THE PIANO

is the visible sign of culture in every gentele household. A fine instrument bespeaks eloquently the musical feeling, the artistic appreciation of the family, and lends a certain distinction to its environment however simple. Similarly is it true that an inferior piano cheapens the effect of the richest surroundings and hints of some stain on the owner's escutcheon of taste.

Commissioners' Proceedings.

(Copied from Outlook.)

Special meeting of the Hon. Board of County Commissioners having been called by the Chairman to meet on the 13th day of April, 1906.

Present: S. C. Weiner, Chairman; P. L. Krouse, member; Higinio Salazar member; W. E. Kimbrell, clerk; J. W. Owen, Sheriff.

The following are the proceedings of the meeting:

Upon motion of P. L. Krouse, seconded by Mr. Salazar, the matter of the county printing was taken up, it appearing that at the January, 1903, meeting, the then sitting county commissioners contracted to do such printing with the White Oaks Eagle Printing Company for a term of four years. The present board of commissioners being now advised by the district attorney's office that such contract so let for the term of four years is void on account of the same being contrary to public policy.

It is therefore resolved that said contract so let for four years, is hereby rescinded and that proposals for bids to do such printing for one year, to commence May 15th, 1906, be called for, and to this end the clerk of this board is instructed to cause notices to be inserted in the Capitan News and in the Outlook newspapers, inviting bids to do such printing for the one year above stated, said bids to be filed in the probate clerk's office and the same will be opened and passed upon at a special meeting of this board to be held May 16, next.

In the matter of the road recently constructed by contractor Booth—the board having heretofore appointed four citizens of Lincoln county to view this road, and they having reported to the board that the road has been constructed within the terms of the contract let to Booth, and each member of the board having respectively inspected this road in person, now receives the same and orders the clerk to issue a warrant to contractor Booth for \$450.00 in payment for the work done by him, less the sum of \$150.00 heretofore advanced him on this contract.

There being no further business court adjourned.

HATS! HATS!

P. G. PETERS, PROPRIETOR.

In memoriam.

James A. Mundell, was born in Green county, Pennsylvania, June 20, 1829. In the year 1854 he moved to Iowa. In 1856 was married to Miss Elizabeth Doshman, who survives him.

In October, 1861, he enlisted in the 4th Iowa cavalry and was honorably discharged in August, 1863.

In 1870 he joined the church and remained faithful to the cause up to his death.

In 1875 he moved to Ellis county, Texas, where he remained until 1899, when he moved to New Mexico, near this place, where he has since resided.

He was an honorable citizen and commanded the highest respect and confidence of his fellow-men in all communities where he has lived.

He raised a family of eight children, of whom six are still living. His age at death was 76 years, 8 months and 23 days.

OUR ABSENT ONE.

Our dear, dumb one, low lying there:
An humble vassal in that cold grave;
Glad partner of our home and fare,
No more to the cares and sorrows of this world a slave.

Henceforward, listen as we will,
Thy gentle voice in our home is still;
Look where we may, the wide world o'er,
Those eyes and kind smiles brighten our lives no more.

His children followed with endearing pride,
His loving wife endeavored to be ever near his side.

His ready smile a parent's warmth expressed;
Their welfare pleased him, their cares distressed,
To them his heart, love and grief were given,
But all his serious thoughts had rest in Heaven.
At last around his breast the rolling clouds did spread,
And eternal sunshine settled down upon his head.

We kissed the cold form and meekly surrendered
That sweet clay to lie under the pitiless sod;
But he shall rest at the end of the path in the city.

Whose "builder and maker is God."
MRS. ADNER MUNDELL.

Angus Items.

Mrs. Ruth Harper, who is teaching at Glencoe, came up last Saturday and staid over Sunday.

Rev. Humphrey filled his regular appointment at the Angus school house last Sunday, morning and evening.

The young people of Angus and vicinity enjoyed a social dance at the Angus Hotel last Friday evening.

The public school will begin at Angus next Monday, April 30, and continue four months.

Mrs. Rentfrow and the children made a short visit to Capitan the first of the week.

Mr. Walker and family left for Texas last Wednesday, where they expect to make their future home. They will make the trip overland.

Mr. P. G. Peters is baling his hay this week.

