"WHERE THE PEOPLE TRADE"

#### Potter Clay.

The Standard editor was quite well satisfied in the knowledge that McCulloch county had oil and coal, granite and other valuable building rock, as well as more natural resources than one man can ordinarily assimilate in the course of a single life time, but other Brady citizens were not content to let it go at that, and now come forward with the information that we have right here in Brady an immense deposit of a very fine grade of potters clay.

The clay has been found in the vicinity of the fair grounds, and, as a matter of fact, covers a large area on the north side. Two expert brick men from Humboldt, Kansas, Messrs. G. W. Hall and C. H. Cleveland, have examined the clay and pronounce it as fine as any in the country, and capable of being manufactured into fancy glazed brick, tile, sewer pipe and other articles. The Commercial club has made a proposition to the Humboldt parties to give them

a lot on condition that they come to Brady and erect a first-class brick factory.

The manufacture of potters clay is said to require an even and steady heat, such as can be best maintained from gas or oil, and should the Lohn fields be developed so as to warrant the building of a pipe line, or the providing of some cheap method of transportation, it is certain that the brick factory would be established at once.

### WORK STARTED AT DAM

WORKMEN ENGAGED IN CLEARING CREEK BED.

Preliminary Work on Site of Upper Dam Begun—Actual Work Begins Next Week.

Alderman P. J. Martin has charge of a force of workmen engaged in cleaning out the bed of the creek at the site of the upper dam. The work started Monday, and everything will be gotten in readiness for the work of actual construction, which will, in all probability, be begun next week. The workmen are engaged in removing all brush, trees and other obstacles that might serve to hinder the work or cause the obstruction of the creek and allow the trash to accumulate.

#### Government Road Builder.

Judge Harvey Walker is in receipt of a letter from George D. Marshall, United States Superintendent of Road Construction, stating that he would arrive in Brady from Sherman tomorrow (Wednesday) to help in the work of building good roads. Mr. Marshall will be accompanied by his wife, who is a talented singer and who has offered her services in church and charitable work. Mr. and Mrs. Marshall will find a hearty welcome awaiting them from Brady citizens and Brady social circles.

#### Charcoal. O. D. Mann & Sons

Henry Bradley was in from Fife Monday, reporting everything looking well out his way, and stated that practically everyone had a good patch of oats this year, and that twice as much oats had been sowed in his community than ever before. He stated that they were not suffering for rain as yet, but that a rain would help fall oats considerably. Mr. Bradley is one of McCulloch's progressive farmers, and is a firm believer in advanced methods of farming. He is always ready and anxious to profit by the experience and advice of other farmers, and thinks diversified farming will mean the emancipation of the farmer.

#### MENINGITIS CASES.

Cases Near Brownwood and Lometa.

While interest in the epidemic of meningitis has abated to a large extent, the contagion seems to make its appearance almost as numerous as ever, and frequently in new places. The latest case reported in this section is at Elkins, near Brownwood. The Brownwood Bulletin gives the following account of the same:

"It is officially announced that there is a case of meningitis at Elkins. Maxwell, the son of W. J. Fortson, is dangerously ill of the disease. He began vomiting at an early hour yesterday morning and at 11 o'clock became unconscious. He was attended by the county health officer and serum was used, but it is doubtful if the boy will recover.

"The case, according to the physicians, originated in this county and the Elkins community. The boy had not been away from his home for some time."

The Lometa Reporter gives accounts of two deaths in that vicinity, one occurring at Bend, in San Saba county and the other in North Lometa. The following is the report:

"Hosea King, the 18-year-old son of Mr. and Mrs. W. H. King, of the Bend community, who developed meningitis on Tuesday, January 24, died Monday afternoon and was buried at Bend cemetery Tuesday afternoon. This is the only case of meningitis reported from the Bend section."

"Lee Tatum, 9 years of age, died of meningitis Wednesday, February 7, at the home of his aunt, Mrs. Bell, in North Lometa. His parents live in San Saba county."

### FIRST RAIN OF THE YEAR

BRADY COUNTRY IS THOROUGHLY SOAKED.

