Your Purse and Business Pulse

The money you have in your purse tells just what cash you have on hand. This is our grandfather's method of business.

The careful man of today avails himself of the check account and receives distinct advantages over carrying his money on his person.

Keeping your money in your purse has the same relation to your business as the physician who guesses at his patient's pulse. There is a risk in either case—neither eliminates the chances of error.

The check account indicates with accuracy the condition of your business pulse. It records receipts and expenditures, the record is permanent and reliable.

It costs less to use a check book than a purse. This bank gives you protection for your money that no purse can offer.

Shift the responsibility for keeping your money safely from your purse to U.S.

Very truly yours,

JEFF F. MONTGOMERY, Cashier

SHEEP TOP MARKET

W. L. Souther Tops Monday's Market
With Shipment of 460 Head of
Sheep—1,300 on Feed.

The top of the Fort Worth market was recorded by a shipment of 460 head of sheep shipped by W. L. Souther from Brady Monday. The shipment included 210 ewes, weight 101 1-2, selling at \$4.50 per 100 lbs., and 250 lambs, weight 75, selling at \$6.00 per 100 lbs.

Mr. Souther has 1,300 head on feed below the depot, 900 head of them having just been driven in from his ranch near Ozona to be fattened on meal and hulls. The remainder will be ready for shipment in a few days.

Baling Hay.

D. C. Pence was in town Saturday and reported that he would start his hay baler to work Monday on about a thousand bales of cane. Mr. Pence has already disposed of something over 500 bales since Christmas which netted him \$163.90. Mr. Pence is one of McCulloch county's progressive farmers and not only believes in diversifying but puts his belief into practice.

H. F. Winslow, of Voca, was looking over the city Monday. He has just completed some good work for the county on the road from this place to Voca

In the case of G. C. & S. F. R. R. vs. John Nystrom, condemnation proceedings, the jury awarded the defendant \$865.55, and all costs. In the case of G. C. Seaburn vs. C. D. Kiser judgment was awarded the plaintiffs by default in the following sums: G. C. Seaburn, \$160.38, interest and all costs; E. S. and Elton Noble, \$267.21, interest and all costs.

C. C. Bumgardner reports a peculiar phenomenon out at his place, and one which he is utterly unable to account for. He states that for the past several days the creek in the middle of his big pasture has been running for no noticeable cause. In the twenty odd years that Mr. Bumgardner has been living on the place this is the first time he has ever noted such an unusual occurrence taking place during a dry spell.

LISTEN, THE HIT DOG WILL ALWAYS HOWL.

In referring to my article in last week's issue of The Standard and The Sentinel, I did not know that there were any watch makers in Brady that used paper and LePage's glue to repair watches, but it seems there are judging from the way they are howling about what I said.

I more than beg your pardon. I was talking about botches that gouged up the metal under the balance wheel bridge to raise it off the staff, and used paper for the same purpose, and wound mainsprings into the barrel of the watch with their fingers.

I am sorry to know there are such would be watch makers in Texas, let alone Brady.

People open your eyes. Learn something about a watch. Come to me and I will tell you about your watch. If you have a good watch I will tell you so. I will tell you what a watch requires to keep good time.

L. W. Jackson, a former citizen of McCulloch county, and who has been visiting relatives and friends at Voca, was here Saturday en route to Weatherford where he will visit relatives for a few days before returning to his home in Estancia, New Mexico. Mr. Jackson left Brady about 14 years ago, and is now engaged in railroading in New Mexico, and believes he lives in the garden spot of the world. This being his first visit since he left 14 years ago, we inquired if he was not surprised at the wonderful change, to which he

replied that after reading The Standard a while a person soon formed the impression that Brady was a second St. Louis. He confessed, however, that Brady came fully up to his expectations. One thing that surprised him was the fact of Brady becoming a railroad center, and he expressed the opinion that the near future would see roads running into Brady from every point on the compass.

Jeffers & Bratton shipped a carload of hogs to Fort Worth market Monday. Among the shipment was one hog that undoubtedly was the largest ever raised in McCulloch county, it tipping the beam at between 700 and 800 lbs. The hog was a thoroughbred Poland China, and was raised by W. R. Pence. An ordinary wagon bed was comfortably filled by its bulk.

F. E. Hesse, of the firm of Hesse & Skinner, was down Monday looking after the work on the Voca bridge.

Success Sulky Plow

A Frameless Plow that Will Last a Lifetime

Simple Strong Light Draft Easy Running The Best in Every Way

This famous Sulky Plow has been the leading riding plow for nearly 15 years. No other plow made approaches it for simplicity. It has only two levers (one with a double adjustment) but it is just as flexible, and has all the advantages of plows requiring three and four levers.

No one ever made a mistake in buying the Success. It has every other plow on earth beaten for strength. The manufacturers have so much confidence in it that they back it up with an unqualified guarantee. You can't buy a better plow—they don't make them any better than the Success.

Farmers Institutes.

