A Progressive Citizen.

Our old friend, C. A. Jacobson, was here last Saturday to take advantage of our combination on the Dallas News. Mr. Jacobson says this is the first time in 30 years that he has had to buy feed, and says he is not liking the job a bit. He says in 1906 he made 96 bales of cotton, and hopes to do so again this year, and along with a plenty of feed. Mr. Jacobson has one of the finest places in the Rochelle-Brady territory, having taken the land in its virgin state and made every bit of the improvements himself. He has a comfortable home, good barn and outbuildings, two good wells, and all his land well fenced—in fact, everything that goes to make up a desirable home. Last year he was one of the citizens instrumental in securing a school for their neighborhood, deeding an acre of his land for the purpose. It always does us good to talk to citizens like Mr. Jacobson—men who have wrestled the good things of life from old Mother Earth by the strength of their might and will, for it shows what great things can be accomplished in Grand Old McCulloch.

Who is the piano man at Brady? Ask Riley Duff, Palace Drug Store.

Britton Embry and Lewis Jordan returned Tuesday from Pecos county, where they have been the past two months engaged in building a house for J. T. Baker on the old Miller ranch, twenty miles from Sheffield. They report good rains there, with plenty of grass, and cattle in fine condition.

Nothing more satisfactory than a good suit at a reasonable price. Ours are the best, and the price is a talking feature. Baker & Callihan.

NEW MARKET.

J. C. Irwin Re-Engages in Business in Brady.

J. C. Irwin is making arrangements to install an up-to-date meat market in the north end of the Blue Ribbon restaurant, and the building has been remodeled and a room cut off for the purpose. Mr. Irwin is installing his fixtures, and announces that he will be ready for business by the first of the month. He states that he will call the new market The Model, and that it will be all the name implies—a model and sanitary market. He is no stranger to the Brady people, having previously engaged in the market business here, and his many friends will be glad to see him once more located here.

C. E. Korff, one of our farmer friends who is interested in the raising of broom corn, dropped in last week to suggest that the farmers who intend to put in some land in broom corn this year ought to get together and co-operate in the matter. He says that broom corn seed is quoted at \$5.00 per 100 lbs., f. o. b. Dallas, and that larger quantities will come proportionately cheaper. He estimates that it will take about eight quarts to plant an acre. Mr. Korff will put in ten acres this year, provided enough farmers will join in to assure a market for the product.

Mr. and Mrs. W. H. Whitfield, former McCulloch county citizens, are spending several days the guests of their daughter, Mrs. S. W. Simpson, and family, of the Rochelle neighborhood. Mr. Whitfield was a pleasant visitor at this office yesterday and had a good word to say for McCulloch as well as his home town, San Angelo.

BOOSTS FOR BRADY.

Traveling Salesman Says Brady Best in Texas.

We've always said that Brady made boosters of everyone who visited here, and the visitors always boost for Brady. Just as an instance we quote the statement of T. B. Wren, traveling salesman for a San Francisco matting and oriental department house, who spent the first days of the week here.

"Brady is the best town of its size I have seen since I have been in Texas," said Mr. Wren, "and if I was a young man I certainly would want to locate here. I never saw a place that presented more opportunities, and I firmly believe that in the next few years Brady will be a far better city than either San Angelo or Brownwood. I was astonished upon finding so nice a little city here. I expected to find a wild frontier town with a few straggling stores and some cow boys hanging around. I like Brady and am going to arrange to come here every few months if possible, even though my company has routed me here but once a year."

That is just part of Mr. Wren's eulogy on Brady. He was as enthusiastic upon the subject as a boy playing hookey from school on the first warm spring day. He said his advice to everyone who owned property or land here would be to hold to it, no matter how bad things looked, and predicted that no one would ever regret such action. Mr. Wren said that his first trip to Brady would most certainly not be his last, but that he hoped to be with us often during the year, and to learn all about the great Brady country and its resources. Incidentally he will talk Brady wherever he goes.

As an indication of his booster qualities, we might mention that Mr. Wren was distributing handsomely illustrated booklets advertising the Panam-Pacific exposition at San Francisco in 1915, and taking time to show everyone where they would miss the greatest event of history if they failed to attend.

E. W. Harris, of Broadmoor, believes in boosting McCulloch county and Texas by the use of Texas literature. Accordingly, he orders The Standard and Hollands Magazine to the address of C. H. Thoms, Addieville, Illinois.

LECTURE COURSE.

Arranged by Calvary Circle of the Christian Church.

B. L. Rice was in the city the first of the week interesting the citizens in a lecture course to be given by Dr. A. M. Lumpkin, under the auspices of the Calvary Circle of the Christian church. The lectures will be given on the 10, 12 and 13th of next month, and will be of special interest to all citizens of Brady. Dr. Lumpkin is a world-wide traveler, and in his lectures he dresses in costume. He is an interesting and entertaining speaker and his lectures have won the commendation of the press wherever he has been heard.

W. S. Gattis and J. T. Roberson, two good Lohn friends, made us a pleasant visit yesterday, Mr. Roberson enticing us into accepting some real money on subscription. They report everything looking good out their way, and state that they do not need any rain for the present. In fact the land is still almost too heavy to plow well. Everyone is getting in his best licks on farm work while the opportunity offers, and the Lohn valley promises to be heard from during the year.

CLEANING UP.

Council Has Force Going Over the Entire City.

The Brady city council Wednesday started out a force of men for the purpose of making a thorough clean-up of the city. The work will be done under the supervision of the Sanitary committee, with Alderman P. J. Martin in charge, and every section of the entire city will be visited.

L. E. Laurence, a former McCulloch county citizen, who now lives at Thorndale, is still interested in the grandest county in Texas to the extent that he orders The Standard to his address.

