VAUGHN MAN FATALLY STABBED FRIDAY NITE

VAUGHN—Amos Scott, 17, told a coroner's jury Saturday afternoon that he stabbed Marvin S. Williams, Vaughn pugilist, during a fight at a dance here Friday night.

"Marvin stomped on my mother," Scott said, "and I stabbed him."

The fight which led to William's death started in the ante-room of the Odd Fellows hall in Vaughn Friday night. Williams, witnesses at the inquest said, struck J. A. Weissinger an elderly man who had been in an argument with Miss Jennie Lee Williams, 19, Marvin's sister.

The witnesses said Weissinger was unable to defend himself and other people took him downstairs to an automobile while Williams ran after him to resume the fight.

As Williams was struggling to get at Weissinger, who was entering the auto, someone stabbed him.

BRIDGE CLUB

At a bridge party given by Mr. and Mrs. E. V. Sweatt, very clever menu cards marked the tables. The menu carrying out the colors, read thus:

MEDICINE SHOWS

So far, no law has been found to stop the medicine show from preying on the public gullibility. The recent exhibition of such an outfit in Hagerman was disgraceful. Medicine that would cure human deafness, etc., was advertised as being just as beneficial for horse colic—and many believed the story, and doubtless will swear by the product for the next ten years. People are like that.

After all is said and done, we have a real little drug store here that is deserving of our support, and we will always find that it pays to trade at home.

COULDN'T BE BOUGHT

The popular idea that "every man has his price" was recently disproved by Federal Judge James H. Wilkerson, sitting on the trial of Al Capone. This man turned a deaf ear to enormous bribes, some of which had been supposedly effective in quieting the district attorney's office, and the scar-faced hoodlum landed in the pen for eleven years. Such men as Judge Wilkerson re-awake our confidence in public officers.

Wal folks, this here is Sagebrush Sam, imitatin' a lobo on the hill at daylight. Hallin' from the land "West of the Pecos." I has been formerly rode by such aliases as "Two Gun Blackie, the Outlaw of Dead Man's Gulch," and "The Death Rider, of Jimson Flat." My only claim tuh fame has been staked on this: I'm a bear with the women. Half my ancestors wuz women, yuh know—some of 'em yeller headed, others, red haired, a few black headed, and some of 'em jest plain bald—th' last named bein' a sort of family secret, but git this straight from the hip: there ain't goin' tuh be any box canyons in the country I rides with the readers of the Hagerman Messenger, an' I calculates tuh lead yuh straight thru tuh th' open.

I found a noos-paper last week out on the mesa, an readin' same, I saw where it tuk the whole United States Government tuh corral an hombre named Al Capone, over in Chicago. Yuh, know, waddies, I thinks dat Capone feller is jest a plain stinking coward. Why, I even saw by the same paper that he had a buckaroo tuh shoot men down with one of those trick machine pistols. Ef'n I had that galoot in front of mah old forty-five Colt, I'd make him dodge somethin' besides income tax. Yes sir, I'll bet dat Capone would be so scared he'd blow a hole in his own foot.

Whenever some son-of-a-gun tells me how I can punch cattle with an airplane, I'll be for those new fangled inventions. Ef'n I'm astraddle of my sway backed cayuse, he may step in a prairie dog hole and heave me onto a cholla cactus, but I'd at least be all in one piece, but ef'n I wuz up in the air ninety miles in a cheese cloth covered onion crate, an' th' blame thine stampeded, I'd make Elephant Butte Lake look like a grease spot time I got tuh kissin' the face of old Terror Firmer.

Hagerman's basket ball punchers are gettin' ready for a round-up of basket ball games this season, and will pull of the first brandin' next Friday night—they hope. Dexter high waddies will be the other contestants. This here game is free, they tell me, so old Sage Brush Sam can go.

Was up in Frank Wortman's Service Station Wednesday and listened to ships out on the sea sendin' signals—to fellers talking from airplanes—to a bird talking to London—what Frank said, but I don't believe him. These here radio sets make the range purty small.