Mrs. Pflingsten is now ready to receive the public at the Angus Hotel.

Killed by Yaquis.

News reached Capitan recently that Samuel Williams, a son of Mr. and Mrs. J. S. Williams, who formerly lived in Capitan, had been slain by the Yaqui Indians in the state of Sonora, Mexico. The body was recovered and buried Sunday, April 15.

It was feared that a brother of the dead man had met the same fate, but a telegram came to the relatives here that he was not in the path of the Yaqui warriors, and that he was safe.

Deceased was a brother of Arthur Williams who died by poisoning in December, last year.

THE CAPITAN NEWS

CAPITAN, - - NEW MEXICO.

Joe Chamberlain ought not to have much difficulty in managing his party, seeing how little of it there is left to manage.

The output of gold last year was \$375,000,000. This is gratifying, but not necessarily the cause of individual rejoicing.

Gold is getting too cheap, says a contemporary. The individual experience of the citizen scarcely bears out that statement.

The government made only five silver dollars in 1905. Still that was doing pretty well. Some men didn't make even that much.

It seems that Harry Lehr was afraid Town Topics would make him ridiculous. Evidently Harry wanted that job all to himself.

It must jar the king of Spain a little to know that the British people are not wildly enthusiastic about taking him into the family.

It is stated that a Cossack gets about 6 cents a day—which in his case may be regarded as a fair day's wages for a fair day's work.

The steel trust earned \$120,000,000 last year. So did we, according to our way of looking at it; but we didn't collect quite that much.

Chicago housewives want a fourteen-hour day, this being a reduction of about ten hours from the time many of them are on duty.

How we love to talk of the wonderful things we have not done. The reason for this is that nothing is wonderful after it has been done.

"Self-Supporting Home" is the title of a new book. If it can "make good," it is the book for which mankind has been waiting these 6,000 years.

An automobile that can travel a mile in twenty-eight seconds would seem to need only a pair of wings and a rudder to be a flying machine.

Never mind, even if you can't go down to Florida, and pick fans off the palm trees. You can read the automobile news from Ormond beach.

A Chicago man has evolved the ideal hen. We never dreamed it was possible to get a hen that you could eat without interfering with its output of eggs.

Dr. Parkhurst says that "no gentleman swears." He should make an exception in favor of Elbridge T. Gerry, who swore like sixty at a Town Topics solicitor.

It seems as if King Alfonso might pick out some more romantic place to meet his bride than Biarritz—the town with the name like the rasping of a crosscut saw.

New Haven has a bachelors' club which was organized to repel woman-kind. There is nothing to indicate, however, that its members are in danger of a siege.

Bernard Shaw writes to an American clipping bureau that he has been "cured of vanity, of curiosity, of ambition." Now watch him and see how long he will stay cured.

Andrew Lang is writing about fiction when he remarks that most modern heroines are married women, and he probably wouldn't venture the assertion that all married women are heroines.

WONDERS OF COAL TAR.

Vanilla Extract One of the Many Articles Made From It.

"Do you know that a majority of the vanilla flavoring used in the world is not made from the vanilla bean, but is the product of tar? Do you also know that there are now between 500 and 1,000 articles of commerce sold in the markets that are the product of that same tar?"

The questions were asked by Gardner C. Crawford, an American, who has long been engaged in business in Tahiti, who is stopping at the Savoy hotel while en route east. Mr. Crawford was in the business of growing and extracting vanilla in the island, which was the principal product of the natives, but modern science put him, as well as the native growers, out of it. The German chemists discovered that a product commercially called "vanaline" could be produced from tar at one-tenth the cost of the natural vanilla flavor. It is as good as the natural product and there was no competing with that.

Mr. Crawford says that tar is proving a productive field for the chemical with the various coal tar products that have been made for the cure of headache, but it will be surprising to know that the experiments have been so extensive as to now include over 500 articles. At the same time not one-fourth of the tar product of the world is consumed annually.—Denver Republican.

"A Chicago professor says that vegetation has sensations the same as human beings." "Good gracious, he ought to tell that to the vegetarians!"

FOOD AND STUDY

A College Man's Experience.

