"YOU MUST BE SATISFIED"

A GARDEN SPOT.

Joe and Jim Matthews Accomplishing Wonders.

Quite a number of Bradyites Sunday visited the Peg Leg ranch in Menard county, owned by Messrs. Joe and Jim Matthews, and they are unstinted in their praise of the improvements being accomplished by these former Bradyites. In little more than a year, the Peg Leg ranch has been transformed from what was almost a bald prairie into one of the finest and most profitable ranches in this section of the state—and at that the work of improvement planned by this energetic pair has scarcely begun.

It will be remembered that last year on a ten-acre irrigated patch the boys made over a bale to the acre, and if they had but had the water they would have undoubtedly made nearly two bales to the acre off the same patch. This year they are preparing to secure and abundant supply of water, and to accomplish this are constructing a big dam across the San Saba. With an ingenuity and inventive genius possessed only by Joe and Jim, they have constructed a trolley of a cable and pulley wheel by means of which they are enabled to transport rocks of unbelievable size and dump them in the river at the site of the proposed dam. The plan has worked so successfully that they already have a pile of rock that would require five or ten years to place in the ordinary manner. They are preparing to place 100 acres under irrigation this year.

The waterwheel, heretofore in operation, is run entirely by the current of the San Saba, so that without any effort whatever upon their part, running water is had at their house at all times, and which enables them to irrigate their garden. Already they have a garden that proved most tempting to the eyes of the visitors.

Another example of their ingenuity is to be seen in the concrete incubator built by Jim Matthews, and which enables them to hatch chicks 100 at a time.

These are but a few of the examples of enterprise noted by the Brady bunch, but they are sufficient to denote what can be accomplished where there's a will backed by good judgment. In fact it is said that the Matthews will soon be in position to sit back in the shade of their vine and fig tree and let their gasoline engine do all the work.

In conclusion it might be noted that in addition to raising a choice assortment of turkeys, chickens, pigs, cattle and live stock, Jim has now branched out into the skunk business, and rarely a night passes but what he captures one of these animals whose fur is eagerly sought by the furriers, and brings a handsome revenue to the trapper.

Did you order something without seeing it first? If you did, do you suppose you treated yourself right? We don't ask you to give us anything free, but, sure enough, treat yourself right, see us first next time, and if we can't show you why it is best to get it here, then order. R. K. BIG CATTLE DEAL.

Brown County Men Put Over \$200,000 Deal at El Paso.

While at the Cattlemen's convention at El Paso this week, Frank and W. A. Lacy closed a deal by which they sold to Russell & Tucker of Kansas 5000 two and three year old steers for a consideration of more than \$200,000. This deal included all the cattle held by Messrs. Lacy for April delivery, as well as the stock on their ranches. The cattle will be shipped from Brownwood on the 10th of April.

This is the largest cattle deal that has been made here in some time, and shows that the cattle industry in Brown county is much better than most people would think.—Brownwood Bulletin.

Lewis Brook is the happy possessor of a superb Cadillac, the car having been brought over yesterday from Brownwood by Messrs. Dyke Ward and Jamie Brook. The car is a beauty, and no one could be prouder than is Mr. Brook of his new possession.

Our old friend and former McCulloch county citizen, N. S. McBride, writes us the following cheering and cheerful letter from Christoval, where he is now located: "Can't do without The Standard any longer, so I enclose check for \$1.00 for which please send me Standard for one year. Am getting along fine. When I make all the money I want I am coming back to McCulloch to live."

Delegates to Convention.

The following have been named as delegates to the great Sunday School convention which meets in Waco today. Representing Presbyterian Sunday school: Misses Hazel Page and Mary Johanson; Methodist: Mr. and Mrs. J. T. Mann, J. F. Montgomery, W. J. Dawson; Christian: Mrs. W. N. White; Baptist: Mrs. S. W. Hughes.

Mr. and Mrs. Otis Turney are happy over the arrival of a fine girl at their home Monday, March 17th, and are the recipients of many congratulations from friends and acquaintances.

Dinner and Candy Sale.

The ladies of the Presbyterian church will serve dinner and sell candy Saturday, March 29. Everybody invited.

Reports Great Time.

The returning visitors to the Cattle Raisers convention at El Paso bring back with them glowing tales of the scenes and incidents they witnessed. They tell of bull fights, cock fights and horse races, of immense crowds, of meeting with old time friends and of seeing wonderful sights, until the stories rival the Arabian Nights tales. All report the finest of times.