J. L. Quicksall, special agent, conducted the first of a series of Farmers' Institutes in Brady Wednesday afternoon at the courthouse. Only a small crowd attended, but those who were present felt amply repaid by the interesting talks made by Mr. Quicksall, W. G. Joyce and others, and by the discussion of the methods of producing better crops. Mr. Joyce gave a practical illustration of what can be accomplished by intensive farming and by diversification by telling what he had accomplished in the three years he had lived in McCulloch county. He had carefully kept books during this period, and this procedure soon convinced him that diversification was the surest road to ultimate success. Consequently he has each year cut down his cotton acreage and turned his attention more and more to raising an abundance of feed, some cattle and paying particular attention to chickens. His results proved most gratifying.

Mr. Quicksall followed with an interesting talk on better cultivation, better seed and above all diversification. He advised the farmers to break early and break deep, and then to follow this up immediately with harrowing and rolling the plowed ground to keep the moisture from evaporating.

Wednesday night Mr. Quicksall addressed the farmers at Ward school house and a large attendance and great interest is reported. Wm. Ganzer, district manager, arrived yesterday and will assist in the Institute.

Campbell's Final and Colquitt's First Messages to Legislature Compared.

Submission of Prohibition Question—Recommended by both.

Educational—Separation of State University and Agricultural and Mechanical College; also liberal support of general school system; recommended by both.

Sessions of Legislature—Campbell defended special sessions and their work and cost compared with benefits for people. Colquitt wants as short sessions as consistent and no new and untried laws at present.

State Railroad—Campbell indorses and favors extension. Colquitt says it is a failure and will send in special message.

Attorney General's Department—Campbell favors appropriation for special work, mentioning cases against so-called "social clubs." Colquitt would leave regulation of these clubs to Secretary of State by giving him additional powers.

Department of Agriculture—Both indorse work and favor extension.

State Penitentiaries—Campbell favors constitutional amendment creating Board of Commissioners. Colquitt criticizes present law and thinks one more like Railroad Commission act more appropriate. Will probably send message on this.

Court Procedure—Both favor reforms.

Threatening feverishness with children is quickly and safely calmed by Preventives. These little Candy Coid Cure Tablets should always be at hand—for promptness is all important. \$20,000 in Five Years Farming.

W. J. West and family, of Lohn, McCulloch county, came down Saturday to visit relatives. Mr. West is one of those farmers who do things on a large scale. He has recently moved from his 250 acre farm in the Lakeview community to a black land farm near Lohn. He expects to cultivate about 285 acres in McCulloch. His 250 acres near here make a total of 535 acres. Of this there will be about 400 acres planted in cotton. He has 22 head of work stock and plenty of feed for them. Only a small per cent of the farmers can show a record equal to that of Mr. West. He says that he would not take \$20,000 for what he has made together with the increase in the valuation of his land during the past five years. Mr. West owns a Maxwell car and can cover the distance of thirty miles from one farm to the other in a few hours and in that way oversee both plantations.

The above subject is an old retired school teacher and blesses the day that he quit teaching to take up farming. Just because he likes farming better than teaching and not that he places a low value upon the noble profession of school teaching.—Richland Springs Eye-Optic.

EATS WHAT HE LIKES AFTER TAKING FREE SAMPLE

It will be welcome news to dyspeptics to learn of a remedy that, in the opinion of thousands, is an absolute cure for indigestion and all forms of stomach trouble, and, better still, it is guaranteed to do so. The remedy is Dr. Caldwell's Syrup Pepsin.

We all know the value of pure pepsin in indigestion, and add to this some exceptional laxative ingredients and you have a truly wonderful remedy. Mr. T. W. Worthy of Forsythe, Ga., got to the point where he could not even eat or digest vegetables and after many years of seeking he found the cure in Dr. Caldwell's Syrup Pepsin. Mr. Rudy Kasper of Moline, Ill., was in the same bad predicament with his stomach, took Syrup Pepsin and is now cured. Hundreds of others would gladly testify. It is a guaranteed cure for indigestion, constipation, biliousness, headaches, on the stomach and similar complaints. A bottle can be had at any drug store for fifty cents or a dollar, but if you wish to make a test of it first send your address to Dr. Caldwell and he will supply a free sample bottle, sent direct to your address. You will soon admit that you have found something to replace salts, cathartics, breath perfumes and other temporary reliefs. Syrup Pepsin will cure you permanently. Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over 25 years and will be pleased to give you reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical or the free sample address him to Dr. W. B. Caldwell, 606 Caldwell Building, Monticello, Ill.

Over the County

News Notes of Interest From Our Country Correspondents

OUR CORRESPONDENTS—The Standard has a large number of correspondents, representing possibly every community in the county—a larger number, undoubtedly than any paper of its size in the state. Yet, for some cause or other, the news letters from these correspondents during the past few months have been largely conspicuous by their absence. We believe everyone of our readers is greatly interested in the news notes and happenings of the various communities and earnestly request our correspondents to send us every item of general interest—every week, if possible, or as often as you can. Starting with the first issue of next month let's see if we can't have a letter from every community. Try it just once and we will assure you the Correspondents' Corner will be the most interesting feature of the paper. We are always glad to supply the necessary stamps and stationery—just drop us a note when you are out.

ROCHELLE RATTLINGS.

Rochelle, Texas, Jan. 24, 1911.
Editor Brady Standard:

It now lacks only one day being one month since Christmas and the people around about Rochelle have about all gotten moved and settled in their new places, and ready for whatever may happen during 1911. Let us all feel thankful for all the blessings of 1910, for they are many, and be ready to begin the new year with hopeful hearts, believing that all things work together for good to those who love the blessed Lord.