MOTORISTS TO SAVE \$500,000

Automobile license fees have been reduced approximately 33 per cent, saving \$500,000 to motorists. Governor Arthur Seligman said in a talk before the 31 license distributors meeting in Santa Fe last week for instructions.

This reduction means a decrease of \$30,000 in the six per cent operating fund of the motor vehicle department necessitating drastic action if the department is kept running, the governor said.

The plan has dynamite in it, he declared but was made necessary when the last legislature refused to raise the operating per cent of the motor vehicle department.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

This bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely, cloth breaks out in blotches. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Remot a substitute. 25c at all stores. © 1931 C. M. Co.

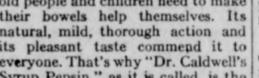

POISON in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue-foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commended it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstore sell.

When PAIN Comes

WHAT many people call indigestion is very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips Milk of Magnesia.

One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

Restless CHILDREN

CHILDREN will fret, often for apparent reason. But there's ways Castoria! Harmless as the rice on the wrapper, mild and bland tastes. But its gentle action soothes a youngster more surely than a powerful medicine.

That's the beauty of this special children's remedy! It may be the tiniest infant—as often as the need. In cases of colic, diarrhea, similar disturbance, it is invaluable. A coated tongue calls for just a drop to ward off constipation; it does any suggestion of bad breath. Whenever children don't eat, it don't rest well, or have any upset—this pure vegetable preparation is usually all that's needed.

From Headaches Colds and Sore Throat Neuritis, Neuralgia

Don't be a chronic sufferer from headaches, or any other pain. There is hardly an ache or pain Bayer Aspirin tablets can't relieve; they are a great comfort to women who suffer periodically. They are always to be relied on for breaking up colds.

It may be only a simple headache, or it may be neuralgia or neuritis; rheumatism. Bayer Aspirin is still the sensible thing to take. Just be certain it's Bayer you're taking; it does not hurt the heart. Get the genuine tablets, in this familiar package for the pocket.

SOFT THROAT

By DR. WILLIAM J. SCHOLLES

"If it isn't better tomorrow we shall call the doctor." It would be much better to call him to-day—the first day of that sore throat. By tomorrow, there may be no question about the sore throat being diphtheritic. A day will have been lost. And, the loss of each day is serious in a case of diphtheria. From 12,000 to 15,000 people die annually in the United States from diphtheria. Statistics show that almost all of the cases which are treated with adequate amounts of antitoxin on the first day of the disease, recover. The death rate increases with each day's delay in the administration of antitoxin. So the necessity of an early recognition of this disease, in order that effective treatment may be promptly instituted, is apparent.

Recognizing Diphtheria

The sore throat of diphtheria may easily be confused with less serious sore throats. Diphtheria is recognized by the general symptoms, the formation of a false membrane in the throat, and the examination of throat cultures. In some cases no membrane can be seen, but there is a sore throat and the germs of diphtheria are present. One form of croup is diphtheria. Spots or patches may form in the throat as a result of other infections.

Children Greatest Sufferers

It is among children that diphtheria takes a heavy toll. Between the ages of two and twelve is the period of greatest susceptibility. But is possible for diphtheria to occur earlier than this, and older children and adults are often affected. The severity of the symptoms are not always in proportion to the seriousness of the disease. In the first day of the disease, diphtheria patients usually do not appear to be in any more danger than those who have tonsillitis. What appears to be a trivial sore throat in the beginning may prove to be a dangerous case of diphtheria if neglected. The nature of every sore throat should be determined without delay, particularly in the case of children!