"All through my high school course and first year in college," writes an ambitious young man, "I struggled with my studies on a diet of greasy, pasty foods, being especially fond of cakes and fried things. My system got into a state of general disorder and it was difficult for me to apply myself to school work with any degree of satisfaction. I tried different medicines and food preparations but did not seem able to correct the difficulty.

"Then my attention was called to Grape-Nuts food and I sampled it. I had to do something, so I just buckled down to a rigid observance of the directions on the package, and in less than no time began to feel better. In a few weeks my strength was restored, my weight had increased, I had a clearer head and felt better in every particular. My work was simply sport to what it was formerly.

"My sister's health was badly run down and she had become so nervous that she could not attend to her music. She went on Grape-Nuts and had the same remarkable experience that I had. Then my brother, Frank, who is in the postoffice department at Washington city and had been trying to do brain work on greasy foods, cakes and all that, joined the Grape-Nuts army. I showed him what it was and could do and from a broken-down condition he has developed into a hearty and efficient man.

"Besides these I could give account of numbers of my fellow-students who have made visible improvement mentally and physically by the use of this food." Name given by Postum Co., Battle Creek, Mich.

TREE REVERED BY MEXICANS.

Peculiar Formation Has Made It Known as "Tree of Fate."

The height of happiness is reached by the Broadway florist when he puts some new growth in his window that attracts the crowds. He feels like a theatrical star at a first night's performance.

This week one of the craft has been displaying a Toluca hand tree. The shrub is not very large, but boasts wondrous flame flowers. The calyx is blood red, and each column of stamens support a tiny hand that seems to have been dipped in blood.

Mexicans revere the tree and pray beneath it. It is sometimes called the Tree of Fate. When the devotees solicit advice beneath its branches if they have patience and wait long enough, the fingers of the hand will point the direction to take on a homeward journey in order to have good luck. The unsuperstitious scientists say that the pointing of the fingers is but the action of the wind and air, but the devotees pooh-pooh this.

In its native land jeweled rings are placed upon the Toluca's hand to propitiate the spirit of the tree and bring happiness to the donor.—New York Press.

The Chinese Clerk.

Chinese merchants and clerks are in evidence wherever trade is carried on in Hongkong, writes Edwin Wildman in the Chautauquan for February. The great banking houses employ Chinese money changers, interest clerks and schroffs. No white man can compete in methods of lightning calculation with the Oriental. The long, slim fingers of the Chinaman, gliding over the beads of the abacus, is a sight to inspire admiration. With the agility and accuracy of a piano player the Chinese accountant will perform problems of arithmetic that are astounding. The most complicated sums in banking are computed with the ease a professional pianist might render the simplest melody. Counterfeit money is the order, rather than the unusual, in China; the whole country is full of it. But the Chinese schroff will detect by touch a spurious coin or bill, as it passes through his fingers or glides across his palm. He can count a pile of dollars, running them over his hand with such rapidity that the eye of the onlooker is unable to distinguish anything but an uninterrupted stream of silver. The integrity of the Chinese clerk is well known. He is the accountant, cashier and middle man.

Locks No Longer There.

Mr. Sibley of Pennsylvania was making a speech in the house about the rate bill when Ollie James of Kentucky broke in with a fierce interruption. Mr. James is the baldest man in the house, excepting Mr. Sibley, and Mr. Sibley is the baldest man in the house except Mr. James. On sunny days persons who sit behind them have to wear blinders. Mr. James kept plaguing Mr. Sibley until both became excited. The verbal duel waxed hotter and hotter until Sibley, striding into the aisle and shaking his finger at James, cried furiously: "Sir, you can not shake your gory locks at me!" Mr. James saw at once that this was true. He stuttered and sat down.

Dwarf Trees and Giant Results.

Gather apples and pears two years after planting the trees? exclaims a writer in the February Garden Magazine. Impossible, you say! Not at all. I have done it, others do it, and so may you. Of course, the large orchard trees commonly seen take five or six years to reach fruiting age, but by planting dwarf-trained trees the seemingly impossible may be obtained. The owner of a very small garden need not despair of enjoying luscious pears and juicy apples from his own trees either. Let him plant dwarfs, they occupy so little room that even the average city plot would easily accommodate a score.

Had Twenty-five Children.