Able Hardin moved from the farm to his home in town.

Mr. Snowden and family moved from their nice home in town to their farm two miles west of town and Mrs. Snowden, one of the faculty, will go from her home in the country to teach.

John Smith and family, having tired of city life, moved back to his farm on Deep Creek and will try the turning of the soil this year.

Will Townsend bought the farm cultivated last year by Mr. Hardin and his son-in-law, Wesley Rice, and moved in a few days since to make a crop on the place and also to be a citizen of the Rochelle community.

John Renfro has purchased property in town and is making some improvements on the building. While this is under construction he is occupying the house vacated by Mr. Snowden.

Rube Wigginton, of Coryell county, moved in a few days since and occupies a house owned by Bill Floyd.

Grandma Hayse sold her property in town and bought the Floyd hotel, which will be run by herself and daughters in the near future.

There is a considerable amount of sickness in town and surrounding country now, and several deaths have occurred, while others are doing fine and some convalescent.

Grandma Hayse and daughter, Miss Ruby, are just recovering from an attack of typhoid fever of two months duration; both are doing nicely at this writing. But Mr. Joe Hayse, the son and brother, was taken down with the same fever on Jan. 1st, and after two weeks' intense suffering and all that loving hearts and kind hands could do, he passed away on Sunday, Jan. 15th, at his home in Rochelle. The remains were laid to rest in the cemetery at Lohn, on Monday, Jan. 16th, by the side of his father, who preceded him something over a year. He leaves a wife, two sweet little children, mother, sisters and a host of other relatives and friends to mourn his loss.

The infant child of Mr. and Mrs. Able Hardin was taken with pneumonia and was sick only a few days, passing away January 11th. It was laid to rest in the cemetery at Lohn by the brothers and sisters gone before. Weep not, dear loved ones, for while the sweet little babe cannot come to us it is possible for us to live so as to meet those little ones where neither sickness, sorrow, pain, nor death can ever come.

Little Miss Tinnie Matlock who was operated on for appendicitis at her uncle's, Dr. J. B. Matlock, is doing nicely and it is thought will soon be convalescent.

Mrs. Harris, wife of Railroad Contractor Harris, was quiet sick a few days since but is some better at this writing.

Well, the day long wished and looked for has at last arrived and both faculty and pupils are rejoiced over moving into the new rock school building today, Jan. 23rd. Our school has handicaps but still seems to be progressing nicely and we hope from this on nothing may come up to frustrate or in any way disturb the school.

Mrs. G. W. Anderson has just returned from an extended visit with her daughter, who has been quite sick, at Hall Valley, and whose infant child was taken with spinal trouble and died. It was buried in the Rochelle cemetery Monday of last week.

Prof. E. L. White returned last week from his home in Eldorado, where he was called by phone to the bedside of his sick father. After several days' struggle with fever the late succumbed, passing away Jan. 9th. Mr. White is a most exemplary young

man and has the sympathy of the entire school and community.

Baptist Evangelist, Everette, with his singer, Mr. Brown, is holding a protracted meeting at this place, and they are doing some fine work. The people are turning loose of business, and considering the inclement weather, are giving them good congregations. Several souls have been saved and some additions to the church. No definite time to close.

Rain, rain, if the farmers could only get a good rain how happy they would be, and could soon begin to put seed into the ground and have something to do besides wish for rain.

With many good wishes to all for the new year I'll ring off.

AMOS KEETER.

Selling for Cash.

I take this method of announcing to the public that from now on I will keep no books whatever, but will sell to one and all alike for the cash. I appreciate the nice line of business I have been receiving from my friends and patrons and hope all will continue to favor me as before. I must pay cash for all my purchases and this forces me to ask for the cash when I sell. By so doing I can not only serve you better, but I will be enabled to sell upon the very closest margin and that means more feed to you for every nickel you spend with me.

Kindly bear this in mind when making your purchases and do not embarrass us both by asking for credit. Just bear in mind that I sell feed and grain for the cash; that I appreciate your business, and that I show my appreciation by giving you full weight, full measure and the best values for your money.

Yours to serve,

JOHN H. MOORE,

WOMAN DOCTOR OF MUSIC.

Miss Ethel Smyth, a talented English woman, has had the degree of doctor of music conferred upon her by the University of Durham. She is the first woman to receive the degree and is the first woman to write a grand opera, Der Wald and The Wreckers both having met with success in England and on the continent.

FOR THE VACATION TRIP.

An all around, useful blouse for vacation wear that is smart is made from Shantung pongee in the natural shade in a plainly tailored style, cut out slightly at the neck and fitted with sleeves cut away at the wrist with the edges trimmed with a little Persian ribbon.

The waist is cool, easily laundered, does not quickly show dust or soil and has the additional merit by reason of its neutral coloring of forming an agreeable contrast to a skirt of almost any color that may be worn with it.

Such colors as brown, navy blue, dark red, green, tan and black will all harmonize.

Commercial Club Bulletin.

The following items are reprinted from the Commercial Club Bulletin just issued by Secretary Hardison:

Mr. S. S. Graham, President of the Club, has offered 20 acres to be used as an experimental farm; such farm to be known as the Frisco-Santa Fe Experimental Farm for McCulloch County. The Frisco and the Santa Fe roads have been induced, through the Commercial Club and with its co-operation, to contribute the amount of \$800.00 for the maintenance of said farm. We have placed this under the special supervision of our State Experimental Director, H. H. Harrington, of College Station. Our County Demonstrator will also assist in the development of such crops as will be placed there.

