## SWEDEN NEWS.

Rochelle, Texas, Feb. 20, 1913  
Editor Brady Standard:  
Perhaps some of my fellow correspondents have begun to think that I had forgotten the correspondents' page. I don't want anyone to think that, because I deem it my duty to inform the public as to who, what and where we are.

1913 is surely an unlucky number so far with us. We have already had more misfortune this year than we had all last year put together.

Last Thursday morning at 11:10 Miss Esther Turn sweetly passed away to meet her Savior. Only a short while back she became a victim of typhoid fever, which caused her death. Just a month ago her brother, August, succumbed to that awful disease. Esther was a sweet, good-natured girl, beloved by all who knew her. She possessed all those things which make a lady. She became a member of the Presbyterian church of East Sweden during Rev. J. A. Irvine's ministry at that place. She was an earnest worker in the church, Sunday school, Christian Endeavor and literary society, and many other duties which she was asked to perform. She was a favorite solo singer among us and will long be remembered, not only here, but elsewhere. The remains were carried from the residence to the Presbyterian church, where the funeral service was conducted by Rev. T. P. Grant, pastor of the First Presbyterian church of Brady. The pall bearers were Messrs. Frank and Freeman Hurd, Gus Carlson, Walter and Irvine Hurd and Raleigh Ake. Among the many flowers which adorned the pretty white casket was a beautiful wreath ordered from Brownwood and presented by the East Sweden school, of which she was a pupil. Miss Esther Sophia Turn was born March 3, 1895, and died February 13, 1913. As a feeling of affection toward her we wish you to read carefully these beautiful lines, which remind us of her:

Here standing with her  
Feet amid the flowers,  
Where passed the year  
In which we called her ours.  
Slender and graceful, meet for womanhood,  
Eyes as clear as untouched  
pools in virgin wood,  
Soft hair in shimmering tresses  
rippling down,  
White hands to tasks of helpful  
measure grown.  
What message came to her?  
Kept dreams that call  
Voices 'by hallowed mem'ry  
in thrall;  
Some strain of music from the  
pendent spheres,  
Unheard by us who hark with  
quiller ears.  
We know not what 'Tis alone  
we know;  
Swift vanished from her cheek  
the roseate glow,  
Dawned in those eyes a smile  
Of calm content,  
And to the vast unknown  
from us she went.

A call meeting of the Brownwood Presbytery was held here last Tuesday.  
Mrs. H. C. Johanson and children and Miss Segred Johanson were guests at the S. L. Hurd home last Monday afternoon.  
Miss Alma Hurd is spending the week at Melvin on account of the illness of her sister, Mrs. W. J. McCartney, at that place.

As I have taken up so much space in your valuable paper, Mr. Editor, I guess I had better come to a close.

Best wishes to all, I am still

## ROCHELLE RUMBLINGS.

Rochelle, Texas, Feb. 24.  
Editor Brady Standard:

As it has been quite awhile since you had a news item from this place, I will try today to think of something to tell you, though I'll tell you right now, news is pretty scarce, as the farmers are pretty busy preparing their land for another crop and the ladies are thinking very seriously of planting a garden this year, as there seems to be a nice season in the ground. We think we will try for some vegetables this year and we do hope we can have plenty of rain to make it successful.

Some of the farmers will begin planting corn next week, and also maize and cane for feed.

Oh, the wheat fields are so pretty now, and not only pretty, but also useful, as our old milk cows and work stock get all they want to eat every day, and that surely is fine for this time of year.

Well, I'll hush about farming, farmers and stock or some of you will be calling me an old farmer the first thing I know, but then you know I would not care much if you did.

The Baptist protracted meeting which has been in progress for two weeks, closed last night with quite a little spiritual revival and several redemptions and conversions, only one joining by experience and baptism; but we are thankful for the meeting, and feel that there has been bread cast upon the waters to be gathered many days hence. The preaching was done by Revs. Wilsford, Joiner and Dunsworth.

Miss Mary Sellman, teacher in the East Sweden school, visited home folks Saturday and Sunday.

Miss Kate Dawson, who has been visiting Miss Ruth Sellman for a couple of weeks, left Saturday for Richland Springs, where she will spend a few days visiting friends.

Miss Ethel Waddell, who has been visiting relatives and friends at Richland Springs for quite awhile, returned last week and she says there is no place like Richland.