Mother of twenty-five children, nearly all of whom are dead, Mrs. Elizabeth Conway died at her home, 2813 Downing avenue, Wednesday, at the age of fifty-nine. Death was due to heart disease. She was the widow of John Conway, who died at Grand Island, Nebraska, in 1901. Mrs. Conway married at the age of 14, and was the youngest of twenty-seven children, and her father was the youngest of thirty, it is claimed. Her mother died at the age of ninety-nine, and the mother of her husband lived to be 100 years, while her father died at 102. Mrs. Conway was a mother at fifteen, and in the years that followed she was the mother of six pairs of twins, nineteen sons and six daughters, and a great-grandmother at fifty-nine. The body will be shipped to her former home at Grand Island for burial.—Denver Republican.

Antelopes Choose the Open.

The antelope lives always in open country, unlike members of the deer family, which invariably prefer a thick, dense forest. They cannot be driven into timber cover or thickets of brush, but will literally turn about and run over a pursuer, if necessary, rather than be forced into cover. If they are ever obliged to pass by or through such places for food and water, they take a great deal of time to do so, as if they were determined to see everything that could be seen en route.—H. H. Cross, in March Century.

HIS ONE WEAK SPOT.

Prominent Minnesota Merchant Cured to Stay Cured by Doan's Kidney Pills.

O. C. Hayden, of O. C. Hayden & Co., dry goods merchants, of Albert Lea, Minn., says: "I was so lame that I could hardly walk. There was an unaccountable weakness of the back, and constant pain and aching. I could find no rest and was very uncomfortable at night. As my health was good in every other way I could not understand this trouble. It was just as if all the strength had gone from my back. After suffering for some time I began using Doan's Kidney Pills. The remedy acted at once upon the kidneys and when normal action was restored the trouble with my back disappeared. I have not had any return of it."

American Student Life.

Professor Wilhelm Ostwald of the University of Leipsic recently returned to Leipsic from his course of lectures at Harvard. Giving his impressions of American student life, he says:

"The personal interest of the students, next to their studies, is concentrated alone on sport, which draws their attention altogether from intellectual or aesthetic pursuits. Foot ball, above all, is loved uncommonly, and it is practiced in such a fashion that academic and state authority are near to forbidding it altogether. In the term of a single semester nineteen students fell victims to enraged, brutal handling. At all the American universities are open amphitheatres, in which many thousands of spectators view the periodic foot ball battles."

AWFUL PSORIASIS 35 YEARS.

Terrible Scaly Humor in Patches All Over the Body—Skin Cracked and Bleeding—Cured by Cuticura.

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Cuticura Soap, six boxes of Ointment and two bottles of Resolvent. In thirty days I was completely cured, and I think permanently, as it was about five years ago. The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twenty-four hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable. W. M. Chidester, Hutchinson, Kan., April 20, 1905."

ARMENIAN DIED HERO'S DEATH.

Made Splendid Defense of His Residence at Baku.

Adamoff was an Armenian hero of Baku. The author of a recent volume on that city has this to say of him. "Adamoff was the crack rifle shot in Baku, one of the wealthiest Armenians engaged in the oil business, and his residence in Arnianska street was one of the palaces of the city, so far as the magnificence of the oriental decoration was concerned. He stood a three days' siege and shot no fewer than forty Tartars, who, on the last day, formed a heap of dead at the corner of the street. Adamoff was kept supplied with cartridges by his young son, who got shot in that service. And then Adamoff himself was hit on the balcony of his house, whence he had so long defended it. Receiving a shot in the shoulder, the deadly marksman dropped his rifle on to the railing of a balcony, but, nerved with the courage of despair and determined to sell his life still more dearly, he continued shooting. His movements became slow, the Tartars become more aggressive, and he finally received a fatal wound which laid him low on the balcony."

A Diplomat, Indeed.

"I wonder how it seems to have written so many books that you can't remember the number?" sighed a pretty girl, a youthful literary aspirant, after meeting John Burroughs, the naturalist, at the Pen and Brush club reception a few days ago.

The gray-bearded sage of Slabsides had just remarked that he couldn't always remember how many books he was the author of, and had told this story:

"I was dining with a lady recently, and when I made that remark, she spoke up, saying:

"Oh, I know. You have written just thirteen, for I have them all here in my library."

