

THE MESSENGER

HAGERMAN, CHAVES COUNTY, NEW MEXICO, THURSDAY, JULY 25, 1935

NUMBER 30

Hagerman is located in the area that offers you health and opportunities.

SIX WELLS COMPLETED PAST WEEK

Well Near Monument Is Among Those Tested; Drilling Resumed On Two Wells In Eddy Co.; One Location Made.

Six producers have been completed in Lea county, one test has been abandoned and two wells in Eddy county have resumed drilling operations after being shut down for several months.

An interesting well northeast of Monument has been given a tubing gauge. The Saunders No. 1 of the Texas Company, sec. 18-19-37, which was drilled to 8953 feet, was given a maximum tubing gauge after an acid treatment and flowed at the rate of seventy-six barrels per hour. On an eight hour test the well flowed at the rate of 568 barrels per day thru tubing.

The Sun Oil Co. has also completed its Weir No. 1, sec. 35-19-36 at 3935 feet. After an acid treatment of 4,000 gallons the maximum tubing gauged seventy-five barrels an hour and settled to forty barrels per hour, flowing through tubing.

Other Lea completions include the Atlantic Oil Co., State I-G, sec. 5-21-36, drilled to 3890 feet and finished for 277 barrels per day through tubing. In the southeastern part of Lea, the Amon Carter, Mattix No. 1, sec. 3-24-37, was drilled to 3913 feet and plugged back to 3881 feet where it is producing forty-three barrels per day with an estimated 1,000,000 cubic feet of gas.

The Gypsy Oil Co., Arnott I-A, sec. 2-25-36, drilled to 3524 feet, was plugged back to 3505 feet and flowed at the rate of 115 barrels of oil per day with an estimated 2,500,000 feet of gas.

The Henderson, Langley No. 1, sec. 8-25-37, was drilled to 3453 feet and flowed at the rate of seventy barrels per day through casing.

The Burns No. 2 of the Argo Royalty Co., sec. 8-20-32, was drilled to 2803 feet and was plugged and abandoned after developing a hole of sulphur water.

Eddy Wells Resume Drilling

Two Eddy county wells have resumed drilling after being shut down for several months. The F. W. & Y. Oil Co., has resumed drilling on its State No. 70, sec. 27-18-28, below 300 feet. The Ramapo Oil Co., has also started up at 2232 feet on its State No. 1, sec. 32-17-28.

Only one new location was staked for the week, this being the Humble Oil and Refining Co., Mosley No. 2, sec. 10-24-36.

IF TAX EXEMPT CANNOT VOTE ON BOND ISSUE

An ex-service man who has property rendered for taxation, but whose payment of taxes is exempt because of his military service, is not qualified to vote at a municipal election on the question of issuing sewer bonds, according to an interpretation of the law by Quincy D. Adams, assistant attorney general, made at Santa Fe yesterday.

George T. Harris of Hobbs, democratic floor leader of the house in the 12th session, asked for this opinion along with four others, regarding qualifications of ex-service men at elections of the kind.

ANOTHER MOVIE DIVORCE

LOS ANGELES—A hearing in the suit of Adrienne Ames, film actress, again Jacques Etienne de Bujac, better known as Bruce Cabot, of the films, was set for yesterday afternoon before Judge Georgia Bullock at Los Angeles. The couple were married October 31, 1933, at Carlsbad at Cabot's boyhood home.

E. B. Guess Released From Well Plugging Contract With Dist.

It was understood here yesterday that E. B. Guess had been released from his contract with the conservancy district to plug any more abandoned artesian wells. The Guess crew has plugged about twenty-eight old wells since starting work about a year and a half ago. They were working on an old well in the county line district. Another well plugging equipment machine is practically ready and will take up the work of the Guess crew as soon as the machine is ready to go. The Guess contract with the district, originally called for the plugging of forty wells.

Six Million Gallons of Whiskey Burn In An Illinois Distillery Fire

Fire which swept the huge \$6,500,000 Hiram Walker distillery, following a terrific explosion, was brought under control at Peoria, Illinois, Tuesday after causing damage estimated at two million dollars.

Twelve men were injured in the blaze and searchers were seeking for the body of John Barton, an employe, who has been missing since the blast in the rack house where he was working.

Six million gallons of whiskey were set afire.

Prizes Announced For the Community Fair At Men's Club

The Men's club held their regular meeting in the undercroft of the Presbyterian church on last Tuesday night. A most excellent supper was furnished by the American Legion Auxiliary.

After the supper a report was heard from the fair committee on the tentative plans for the community fair to be held here the last week of September. The following is a contemplated list of the prizes to be offered at that time. All first prizes will be cash while the second and third prizes will be ribbons.

Jersey bull\$2.50
Registered Jersey cow\$2.50
Grade Jersey cow\$2.50
Grade Jersey heifer\$2.50
Registered Hereford cow\$2.50
Registered Hereford heifer\$2.50
Registered Hereford bull\$2.50
Best beef animal\$2.50
Best matched team\$2.50
Best work animal\$2.50
Best saddle animal\$2.50
Best stallion (draft)\$2.50
Best stallion (saddle)\$2.50
Best yearling mule\$2.50
Best jack\$2.50

Fifty cents will be given for the best pen of six of the following breeds of chickens and 25 cents for the best cock of each breed: White Leghorns, White Minorca, White Wyandotts, White and Barred Rocks, Rhode Island Reds and White, and Orpingtons.

Fifty cents each for the best tom and hen turkey.

For the best stalk of cotton, \$1.50.

For the best ten open bulls \$1.50. Twenty-five cents each for the best exhibit of the following vegetables: Irish potatoes, onions, turnips, beets, parsnips, carrots, cucumbers, pepper hot and pepper sweet, pumpkin, watermelon, okra, cantaloupes, tomatoes, snap beans, sweet potatoes, and any kinds of fruit.

Best ten ears of corn \$1.00 and for the ten best heads of the following grains, fifty cents each: Hegari, maize, best bundle of hegari, maize, sorghum and the best bale of alfalfa hay, fifty cents each.

For the best gallon of threshed oats, barley, rye, and wheat, twenty-five cents each. Best quart of alfalfa seed, twenty-five cents.

The following committees have been named to act: Livestock—Tom McKinstry, Aubrey Evans; Poultry—Price Curd; Farm—Chas. Michelet, B. J. West, Geo. Wade. Domestic arts prizes to be announced later. Committee: Mmes. H. L. McKinstry, J. Michelet and W. L. Heitman.

Col. Tom McKinstry will give a prize of \$15.00 for the best colt exhibited of any kind.

Sterling Is Appointed To Serve As Baptist Missionary for Dist.

The Rev. Jordon Sterling was selected last week by a committee representing the Southeastern Baptist association and the Pecos Valley Baptist association to act as a full time missionary for the two districts, it was announced at Carlsbad Saturday.

The missionary will serve as an evangelist in rural centers and will establish Sunday schools and churches.

The committee which chose the Rev. Sterling, who is at present pastor of churches at Weed, Pinon and Mayhill, included the Rev. Julian Atwood of Roswell, the Rev. John Williams of Hobbs, the Rev. Aubrey Short of Lovington, and the Rev. Henry M. Weldon.

Towns which are included in the Southeastern association included Hobbs, Lovington, Jal, Eunice and Tatum. In the Pecos Valley association are Roswell, Artesia, Hope, Dayton, Loving, Carlsbad.

Although the Rev. Sterling has not as yet accepted the appointment, the committee is confident that he will in the near future, the Rev. Weldon said.

SENATE OKEYS HATCH COTTON QUOTA TUES.

Amendment Would Be Effective In 1936 and Allow New Mexico To Produce 80,000 Bales of Cotton A Year.