Died.

Ethel Elizabeth, the 9-year-old daughter of Mrs. G. V. Snow, died at 2 p. m. Tuesday, after a short illness, death being caused by typhoid fever, following an attack of pneumonia. She was a bright and lovable little child, and her many friends are sorely grieved to learn the sad news of her death, and their heartiest sympathy goes out to the bereaved ones. The funeral took place Wednesday, interment being made in Brady cemetery.

No Cotton for Him.

G. A. Rudolph, one of the successful farmers of the Lohn neighborhood, dropped in on us Tuesday, to place an ad, pay his sub and have a chat with us—just the very thing that drives away those blues we never have.

Mr. Rudolph is one of our progressive farmers, who has demonstrated that it doesn't take cotton to make a success. In fact, Mr. Rudolph hasn't planted an acre of cotton in three years, but he is right there when it comes to feed, and says he has plenty. He says for the past ten years he has never failed to have oats, and this year he is going to sow oats on a bigger scale than ever, putting in something like 115 acres. He is ready has in about 100 acres, 50 of which are volunteer, and he says his oats stood the cold weather fine, not even being bitten. Year before last Mr. Rudolph made 10 bushels oats to the acre, and last year he made 30 on the fall oats and 15 on the spring. He states that he could use some rain, but that everything was getting along well without it.

Mr. and Mrs. A. L. Draper left Wednesday for Ennis, being called there by the illness of Mrs. Draper's grandmother.

Make You Think of a New Spring Suit?

Then you should have one made to your order and measure and built for you. It takes years of experience to put out such clothes as the GLOBE TAILORING CO. makes. It takes a big organization to fill the order in quick time and yet have every garment FIT as does a GLOBE Suit. I have the biggest line of samples shown in Brady so if you will take a look at my samples I know you will order a Spring Suit. And a word about my GUARANTEE. Why I don't need to guarantee a fit, for they always fit. They are made to your measure, that's the reason they all fit. The Globe clothes are not taken off of a shelf and sent here and called made-to-order.

TO BUILD THE ROADS.

Commissioners Make Contract With W. Daugherty.

The commissioners court entered into an agreement Saturday with Mr. W. Daugherty of Taylor to superintend the entire work of constructing the good roads in Precinct No. 1. In the selection of Mr. Daugherty the court believes that they have a man thoroughly capable to handle every department of the work, and who will build more good roads for the money than has been calculated. Mr. Daugherty comes highly recommended by the citizens of Williamson county, where he has been engaged in road building.

While here he went over some of the main roads to be improved and expressed as his opinion that several of the roads could be built permanently for less than \$1000 per mile, including grading and the placing of gravel finish. He is thoroughly conversant with the value of road material, of all different kinds of gravel and the amount necessary to construct the road and the cost on the finished work. Mr. Daugherty will be in Brady February 1st to begin the work.

Chill Blains.

A truly quick relief from chill blains is the application of Hunt's Lightning Oil. It heals and stops the itching promptly and no more trouble is had. Every druggist in town sells it for 25c and 50c per bottle.

Subscription Offers.

You would be surprised to see how many people are taking advantage of our subscription offers, but it is not hard to ascertain the cause. Every offer is made up of the very best reading and the combination means a saving of from 25 to 50 per cent on the magazine or newspapers. Nearly everyone includes Hollands in their combination, because it is the best value ever offered. This special offer holds good only till February 1st, after which date Hollands will be advanced to \$1.00 per year and take the same rate as Farm and Ranch in the combination offers.

Our good friend, W. A. Weldon, of Mercury, makes us feel good by enclosing the where-with for clubbing offer No. 6, and stating they couldn't keep house without either The Standard or the Fort Worth Record.

After Deep Well Rigs.

F. B. Bannister left Friday night for the Electra and Tulsa, Okla., oil fields, where he hopes to obtain some deep well rigs for drilling at Lohn. Mr. Bannister writes from Electra that it has the biggest boom he has ever seen in an oil field, and that there are a thousand people there unable to secure shelter or accommodations. He hopes to turn some of these people toward Brady. He was very much encouraged by the opinion of oil men acquainted with Texas oil fields, who stated that the Lohn field had better surface indications for oil than there were at Electra. Mr. Bannister is having no trouble interesting the oil men in the local field.

It has just come to light that the Texas Co. owns a 5-acre tract, Survey No. 99, adjoining the Meers Bros. tract at Lohn on the north. The Texas Co. has been in possession of this property since 1904, and it is evident that they have been holding the property awaiting developments.

CLEAN UP DAY JAN. 26

THE CITY COUNCIL ADOPTS HEALTH MEASURE.

No Quarantine Deemed Necessary at Present, But Every Precaution is Urged.

Friday, January 26th, has been named by the city council as "Clean Up Day" in Brady, and every citizen is expected to do his share of the work. Wagons will be provided to visit all parts of the city and haul away all rubbish and trash. In addition, every precautionary measure is being urged, and the liberal use of lime is encouraged.

So far not a single case of spinal meningitis has made its appearance anywhere in this vicinity, nor are there the slightest indications of a visit of the epidemic. While ever alert to the welfare and well-being of the city, it has not been deemed necessary by the city and county health officers, acting in conjunction with the Commercial club and city council, to quarantine the city, and no steps toward this end have been taken.

This was the consensus of opinion at a meeting of Brady physicians and the directors of the Commercial club held Monday. The meeting was called by City Health Officer Dr. J. B. Granville, and those in attendance were requested to act in lieu of a city board of health. Acting upon the advice of State Health Officer Ralph Steiner, and in keeping with the opinion given by Dr. Dowling, state health officer of Louisiana, resolutions were adopted and presented at a meeting of the city council Monday. The city council, in turn, adopted the resolutions, and urge upon the citizens of Brady the strict observance and assistance of the clean-up order.