Mr. and Mrs. Frank Templeton and children of Hall visited her parents, Mr. and Mrs. Geo. Anderson, of this place Sunday.

Miss Marguerite Houston of Stiles is visiting her sister, Mrs. Cole, the Methodist minister's wife, but will leave for her home this week, to the regret of her sister and family and the young people of this place. We hope she has enjoyed her visit well enough to make a repetition of same in the near future.

Mesdames Will Cottle and Henry Hardin left last night for Brownwood, where they will visit for a few days—and read signs.

Mr. and Mrs. Orville Cottle are rejoicing over the arrival of a young lady who came to their home the 13th. Mother and babe both doing well.

Miss Willie Holmes of Corn Creek attended church here this week, the guest of Miss Kate Young.

Elbert Jones of Deep Creek community was seen in Rochelle Sunday.

Mrs. Witcher of this place was called to Brownwood last week to her daughter, Wanda, who was in school at Howard Payne, and who had taken the measles and was quite sick. She was able to accompany her mother home, and is now convalescent.

The little son of F. A. Cottle who has been sick since Christmas, is still down, and thought to be no better, but we hope he will soon take a turn for the better and be up and enjoying health again.

Health of the community is very good at present.

Mr. and Mrs. Tobie Smith and son, Robert Lowell, attended church here Sunday.

The school is progressing nicely under the skillful management of our superintendent, Prof. Parker, and his efficient corps of teachers.

Rev. V. V. Wilkerson of Oklahoma, of the Firm Foundation faith, is conducting a meeting here this week.

Well, as news is scarce, and also time, I'll ring off and give room for a better writer. Long live the dear old Standard and bring us the news from all sections.

# Woman's Beauty is Based on Health.

## TO HAVE HEALTH, BOWEL MOVEMENT IS ABSOLUTELY NECESSARY—HOW BEST TO OBTAIN IT.

If woman's beauty depended upon cosmetics every woman would be a picture of loveliness. Beauty lies deeper than that. It lies in health. In the majority of cases the basis of health and the cause of sickness can be traced to the action of the bowels.

The headaches, the lassitude, the shallow skin and the lustreless eyes are usually due to constipation. So many things that women habitually do conduce to this trouble. They do not eat carefully, they eat indigestible foods because the foods are served daintily and they do not exercise enough. But whatever the particular cause may be it is important that the condition should be corrected.

An ideal remedy for women, and one especially suited to their delicate requirements, is Dr. Caldwell's Syrup Pepsin, which thousands of women endorse highly. Mrs. Jennie Sneedecker, 1041 W. Monroe St., Chicago, testifies that she is "cured of grave stomach and bowel troubles by using Syrup Pepsin and without the aid of a doctor or any other medicine." All the family can use Syrup Pepsin, for thousands of mothers give it to babies and children. It is also admirably suited to the requirements of elderly people, in fact to all who by reason of age or infirmity cannot stand harsh salts, cathartics, pills or

MRS. JENNIE SNEDECKER.

purgatives. These should always be avoided, for at best their effect is only for that day, while a genuine remedy like Syrup Pepsin acts mildly, but permanently.

It can be conveniently obtained at any drug store at fifty cents or one dollar a bottle. Results are always guaranteed or money will be refunded. You will find it gentle in action, pleasant in taste, and free from grating, and its tonic properties have a distinct value to women. It is the most widely used laxative tonic in America today, and thousands of families are now never without it.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address—a postal will do—to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

## LOST CREEK ECHOES.

Voca, Texas, Feb. 24.  
Editor Brady Standard:

Still it rains! Another good rain Thursday night; a regular downpour for awhile.

The past eight or ten days of pretty weather has caused the peach blooms to begin showing up.

Cattle have begun dropping off from coming up for feed; getting too many weeds and grass in the pastures.

Quite a number of people have planted gardens and potatoes. Corn planting will be in progress right soon.

Elder N. Simpson of Milburn is here among friends for a few days, having just closed a protracted meeting at Liberty school house.

Prof. Otto Armor has been quite ill for a few days, but is improving nicely.

Prof. C. P. Taylor has been teaching a few days during the illness of Otto Armor.

On last Friday night the residence of Mr. and Mrs. D. H. Henderson was happily stormed by quite a number of young people and some older ones, and some excellent music was furnished by Miss Iva Spiller, pianist, and J. E. Spiller, violinist. The music was excellent and greatly enjoyed.

