yet for all justice.—Emerson.

Small Gold Coins
One dollar coins have not been minted for general circulation since 1899. Since that date some have been issued as memorial coins, the last being the Grant memorial coins, in 1922. The smallest current gold coin is the \$2.50 gold piece.

Began Great Industry
The world's first artificial dye is said to have been obtained in 1856 by Dr. William H. Perkin, an English chemist.

Gigantic Painting
One of the largest pictures ever painted is the "Paradise" of Tintoretto, which hangs in the palace of the doges at Venice. It measures 84 feet by 35 feet.

LARRAZOLO DEAD

ALBUQUERQUE.—Octaviano A. Larrazolo, 71, former Governor of New Mexico, the only native Mexican to be elected to the United States senate, and one of the first advocates of cession of the public domain to the various states, died at his home here Monday night following a lingering illness.

Mr. Larrazolo's health broke during the November, 1928 campaign at which time he was a candidate for a short term in the United States senate. He was elected by a large majority, but his weakened physical condition forced him to return to his Albuquerque home in the middle of the congressional session.

He was widely known as "the silver-tongued orator of the southwest," and spoke masterfully in both English and Spanish.

Born in El Valle De San Bartolo, now known as Allende, in the state of Chihuahua, Mexico, Mr. Larrazolo spent a lifetime in the defense of rights of Spanish-American natives of New Mexico.

At one time when a young man, he rejected an offer of \$50,000 a year with the Santa Fe railroad because at that time he believed that the railroad was not serving the best interests of the natives.

He had come to the United States under the protection of the Right Reverend J. B. Salpointe, bishop of Arizona and subsequently Arch-Bishop of Santa Fe.

HOLDS WILBUR RIGHT TO FIX THE PRICE OF CRUDE OIL

WASHINGTON, D. C. — Holding secretary of the interior has to fix the price at which oil from government owned lease may be sold, the Columbia supreme court Monday reversed an action of the Texas Company against the Texas Company injunction against Secular.

By Wilbur refused to accept contract made by the Cody Company to sell oil from a basin in Wyoming to the company for 53 cents a barrel well and insisted on a 85 cents per barrel. The company sought and was a permanent injunction the secretary by the District Columbia supreme court.

opinion reversing the pre-act action, the court of appeal that the bill of complaint the Texas Company failed a right to equitable relief, the motion of the secretary the bill should have been

ruled that the Texas Com-pany no right to maintain the use it was seeking to enjoin the secretary of the interior from a specific provision of a which it never became party.

It Would Seem, Depends on Viewpoint

The woman passed through the poor sections of New York block, just when hundreds of children were being released, ahead of her three little girls. One of them, a pale child, looked as if sunlight and verdure were not part of her daily life. She was conducting a monologue, her pitched, excited voice she pitched a bedspread which had been a gift to the child's moth-

er, beautiful, like sunshine. All around golden. It's like that, isn't it?"

Children with the woman—just away—stopped before a dingy window displayed a bed-spread, coarse, glaring yellow. "It lovely?" the little girl

woman had visions of a poor apartment into which the sun-ship. To its occupants that bedspread stood for every lux-ury. The woman looked from the face of the child to the perhaps it was not so glaring saw it from the right angle.—*Work Sun.*

Use of Slogan

to Overcome Dejection is advocated as an aid to mental outlook by James D. who considers their effect as a number in an article in Magazine.

od slogan can brighten our horizon, fill us with courage and emotional stimulus. It directs the attention to a bracing For instance, when a man is dumps it is comforting to that "the men who try to do ing and fall are infinitely bet-ter those who try to do nothing," or that "there are more and opportunities in life than

THE QUALITIES OF LEADERSHIP

By JOHN G. LONSDALE
President American Bankers
Association

Leadership and success, in a general way, are synonymous. They are both founded upon simple codes of thought and action, upon the realization that he who wins the laurels must be a doer, not a waiter, that application of energy, not time or luck, is what counts most. A rabbit's foot is a poor substitute for horse sense.

John G. Lonsdale

Both success and leadership, if they be of the highest quality, are the result of service to humanity. Service has been aptly described as "the supreme commitment of life." Analyze the lives and times of all great leaders of history and you will find that those whose names are enshrined in the hearts of their countrymen are those who sought to render a needed service to the populace.

Leadership, like success, need not, however, be international or national to achieve great results. There is room for each of us to be a leader in his community, in his work, in his church, and in various organizations.

One of the indispensable qualities of leadership is the ability to persist steadfastly in the face of discouragements. If George Washington had not possessed the quality of persistence, he and his soldiers would never have survived the hunger and privations which were theirs at Valley Forge.

We have too many young men and young women these days saying a job cannot be done. Too many spend their time explaining why a thing can't be done, instead of saying, with firm resolve, that it can be done, and then going out and doing it. Anything that ought to be done is capable of being done. And anything worth doing at all is worth doing well. The fellow who handles a little job in a big way is always on the road to greater fields.