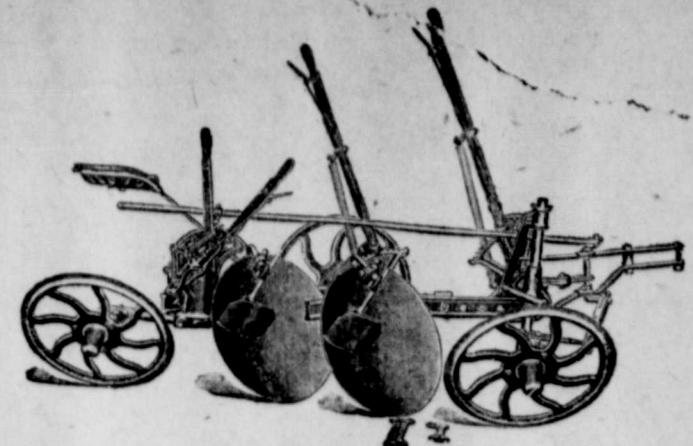

The following are the resolutions: To the Mayor and City Council of the City of Brady, Texas, Gentlemen:

As a committee appointed by the Commercial club of the city of Brady we beg to submit to you the following suggestions:

1. We wish to state that at a conference of our local physicians and the business men represented by the Commercial club, it was decided not to place Brady under a strict or lax quarantine, but for the protection of our citizens we respectfully ask that the following steps be taken: We ask that your body name a day as a general "Holiday and Clean-Up" day for our city, requesting all business houses to close their respective places of business and encouraging their employees to give every assistance possible in this crusade.
2. That the city bear whatever expense that may arise from this campaign as recommended by the city health officer and the sanitary committee.
3. That all citizens be advised to clean their respective premises and collect all garbage, cans, trash, etc., in cans or containers easily accessible to the streets and in time to be removed by the wagons, not later than Friday at 12 o'clock.
4. That we especially urge that attention be given to our streets and alleys and all garbage, trash, cans, etc., be removed.

DR. J. B. GRANVILLE,
DR. G. P. CALLAN,
D. R. HARDISON,
Committee.

In conformity to the above, the council set Friday, Jan. 26th as a general clean-up day and request that all merchants and professional men close their respective places of business at noon on that day and lend their personal aid in this work. All parties with wagons and

CLEANING UP.

Council Has Force Going Over the Entire City.

The Brady city council Wednesday started out a force of men for the purpose of making a thorough clean-up of the city. The work will be done under the supervision of the Sanitary committee, with Alderman P. J. Martin in charge, and every section of the entire city will be visited.

L. E. Laurence, a former McCulloch county citizen, who now lives at Thorndale, is still interested in the grandest county in Texas to the extent that he orders The Standard to his address.

Died.

Ethel Elizabeth, the 9-year-old daughter of Mrs. G. V. Snow, died at 2 p. m. Tuesday, after a short illness, death being caused by typhoid fever, following an attack of pneumonia. She was a bright and lovable little child, and her many friends are sorely grieved to learn the sad news of her death, and their heartiest sympathy goes out to the bereaved ones. The funeral took place Wednesday, interment being made in Brady cemetery.

No Cotton for Him.

G. A. Rudolph, one of the successful farmers of the Lohn neighborhood, dropped in on us Tuesday, to place an ad, pay his sub and have a chat with us—just the very thing that drives away those blues we never have.

Mr. Rudolph is one of our progressive farmers, who has demonstrated that it doesn't take cotton to make a success. In fact, Mr. Rudolph hasn't planted an acre of cotton in three years, but he is right there when it comes to feed, and says he has plenty. He says for the past ten years he has never failed to have oats, and this year he is going to sow oats on a bigger scale than ever, putting in something like 115 acres. He is ready has in about 100 acres, 50 of which are volunteer, and he says his oats stood the cold weather fine, not even being bitten. Year before last Mr. Rudolph made 10 bushels oats to the acre, and last year he made 30 on the fall oats and 15 on the spring. He states that he could use some rain, but that everything was getting along well without it.

Mr. and Mrs. A. L. Draper left Wednesday for Ennis, being called there by the illness of Mrs. Draper's grandmother.

DON'T THESE PRETTY DAYS

Make You Think of a New Spring Suit?

Then you should have one made to your order and measure and built for you. It takes years of experience to put out such clothes as the GLOBE TAILORING CO. makes. It takes a big organization to fill the order in quick time and yet have every garment FIT as does a GLOBE Suit. I have the biggest line of samples shown in Brady so if you will take a look at my samples I know you will order a Spring Suit. And a word about my GUARANTEE. Why I don't need to guarantee a fit, for they always fit. They are made to your measure, that's the reason they all fit. The Globe clothes are not taken off of a shelf and sent here and called made-to-order.

Lecturer's Sore Throat.
Miss Elizabeth Marbury, New York's theatrical agent, was condemning at the Colony club the shrewish, scolding type of woman.
"You can always tell her," said Miss Marbury. "If you can't tell her in one way, you can tell her in another."
"I said to a woman the other Sunday:
"Why, my dear, how hoarse you are!"
"Yes," she answered angrily. "My husband was out late last night."

He Had The Size.
The young man was trying to select a jeweled belt for the young lady to whom he was engaged.
"What size do you wish, sir?" asked the salesgirl.
The prospective bridegroom blushed and stammered. "Really, I don't know." Then a thought struck him. "Lend me your tape measure," he said.
The measure was handed to him and he laid it on the inside of his arm, from shoulder to wrist. "Twenty inches, please," he said, with decision.

STOMACH DISTRESS.

