The IMPORTANCE of GLASSES

for that condition of your eyes should have your attention at once. The eye is the most delicate part of the human body and the easiest to permanently hurt. You will indeed be a poor, pitiable object without eyesight. Get your eyes examined today if you have a suspicion that they are not all they should be.

Come to this store—**examination free.** Our years of experience with thousands of eyes, guide us in our work. You **may** not need glasses but it is wise to make sure. That fault you have found in your present glasses will be corrected if you let us have a look at them.

Come in today—**absolutely no charge is made for advice.**

ICE FACTORY BUILDING.

Handsomeness of the handsome new Mann building now in course of construction, has been given the contract for the building of the ice factory building to be erected by Mann Bros., and work on same will begin Monday. The plans call for a handsome and complete building, 44x84, of brick construction, tar and gravel roof and thoroughly modern in every detail.

Construction will be rushed with all speed in order to have the building in shape for the installing of the machinery immediately upon arrival. Brady citizens may congratulate themselves upon having secured this much-desired and much-needed enterprise, and also upon the fact that the machinery will be as up-to-date and complete as can be had.

Married.

The Menard Messenger reports a marriage license having been issued Wednesday, February 28th, to Ed Decker, of Menard and Mrs. May Pollock, of Brady.

To the Ladies of Brady.

I am in the city for a few days with a line of Spirella Corsets and anyone wishing anything in this line, please phone me at J. Coorpender's residence. Mrs. E. Zerby.

A boy arrived at the home of Mr. and Mrs. T. O. Squyres Monday, March 5th.

H. P. Roddie left yesterday for Mason on a business trip.

DEMONSTRATION SPECIAL.

Interesting Lectures by Santa Fe's Demonstrators.

The Santa Fe Demonstration Special arrived on schedule time Wednesday and stopped here for an hour and a half in order to give Brady citizens an opportunity to hear lectures on farming, hog and poultry raising and dairying. The attendance was disappointing, only a few taking advantage of the opportunity, but those who did attend were well repaid for their time, the talks being interesting and instructive. The Santa Fe is doing a great work for the farmers in this line, and their Demonstration Special is winning public approval wherever it appears.

Another Well Started.

Well No. 5 was started in the Lohn oil fields by Meers Bros. & Bannister immediately after bringing in of the fine well last Saturday, and the work will proceed as before. With a few more successful drillings the field will be placed on a self-sustaining basis, after which more extensive operations will be taken up, and a deep well rigging will be secured.

Hog Feed.

We have it. Macy & Co.

C. A. Trigg and Dave Camp left Wednesday for Dallas and San Antonio on a business trip.

Easter Early.

Easter comes early this year—April 7th. That's the reason you should order your Spring suit now, and get it in good time for that date. When Kirk does the ordering—nuf sed.

ONE MORE CASE.

Another Child Develops Small Pox at Onion Gap.

The 7-year-old Fuller girl, who was the third small pox patient at Onion Gap, is reported improving and every indication points to her complete recovery. The 4-year-old son of Mrs. Fuller is broken out with the disease, and the 2-year-old girl shows every symptom and will undoubtedly bring the number of cases up to five. Both children had been vaccinated, but evidently too late to ward off the contagion. Two of Mrs. Fraime's children are said to be ill with fever, probably caused from vaccination. Mrs. Fraime was also vaccinated the second time, the first not having taken.

Mrs. Fisher and Lee Crisp and family, living northwest of Brady, have been placed in isolated quarantine by order of the city health officer, they having been indirectly exposed. Quarantine in small pox cases is maintained for twenty-one days.

Mrs. Tom Brown.

One of the saddest deaths on record was that of Mrs. Tom Brown, which occurred Wednesday night shortly before 11 o'clock. Mr. and Mrs. Brown had just buried their 7-month-old babe, which died at 3 o'clock Tuesday night of pneumonia, the funeral having taken place Wednesday. Mrs. Brown was not well Wednesday morning, and medical attention was given her, but her illness was not thought severe. A physician was again called late in the evening, who prescribed for her, and her illness was pronounced not dangerous. Two hours later she was dead. Death was caused by heart failure, superinduced by excitement and grief over the death of her child.

The funeral took place yesterday afternoon, services being conducted at the Brady cemetery by Rev. Francis and the body was laid away beside that of her child.

Mrs. Brown, before her marriage, was Miss Emma Tally, her home being at Red Rock, where her mother still lives. She was married less than two years ago to Tom Brown. At the time of death she was 19 years of age. She had been a member of the Baptist church three years, and was a most estimable young woman, numbering a large circle of friends. Her mother was notified of her death but did not arrive in time for the funeral, her brother, living on Mr. Henderson's place, being the only member of her family present at the burial.

Messrs. L. O. Marshall and W. E. Lohn, the Lohn merchants, were Brady visitors yesterday. They were accompanied by Mr. Lohn's son, Carl.

Come today and have first pick of our new Oxfords. Wm. Connolly & Co.

To My Friends.

I want, through The Standard, to thank everyone who assisted me in winning the first pedalmobile, and especially do I feel grateful to the fifty who gave me their subscriptions to the Fort Worth Record. I expect to show my appreciation by giving you prompt and faithful service, and hope you will be as pleased with the paper as I am with my prize.

HENRY TIPTON.

GIVEN FIVE YEARS.

Minimum Sentence Given Will Edmondson Wednesday.

The jury in the Edmondson case, after being out all night, Wednesday reached an agreement, finding the defendant, Will Edmondson, guilty of rape, as charged, and assessing the minimum punishment, five years in the penitentiary. Edmondson immediately filed a motion for a new trial, which was overruled, followed by notice of an appeal. He was released on \$2,000 bond.

In the case of Lura Townsend vs. Walter Townsend, divorce, the same was granted plaintiff.

The Mexican has accepted his life sentence, and will be taken to the penitentiary by the penitentiary transfer agent in the next few weeks.

A Range of New Greenhouses.

I have enlarged my greenhouses at Brownwood, Texas, to an area of 6,000 square feet of glass, steam heat and all modern facilities for growing carnations, sweet peas, bulb plants, etc. All kinds of bedding and pot plants, hanging baskets, plants for porch baskets, ferns, palms, field-grown roses, in fact anything that you want in the way of flowers and plants. I call special attention to my 10 cent rare designs and cut flowers for all occasions. I solicit a share of the Brady trade and guarantee satisfaction. I am near you and that means fresh plants and flowers. Just give us a trial.

MRS. C. L. STEFFENS.

Railroad Proposition Accepted.

San Antonio, Texas, March 4.—The proposition of R. A. Love, of Kansas City, to build a railroad between San Antonio and Fredericksburg has been accepted by the Chamber of Commerce. The city will give a cash bonus of \$50,000 or take \$150,000 of first mortgage bonds of the railroad.

Embroidery dresses are extremely popular this season, and Benham has a beautiful showing at \$9 and \$10. Nothing prettier.