J. E. Spiller sold quite a nice bunch of fine goats to W. F. Miller last week.

Dennis Armor is moving his residence from Fredonia to the farm here.

Roy Armor and wife went to Fife last week and spent several days with relatives there and at Luhn.

Mrs. R. T. Howell of Burnett is here visiting her mother, Mrs. J. B. Taylor.

Quite a bunch of our people went to Fredonia Saturday night to attend a school entertainment. All report a splendid time, and a good entertainment.

Best wishes to all.

## LOHN WHALINGS.

Lohn, Texas, Feb. 24.  
Editor Brady Standard:

Well, as I said in my last letter I would come again this week, will try and give some news from dear old Lohn.

We have been having some real cold weather the past two or three days, but don't think it will be long before we have some more pretty sunny days.

Mr. Grover Young and wife were the guests of J. R. Hill and family last Sunday night.

The Lohn girls went to Pear Valley last Saturday and played basket ball against the Pear Valley girls, and of course Lohn won—50 to 3. You Pear Valley girls must practice up and come back to Lohn and try the Lohn girls again.

Mr. J. T. Bissett and wife were seen in Brady last Monday.

Chicken stealing is the go around Lohn. Somebody visited Mr. J. L. Hill's roost one night last week.

Mr. Harry Huie was on the sick list last week.

Mr. Cleve Hemphill was seen at Mr. Huie's last Sunday afternoon. Look out, John.

I wonder where Aunt Susar was last week; I didn't see anything from Sweden.

The dance at Uncle Dave's last Monday night was a success from start to finish. You must give another one soon, Uncle Dave.

Some of the Lohn people attended the debate at Waldrip Saturday night.

We are glad to note that the work on the streets of Lohn was started today.

Well, news is scarce this week. I believe I have written all that is worth telling and if this escapes the waste basket you will hear from me next week. So good night to Mr. Editor and all the readers, and best wishes to one and all.

Pear Valley, Texas, Feb. 26.  
Editor Brady Standard:  
Here comes the "Lonely Bachelor" to tell some of the happenings of Pear Valley.

Most of the farmers are busy preparing their land for a large crop this year.

All of the sick folks are well again, so far as we know.

Quite a crowd entertained themselves at Mr. Weldon's Friday night.

Those who were present at the singing given by Mr. and Mrs. Thacker Saturday night report a nice time.

Also, there was a singing at Bro. Shirley's Sunday night which would have been a success if we had had an organist.

Mr. John Rush was a visitor at our Sunday school Sunday. You are welcome back again, John.

Mr. Walter Browning has joined our Sunday school. That is right, Walter, we hope you will stay with us.

Miss Elva Fowler spent the day with Miss Jessie Baisden Sunday.

Wonder what was the matter with Hollis Fowler that he did not appear at Sunday school Sunday.

Mr. and Mrs. Smith were the guests of Mr. and Mrs. Faulkner Sunday evening.

Mrs. S. J. Howard made a flying trip to Brady Saturday.

Fred Slaughter was seen in the Valley Sunday.

After an absence of quite a while Miss Velma Metcalf has come back to the Valley, where she will enter school.

Guess I had better close before I run out of anything to say.

Voca, Texas, Feb. 24.  
Editor Brady Standard:  
Well, hello to you all, and how ye be?

We people of Dusty are all fine and dandy since the sun has been shining so pretty.

Dusty school closed Friday. We all had a very pleasant time, as Mr. Taylor and Mrs. Lemons furnished twenty-six pounds of candy for us to chew on. We thank them very much for the treat.

Health of this community is very good.

Mr. Simpson preached here Saturday night, Sunday and Sunday night, and he may continue preaching every night this week. We hope so anyway.

Mrs. Doc Morrow has returned to Brady, after a few days' visit at Dusty.

Mrs. S. P. Allen and son, Truman, made a business trip to Brady last Saturday and returned Sunday.

Miss Pearl Crumbley has returned from down about Fredonia, where she has been for quite awhile.

Misses Carrie Berry, Mamie Spiller and Olga Schaege were visitors in our community Thursday, and were present during our last spelling match, Miss Carrie Berry being one of the spellers on the Voca side. We sandlappers beat, if part of Brady was against us. Come again, girls, we are glad to have you in our midst.

Misses Pearl, Sallie and Alice Corbell are talking of going to Eden to go to school. We hope them success, but hate to see them leave. Hurry back, girls, for we are going to bring our entertainment off just as soon as you return.