BANKERS STUDY CHAIN BANKING

The Economic Policy Commission of the American Bankers Association has been specifically instructed by the general convention of the association to study and report on chain and group banking developments, and also on the proposal of the Comptroller of the Currency for an extension of branch banking in the national banking system, to permit those banks to conduct branches in the trade areas surrounding their locations.

R. S. Hecht, President Hibernia Bank and Trust Company, New Orleans, Louisiana, is chairman of the commission. The members are: George E. Roberts, Vice President National City Bank, New York, N. Y., vice chairman; Nathan Adams, President American Exchange National Bank, Dallas, Texas; Leonard P. Ayres, Vice President Cleveland Trust Co., Cleveland, Ohio; Frank W. Blair, Chairman of Board Union Trust Company, Detroit, Michigan; Walter W. Head, President Foreman-State National Bank, Chicago; W. D. Longyear, Vice President Security-First National Bank, Los Angeles, California; Walter S. McLucas, Chairman of Board Commerce Trust Company, Kansas City, Missouri; Max B. Nahn, Vice President Citizens National Bank, Bowling Green, Kentucky; Melvin A. Traylor, President First National Bank, Chicago; Paul M. Warburg, Chairman of Board International Acceptance Bank, New York, N. Y.; O. Howard Wolfe, Cashier Philadelphia National Bank, Philadelphia, Pennsylvania; Gurden Edwards, American Bankers Association, New York City, secretary.

A survey showing the extent to which chain and group banking has developed in the United States has been made and issued in booklet form by the American Bankers Association of New York City.

MORE FEDERAL AID IS APPORTIONED TO N. M. GETS SUM \$793,531

WASHINGTON, D. C. — Secretary Hyde Monday apportioned among the 48 states and Hawaii \$48,750,000 of the additional \$50,000,000 authorized by congress as federal aid for highway construction in the fiscal year beginning July 1, 1930.

This supplemental appropriation was authorized by a bill signed by President Hoover on April 4, which also provided for the appropriation of \$125,000,000 for each of the fiscal years, 1931, 1932 and 1933, an addition of \$50,000,000 yearly over the present appropriation.

Congress provided \$75,000,000 by a previous act and Secretary Hyde apportioned this among the states and Hawaii on December 2, 1929.

The apportionment to the states of the additional \$50,000,000 for the fiscal year of 1931 include:

Arizona \$708,127 and Colorado \$927,016.

New Mexico \$793,531; Texas \$3,030,554 and Wyoming \$628,303.

NEW TUNNEL TO CAVERNS

Wednesday the wall tunnel was blasted which starts a new trail down the entrance of Carlsbad Caverns, and which will do away with two thirds of the steps in the beginning and ending of this underground journey. This particular trail has been in view for some months, and is one of many things the government is doing to make the trip easier and more enjoyable.

While the average person can hardly visualize means of providing some of the trails, before they see the plans carried out, careful study and engineering calculations are the basis of every development, and when the work is finished, the visitor is delighted to find easy grades, safe inviting trails, where once stood solid wall or sheer bluffs.—*Current-Argus*

GOVERNMENT POTASH TESTS SHOW PROMISE IN EDDY AND LEA CO.'S.

WASHINGTON, D. C. — New discoveries of potash in New Mexico were announced Saturday by the U. S. Geological Survey.

The government's thirteenth and fourteenth test holes, in Eddy and Lea counties, have shown promising deposits.

The reports says both holes passed through many beds of polyhalite as in previous tests including several beds thick enough and rich enough in potash to have potential commercial value.

The test hole in Eddy county in addition to the polyhalite beds penetrated beds containing langbeinite and sylvite and occupying an interval of about 92 feet below a depth of 1631 feet five inches.

The Geological Survey has analyzed cuttings from 13 different wells since its last press announcement, the report says, all of which had potash content.

FARMER SLEEPS IN TWO COUNTIES; HIS HEAD DECIDES RESIDENCE

WATERLOO, Iowa—It's the head that counts in figuring the census; the feet are immaterial. A census enumerator visiting a farm which straddles the Black Hawk and Benton county line, found that the farmer's bed was so placed that he slept in two counties.

His head rested on a pillow in Blackhawk, but his feet projected into Benton county. The enumerator, puzzled, thumbed through his rule book until he read that heads shall be counted in their usual place of abode. The farmer was listed officially as a Blackhawk county resident.

"Soldiers of Fortune"
During the frequent wars which occurred in Italy before the military profession became so generally prevalent in Europe, it was usual for men of enterprise and reputation to offer their services to the different states that were engaged. They afterward extended their services and under the title, "soldiers of fortune," fought for employment in any country or state that would pay them.

Patronize those who advertise in The Messenger.