WASHINGTON — The senate Tuesday adopted an amendment to the AAA act by Senator Hatch (D-NM) which would allow a minimum production of 80,000 bales of cotton in states which have produced 100,000 bales in any of the five basic years between 1928 and 1932, and a minimum of 200,000 bales if the production was 250,000 bales.

Due to the fact all state cotton allotments for 1935 have been made by the agriculture department, the Hatch amendment if finally approved by the house will become effective in 1936.

Hatch said the New Mexico quota last year was 65,000 bales, an increase of some 4,000 bales over the 1934 allotment. He explained there are several cotton counties in New Mexico which feel they have been discriminated against by the Bankhead act because they could show no real five-year average necessary for an adequate production quota.

"Some of the cotton land in New Mexico is new land and there are areas in which growers would like to produce some cotton, perhaps not much, but they are prohibited from doing so under the existing farm administration laws," said Hatch.

The senator said the 80,000 bale minimum provided for in his amendment will care for the future cotton needs of the state and permit production in areas in which cotton can be profitably produced.

NOLING SERVICES HELD SUNDAY

Funeral services were held Sunday at Roswell for Sam Noling, prominent farmer of the Dexter area, who died at an El Paso hospital last Friday.

The Rev. N. L. Linebach, pastor of the First M. E. Church, South, of Roswell, was in charge of the services and music was from the choir of that church. The casket bearers were Jack Johnson, Paul King, L. H. Keller and George Smith. Interment was made at South Park with Talmage Mortuary directing.

Mr. Noling is survived by his wife and nine children.

ELEVEN CASES IN CARLSBAD JUSTICE COURT

Eleven cases were tried in Carlsbad justice court at Carlsbad Monday. Eight of the eleven defendants were cited to appear for being drunk and disorderly.

A. L. Nail Made Chaves Co. Relief Head Wednesday

At a special meeting, the Chaves county board of commissioners in Roswell approved A. L. Nail of Hagerman, subject to state approval, as relief administrator for the county Wednesday.

This office was created by a 1935 act of the legislature and carries with it the supervision of all property, state or federal used for relief purposes as well as the overseeing of finances and projects in Chaves county.

Mr. Nail has been a resident of Chaves county for some 32 years, it was stated, and is prominently known throughout the county.

Headquarters for this office will be maintained with other offices in connection with relief in the Army in Roswell and Mr. Nail is to assume his duties on August 1.

Old timers and friends will be grieved to hear of Mr. Barron's death. He, with his family, moved to the valley from Nebraska about 1895 or '96. They came in an immigrant car. The railroad had been in operation from Pecos only about a year when they came. They first settled in the Greenfield community, later moving to the place now owned by Mr. and Mrs. Ben Jack West. In a few years, Mr. Barron bought the place just north of where Mrs. A. M. Ehret lives and here they resided until they moved to California. Mr. Barron had formerly worked in the railroad profession, and an old timer tells of when the new station in Hagerman needed help, Mr. Barron was called upon. They were of the very finest of citizens, and it was with much regret that the community saw them move to another state.

MESSSENGER ENLARGED

Beginning this week The Messenger is being enlarged to an eight-page paper, and the added features will be exceptionally good. One of the best serials of the year, "There's Always Another Year" begins, besides illustrated News Events. A column by the noted Brisbane, a family page, Weekly News Review and Sunday School Lesson will be other features.

With this addition, we feel that we can better please each member of the families who read The Messenger, which serves one of the most progressive towns and communities that can be found.

Roswell To Stage A Good Will Trip

The final good will tour to be made by the Roswell business men will be made on Saturday, August 10th, as far south as Carlsbad. The Roswell high school band will accompany the Roswell goodwillers and stops will be made at each community along the eighty-mile route as far south as Carlsbad. Saturday, August 10, was selected because of the request to have the Roswell high school band to play at the state convention of the American Legion. The noon meal will be eaten at Artesia, according to present plans, and each Roswell business house has been asked to send at least one representative along on this tour, which will be the third and last for the season.

Stops will be made at Dexter, Hagerman, Lake Arthur, coming into Artesia at the noon hour. A visit will be made to Carlsbad in the afternoon.

HANNETT TO GET \$4,000 AS SPECIAL ATTORNEY

SANTA FE—David Chavez, chairman of the Interstate Streams Commission, said Monday the commission will employ former Gov. A. T. Hannett of Albuquerque as special assistant attorney general for the commission when it meets next Monday. Hannett will be paid \$4,000 a year, he said.

The last legislature created the commission and provided for employment of an attorney, to be designated as a special assistant attorney general.

PRETTY AS HER HEROINES—THAT'S MARTHA OSTENSO

Her Newest Story Now Appears Serially in This Newspaper.

MARTHA OSTENSO

Meeting Martha Ostensio would not be unlike meeting Silver Greenoble, the pretty blonde girl whose problems form the basis of "There's Always Another Year," Miss Ostensio's latest novel, which this newspaper now brings to you in serial form. Although she is only in her early thirties, she has already written eight successful novels, the first of which won her the Dodd, Mead first novel prize.

The author was born in Ostensio township on the Hardangerfjord in Norway, and came to America at the age of two. She learned to speak English in South Dakota, and when the family moved to Canada she began to earn money by writing it for the Manitoba Free Press. Like many reporters she succumbed to the call of New York where she did newspaper work and social services.

"Wild Geese," her first novel, was already framed in her mind, and it was not long before she got it on paper and with it won worldwide recognition. "The Dark Dawn," "The Mad Carew," "Prologue to Love" and others followed it. "There's Always Another Year" has been called a climax of her brilliant career. Read every installment as this story unfolds serially in these pages.

SPACING RULES FOR OIL WELLS STARTS AUG. 12

Regulations Which Allow Only One Well To Each Forty Acres Protested By Eddy County Oil Operators Recently.

The state oil conservation commission announced Wednesday the extension of the spacing rule for Hobbs field wells to cover the entire state, effective August 12.

Announcement of the commission's action was made by State Land Commissioner Frank Vesely of Santa Fe, secretary of the oil conservation body.

The new regulation provides that no wildcat well may be drilled closer than 330 feet to any lease or property line, or less than 660 feet from any other well. Exceptions may be allowed by the commission provided there will be no waste nor hazard conducive to waste. Exceptions may be granted also where surface conditions make drilling impracticable without unreasonable expense or in case a separately-owned tract is so small or so shaped to make conformity with the rule impossible.

A wildcat well is defined as one located not less than two miles from any commercial or potentially commercial well and outside the boundaries of any proven field or area designated by the commission. The spacing rule applies to all other wells until the commission adopts special rules, after hearing, for spacing in proven fields.

The problem of spacing was the chief one discussed at a hearing held in Santa Fe recently by the commission, when operators presented their suggestions on the proposed rules.

Eddy Operators Protest

A number of Eddy county oil operators, however, have voiced disapproval of the spacing rule as it applies to Eddy county. This county, they point out, is essentially a sand field and that unless the commission's regulation is modified which will not permit the drilling of more than one well to each forty acres, a lot of oil in the principal producing areas in Eddy county will never be recovered.

Protests have been sent to Dr. Wells, chairman of the commission, but apparently the commission has not considered seriously the protests.

LEA COUNTY OIL HEARING AUGUST 9th

The state oil conservation commission's hearing to consider rules for the Lea county oil fields has been definitely set for August 9th, State Geologist E. H. Wells of the commission announced at Santa Fe Monday. The hearing is to be held at the capitol.

Former Hagerman Resident Dies In Redlands, Calif.

Henry Clinton Barron, aged Redlands rancher and bee-keeper, died July 17th, at Westmoreland, California. Authorities completed an investigation last week and attributed the death to heat prostration.