Those who returned Saturday were Mr. and Mrs. Chas. White, Miss Laura Lee White; Messrs. Johnnie White, W. D. and Querry Walker, John Wall, M. Z. Bates, S. E. McKnight, W. H. and Johnnie Gibbons. Mr. Gibbons took advantage of the occasion to run up into Arizona to look after some property owned by himself and A. W. Keller, and found it to be some of the most desirable property in the town.

Mrs. Johnnie White stopped over in Fort Worth on her return to visit her sister, Mrs. H. M. Brannum.

Mr. and Mrs. G. R. White remained in El Paso several days on business, and will return this week.

Church Tea.

The ladies of the Presbyterian church will have a tea at the residence of Mrs. J. R. Stone Thursday, April 10th, from 2:00 to 6:30 in the afternoon. A cordial invitation to be present.

If you will notice you will see a good many new Moon Bros. buggies and Bain wagons. We are not complaining of the dull times. The reason is that we are selling goods that stand up and people appreciate the quality they are getting from us. Broad Mercantile Co.

ELECTION TUESDAY.

Three City Aldermen Are to Be Selected.

Next Tuesday, April 1st, is city election day, at which time the voters will name three aldermen to represent the city during the next two years. The aldermen whose terms expire are I. G. Abney, C. A. Anderson and Dr. J. B. McKnight.

The following are the citizens whose names have been put forward by friends for the vacancies, and whose names will appear on the election ticket: A. W. Tipton, Dr. J. B. McKnight, Edd Broad and H. P. Roddie.

All the above-named are enterprising, substantial and popular citizens, and a better set of men could not have been selected. The fact, alone, that they have acceded to the requests of their friends to permit their names to be placed before the citizens is proof of their patriotism, and their devotion to the interests of the best town in Texas. The selection of three of the four merely rests upon the personal preference of the majority of the voters.

Friday morning, March 21st, will always be a red letter day in the household of Mr. and Mrs. C. A. Trigg, for on that momentous day Abner Gilliam Trigg arrived to scatter sunshine in the home. Mr. Trigg has already figured out that the youngster is destined to be a great football player, and is divided in opinion as to whether he will be president of the U. S. or one of its foremost statesmen.

RESERVOIR LOW.

Coleman Authorities Cut Off City Water.

The Talpa Post is authority for the statement that the city council at Coleman has had all the city water cut off for a week or more, fearing that the reservoir would be drained, and the city would have no protection in case of fire.—Brownwood Bulletin.

Here's the secret of R. E. Luhn's unusually pleasant, pleasing and withal dignified appearance since Sunday—the stork visited Mr. and Mrs. Luhn Sunday morning about 6:30 and left a bouncing 10-pound boy. Congratulations are now in order.

No matter what kind of a shoe you prefer, how hard you are to fit, or what kind of leather you like, we have a shoe that will please you. Let us show you. Wm. Connolly & Co.

Record Cattle Prices.

Kansas City, March 22.—The highest price ever paid for cattle from below the quarantine line on the open market was received at the Kansas City stock yards by H. B. Johnson of Chickasha, Okla. He had 49 black steers, averaging 1069 pounds, which sold for \$8.80, and 76 heifers, weighing 519 pounds, that brought \$8.25. Mr. Johnson is one the biggest cattle feeders of the Southwest. The cattle marketed today were corn fed and cotton seed meal.

The Bain wagon was a good one fifty years ago—it is better today. Come in and let us tell you why. Broad Mercantile Co.

If you want a cultivator, remember there is nothing equal to the Moline in service and durability. The lightest running; sold at the lowest price. We have them in the four and six plow. Come and see. Abney & Vincent.

A UNIQUE SENTENCE.

About fifty years ago a judge
in Waco is said to have concluded
his remarks, in passing sen-
tence of death upon a prisoner,
as follows: "The fact is, Jones,
that the Court did not intend to
order you to be executed before
next spring, but the weather is
very cold; our jail, unfortunately,
is in very bad condition; much
of the glass in the windows is
broken; the chimneys are in
such dilapidated state that no
fire can be made to render your
apartments comfortable; be-
sides, owing to the great number
of prisoners not more than one
blanket can be allowed to each;
to sleep sound is out of the ques-
tion. In consideration of these
circumstances, and wishing to
lessen your sufferings as much
as possible, the Court, in the
exercise of its human compas-
sion, hereby orders you to be ex-
ecuted tomorrow morning as
soon after breakfast as may be
convenient to the sheriff and
agreeable to you."—Hamilton

Next Tuesday, April 1st, is
city election day. Unless we are
badly fooled we are going to
elect three mighty good alder-
men.