OUR exhibit at the Dallas Fair was necessarily a small one; as it was the first effort that the county of McCulloch had ever made in that direction. However, it elicited favorable comment from the Directors of the Fair and many visitors from this and other states. We find that it pays to advertise at such exhibitions.

THE interest manifested by the Secretary and Board of Directors in inducing a Business College to locate in Brady seems to have borne fruit, as we have two colleges with us at this time—Henry's Commercial School, and Draughon's Business College.

THE present managers of the Local Telephone system have promised to give us as nearly perfect service as they can render. Arrangements have been perfected with the Southwestern Telephone & Telegraph Company for regular and systematic reports; we therefore look for improved and satisfactory service.

INDIGESTION

Relief in Five Minutes and Permanent Cure or Money Back

When Central Drug Store state that they have a remedy that only costs 50 cents and is guaranteed to cure any man or woman who suffers from food fermentation, or money back, what are the poor stomach sufferers in Brady and vicinity going to do about it?

Food fermentation causes belching, sour stomach, gas eructation, heartburn and that lump of lead feeling as you probably know.

The name of this most remarkable stomach prescription is MI-O-NA. Most people call them MI-O-NA stomach tablets because they know that there is no remedy so good for indigestion or stomach disorders. Here is one opinion:

"I have been troubled with indigestion for more than a year. I bought one box of MI-O-NA and it cured me. Now I would not be without a box in the house for \$5.00. It saves a lot of doctor bills when you can be cured for 50 cents."—Arthur Sederquest, 6 Nichols St., Wakefield, Mass.

MI-O-NA stomach tablets cost 50 cents a box at Central Drug Store and druggists everywhere and money back if they don't cure.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

ARE YOU DEAF?

Catarrh is Probably the Cause. Get Rid of the Cause.

If you have catarrh and have constant ringing noises in your ears look into the matter at once.

It's a pretty sure sign that catarrh is spreading and is making its way through the Eustachian tubes that lead from the nose to the ears.

When catarrh gets to the ears partial deafness follows. If you have a ringing noise in your ears go to Central Drug Store today and get a HYOMEI outfit and drive out catarrh.

To cure catarrh HYOMEI should be breathed through a pocket inhaler for a few minutes, four or five times a day. Just pour a few drops into the hard rubber inhaler and breathe it.

It kills the germs; soothes the irritation; heals the inflammation; stops hawking, spitting and snuffing.

HYOMEI keeps the throat free from mucus and prevents crusts in nose.

The complete HYOMEI outfit which includes the little indestructible hard rubber inhaler, a bottle of HYOMEI and simple instructions for use costs \$1.00. Separate bottle of HYOMEI costs 50 cents at Central Drug Store and druggists everywhere, on money back plan.

GOOD ROADS.

Roads are to a city or village what the arteries are to the human body. Without them no community can exist and it naturally follows that the better the roads the greater the prosperity of the community. Many people will go miles out of their way to trade in some place to which they may travel over good, hard roads, and in doing so will avoid the town near at hand to which approach is difficult because of bad roads. Yet there are many places so destitute of good sense and business enterprise that they never improve the roads. These are the places that vegetate and die, and whose people curse their fate and complain of hard times.

A CLEAN TOWN.

We notice frequent references in our various exchanges to the necessity of "cleaning up the old town" and every time we wish the citizens of those poor, benighted cities would come to Brady where the streets and alleys always have the appearance of having been scrubbed with Sapolio. Without a question of doubt Brady is one of the cleanest cities in the State of Texas—all because the city council had the wisdom to include the cleaning of the streets and alleys in the work of the scavenger.

THE problem of outstanding importance in Texas today is transportation. We need to improve our public highways to a degree of efficiency where tonnage can be transported at the lowest possible cost and to shorten the haul over our public roads by building more railroads and improving our waterways. It costs 42 cents per ton mile to haul products over our public highways; one cent per ton mile over the railroads and 2 mills per ton mile over our waterways. Cheap transportation makes the farmer prosperous.

THERE are over 300 citizens in Brady who could be very helpful in promoting the interests of our city and country. If all could realize the fruits of co-operation and a general pull together there would be no trouble in building up all our interests. There are now about 145 names on the membership list who are doing all they can to help in every public enterprise. We need your advice, your fellowship and your public spirited interest—Secretary Hardison in Commercial Club Bulletin.

THE Texas farmer is already farming more land than he can properly cultivate. The average Texas farm contains 357 acres, while the average farm in the United States contains 146 acres. One farmer cannot successfully cultivate more than 50 acres of land unless he employs help, which would, of course, mean another farmer. On this basis Texas needs 3,000,000 more farmers which would mean an increase in our population of 15,000,000.

An eleventh hour warning—get your poll tax receipt.

BRADY never attempted a systematic method of advertising until the present administration of the directors. If success can be obtained from a careful, economic and aggressive use of printer's ink and hard work, we expect to reap a harvest commensurate to our efforts.—Secretary Hardison in Commercial Club Bulletin.