L. Y. Callihan has accepted a position in Kirk's cleaning and pressing department, and is greeting his friends there.

When you have visitors, or have items of personal interest, phone 179 or 163.

THE COURT RULES

That an institution of McCulloch county, founded of the people by the people and for the people, that a decree setting forth a decision in favor of such an institution: Whereas, it is the supreme privilege of the public everywhere, and especially the good citizens of Brady and McCulloch county, enjoying all the rights and privileges of calling upon Jones Drug Co. from day to day, week to week and year by year, then to give to said Jones Drug Co. their liberal patronage and loyal support, where all people alike, men, women and children receive fair treatment and get full value for their money, and where your patronage will be appreciated. THE JUDGE.

NO NEW CASES.

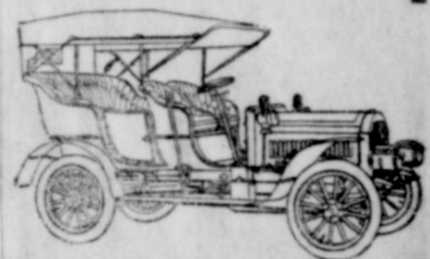

Brownwood Meningitis Situation Improved.

The Brownwood Bulletin reports no new cases of meningitis at Brownwood. Of the twelve cases in the county in the past forty days there have only been three deaths, four have recovered, three are convalescent, and two hang in the balance. In Brownwood there have been six cases, of which two died, three are convalescent and one is expected to die.

J. J. Vardeman, of Bangs, was the first victim, the three cases at Winchell recovered, and the case at Elkins is well. Mrs. Dr. Gore, at Bangs, is improving. In Brownwood, the Seitz child was the first to succumb to the disease, while Marvin Ratliff, the 7-year old son of Mr. and Mrs. H. G. Ratliff, died Monday night. The recovery of Rankin Parks is not looked for. The other cases, Guy Bourland, manager of the skating rink, 23 years old, Dewey Cates at the City Hotel, and the Ray child are all improving.

Before you buy see our line of new hats. Wm. Connolly & Co.

COUNTY CORRESPONDENCE

FIFE FINDINGS.

Fife, Texas, March 3.

Editor Brady Standard:

After several mornings of misty, moisty weather, Old Sol is showing his beaming face, warming up Mother Earth with his smiles and causing our early vegetables to peep out.

Our singing Sunday afternoon was well attended, and the music they made was fine. Come again and bring somebody with you.

The telephone meeting was very interesting and a number took shares in the new company.

Mr. and Mrs. E. B. Baldrige are rejoicing over a new son who made his arrival Feb. 12, 1912.

Mrs. Sam Tedder and Mrs. Rob Roberts visited Mrs. A. M. Finlay Saturday.

Misses Ruby and Elva Payne, accompanied by Chas. Bratton, are spending the week-end in Rochelle.

Miss Jessie Knight, a charming young lady of Hardin, is the guest of Miss Dovie Watson.

The young ladies of Fife have again organized the basket ball team, with Miss Mary Thurber as captain of the first nine and Miss Vane Baldrige captain of the second nine. Quite an interesting game was played Saturday evening.

We noticed that some time since, B. Wise wondered what the attraction could be for a young man from Ward. Surely, B. Wise, you have never seen the young feminine portion of Fife or you would not ask such a question.

Aunt Susan boasts of the Swedish maidens as cooks; we boast of good lookers, cooks, and everything pertaining to handsome, up-to-date girls. Come along and see.

Mr. and Mrs. James Long were the guests of Mr. and Mrs. A. M. Long Sunday.

Rev. Burrows filled his regular appointment Sunday.

T. R. Poole and family have moved back from Waldrip. There's no place like home.

Mr. Phoenix, the rustling drummer, was in our community this week seeing the merchants.

Mr. Sampson, a traveling man of Austin, was here also.

Rob Finlay, Sam Tedder and Dink Burrell were sight-seeing in Brady.

Mr. and Mrs. Arthur Briscoe, Miss Verna and John Briscoe, Jim Hill, Richard Budnick and Paul Schmidt were among our visiting singers.

Rob Finlay attended Masonic lodge at Mercury Saturday night.

John Simmons and bride visited in Pear Valley Saturday.

Y's ACRE.

WALDRIP WHOOPS.

Waldrip, Texas, March 3.

Editor Brady Standard:

I think I shall almost have to quit. It seems as if there was nothing doing except a few little acts of meanness which are useless to report.

We are having "weather," but just what kind, I can't tell.

Mrs. Lederer and daughter, Julia, returned to their home in Temple last Wednesday.

Little Edell Wright has been on the sick list, but is all right now.

Messrs. Ernest Ramsey, John Winstead, Jr., T. J. Bratton, R. C. Daniels, James and Hubert Lafferty, Mr. and Mrs. T. C. Ramsey and Mr. Oscar Holland gathered at the home of Dr. and Mrs. J. E. Powell, where Mr. Holland rendered some beautiful music. All report a splendid time.

Rev. Young, of Lohn, filled his regular appointment here Sunday night.

Mr. and Mrs. Arthur Briscoe, Miss Verna and John Briscoe attended singing at Fife Sunday afternoon. They report the best of times.

Dr. Ragsdale, of Brownwood, made his professional visit here the latter part of last week.

We are glad indeed that Fife and Lohn have organized their singing classes. Let others do likewise and re-organize the convention. They are the very thing for summer amusement.

Mr. Glenn Wright, of Santa Anna, came home on a short visit, and was accompanied on his return by his mother.

John Martin visited his sister, Mrs. Smith, of Stacy last week.

Miss Bertie Hays, of Lawton, Ok., is at home on a visit.

Someone write a real newsy letter to make up for this failure.

THE KID.

WARD WHISTLINGS.

Brady, Texas, March 4.

Editor Brady Standard:

Our country is being stirred up. The road workers are doing that, of course, with their scrapers. Road work is progressing nicely in our community.

Fine prospects for crops, ha, ha! Certainly it couldn't be otherwise in beautiful Ward. Has been drizzling rain all day. The farmers have all about got their land broke and ready for planting.

Mr. and Mrs. Bob Satterwhite are rejoicing over their fine boy who arrived at their home last Thursday. The little man has the advantage of everybody else. He won't be bothered with his birthday only every four years.

The singing at Mr. Parker's home last Sunday night was enjoyed by all present.

Mrs. Kinney was visiting at Mrs. Baric's of Prairie View last week.

There will be a singing at Mr. Kinney's next Sunday night.

Clem Little has his horse well trained. He went to Fife last Sunday and never started home until after night. On his way home he went to sleep, and when he got to the gate where he was to turn in at to go home his horse stopped. He stayed there until Clem got his nap out and got up and opened the gate and let him go through.

B. WISE.

Notice

The G. C. & S. F. Ry. has on the press, a very comprehensive pamphlet, entitled

"Practical Information For the Farmers of Central West Texas."

written by the Santa Fe's Practical Demonstrators.