ALIENS DEPORTED

Patrol Inspector Michael T. Box, who has charge of the Alamogordo district, comparing the first quarter 1929, with the first quarter of this year, says in '29, eighty-five aliens were apprehended and deported by himself and assistants. Of this total, 79 were Mexicans, 1 Dane, 1 Austrian, 1 Swede, 1 Welshman and 2 Canadians.

For the first quarter of 1930, there were deported 63 Mexicans and 1 Canadian. Of this number 32 Mexicans were deported in March, an increase of six over the month of February.

These government agents are doing a useful work in keeping out unlawful entrants to this portion of the country. There are about five million people in our country out of

work and the influx of aliens hinder the chances of our own citizens to secure employment.—Alamogordo Advertiser.

DATES FOR STATE TEACHERS EXAMS

SANTA FE—The state board of education Tuesday set the dates for state teachers examinations.

The first examination will be July 10, 11 and 12 at Santa Fe and the second will be August 7, 8 and 9.

Special examinations will be held May 10 on New Mexico history and civics for the accommodation of teachers who have come here from other states and hold only temporary certificates.

The board will discuss the method of determining this year's Edison scholar from New Mexico.

How to Raise Poultry

By Dr. L. D. LeGear, V.S.
 St. Louis, Mo.
 Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and popular lecturer.

NATURAL BROODING METHODS THAT INSURE SUCCESS

A well known, high ranking church official of other days is credited with having said, "Give me the child until he is six years old, and I don't care who has him after that." In other words, this famous prelate believed that any influence exerted on a child during the tender formative years was much more important than anything which might come later. Much the same principal may be applied to chicken raising without straining the logic too greatly.

Natural brooding with hens is the easiest and simplest way when comparatively few chicks are to be raised, as on many farms and with practically all of the so-called "back yard flocks." This method relieves watchfulness necessary with artificially raised chicks. The hen takes much of the burden off your shoulders by protecting, teaching, and exercising the chicks.

If you select this plan, the time to start is when the first chick breaks out of the shell. Visit the nests frequently and remove broken shells so that they will not slip over the ends of eggs and smother unhatched chicks. Watch the hens carefully. Some hens have a tendency to desert the nest as soon as one chick has hatched. Either confine such a hen to the nest until the hatch is completed, or transfer her to a broody coop, putting the eggs and chicks under some other hen.

Watch also for nervous, restless hens that shift about a great deal. They often crush the newly hatched chicks. Remove chicks from such hens as fast as they hatch.

Once the hatch is completed, the next step is to transfer hen and chicks to appropriate brooding quarters. These, of course, will have to be prepared in advance. Such quarters usually consist of a good weather tight coop that is free from draughts. One side of the coop is partly open as a rule, to provide sufficient ventilation and to let the chicks run in and out at will, when the weather will permit. On this side there should be a runway or small yard so the chicks can get out on the ground for the needed exercise.

Coops should be thoroughly cleaned, disinfected and aired for several days before chicks are placed in them. Under no circumstances feed the hen cracked grains. She should be fed whole corn as the chicks may eat small particles with serious or even fatal results. Carry the chicks in a box or basket well lined and covered, to avoid chilling them, and carry the hen under your arm. Place the hen in the coop and gently slip the chicks under her.

Even in the best weather it is best to confine the chicks to their quarters for the first two or three days. Otherwise they may roam too far away. They also need protection against hawks, rats, cats and other enemies.

Keep the hen confined to the brood coop preferably until the chicks are weaned and under no condition let her out under two weeks. Even then, do not permit her to run at large. Keep her in the runway, allowing the chicks to range outside if you wish. She will keep them near at hand by constantly clucking and calling to them so they get plenty of exercise. If the hen is allowed free range she is likely to tire the chicks out. She may also lead them through wet, cold grass, chilling them too much.

When you finally decide to give the brood their full freedom, release them rather late in the day the first time. Each succeeding day advance the time a little until they are out a full day.

Watch hens carefully from this time on. They do not know exactly how many chicks they have and may lose one or two. Also look after them in the same way when sudden showers come up. A hen will often

leg it back to shelter leaving one or more hapless chicks at the mercy of the elements.

The hen may continue to mother the chicks anywhere from six to twelve weeks and even longer.

Chicks brooded by hens are much more likely to become infested with vermin. This can be avoided by dusting the hen at frequent intervals with a good lice powder. This should be done the first time before the hen is set and then three or four days before the hatch is done. Do not use the strong lice powder on the hen while the chicks are quite young, as it may kill the chicks. Later, the regular lice powder may be used.

HELPING YOUNG FOLK TO BECOME BANKERS

Through the American Institute of Banking, which is the American Bankers Association's educational section, the banking profession is educating 25,000 bank men and women in the technical and scientific departments of their work. These students are enabled by this institute, which is entirely non-commercial in its operations, to obtain a grasp of the finer points of banking without interrupting their employment or interfering with their savings in their bank jobs.