Gas and Sourness Vanish.
What's the use of always feeling miserable just because your stomach isn't behaving itself?
Don't you know that scores of thousands of people have changed bad stomachs into perfect working ones by the simple method of swallowing one or two little MI-O-NA stomach tablets after each meal?
MI-O-NA is compounded from the formula of what is probably the best prescription for indigestion and upset stomach ever written. Central Drug store guarantees it.
It relieves distress in five minutes, but better still, it removes the cause of misery in a few days.

Danger Ahead.
Edmund Lamy, the skating champion, said the other day at Saranac lake:
"Skating on thin ice is very, very dangerous. I heard two sisters—the daughters of an aged millionaire widower—talking the other day about it.
"Did you hear about poor pa's heroism?" the first sister said.
"That beautiful chorus girl, Tottie Tights, broke through the ice this morning, and pa plunged in and rescued her."
"The second sister bit her lip.
"Well," she said, "How dreadful! Now we'll have to rescue pa."

A Doubtful Job.
Gov. Harmon of Ohio, at the recent Governors' convention at Spring Lake, dismissed a political rumor with an appropriate story.
"There is just as much truth in this rumor," he said, "as in the industry of Tired Tim."
"Tim," said a gentleman suspiciously, "I thought you had a job."
"So I have, sir," Tim answered, looking up from a large glass of beer. "I put on the dots in a domino factory."
"Well, then, why aren't you working?" said the gentleman.
"They are making double blanks today, sir," said Tim.

The Riddle.

Where's an old woman to go when the years
Leave her alone with her sighs and her tears,
Gray haired and penniless, feeble and slow—
Where's an old woman to go? What's an old woman to do when her kin
Fail to remember that hands, worn and thin,
Cared for them, slaved for them all the years through—
What's an old woman to do? What's an old woman's reward for a life
Given to others as mother and wife,
Leaving her faltering, furrowed and scored—
What's an old woman's reward?

On July 27, 1908, the restrictions in the state of Oklahoma were removed, giving the Indians the right to sell their lands, which they are selling very rapidly at low prices—from \$15.00 to \$30.00 per acre. The land is very productive. It is a good, black, heavy soil, with a clay sub-soil. Corn, wheat, oats, potatoes and vegetables of all kinds do extremely well here. Also tame grasses, such as timothy, alfalfa and blue grass. The native grass is a blue stem, such as used to grow in Iowa and Eastern Nebraska, which cuts from one to two tons per acre. For stock, the water is plentiful, supplied from the ever-running creeks and branches which flow through this country. Good drinking water is available at a depth ranging from 20 to 60 feet. As for fuel, we have an abundance of timber growing along the streams. Coal is also very plentiful here.

As for towns and cities, they use the natural gas for lights and fuel, as this is one of the best oil and gas belts in the United States. We believe that Eastern Oklahoma enjoys the most ideal climate of any part of the United States, with the possible exception of Southern California. The winters are open, short and mild. The nights in summer are cool, owing to the uniform breeze from the gulf. The temperature in winter rarely reaches zero. The climate is especially healthful. Parties with lung trouble, also those affected with catarrh and asthma who move here are always helped, and in many cases are entirely cured.

Mitten Party.

Miss Pearl Coopender de-
lightfully entertained on last
Tuesday evening with a "Mitten
Party." Each guest wore mit-
tens and was received by the
hostess, who also wore a pair of
mittens. An interesting con-
test was held in which Miss
Kate Doole was awarded a box
of divinity candy for making a
mitten in the shortest time.
This was an awkward task for
the gentlemen, for the sewing
had to be done with mittens on
your hands. Following this
Miss Coopender passed a bas-
ket of cotton, two clothes pins
and a few sticks, and asked each
to make a "snow man". Quite
a number of comical looking
specimens were created, and af-
ter a lengthy discussion by the
judges, the prize—a snow man
filled with candy—was awarded
Miss Carrie Berry.

Dainty refreshments of chick-
en salad, bread and butter
sandwiches, cut in the shape of tiny
mittens, and chocolate were
served. The hostess was assist-
ed in entertaining by her sister,
Mrs. Jack Coe.

Those who enjoyed this splen-
did affair were Misses Louise

vors for the evening were red

From J. K. Recto, Jr.

To the Voters of McCulloch Co.
Having decided to announce
as a candidate for State Repre-
sentative from the district con-
sisting of McCulloch and San
Saba counties, I consider it
proper that I should present,
briefly, the grounds upon which
my claims to the office are bas-
ed.

The student of political affairs
for the past two years in Texas
cannot fail to have been im-
pressed by the excess of politics
and the scarcity of business
methods which have prevailed,
especially in the legislature. I
shall, if elected, attempt to rep-
resent all the people of my dis-
trict, and shall, at all times, la-
bor for the development and the
moral and material welfare of
my district.

I shall outline fully and with-
out evasion in the course of the
campaign my position upon all
questions involving the duties of
a legislator. At this time, I pre-
sent my position upon the fol-
lowing five important questions
which are likely to come up be-
fore the next legislature:

1. Strict regulation of the li-
quor traffic, by means of the
"quart" law, the "night closing"
bill and any other reasonable
regulations.

2. The re-submission of the
Prohibition amendment at an
early date, that this vexatious
question may be finally settled.

3. A bill providing for a
Good Roads Commission to as-
sist counties or precincts voting
bonds for road purposes in mak-
ing modern and first-class roads.

4. The submission of a con-
stitutional amendment provid-
ing for an amendment to the
Homestead law permitting
homesteads to be mortgaged for
water rights, or to install irri-
gation outfits, it being a well-
known fact that homesteads in
arid or semi-arid regions are of
little value without water.