The pamphlet treats of better methods of general farming, and is written in a simple, concise way, to cover that portion of Texas that you are interested in.

I will be glad to send you this pamphlet, FREE OF CHARGE, if you will drop me a line.

DUSTY ITEMS.

Voca, Texas, March 1.

Editor Brady Standard:

Well, hurrah for Dusty. The real name of this place is "Dusty," and if you don't believe it, cordially invite you to come and see.

Rev. Rankin preached at the Dusty school house Sunday, and while he was preaching a sand storm blew up and my! the sand did blow, and hasn't quite stopped yet. Someone tell us what to do. Some say eat dirt and live fat, but we have too much grit in our craw now.

Church was held at Mrs. Allen's Sunday night, as the school house was so full of dirt the people could not find room. Quite a nice crowd was present and enjoyed themselves nicely until time to start home, and all would have enjoyed that but they had to bid their friends, Misses Kate and Cora Hopkins, good-bye. They are going to Waelder, where Miss Cora was raised, to see relatives and friends. Miss Kate says that she is coming back, but Miss Cora says that she is not, but we can't hardly do without her and if she don't come back, we will just go bring her back. If no one else will go, I am sure Mr. Dee Williams will, and be glad of the chance. Wouldn't you, Dee?

Health in this community is very good at present.

Some of the young folks enjoyed themselves at a musical Saturday night at Mrs. Taylor's. Those present say they had a nice time, but those who were not present who had phones enjoyed it, too, for Miss Alma was kind enough to ring some of the people and let them hear the music. Many thanks, Miss Alma.

All you correspondents, fall in line, and stay in line and I am sure we will have a paper full of news some day.

We welcome "The Babe" from East Brady, for she can keep us posted about the meningitis, and we like to read the letters anyway.

Mrs. Mae Lawson is spending a few days with her mother, Mrs. Schaefer, who has been sick for a while, but is better now.

Mrs. Edna Morrow, of Brady, visited Mrs. S. P. Allen this week.

Mr. Bert Williams has been suffering some severe pains from an ankle sprain for the last few days, but is better at this writing.

With best wishes, I'll close and come again soon. UNO.

CALF CREEK WINDIES.

Nine, Texas, March 2.

Editor Brady Standard:

Here I come with my little mite again, but news is scarce as pretty girls in these parts.

I thought some of those young men around here would get married so I could send in some news, but to my astonishing surprise, they are just half married.

Health is good in our community. No sickness that I know of, except a little girl who was made sick over the meningitis scare. I think the scare is worse than the disease, if possible.

The Calf Creek school was visited by Mesdames Walter Kolb, Bertha Gressett, Grandma Kolb, Misses Maude Doewra and Emma Miccans. They were entertained with some good recitations and a good song. All report a jolly good time.

The parties at Messrs. Julius Dacy's and Doewra's must have been a success, as I hear no complaint, except that we want another one.

Messrs. H. L. Blasdel, two sons, Alfred and Teddie, J. T. Gressett and son, J. K., and Tom McDow were fishing on the San Saba this afternoon. Caught 3, I think—not fish.

Mr. Jim Kiser and wife moved to the Wilhelm ranch last week; hope they will like their new home.

Mr. Tom Bingham and wife visited Mr. Bingham's parents at Nine this week.

Mr. G. W. Walker and wife went to Hext this afternoon to visit Dr. Briscoe and family, formerly of Tucker.

The Sunday school was attended by a nice crowd this eve.

Mr. and Mrs. Cude are the proud parents of a fine boy at their home.

Mr. Carye Whitehead's family was made to rejoice the 2nd by the arrival of a new son to brighten their lives.

Mrs. N. C. Cottrell, of Brady, is visiting her daughter, Mrs. Bertha Gressett, this eve.

Misses Bessie Surlis and Letha Wren were shopping in Brady yesterday.

Well, the Old Woman will have to stop, wishing you all success through life.

"I think **PARISIAN SAGE** is good as a hair grower. It is good to rid the hair of dandruff and stop the hair from falling out. It is a beautifier as well as a scalp cleaner. I intend to keep it in the house. I know it helped my head."—Hannah Harkness, Marshalltown, Ia.

PASCHE PASSLETS.

Pasche, Texas, March 5.

Editor Brady Standard:

As I haven't seen anything from this place in some time, I will drop in and try to give a few happenings of our little town.

We have been having some cold and misty weather the past few days.

Tom Williford returned last Friday from Mason, where he has been for the past few days. Tom said Mason didn't look good to him.

We have a new blacksmith shop now at Pasche and first-class smiths and wood workmen, also a new residence going up.

Our school is doing nicely, with Prof. Oatman as teacher.

C. C. Ledbetter and Tom Williford went to Melvin Saturday.

The young people enjoyed a party and singing at the S. H. Oatman home Saturday night. All report a good time.

The Sunday school at this place is improving right along. New pupils nearly every Sunday. Prof. Oatman, superintendent.

Messrs. Ledbetter and Triplett, the Pasche merchants, get groceries, dry goods and hardware in on most every train, and always have ready sale for them.

Some of the Pasche people attended church at Ward Sunday night.

Miss Willie Littlefield, of Salt Gap, passed through Pasche the first of the week enroute to Eden.

W. C. Gardner, wife and little child went to Lohn one day last week.

Grandpa Ledbetter has been on the sick list the past two weeks.

Mr. Harvey Nolan is seen at the S. H. Oatman home most every Sunday. You had better look out Harvey, or the old man will be charging you board.

W. C. Gardner's father and two daughters, of Christoval, moved to Pasche a few days ago. We are glad to have them with us.

The high winds capsized the blacksmith shop at Crossville; as the house wasn't finished, it wasn't hard to blow over.

J. T. Turner and wife spent Sunday at the John Anderson home.

Mr. Burton and wife, of Melvin, attended Sunday school at this place last Sunday.

As this is my first time, I will ring off, and if this passes the waste basket, I will try and come again.

JUPITER.

To Mothers—and Others.
You can use Bucklen's Arnica Salve to cure children of eczema, rashes, tetter, chafing, scaly and crusted humors as well as their accidental injuries—cuts, burns, bruises etc., with perfect safety. Nothing else heals so quickly. For boils, ulcers, old running or fever sores or piles it has no equal. 25c, at Jones Drug Co.

EAST BRADY.

Brady, Texas, March 2.

Editor Brady Standard:

Well, here I come again, and it looks so much like rain this morning, I must say I am feeling fine.

As the "Old Woman" is a special friend of mine, I am glad to see her letters, and do wish I could see a long one next week.

Mr. Jake Hopkins died yesterday morning after a short illness. The old gentleman took ill Wednesday, they first thought with one of his old spells of heart trouble, but it developed into meningitis Uncle

LAZY LIVER SPOILS DAY'S WORK

Don't Let a Torpid Liver Knock You Out of a Day's Work—
There is a Better Way—
Read About it.

