

There are probably a fortunate few who either plan to receive a refund or didn't have to pay as much income tax as they expected to, but for the most part, tax time is usually a painful time for most people.

The past year was a good one from a farming standpoint, so these folks found their "ante" was raised accordingly. The more you make, the more you have to pay, it says somewhere in the taxpayer's guide.

THE YEAR 1974 will go down as the one in which a United States president was assessed for back taxes--some half a million dollars of them.

If Mr. Nixon owed the back taxes [which apparently he did, since he didn't hesitate to pay them], then we're all for him paying them. Personally, we're a bit tired of being a member of the middle class, which pays some 80 per cent of the taxes in this country. The wealthy have ways of getting out of paying taxes, and the poor people don't pay any taxes, since they don't have enough income. That just leaves the middle class to support the entire country. . WE SAW AN article that was supposed to make us feel better about our taxes, though. It seems that a recent report shows that by comparison, the total U.S. tax burden, including federal, state and local taxes, are smaller in relation to gross national product (GNP) than 10 or 11 major nations in Europe. The report showed that Americans pay about 28 cents in taxes for each dollar of gross national product. Canadians pay 32.2 cents per dollar of GNP. The average European pays about 35 cents of each GNP dollar.

AMBULANCE SERVICE, and how many cities are working on this problem, was the subject of an article we noticed the other day in Reader's Digest.

The article said that many cities, even large ones, spend more money annually to pick up stray dogs and cats than they do to carry injured human beings to hospitals.

Hopefully, this is not the case locally, where the city, as well as the county, pays a monthly subsidy to the ambulance service.

# 200 Attend **Open House**

Some 200 plus people braved high winds and blowing sand Saturday to visit the new facilities of Agri-Sprayers, Inc., on East Highway 86 here, according to Gaylon Rhodes, manager of the aerial spraying firm.

Corsages and pens were presented those who visited the new, modern, steel building. Coffee, Cokes and Spudnets were served and drawings for door prizes were held late that afternoon.

On hand to greet visitors, along with Rhodes, were Mrs. Joyce Sikes, George Douglas, John Sikes, R.B. Riley and Ron Hink, employees of the firm. Assisting with the hospitalities were Mrs. Douglas, Mrs. Riley and Mrs. Rhodes.

Winners of the door prizes were Leon Ware, 50-lb. bag of DeKalb XL-72A corn seed; Edwin Lide, 50 acres of aerial spraying; Jack Roach, 40-lb. bag of Ferti-Lome lawn fertilizer; Larry Scott, garden hoe; and Mrs. Bob Turner, five-lb. bag of Ferti-Lome rose food.

The building, constructed by Panhandle Steel of Amarillo, is about double the size of the original facility on Third Street. The 40x100 foot building features a 30x40 foot office area-fully carpeted with individual offices for Rhodes and Mrs. Sikes, the bookkeeper--and has a 70x100 foot warehouse.

The company sells all varieties of farm chemicals and specializes in custom application, aerial and ground. Agri-Sprayers also stocks grain sorghum and corn seed, bulk garden seed, garden tools and a variety of other farm and garden products.

Organized in 1968, stockholders in the firm are Durward Bell, Tom Caldwell, Troy Christian, Wendol Christian, Leon Grissom, J.D. Kirkpatrick, Grady Sorley, Vernon Willard and Lawrence Jamerson.