The San Bernardino Daily Sun had the following account of Mr. Barron's death:

Mr. Barron left his Redlands home, 29 Terracina boulevard, to attend to his Imperial valley properties a week ago yesterday. Active in spite of his advanced age, he spent most of Wednesday working on his ranch, it was said. He became suddenly ill at 6 p. m., and failed to rally.

Mr. Barron had resided in Redlands since 1919, when he brought his family from New Mexico. He is survived by his widow and six children: Claude Barron, Redlands; H. D. Barron, Los Angeles; Giles Barron of Hagerman, N. M.; Mrs. F. H. Gregg, Long Beach; Mrs. L. K. Smart, Huntington Park; and Dr. H. C. Barron, Escondido. There are seven grandchildren.

He was a thirty-third degree Mason, a member of the Ancient Order of United Workmen and prominent in the Seventh Day Adventist church of Redlands.

He was born in Wisconsin and was married at Great Bend, Kansas, on June 8, 1880. He farmed in Kansas for several years and later practiced law in Omaha, Nebraska. He was justice of peace at Hagerman before coming to Redlands.

At his Redlands home, Mr. Barron developed elaborate cactus gardens. He was intensely active and his is the first death in his family.

Red Bluff Dam Work Is Progressing At A Normal Pace Now

Revised plans in the construction of the Red Bluff dam have been approved by the Texas state engineer and construction on the dam is proceeding at a normal pace, according to word from Pecos. Sluicing at the dam site began Tuesday. Sluicing consists of forcing the water against the side of the core trenches and the filling of the trench dam under water pressure. Rock riprap was also begun last week. The present pay roll numbers about 165 men but will likely reach 200 shortly.

Hagerman's Water Works Will Soon Be Ready For Use

Painters are applying the second coat of aluminum paint to the waterworks tank and tower at Hagerman. When this work is done it will mean that the new waterworks is completed and ready for use.

This PWA project has been a great blessing to the town because it has given employment to all unemployed men for about two months, at a season when no other work was available in these depressed times, and because the old waterworks system was on its last legs, so to speak, breaks occurring at some place along the pipe lines almost daily.

The new system with the transit and cement lined cast iron pipe, new service connections, more fire hydrants, the fifty thousand gallon tank that will double the former pressure and the new pumping plant will give Hagerman a waterworks second to none.

Much credit is due the Federal Public Works Administration for making such an improvement possible when work for the unemployed was so sorely needed and to those town officials that worked so hard to get this much desired improvement for Hagerman.

Much of the success with which the work has been handled is due to the efforts of Mr. Goldenburg and George W. Brown, PWA engineers, and the engineers with the contractors, P. R. Burn, H. M. Price and Niles Shumaker. Messrs. Brown, Price and Shumaker have made their home in Hagerman during the period of the work and have given their time unceasingly.

85,354 ENROLLED IN THE U. S. CCC CAMPS

WASHINGTON — The Civilian Conservation Corps announced last week that its expansion program, commenced June 15, had resulted in enrollment of 85,354 new men. The total number of men in forest and park camps including the CCC, Indians in camps of Indian reservations and residents of Hawaii, the Virgin Islands, Puerto Rico and Alaska was 404,000 as of July 13, the report said.

State enrollments since June 15 included: Colorado, 872; New Mexico, 563; Texas, 1,151.

JUDGES CHANGE POSTS

Last Friday Judge James B. McGhee of Roswell went to Los Lunas to hold court. Louis E. Armijo went to Lovington to hold Lea county court in the absence of Judge McGhee, who was disqualified in a number of Lea county cases.

Softball Tournament To Be Held August 26th At Roswell

At a meeting in Hagerman on Tuesday evening, it was decided to hold a softball tournament in Roswell, starting August 26th. The tournament will be sponsored by the Roswell Softball association.

According to present plans, Roswell will have four teams in the tournament, Carlsbad and Hagerman, two each. Artesia, Lake Arthur, Dexter, Portales and Hobbs will have one each. Other towns also may enter teams.

GRAZING LICENSES BY SEPTEMBER 1st

A. D. Molohon of Albuquerque, deputy supervisor of the department of interior, announced Saturday grazing permits in the grazing districts of New Mexico would be granted by September 1st. Approximately 2,000 permits had been issued on that date. The advisory board of district 6, in the southeastern part of the state will meet at Roswell on August 5th to make recommendations on applications. Similar meetings are scheduled at three other places over the state. July 28th is the deadline for receiving applications.

CCC CAMP TO BEGIN AUGUST 17th

Site Is Made of Range West and In and Around Pecos; Twelve Cars of Material Unloaded At Lake Arthur for Camp.

Preparations for the construction of the CCC camp located about 12 miles southwest from Lake Arthur and eighteen miles north of Pecos, have been completed. Twelve cars of material for the camp have been unloaded at Lake Arthur and is being transported to the camp site. The building of the workers, to be of portable wooden type, similar to the CCC camp in Carlsbad, are being moved to the site. The CCC camp in Carlsbad, are being moved to the site. The CCC camp in Carlsbad, are being moved to the site.

Painters are applying the second coat of aluminum paint to the waterworks tank and tower at Hagerman. When this work is done it will mean that the new waterworks is completed and ready for use.

WITHOUT WAX

WE WERE talking of antiques, when the Florentine gentleman of high birth said: "Come, let me show you my marble table in the garden." I followed him through the dark hall, stone paved, out into a beautiful sunlit Florentine inner court garden with great dark cypresses waving their tips in the breeze. Around the roots of these dignified old trees, centuries old, were little flower beds of bright posies confined by stone edges between which, in formal fashion, were inviting little patios.

MAKE NO CLAIM OF "SURE" CURES FOR HUMAN ILLS

Can all children be immunized against infantile paralysis as against diphtheria and smallpox? That is the question which the nation's anxious mothers have been asking of Dr. William H. Park since the director of New York's health department bureau of laboratories announced the discovery of a new vaccine for the disease. In the Parents' Magazine, Doctor Park answers with a qualified, "No, not yet."

CHINESE BRIDES MODERN

Chinese brides now have their wedding garments done in the best Paris styles. Time was when a Chinese girl, told by her parents she was to be married, prepared a dress of heavy red satin, a terrific breast-plate of pearls, a red satin veil and a shock-proof headdress. Now she shops on Nanking road and a Russian modiste prepares her gowns. The modistes introduced the Russian wedding headdress, hardly suited to the contour of a Chinese head, and the chic Oriental brides are wearing the wedding veils of the western world. Gone, too, are old wedding forms. Wedding dinners in one of the new hotels, dancing, photographs, honeymoons—all the Occidental paraphernalia is customary.

Venezuela Honors Major of Marines

FORDNEY Stratosphere Balloonist Awarded MEDAL

Major Chester L. Fordney, United States marines (left), who is on duty in Chicago as commanding officer of the Central reserve area has just been decorated by the republic of Venezuela with the "Medal de Honor de Instruccion Publica." The medal was presented to the major by Senor R. Carlos Le Bret (right), consul of Venezuela in Chicago, at a dinner in the Adventurers' club.

Mice Plague Orchardists

Porterville, Calif.—Page the Pied Piper! Doves of field mice that chew the bark from trees are plaguing orchardists of this region. In some cases the rodents strip a complete circle of bark, necessitating bark-grafting to save the trees from death.

THE ABILITY FAMILY

THE best neighbors I ever had were the Ability family. There were eight in the present family, one child died young. The father's name was Reliability, the mother's Responsibility. They were each well named. The father had the respect and confidence of all he met in business—people, even strangers, felt him to be trustworthy. The mother played her part, too; after visiting her household, one could be assured that she carried her part of the home making for her husband and their six children, adding more duties each day to her already full program. Her name was Responsibility and she lived up to it.