A man feels very little like working and a child don't want to go to school when bilious or constipated. If you try calomel to cure you the chances are that you will be so weakened by its after-effects that you will be laid up for two or three days or more. So we don't say "Don't take Calomel." We have a perfect substitute for calomel right here in our store, that we can fully guarantee to cure constipation and liven up the liver just as quickly as calomel, but without any of the bad after-effects of calomel. The name of this tonic is **Dodson's Liver-Tone**. It is a pleasant-tasting vegetable tonic that mildly stimulates the liver and causes it to work just right to cleanse the body without any danger of salivation. When you try it if you do not say that it is a perfect substitute for calomel, come right in and get your money back. Jones Drug Co.

Jake leaves a host of friends in old Brady to mourn his loss. We extend sympathy to his relatives and friends.

Mrs. Dock Morrow and children have gone to Voca to visit relatives. From all accounts, they were afraid of meningitis, but do hope they will not take it. They all look too healthy for anything like that to appear.

Little Rolin Honeycutt is on the sick list this week. La grippe is all that is the matter with him. He came in contact with the croup.

Mr. Bill Teague has returned from Fort Worth, where he has been on business.

Mrs. Sallie Suhr has been sick for the past week, having contracted pneumonia for the fifth time. She is doing fine now; hope she will soon recover.

We are very sorry to know that we have lost as good a neighbor as Mr. and Mrs. Si Proctor. They moved to the old home of Mrs. Proctor's mother, Mrs. Willis.

Well, I will end my little letter, as the meningitis has all of the neighborhood scared up and they are almost afraid to speak to one another.

I extend my wishes to The Brady Standard and its many readers.

THE BABE.

Glorious News
comes from Dr. J. T. Curtiss, Dwight, Kan. He writes: "I not only have cured bad cases of eczema in my patients with Electric Bitters, but also cured myself by them of the same disease. I feel sure they will benefit any case of eczema." This shows what thousands have proved, that Electric Bitters is a most effective blood purifier. It's an excellent remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Price 50c. Satisfaction guaranteed by Jones Drug Co.

SOUTH VOCA BARKINGS.

Voca, Texas, March 5.

Editor Brady Standard:

Well, as I see my last letter escaped the waste basket, I will try again.

Quite a crowd enjoyed a few hours Saturday night at Mr. Worsham's. Those who were present were Misses Mollie, Ida and Ellen Baxter, Emmie Childers, Master John Childers, Granville Baxter and Oscar Childers. Quite a nice time was enjoyed by all. Some of the games were cross question and crooked answers, slap in and

slap out and pleased and displeased.

There was a singing at Mr. and Mrs. Williams' on Lost Creek Sunday night. All reported a nice time.

A pound supper was given at Mr. and Mrs. Ed Elliot's Saturday night.

Well, I am almost tempted to laugh at McCulloch's growth. New land is being put in cultivation, roads are being graded and fixed so as to make life easy and happy for us farmers who are continually going to town. Menard says she has the best places for towns, but she hasn't got the men to build them, and always has to be coming to McCulloch to get men to do her work. No one knows what an easy life is until they have lived in that grand old county they call McCulloch.

Well, as news is scarce and everybody's business is staying at home, I will ring off for this time, but will call again next week.

OLD CARLO.**ONION GAP ITEMS.**

Onion Gap, Texas, March 1.

Editor Brady Standard:

Well, as Sugar Dolly is present at this writing, she will try and send in a few happenings from the Gap. Am very proud to see so many nice letters coming out on our correspondence page.

We can all have a more pleasant feeling if we will stop and think about the beautiful Spring weather coming nearer and nearer as the days go by.

Messrs. Will Tompkins, Will Russell, of Lohn, and Joe Russell, of Pear Valley, were visitors at Mr. Tom Finegan's last week.

Misses Beulah and Gladys Morris are visiting in the Gap this week.

Miss Dollie Ranne, of the Midway community, visited at the Gap school house several days last week.

Mr. Kirby Hoffman, of Prairie View, visited Mr. O. P. Sallee one evening last week.

Misses Hattie and Katie Crider visited their friend, Miss Winnie Clark, Thursday evening.

The party at Mr. Sam Crider's Monday evening was very much enjoyed.

Mr. Albert Finegan made a flying trip to Rochelle Thursday. Mrs. Lee Townsend and little son, Ray, visited at Mr. Sam Crider's Tuesday evening.

Mr. Clint Bell visited in the Gap Wednesday.

Health is not very good at present. The news is out that Mrs. Frame's have the small pox at their home. Mrs. Frame's daughter, Mrs. Fuller and two children, of Fort Worth, were brought here with the disease. They are not getting along very well at this writing, but Sugar Dolly is hoping that they will soon recover.

The school closed yesterday for a two weeks' vacation until after the scare over the small pox is over. The teachers, Mrs. Kittie Hoffman, of Prairie View, and Miss Rosa Williamson, of Rochelle, will visit at their homes until school starts again.

Messrs. Albert Finegan and Dewey Pence visited in the Gap Monday.

Misses Coreene Finegan, Beulah Morris and Gladys Morris visited at the company tank Monday.

Messrs. Charles and Louis Bratton took a herd of fat cattle to Brady Saturday and were accompanied by two young ladies, whose names we did not learn.

The box supper which was to have been given on the 1st of March, was postponed on account of the scare. We will have another supper

CAUSE FOR ALARM.

Loss of Appetite or Distress After Eating a Symptom That Should Not Be Disregarded

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicates indigestion or dyspepsia. Over-eating is a habit very dangerous to a person's general good health.

It is not what you eat, but what you digest and assimilate that does you good. Some of the strongest, heaviest and healthiest persons are moderate eaters.

There is nothing that will cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge all in Brady who suffer from any stomach derangement, indigestion or dyspepsia, whether acute or chronic, to try **Rexall Dyspepsia Tablets**, with the distinct understanding that we will refund their money without question or formality, if after reasonable use of this medicine, they are not perfectly satisfied with the results. We recommend them to our customers every day, and have yet to hear of any who have not been benefitted by them. We honestly believe them to be without equal. They give very prompt relief, aiding to neutralize the gastric juices, strengthen the digestive organs, to regulate the bowels, and thus promote perfect nutrition and eradicate all unhealthy symptoms.

We urge that you try a 25c box of **Rexall Dyspepsia Tablets** which gives 15 days' treatment. At the end of that time your money will be returned to you if you are not satisfied. Of course, in chronic cases, length of treatment varies. For such cases, we have larger sizes, which sell for 50 cents and \$1.00. Remember, you can obtain **Rexall Remedies** in this community only at our store—**The Rexall Store**. Jones Drug Co.

Messrs. Walter Mooring and three sons, George, Virge and Ellis, took four loads of lumber to the lease near Fife at which place they expect to build a couple of houses. We wish them success in their undertaking.