The courses given, including banking economics and law and bank administration in all the departments, have been worked out under the direction of senior college educators and the lectures are always given by practical men, such as lawyers in the legal courses, experts in banking operations and college professors in the economics courses. There are chapters with meeting rooms in over 200 cities and also a number of smaller study groups are fostered with correspondence aid.

It has been said that the A. I. B., as it is familiarly known throughout the banking field, is the greatest adult educational organization in the world and is supplying the banking business with the largest supply of trained workers each year that any comparable line of business is receiving. The organization holds an annual convention attended by hundreds of young bank workers as well as senior bank officers actively interested in furthering the institute's educational work, at which numerous technical subjects of practical banking application are presented and discussed. This year's convention will be held at Denver, Colorado, June 16 to 20.

COTTONWOOD ITEMS
 (Miss Alma Bradley, Reporter)

Mr. and Mrs. J. J. Gist and children accompanied by Walter Knowles spent last week end at Ruidoso.

Mr. and Mrs. Will Waldrip and children were guests at the John Vogel home at Artesia Sunday afternoon.

Mr. and Mrs. F. J. Waldrip of Hagerman, were visiting at the home of their son, Will Waldrip and family Sunday.

Myron Bruning has finished an artesian well on the E. P. Malone farm, which is flowing 1,500 gallons per minute.

Mrs. Joe Funk who has been ill for some time with asthma was taken to Kansas City, Missouri last week for treatment.

Glenn O'Bannon returned from a fishing trip to Black river Saturday. He reported a nice trip and quite a number of fish caught.

Mrs. H. C. Moorehead who has been visiting at the home of her parents, Mr. and Mrs. Frank Wilson and family, returned to her home in Albuquerque last week.

Four men of Denver Colorado, known as "The Three Bears and Golden Locks," gave a very interesting program at the Upper Cottonwood school house Wednesday, April 2. The program was well attended.

The Cottonwood boys played two base ball games at their school last week, winning both games. The first game with the oil field Thursday resulted in a score of 32-5, the second game with Lakewood Friday by a score of 28-8.

The Cottonwood Woman's club met at the home of Mrs. R. H. Rambo Wednesday, April 2, for their regular business and social meeting. Light refreshments were served by the hostess. All present enjoyed the afternoon very much. The next meeting will be at the home of Mrs. J. J. Gist.

Miss Alice Norris entertained the sixth, seventh and eighth grades with a picnic at the Cottonwood dam on Monday evening. Many games were played and all enjoyed the evening

A SLENDER TREASURY SURPLUS IS PROSPECT FOR CLOSE OF YEAR

WASHINGTON, D. C.—President Hoover is looking forward to a slender surplus at the close of this and the next fiscal year if the most rigid economy is exercised by both the legislative and executive branches of the government.

His estimate is based upon income tax collections for March which, he says, "indicate that the unfavorable developments of last fall did not affect individual incomes to the extent that many had feared." The year's receipts from this source are now expected to be somewhat less than last year, but substantially greater than in 1928.

At the current rate of expenditure the president said in a statement issued for publication Saturday, "it appears that we should be able to close the fiscal year ending the thirtieth of next June with a very moderate surplus."

The same holds true for next year, he continued, but there the situation is clouded by the fact that a surplus originally estimated at \$47,000,000 has already been reduced by \$30,000,000, through the congressional appropriations.

"The major difficulty in prospect," Mr. Hoover added, "arises from the fact that the bills already favorably reported by congressional committees, if enacted into law, would entail an additional expenditure of nearly \$300,000,000 next fiscal year, and as far as we can see to-day, inevitably result in a deficit. The situation clearly calls for most rigid economy and deferment of even otherwise justifiable expenditures by both the legislative and executive departments."

very much. A picnic supper of buns, weiners, pickles, ice cream and cake were served. Among the teachers and parents who attended were Miss Mae Wilson, Mr. and Mrs. J. J. Gist and Mrs. E. P. Malone.

APRIL 7-13 TO BE NATIONAL SEWING WEEK

The week of April 7-13 has been set aside as national sewing week. The purpose is to encourage home sewing. According to Carolyn F. Wetzel, of the New Mexico Agricultural College, there is a great need for a revival of this household art. According to statistics eight out of every ten women need sewing skill, yet only one girl out of ten is able to ply the needle with any degree of ability.

In this day of the inexpensive and easily obtained ready-to-wear garments, sewing in the home has been pushed into the background and is fast becoming a lost art. Every girl should learn to sew. The girls and

women who are able to sew can make newer clothes, made of better material. Their clothes will cost less or if they expend the same amount of money as their sisters who chase the ready made, they will have more clothes.