Mr. Paul Neel looked bad Sunday night. I wonder what was the matter.

Miss Annie Darley spent Sunday night with Miss Lora Fitzgerald.

The new married couple, Mr. and Mrs. Forest Cleverger, were present in our community last week.

Well, I guess I'll stop, as I've written everything that has happened for forty years back.

I will tell just one more thing, and that is I've changed my name from "Uno" to "Sour Kraut." I must have gotten married. Ha, ha!

Bye-bye to you all.  
SOUR KRAUT.

The Results Made This Newburg Lady Glad She Followed Suggestion.

Newburg, Ala.—"For more than a year," writes Myrtle Cothrum, of this place, "I suffered with terrible pains in my back and head. I had a swollen complexion, and my face was covered with pimples. Our family doctor only gave me temporary relief."

A friend of mine advised me to try Cardui, so I began taking it, at once, and with the best results, for I was cured after taking two bottles. My mother and my aunt have also used Cardui and were greatly benefited. I shall always praise Cardui to sick and suffering women."

Cardui is a purely vegetable, perfectly harmless, tonic remedy for women, and will benefit young and old.

Its ingredients are mild herbs, having a gentle, tonic effect, on the weakly constitution.

**DODGE NEWS.**

Brady, Texas, Feb. 22.  
Editor Brady Standard:

We are celebrating the birthday of the "Father of Our Country" by writing a few lines to The Standard. We haven't much to tell, but here goes for what there is.

Quite a number of the younger people and some of the older ones enjoyed a candy breaking at Mr. Jackson's Saturday evening.

Fred Irvine and little daughters, Mildred and Inez, spent Sunday with Paul Irvine on the farm.

V. C. Miller and Dan Zimmerman have spent most of the week at court.

Mr. and Mrs. Meyers of Port Arthur are visiting their daughter, Mrs. Bennett.

John Rush of Gansel spent Saturday night with his sister, Mrs. Jim Garey.

Little Charles Cates, who had the misfortune to break his arm while playing some time ago, is able to be back in school.

"Lonely Bachelor" and the Doole correspondent seem very much concerned about us. We thank them for their sympathy and for their invitations. Owen joins us in this, and we wish to say that Owen has very emphatically impressed upon us that he doesn't want to marry. We feel quite sure, after our interview with him, that he speaks the truth. Anyway, one so young as he has plenty of time to consider the question.

Now, a word for ourself. We very much fear that our days of grace are gone, and we are getting so old and have let so many golden opportunities pass, we shall try to content ourself by sitting in a quiet corner thinking of the happy past and giving advice to the inexperienced. Come to Dodge, "Lonely Bachelor," and perhaps you will be more interested. Who knows? CHIEF.

**CONSOLIDATING SCHOOLS.**

Better school advantages for the children in the rural districts is a problem that is looming up here in McCulloch county as it has in many other places. The disadvantages are so many that often the education of the children is sadly neglected, and they are handicapped in the struggle for supremacy in the financial and industrial world.

The consolidation of the rural schools into one school with all the advantages of the city high school is the most practical solution of the problem of rural education, and in this issue the Standard presents an able article from Mr. D. H. Henderson, one of the county school trustees, on the subject.

Read Mr. Henderson's article fully. It contains the meat of the coconut, and every reader should study the question, and determine for himself just what merits the proposition has.

**WE'RE THE JINX**

Commenting upon the fact that there were 1313 poll taxes and 13 exemptions in McCulloch county issued up to February, 1913, the Granbury Newsman suggests that we ought to have paid our poll tax, and broken the jinx. There lies the trouble—we did pay our poll tax, and we're the jinx.

Brady is one of the cleanest cities in Texas.

"We need a county jail," editorializes the Paint Rock Herald. Then this suggestive editorial next in order "Dissatisfied—Come to Paint Rock." Use us, we've business right at home.

**EN-LIGHT-ENING.**

"You may rave, you may roar all the time, if you will, but a midnight of darkness hangs 'round Brady still." Unless it's moonlight. Bum poetry that, but we lost a number of the feet and the meter of the above verse while trying to perambulate the streets after sunset.—Brady Standard.

Well, that's all right; you have no use for a meter without lights.—Rockdale Reporter.

And we can't light even if we did find the meter.

Brady has the purest water that can be had.