Inch and a Quarter Rainfall—Rain Welcomed Everywhere and of Immense Benefit.

The first rain for the year 1912 fell Monday, commencing about 4 o'clock p. m., and continued the greater part of the night. The rain fell intermittently, sometimes pouring down and again falling lightly. The government rain gauge registered a precipitation of one and a quarter inches, and from reports over the county, all sections were visited by an equally good rainfall. The morning train out of Fort Worth encountered the first mud at Granbury, the passengers reporting a bare sprinkle at the time of leaving Fort Worth. From Granbury through to Menard, however, the rain was said to have been splendid, and telephone reports state that it rained from San Angelo through to Coleman. All parts of McCulloch county report rain; as does also Eden, Menard, Mason and adjoining places.

The rain could not have come in better season, or have fallen nicer if it had been ordered. While feed was not suffering for rain, and would not have for some time, yet the rain will be of immense benefit to the crops and more especially to the fall oats, which was beginning to dry up in places. There will be a large amount of oats sowed following the rain, and feed should be plentiful. Farmers generally are looking for an early Spring, and in the course of another month or month and a half, grass should be coming nicely.

Mr. and Mrs. A. M. Martin will leave for Waco Saturday to make their home at that place. Mr. Martin expected to remain in Brady until about the first of March, but his business associates have been urging him to come to Waco at once and take charge of the business, and finally prevailed upon Mr. Martin to arrange to be with them immediately after the 15th. Mr. and Mrs. Martin are both splendid people and will be a welcome addition to Waco social and religious circles.

If you enjoy an evening of song and story, hear the Dixie Male Quartette, Tuesday night, the 20th. Admission, 25c, 35c, 50c.

## COME TO McCULLOCH.

It's no use talking, Grand Old McCulloch is a peach. It acknowledges no superior from any viewpoint. It is peopled with as high a class of citizenship as can be found anywhere in the world; it is blessed with splendid churches, schools and educational facilities; it has homes and lands of every kind to suit every taste, from the black waxy to the deep sandy, and its soil is as fertile as the valley of the Nile.

Add to these advantages the artesian wells to be found in various parts of the county, and the abundance of pure water; then take into consideration the oil fields that promise to rival those of Electra and Tulsa, and top it all off with the immense beds of granite and the building sands in the south part of the county; the pottery fields right at home in Brady; the coal veins in the north end of the county and the unknown and inestimable other mineral resources, and you have a country wonderful in its possibilities, and boundless in its opportunities.

And the progressive spirit of the McCulloch county citizens is no where better exemplified than in Brady. It is the spirit that voted \$75,000 for road improvement in District No. 1; that voted bonds in the sum of \$40,000 to secure an inexhaustible supply of water, and that has induced various enterprises to establish in Brady.

That McCulloch county enterprise and McCulloch county resources are recognized by the world at large is no better evidenced than by the fact that more railroad mileage was built in the Brady Country last year than anywhere in the state. The doors have been thrown open to the world and McCulloch county stands with open arms to invite the investor, the prospector, the capitalist and the laborer.

Come to McCulloch.

## CITY MAIL DELIVERY.

There is a bill pending in congress known as the "Griest Bill" the purpose of which is to ask for the delivery and collection of mail in towns and cities of from 1,000 to 10,000 inhabitants.

This mail privilege will not be granted to any city or town unless there is a petition and effort on the part of the citizens to secure it. In order that Brady may have this service, it will be necessary for us to name all the streets, mark them with their names, number all the houses and place receptacles at our homes for the reception of the mail and the mail to be posted.

The Commercial club has the matter up and a committee appointed to secure your names, asking our representative, Hon. Jas. L. Slayden, Washington, D. C., to vote for the passage of the bill. We ask our people to

sign the petition and then write a personal letter to our congressman, Slayden, urging him to the support of the bill.

If you would be successful, take a course in diversified farming. It pays.

And now the base ball season is right upon us. Life is just one thing after another.

A powerful field glass failed to discover the man in Brady who was not pleased with the rain.