"Did I write all those books?" I said. "Why, it doesn't seem possible."

"But you see my work has been my play, and it has all been done so gradually that I can scarcely realize how many there are. There will be fourteen in all when the one on which I am now working is finished in June. But, then," he continued, comfortingly, "when you have worked forty years as I have, you will have something to show for your labors."—New York Sun.

Duel by Proxy in France.

It is not often that one of the principals in a French duel backs out, but an incident of this kind happened yesterday, says a dispatch from Paris. An encounter had been arranged between M. Gomez Carrilo and M. Austin de Croze, but the latter failed to appear at the appointed time, and half an hour later a telegram was received from him to the effect that he did not intend to fight. The disappointed principal was determined to have satisfaction from somebody, and he suggested to M. George Dubois, the well-known fencing master, who was one of the absent man's seconds, that he would step into the breach. M. Dubois was agreeable, but owing to his superior skill with the sword he proposed that the duel be fought with pistols. No pistols being obtainable for the moment, the pair faced each other with swords. In the second round M. Dubois "pinked" his adversary in the arm, and the outraged honor of the latter was declared to be satisfied.—London Chronicle.

Helping Out.

With an exclamation of delight the hardened tourist rushed out on the baggage platform and started to smash his trunk with an ax.

"Hold on!" shouted the baggage man. "Are you crazy?"

"Not at all," replied the hardened tourist as he continued to smash. "I read that baggagemen were overworked at this season, so I thought I would smash my own trunk and save you the trouble."

Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts"? These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It may be caused by diseased kidneys or some derangement of the organs. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the best judges agree that it is the most universally successful remedy for woman's ills known to medicine.

Read the convincing testimonials of Mrs. Holmes and Mrs. Cotrely.

Mrs. J. C. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham:—

"I have suffered everything with backache and female trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydia Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved I should have taken it months sooner—for a few weeks' treatment made me well and strong. My backaches and headaches are all gone and I suffer no pain at my monthly periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotrely, 109 East 12th Street, New York City, writes:

Dear Mrs. Pinkham:—

"I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pink-

ham's Vegetable Compound. When I commenced taking the Compound I suffered everything with backaches, headaches, and female troubles. I am completely cured and enjoy the best of health, and I owe it all to you."

When women are troubled with irregular, suppressed or painful periods, weakness, displacements or ulceration, that bearing-down feeling, inflammation of the female organs, backache, bloating (or flatulence), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine has such a record of cures of female troubles. No other medicine in the world has received this widespread and unqualified endorsement. Refuse to buy any substitute.

FREE ADVICE TO WOMEN.

Remember, every woman is cordially invited to write to Mrs. Pinkham if there is anything about her symptoms she does not understand. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely and cheerfully given to every ailing woman who asks for it. Her advice and medicine have restored to health innumerable women. Address, Lynn, Mass.

THE PRESIDENT'S DEMOCRACY.

Some of the most important policies advocated by President Roosevelt are to be found in the declarations of democratic platforms. In fact, his strenuous advocacy of certain measures makes him much more of a democrat than a republican; and this is more clearly proven when a search is made for his supporters in congress. He has behind him, in most of his propositions, the solid membership of the democratic party, and the most active opponents to his plans are the old-time republican members, who hold to a faith proclaimed by the founders of the republican party.

The indications point very clearly to a division in the republican party—not one that exists as at present and consists of divergent views, with a semblance of cordiality among its members—but one in which the party will be divided into two hostile camps, the president heading one and having the younger members of his party at his back, and the other composed of the old conservatives, such as Aldrich, Knox, Spooner, Foraker and their supporters, who thrive on the glories achieved by the republican party in its youth.

The president not only advocates rate regulation, the prosecution of the trusts, and, in a measure, a reduction of the tariff, but he recently made a speech in which he practically asserted that the accumulation of vast wealth was a menace to our government, and advocated an inheritance and an income tax.

These propositions are strictly democratic; yet, best of all, they are just and equitable, and are along the lines of good policy; and whether advocated by a republican or incorporated in a democratic platform should, and we believe will, receive the earnest consideration of the great middle-class Americans.