Nolly Embry says he believes in giving flowers to the living, and then hands us this armful of violets: "The Standard is the best advertising medium I ever saw. I have already had three inquiries as a direct result of my little local about silos, and feel sure of selling at least two of the parties. You are dead right when you say 'Standard ads get the grapes'."

**MORE ABOUT LIGHT.**

"How far that little candle throws its beam," etc.—Suggested by the light placed by H. N. Cook, proprietor of the Queen hotel on his corner of the square Gee, but we bet that light's lonesome.

Editor Cowan of the San Saba Star very unkindly insinuates in his last issue that neither of the editors at Brady can produce the goods. What's the matter, Cowan? Someone been breaking into your smokehouse?

A newspaper is the cheapest thing you can buy, it comes to you every day or week, as the case may be, rain or shine, calm or stormy, bringing you the best news of the neighborhood. No matter what happens, it enters your door a welcome friend, bringing sunshine and happiness. It shortens the long winter day, and enlivens the long winter nights. It is your adviser, gossip and friend. No man is just to his wife and children who does not give them a home paper to read.—Ex.

**BRADY, TEXAS**

**A DULL DYSPEPTIC**

State Press is a dull dyspeptic. He is a cold storage refrigerator. He is an ice berg. All this and more too. Instead of throwing up his hat and shouting, and at the same time digging deep into his money chest for the wherewith to buy us a handsome wedding present upon the prospect of our getting married, he grows real peevish and pessimistic. The cause of it all was the statement of a very dear friend of ours (our father-in-law-to-be, in fact) that he was reserving his youngest daughter of ten days for no one else but ourself, while his oldest daughter of four summers was being reserved for District Attorney Walter U. Early of Brownwood. Now hear State Press' ill-omened comment in the Dallas News:

"Go ahead and congratulate yourself. That is right. Your friends had no idea that you would be able to marry as early as eighteen years from now, and when the promised bride grows up it is quite likely that she will negative her papa's proposition, unless you grow eighteen years handsomer while you are growing eighteen years older. But in that event you will have still some consolation. You will be saved from having a lawyer for a brother-in-law."

**STILL IN THE DARK.**

This bit of rhythmic resentment is an inspiration of The Brady Standard: "You may rave, you may roar all the time if you will, but a midnight of darkness hangs 'round Brady still." It is explained that the thought was suggested by an attempt to go about at night. Yes, it sometimes has that effect upon belated pedestrians, while with others one street light is made to look as if there was a covey of them. San Antonio water never has that effect.—San Antonio Express.

Neither has the Brady water. Guess again.

The Ft. Worth Star-Telegram remarks that the plan of the treasury department in reducing the size of paper money one-third "is a plan to reduce the high cost of living." Making a little money go a long ways?

When you talk about Brady, just remember that in addition to having the purest water, the best roads, the finest schools and the healthiest of climates, Brady is one of the cleanest cities in Texas. It's a good talking point.

Over in Menard a week or so ago a specialist in high financing attempted to cash a worthless draft to the tune of several thousand dollars, but the banker they imported from Brady was shrewd enough to nip the scheme and nab the schemer. It is only in such rural burghs as Menard that this class of rough stuff is ever attempted. In fact, it is only in recent years that Menard has become an unfruitful field for the green goods man, and that is because times are so dem hard over there.

W. D. Cowan, editor, Justice of the Peace and candidate for congress against Claude Callan et al, unfolds his accomplishments and lays bare his campaign plans in the most suave of manners. Cowan says: "But then every man who has a 5-year old kid at home is a hero, an Appolo and a Solomon all combined in one. But to secure the votes, we are depending entirely on our winning ways which are a power among the

ladies and will come in handy in just now when the dear creatures secure the ballot."

The Standard is informed that some parties have a habit of throwing dead cats into the street or alley, and has been requested to state that this is as much an offense as the depositing of garbage or any other offensive matter. Take warning and help keep Brady sanitary.

Over in San Angelo the Tom Green county commissioners, in response to six different petitions from farmers residing in various sections of the county, are actually beginning to consider the advisability of placing a bounty on the scalps of jack rabbits. They are deferring action, however, until they can prevail upon all the neighboring counties to do the same. McCulloch, San Saba, Brown, Coleman and any number of other counties have already placed bounties upon the bunnies, and we feel confident that before the lapse of another century Tom Green county will have caught up with the procession sufficiently, at least, to help the farmers out on the rabbit question.