5. Laws which will favor the
investment of capital in laud-
able enterprises in this state, and
opposition to laws designed to
cripple honest investments.

I shall not take any sides in
the governor's race, as I con-
sider that a partisan position
would not be fair to my support-
ers, among whom are both Ram-
sey and Colquitt men.

I am a native West Texan and

With The Candidates

H. M. Kennedy.

H. M. Kennedy, one of Bra-
dy's substantial and well known
citizens, this week offers his
name to the voters as a candi-
date for the office of City Mar-
shal. Mr. Kennedy enters the
race upon the strong solicitation
of friends, and in doing so, he
states that, if elected, he expects
to enforce the law without fear
or favor, and show partiality to
none. He has been a citizen of
Brady for the past five years,
being for the past two years in
the employ of the Santa Fe rail-
road. He is a man of quiet and
industrious habits, and is always
"on the job." In becoming a
candidate, Mr. Kennedy places
his record before the voters as
an open book, and asks favora-

ble consideration of his candi-
dacy.

J. K. Baze.

J. K. Baze announces himself
a candidate for re-election to the
office of County Superintendent
of Public Instruction. In mak-
ing the announcement, Mr.
Baze places before the voters a
summary of his work during the
term he has held office, and
which will be found in another
column of this issue. Mr. Baze
has given the office his undivided
attention since first elected,
and has endeavored in every in-
stance to serve his constituency
in an impartial and satisfactory
manner. He has proven his
qualifications for the office, and
asks for a favorable considera-
tion of his candidacy by the vot-
ers of the county.

GREAT OPPORTUNITIES.

Never in its history has McCulloch county faced greater or more favorable opportunities and prospects. The year 1912 promises to be the greatest in the history of the grandest county of the best state in the Union.

Aside from having the best crop prospects in years, every straw in the wind indicates that Fortune is smiling upon her favorite child, McCulloch. \$75,000 will be spent this year in giving the Brady country roads that will be a monument to her credit in the years to come; \$40,000 will be expended in improving the waterworks system, and in giving Brady that indispensable feature so essential in city building, an unlimited supply of pure water; the Lohn oil fields will be developed, and in all probability a pipe line be built by one of the largest oil companies in the state; the Frisco will be extended to Mason during this year, and eventually to San Antonio, giving a direct outlet to the Gulf; and these are but a few of the good things in store for McCulloch.

CLEAN UP.

So far not a single indication of spinal meningitis has made its appearance, a fact upon which Brady citizens are to be congratulated. There has been considerable alarm felt over the matter, more in fact than the circumstances justified. Yet this same alarm has worked for ultimate good, in that every precaution was urged, and taken, in guarding against the disease.

It would seem that the epidemic is most prevalent where sanitary conditions have been neglected, or where the atmospheric conditions are favorable to the disease. Evidently neither condition prevails in Brady, and now since the clean-up move has been gotten under way, let us offer the suggestion that "Keep Cleaned-Up" would be a good slogan and watch word.

There is a lot of truth, if not poetry, in the saying, "An ounce of prevention is worth a pound of cure."

AIRCASTLES, AS USUAL.

There is going to be more building done in Brownwood this year than in any year in the history of the town. Mark the prediction and see if the Bulletin is not correct.—Brownwood Bulletin.

Brady is a bully old berg. But we've told that before.

Now is the glorious opportunity to pay your poll tax.

The man who can't enjoy this salubrious weather ought to be sentenced to accompany Dr. Frederick Cook on his next north pole expedition.

Sure not, we haven't spinal

Is Your Subscription Worth Anything?

We recently had a call for 100 names of the most progressive and up-to-date citizens of the county from parties who desired to send them pamphlets and advertising matter relative to the various uses and benefits to be derived from cotton seed and cotton seed products. Who else could have given better information on the subject?

It was The Standard that furnished the list for use in mailing out free seeds from the Government at Washington.

Through us our subscribers are enabled to make a saving of from 25 to 50 per cent on their state papers and magazines.

Through the medium of The Standard the happenings of the county are brought to your door twice every week for a mere pittance—less than one cent per copy.

We can be of service and benefit to you in a thousand different ways, and return you the value of a year's subscription a hundred times over.

Is It Worth While To Be a Subscriber?

meningitis, but we have contracted that close kin to the hookworm, the fishing fever, since the balmy weather struck Bully Old Brady.

YOUR SUBSCRIPTION.

We have mailed, or are mailing, statements to all subscribers on the Brady, Camp San Saba, Katemey and Richland Springs lists who are still in arrears, or who have made no effort at a settlement of their account. These four lists will be placed on a cash-in-advance basis February 1st, and the next issue of The Standard will be the last received unless proper arrangement for continuance is made.

We appreciate every subscriber and would like to continue each and every one on our list. To do so under present conditions we would be obliged to raise our subscription price, and perhaps double it, in order to make it self-sustaining. This would merely throw the burden upon those who do pay, and in no wise affect those who do not. Accordingly we believe we have adopted the best plan, that of making all subscriptions payable strictly in advance, and stopping the paper when the time is out.

We want to repeat our former assurance that anyone not in position to make cash payment at this time can arrange with us to continue as a subscriber. Call at our office and let us explain our plan to you.

Afraid lest its plan for doing business in Brownwood this year on a peanut basis should go awry, the Brownwood Bulletin is now urging that at least a thousand acres should be planted in sweet potatoes. That might make Brownwood "some potatoes."

The San Angelo Standard has said something very naughty about us. We are sure it has, and is so ashamed of the fact that it refuses to exchange with us. If The Standard will kindly place us "on" once more it will serve, in a great measure, to smooth over any of our feelings that may have become ruffled.