SAVING FOR EMERGENCY

The doctor told him he was discharged, and handed him his bill. It was a very modest bill, considering that he had set and cared for a broken arm, a broken leg, a sprained ankle, sewed up his scalp, fixed up his nose, done some skin grafting and fixed up a lot of miscellaneous bruises, bumps, etc. "Doc," said the patient, "You've been mighty good to me, and done a splendid job all the way thru. Wouldn't be surprised if you'd saved that left leg from what otherwise might have meant amputation. All that worries me is that I don't know when I'll be able to pay you for all you've done." "Why," asked the doctor, "didn't you tell me when you first came that you had six hundred dollars in the bank?" "Sure I have," replied the patient. "But I'm saving that for an emergency."

Were your boyish ambitions ever realized? asked the sentimentalist? Yes, replied the practical person. When my mother used to cut my hair I often wished I might be baldheaded.

FEDERAL AID PROJECT TO CONNECT VALLEY WITH GRAND CANYON

SANTA FE—The submission of another great Federal Aid Project which will connect the Carlsbad Caverns with the Pecos Valley, Vaughn, Chama, Mesa Verde and Colorado points, was received with enthusiasm Friday by the representatives of six of the intermediate points, when presented by Frank Butt, chairman of the state road commission on the authority of Thomas H. McDonald, chief of the bureau on roads. This will interest the Santa Rosa cut off, giving direct connections with Albuquerque and points west and forming one of the longest Federal Aid crosses in the state. There was not a dissenting voice in the reception of the announcement, one of the most important in the list of activities planned by the government in the approaching campaigns.

BOTH PLEASE

The chief constable of a small town was also an expert veterinary surgeon. One night the wife rang, and the constable's wife answered, according to "Tit-Bits." "Is the constable there?" asked an agitated voice. "Do you want my husband in his capacity of veterinary surgeon or as chief constable?" inquired the woman rather promptly. "Both, madam," came the reply. "We can't get our new bulldog to open his mouth, and there's a burglar in it."—Jeff Roark in Richmond Missourian.

POVERTY DRIVES SOME TO BOOTLEG BUSINESS

Poverty in the Hobbs oil field has driven some people into the bootleg business in a petty way, in the opinion of Prohibition Director Charles H. Stearns, who returned last week to Albuquerque from a trip to Lea, Eddy, Lincoln, Chaves and Otero counties. Stearns puts Lea county in the same class with Rio Arriba county saying they are the wettest in the state. Conditions in other places are more satisfactory, said the director. He said economic conditions are good nearly everywhere he had traveled; that crops are plentiful, but prices low. The roads are in excellent condition.

LOCALS

C. F. Tressler was a Roswell visitor Monday.

Walter Green made a business trip to Roswell Tuesday.

H. L. McKinstry is serving on the grand jury in Roswell this week.

The C. G. How family has moved out on the Deason ranch east of town.

Arthur Davis, who has been suffering with a broken foot, is improving rapidly.

A needed improvement is the grading and graveling being done in front of the C. and C. Garage.

W. H. Keeth and son, C. H. left for Amarillo, Texas, Sunday on a business trip, returning Monday night.

Mr. and Mrs. M. L. Norton and children of Roswell were callers in Hagerman on Sunday afternoon with Mr. and Mrs. Willis Pardee.

Word has been received that Mr. and Mrs. Franklin Johnson of El Paso, Texas, are the parents of a baby boy, Joe Cass, born last Sunday.

Mr. and Mrs. Willis Pardee took advantage of the beautiful Pecos valley weather on Sunday and motored to Hope, calling on some old friends while there.

Misses Jessie George, Nelle Burt, Nora Clemens, Dorothy Sweet, and Elizabeth McKinstry went to Roswell Sunday afternoon to call on Miss Elizabeth Lemmons.

Mr. and Mrs. J. E. Wimberly have received word that Frank E. Wimberly underwent an appendicitis operation early Monday morning, at Wm. Beaumont hospital in El Paso.

Jim Williamson, our genial deputy is home again from the mountains, where he acted in the capacity of game warden. He brot home the proverbial buck, and reports fine weather, and lots of walking and riding.