There is nothing more stimulating to a business than a steady run of advertising, more especially when the advertising is done in a way that reaches the right kind of people, and therefore assure the best results. That's Standard advertising. This fact is coming to be appreciated more and more, as is evidenced by the fact that a number of Brady merchants have already contracted for space for every week in the year, and others are becoming interested. R. E. Luhn, Jr., & Company is the latest firm to contract for space for each week during the present year. Mr. Luhn will run an interesting line of display ads in every Tuesday issue, and will supplement this with a regular amount of local readers. His ads are always snappy and interesting, and Standard readers can well profit by paying close attention to his offers.

**Warning—Clean Up!**

All parties who have neglected the cleaning up of any property owned by them are hereby warned that complaint will be filed against them unless they take steps immediately to put their property in proper sanitary condition. If you want to avoid a fine, clean up at once.

Mason will have a poultry and stock show together with a trades day tomorrow, Saturday. This is the first event of its kind for Mason, and much interest is being taken. A. W. Keller was selected as one of the judges of poultry, and was invited to bring over his famous

Rhode Island Reds and place them on exhibition. However, much as he regrets it, he will not be able to attend.

When You Pay What a Thing is Worth You Get the Worth of Your Money

A good buy means more than getting something at a cheap price. After all it is nothing but getting your money's worth.

Quality means cost, but everybody knows the better the quality the greater the durability. And it is durability that finally decides the net cost of a purchase. We have experts continually on guard in our shops to see that you get your money's worth. They inspect every nut, every screw, every single part that goes into Buick manufacture. If the quality is off grade, they scrap it. If the workmanship is off a hair's breadth, they scrap it. It costs us thousands of dollars a year in salaries alone, to say nothing of the loss represented in the material discarded. That's the money we spend for the Buick O. K.

The famous Buick overhead valve motor is guaranteed to have more power and more speed than any other type of motor on the market. It will pull stronger on low grade gasoline than any other type of motor ever built and the fuel consumption is less.

Beware of experiments. Of all the foreign makes of cars at recent Chicago show, only two had starters of any kind. YOU ALL KNOW THE BUICKS

## PRESCRIPTION

### For a Long Life.

This is the prescription for a long life given by an old gentleman in Connecticut, who is ninety-nine years old and still well and cheerful. "Live temperately, be slow to anger, don't worry, take plenty of exercise in the fresh air, and, above all, keep cheerful."

Should the system get run down—digestive organs weak—the blood thin and sluggish, take Vinol, which is a delicious combination of the medicinal—body-building properties of cod's livers, with the useless grease eliminated and tonic iron added. We regard Vinol as one of the greatest body-builders and strength-creators in the world for aged people.

Mrs. Mary Ivey, of Columbus, Ga., says: "If people only knew the good Vinol does old people, you would be unable to supply the demand; it is the finest tonic and strength-creator I ever used."

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction.

## HAVE YOU BOUGHT A LAW SUIT?

Did you have an abstract furnished you when you purchased your land? If not, likely you have purchased a law suit. You took the seller's word for a good title, did you not? Of course, he would tell you that he had a good title. He wanted to sell, and you wanted to buy, and he was anxious to close out to you. Had it ever occurred to you that in purchasing you had purchased a bad title? You should not take any man's word on a land title. You ought to have the title examined by a competent attorney and furnish that attorney a complete abstract of that title. That attorney can then advise you about your title. You think because you received a warranty deed that you have received a good title. A warranty deed is only, in a sense, a wager that you will have no trouble, but if you do, the maker of the deed will pay your money back, if he is worth it, and you can, by suit, make him pay it. The only way to be safe is to have an abstract of your title and have it properly passed upon. It is not too late yet to get our abstracts, and we can put you up one on short notice. Remember, we compile "The abstract you will eventually use."

## ABOUT THE BUICK.

Rides With Pullman Ease—High Power, Low Cost.

The editor had the pleasure this week of accompanying B. A. Hallum, manager of the Brady Auto Co., to Dallas, where we were the guests of the Buick Sales Co. during our stay. Needless to state, our visit was a most pleasant one, the company losing no opportunity to make it so. A car and a driver were placed at our disposal to enable us to "see the city;" we were invited to inspect all the different models of Buicks and all the latest improvements, and last, but not least, we were invited out to a lunch that was the acme of good things. And at parting there was a pressing invitation to return soon.