Be a booster! In these days of city building and onward march of the army of empire, the laggards are left behind in the old sloughs of nonprogression. If you want to be a soldier in that army of wide-awake men who are causing the plains to blossom as the rose in the development of a new country, you must be a booster.—San Angelo Standard.

THERE were 155 car loads of cucumbers shipped from Texas during 1910, which sold for \$66,770, according to government reports just recently issued. Texas has always been the abiding place of Cupid and we are now raising the article in abundance that is reputed to quickly settle all love affairs.

THERE are new roads and new roads. One kind is a little fresh dirt scraped up, leveled and rolled; the other, is built to last for generations, with small expense for repairs, almost dustless and hard in either dry or wet weather. The latter will be the Texas kind.

THE rate at which Texas is developing in all its resources, its activities and possibilities is a marvel to the adjoining states. Our fame has extended to all parts of the Union and to foreign lands, has created an eagerness for information concerning the state such as never existed at any other period in our history.

TEXAS furnished her pro rata of fruit and truck to the markets of the world and then some, during the year just closed, according to recent reports which show that 19,490 car loads of truck and fruit were marketed in this state during 1910, which brought a net yield to the growers of \$15,000,000.

THERE were 175 car loads of strawberries shipped to the Northern and Eastern markets from Texas during the season of 1910, according to late government reports, and brought \$175,000. Texas can keep strawberries in the market the entire year.

GOOD roads add greatly to the profits and comforts of the farmer, but knowing so and saying so does not produce good roads; they will have to be made; all talk and no work will not make roads. Go at it with the same determination you would to dig ditches or build fences.

BEGIN now to prepare for the State Fair exhibits, and make the agricultural exhibition this year the largest in the history of the Fair.

For that aching void between supper time and bed time, nothing fills the place so well as a year's subscription to The Brady Standard.

If Noah Webster was compiling his dictionary at the present time, without doubt he would spell "Progress" as follows: BRADY.

When you come to Brady Saturday and see what fine poultry we raise, you'll be an enthusiast too.

DON'T forget the mass meeting tomorrow at the courthouse to discuss the road bond issue. COME.

A CLEAN town means a healthy town—Come to Brady.

OUR last say so is "pay your poll tax."

RANSOME'S PIPE DREAM.

In winter time I love to sit by an open grate and watch the dying embers fall, while outside the ice-kissed wind tries to enter in. There are always faces in the glowing coals, and fancies weave themselves about the shapes that form, and as the flames eat on fast tumble into dull gray ashes. These faces are always those I knew and loved when life was in its glorious morning. Some have dropped as quietly from out this life as ashes topple into the grate, but still their pictures nestle close beside my heart, to be inspected at my will. I see their rosy cheeks, their freckled, sun-tanned faces, their happy smiles, their soft, sweet mouths, the home of the childish laughter, and I often long to be a little boy, and romp with them again. But nature answers nevermore. Other faces there I see that now are full of seams and scars left there by life's hard battle. Some have climbed the Hill of Fame, and now are dwelling there in the mansion that their honest labor fashioned for their use and happiness. Others are only half way up the rugged hill, panting with the strain of the mighty effort they put forth to keep from falling, while still others are at the bottom yet, and have ceased to even look towards the top. I gaze and dream, and yearn for many days now fled, but longing does not bring them back. I must be satisfied with sweet memory, and hope that when the last cold ash may gently drop into the heap already there that I may wake and find my childhood friends passed away, waiting to re-ignite the fire that never dies in the house not made with hands, where ashes never fall.—Cleburne Enterprise.

The McCulloch county courthouse has a janitor who, so report goes, never fails to be at his post of duty by five o'clock each morning, and keeps things as neat as a pin all during the day. If there are any more of his kind in McCulloch county, send them over to Brownwood for good janitors here, are as scarce as the proverbial hens teeth.—Brownwood Bulletin.

There are just two reasons, Bro. Mayes, why we can't comply with your request. One is because we haven't a single "good" janitor to spare, and the other is because neither fame nor fortune, nor tearful intreaty could induce one of them to leave grand old McCulloch.

ROMPING ON THE STANDARD.

CONSOLATION PRIZES.

Brady Standard: The dry weather may discomfort some of the people who have recently located in our midst, but the older settlers know that the gloomy outlook often changes to the best final result. This fact has given rise to the oft repeated statement that this country can promise more and give less and promise less and give more than any other country under the sun. The dry weather has its good as well as its bad features. We would doubtless have been devastated with the boll weevil and other crop pests if we had rain as frequently as in other sections, and more clear profits can be made here with crops every other year than regular crops will produce in other portions of the State.

To reflect that but for the drouth probably the boll weevil would have riddled the country is one of the most consoling incubations one can conjure up. This year, if we have a wet one—"if," we say—and the boll weevil eats our weather boarding off we can get even by congratulating ourselves that we are not being baked brown by a drouth. It is a great country. Come to Texas.—Dallas News.

THE COUNTRY IS ALL RIGHT.

The editor of The Brady Standard seems to be floundering round in the slough of despond. It mournfully ejaculates:

The 32nd legislature will soon save or destroy the country, according to the usual custom of legislature, but the masses will have to wait until the politicians are heard from before they will know whether they are saved or lost, and even then it will be a hard matter to determine whether we are more saved than lost.