Talk about your going to extremes! In one issue of the Rockdale Reporter it is boastfully stated that \$2.50 per ton

coal holds forth in Magnificent Milam county, and in the next week's issue gives an account of a citizen freezing to death in Magnificent (but cheerless) Milam. But what else could be expected of \$2.50 coal? Come to McCulloch, where the price melts the ice in the good old winter time.

From J. K. Baze.

To the Patrons and Friends of Education in McCulloch County:

It has been about fourteen months since I took upon myself the duties of office, as your County Superintendent, and as to how well I have served you I leave to your good judgment. However, I want to assure the friends of the schools in this county that I have, beyond expression, appreciated your co-operation and encouragement in the work in which I have been engaged. I realize, as I am sure you do, that it being the initiative term of office of County Superintendent, as separate from that of County Judge, that it has been surrounded by some few irregularities which the ex-officio County Superintendent, for lack of time, could not attend to. Also, the office has been attended with the misconception as to the duties of said office that usually attend the inauguration of any new office work.

I have, in the time in which I have served you, tried, at all times, to stand for and in the interest of your children, whom I pose to represent. I have tried to view every phase of the work, have controverted points in the same light as if I were handling the interests of my own child. I have been very frank in all matters to which my attention has been called, and hope I have, in a measure acted justly toward everyone. I have, in every case tried to stand by the public school officials when I could consistently and conscientiously do so. I have never, openly or secretly, advocated a principal but that which I felt was enjoined upon me, either by the law of the state which I am sworn to serve or my conception of that which I considered to be my duty. I have tried to be as conservative as possible in dealing with questions requiring my intervention. It is true I have had to take definite stands with reference to certain irregularities existing in the county, but in every case the law was very plain and I had either to take notice of such irregularities or be guilty of wrong doing myself as well as to disregard my official oath. In some of these cases it may have possibly engendered some feeling, and if such be the case I am sorry, but to such parties, if there be, allow me at least the credit of honesty of purpose. However, will say that in dealing with the financial feature of my work

COMES QUICKLY

Don't Have to Wait for Weeks.
A Brady Illustration

Waiting is discouraging.
Prompt action pleases everybody.

A burden on the back is a heavy weight.

Hard to bear day after day.

Lifting weights, removing the burden.

Brings appreciating responses

Brady people tell of it.

Tell of relief that's quick and sure.

Here is a case of it:

Mrs. B. P. Brown, Brady, Texas, says: "My kidneys were badly disordered, and I had to get up several times at night to void the kidney secretions. My back ached a great deal, especially when I was on my feet and any over-exertion caused sharp twinges to dart through me. The contents of two boxes of Doan's Kidney Pills, procured at the Palace Drug Store cured me. I take pleasure in recommending this remedy to my neighbors."

alone, I looked up over \$1800.00 that belonged to the school fund of the county for which it then had no credit. True, as with every official, I have been asked to make concessions, and where I believed they were reasonable and not legally irregular I have granted them, but, as every officer must do, some requests I have refused, and in doing so some may have thought it bigotry on my part that caused me to do so, but to those I assure you that such was not the case. I acted from the standpoint of what I considered to be my duty as your official. As to how well I leave to you.

I will state that the emoluments received for my work has been very greatly a help to me, and have tried to use the same to the best advantage.

The time has now come when I must decide as to whether or not I shall again offer myself for this same position, that of your County Superintendent, and in reviewing my past work, and viewing that before me and because of the hearty co-operation I have received and the approbation my efforts have met at the hands of the people, and the hearty encouragement I have received from my many teacher friends under my supervision throughout the county, and there being certain phases of my work with which I am yet not satisfied, yet unfinished, I am again offering myself for reelection to the office which I now hold, that of your County Superintendent. I do this, fully assuring you of my appreciation of your kindness to me in the past. May I not continue to receive that same good will, influence and support in my re-election? Be assured, should it be given, no man will receive it who will appreciate it more or try harder to fulfill the duties incumbent upon him as an official with higher aims and more honest purposes than your humble servant.

Very truly yours,
J. K. BAZE.

Saturday night about 10 o'clock, just as Judge Harvey Walker was gently falling into the comforting arms of Morpheus for a journey to dreamland, the telephone began to ring and the judge was informed that a couple was at the court house desiring his services to entwine about them an unbreakable matrimonial knot, and though the night was dark and Jack Frost creeping around in search of the unprotected ears and fingers, the judge hastily changed his robe from pajamas to pantaloons and struck a 2:40 gait to the court house and in a nervous and stammering voice pronounced the words, and the twain became one. It is well known that the judge has no fixed price for this special service, and when the groom asked the charges the judge told him that he might fix the fee himself, whereupon the aforesaid groom said "Thank you" and departed while the judge wended his way homeward, a distance of half a mile, and he is now a sadder, but wiser man. This couple hailed from Magnified Menard, which accounts for their unusual conduct.

FARM DEMONSTRATION DEPARTMENT

J. W. Griffin, Demonstrator

Below I will give a list of a few parties who have the "Black Hull White Kaffir" seed for sale. According to the numerous tests that have been made at the A. & M. Experiment stations, also this variety being the principal crop in Oklahoma and Kansas, we feel assured that this will prove to be a good paying crop in this county. It stands ahead of any of the strains of Kaffir, and also outyields the variety of milo. It is much better for a forage crop than that of milo, and equal to milo in seed yield.

We are anxious to have this variety tried out, and those wishing to plant a few acres may secure seed from the following if you will order in time.

Prepare your land well about like you would for Indian corn, plant in drills three feet apart, and one kernel every six to twelve inches in the drill, according to the strength of your land.