McCulloch county faces greater things in 1912 than ever before in history. Keep your eye on McCulloch.

Put your money in McCulloch county dirt. It's the safest bank on earth, and pays the biggest interest on your principal.

There never was a finer season in the ground, land was never in better shape, and prospects were never brighter than now.

We have not heard of any Menard folks being lost to sight in the mud of her "paved" streets, but we are expecting a fateful message of the sort at any moment.

The rain, the beginning of work on the waterworks dams, the good roads work, a broom factory, an ice plant—these are but a few of the good things that Brady and McCulloch county are enjoying.

With the promise of a bumper crop; with developments in the Lohn oil field; with the good roads work and the work on the dams; with the Frisco extending to Mason, 1912 will show a wonderful increase in the population of McCulloch county. Things, as well as people, are coming our way.

# DON'T

## Stand Helpless Before a Selling Task

Mr. Merchant, if you must sell your goods even "in haste," don't let the task loom up before you in an intimidating way, label itself "impossible."

Go at it in a "sane and simple way" starting a modest advertising campaign, to continue without interruption or without misgiving, until your goods have been brought to the proper notice of the buying public. Then (if your goods are as represented) your "selling task" becomes a very pleasant business transaction.

## With The Candidates

S. M. Richardson.

The announcement of S. M. Richardson is made this week for re-election to the office of City Secretary. Mr. Richardson needs no better recommendation than his record during the time he has served the citizens in this capacity. It is the universally expressed opinion of the members of the city council, as well as that of citizens, that the affairs of the city were never in better hands, or that the duties of the office had ever been looked after in a more careful and conscientious manner than during the time they have been in the hands of Mr. Richardson, and this too in the face of the fact that the volume of work had been at least doubled by reason of the work entailed in the preparation of the transcript and other details in connection with the water bonds.

## A PHYSICIAN'S DIAGNOSIS OF KIDNEY TROUBLE.

## A Seemingly Common Disease which Becomes Fatal through Neglect and which May Be Readily Cured by Prompt Attention.

More than two-thirds of the annual death rate, physicians claim, is directly traceable to kidney disorders.

Interested by this remarkable assertion and desiring to acquire a better understanding of the origin of the disease, a prominent physician was recently interviewed as to the symptoms of such troubles.

"To what do you attribute the great destructiveness of kidney disease?" was asked.

"The hold which the disease gains in the body before the victim becomes aware of his true condition, and the rapidity with which it eats its way into the vital organs."

"Would not the proverbial 'ounce of prevention' check the progress of the disease?"

"There is no doubt of it. The trouble is that victims of this disease mistake the symptoms for some trifling ailment in the stomach or bowels; therefore they do nothing to arrest the course of the disease until it is well advanced."

"What is the origin of kidney trouble?"

"Almost invariably bad digestion, followed by torpid liver and a constipated habit."

"What are the symptoms?"

"Headache, dizzy spells, sluggish brain, restless nights, pale or sallow skin, bad breath, lack of appetite, heartburn, sour belching, backache or tenderness over the kidneys, nervous weakness, dark rings around the eyes, tired feeling, too much or too little urine, and sediment in urine."

ITS EFFECT ON THE HEART.

"In what way is the heart affected from kidney trouble?"

"In all cases the heart is disturbed, though in many instances the palpitation does not become alarming until the disease has advanced to a serious point. A severe heart throbbing and nervous trembling is noticeable, especially after a little bodily exercise; the victim frequently imagines he has heart disease."

HOW TO CURE IT.

"What is the proper course of treatment for kidney disease?"

"First, to get rid of uric acid and other poisons in the system. This can be done by stimulating the bladder and bowels so that they will act more freely. The suffering kidneys must be strengthened, the liver and stomach toned up and the digestion improved."

"Prickly Ash Bitters is a remedy that answers these requirements completely. It is not only a system tonic and regulator, but its healing and restorative influence will build up the weakened kidneys and urge them to a better performance of their duties. It gives strength and tone to the liver, stomach and heart and promotes harmony of action throughout the body."