But, Brer Schwenker should take courage. He should bear in mind that J. T. Hamilton, of McCulloch, is on guard and Brown Lee, of Tom Green, is a mighty host within himself, and through these and a host of their patriotic co-adjutors, the masses won't have to wait long on the politicians. The country is all right, all right, Bro. Schwenker.—San Angelo Standard.

Editor Schwenker of The Brady Standard doesn't like our brand of "snake medicine" that makes one see swollen rivers during a drouth, but we are not willing to let him qualify as an expert. An editor living in a town like Brady, where wine and water—rich gifts of God—are unknown, is only entitled to discuss dust storms and hard times.—Menard Messenger.

We Want Your Business

A WINDMILL is not an experiment. People learned to utilize air in motion as far back as they did the old mill wheel. We hear of them in Egypt used for irrigating before Europe was christianized. The Hollanders used them for just the opposite, draining their land into the sea, before America was ever thought of, and in the early history of this country one of the first sights to meet the eye on sailing into New York harbor was the windmills.

The funny round towers, with their four monstrous flails. What must the Indians have thought seeing those flails, as long as a tree, go flapping around, furnishing power to grind the Dutchman's corn and wheat?

The windmill of today is a very different machine to what those were. It works on the same principle, but the modern Samson is as far ahead of the old type as one of our modern ocean liners is the first steamboat.

In this time of scarcity of water a good windmill is a valuable improvement to one's place. It will add five times its value, besides the satisfaction of always having plenty of water. When thinking of buying a windmill let us demonstrate to you the many advantages of buying a Samson.

The Standard Disc has behind it 57 years of experience, close application to details; study, tests and improvement. It will not only do the work and do it right, but it does it so easy.

Once a Customer for a Standard Disc and Always One

We believe in dividing the burden. Ninety-five per cent of the business of the country is done on credit. It's the only satisfactory way. A man whose credit is good ought not to be charged an exorbitant figure for buying goods on a credit basis. But some merchants take advantage of this credit system to overcharge. We don't. A few months ago the Ladies Home Journal published a report that a lot of city installment stores got over 200 per cent profit. Just to show you how they work it, we saw a bed in a neighboring city last week marked \$32.98. We sell that bed for \$20 cash or credit and give you a long time to pay for it. It isn't our policy to make all our profit on one customer

This is not for the benefit of our old customers, but for those who have never used one. We would suggest to those contemplating buying a disc not to wait until it rains, but buy one now. We have them in stock now and we might not have them then.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temporarily stimulate the Heart or Kidneys. That old fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by Jones Drug Co.

The one who receives the most votes at the final count on Wednesday, May 10th, 1911, at 3 p. m., will be declared the winner, and to him or her will be awarded the pony, trap and harness complete. Contestants may secure help and assistance from anyone whom they desire.

Tie in Votes—In case of a tie, the value of the prize will be equally divided or a like prize granted to those tying, at option of publisher.

Classes of Votes—The votes are issued in coupons of the following denominations: New or Cash-in-Advance Subscriptions, 500 votes for \$1.00; Back Subscriptions, 400 Votes for \$1.00; Job Printing, (Outside of Brady) 250 Votes for \$1.00; Advertising, (Outside of Brady) 250 Votes for \$1.00; 5-Year Subscriptions (in Advance) to One Address, 5,000 Votes for \$5.00. No Votes given for either job work or advertising secured in the City of Brady. No Votes given on subscriptions paid at this office prior to the opening of this Contest, Wednesday, February 1, 1911.

Right is reserved to add additional classes of votes, also to change or modify these rules and regulations as necessity demands.

General Instructions—Names of Contestants will be printed in order according to standing and the amount of their votes published regularly after first count is made.

During first 60 days no candidate will be permitted to cast over 5,000 Subscription Votes during any one week. Advertising, Job Printing or Free Paper Coupons may be voted in any quantity and at any time.

Votes once deposited in ballot box cannot be transferred to another.

No contestant will be allowed to take more than one of the Special Prizes that may be offered from time to time, but any contestant may secure one of the Special Prizes in addition to the Grand Prize.

The publishers are not to tell for whom any one votes except in case of alleged error or irregularity.

Contestants should keep a list of their votes and see that the Publisher's figures verify it.

All coupons should be placed in envelopes, furnished by us, with Contestant's name written plainly thereon.

An Awarding Committee of three is to be appointed to make final count and distribution.

The Brady Standard will furnish Receipt Books, Envelopes and all supplies upon request of candidates. We will also be glad, at any time, to advise contestants as to the best methods for securing votes, but in no instance will we show partiality towards anyone. This Contest will be conducted strictly upon merit, and the one who works hardest and most successfully will be the one to win

Mrs. Agnes Cooke, Editor, Phone 145-3r.

On last Friday evening Mesdames Dave Doole and W. J. Yantis entertained the Mothers' Club at the home of Mrs. Yantis, the invitations also including the husbands of the club members. The invitations were responded to with alacrity, as is always the case when any of "The Mothers" have a hand in the entertainment.

When the guests were all assembled they were ushered into the dining room, where a huge bowl of delicious fruit punch was found, presided over by Miss Lucile Yantis, and all being served, Mr. D. Doole was called on for a toast, responding in his usual happy vein as follows: "You may speak as you please Of others than these,

But wherever you roam, Oh, wherever you roam, There are none you may meet, Quite so handsome and sweet, As the mothers at home, Yes, the mothers at home."