Paul Habeck, Rankin, Okla., farmer; J. J. Johnson, Eldorado, Kan., farmer; C. E. Hampe, Eldorado, Kan., farmer; C. A. Aikenson, Eldorado, Kan., dealer; F. H. Powell & Co., Eldorado, Kan., dealers; Alf Hostetler, Fargo, Okla., farmer.

One half bushel of good, clean seed will ordinarily plant five acres.

S. R. Moore was in the city yesterday. Mr. Moore comes here from Archer, and is looking for a location. He was favorably impressed with McCulloch county and will locate here if he can find a suitable place. As an evidence of his interest in McCulloch county, Mr. Moore placed his subscription with us, and will send his address when he gets located.

Rexall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, or other undesirable effects. They have a very mild, but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Rexall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets, 10 cents; 36 tablets, 25 cents and 80 tablets, 50 cents. Remember, you can obtain Rexall Remedies in Brady only at our store—The Rexall Store. Jones Drug Co.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.
What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind.
He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles."
I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs.
I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theford's Black-Draught, it did me more good than all I ever spent for other medicines.
I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's "Theford's."

WARD WHISTLINGS.

Brady, Texas, Jan. 19.
Editor Brady Standard:
I have not written in a good while to the good old Standard and have never seen any writings from our community, except what I have written.

You people of communities which we have no writings from would certainly like to hear from you and how things are doing down your way. So take your tablets and a pencil in your hand round up the news and send it in to The Standard for print. The readers of The Standard will enjoy reading them, at least I will. When I get the paper, I always look for the correspondent's page first of all.

Buster, you asked in your last letter to The Standard how many of the correspondents had meat in their smoke houses. I have not, but have some fine meat in the barn and two more hogs to kill. But gee, Buster, I know you had a fine time fishing those nine rabbits out of that well.
Aunt Susan, we are glad to have your advice. Hope the boys of McCulloch will take it. If all of the Swedish maidens are good cooks that is what we want. So get busy, boys, learn Old Bill to carry the buggy direct to Sweden.
Messrs. Clem Little and Pat Richardson made a business trip to Fife the 14th. That is what they called it. They went in separate buggies. Look out, Fife boys, about those business trips. Truly, they meant business.

Mr. R. M. Russel has moved to the Ward place lately.
Well, I will close by sending a poem as follows:
"Tis better to sew your lips together
And cut off your tongue,
Than to talk about your neighbor
And discourage the young;
For it makes them dull through life
And they won't be worth a whet;
So you had better give him courage,
Yea and do not forget.
When a laddie starts out
He lays his plan before.

Then if he keeps getting discouraged
He can do his plan no more.
Yes, you had better give him courage,
And help him along,
Then when grown to manhood
He may fill the place where he doth belong.
B. WISE.
Lame back may come from over-work, cold settled in the muscles of the back, or from disease. In the two former cases the right remedy is BALLARD'S SNOW LINIMENT. It should be rubbed in thoroughly over the affected part, the relief will be prompt and satisfactory. Price 25c, 50c and \$1.00 per bottle. Sold by Jones Drug Store.
Just the right time now to order your spring suit. We have samples that never fail to please Baker & Calliham.

MISSIONARY MEETING.

Baptist Ladies' Aid and Missionary Society.

Monday afternoon the Baptist Ladies Aid and Missionary Society held its regular missionary meeting at the home of Mrs. Jas. Coalson.

A most interesting program was rendered with Mrs. Yantis as leader. The subject was "A Million Women—A Study of Organization."

Several papers were read and discussed and plans for a more thorough local organization of our women were offered. These plans are to be carried out in the future work.

Dainty refreshments of coffee and sandwiches were served. All went away feeling that we would be glad when missionary day came around again.

ONE MILLION DOLLARS FOR A GOOD STOMACH

This Offer Should be a Warning to Every Man and Woman.

The newspapers and medical journals recently had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others.

Every one who suffers from dyspepsia for a few years will give everything he owns for a new stomach.

Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements to help to restore the gastric juices their digestive power, and to aid in making the stomach strong and well.

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result.

Three sizes, 25 cents, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. Jones Drug Co.

Mayse-Kerby Nuptials.

The following account of the marriage of A. G. (Pat) Mayse, clipped from the McKinney Courier-Gazette, has come to our notice through the courtesy of O. B. Sammons, of Winchell, and will prove of interest to the many friends of the groom here:

"A. G. (Pat) Mayse and Miss Bertie Kerby were happily married last night at the home of the bride, at 8 o'clock, Mr and Mrs. George Kerby, on South Benge street, Elder Johnny McKinney officiating. Only a few intimate and personal friends of the family were present.

"Mr. Mayse has only been a resident of McKinney for three years, having been advertising manager of the Daily Courier-Gazette and The Weekly Democrat-Gazette. He is a young man of fine business ability, sober, moral, a hustler and honorable in all his dealings. His position with these papers is a most responsible one, and the proprietors are well pleased with his work. Mr. Mayse, by his gentlemanly deportment, has made many warm friends since his residence here, who wish him bon voyage down the swift fleeting passage of time.

"Miss Bertie is the beautiful and accomplished daughter of Mr. and Mrs. George Kerby, a Collin county born, reared and educated young lady. She is of sweet temper, a splendid Christian young woman—just the kind of a queen to adorn the home of a young man like Pat Mayse. Being a practical, sensible girl. Pat Mayse did the best day's work of his life when he won the heart and hand of this beautiful Collin county and McKinney young woman.

"This is one of the best suited and happiest young couples who have ever joined hearts and hands, in our opinion, in this great county.

"All the force are today congratulating Pat. The whole bunch like him and are happy in the thought that another one has joined the great force of Collin's leading paper. Pat is smiling all over his face today—just like some good McKinney merchant had given him a two-page advertisement. And of these two—Pat and Miss Bertie—Miss Bertie is ten-times the best looking.