After a few years passed another child was born to this interesting family, not as strong in health as the first two children, but patient unto long endurance, with never a word of complaint. This child was calm and often silent with an inner reserve and strength that won from his friends great admiration and love. His parents called him Durability. The fourth child was a joy to its mother. Nothing ever seemed to go wrong when this little fellow was about. Everyone loved him as he grew up, because he was thinking constantly of others. He would change his plans to accommodate others if he need be. Unselfishness was his watchword. His name was Adaptability. One child died young. Peevish and ill-tempered, he grew quite apart from the family traits. His name was Irritability. He was too unhappy to live long. After the death of Irritability the Ability family was again augmented by two, when the twins came. Happy, good natured, lovable pair of youngsters they were. They brought sunshine and joy wherever they went. Everybody agreed that they should be called Affability and Comportability. So this is the Ability family. How many of them have you met in your circle of friends? Do you wonder the name of this family was ABILITY?

LET US MAKE YOUR VACATION TRIP SAFER

BEFORE you start on your vacation trip, let us completely inspect your car. There is no charge for this service and it will assure you of a safer and more enjoyable trip. For the convenience and safety of car owners Firestone has established more than 500 Auto Supply and Service Stores throughout the country, and thousands of Firestone Dealers are also equipped with complete Auto Supplies and complete Service Departments, to test and service your tires, brakes, batteries, spark plugs, in addition to power lubrication and crank case service.

AVOID THE DANGER OF BLOWOUTS

Firestone removes the danger of blowouts by preventing their main cause—internal friction and heat. This is accomplished by Gum-Dipping. THERE ARE THREE QUESTIONS AND ANSWERS THAT WILL SOLVE YOUR PROBLEM OF WHAT TIRES TO BUY:

- "Will the tread give me the greatest traction and protection against skidding?"
- "Are they blowout-proof?"
- "Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes. For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike's Peak Race where a skid means death.

1 University test shows Firestone High Speed Tires stop cars 15 to 25% quicker.	2 Gum-Dipped cords give greater blowout protection. Gum-Dipping is not used in other tires.	3 Wider, flatter tread gives more than 50% longer non-skid wear.

THE MESSENGER

Published Every Thursday At Hagerman, New Mexico TELEPHONE 17

Entered as second class matter at the post office in Hagerman, New Mexico, under the act of Congress of March 3, 1879.

Resolutions of Respect, Obituaries, Cards of Thanks, Reading Notices, and Classified Advertising, 8 cents per line for first insertion, 5 cents per line for subsequent insertions. Display advertising rates on application.

\$1.00 per year in Chaves and Eddy counties. \$2.00 elsewhere.

ETHEL W. MCKINSTRY Managing Editor

Hagerman is very fortunate in having as citizens, young men, and older men, who can look ahead and see a vision, and not be afraid of the efforts to follow up that goal through practical veins of knowledge and experience, whether the wisdom be theirs or of others. They are of the magnanimous type, that are willing to bestow glory where it belongs, and unselfishly work toward civic interests.

It is because of men like this, that we will soon have one of the best water-works systems of the southwest, one that we can justly be proud of. It has taken months, and we might say years, for level heads to work out a feasible plan, whereby the dream might come true. There have been pessimists, who have "been afraid," but if you study those types, you find, they are rarely successful in a business, social or spiritual life.

It is because of citizens like the first we named, that some day Hagerman will have other things that we need. Men and women that it is such a pleasure to be associated with; men and women, who do not allow themselves to get into a rut; are never satisfied, but always striving, and never afraid to give a word of encouragement.

"While we are bestowing bouquets," we might add as an afterthought, what a certain party said not so many moons ago. This person had been away from here for a brief respite, and was wont to utter upon their return, "Why I like Hagerman, I've never seen a better little town. People treat you as if you're human. In their business they are so courteous. And I like its progressive spirit."

REMARKS ON RELIEF

The following item clipped from the Semi-Weekly Farm News was brought to us by H. K. Privitt. Mr. Privitt says this is the best article he has seen in a long time on the national relief question: If wisdom and righteousness went hand in hand, ours would be a prosperous land. The new World Dictionary defines wisdom as "knowledge practically applied to the best ends." The unrighteous will not apply their wisdom to the best ends if it conflicts with their selfish interests. The righteous would not curtail or destroy farmers' products when thousands are suffering for need of them.

Nobody knows that farmers have produced too much of anything, because their products have never been adequately distributed among the needy. - Agriculture, the basic industry, is suffering more from the depression than any other industry. Tenancy is increasing. If the present program is kept up much longer, nearly all farmers will be tenants.

Roosevelt's huge spending program will be in full blast soon, but it won't help farmers, nor anybody else any longer than it will take to spend it. Capitalists will not invest in uncertainties. The New Deal will be kept up, in its present form, or a modified one, as long as Mr. Roosevelt is president. Billions of dollars is being spent for temporary relief, but practically nothing for permanent relief. Farmers and laborers are getting restless and are ready to grab at anything that offers relief. Maybe Huey Long or somebody else, who offers a quick remedy for our ills, will sit in the president's chair; but I don't think anyone can deliver us soon from the muddle we are in.

J. B. MARTIN, R. 1, Commerce, Hunt Co., Texas.

SALES TAX TOKENS RECEIVED BY STATE

SANTA FE—Thirty thousand one- and five-mill tokens, the first of 650,000 ordered by the state of New Mexico for customers' use in defraying the sales tax on small purchases, were shipped from Pennsylvania Wednesday, it was announced here Monday.

Ben D. Luchini, director in charge of the sales tax, said he had been advised that daily shipments of 30,000 tokens would follow.

Girl: Mother, what is meant by the Progressive party? Mother: Why, it's one of those parties where all the partners change after every hand.

"THAT LITTLE GAME" Inter-nat'l Cartoon Co., N.Y.—By B. Link

THE CHURCHES

Changes in time of worship services, subjects, etc., must be in The Messenger office by Wednesday of each week. Pastors or members of congregations whose church announcements do not appear in this column are urged to send them in. Churches in Dexter and Lake Arthur are especially desired.

CHURCH OF CHRIST (Greenfield) Morning worship, Sunday, 10:30 o'clock. Evening worship, 7:45 o'clock. Everybody is cordially invited to attend any and all of these unusual services.

CHRISTIAN CHURCH F. H. Evans, superintendent. Sunday school, 10 o'clock. We especially want the young people to attend our Sunday school and extend an invitation to all to come.

ASSEMBLY OF GOD CHURCH Sunday school 9:45 a. m. Preaching 11:00 a. m. Mid-week services on Wednesday and Saturday nights. Everyone welcome. DAVID L. LAUGHLIN, Pastor.

METHODIST CHURCH Sunday school 9:45 a. m. Preaching 11:00 a. m. Subject to be discussed: "Be of Good Cheer." In the night program the League will meet at 7:30. Preaching 8:00 p. m. J. W. Slade.

HAGERMAN PRESBYTERIAN CHURCH Sunday school 10:00 a. m. Preaching service 11:00 a. m. Christian Endeavor 7:30 p. m. Theme for the morning service: "A Lifeless Faith is A Useless Faith." You are cordially invited to all of these services. James A. Hedges, Pastor.

CHURCH OF THE NAZARENE Rev. E. L. Askins, Pastor Sunday school, 9:45 a. m. Morning sermon, 11 o'clock. N. Y. P. S. and J. Y. P. S. 6:30 p. m. Evening service 8:00 p. m. A spiritual church in a friendly community. The Teacher's Leadership Training Work school began on Tuesday evening at the church and will continue on each Tuesday evening until completion, which will be for several months. It is under the direction of the Rev. E. L. Askins, who is district supervisor of this work.