Little Master Elic Crider was on the sick list several days last week.

Messrs. McJones and Sam Crider were in Rochelle shopping Saturday.

Mr. Irvin Crider had a pleasant chase after his hat Sunday. He chased it as far as Mr. Jim White's, and the last time he had sight of it, it was going down the road toward Rochelle. I side in with you, Gee Whiz; I think it would be a good idea if the boys would get some pretty girl to sew ribbons on their hats so they could keep them on. After the sand storm the merchants of Rochelle had a smile on their face that will last till next Christmas to think of the hats they were going to get to sell. The writer can't see where the sand storms are a benefit to anyone except the merchants, and they sure do catch it.

Mr. H. E. Finegan made a trip to Rochelle Saturday.

Messrs. Curtis Reynolds and Dewey Pence made a business trip to Rochelle Saturday.

Mrs. Elsie Cunningham visited her cousin, Mrs. George Mooring, several days last week. I wonder what is the matter with True Heart. We haven't heard from him in quite a while. Come again, True Heart.

Good luck and many fond wishes to the dear old Standard and its many readers.

BRADY, TEXAS, March 8, 1912

DIVERSIFICATION.

Diversification is the slogan today. Not only are the farmers taking up diversification upon a broader and bigger scale than ever before, but their every effort in this direction is being heartily endorsed and encouraged by the leading spirits of every town and community. It used to be that feed was raised in abundance, but with the advance in cotton prices a few years ago, everybody went wild on cotton. The result is being felt. Over-production has resulted, and the prices have come tumbling down to where cotton is no longer a money-making crop. The result is that its popularity has waned, and feed crops are again restored to favor. This year will see more feed raised in McCulloch than ever before in its history, and the result will be greater prosperity than the citizens have ever known.

The Standard is in receipt of a pamphlet sent out by the Brownwood Commercial Club setting forth a list of cash prizes and premiums being offered by that body to the farmers living in the Brownwood trade territory for the best 1912 yields in peanuts, potatoes, corn, cotton, peas, milo maize, kaffir corn, sorghum and various other products. The total cash prizes amount to \$500, while the merchandise premiums total \$750. This is but an example of the methods used all over the state to encourage the diversification movement.

The prosperity of a country depends almost entirely upon the prosperity of the farmer; so it is not remarkable that every effort is being made to assist him. Likewise, the prosperity of the farmer depends to a great extent upon having a good market and good market facilities. A live town is the best asset, and in the co-operation of the farmer and the business men lies the secret of the prosperity of both.

PROFITS IN CREAMERY.

The creamery at Stephenville has 91 patrons, and its pay roll is an important matter with that town. About 500 cows are being used, and more farmers are starting "farm dairies" all the time. It is the farm dairy that pays best, since the farmer can do all the work, and furnish most of the feed. He finds market for the labor of himself and family, and for the products of his farm. It is possible to get the dairy too large, and this is the rock on which many founder. When all the receipts must be paid out for labor and feed, there is little left. Already the Stephenville establishment has a pay roll which exceeds \$25,000 per year, and these people were not "scooped" by the creamery sharks.—Farm and Ranch.

NEWS ITEM.

This week's issue of Claude Callan's Bungtown Bugle and Battle Cry of Freedom contains the interesting announcement that they have actually raised a cow in Menard county. No doubt about them being able to raise enough "Cain" to feed her on.

With an apology to Julius Caesar, the Brady Standard notes that inasmuch as a lot of March winds have been blowing during February, the calendar must be somewhat out of joint. Even if the calendar were responsible for this misfit, it would hardly be right to charge the crime up to Julius Caesar. If Mark Anthony were here to defend his friend, he would state that Pope Gregory took a whack at the calendar after Caesar had got through with it, and therefore he should answer for its bad behavior. But now some tinkering is going to be done by the congress which is to meet in Geneva and it may be we shall be able to know just where we are "at" after this is over. In the meantime, we can only conjecture whether the calendar, like the American tariff, is to be revised upward.—San Antonio Express.

That milo maize is a profitable crop, especially in West Texas, has been frequently demonstrated. A Hale county farmer recently stated that he planted 17½ acres in milo maize last May and in October gathered and sold the crop for \$372, nearly twice as much as he paid for the land. The Texas Industrial Congress is offering \$1000 in gold for the best crops of either kaffir corn or milo maize grown this year on two acres without irrigation, and a like amount for the same crops by irrigation, the first prize in each case being \$300. Application blanks to enter either contest can be secured by anyone who will write to the Texas Industrial Congress at Dallas.

Two hundred and fifty dollars in gold will be awarded by the Texas Industrial Congress this year to the champion boy or girl corn grower of the state for producing the largest yield on one acre. The Congress also offers the same amount for the largest yield of cotton from an acre. If the same boy or girl should win both of these prizes, an additional prize of \$100 will be given. Every boy and girl in the state under twenty years of age can enter the contest, without any cost, but applications must be made to the headquarters of the Congress at Dallas before April 1.

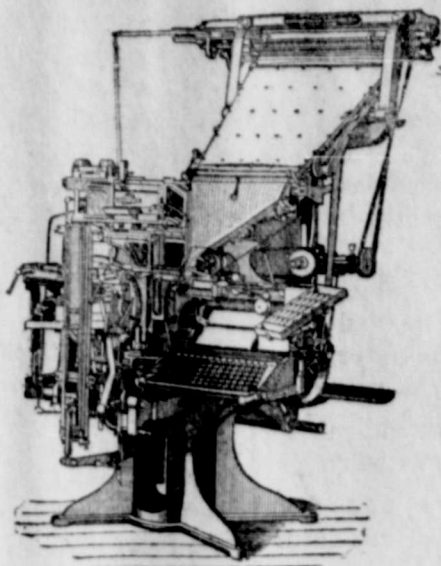

"Please stop my ad" phoned Mrs. A. A. Patrick yesterday morning. "I have already sold my chickens." The Standard is the best advertising medium I ever saw. It surely gets results." Ad run one time in Tuesday issue, which was mailed Wednesday, and chickens sold the same day. Purchaser and seller both pleased. A blind man could see the moral.

AUTOMOBILE SHOW.

All Kinds of Horseless Vehicles to Be Much in Evidence.