"May happiness, peace, prosperity and all that is good, pure and wholesome ever attend this young couple is the sincere wish of these editors."

Will do it. Sure—Dorr's Kidney drops. Cures Lame Back and Kidney Diseases.

W. J. West and son were up from Rochelle Saturday, and Mr. West wrote us a good looking check for some stationery and subscription. Mr. West reports his oats beginning to come up, and says he is confident his new method of sowing oats certainly kept them from freezing.

F. E. Brazleton was in Saturday to take advantage of our clubbing offer No. 7. Mr. Brazleton lives about eight miles from Brady, being in the "dry" belt last year, but nevertheless he made seven bales of cotton and would have been very well satisfied with this if the price had only held good. His feed crop, however, was mighty short. He hopes to make up for several years during 1912, and here's hoping he will.

CALLAN CONGOCTIONS FOR MAGNIFICENT MENARD

From the Messenger.

The executive committee of the Truck Growers' association has bought two lots on the north side and is making arrangements to build a warehouse and modern canning factory on short order. Sufficient land will be converted into truck farms this year to insure that the enterprise will pay, and by next season it will undoubtedly be paying big dividends. Now, if you think Menard isn't going to make a town worth while, we'll give you just three minutes to change your mind.

As an evidence that W. C. Preston, general passenger and freight agent of the Frisco, intends to make his summer home at Brady, as suggested by The Standard, a one-horse publication issued by an old maid named Schwenker, we desire to inform the people of the United States through these columns that Mr. Preston has already bought the ground for said home—some thirty-seven miles southwest of Brady, on the Brady and Menard road. In other words he bought the old Hockensmith place below town from Mr. Haynes at \$65 per acre, 41 acres in the farm. F. B. Parker, of the Menard Land Co., made the deal.

T. C. Allen was a visitor from what was left of Brady last week.

There will be two days' racing at Menard February 14 and 15 and you had better be making arrangements to be on hand and get your share of the good time.

Mr. and Mrs. Schoolcraft left Monday for Brady, where they are visiting their son. Mr. Schoolcraft is blind.

Mr. Billington, of Lohn, had the misfortune to have his team run away with him in Eden Saturday, throwing him out and dislocating his ankle. He remained over until Monday, when he went to Brady.

Mr. and Mrs. Arthur Draper came over from Brady Sunday on the Santa Fe, returning Monday. Mr. and Mrs. Draper have many relatives and friends here who are glad to have them visit us.

The new depot is being rapidly pushed to completion. The roof is being put on and everything begins to show up nicely. The building is one that Eden will be proud of and will be a good card for her boosting. The section house a few hundred yards east of the depot is also fast assuming a finishing attitude. Things are shaping up for good in Eden.

Mrs. Ben Peak returned Sunday from a visit to relatives and friends in Brady and Lampasas.

Frank Latham, of Millersview, was in Eden Thursday and Friday with cotton and he carried back a load of feed and lumber. He reports work on the school house progressing nicely, considering the bad weather.

Mrs. Dr. Mangum, of Ballinger, is on a visit to her parents, Mr. and Mrs. R. A. Sellman.

Henry Carlson, one of our good friends, endeavored to make us happy Saturday, and succeeded. Mr. Carlson has no particular objection to the way Fortune has smiled or frowned on him, and states that while the last two years were not at all favorable, he has had the satisfaction in the five years that he has lived here to see three good crops, and he has faith in McCulloch to believe he will see some more. He states that while the weather has been plenty cold for him, he believes it hardly compares with that experienced by his brother in the state of Washington. A letter from the latter told of a foot of snow falling there over night, and the snow storm still in progress, accompanied by plenty of cold weather.

SAN SABA SAYINGS.

From the News.

Steve Duke, of Brady, spent Sunday in San Saba.

J. E. Wiley spent Saturday and Sunday with his family in Brady.

The J. L. Burleson bank at Richland Springs is to be a National bank with a capital stock of \$25,000. J. L. Burleson will be president of the bank, A. L. McQuiston will be cashier and J. B. Miller, bookkeeper. Mr. McQuiston is a business man of experience and reputation and comes from Long Island, Kansas. The News predicts for the new institution a prosperous career.

Dr. E. W. Donnelly will in the very near future organize a company for the purpose of putting in a large soap factory at San Saba. The doctor discovered last year a peculiar kind of infusorial earth in his pasture north of town. He has since been experimenting with the find and is discovering that he has the best refining material on earth. He has the elements for refining cotton seed oil and making all the various grades, and especially the better grades.

Mrs. Irvin Zumwalt and children went to Brady Saturday to join Mr. Zumwalt, who is working on the union depot there. They will make Brady their home for the present.

Alex Oliver came down from Rochelle Friday, returning Saturday. Mr. Oliver was the first manager of the Union gin in San Saba. He contemplates putting in a gin at Hall for the next crop. This was the first time he had been to San Saba since the railroad was completed and he remarked that it looked like a new town.

J. M. Heflin, of Brady, was here the first of the week prospecting with a view of putting in a restaurant.

Willie Beakley, of near Placid, McCulloch county, was in San Saba on business Monday. He formerly lived in this county. He reports farming rather backward in his country.

More Improvements.

Not content with the already modern and up-to-the-minute appearance of his restaurant, Wm. Graham is constantly making new changes and improvements. Since cutting off part of his dining room for the new meat market, he has remodeled and re-arranged this part of the Blue Ribbon cafe, and placed small tables for the convenience of his guests. Another innovation, and one that will be heartily appreciated, is the installing of lavatories. Add to this the attractive appearance of the entire place, and its reputation for service and cleanliness, and it is not hard to understand why the place is so popular.
