A BUSINESS Founded on Integrity

NE That gives its customers fair and honest treatment, may take a little more time in establishing

its supremacy, but it is all the time strengthening its prestige and building a reputation for reliability, and when success is assured, nothing can shake the people's confidence in that business. That is the kind of business we are building in this little city. 9 We don't expect you here every day, but if you cater to that appetite of yours, we'll feed you part of the time,

Our Textile Fibres

OUR VEGETABLE AND ANIMAL COMPETITORS. Cotton, from a worthless weed infesting the highways of agriculture, has become the world's most useful product. The splendor of its fibre attracted the attention of the inventig genius, aroused the courage of the manufacturer, plead for reco nition of the producer and appealed to the wisdom of the o sumer and with these powerful allies, it has fought its battle on every merchant's counter on the globe and has conquere 48 per cent of the textile trade of the world. Wool has been it strongest rival, but the result of the century's contest shows cotton to have passed from 21 to 48 per cent and wool moved downward from 86 to 16 per cent of the world's consumption

The Texas Welfare Commission is investigating the production marketing and manufacturing of textile fibres.

A GENUINE HAIR RESTORER.

Did you ever know of any hair preparation which would really grow hair and restore the color to gray or faded hair? There are many preparations highly advertised to do the work, but it is probably your experience that none of them will really meet the claims of their manufacturers.

There are many so-called hair restorers which are nothing more than harmful chemical dyes, which do not grow any hair the only result being that they dyed the hair, having no per-

manency and often causing a streaky appearance. It has been the aim of the chemists for years to discover a preparation which would really grow hair and restore the color to gray or faded hair, but heretofore they have met with

Prof. Rembler now claims to have discovered a combination of harmless vegetable composition which is a genuine hair restorer and will grow hair and does not contain any dye of any kind, but will positively restore the color and brilliancy to

gray and faded hair. This is a very strong statement to make and if any chemist without the recognized ability and national reputation of Prof. Rembler were to make this claim we would be inclined to be skeptical as to its truth. It will be remembered by readers that are familiar with scientific discoveries that Prof. Rembler was the inventor of the one fire process for gilding glass and also the Rembler wireless Coherer. Any statement made by Prof. Rembler is entitled to consideration as he would not make any statements which were not true and would

injure his established reputation. The Siloron Mfg. Co., of Pueblo, Colo., have purchased the exclusive American rights to manufacture Sagine, as they have named Prof. Rembler's invention, after having made a six months' test of Sagine and thoroughly demonstrating that it would positively do the work. The Siloron Mfg. Co. have authorized us to make the following remarkable offer to all who need

"Genuine Hair Restorer." They will send a written agreement with every bottle of Sagine, to the effect that if one bottle of Sagine conscientiously used according to the directions does not give entire satisfaction to the purchaser; if Sagine does not actually grow hair and restore the color to gray or faded hair, remove dandruff and make the hair glossy and healthy, that they will pay the sum of \$5 to any dissatisfied customer.

This is the strongest offer ever made by any manufac-turer and one they could not possibly make if they did not know positively from experiment that it would do exactly what they claim for it. No one takes any chance in buying Sagine as it is certainly worth \$1 to use a Genuine Hair Restorer that will really grow hair, and if it does not give satisfaction they will pay you the \$5 as agreed. Send a \$1 bill to the Siloron Mfg. Co., Pueblo, Colo., stating that you wish to purchase a bottle of Sagine with the written agreement to grow hair and

restore the color to gray or faded hair or pay you the sum of \$5 and it will be sent to you by express in plain wrapper.

The Siloron Mfg. Co., is incorporated under the laws of the state of Colorado and refer you to the mercantile agencies or any Pueblo banks as to their ability to fulfill any ment they make.

Taxation as to individuals and Corporations

ANNUAL TAXES ALL PURPOSES \$30,000,000.

The power to tax is the power to build or destroy. To maintain equal rigits of property is as important a function in government as to preserve the rights of individuals. The cut shown above indicates the amount of state tax assessed against an investment of \$10,000 on the lines of industry shown in the sub division of the circle. There are many inequalities in assessment between counties.

"Winter will soon be coming on," she said regretfully, and with provocation, one day, "and then there won't be any more riding."

"But I must see you in the winter just the same," he cried hastly. She shook her head.

"I've been pretty good," he declared. "I leave it to you if I haven't. It's been pretty hard, too, I can tell you. You just think it over. Not once have I said a word about love to you, and me loving you all the time. That's going some for a man that's used to having his own way. I'm somewhat of a rusher when it comes to traveling. I reckon I'd rush God Almightly if it came to a race over the ice. And vet I didn't rush you. I guess this do love you. Of course I want you to marry me. Have I said a word about it, though? Nary a chirp, nary a flutter. I've been quiet and good, though keeping quiet. I haven't asked you to marry me. I'm not asking you now. CHAPTER V.—When Daylight ar-rives with his heavy outfit of flour sure know you're the wife for me. But how about myself? Do you know me well enough to know your own mind?" He shrugged his shoulders. "It's because you don't like my way of living," he charged, thinking in his own mind of the sensational joy-rides and general profligacy with which the newspapers had credited him-thinking this, and wondering whether or not, in maiden modesty, she would disclaim knowledge of it.

To his surprise, her answer was fia and uncompromising. 'No; I don't."

"I know I've been brash on some of those rides that got into the papers," he began his defence, "and that I've been traveling with a lively crowd-"I don't mean that," she said, "though I know about it, too, and can't say that I like it. But it is your life in general, your business. There are women in the world who could marry a man like you and be happy but I couldn't And the more I cared for such a man, the more unhappy I should be. ROCHELLE RUMBLINGS.