The subject of the visit was to secure a handsome new 32-h. p., 5-passenger Buick for delivery to H. P. Roddie of this city, and the drive through the country from Dallas to Brady clearly demonstrates the service to be had from the Buick. The 225-mile drive was made without mishap to the car, the machine riding as comfortably as any Pullman, and running through sand beds with scarcely a slackening of speed. The 130 miles from Stephenville to Brady were made on six gallons of gasoline, which demonstrated the power to be had from the Buick engine at a very low cost.

The new car is one of the handsomest in the city, being equipped with electric lights, self-starter, and all the newest improvements, and was the object of much admiration all along the route.

Winter crops along the way are splendid, and with a few timely rains, feed should be abundant all through this section. McCulloch county can pride herself upon having as good, if not better roads than any of the counties traversed, while Comanche has the worst, not even the slightest effort having been made to improve the roads in that county.

Showers of rain fell all along the route Wednesday, and a sharp rain fell in Brownwood Wednesday afternoon for about thirty minutes.

Excelsior Shoe Store's new spring oxfords are up-to-the-minute, and quality and durability are up to the well known Excelsior standard. A call will be appreciated.

Whereas, the Commissioners Court did, acting upon said petition, order an election held within said subdivision on Saturday, March 22, 1913, to determine whether or not horses, mules, jacks, jennets and cattle shall be permitted to run at large within said subdivision; therefore, I, Harvey Walker, County Judge of McCulloch County, Texas, hereby call said election to be held in compliance with said order of Court and that the polls shall be opened at the Voca, Lost Creek and Mt. Tabor voting precincts on Saturday, March 22, 1913, at regular hours and that the following shall be managers of election in their respective voting precincts: F. M. Hopkins, Voca precinct; J. J. Armor, Lost Creek precinct; R. L. Burns, Mt. Tabor precinct, and they shall appoint their own clerks to assist them in holding said election, and shall on or before the 10th day thereafter make due return on all votes cast at their respective voting places for and against said proposition to the County Judge.

No person shall vote at this election unless he be a freeholder in said subdivision of the county and is a qualified voter under the constitution and laws. All votes shall be by ballot, and all voters desiring to prevent the animals designated in this order from running at large shall place upon their ballots the words: "For the Stock Law"; and those in favor of allowing such animals to run at large shall place upon their ballots the words: "Against the Stock Law."

It is further ordered that publication of this order be made in The Brady Standard, a newspaper published in McCulloch County, Texas, for thirty days before the date of said election. Witness my hand and seal of office at Brady, Texas, this 13th day of February, 1913.

## SAN SABA SAYINGS

From the Star.

Third Monday in San Saba was a big success and brought a big crowd of people to town. While there were not so many trades made, the crowd was a jolly, good natured bunch and spent the day getting acquainted and taking in the surroundings. Several trades were made and everybody seemed to be satisfied with the results of the day, and the opinion of all was that we must make every third Monday a regular sales day.

Considerable excitement was created Saturday evening by the announcement that John Behrens house was on fire. The town turned out en masse and was soon on the scene, notwithstanding it was in the west end and a mile from the square. The fire started in the smoke house where there was the meat of six or seven hogs. The house and meat were destroyed, which will entail a considerable loss.

The dwelling caught on fire, too, but Alf Ashley, who lives near, took a ladder from his place, and no doubt by his presence of mind the building was saved.

While driving out Wallace street Saturday evening the horse of Alvin Jennings became frightened at a passing auto and ran away, going into the wire fence just north of the college, cutting his fore leg in a very serious manner and demolishing the buggy. Mr. Jennings was thrown out, but received no damages.

The play by home talent under the direction of Miss Ballah Greenwood is making fine progress and will produce their play in the near future, which is given for the benefit of the fire company. Manager McBride of the Majestic has placed his house at the disposal of the young people, which is duly appreciated by them, as well as our entire citizenship.

The Star reporter was told that an airship passed over San Saba Saturday night about 10 o'clock. The party was duly sorry when he told us and as airships are made and there is plenty of fresh air above San Saba we have no reason to doubt the story. He said the ship was traveling in a northwestern direction, and was a large affair.

From the News.

That the Central Texas Summer Normal will be held in San Saba for 1913 is now assured. The teachers of Lampasas, Mills, McCulloch and Mason counties are heartily joining with San Saba in the efforts to have here this year one of the largest and best normals in Texas. This bunch of counties can thus combine their strength and by rotating the location build up a great and strong summer normal.

