What Our Capital Means to Each Depositor

Our capital of \$100,000.00 is the amount of actual money put into the business by our stockholders.

This capital is sufficient to give every customer ample banking facilities for his every-day requirements and also for unexpected demands in business.

But by National law our stockholders are legally liable for an additional \$100,000.00.

You go to the merchant who can supply you with those things you want. Why not go also to the bank that can give you service that meets your business demands.

For every business want, we have an efficient service-a personal service that will benefit your business.

WE KNOW YOUR WANTS and WANT YOUR BUSINESS

ATTORNEY GENERAL AP-PROVES WATER BONDS.

Council Meets This Afternoon to Discuss the Issuance and Appraisal of Waterworks.

Word was received here a few days ago from the Attorney General's department at Austin to the effect that the water bond issue had been approved. The council is in session this afternoon to look after the issuance and disposal of the bonds. The \$40,000 bonds will be issued in the form of interest bearing coupon bonds, of the denomination of \$1,000 each. The city already has an offer for the purchase of the bonds at par.

Another matter that will be before the council for discussion will be the matter of purchasing the local water plant, and it is likely that the services of an expert will be secured to appraise the property.

Railroad Commissioner Allison Mayfield, Chief Engineer F. B. Parker, of the railroad commission, W. B. Drake, vice president of the Frisco, and other officials were in Brady the latter part of last week on an inspection tour of the Frisco extension to Menard, for the purpose of securing data to enable the railroad commission to act on the Frisco's application for registration of \$500,000 bonds on this line.

Fierce Blaze Friday Night.

A fierce blaze last Friday night threatened destruction to O. D. Mann & Sons wood yard, located in the rear of their buggy house. The fire evidently Postmaster D. LET US PAY OUR TAXES IN MONEY AND NOT IN BOYS

This was written on a banner displayed at a State-wide Pro-hibition rally not long since. It was and is a noble sentiment to which every man with red blood in his veins can subscribe. We most heartily do, and we would not give one boy for all the tax-es of the universe. But the trouble is that the motto is wrong in conception and in application. That is to say it has no earthly place in this campaign. Why? Because there is no proposition before the peo-plle to pay our taxes in boys. Not a bit of it. It is an issue thrown into this campaign ill advisedly, or for the purpose of rushing the tender of heart pell mell into the prohibition camp. Calm and dispassionate reasoning and not sentiment should control. We must carefully, candidly and frankly look at the probable results before we leap. If we decide to increase our tax-es one million dollars or more each year as we would be in adopting Statewide prohibition, let us be certain that we will save our boys by it. Let us not buy a pig in a poke. For if we make a mistake now we cannot correct it. Texas has never had Statewide prohibition and we can only judge of it from the experience of other states. If it has proven successful in other states it will do so in Texas. If it has saved the boys in other states it will do so in Texas. While on the other hand if it has failed to do these things it will fail in Texas. The plain, unimpeachable record is, that of 29 states that have considered Statewide prohibition, 21 states have repudiated it because it was a flat failure. Of the other eight, Maine, where it has been tried the longest, will vote to repeal it in September. We make this statement because of the fact that a Governor and a legislature was elected on that issue. In still another, Kansas, now being made with a great show of success, because of the