Mrs. Annie Hartley, mother of Mrs. Clyde Gant, and Clyde were called suddenly to Stanton, Texas last Thursday by the illness and death of Mrs. Hartley's sister, Mrs. Ida McDurmon. They arrived just forty minutes after Mrs. McDurmon had succumbed.

But madam, you have no claim. Your husband did not insure his life; he took out a policy against fire.

"That's what I claim. He has been cremated."

MORE BOYS THAN GIRLS IN STATE SCHOOLS

SANTA FE—Out of a grand total of 139,755 children in the state between the ages of 5 and 21 during the school year 1930-31, fifty-one per cent were boys and 49 per cent girls.

These figures are revealed in an article on the "Mortality in the Public Schools of New Mexico during 1930-31" by George I. Sanchez, director of the division of information and statistics of the state department of education.

Seventy-three per cent of the boys and seventy-four per cent of the girls were actually enrolled in the state's public schools.

Of the total number enrolled in school, 5,884 or 42 per cent failed to reach the second grade; that 773 or seven per cent of those in the second grade failed to reach the third, and so on until 14,739 or 18 per cent failed to reach the eighth grade and 3,543 or 28 per cent failed to reach the twelfth grade.

HIGH COURT TO SETTLE GAS TAX REFUND NOV. 6

November 6th has been set as the date for final hearing of arguments in the suit testing the validity of the law granting gasoline tax refunds to farmers. The hearing was set Saturday by the state supreme court.

The suit was appealed to the higher court after District Judge M. A. Otero, Jr., had dismissed the suit brot by Geo. W. Streit and company, Santa Fe brokers, to test the legality of the measure. Carl A. Hatch, of Clovis is a member of the state's counsel in the case.

ROSWELL LIQUOR RAID

Preliminary hearing was held before United States Commissioner Dan C. Savage at Roswell on Tuesday in the case of three more defendants arrested in the sweeping liquor raid conducted at Roswell Sunday, and all were released after posting bond. They are Tom Bryan, Ronnie Howard and C. K. Burnett, all of whom were bound over to await the action of a federal grand jury. They made bond at \$50 each.

Three more preliminary examinations involving five defendants are yet to be held. Frank Hollenthorner was arrested at the twentieth person to be apprehended. He was arrested in connection with the alleged bootlegging at the Crow Drug store, where four men were arrested Sunday.

Five of the eighteen men and women facing charges of violation of the national prohibition act now have made their bonds. Seven are being held in the county jail in default of bond.—Roswell Dispatch.

Grade School Notes

4th GRADE

Junior Bowen spent the week-end in Carlsbad with Jimmy and Buddy Miller.

Junior White was absent from school Monday on account of illness.

6th GRADE

The sixth grade has been studying South America. Some very good salt maps and booklets have been made. They are contemplating trips to Europe in the near future.

The sixth grade is still struggling along with fractions. They have hopes of all getting a grade of 100 per cent some day.

7th GRADE

Dolores and Quentin Bartlett entered school Monday, enrolling in the seventh grade.

Those making an average of 90 per cent or above in all their subjects in the seventh grade during the first six weeks of school are as follows: Ruth Wade, Sammy McKinstry, Opal Bealer and Lola Mae Ridgley.

8th GRADE

B. W. Knoll gave his eighth grade pupils a Halloween party last Thursday evening at his home. It started at seven o'clock and there were spooks and many other things. Everyone said they enjoyed it very much.

Miss Banta reported that the spooks got her Friday night. Altho no one believes her, because she came back Monday and looked just as she always has.

The spooks visited the Fourth grade room and left visible signs of their call. Here's hoping they enjoyed their little adventure.

Jim—"Say, Joe, can you tell me why there are fewer railroad accidents than automobile accidents?" Joe—"Well, perhaps not exactly but I think it is because the engineer isn't always hugging the fireman."