Hon. Matt F. Allison came home Sunday. Three members

Wouldn't any woman be happy, after years of backache suffering, days of misery, nights of unrest, the distress of urinary troubles, when she finds freedom.

Many readers will profit by the following:

Mrs. A. W. Glover, 905 Regan st., Brownwood, Texas, says: "For nearly thirteen years, off and on, I was bothered with kidney trouble. I tried many remedies, but never got anything that helped me like Doan's Kidney Pills." (Statement given May 30, 1908.)

A Later Endorsement.

When Mrs. Glover was interviewed on October 25, 1911, she said: "Nothing could change the high opinion I have always had of Doan's Kidney Pills. You may continue to publish my former statement."

**RURAL HIGH SCHOOLS**

CONSOLIDATION A MEANS OF BETTER EDUCATION.

Able Article by D. H. Henderson, County School Trustee, Outlines Rural Needs.

I find in our rural districts that there are a number of children ready to enter high school whose parents are not able to send them away to the city high school and pay board and tuition.

A further fact worthy of our careful consideration is that of families who are able to send their children away from home to the city high schools, it comes at a time or age when parental advice and control in developing the character of the child is most needed, for in childhood and youth is the time when we, as parents, should mold the future character of our children, and oftentimes they will lose interest in the home and the wholesome influence of rural life on the farm.

The children in the rural districts of Texas should have equal high school privileges with the children of the cities. With the vast majority of country boys and girls high school privileges will never come under the present system of maintaining so many small rural school districts, and so many small houses dotted here and there over the country.

As the following extracts from the Rural High School Laws and Bulletins will show, high school privileges for the rural districts in Texas is no longer a problem:

Sec. 139. Rural high schools authorized—That public high schools are authorized to be established in the common school districts of Texas \* \* \* and etc.—Acts 32nd Legislature. Chap. 26, Sec. 1.

Sec. 140. What may be taught in these schools:—There may be taught in each high school, the establishment of which is herein authorized, all the subjects prescribed by law to be taught in the public schools of Texas, including primary, intermediate and high school subjects and such of the additional subjects of agriculture, domestic economy and manual training as may be provided for, according to the conditions hereinafter prescribed.

In the meaning of this statute there shall be high schools of the first class; high schools of the second class and high schools of the third class. A high school of the first class shall be a high school which maintains at least four years or grades of work above the sixth grade or year \* \* \* shall employ at least two teachers to teach high school subjects, who shall each hold a state first grade certificate.

Read the entire section. Here we have been asked the question: "Can we maintain our grade and employ a principal holding a lower grade than the first?" To such, we especially refer you to this section.

Section 143.—Classification of schools: It shall be the duty of the county school trustees to classify the schools of the county into primary schools, intermediate schools and high schools \* \* \* and of establishing high schools wherever practicable.

In classifying the schools and in establishing high schools, the county school trustees shall confer and advise with the county superintendent of public instruction, and the district school trustees \* \* \* in determining the location of high schools, the county school trustees shall, by and with the consent of the majority of the trustees of each district affected, effect the consolidation of as many common schools as practicable.

I quote here from Bulletin No. 15, State Department of Education, Austin, Texas: "The first work in the consolidation of rural schools was begun in 1869 by Supt. Wm. L. Eaton at Concord, Mass. \* \* \* So marvelous has been the growth of this movement that it has become an integral part of the school system of thirty-two states in the American union."

But the people are slow to give up old customs. Consolidation of small districts into large ones has proven good for the betterment of the school system of thirty-two states, and it is no experiment for the people of our state.

Now, I want to speak of the

five small districts here in the Voca country. If they were all consolidated into one large district, it still wouldn't be as large as the independent district of Brady, but we would have a scholastic population of something near two hundred and eighty. With this number of scholastics we could go to work to build a suitable school building at a central point and have a rural high school equal to any city high school.

There are 625,000 boys and girls residing in the rural districts of Texas today, and now, right now, a great many of them are ready to enter a high school. But how many can be sent away to attend the city high school? Echo says: "How many?"

What is to be done? Go to work, everybody, and let's consolidate the little districts and make large ones, and build high schools.

R. B. Cousins, ex-State Superintendent, says: "Let every man do his best to save the half million of Texas children and to guarantee that the future of the state socially, industrially and economically, religiously and intellectually shall be worthy of her matchless history."

Let me say to the people of the five districts above mentioned: Let's talk about it, write about it and call meetings and discuss the subject.