The Rev. Askins has received word that the Rev. John F. Roberts will be here next Sunday, July 28th, and will talk at the church. The Rev. Roberts is manager of "Rest Cottage" at Pilot Point, Texas, and is a former pastor of the local church.

ROSSELL PCA EXCEEDS \$44,000 IN LOANS FOR JUNE The Production Credit association at Roswell was one of the two associations in New Mexico to exceed the \$44,000 loan mark during June. The Roswell organization made \$44,538 in loans in June.

Weeding announcements, printed or engraved.—The Messenger.

IN THE DISTRICT COURT OF CHAVES COUNTY, STATE OF NEW MEXICO.

HAGERMAN DRAINAGE DISTRICT, Plaintiff, vs. E. S. BOWEN, ETAL., Defendants. No. 8797.

(d) Each tract of land will be sold separately to realize the

amounts herein mentioned. (signed) J. M. H. CULLENDER, Special Master. 28-4t

NOTICE STATE ENGINEER'S OFFICE

Number of application RA-1279 Santa Fe, N. M., June 29, 1935. Notice is hereby given that on the 28th day of June, 1935, in accordance with Chapter 131 of the Session Laws of 1931, Howard & Blanche Hollowell of Dexter, County of Chaves, State of New Mexico made application to the State Engineer of New Mexico for a permit to appropriate the underground water of the Roswell Artesian Basin to the extent of 1500 gallons per minute by drilling a 12 inch in diameter shallow well to the approximate depth of 150 feet located in the SW corner SW 1/4 NE 1/4, Section 14, Township 13 South, Range 25 East, N. M. P. M., for the purpose of irrigating 80 acres of land described as follows: S 1/2 NE 1/4 Section 14, T. 13 S., R. 25 E.-----80 acres Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 10th day of August, 1935, the date set for the application up for final consideration unless protested. THOMAS M. McCLURE, State Engineer. 28-3t

CALL FOR BIDS

Bids will be received at the office of the clerk of the Dexter Municipal Board of Education, District No. 8, Chaves County, New Mexico, until 6:00 p. m., August 17, 1935, for the operation of school bus routes Nos. 1, 2, 3 and 4 in that district during the school term 1935-36. Forms and information for bidding may be obtained from the undersigned clerk of the board. 29-5t FRANK WORTMAN.

NOTICE FOR PUBLICATION

Department of the Interior, General Land Office at Las Cruces, New Mexico, July 19, 1935. NOTICE is hereby given that James L. Mathes, of Hagerman, New Mexico, who on July 18th, 1929, made Homestead Entry, No. 036949, for N 1/2, Section 20; N 1/2 NE 1/4, NW 1/4, Section 21; N 1/2 NW 1/4, Section 22, Township 14 S., Range 24 E., N. M. P. Meridian, has filed notice of intention to claim three year Proof, to establish claim to the land above described, before Dan C. Savage, U. S. Commissioner at Roswell, New Mexico, on the 29th day of August, 1935. Claimant names as witnesses: L. K. Waggoner, of Dexter, New Mexico, James L. Hemphill, James Deen, A. L. Turnbaugh, these of Hagerman, New Mexico. PAULA A. ROACH, Register. 30-5t

NOTICE STATE ENGINEER'S OFFICE

Number of application RA-1280 Santa Fe, N. M., July 18, 1935. Notice is hereby given that on the 11th day of July, 1935, in accordance with Chapter 131 of the Session Laws of 1931, R. G. Durand and J. R. McNeil of Dexter, County of Chaves, State of New Mexico, made application to the State Engineer of New Mexico for a

Cull Loafers Keep Layers

The best time to cull the flock is when the hens go out of production, says W. M. Ginn of the New Mexico State College. It is wasteful to give high-priced feed to the non-layers. The poorest layers usually start molting and stop laying in June or July and will not begin laying again for several months. Some of them will loaf until next spring. Trapping tests at state experiment stations have shown that the earliest molters are usually the poorest layers. Those hens that lay through the summer and do not molt until late fall will stay out of production for the shortest period and will produce more eggs when they do resume laying. Hens that are molting should be culled now; it is poor economy to feed them all summer and then sell them in the fall. Also, culling is one of the best methods of keeping death losses down to a minimum. It is a known fact that those poultrymen who cull often and thoroughly have fewer deaths in their flocks than those who fail to cull out the loafers. Culling is not the same thing as breeder selection. Selection is the choosing for breeders of those birds that have the inherited characteristics desirable for good breeders. Culling is the elimination of those hens not laying enough eggs to pay their feed bill. Culling is for the immediate improvement of the flock from an economic standpoint and has little or nothing to do with the genetic advancement of the strain.

There is no one season of the year that is especially favorable for culling. Culling should be done often. Some of the most successful poultrymen cull once a month during the summer when hens are going out of production. Those who have had no experience in culling can secure complete information on the subject by writing for the bulletin on culling which is sent out by the Extension Service, State College, New Mexico.

Mr. and Mrs. Sam McKinstry and family, Mr. and Mrs. Tom McKinstry, Mr. and Mrs. Lloyd Harshbarger and family, Jim McKinstry and Peggy McKinstry, James and J. E. McKinstry, Miss Louise Miller, Robt. West and Edward Jacobson motored to the Bottomless lakes Sunday afternoon where the children enjoyed swimming and a picnic lunch was spread.

permit to appropriate 2,000 gallons per minute of the underground waters of New Mexico by the drilling of a 20 inch well 200 feet deep in the NW 1/4 SW 1/4 Section 35, T. 13 S., R. 25 E., N. M. P. M., and pumping the same for the irrigation of 320 acres of land in the south half of said Section 35 during each irrigation season. Any person, association or corporation deeming that the granting of the above application will be truly detrimental to their rights in the waters of said underground source may file a complete sworn statement of their objections substantiated by affidavits with the State Engineer and file proof of service of a copy thereof upon the applicant with the State Engineer on or before the 27th day of August, 1935, the date set for the application up for final consideration unless protested. THOMAS M. McCLURE, State Engineer. 30-3t

THIRD CUTTING

The third cutting season was in a fair way but has been postponed by the weather. Both the quantity of the third cutting to be excellent. Chaves sold on the present market per ton. Much of the present crop has been moved to Texas truck.

A THIRD BATTLE

News Review of Current Events the World Over

Lobbying and Virgin Islands Investigations Develop Lively Scraps—House "Rebels" Are Tame Concerning TVA Amendments.

By EDWARD W. PICKARD
© Western Newspaper Union.

FIFTY thousand dollars was appropriated by the house for investigation of the rules committee and against bills affecting utilities interests. Representative Rankin of Mississippi declared that Representative O'Connor of New York, chairman of the committee, was unfit to conduct the inquiry because he was antagonistic to the administration. O'Connor, rising to reply, was given an ovation by the house, and promised the investigation would be thorough and impartial.

Already, the committee has begun its work, the first witness being Representative Brewster of Maine, who declared Thomas G. Corcoran, New Deal lawyer, had tried to force him to vote for the "death sentence" provision in the utilities bill by threats of stopping work on the Passamaquoddy project. Corcoran was then put on the stand and denied the main features of Brewster's story, whereupon the Maine congressman shouted, "You're a liar." Corcoran explained with a flourish his activities in behalf of the utilities measure. He said he was assigned to help in the original drafting of the bill through a direct request from the President. Senators Wheeler and Borah, he said, asked him to help in the drafting of the bill and pocketed the bill.