The toast having been drunk the guests were then seated at tables and the game of progressive dominoes occupied the attention of all during the remainder of the evening. At a suitable hour an elegant three course luncheon was served, and at a late hour the guests departed declaring Mesdames Yantis and Doole as royal entertainers.

In celebration of their eighth wedding anniversary Mr. and Mrs. S. M. Richardson entertained a number of friends at a 1 o'clock dinner Sunday. This needless to say that the best in the land was on the table. How much was left the guests refuse to state. This was a pleasant affair and one to be remembered always. The dining room was tastily decorated in pot plants. After the dinner the party repaired to the sitting room where general converse was enjoyed for several hours. Covers were laid for the following: Mr. and Mrs. Henry Jordan, Mr. and Mrs. Jno. E. Cooke, Mrs. W. H. Wroten and Mr. W. H. Cooke, of Clarendon, Texas.

With music furnished by the Spanish orchestra, a crowd of young folks enjoyed another dance at the Klondike Hall Friday night. A delightful time was reported by the following: Misses Elva, Virgie and Gladys Yeager, Bernice Wolf, Marie Cornell, Mozelle Glenn, Estella Bradley, Lolette Shuler, Emma Jones and Hayde Willoughby. Messrs. Paul Calvert, Austin Strickland, Herbert Wood, Jessie Glenn, Burette Tipton, Steve Ballou, Oscar Lang, Fred Spiller, Ward Yeager, George Yantis and George Vierling.

Mrs. S. S. Graham entertained Friday afternoon from 4 to 6 o'clock with games, in honor of her sister, Mrs. Melcher, of Lexington, Ky. Mrs. Graham in her usual charming manner served coffee, cake and candy at the close of the afternoon, and the affair was altogether a delightful one.

Little Miss Nautie May Day was surprised Saturday night when a crowd of jolly little boys and girls walked in on her to spend the evening. A merry good time was spent in games and music. Each guest departing declaring little Miss Day a charming hostess.

Mrs. Scharff, who has been visiting her son, Mr. Max Scharff, and daughter, Mrs. Jack Nussbaum, for the past several weeks, left Thursday for her home at Grosbeck, Texas.

Mr. and Mrs. John Norwood, Fort Worth, will arrive the last of the week to make Brady their home.

Miss Marie Crothers left Tuesday night for Brownwood where she will be one of a party that will witness the wedding of Miss Hattie Conway.

The Priscilla Club met Wednesday afternoon with Mrs. Chas. Bradley. A pleasant afternoon was spent. Delicious coffee and cake were served.

Mrs. Annie C. Briggs, of Dallas arrived Thursday to be guest of her brother, Mr. Jno. E. Cooke, and family for a few days.

Mrs. W. P. Boyd and grandson, Herbert Mason, left Wednesday for Brownwood to attend the wedding of an old friend of Mrs. Boyd.

Mr. Wideman left Saturday night for Muskogee, Okla., after a visit of several weeks with his children and Mrs. J. C. Tulk and family.

The Mothers' Club met with Mrs. W. J. Yantis this afternoon. Current events will be discussed.

Mrs. Ed Scales left for her home at Beakiss, Texas, after a visit of ten days with friends.

Dr. J. B. Granville returned Sunday from a business trip of a few days, to the Panhandle.

Mr. W. M. Hundley went over to Brownwood Sunday on a business trip, returning Tuesday.

Mrs. T. P. Grant returned Saturday from Comanche after a pleasant visit of ten days.

Mr. James Sartwelle, of Callan, spent Sunday with his brother, Mr. George Sartwelle.

Mrs. F. W. Henderson went over to Brownwood Tuesday night, returning today.

Mrs. Jack McLaughy, of Brownwood, is a guest in the city this week.

C. E. Wooldridge dropped in at The Standard office Friday and informed us that he would leave that day with his family for New Mexico, where he recently bought some land. Mr. Wooldridge is making the trip overland, and will remain in New Mexico several months improving his property and arranging for some disposition of it for the coming year. He still has his Brady property and says he is coming back to it before long.

UNIFORM COTTON GRADING

Cotton Exchanges in Southern Centers Adopt System Prepared by Department of Agriculture.

Washington, Jan. 23.—A uniform system of grading cotton practically has been adopted throughout the cotton belt. A statement issued today by the Department of Agriculture shows that twenty States have availed themselves of the official grades of cotton issued by the department and they are being used in every cotton producing and cotton manufacturing section of the country. As a basis of their operations the Cotton Exchanges of New Orleans, Memphis, St. Louis, Natchez, Little Rock and Charleston formally have adopted the official cotton grades. That a universal system of cotton grading will be adopted throughout the country is regarded now as certain.

The above is exact copy from Dallas Daily News, Tuesday, Jan. 24th.

Henry's Commercial College has these cotton grades and they teach them in their school at Brady, Texas, at a charge of \$15 for the course.

You will also find this is the first commercial school in the United States to adopt and teach these grades. We invite everyone, farmers and business men, to call and examine the National Cotton Grades. Henry's Commercial College, Brady, Texas.