In this day of style books, magazines with advance fabrics of beautiful material, signs, and well fitting patterns, there is no reason whatever why the man who makes her own clothes should have a "hand me down" sewing. Sewing is not only a qualification in the home, but a creative art and the satisfaction of making something beautiful, appropriate and well fitting to the wearer is beyond measure.

Complete Furnishings for Your Home

We are showing many new patterns in living room, bed room and dining room suites as well as individual pieces of furniture.

When in Artesia, we invite you to call at our store. A visit entails no obligation. We invite comparison of prices.

 "Your Home Should Come First"

More milk EGGS PORK with less feed!

If your house, barn, chicken house or hog house is in need of re-roofing, you can have new roofs and they will pay you a profit. By a new re-roofing plan, now in use all over the country, you can get a big gain in warmth and comfort with less fuel for heating—get more milk and more eggs—farrow your pigs earlier and get them on the market when prices are at the peak. There is no litter. No old nails in your hay and feed to endanger your stock.

The "RED CEDAR METHOD"

New Red Cedar Shingles are laid right over the old roof. The double roof prevents most of the heat losses through the roof. Gives you a roof as solid and sound as if laid on the sheathing. Old roof does not show at the edges or elsewhere.

Red Cedar Shingles are rot-proof, whether old or new, and lend themselves as no other roofing material in this class can to the method of re-roofing over the old roof. The air space between the two roofs, while hardly noticeable, is a safeguard against deterioration of either the old or new roof.

You can do the work in your spare time, as buildings are always fully protected.

We'd like to tell you what those who have tried it say about this method.

THE KINGDOM OF GOD AND THE KINGDOM OF MEN

TEXT—Matthew 13:1-14; 19:

TEXT—Suffer little children to come unto me, for such is the kingdom of heaven. (v. 13.)
TOPIC—Jesus, the Christ, and His Kingdom.
MEDIATE AND SENIOR TOPIC—The Kingdom of God.
PEOPLE AND ADULT TOPIC—The Kingdom of God and the Kingdom of Men.

Greatest in the Kingdom of God

(v. 1-4).
The disciples' question (v. 1).
The answer given to Peter in (v. 2).
The announcement of the church (v. 3).
The purpose to build the church (v. 4).
The payment of tribute with the fish's mouth, provoked in the part of the other disciples (v. 5).
The transfiguration scene (v. 6).
The divine person and the promise (v. 7).
The kingdom of God (v. 8).
The tragedy of the cross (v. 9).
The kingdom of men (v. 10).

CARE FOR BABY CHICKS

"To keep baby chicks alive and make them grow one must watch the little things," says the Baby Chick number of the Purina Poultryman. "First of all, plan for early chicks. Chicks hatched in March and April will be laying in August, September and October when egg prices are high."
"Then don't forget to have clean premises. Before the chicks arrive drench the walls, ceiling and floors of the brooder houses with a strong coal tar disinfectant. That along with a general program of cleanliness will keep down disease."
"After the chicks come, don't overcrowd them in the brooder house. Allow one square foot of floor space for every three chicks."
"Be sure and run the brooder stove several days in advance of the chicks' arrival to make sure it is operating in good shape. A temperature of from 95 to 97 degrees should be maintained during the first week."
"When chicks are forty-eight hours old give a drink of water with the chill removed. At that time they may be started on chick starting mash. Begin feeding chick scratch grain the afternoon of the fifth day. You'll be money ahead by following these simple suggestions," concludes the Purina Poultryman.

THE HIGHWAY RIGHT OF WAYS TO BE CLEANED UP IS GENERAL ORDER

SANTA FE—Wrecks, tin cans, fire remains, lost and broken wagon wheels, picnickers leavings, burned auto frames and all the rest of the metal, wooden and paper decorations of the highway right of ways in the state are to be removed at once, commands a general order issued to all district engineers of the highway department recently.

In the past all wrecks on the highways have been dragged to one side so as not to constitute a danger to traffic and then left for whatever disposition the owners have wanted to make. In hundreds of cases this disposition has been to leave the battered up family carry all wherever it met its fatal blow.

The new order will clear all such wrecks and debris of all kinds not only from the roadway proper but entirely out of sight. Where it is possible such junk will be used in arroyos to prevent bank erosion and where no arroyos are handy and needful of such attention the wrecks will be dragged to some effectually screened spot out of sight of the touring public.

The order for cleaning New Mexico highways of trash put the Sunshine State in the highway beautification class. Other states are not only making every effort to keep their highways clean but are also inaugurating tree planting divisions. New Mexico as yet cannot begin any such move but the clean right of way rule will make a start in that direction. Beautified right of ways are rapidly becoming major selling points to tourists.