The president may be called a republican, because he was elected as such, but his utterances and recommendations show him to be a man far in advance of his party and its policy; that he is filled by a desire to avert an impending calamity and is willing to follow

a policy that he believes will bring about this result, even though by so doing he is accused of wearing "borrowed plumage," and is opposed by some of the most influential men in his party.

Party lines are not drawn so taut as in the past, and it is not difficult to believe that Roosevelt and Bryan may be seen on the same platform, advocating similar policies; while on another may be seen Parker, Hill and others joining with Morgan, Aldrich and the old republican crowd, who make money their god, and denounce every attempt that is made to curb their voracity as radical and socialistic.

The road that was such a daisy—3 1/2 miles west of Lincoln, around the fords of the Bonito, etc., &c—like Babylon of old, has fallen, or rather, tumbled into the ditch, but not until it was pronounced A1 by everybody, save a few "soreheads," who don't know nothin' nohow, and had been accepted and paid for by the board.

Recognition of Live-Stock Associations.

The following regulation has been approved by the Secretary of Agriculture and is now in effect:

"Whenever any live-stock association whose membership includes a majority of the owners of any class of live stock using a forest reserve or portion thereof shall appoint a committee for such purpose, an agreement on the part of which committee shall be binding upon the association, such committee, upon application to the Forester, may be recognized

ed as an advisory board for the association, and shall then be entitled to receive notice of proposed action and have an opportunity to be heard by the local forest officer in reference to increase or decrease in the number of stock to be allowed for any year, division of the range between different classes of stock or its owners, or the adoption of special rules to meet local conditions."

The intention of this regulation is to give stockmen notice of contemplated action affecting their interests and to afford them an opportunity to confer with the forest officers before final action is taken in regard to grazing matters.

KNEW PRINCIPLES OF FINANCE.

This Will Explain How Some Men Acquire Riches.

A local business man recently lost a pet dog which he valued very much, says the Albany Journal. He was very anxious to have the dog returned to him and announced that he would give a reward of \$5. A woman residing some blocks away found the dog and heard that the business man had offered the reward. She called him up on the telephone.

"Hello! Is that Mr. —?"

"Yes," was the answer.

"Well, Mrs. — is talking. I have found your dog and I understand you have offered a reward of \$5."

"Yes," said the man. "I have offered a reward, but not for the return of the dog, but to some one who will guarantee to keep him safely locked up. He is very vicious and has caused me considerable trouble. For that reason I am anxious that the dog be not returned to me."

He was suddenly shut off of all communication with the woman, who, it appeared later, had quickly hung up the telephone receiver, after hearing the last remarks. The man was at a loss to explain the woman's action until a short time later she appeared at his store, with his dog tied to a rope.

"Here is your dog," she said excitedly as she opened the door and pushed the canine inside. "It is a miracle that he did not eat up my children. You ought to be ashamed of yourself for allowing a vicious beast like him to run about at freedom." Without waiting for a response she hurriedly disappeared.

The man had a good laugh. "Well, well," he said, "that is the easiest \$5 I ever earned in my life."

When Gold Failed.

Burke Cockran said that no man with \$10,000,000 could be put in jail in this country, and that statement fairly well represents the estimate of the power of money that prevails with many people. Yet there are occasions when money is absolutely powerless. One of these occurred at the time of the wreck of the Valencia.

Among those who are supposed to have perished when the vessel went to pieces was J. B. Graham. He had recently sold a mine in Alaska for \$60,000, and part of the proceeds of this sale he carried with him in gold in a bag. This bag went down with Graham.

Those who were rescued say that he made frantic efforts to induce others to save him, offering all his bag of gold; but none heeded him, and his precious sack lay on the broken deck, kicked here and there, unnoticed and unvalued in that trying time. It was the hour when gold failed, as it always fails when held beside the hope of life.

Said one of the survivors: "I'm coming into a safe harbor without a cent. Why, even this shirt I have on belongs to another man, and I have not even a hat. But that bag of gold, or even that ship loaded with gold, would not tempt me into such a place again."

Wid innocent pleasure, me boy,
Get out o' the way o' this crayture—
His thrade is the killin' o' joy.