The senate committee on audit and the senate committee on the judiciary reported favorably on the bill. The house and senate are calling for a \$50,000,000 much in vogue development to investigate lobbying. Weariness in connection with all legislative work, match the committee of the session, and the resolution was adopted by the senate.

It was the summer heat in Washington; perhaps there was a lot of pressure from the White House, the backbones of the Democrats, recently so stiff. The "death sentence" by the administration, weakened most noticeably when the house took up the re-drafting of the Tennessee Valley authority act. Nearly all the re-drafting fell into line and the bill was passed by every major provision that was objectionable to the President. These amendments were approved.

To let the TVA operate without excessive control by the comptroller general over its expenditures. To delete a section preventing the agency from constructing power lines paralleling existing private lines. To let the authority decide on the rate of interest which will build dams of important works on the Tennessee river or tributaries. The authority greatly heartened the construction forces, and they went forward to try for another conference on the utilities bill. The senate fight for the bill was broadening the powers of the TVA. Senators Borah and Clegg, the chief opponents of the bill, were defeated. Dealers in this latter

Lesson for July 28

AMOS
LESSON TEXT—Amos 7:1-17.
GOLDEN TEXT—But let judgment run down as waters, and righteousness as a mighty stream.—Amos 5:24.
PRIMARY TOPIC—A Hero Preacher.
JUNIOR TOPIC—When God Needed a Hero.
INTERMEDIATE AND SENIOR TOPIC—Standing for the Right.
YOUNG PEOPLE AND ADULT TOPIC—God's Plumb Line and Our Social Order.

Amos was a herdsman called of God to be a prophet. A prophet is one who speaks forth the message of God. He convicts the people of their sins, pleads for them to get right with God. The only effective way to correct wrong social usage is to bring the people into right relationship with God.
I. The Call of Amos (1:1).
He was a herdsman and gatherer of sycamore fruit (7:14). He was not a prophet by succession, neither was he trained in the prophetic schools.
II. To Whom Amos Was Sent (1:1).
Though he was from Judah, his ministry was to be primarily to Israel.
III. Amos' Message.
1. Sins denounced (2:6-8; 6:1-6).
a. Avaricious greed (2:6-8).
(1) Sold the righteous for silver (v. 6). The judge, for a bribe of silver, declared the innocent to be guilty.
(2) Sold the poor for a pair of shoes (v. 6). It doubtless referred to the practice of selling into slavery the debtor who could not pay for a pair of shoes which he had been sold on credit.
(3) Pants after the dust of the earth (v. 7). So avaricious had these men become that they even grasped after the earth which the down-trodden poor cast upon their head in their mourning because of their misery.
(4) Turned aside the way of the meek (v. 7). These grasping rich men turned aside the meek, that is, those who did not stand up for their rights.
(5) Licentiousness (v. 7). So notorious were the immoralities practiced that they were even guilty of incestuous prostitution. How adequately this pictures the licentiousness of our present age.
b. Reckless security (6:1-3). They closed their eyes to the approaching storm of judgment predicted by the prophet.
c. Luxury (6:4-6). Their luxury expressed itself in:
(1) Extravagant furniture. They had beds of ivory, which means, doubtless, wood inlaid with ivory.
(2) Laziness (v. 4). Many stretched themselves on their couches, thus living lives of indolence.
(3) Feasted on delicacies (v. 4). They bought what they desired, regardless of its cost.
(4) Adorned their feasts with music (v. 5). They sang idle songs, even inventing musical instruments for this purpose.
(5) They drank wine (v. 6). They drank from bowls, indicating excessive drinking.
d. They failed to grieve for Joseph. Many are today indulging in luxury, entirely indifferent to the crying needs of others.
2. The remedy proposed (5:4-9). The prophet called upon them to return to God. The time to repent is while divine judgment is stayed. In their turning to God they were to renounce:
a. Idolatry (vv. 5, 6). They were to turn away from the places of idolatry—Bethel, Gilgal, and Beersheba.
b. Seeking to pervert judgment (v. 7). Turning judgment to worm-wood implies the bitterness of the perversion of judgment to the injured.
c. Seeking to dethrone righteousness (v. 7). "Leaving off righteousness" is thought to mean that unrighteousness was allowed to take its place.
IV. Intercedes for the People (7:1-9).
The prophet stands here not merely as the proclaimer of judgment, but as the intercessor for the people.
V. Opposed by Amaziah the Priest (7:10-17).
1. Message sent to Jeroboam (vv. 10, 11). The priest sought to hinder the prophet by informing the king of the judgment which Amos proclaimed.
2. He attempted to silence the prophet (vv. 12, 13).
3. The prophet's bold reply (vv. 14-17).
a. He declared that he had received his commission from God directly (vv. 14, 15). The one who has heard the call of God must be faithful in the declaration of his message even though opposed by ecclesiastical and political leaders.
b. Doom pronounced (vv. 16, 17). He set forth the shame and distress of the Babylonian captivity, which came upon them because of their unfaithfulness to God.

THOUGH the naval treaties of Washington and London have been abrogated by Japan, the American government still keeps its eye on the maximum permitted for our navy by 1942 and is making a determined effort to reach it, much to the delight of the "big navy" men and to citizens generally who believe in adequate preparation.
Secretary of the Navy Claude Swanson has announced that a ship construction program has been decided upon which calls for the construction of 12 destroyers and six submarines. These are in addition to the 15 destroyers and six submarines for which bids have been advertised and will be opened next month.
The airplane building program calls for 555 new planes during the current fiscal year. Of these, 282 will be replacement planes for those now in service and 273 will be new craft. Two airplane carriers and six cruisers now under construction and scheduled for completion in 1937 are to house some of the new planes.

FLOODS in several eastern states, following torrential rains, took about three score lives and did vast property damage. The Finger lakes and Catskill mountain regions in New York suffered most severely. The deaths there numbered forty, and thousands were rendered homeless. Gov. Herbert L. Lehman announced an immediate allocation of \$300,000 for use in rehabilitation.
NOBODY who knew Ray Long well was surprised to hear that formerly famous magazine editor had committed suicide at his California home. In late years he had not been very successful in business, his most recent ventures being in the field of scenario writing. He was not one to put up with adversity very long, and it was characteristic of him to take the easy way out, of suicide.

OLD JACOB S. COXEY of Massillon, Ohio, is again on his way toward the White House, having been nominated for President by acclamation by a national Farmer-Labor convention in Omaha. To be sure there were only a few delegates, and some of them bolted; and the convention, which was to have lasted five days, had only one session. But it was a regular affair. Leslie Erickson of Minneapolis was chosen to be "General" Coxe's running mate. The platform includes a lot of things, among them being planks for sharing the wealth, inflation and technocracy.

NIKOLA TESLA, famed scientist, celebrated his seventy-ninth birthday in New York by giving out the news of three astonishing developments in the sciences. They are:
1. A new method and apparatus for transmitting mechanical energy over any terrestrial distance.
2. Passage of an induction current with a varying flux one way only through a circuit without use of a commutator.
3. Proof, after observation of cosmic rays, that many of the propositions of relativity are false.

CRITICS of the President's program have made up their minds that he is deliberately building up a "crisis" which will provide excuse for a demand for constitutional amendments in the campaign of 1936. Their conviction was strengthened by Mr. Roosevelt's letter to Congressman Samuel R. Hill, chairman of the Interstate commerce subcommittee, urging the passage of the Guffey coal bill regardless of doubts as to its constitutionality. President Roosevelt followed the suggestion of Attorney General Cummings that the legislation should be put through congress because "the situation is so urgent," and that the question of constitutionality should be left up to the courts.