NOTICE FOR PUBLICATION

STATE LAND SALE,
OFFICE OF COMMISSIONER OF
PUBLIC LANDS
SANTA FE, NEW MEXICO

Notice is hereby given that pursuant to the provisions of the act of Congress approved June 20th, 1910, the laws of the State of New Mexico, and the rules and regulations of the State Land Office, the Commissioner of Public Lands will offer at public sale to the highest and best bidder at 10:00 o'clock A. M. on Tuesday June 24th, 1930, at the front door of the Courthouse in the Town of Roswell, County seat of Chaves County, New Mexico the following described tract of land, to-wit:
Sale No. 2411:
N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 22, and the SE $\frac{1}{4}$ Section 26, Township 12 South, Range 31 East, N. M. P. M., containing 320 acres. Improvements consist of 1 $\frac{1}{4}$ miles 6-wire fence and 1 mile of 4-wire fence valued at \$650.00.
No bid will be accepted on the above described land for less than \$5.00 per acre and the successful bidder will be required to pay at the time of sale, 10% of the amount of his bid, 4% as annual interest on balance, the value of the improvements and the cost of sale. The balance of the price offered will be payable in thirty (30) equal annual installments with interest on all deferred payments at the rate of 4% per annum, to be paid annually in advance, in accordance with the terms of the contract to be entered into by the successful bidder, form of which will be furnished upon application.
All minerals on the said land are reserved to the State and the Commissioner reserves the right to reject any and all bids.
Dated at Santa Fe, New Mexico this 25th day of March, 1930.
AUSTIN D. CRILE,
Commissioner of Public Lands.
16-11t

WILL YOU TELL

Our advertisers, please, that you noticed their advertisement in The Messenger.

It is well to stanchion heifers with the milking herd for two or three months before calving. If they are brushed gently and handled every day they will become accustomed to the attendant and will be easier to milk.

Calves to be fattened for beef should not be allowed to lose the fat they have gotten from milk feeding. Quality and finish are very desirable in fat yearlings. Half-finished yearlings do not usually bring enough on the market to make their production profitable.

It is poor economy to crowd chicks in the brooder. Better chicks can be produced by placing 350 chicks under a 500-chick brooder than by filling it to capacity. Ease and comfort are essential to the development of the chicks into strong, and healthy pullets which should begin their laying period at the right time and continue through the fall and winter months when egg prices are high.

Before using a new masonry cistern the inside walls should be allowed to air and cure for a month or more. Sprinkle them occasionally with water to convert the free lime in the cement to carbonate of lime which is only slightly soluble in pure water. A new cistern should be pumped out two or three times before using the water for drinking.

Don't plant the entire supply of string beans, bush lima beans, sweet corn, lettuce, or radish at one time in the farm garden. Make successive plantings from 10 day to 3 weeks apart, so that fresh vegetables may be had throughout the season. For successive harvests of peas, plant early, medium late, and late varieties and plant all varieties early. Late plantings of peas give low yields.

The longer a broody hen is allowed to sit on the nest, the longer it takes to get her back into laying condition. As soon as a hen is seen to remain on the nest at night, she should be removed and put in a broody coop; that is, a coop with a slat bottom so that the air circulates underneath and tends to keep her from sitting. While confined in the coop she should be fed and watered regularly.

Many adult animals and fowls harbor various parasites and may not show serious effects. In early spring the young stock is making its start, and in many cases the young animals are injured severely. It is well to follow the systems of sanitation recommended by the federal and the state agricultural authorities. The general precaution is to keep all young livestock—lambs, calves, colts, etc.—in clean, safe, well-drained pastures, away from older animals other than their mothers, and away from areas that have been occupied by older animals the previous year.

NOTICE

To Gas Users
COLD WEATHER

Pecos Valley Gas Co.

PRES. HOOVER SIGNS \$125,000,000 ANNUAL HIGHWAY PROGRAM

WASHINGTON, D. C.—President Hoover Friday signed a bill authorizing \$125,000,000 annually for a road building program of three years. In approving the bill, President Hoover said that while it was a large increase and the treasury has many other expenditures to take care of he felt it was satisfactory and was glad to sign it.

The measure appropriates funds exceeding by \$50,000,000 annually appropriations of any other year.

The authorization was increased by congress from \$75,000,000 to \$125,000,000 for the three fiscal years 1931, 1932 and 1933. With the resulting increase in state expenditures for roads, it is estimated, the measure will mean an increase in the nation's road building program of approximately \$120,000,000 for year.

The entire house and senate post-office and post roads committee attended the signing of the bill. President Hoover used two pens in affixing his signature and handed one to Senator Phipps, republican, Colorado, and the other one to representative Dowell, republican, Iowa, respective chairman of the senate and house committee and sponsors of the measure. A delegation of the American Association of State Highway officials, was also present.

NOTICE FOR PUBLICATION

Department Of The Interior, United States Land Office, Las Cruces, N. M., March 15, 1930.