Now, wan day, whin I sat at me dinner,
Wid hunger enough an' to spare,
In walks this same gloomy owld sinner
An' leans on the back o' me chair.
"Come an' fine me," sez I: "I'd be hatin'
Mesel' fur the glutton I am.
To deny ye this taste o' good atin'—
"Is luscious b'iled cabbage an' ham?"
"Man alive! Are ye crazy?" sez Carey.
An' frowns in his soberest way.
"Shure an' have ye furgot, Misher Cleary,
That this is a fast-day th' day?"
An' wid that the owld joy-killin' sinner
Jisht turned on his heel an' wint out.
An' he left me me illigant dinner
Like ashes, stone cowlid, in me mout'.

Twas a sin o' me, bein' forgetful;
I should have remembered the day,
But I couldn't help feelin' regretful
To see me feast fadin' away.
For 'twas not for me sowls sake that

NEGRO MELODIES.

May Develop into a School of American Music.

Rev. Dr. Edward Everett Hale, the venerable chaplain of the Senate, and Booker T. Washington, principal of the Tuskegee Institute, recently presented to the President in the east room of the White House about thirty of the students of the industrial institute located at Manassas, Virginia. The students sang two or three songs for the President, who afterward greeted each of them personally.

After listening to the songs the President made the following remarks to the gathering:

"The other day a great French literary man who was peculiarly interested in popular songs, in the music developed by the different people of the old world, came here, and he happened to mention incidentally to me that as far as he could see there were but two chances for the development of schools of American music, of American singing, and these would come, one from the colored people, and one from the vanishing Indian folk, especially those of the Southwest.

"I want all of you to realize the importance and dignity of your musical work, of the development of the music and songs among your students.

"Do you thing cigarettes kill the people who smoke them?" "Yes," answered the cold-blooded person. "But it doesn't do any good. There are always more to take their places."

"What would you do if you were one of the law-makers, Willie?" asked the great man. "I'd make more legal holidays," replied Willie.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

HIGH CLASS DRUGGISTS

AND — OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or official names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

RHEUMATIC PAINS

Disappear When Dr. Williams' Pink Pills Purify the Blood and Heal Inflamed Tissues.

Rheumatism is a disease of the blood, caused by the failure of the body to cast off certain poisons. External applications are of use only in securing temporary relief from pain—the cure for rheumatism lies in purifying and enriching the blood.

Mrs. Frederick Brown, of 40 Sumpter street, Sandy Hill, N.Y., was a sufferer from inflammatory rheumatism from the time she was sixteen. She says: "It first appeared in my knee joints, then in my hips and waist. It became a regular thing that I would be laid up all winter. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I lost my appetite, couldn't sleep and sometimes I was compelled to cry out, the pain was so intense.

"For several winters I was under the doctor's care and while his medicine relieved the pain for a little while there seemed no prospect for a permanent cure. I was confined to my bed, off and on, for weeks at a time. My limbs swelled dreadfully at times and I was reduced almost to nothing.

"In the spring of 1904, upon the advice of a friend, I began to use Dr. Williams' Pink Pills. At that time I wasn't able to do anything and could barely eat enough to keep alive. I felt a change for the better in about a month. I began to eat heartily and I suffered less pain. Of course I kept on the treatment, using care in my diet, and in about three months I was cured. I am entirely well today and do all my own work."

Dr. Williams' Pink Pills cured Mrs. Brown by driving the rheumatic poisons out of her blood. But you must get the genuine Dr. Williams' Pink Pills, sold by all druggists and by the Dr. Williams Medicine Co., Schenectady, N. Y.

Some people arrive at a conclusion and never get away from it.

You always get full value in Lewis' Single Binder straight 5c cigar. Your dealer or Lewis' Factory, Peoria, Ill.

If all the world's a stage the fellow who is fond of giving advice must imagine he is the prompter.

A GUARANTEED CURE FOR PILES. Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50c.

It's a good thing that some people do not practice what they preach.

Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and this "Discovery" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book free that is worthy of your attention if needing a good, safe, reliable remedy of known composition for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing only, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, 31 stamps.

CHARM BROUGHT SNAKE DOWN.

Captain of Sailing Vessel Spins a Little Yarn.

This tale has to do with the mishaps of the sailing vessel Indrasahma, Capt. W. E. Craven, who says he is in nowise related to Munchausen, says the New York Times. The Indrasahma got into port yesterday from Singapore, the Philippines, Japan and other far eastern points with a cargo of hemp, oriental curios and tea.