OUR army lost an able and distinguished officer in the death of Maj. Gen. Stuart Heintzelman at the army and navy hospital in Hot Springs, Ark. The grandson and son of army officers, General Heintzelman was graduated from West Point in 1898. After service in the Philippines and China he was sent to France as an observer, and when America entered the war he held high staff assignments. He won the D. S. M. and was decorated by France and Italy.

Apartment City Built by People of 85 B. C.

How many of us have the impression that apartment dwelling is comparatively modern? No doubt a good many of us. However, surprising as it may seem, apartment dwelling dates back to about 85 B. C., according to official records.

How much further no one can answer, but an exhaustive research by the writer reveals that in 85 B. C. an entire apartment city was built high up in the Andes, a place called Machu Picchu, Peru.
The entire city was built about 7,000 feet above sea level, on a precipice leading up from the Grand canyon of the Urubamba. It was supposed to have been constructed to promote safety. These apartments were built of white granite and divided into one and two rooms per family, with one window and door in each building. This was quite the mode of living in that day.
We also find a troglodyte village in southern Tunisia, with apartment houses built of mud dauber, each apartment being separate from the others and consisting of one room, one door and no windows.
Crude, treacherous stairs, worn by much use, led to the doors from the outside. The life of these inhabitants was much like that of the Pueblo Indians of America and was another instance of apartment dwelling of that period.
We find in the Twelfth century in Kandy, Ceylon, a type of apartment better known today as the homes of the original cliff dwellers. These cliffs were built in the form of individual apartments, one above the other and served as a refuge for the Ceylonese against the invading Malays.

The Ceylonese monarch of that age was so much impressed by the apartment, or cliff dwellers, that he appointed priests to take charge of them, and dedicated lands for their support. That was probably the origin of our present superintendent or resident manager of apartment houses.
Coming to the North American continent, we find at Mena, Verda, Colo., a large community apartment, known as "The Cliff Palace," tucked away under an overhanging rock,

which afforded protection in the form of a roof.
Entrance was made from the top of the apartment, by a crude ladder and the individual apartments were built in tiers, rising a few feet per apartment. This is still a famous relic of ancient Indian civilization in southwest Colorado.
What was probably the first example of set-back architecture was discovered at Taos Pueblo, New Mexico, where a large Indian communal house was discovered and housed about 200 Indian families. This house was inhabited by Pueblo Indians and was built of stone and sometimes mud. This communal house was often the subject for artists.—Raymond R. Keane, in the Philadelphia Record.

SEIZE STILL AT OTIS

Harold S. Dew, chief investigator of the alcohol tax unit, said Monday a small still was seized and one man, Jesus Dorado, was taken into custody Sunday at Otis. Forty gallons of mash and three gallons of untaxed whiskey were seized also, Dew said.

IN SOCIETY

Phone 17

(Items for either this column or the calendar must be turned in by not later than Wednesday noon)

METHODIST MISSIONARY SOCIETY MET YESTERDAY

Mrs. Earl Stine was hostess to the Methodist Missionary society yesterday afternoon. Mrs. Flora West acted as president in the absence of Mrs. Cowan. Mrs. Wayne Graham gave the lesson, a play entitled, "When Custom Bends." She was assisted by Mrs. Ben F. Gehman, Mrs. Ben Jack West and Mrs. Van Arsdol.

Refreshments of sandwiches, cake and iced tea were served to eleven members: Mesdames J. F. Campbell, Ben F. Gehman, J. W. Slade, Wayne Graham, Alvin Downes, Carl Ridgeley, W. E. Graham, O. J. Atwood, Ernest Langenegger, Ben Jack West, the hostess and one visitor, Mrs. Cave. The next meeting will be a business session and will meet at Mrs. Jim Williamson's on August 7th.

HILL-GOODWIN

Miss Mollie Joe Hill of Abilene, Texas, and Mr. Wallace Goodwin were united in marriage in a ceremony at the First Baptist church of Abilene on the evening of June 29th. They will make their home in Abilene. Wallace Goodwin is the son of Mr. and Mrs. William Goodwin and is a graduate of Hagerman high school. He received his C. P. A. degree in Abilene and is employed as accountant at McWhiter McClure Co., and is also a notary public. He is always energetic and ambitious and interested in church and civic affairs. The Messenger extends congratulations.

GIRL SCOUT ACTIVITIES

Troop No. 2 met Friday morning at the home of Miss Martea Graham, their captain, and with their lieutenant, Miss Maggie Burrell, also present.

A report was made on "Cleanliness," by Doris Hinrichsen. Refreshments of cookies and cooldade were served to the following girls: Roma Ellen Stroud, Mittie Jean Miller, Helen Goodwin, Gladys Graham, Alphadean Hinrichsen, Doris Hinrichsen, Jimmie Wheeler, Loula Fay Colbaugh.

GARDNER MADE HEAD OF THE STATE COLLEGE

LAS CRUCES—Professor Hugh M. Gardner, dean of the School of Agriculture of New Mexico State College was named acting president of the college Tuesday to serve during the absence of Dr. H. L. Kent, recently granted a year's leave of absence by the board of regents to regain his health.

The appointment was announced by Dan L. Williams, president of the board of regents.

Actively identified with education in the state since 1922, Professor Gardner has been dean of the school of agriculture since 1930 and for the past seven years has been director of the school's summer session.

Texas Protesting Building Of The Alamogordo Dam

With New Mexico contending that the Alamogordo dam is the only way to prevent 25,000 fertile acres from turning into a desert, a vigorous fight is to be made by the state July 29 at a Washington hearing to overthrow a protest by Texas which for the moment has stopped distribution of \$1,500,000 for the New Mexico project.

The dam, to be located near Fort Sumner, 175 miles north of Carlsbad on the Pecos river, was allocated a million and a half with only the signature of the president needed before the money actually was turned over. A like sum was approved for distribution next year.

Texas has protested, however, and stopped distribution of the money, it was said at Santa Fe last week.

The dam will supplant now, and eventually replace, the Lake McMillan project where a dam originally built to impound 95,000 acre feet will now retain only 20,000 because of gypsum erosion. Last year, due to the drought, the lake dried up with consequent loss of thousands of fish and a loss of some \$800,000 in crops.

Gov. Clyde Tingley and C. W. Beeman, president of the Carlsbad Irrigation district, last week held a conference with Attorney General Frank Patton on ways and means to combat the Texas attitude. Beeman said New Mexico had not objected to the Red Bluff dam in Texas, 15 miles from the state line, but now Texas was trying to block a New Mexico dam. Water rights on the Pecos were attacked, Texas has threatened, Beeman said. New Mexico has ratified the Pecos compact, but Texas never has.

There is an area of about 25,000 acres in the Carlsbad district planted to cotton and alfalfa and cultivated since 1889, Beeman explained. This requires about 75,000 acre feet of water a year. Without it, "the savings and efforts of our lifetime, I have lived there 46 years for example, will become desert," Beeman said. Lake McMillan, under the new dam project, would become only a diversion dam.

The local feminine ball team, composed of Helen Goodwin, Isadora Dolohan, Gertrude Dunken, Maggie Burrell, Rosa Mae Allen, Bettie Mason, Besie Prentice, Laura Lee Windham, Julia Farrell, Alma Sue Boyce, Jeanne Pardee and Ruby Bailey, journeyed to Carlsbad last week on Thursday night and suffered their first defeat of the season. The score, in favor of the Blue Zippers, was 18-12.

CARSON'S BIRTH CERTIFICATE FOUND

Kit Carson's birth certificate, marriage license and burial permit were found last week at Taos. The discovery was made by a member of the faculty of St. Mary's College in California.

FOR SALE: One child's iron bed.

Lake Arthur Items

Miss Ella Ohlenbusch, Reporter

Walter Ramsey and daughter, Mrs. Delia Sharp of Denver, were visiting Tuesday with friends here.