Notice is hereby given that Buck R. Brinkley, of Box 10, Dexter, N. M., who, on January 25, 1927, made homestead entry, No. 031879, for E $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 8, N $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ Sec. 9, Township 13-S., Range 27-E., N. M. P. Meridian, has filed notice of intention to make three year proof, to establish claim to the land above described, before Dan C. Savage, U. S. Commissioner, at Roswell, N. Mex., on the 26th day of April, 1930.

Claimant names as witnesses: Willard Sparkman, Claude Swarango, John A. Barnett, and John N. Munk, all of Dexter, N. Mex.

THE NEW SUPER-AUTOMATIC KELVINATOR

brings to your home
enduring beauty, plus
100% Automatic
Refrigeration

Iso-Thermic Tubes for Automatic Fast Freezing

Note the spiral coil of Iso-Thermic Tubes, indicated by arrows. This is, in effect, a Cold Plate, in which intense cold is concentrated. Ice cubes and desserts are frozen in half the usual time. Yet food compartments are not affected.

Each new Kelvinator is lined with gleaming white porcelain. Spacious food compartments are located at a level that eliminates stooping when having access to the refrigerator. A new flexible rubber ice tray permitting instant removal of ice cubes will appeal to all who have ever struggled with the old-fashioned metal tray in extracting ice.

Drop into our showrooms today. We will gladly explain Kelvinator's many new and exclusive features to you. Learn also of Kelvinator's attractive ReDisCo plan by which so many families have obtained super-refrigeration on a monthly budget plan.

Entirely apart from the balanced operating ease of the new Kelvinators, the new beauty and utility of Kelvinator cabinets are coming in for a great share of public enthusiasm.

HAGERMAN DEBATING TEAM DEFEATED BY ROSWELL FRIDAY NITE

Hagerman high school debating team composed of Basil Barnett and Roy Lee Hearn surrendered Friday night to the Roswell debaters, Woodrow Little and Allen Moore in a contest held in the school auditorium to determine the Pecos valley team to compete in the state contest to be held in Albuquerque May 10.

At the preliminary contest in the afternoon, the Roswell debaters defeated Dexter whose team was composed of Misses Vessie Lee and Eunice Young.

The question for debate was: "Resolved, That Installment Buying as Practiced in the United States is Economically and Socially Desirable."

In the afternoon Roswell debated the negative side of this question and at night they upheld the affirmative.

The Roswell team is coached by P. H. Deaton and the Hagerman team by Prof. White.

Following the debate, Miss Dorothy Sweet gave a declamation, "Daddy Doc," by Catherine Kimball, which was highly appreciated by the audience. Miss Sweet is to represent the Pecos valley in the state declamation contest also held on May 10 at Albuquerque.

PECOS VALLEY PRESBYTERY

Rev. J. A. Hedges returned last Thursday afternoon from Clovis where he attended the regular meeting of the Pecos Valley Presbytery. There was the largest attendance for many years. The meeting was full of pep and go and quite a lot of business was attended to. Rev. John G. Anderson, of Dexter, was moderator and at the invitation of the retiring moderator, E. C. Gessert of Roswell, preached the opening sermon. Rev. A. G. Tozer of Carlsbad was elected temporary clerk and Mr. Hedges serving as stated clerk. The work of the year in the churches showed considerable advance over the year before. The report to the general assembly will be very encouraging. The Women's Presbyterian Missionary Society met at the same time and there were many women from all parts of the presbytery. Their meeting also was full of life and snap. Rev. J. A. Hedges of this place was elected as ministerial delegate to the general assembly at Cincinnati, Ohio and Richard M. Thorne of Carlsbad, lay delegate.

Mrs. Bayard Curry and Mrs. T. O. Devenport were delegates from Hagerman to the Women's Presbyterian. They returned last Saturday spending several days with friends there.

Hand's Changed

He was a stout man and his feet were big in proportion. He wore stout boots too, with broad toes. When he went into the boot shop to buy another pair he found he had some difficulty in getting what he wanted. A dozen pairs were shown him.

"No, no! Square toes—must have square shoes," he insisted.

"But, sir, everybody is wearing shoes with pointed toes. They are fashionable this season."

"I'm sorry," said the stout man, as he prepared to leave the shop. "I'm very sorry to have troubled you. I'm sure, but you see, I'm still wearing my last season's feet!"—London Tit-Bits.

Had the Wrong Girl

Telephone tact is a necessary acquirement in these modern days, but its exercise occasionally leads to unexpected results. A recent example follows: Late at night the telephone in a home called the householder to the receiver. An obviously feminine voice was just as obviously that of a stranger.

After ascertaining that the caller had been connected with a wrong number, the householder remarked: "This is exasperating, isn't it?" To his bewilderment the reply came back: "Oh, no; this is Lillian!"—New York Sun.

Japan's Climate

Since Japan extends through 30 degrees of latitude, it necessarily has a great range of climate. In the south the climate is extremely cold. The southern islands have high temperatures in the summer and no snow or ice in the winter. In the Kettle Islands the snow and ice never entirely disappear. Kinshu and Shikoku have a moderate climate.