The fact that auto delivery wagons, vans and trucks are becoming more popular throughout the Southwest every year will be thoroughly demonstrated at the big automobile show, which will be held in connection with the coming National Feeders' and Breeders Show, at Fort Worth, March 18-23, inclusive. When the Fat Stock Show was first started, sixteen years ago, it was mainly of interest to livestock men, but each year the exposition has broadened its scope until it now includes a Fat Stock Show, Horse Show, Land or Agricultural Show, Poultry Show, Automobile Show, Merchants' and Manufacturers' Exhibition, and numerous novelty features, and all persons, regardless of their position and occupation, will find something to interest them. The show management is eternally on the lookout for something new in the way of amusement and educational features; and, with this in mind, it has arranged for the 1912 show the largest and most complete exhibition of automobiles ever before shown in the Southwest. Models of every two or four wheeled vehicle run by electricity or gasoline, from the motorcycle to the modern auto-truck and fire-wagon will be on display. The evolution of the "Horseless Carriage" will be the feature characteristic, comparing the first small inventions of this kind with the modern touring cars, delivery-wagons and moving-vans, which carry thousands of pounds, and which have proven of such value to the entire commercial world. No one now considers automobiles as luxuries, but as necessities, so this department of the coming Fat Stock Show should prove both interesting and beneficial to all patrons.

PUSH BALL GAME.

It Promises to Be the Most Unique of the Features.

As the leading and most unique feature of entertainment of the coming National Feeders' and Breeders Show, to be held at Fort Worth, March 18-23, the management has arranged to put on a "Push Ball Game." Two experienced teams have been secured, and the game promises to be exciting and interesting. Push Ball, or as it might be termed foot-ball on horse back, is the newest and most exciting game in the sporting world today. In many respects it is similar to the old time tournaments, which were so popular in the time of King George I, but, in the more modern field of sports, it is different from any other game. It is played by eight men, four on a side, mounted on active and well trained polo-ponies, the object being to push a gigantic ball through a goal at either end of the field. The rules of the game are very similar to those of foot ball with this exception; the ball must not be lifted from the ground, but must be pushed through the goal instead of carried. The victory of either team depends almost entirely upon the activity of the ponies, and when the "grand rush" is made the animals, if they are well trained, stay close together and try to push the ball through the opponents' line of defense. Then the pony nearest the ball starts on a run, shoving the ball before him, while his three partners, acting as guards, put up a strong interference, keeping the opposing team as far away from the ball as possible. The ball used is a mammoth Rugby foot ball, about six feet in diameter.

This game was introduced into this country by one of the leading ring circuses, and it has never failed to make a big hit wherever it was put on. Well-bred ponies, after they have been thoroughly trained to it, go into the game with eagerness, displaying almost human intelligence in the way they manipulate the ball and outwit their adversaries.

This unique and exciting game never before having been played in the southwest, will be very interesting to all visitors and will prove a big drawing card for the show.

MANUFACTURERS' DEPARTMENT.

At the coming National Feeders' and Breeders' Show, which will be held in Fort Worth, March 18-23, 1912, the Manufacturers' and Merchants' Exhibit department will be one of the most interesting and attractive features of the show. The space reserved for these exhibits in the big coliseum was all subscribed for more than a month ago, and work has already begun on the building of large and unique booths for the various firms and corporations which will be represented. Formerly the east side of the building was practically the only space used for this class of exhibits, but this year the entire east and west will be utilized, and every foot of space will be made as attractive as possible. Everything, from pins to buggies and automobiles, and even models of railroads and steamships will be shown, and in fact, specimens of practically all important articles or products which have resulted from the invention and ingenuity of man will be on exhibition. The decoration of the aisles and the exquisite electrical display will also be pleasing features of this department. One of the most unique exhibits will be that furnished by the Northern Texas Traction company. Their large booth in the southwest corner of the coliseum will represent a scene between Fort Worth and Dallas, depicting life on the farm, and emphasizing the advantage of residing on "The Interurban." Winding through the hills and valleys will be a miniature railroad track on which exact models of the Interurban cars will be run; tolling their whistles at intervals, and even the electric wires and danger signals will be there all complete. Many other displays fully as interesting and unique will be shown, and patrons who fail to visit this department will miss a rare treat.

Ramsey Club Organized.

At a meeting of the democratic voters of McCulloch county on March 7th who are advocating the candidacy of Hon. W. F. Ramsey for governor, resolutions were passed calling for a meeting at the court house in Brady at 2 o'clock p. m., Friday, March 15th, of as many supporters of Judge Ramsey as can conveniently attend for the purpose of organizing Ramsey clubs in the county, and a central club at Brady. Said meeting was presided over by Chairman F. M. Newman.

"What made you so late?"
"I met Smithson."
"Well, that is no reason why you should be an hour late getting home to supper."
"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."
"Did you tell him to take Chamberlain's Tablets?"
"Sure, that is what he needs." Sold by Jones Drug Co.

C. K. McFadden, of St. Louis, is in the city. Mr. McFadden is greatly interested in the Lohn field, and is thoroughly investigating the oil prospects. He was here some seven or eight years ago, when this was part of the wild and woolly west, and was agreeably astonished to note the progress Brady had made toward becoming a metropolis, as well as the improvement of all this section.

There is more Catarrh in this section of the country than in any other place put together, and until the last few years was supposed to be incurable. For a great many years doctors recommended it as a local disease and prescribed local remedies, and by constantly falling in with this local treatment, pronounced it incurable, because it has proved Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for confirmation.

Henry Tipton First Boy in State

to Win Pedalmobile.

Henry Tipton is the first boy in the state, or anywhere else, to receive a pedalmobile offered by the Fort Worth Record to the boy or girl who secured fifty new subscribers to the Daily Record. Wednesday's Record contained quite a complimentary notice of the young man and his achievement, and also a photo of the lad who gained this distinction.

It took but four days for him to accomplish this feat, which speaks volumes for his hustling qualities, and goes to show what determination and grit can accomplish. When Henry rides around town in his pedalmobile, don't envy him, but bear in mind that if you want to win in anything you undertake, it will require work and persistent effort, and the one who lays down or gives up is the one who never achieves his aim.

MILD, GENTLE LAXATIVE FOR WOMEN GIVEN FREE

So many of the ills of women are due to habitual constipation, probably because of their false modesty on the subject, that their attention cannot be too strongly called to the importance of keeping the bowels open. It is always important to do that, regardless of the sex, but it is especially important in women.

From the time the girl begins to menstruate until menstruation ceases she has always vastly better prospects of coming through healthy if she watches her bowel movements. If you find yourself constipated, with bad breath, pimply complexion, headaches, belching gas and other symptoms of indigestion and constipation, take a small dose of Dr. Caldwell's Syrup

Rr. Beaumont Dead.

The death of Dr. G. H. Beaumont occurred on Wednesday morning at the home of his son-in-law, Tom Bell, in the north part of town. The body was taken to Brownwood for burial on Wednesday night's train, the funeral services being held yesterday in charge of the Masons, of which body he was a member in good standing.

Dr. Beaumont was well advanced in years, having passed the 75th milestone last August. He was at one time one of the leading physicians of Brenham, Texas. About twenty years ago he suffered a stroke of paralysis, since which time he had given up his practice, making his home with Mr. Bell, at Brownwood, and coming here with the family about ten years ago. He had been in feeble health for a long number of years, death resulting from old age.

Besides Mr. and Mrs. Bell, Dr. J. G. McCall, Dr. Wm. C. Jones and Tom Elliot accompanied the body to Brownwood to attend the funeral.