Alma and Billie Bradley both underwent operations for the removal of their tonsils Wednesday.

Mrs. L. M. Gibson and daughter Lorraine came in last week for an extended visit at the home of her son Lyn.

Mrs. D. A. Goode and daughter Dixie Dan returned home Friday from a week's visit with relatives and friends in Bruin, Kentucky.

Miss Amanda Baker, who is employed at Albuquerque, came in Saturday for a few days visit with her mother, Mrs. John Griffith.

Ira Gibson spent the week-end here at the home of his brother Lyn from the CCC camp which is stationed at the Bottomless lakes.

William Ohlenbusch returned to State College to resume his work after a week's visit with his parents, Mr. and Mrs. D. Ohlenbusch.

Miss Alma Bradley returned home Wednesday from Carlsbad where she had been visiting a few weeks with her sister, Mrs. I. R. Funk.

Little Miss Mildred Perry returned to her home in Hagerman Sunday after a two weeks visit with her aunt and uncle, Mr. and Mrs. Zee Pate.

Pearl Meador, who has been visiting the past two weeks in Pecos, Texas, with her sister, Mrs. D. R. Bedford, returned home Saturday evening.

Quite a number of cattle were dipped Tuesday at the Russell farm. The cattle were brought there from all the neighboring farms to be dipped.

Mr. and Mrs. Zee Pate were dinner guests Sunday at the home of Mr. and Mrs. Vertis Crutchfield at their country home in the Cottonwood community.

Mr. and Mrs. J. E. Gromo received word Saturday of the serious illness of their son-in-law, Guy Bates of Glenwood. He was rushed to a Silver City hospital Saturday morning and at last reports was resting fairly well.

Mr. and Mrs. Jess Huff and daughters, Tressie and Blondell, motored to Artesia Sunday where they visited in the home of Mr. and Mrs. Gadberry.

Ella, William and Carl Ohlenbusch returned home Friday evening from Rhea, Texas, where they attended a young people's rally of the Lutheran church.

Lee Frazier came in last week from Portales for a few days visit with his family. Mr. Frazier is employed at the Baptist Orphanage at Portales. Mr. Frazier, with his family, plan on moving to Portales in the near future.

Redmond Pate and daughter motored to Carlsbad Sunday where Moselle underwent a doctor's examination. Moselle has been in ill health since she had the measles in the spring, but is slowly improving at the present.

Mr. and Mrs. Charlie Nelson motored to Carlsbad Wednesday to get her brother, Ed Price, Jr., who had been in the Eddy county hospital for the past two weeks, after an appendix operation. He is reported as doing as well as can be expected.

Miss Dorothy Warren stopped by for a short visit at the home of Miss Alma Bradley Tuesday afternoon. Miss Warren was a member of the 1935 graduation class with Miss Bradley at State College and is now employed in the rural rehabilitation work in Eddy county.

Charles Walden, who is employed at the White House in Washington, D. C., arrived here Tuesday morning for his vacation. He plans to be here for about a month. Mr. Walden has been employed at the White House for the past two years and this is his first vacation home since that time.

LOCALS

Mrs. Harry Cowan entered a bouquet of dahlias in the flower contest last Saturday.

Miss Elizabeth McKinstry returned Saturday night from a several weeks visit in south Texas.

Harry Cowan left early in the week to get Mrs. Cowan. Mrs. Cowan has been visiting relatives in Kansas.

Mr. and Mrs. Frank Richards of Carrizozo visited last week with Mr. and Mrs. J. F. Campbell. They are old friends.

Bobbie Charles Michelet went with Mrs. Cassabone and children to their ranch near Hope and spent several days.

J. T. West, Sara Beth West and Sammy Nan McKinstry left for Santa Fe on Sunday. They will return the latter part of the week.

We failed to mention that Mr. and Mrs. Cliff Hearn are driving a new car. (We were waiting to see if we would be offered a ride).

Mrs. Howard Russell has returned from a delightful visit to her old home in Arkansas. While there she took a motor trip to Kentucky where relatives lived.

Mr. and Mrs. Sadler of Crosbyton, Texas, spent the week-end with Mr. and Mrs. Elmer Lankford of the Greenfield community. Mr. Sadler is a brother of Harley Sadler of the famous Sadler shows.

Mr. and Mrs. Billy Heitman of Albuquerque arrived Friday night for a visit with Mr. and Mrs. W. L. Heitman. They left early Monday morning for Dallas to visit Mrs. Heitman's relatives.

Mr. and Mrs. Smith and daughter of New York City visited Mr. and Mrs. R. M. Ware. They are friends of Mrs. Roger Elliot (Alice Ware). While here they visited the Caverns and then went to Ruidoso.

J. N. Lankford, Basil, Odie Lee and Willie Lankford, fathed and brothers of Elton and Elmer Lankford, spent a week visiting the Lankford families. They left Tuesday for their homes in Dickenson, Tennessee.

Roswell is planning another good will tour. This time they plan to visit the lower valley towns on August 10th, and if all we hear about the band which is carried along is true, everyone will want to meet them.

News has been received of the marriage of Charlie Tanner to Miss Myrtle Ramsey of Angola, Indiana, on July 3. Mr. Tanner is a son of Mr. and Mrs. O. R. Tanner of Hagerman. They arrived home last Saturday.

Giles Barron left Friday for California in answer to a message reporting his father's death. Mr. Barron's father was in Imperial Valley at the time of his death, and it was thought that the heat brought about the fatality.

Mrs. L. W. Garner and John Garner, Mrs. Jack Sweet, Dorothy and Lois Jean Sweet, Mrs. Perry Andrus, Lillis Mae Andrus, Billie Jean and Jimmie Andrus and Mrs. Huckabee and young son of Brownfield have arrived from the nuptials where they spent last week.

Miss Vera Goodwin, who for the past two years has been enrolled in West Texas State College, and for the first term of this summer attended the Normal University at Las Vegas, has accepted a position as a teacher in the Olive school. She arrived home last week and will spend the remainder of the vacation with home folk.

Girl Scout News

Scout troops Nos. 1 and 2 met on Tuesday morning at 5:30 for a sunrise breakfast. During the hiking, a school bus of boys, who were on their way from the Caverns to the mountains, took snapshot pictures of the Girl Scouts. After the breakfast they went to Mrs. W. A. Losey's where Marie Wheeler passed a flag test. The Scouts followed a trail sign all the way to Mrs. T. D. Devenport's. At Mason's they were treated to coca cola. The morning ended at Miss Maggie Burrell's, where they drew a map of their route followed. Present were Captain Martea Graham, Lieutenant Maggie Burrell, Loula Fay Colbaugh, Gladys Graham, Lila Lane, Beatrice Lane, Helen Goodwin, Patsy Farkas, Mittie Jean Miller, Dorothy Sue Devenport, Doris Hinrichsen, Alphadean Hinrichsen, Lucile Michelet, Jeanne Marie Michelet, Marie Wheeler, Jimmie Wheeler and Roma Ellen Stroud.

More Leisure Time

Think! before you wash at home... rubbing, rinsing... you've always done summer heat and the of health—summer!

Think how much would be to have Laundry do your then—

Security Safety

Of Special Interest To Our Depositors

Since Deposit Insurance has been provided for your protection by this Bank, it is well to know something of the benefits it holds for you.

In the light of the law under which this insurance is afforded, all types of personal deposits, deposits of public and corporate funds, and deposits of other banks in insured banks are protected.

At the present time the maximum amount insured for each depositor is \$5,000. This means that all the money which you entrust to our care, up to and including five thousand dollars, is fully insured through the Federal Deposit Insurance Corporation, a permanent agency established by the Congress of the United States.