"We left Singapore about two months ago with our cargo and with a supply of snakes, monkeys and other tropical beasts, which we intended to dispose of to menageries in America," said the captain. "Among them were five big snakes, weighing 250 pounds each, and thirty-nine monkeys. When off Singapore the snakes woke up and got out of their cage. One of them sneaked up the foremast to the crew's nest and stayed there for a week. I put Abdul Vin Jangin—not Jaggin, mind ye—upon the job, and told him to watch. He sat down in front of the mast and did a charm song or chant until the mesmerized snake came to and sneaked down again. With a flourish of the tail he gave his four companions the high sign and led them back to their box again."

WORSHIP BISMARCK AS A GOD.

African Tribe Has Made Deity of Great Chancellor.

A missionary who recently returned from South America discovered on the route to Orurotutofagosta a tribe of fetish redskins worshiping Bismarck as a god. Last year, when the drought threatened their harvest, they offered up prayers to their usual idols, but all to no avail. Their chief, having seen at an emigrated farmer's hut the picture of the Iron Chancellor cut out from an illustrated German paper, asked the farmer to make him a present of the print, which request was willingly agreed to. Thereupon the Indians brought the picture in great procession to their temple, and strange to say a welcome rain watered the lands of the tribe. Since that time the deity of the Chancellor, whom the Indians call Bimbarko, is firmly established, and all kinds of reptiles are offered up to him in sacrifice.

Hens All Ready to Move.

The year he lived in West Compton he had already moved eleven times,

He Moved Twelve Times a Year.

when one morning a neighbor who chanced to pass found him packing up to move again.

"What!" exclaimed the neighbor; "moving again, Ike?"

"Yes," answered Ike; "got so used to it the hens are all lying on their backs now ready to have their legs tied."

Home of Artificial Plants.

There are 430 manufactories of artificial flowers, leaves, plants and fruits in the district of Dresden. The largest manufactories employ from 250 to 1,000 persons, and the total number of persons engaged in the trade is estimated at 10,000, the larger proportion being women and girls.

HAD CATARRH THIRTY YEARS.

Congressman Meekison Gives Praise to Pe-ru-na For His Recovery.

CONGRESSMAN MEEKISON PRAISES PE-RU-NA.

Hon. David Meekison, Napoleon, Ohio, ex-member of Congress, Fifty-fifth District, writes:

"I have used several bottles of Peruna and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

ANOTHER SENSATIONAL CURE: Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peruna I am cured."—Jacob L. Davis.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Terrible Destruction.
The results of the earthquake and fire at San Francisco have been summed up, and the losses are appalling. The only redeeming feature in the later reports consisted in cutting down the loss of life, which will probably fall under 1,000.

The property loss, on the other hand, has increased, and the amount is now figured at \$300,000,000, or twice the loss sustained in the great Chicago fire, which, up to the San Francisco disaster, was the greatest in the history of the world.

The responses of the people from all parts of the world, but particularly in this country, have been most generous, and it has been the means of saving thousands of lives in the wrecked city. Every city of any consequence in the union adopted relief measures; Congress appropriated \$2,500,000 and the sum for relief totals around \$15,000,000. The insurance companies were struck for \$100,000,000 to \$150,000,000; and all told the amounts at hand will aid in the work of rebuilding the city, a plan that the plucky inhabitants have already set on foot.

With one exception, the United States mint, not a substantial building was left standing in the city. The magnificent buildings of the Leland Stanford University are a mass of ruins, and many surrounding towns suffered from shock and fire.

Officials Visit Capitan.
E. L. Carpenter, general manager of the Dawson Fuel Co., F. N. Cameron, superintendent of the Dawson mines, and T. C. Hill, superintendent of the Mercantile Co. at the same point, drove over from Carrizozo Tuesday.

These gentlemen were here looking over the Coalora coal fields, and also at the buildings still standing in the old camp. As to what the company intends to do, or will do, with respect to their coal property here is not known, but it is reported that they will do some prospecting for coal, with the view to again open up these fields.

These officials left for Carrizozo Tuesday night, at which point they took the train for Dawson.