Mr. and Mrs. Grasshopper

That elusive creature, the grasshopper, often heard but not so easily seen, has his ears on his knees! And, what is more, Mrs. Grasshopper has to do all the listening, for she is dumb. Which, judging by the continual chirping to be heard in any field, goes to prove that, given a chance, a man will talk as much as a woman!—London Tit-Bits.

Windmill Study

To keep alive the art of building windmills, a town in the Netherlands has a natural training course for boys and girls which features windmills.

CHAPEL NOTES

Rev. Luce, of Roswell, introduced the speaker, Dr. Royal J. Dye. Mr. Dye has been in Africa for thirty-one years, working among the natives, both as a missionary and as a medical doctor, healing their ills and teaching them of Jesus.

Thirty-one years ago Dr. and Mrs. Dye left England and went by steamer along the western coast of Europe to Africa. The first stop was at the Canary Islands, inhabited by Spaniards. At the different stopping places various types of Africans were seen, among them a tribe of Spaniards were preparing for an expected attack by the Yankees. Dr. Dye did not mention the fact that he was a Yankee, but as his steamer left the place he waved an American flag; the natives stood up in boats and shook their fists at him. Soon the steamer reached the great Congo river, whose mouth is fifteen miles wide. Proceeding down the river, the steamer reached a place where the river was twenty miles wide. There are some falls in this river over which no craft can go safely. There is a fierce current which churns to pieces anything that comes over the falls. This fact is verified by the following story:

At one time a steamer was nearing the falls; the captain, being drunk and out of his head, commanded the man at the rudder to turn toward the falls, away from shore. Now the latter knew that that would be certain destruction, so he tried to deceive the captain, and keep on the right course, but the captain saw this and knocking the other man over, he proceeded to turn the steamer toward the falls. Consequently, the vessel and all went over the falls, and were never seen again. The captain had to pay for his drunkenness and the other passengers had to pay with him.

Dr. Dye's party proceeded on its way until it reached Liberia. When they had reached their destination, a savage, uncivilized place where missionaries had never gone before, they walked down the gangplank, to meet a crowd of naked savages, armed with spears and knives. Dr. Dye knew that it would be useless to show that he was armed, for then the savages would kill him, so he merely smiled—a friendly confident smile. Then he and his wife began to get their boxes together for carrying to the top of the neighboring hill until they could get settled, for they intended to live here. Just as Mr. Dye leaned over to lift one of the largest boxes one of the natives approached and said a word in his own language. Dr. Dye, of course, did not understand, but he wished to be friendly, so he repeated the word that the native had said. Immediately the savages swarmed about him, and each seized a box or bundle, and deposited it on the hill.

Dr. Dye began to teach the savages about Jesus. He also taught them to read and write. About a year after the Dyes settled there, the giants came to Dr. Dye, saying that they had heard about Jesus, and would like to learn more. He taught them and others as well.

Dr. Dye concluded his address by saying that Africa needs young people to teach and preach to the natives, and perhaps there is someone in Hagerman who would go there to help save this people from ignorance and darkness.

H. S. TRACK MEET

The Junior class took first place in the inter-class track meet held at the school grounds Monday afternoon, with Ross Langenegger as high point man. The total points won by the Juniors numbered 48 1/2.

The Freshman class was runner up with a total of 44 1/2 points. High point men for the afternoon were: Ross Langenegger, junior, three firsts totaling 20 and 1/2 point on broad jump, making 20 1/2. The first places won by Langenegger were in the following events: 50 yard dash, 100 yard, 1/2 mile run, and 220 yard dash. Dub Watford freshman, 18 1/2 Dennis Harris, junior, 14 1/2, Tom Utterback, senior, 14, Royce Lankford, junior, 13 1/2 and Harold Holden, freshman 13 points, the others who scored high.

The high men will represent Hagerman in a triangle meet to be held some time this month at Dexter between Dexter, Hagerman and Lake Arthur.

Diet and Taste

Nature is overestimatingly kind, says a philosopher, but if you want to get vitamins out of her foods, you have got to eat something you don't like.

Popular Far

Broadtail is the skin from the winter-killed lamb of Bokhara. It is much smaller than Persian lamb skin and has a very silky, molre effect.

Speaking of Reckless Driving

Pedestrians will have reached the era of greater danger about three weeks after the week have inherited the earth.—Toledo Blade.

An Exception

Scientists say different species never unite in nature. What about the political Lee and the humbug?—San Francisco Chronicle.

COTTON PLANTING

Cotton farmers of this section are in the midst of the planting operations, which are expected to be in full swing by the 15th. Practically all of the growers have prepared their cotton land and a few started planting several days ago.

A number have also distributed fertilizer over the alfalfa and cotton lands and have finished pruning orchards.