Gastritis Nearly Ended Life of Wm. V. Matthews.—Read His Letter.

"I was bothered for years with stomach trouble and gastritis. Food laid like an egg in my stomach and fermented, forming gas. This caused a pressure on my heart so that I choked and gasped for breath, and thought my time had come. MI-O-NA cured me after I had doctored without success." Wm. V. Matthews, Bloomington, Ind.

If you suffer from indigestion, headaches, dizziness, biliousness, constipation, inactive liver, nervousness, sleeplessness, bad dreams, foul breath, heartburn, shortness of breath, sour stomach or despondency, be sure and get MI-O-NA stomach tablets. They are guaranteed. Large box 50 cents at Central Drug store and druggists everywhere.

 + COMMERCIAL CORNER +
 + By the Secretary. +

We note with pleasure the interest of the Santa Fe people in making their grounds, depot and right-of-way attractive. Mr. Merritt, the civil engineer for the road, has submitted blue prints for a very attractive park, driveway, etc. At a recent meeting of the Commercial club, a committee was appointed by acting president, F. M. Richards, to look after the matter at this end of the line. I have just received the plans, and they look good to us. There are several things expected of the committees here. Part of the duties are to put out trees and arrange for such grasses as will be best for the park and see to the planting of other shrubbery. When completed, as outlined, there will be no prettier spot on any railroad in the state. Therefore the citizens should take a just pride in carrying out the plans suggested by the company. Civic pride should prompt us to make all public places more sanitary and attractive.

We have been sorely disappointed about seed from the agricultural department at Washington. I received notices some three weeks ago that there had been eight packages of field seeds sent to me for the farmers, and also a lot of garden seeds. Only two packages of this have come. Some lay-off somewhere has caused the disappointment here to a number of good people.

Brownwood Commercial club has set a good example for all organizations of similar character. They have published a small booklet announcing that the club would give \$1250 in prizes—cash and merchandise—to farmers for certain crops and for general averages. This is a commendable step. Anything that will help and encourage the farmer will bring returns to both the country and the city. We depend on each other, but largely upon the farmers for everything. Therefore, any help to him will be a double blessing.

A good treatment for a cold settled in the lungs is a HERRICK'S RED PEPPER POROUS PLASTER applied to the chest to draw out inflammation and BALLARD'S HOREBOUND SYRUP to relax tightness. You get the two remedies for the price of one by buying the dollar size Horebound Syrup; there is a porous plaster free with each bottle.

Your Money Back if You are Not Satisfied With the Medicine We Recommend.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense if it fails to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by the weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must, therefore, tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent, chronic ailments, if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold in Brady only at our store—The Rexall Store. Jones Drug Co.

CHICKS HAVE DIPHTHERIA

Possible to Communicate Disease to Children.

Believing that the disease among chickens, known as roup is nothing more nor less than diphtheria, a local physician some days ago collected the heads of a number of chickens and sent them to Austin to the State Bacteriologist for examination, and today he received a reply which said the diseased chickens had diphtheria. The local physician says it is also a fact that in almost every instance where diphtheria cases have been had there have been sick chickens about the place. It is known that cats carry the germs and there is no reason why chickens should not carry them.—Brownwood Bulletin.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind.

He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles.

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs.

I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theford's Black-Draught, it did me more good than all I ever spent for other medicines.

I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's 'Theford's'."

SPARKLING EYES.

A Story.

Many otherwise beautiful women have been neglected by nature with a lack of glossy, lustrous, dark eyebrows; many blends of true Norseman type, with beautiful eyes, cannot show them off to an advantage through lack of dark, heavy, lustrous eyebrows.

To meet a universal and popular demand among the fair sex we have, after experimenting, produced a compound termed "DABRO" consisting of harmless Organic Substances, Essential Oils, Balsams, etc., yielding by our process a stiff emulsion which will stimulate growth of the eyebrows and darken them to the desired shade.

Harmful Eyebrow Pencils Should be discarded, as they only tend to envelope your hair with a film of greasy matter, preventing access of fresh air and thus to your detriment serve the opposite purpose, namely, beautifying yourself.

A more modern, absolutely harmless, hygienic and effective medium is

"DABRO"

It will not only stimulate the growth of your eyebrows and darken them if too light, but will produce a lustre and glossiness not duplicated by any other means. We guarantee that Dabro will do what we claim for it if used as directed or we will cheerfully refund your money.

Dabro will be sent in plain wrapper to any address in the U. S. upon receipt of 50 cents in silver.

Guaranteed under U. S. Pure Food and Drug Act.

SYNOPSIS.

CHAPTER I.—Klan Harnish, known all through Alaska as "Burning Daylight," celebrates his 50th birthday with a friendly crowd of miners at the Circle City Tivoli. He is a general favorite, a hero and a pioneer in the new gold fields. The dance leads to heavy gambling in which over \$100,000 is staked. Harnish loses his money and his mine but wins the mail contract of the district.

CHAPTER II.—Burning Daylight starts on his trip to deliver the mail with dogs and sledge. He tells his friends that the big Yukon gold strike will soon be on and he intends to be in it at the start. With Indian attendants and dogs he dips over the bank and down the frozen Yukon and in the gray light is gone.

CHAPTER III.—Harnish makes a sensation in rapid run across country with the mail, appears at the Tivoli and there is another characteristic celebration. He has made a record against cold and exhaustion and is now ready to join his friends in a dash to the new gold fields.

CHAPTER IV.—Harnish decides where the gold will be found in the up-river district and buys two tons of flour, which he declares will be worth its weight in gold before the season is over.

CHAPTER V.—When Daylight arrives with his heavy outfit of flour he finds the big flat desolate. A comrade discovers gold and Harnish reaps a rich harvest. He goes to Dawson, begins investing in corner lots and staking other miners and becomes the most prominent figure in the Klondike.

CHAPTER VI.—Harnish makes fortune after fortune. One lucky investment enables him to defeat a great combination of capitalists in a vast mining deal. He determines to return to civilization and gives a farewell celebration to his friends that is remembered as a kind of blaze of glory.

And, gazing down on the smoky inferno of crude effort, Daylight outlined the new game he would play, a game in which the Guggenhammers and the rest would have to reckon with him. But along with the delight in the new conception came a weariness. He was tired of the long Arctic years, and he was curious about the "Outside"—the great world of which he had heard other men talk and of which he was as ignorant as a child. There were games out there to play. It was a larger table, and there was no reason why he with his millions should not sit in and take a hand. So it was, that afternoon on Skookum Hill, that he resolved to play this last best Klondike hand and pull for the Outside. It took time, however. He put trusted agents to work on the heels of great experts, and on the creeks where they began to buy he likewise bought. Wherever they tried to corner a worked-out creek, they found him standing in the way, owning blocks of claims or artfully scattered claims that put all their plans to naught.

