#### UNFORGIVABLE RUDENESS

An otherwise worthwhile and interesting program was spoiled Thursday night by disorder in the school auditorium

Most of the disturbance was created by men who are too old to be enrolled in school. One fellow came under our notice who was the father of three children. Every time anyone applauded, this pie-faced babboon whistled and yelled like a ten year old kid.

It is time someone stood at the rear of the room with a baseball bat to attend to such humans as that. It is hard enough to have a program even under decent conditions without having children, teachers and audience subjected to such trials as those.

Hagerman audiences are rapidly acquiring the name for rudeness. Visitors to any kind of program held in the school cannot help but be unfavorably impressed. If the fault were confined to school children, school authorities could discipline them and probably put a stop to it. But the worst feature of the matter is that older boys and men are the most unruly.

It might be that a few examples could be made of men who have no more brains or courtesy than

### MENONITES TO

Seeking to found a new Menonite colony, a party of 76 men and women were expected Friday from Kansas to settle on one of several sites near Las Cruces. Among prospective colony sites being considered is a 1,000-acre tract 12 miles north of Hatch in the Rincon valley. The Menonites are said to have inspected the land several weeks ago. If the land is found satisfactory it is said 500 more Menonites will come to the valley in the fall.

#### TEACHER RELIEF IS TO END SOON

Federal relief for 110 New Mexico teachers will end shortly unless additional funds are forthcoming, it was announced at Santa Fe this week. These teachers have been employed for a period of eight weeks under a federal relief act for unemployed teachers.

Three local teachers have been employed for seven weeks. Included in the list are: O. R. Gable and Mrs. Mary Doss Stillwaugh, who have been conducting classes for the Spanish-speaking people each evening at the Central school auditorium, and Miss Helen Bullock, who has been conducting a kindergarten with a class of about twenty-five.

### CATTLE SHIPMENTS

Cattle shipments from the state during the month of January totaled 40,804 head, it was announced at Albuquerque.

# **MEDICAL ADVICE**

... keep the bowel action regular and comfortable

. . . make constipated spells as rare as colds

... avoid danger of bowel strain -use a liquid laxative

Can constipation be overcome? "Yes!" say medical men. "Yes!" declare thousands who have followed their advice and know.

You are not apt to cure your constipation with salts, pills and tablets, or any habit-forming cathartic. But you can overcome this condition just by gentle regulation with a suitable liquid laxative.

Dr. Caldwell's Syrup Pepsin has the average person's bowels just as regular as clockwork in a few weeks' time.

> Why Hospitals use a liquid laxative

The dose of a liquid laxative can be measured. The action can be con-trolled. It forms no habit; you need not take a "double dose" a day or two later. Will not irritate kidneys. The right liquid laxative will bring a perfect movement, with no dis-comfort at the time, or afterward The wrong cathartic may keep you constipated as long as you keep on using it!

In buying any laxative, read the label. If it contains a doubtful drug, don't take it. If you don't know what is in it, don't chance it. The contents of Dr. Caldwell's Syrup Pepsin is stated plainly on the label; fresh herbs, pure pepsin, active senna.

active senna. Its very taste tells you syrup pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. Drugstores have it, ready for use, in big bottles.

## WOMEN TO BENEFIT BY COTTON CAMPAIGN

More cheerful homes, needed clothes, new conveniences for the farm wife, and the removal of the dreaded specter of harassing debt from the threshold, are some of the results of the cotton adjustment campaign of 1933 as experienced by the farm wives of the cotton states.

In some instances, debts which had been in existence for three or more years were wiped out and the economic condition of the farm family thus made more secure. In other instances, back taxes were paid to avoid foreclosures on the farm. Farm women said they were able to buy new clothes and shoes for the children. It was possible to secure more nourishing food, and in some instances conveniences to lighten the burden of household duties were obtained. The morale of the entire family was improved.

As a result, farm women of the cotton states have a greater interest in the success of the present cotton adjustment campaign. More money for less cotton means more leisure for the farm Feature Writer wife but greater than this, it means that she can have some of the things so dear to the hearts Many of the older residents of every woman. These things will be interested to learn of the she might secure by reason of promotion of Gayle Talbot, Jr., improved prices for cotton brought former resident of Artesia, with about by the success of the camthe Associated Press.