M. W. Burr, village blacksmith and respected citizen of Stars, La., says: "I was troubled with kidney and liver disorder for 18 years. I was in continual misery until I began taking Prickly Ash Bitters which has entirely cured me, and I am now a strong, healthy and hearty man. I give it to my wife and four children and they are in the best of health too. I feel that Prickly Ash Bitters is the best remedy on earth and that everybody should keep a bottle at home."

## CARDUI WORKED LIKE A CHARM

After Operation Failed to Help, Cardui Worked Like a Charm.

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from this place, "and at times, I could not bear to stand on my feet. The doctor said I would never be any better, and that I would have to have an operation, or I would have a cancer.

I went to the hospital, and they operated on me, but I got no better. They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and began to improve, so I continued using it. Now, I am well, and can do my own work. I don't feel any pains.

Cardui worked like a charm." There must be merit in this purely vegetable, tonic remedy, for women—Cardui—for it has been successful use for more than 50 years, for the treatment of womanly weakness and disease.

Please try it, for your troubles.

# Good Clubbing Offers

The American people are the most intelligent people on earth. They have attained this high place through the medium of the free press. We have been asked a number of times whether we clubbed with certain papers, and in order to provide our people with a line of wholesome reading, The Standard has secured the co-operation of a number of papers in making some attractive clubbing offers. These offers will enable our friends to purchase what they want at greatly reduced rates, and we are perfectly sincere when we advise that the offers should be taken advantage of at once, as we can only hold them open for a short time.

## No Home Circle Is Complete Without Paper

and Magazines in the long winter evenings. Beginning January 1st, 1912 there was a general advance in price of almost all newspapers and magazines. You can save good money by taking advantage of our clubbing offers. Examine our list. If you don't find what you want perhaps we can arrange a combination to suit you.

The prices below are for one year's subscription to each paper or magazine. There are 104 issues of The Brady Standard in one year, 52 of the Youth's Companion, 52 of the Farm and Ranch, 104 issues each of the Dallas Semi-Weekly News and Farm News, 12 of Holland's Magazine.

From the Messenger.  
R. A. Rutherford was in Fort Worth this week on business.

Mr. and Mrs. Jas. Mann were over from Brady last week visiting the family of J. A. Bevans.

Mrs. June Coopender was over from Brady this week visiting her daughter, Mrs. W. L. McKee.

The poll tax receipts and exemption certificates issued in Menard county are 583, an increase of more than 100 over last year.

**\$100 Reward, \$100.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

## MASON MAVERICKS.

From the News.  
Henderson Massey, of London, was here Wednesday. He is arranging to start a poultry farm at Brady soon.

D. H. Bickenbach purchased 88 head of steers from R. D. Kiser, 200 head from Zesch Bros., and 40 bulls from J. W. White and has them on feed at Brady. Frank Bickenbach is in charge of the cattle.

R. H. Garner and Oscar Doell went to Brady Thursday for a short visit.

From the Herald.  
H. L. Weeber made a trip to Paint Rock week before last to look at property belonging to W. F. Winkel, and the latter came down last week and a deal amounting to nearly \$15,000 was made between them. Mr. Weeber buys two farms in Concho county and a residence in the town of Paint Rock. The farms are 240 and 340 acres respectively and the price paid was \$22.50 per acre. Mr. Winkel takes the large concrete residence of Mr. Weeber's on the hill in the west part of town. This is a ten-room building and Mr. Winkel and family will move down at once to occupy it. Other changes in connection with this deal will be made after Mr. Winkel arrives.

The old home place of Geo. W. Bird, a few miles northwest of town, was destroyed by fire last Sunday morning, just before the noon hour.

Mason local ball fans met one day this week, organized and decided to begin practicing early for the 1912 season. Last year they did not play much ball, but they did good work while they were at it.

Last Monday night after midnight the barn on Dan Bird's farm three miles from town burned, and with it was consumed all his corn, also hay and cotton seed. The cause of the blaze cannot be accounted for, as Dan was not near enough to the barn to drop a match or cigarette stub that could cause it.