Rochelle, Texas, May 13. Editor Brady Standard:

As it has been quite a while since I made my appearance, I will step in and chat a while this beautiful eve and tell you all that it can actually rain in Mc-Culloch county, as we have had the proof twice last week. The first rain was Wednesday evea regular water spout and chunk mover, which did considerable damage to the farms, washing up part of the crop and covering up some. This was, in a few days, followed by a sand storm that killed some cotton, and taking it all around, there will be some cotton to plant over, Combination Cream and Powder but not near so much planting over as there would have been had we had the hail that has visited some sections. His Time-Saving Plan

"I rarely read a letter through," Grampell has said many times. "If it s from a girl, I can always gather from the first three lines what she is going to tell me, and I let the imagination do the rest. This plan works particularly well if the letter is in reply to an invitation. If I see that the note is short I know she accepts. If it is long, I know she can't go and is wasting four pages explaining why. Usually I don't care why-and think of all the time I save by not reading

explanations! Grampell found his plan excellent when it came to dealing with Jean ette Tripps. She was an especially nice girl, but she possessed a superabundance of language. Jeanette always took 500 words to tell one 20 words of news and when she had paper and pen before her she rioted in her verbal wealth. It was after she wrote Grampell six large pages conveying the regretful news that she was unable to go to the theater that he inaugurated his plan. Grampell never did more than tear open the envelopes of Jeannette's notes. If the writing was of formidable length he merely threw it into the waste paper basket and asked himself: "Who'll ask now to go with me?"

Grampell invited Jeanette to join an opera party recently and when her anwer came he knew it was short before he opened it.

the sheet. He lingered over throwing it away, because for some reason of late Jeanette had grown to interest him a good deal. But Grampell hates to break a habit. There were about six lines on the front page and he tossed the missive away cheerfully.

It was eight o'clock when Grampell in full regalia drew up at Jeanette's house and mounted the steps. The maid delivered her message as soon as she son spent Monday in Brown- opened the door. "Miss Tripps," she recited, "said when you came you were to go to Mrs. Smith's if you

The other maid didn't know anything about it. Grampell arrived at the theater pale down to his block of six seats like a criminal. The four persons already there greeted him with becoming hauteur and said: "Sh!" when he agonized-

Something was happening on the stage, but Grampell never knew what it was. He was picturing the wrath of Jeanette waiting, hopelessly waiting for him at some mythical Smiths', Mr. Alfred Reissner returned waiting and growing to hate him.

CITIZENS PROTEST.

Against Increase in Interstate Freight Rates.

The business men of Brady are considerably wrought up over the announced increase in the interstate freight rates which it is proposed to place in force on June 7th, and are preparing to enter a vigorous protest against the change before the Interstate Commerce Commission at Washington, D. C.

The change, as announced, would take Brady off as a common point, thereby placing it back on the old tariff rate, which would mean an increase of 3 to 10 per cent per 100 bs. on all interstate shipments. It has been learned that Brownwood would not be affected as a common point by the change, neither would Coleman, but that the change would affect all that section of Texas west of a line from the Coleman cut-off to Brady. This would include the taking off of San Angelo as a common point, and a delegation D. R. Hardison, J. R. Stone, S. A. Conley and Thos. Bell left yesterday for San Angelo to attend a meeting at that place of representatives of commercial Issued by the County Clerk Durclubs from cities in the affected territory.

The Brady Commercial club has been active in its efforts to forestall this action and on last Friday sent eighteen lettergrams to Texas' senators and congressmen, asking their influence in defeat of the change in tariff

Brady business men are greatly concerned over the matter and in view of the fact that this section of Texas has suffered from three bad years, they feel that a gross injustice is being done them in the contemplated change, more especially at this particular time. A petition is being formulated today in which For sale by all dealers. Bowels are Basis of Child Health

The careful mother, who watches closely the physical peculiarities of her children, will soon discover that the most important thing in connection with a child's constant good health is to keep the bowels regularly open. Sluggish bowels regularly open. Sluggish bowels will be followed by loss of appetitie, restlessness during sleep, irritability and a dozen and one similar evidences of physical disorder.

At the first sign of such disorder give the child a teaspoonful of Dr. Caldwell's Syrup Pepsin at night on retiring and repeat the dose the following night if necessary—more than that will scarcely be needed. You will find that the child will recover its accustomed good spirits at once and will eat and sleep normally. This remedy is a vast improvement over salts, cathartics, lazative waters and similar things, which are altogether

M. F. Fuller dropped in our office Monday, his face radiating smiles in every point of the compass. The glad tidings he brought was that for the first time since he had had charge of the jail, the doors were standing wide open, not a single pris-oner being held there. The Standard has all along contended that Brady and McCulloch county was such a good place in which to live that the only duty of the officers was to uphold the dignity of the law. It is presumed that the commissioners court may order the jail torn down inasmuch as it has been demonstrated that we have no use for such, aside from an ornamental standpoint.

The Studebaker-Flanders "20" is a marvel-a high grade modern car at a low price. If you pay less you buy much less. And the cheaper car today will cost you far more in the long run. The competing car isn't sold which the Studebaker Corporation, the greatest automobile manufacturers in the world, couldn't reproduce for less money; but we won't build a cheap car, because the name "Studebaker" means the best for

If you are content with a car that runs today and dies tomorrow, don't buy the \$750 Flanders "20." It will wear for years. Remember this—the Studebaker-Flanders "20" will outwear 2 to 1 any other car under \$1100 and give you double satisfaction, confidence and comfort