Followed wars, truces, compromises, victories, and defeats. By 1898, sixty thousand men were on the Klondike, and all their fortunes and affairs rocked back and forth and were affected by the battles Daylight fought. And more and more the taste for the larger game urged in Daylight's mouth. Here he was already locked in grapples with the great Guggenhammers, and winning fiercely winning. Possibly the severest struggle was waged on Ophir, the veriest of moose-pastures, whose low-grade dirt was valuable only because of its vastness. The ownership of a block of seven claims in the heart of it gave Daylight his grip, and they could not come to terms. The Guggenhammer experts concluded that it was too big for him to handle, and when they gave him an ultimatum to that effect he accepted and bought them out. The plan was his own, but he sent down to the States for competent engineers to carry it out. In the Rinkabally watershed, eighty miles away, he built his reservoir, and for eighty miles the huge wooden conduit carried the water across country to Ophir. Estimated at three millions, the reservoir and conduit cost nearer four. Nor did he stop with this. Electric power plants were installed, and his workings were lighted as well as run by electricity. Other sordidogues, who had struck it rich in excess of all their dreams, shook their heads gloomily, warned him that he would go broke, and declined to invest in so ex-

travagant a venture. But Daylight smiled, and sold out the remainder of his town-site holdings. He sold at the right time, at the height of the placer boom. When he prophesied to his old cronies, in the Moosehorn Saloon, that within five years town lots in Dawson could not be given away, while the cabins would be chopped up for firewood, he was laughed at roundly, and assured that the mother-lode would be found ere that time. But he went ahead, when his need for lumber was finished, selling out his sawmills as well. Likewise, he began to get rid of his scattered holdings on the various creeks, and without thanks to any one he finished his conduit, built his dredges, imported his machinery, and made the gold of Ophir immediately accessible. And he, who five years before had crossed over the divide from Indian River and threaded the silent wilderness, his dogs packing Indian fashion, himself living Indian fashion on straight moose meat, now heard the hoarse whistles calling his hundreds of laborers to work, and watched them toil under the white glare of the arc-lamps.

But having done the thing, he was ready to depart. And when he let the word go out, the Guggenhammers tied with the English concerns and with a new French company in bidding for Ophir and all its plant. The

Guggenhammers bid highest, and the price they paid netted Daylight a million. It was current rumor that he was worth anywhere from twenty to thirty millions, and he was just how he stood, and last claim sold and the table cleaned of his windows, he had three-hundred million of cash in his pocket, over eleven millions.

His departure was a thing that passed into the history of the Territory along with his other deeds. All the Yukon was his guest, Dawson the seat of the festivity. On that one last night no man's dust save his own was good. Drinks were not to be purchased. Every saloon ran open, with extra relays of exhausted bartenders, and the drinks were given away. A man who refused this hospitality, and persisted in having, found a dozen fights on his hands. The veriest chechaquos rose up to defend the name of Daylight from such insult. And through it all, on moccasin feet, moved Daylight, hell-roaring Burning Daylight, overspilling with good nature and camaraderie, howling his he-wolf howl and claiming the night as his, bending men's arms down on the bars, performing feats of strength, his bronzed face flushed with drink, his black eyes flashing, clad in overalls and blanket coat, his ear-flaps dangling and his gauntleted mittens swinging from the cord across the shoulders. But this time it was neither an ante nor a stake that he threw away, but a mere marker in the game that he who held so many markers would not miss.

CHAPTER VII.

In no blaze of glory did Burning Daylight descend upon San Francisco. Not only had he been forgotten, but the Klondike along with him. The world was interested in other things, and the Alaskan adventure, like the Spanish War, was an old story. He settled down in St. Francis Hotel, was interviewed by the cub-reporters on the hotel-run, and received brief paragraphs of notice for twenty-four hours.

Several months passed in San Francisco, during which time he studied the game and its rules, and prepared himself to take a hand.

Trying of being merely an onlooker, he ran up to Nevada, where the new gold-mining boom was fairly started—"just to try a flutter," as he phrased it to himself. The flutter on the Tonopah Stock Exchange lasted just ten days, during which time his smashing, wild-hull game played decks and drakes with the more stereotyped gamblers, and at the end of which time, having gambled Florida into his fist, he let go for a net profit of half a million. Whereupon, smacking his lips, he departed for San Francisco and the St. Francis Hotel. It tasted good, and his hunger for the game became more acute.

MILBURN MIXUPS.

Milburn, Texas, March 3.

Editor Brady Standard:

As I have seen so many good and interesting letters in last week's paper, I feel almost ashamed to try to send in the news from here, though I will do the best that I can; so here goes.

Mr. and Mrs. Gray spent the day with Mrs. Gray's home folks Sunday, and Mr. and Mrs. Bradford called in the afternoon.

Mr. F. M. White is home this week with his folks.

Mrs. V. A. White has gone home with her daughter, Mrs. Gray, to spend a few days.

We are very glad that Mrs. Allie Rabb is able to be back at home again.

Mr. John Sanders' father spent the day with him Sunday.

This is Monday morning, and still threatening rain. Small grain and gardens are looking fine. Mrs. V. A. White says that if the sun ever comes out she will soon have lettuce, radishes and mustard for dinner.

F. M. White, Allie and Walter Long said they could whitelike now; keep your goods boxes out of their way.

There were three fine and interesting sermons preached in Milburn Saturday and Sunday by the Primitive Baptist, Bro. Coran; the best that have been preached here for years. He will be here next first Saturday and Sunday. If you don't want to be told of what you are, you had better stay at home. Everybody come out to hear him. I am sure that you won't regret having come, and if you hear him once, you will want to go back.

Mrs. Dennis visited Mrs. Beckham Saturday and Sunday. We hope that Mrs. Beckham will soon be able to be up once more.

Hoping to see this come out in print next week, I will ring off, and will try to send in more and better news.

MELVIN MIXUPS.

Editor Brady Standard:

We have been having some very windy weather since our last writing.

Johnston McDonald and wife and Miss Erna Tauch went to Brady Wednesday in Mr. McDonald's car to bid good-bye to Miss Waldine Tauch, who is going away to finish her course in art.

There was a social entertainment at Mr. Johnston McDonald's Thursday night.

Mr. Bob Hardin and Miss Ida McDonald were the guests of Mrs. Kennedy Sunday.

As the old stork sailed over

last week he left an infant daughter at the home of Mr. and Mrs. Clint Ward.

There was a turkey supper at Mr. Utsey's one night last week. Those present were Mr. and Mrs. Robbins, Mr. and Mrs. Shepard, Mr. and Mrs. Stamps. Bill Cottrell and wife went to Pasche Sunday.

Mr. George Graham is on the sick list this week.

Leonard Eubanks' children are on the sick list this week.

Mr. and Mrs. Utsey and little daughter, Martha, took a round trip on the train to Eden Sunday.

The party at Pate Yocham's Saturday night was well attended.