Banking Ballast
A ship must have so much ballast, whether or not it carries sufficient weight of pay-load, to keep an even keel, especially in rougher seas.
Banking must carry its load of ballast, too. Not all of deposits, of capital and surplus, can be used in loans. Some is ballast in safe reserve securities returning low interest but always marketable; some is secondary reserve quickly convertible; some is cash held for immediate needs.
As value of collateral goes down, loans must be reduced and reserves, deposits and cash increased. As deposits, reserves and surplus increase, more loans may be carried as profitable business.
A bank cannot increase at will its capital, surplus, deposits or reserves; loans are the adjustable portion of its business which it must balance to conditions, and this balancing makes safe banking.

DUCK DEPRESSION TO BE TACKLED BY NATION'S EXPERTS

WASHINGTON, D. C. — The American Game Conference, which last year reversed the methods of game bird conservation in America by promoting game as a secondary farm crop, will meet again this year on December 1 and 2 at Hotel Pennsylvania in New York to tackle the waterfowl shortage as its chief problem, according to an announcement from officials of the American Game Association, which sponsors the annual meetings.

The conference will be composed of game officials of most of the states and Canada, leaders of sportsmen's organizations, scientific workers and nature lovers.

The American Game Policy committee, which formulated the plan adopted in the 1930 conference, will report on the progress made in various states under its recommendations. The new system of compensating landowners for restoring game on their land has been put into actual practice in Indiana, Wisconsin, Nebraska, N. Carolina and Illinois, officials of the sponsoring association announced. In these states laws were passed permitting landowners to sell hunting privileges to sportsmen, in one way or another.

A plan to finance a migratory waterfowl restoration program thru a federal hunting license will be one of the proposals that is scheduled for discussion at the conference. Since the purpose of the meeting is to decide on the best means for preserving the sports of hunting and fishing as well as game, it is expected that the conference will oppose discouragingly drastic restriction upon shooting and seek to promote immediate restoration of waterfowl, resting and wintering grounds.

Related meetings will include the annual gathering of game breeders and keepers, a conference of scientific research workers, the National Committee on Wild Life Legislation, the Southern Association of Game and Fish Commissioners, the Elk Commission and the Outdoor Writers' Association.

CULL LOW PRODUCERS BOOST DAIRY PRICES

Rigorous culling of low producing cows is always practical and especially so now in view of the present tendency to over-expansion in the dairy industry says E. E. Anderson of the New Mexico Agricultural College. Culling helps the dairy situation by curtailing the amount of milk offered for consumption. If every dairyman were to cull his unprofitable producers, the present surplus would not exist and much higher prices would prevail.

Twice before in the past ten years, the dairy price situation has been somewhat similar to what it is now. In both instances the difficulty was remedied by a rather prompt cut in production which came from three causes. First, a decrease in the use of concentrated feeds; second, a tendency among farmers, especially in the corn belt where many beef cows were milked, to let calves do the milking; third, increased culling of herds. Under existing conditions, heavy feeding of concentrates is to be expected as long as the present relation exists between the prices of grain and dairy products. Likewise, many farmers seem to have no more profitable alternative than milking cows, therefore there has not been any marked shift from dairying in such regions as the corn belt. This leaves the third remedy, culling.

Cows that are eating their heads off are quite numerous among the dairy herds in this country. Figures show that about one-third of all dairy cows in the United States do not pay for their board and keep, another third bring in a little profit, but the big profits come from only one-third of the cows, known as the reports from the U. S. Department of Agriculture indicate that the number of milk cows on farms continues to increase for the fourth successive year, the number of farms on September 1, 1931, being fully 3.6% in excess of that of a year ago. If 5% more heifers freshen during the last half of 1931, as is now indicated, a further increase in numbers will be reported on January 1, 1932.

Unless the dairy industry starts the policy of weeding out unprofitable producers and saving fewer heifer calves, this continued increase in cow numbers will eventually result in burdensome supplies of dairy products, with even lower prices to producers.