If you would have a safe yet certain Cough Remedy in the home, try Dr. Shoop's—at least once. It is thoroughly unlike any other Cough preparation. Its taste will be entirely new to you—unless it is already your favorite Cough Remedy. No opium, chloroform, or any other stupefying ingredients are used. The tender leaves of a Jung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its wonderful curative properties. It is truly a most certain and trustworthy prescription. Tell Some Sick One

It Is Free If It Fails.

Will you do an act of Humanity? Will you tell some sick friend of this, my remarkable offer? Tell him or her, that you have learned of a medicine so certain that its maker dare say to the sick, "It is absolutely and unconditionally free if it fails."

And you, no doubt, already know of Dr. Shoop's Restorative and its popularity. For 20 years it has been the standard remedy for Stomach, Kidney and Heart ailments everywhere in America.

When the "inside" or controlling nerves of the heart or kidneys fail, that is all wrong. Dr. Shoop's Restorative goes direct to the cause of these ailments—the falling, faltering, inside or controlling nerves. And herein lies the keynote to my success.

When those nerves are again made well and strong, then that is the certain end of all such sickness.

To me it is a great satisfaction that I am the only physician able to say to the suffering sick, "Take my prescription for full 30 days, and if it fails to help you, the entire expense is mine—not yours."

Then why should the sick take any chance on any other medicine, whose maker dare not back it just as I do by this remarkable offer?

I also have a Rheumatic Remedy—and that remedy is covered by the same identical "No help, no pay" protective plan.

Besides, you are free to consult me just as you would your home physician. My advice and the book below are yours—and without cost.

Perhaps a word or two from me will clear up some serious ailment. I have helped thousands upon thousands by my private prescription or personal advice plan. My best effort is surely worth your simple request.

So let me send you an order at once. Take the message to some sick friend. I will have an honest and trustworthy druggist to whom you can conveniently go for the 30 day test.

But first, ask me for the order, for all druggists are not authorized to give the 30 day test. So write me now and save all delays. Remember that tomorrow never comes. Address Dr. Shoop, Box 12, Racine, Wis.

Which Book Shall I Send You? No. 1 On Dyspepsia No. 2 On the Heart No. 3 On the Kidneys No. 4 For Women No. 5 For Men No. 6 On Rheumatism.

TEXAS COTTON REPORTS

2,917,457 Bales Ginned in Texas for Season Up to Jan. 1, 1911—McCulloch County Reports 9,267.

The Ginners Report on cotton ginned up to January 1, 1911, shows the total number ginned in the State of Texas to be 2,917,457. Ellis is the banner county, having ginned 99,391 bales, while Williamson is a close second with 93,362, and McLennan takes third place with 91,394. These three counties produced over 10 per cent of the entire crop. The report shows that cotton is raised in 193 out of 246 counties in the state.

The report gives McCulloch county as having ginned 9,267; San Saba 7,657; Mason 3,243; Menard 290; Concho 1,312; Coleman 14,246; Brown 19,392.

The Fort Worth Record's report to which our attention has been called any number of times, gives McCulloch county 1,038, but their report is so incomplete as to need no comment.

PLUTO DISC PLOWS

Are famous because of their ability to work where others fail. It is compact in construction, there being no superfluous parts. BEAM is very strong and rigid and is so set that it has perfect center draft. HITCH is easily adjusted to give any desired land penetration. LEVERS are within easy reach of operator and enable him to easily and perfectly control the plow. DISC is attached to main beam, which gives it additional strength. DISC HUB revolves constantly in oil, in dust-proof boxes. WHEELS have capped hubs, which hold oil and keep out dirt. Can turn either way at end of land without danger of upsetting the plow. The Pluto will turn a perfectly square corner with the disc in the ground, which permits the operator to back furrow; also to throw up beds or list. Each disc will cut and turn a furrow 12 to 14 inches wide and 4 to 10 inches deep. No ground is too hard for Pluto Plows. It is just the thing for this season, while most land is too hard for ordinary plows.

"MR. BILL" PLANTERS

No one says of "Mr. Bill" that it is "just as good" as some other planter. But it is the STANDARD by which other planters are judged. "Mr. Bill" was the first successful riding planter, and its sale has been phenomenal, thousands of them going to Texas Farmers every year. THE TONGUE is braced and reinforced in a manner that makes it practically non-breakable. THE STANDARD is heavier than on other planters. MAIN AXLE is of solid rolled steel, and castings are clamped on. HAS FLOATING DEVICE, which prevents too deep covering of seed in rough land. SHOVELS can be set at any angle so as to avoid catching of trash, etc. SEED HOPPER can be lifted from the machine without use of wrench. Covers seed at a uniform depth. "Mr. Bill" Planter with lister bottom is a high grade riding Middle Burster and Lister. This year's planter has an adjustable opener foot which can be set at any desired angle.

New Orleans Wins First Victory.

After a most painstaking hearing extending over several days, the Committee of Industrial Arts and Expositions returned a report favorable to New Orleans as the place at which to hold an exposition to celebrate the completion of the Panama canal. Both New Orleans and San Francisco had planned expositions in honor of this great event in the world's history, and have been endeavoring to secure the approval of Congress for the holding of the exposition in their city. The report of the Committee will be presented to the House without delay and very likely will result in the House voting favorably to New Orleans, as in a non-political matter the House usually considers the reports of its committees conclusive.