Would-be-Congressman Claud
Caban wrote us some time ago,
and flat-footedly (he wears a
No. 11) stated that the Brady
girls pronounced the word "de-
pot," dap-po. For once Claude
was correct, and, as always, the
Brady girls are correct. It is
only in Yellville, Ark., Dismal
Swamp, La., and Menard, Texas,
that they pronounce the word
dee-pot, so as to make it rhyme
with tea-pot.

The San Antonio Express is
popularizing itself throughout
the Brady country by its fre-
quent reproductions of bright
little Brady folks. This is a
regular feature in the Sunday
Express, and among recent pho-
tos was that of Nellie Grace,
the cunning little daughter of
Constable and Mrs. Ed Clark.
Last Sunday appeared the pho-
tograph of W. F. Davis, the popu-
lar janitor at the court house,
together with his bright little
granddaughter, Ima, the daugh-
ter of City Marshal J. M. Ander-
son and wife. The photos are
excellent likenesses, and are
highly prized by the fond par-
ents and friends of the young-
sters.

THE BIGGEST LIES.

The biggest lie we can invent,
Is this—now hold your breath—
A South American President
Once died a natural death.
—Springfield Union.

The biggest lie that we can tell
If we aren't too outspoken,
Is that we have a New Year's
Resolution that ain't broken.
—Easthampton News.

The biggest lie that we could tell
Would fill you with delight,
But we are saving it to tell
To our dear wife some night.
—Houston Post.

The biggest lie that we can tell—
Now don't fall in a trance—
One night our wife failed to go thru
The pockets of our pants.
—Menard Messenger.

The biggest lie that we can tell,
It never's yet been told,
We've told some whoppers, yes, you
bet,
And they are far from old.

WHERE WILL "FREAKIES" STOP?

The "Freakies" have Texas by
the throat; quack political doc-
tors are as numerous in the leg-
islature as red-headed widows in
Houston. There is a "medicine
man" with a bag of dopum for
every ill that irritates human-
ity, from the monopolization of
the air by biplanes down to in-
growing toenails. Why, one
would actually imagine, after
reviewing the great array of re-
stricting halters and check-
reins and cinch-girths on display
over at Austin, that the proud
citizenship of this great com-
monwealth was made up of wild
mustangs from the plains of
barbarism. It is no wonder that
the Easterners have such an
opinion of us; it is no wonder
that when they cross the border
land into Texas they expect to
see human beings bucking like
bronchos and bellowing at every
buck.

The trouble with our state to-
day is that we do not raise hogs
enough for home use and raise
too many donkeys for the legis-
lature. We cannot expect any-
thing but freak bills and freak
laws from freakish individuals.
"Like begets like"; Georgia rat-
tlesnake watermelons will not
grow on gourd vines unless it be
in the salubrious climate of Val
Verde county, and mud turtles
are never hatched out in the eag-
le's nest away up yonder in the
mountain's crag.

If the business men of every
community of Texas would stand
together against the freakies
they might put a stop to this bi-
ennial flood of foolishness. We
do not need so much governing.
Our homes should not be policed
against innocent amusements.
It is wrong to place an alarm
bell on a man's conscience that
will go off at every wrong tick.
What we need is freedom to
grow along both moral and com-
mercial lines; an opportunity to
be men without a legislative
pure food label pinned to our
coats, and to have railroads
built into sections sadly needing
them. It is not necessary to
regulate the size of a fellow's
"chaw" of tobacco to save the
country, or to meet every busi-
ness proposition at Red River
with a bottle of chloroform.

Of course we must resist an
invasion of beetle bugs, Mexican
smugglers, Oklahoma bootleg-
gers, populist ideas and maraud-
ing monopolists, but we do not
want to dislocate the hip joint
of the buzz wagon of prosper-
ity; we do not want to fortify ev-
ery road by which a capitalist
might enter the state with a leg-
islative blunderbuss loaded to
the tonsils; we do not want so
all-fired many laws governing
our tastes and appetites and gen-
eral deportment, that a person
will have to be a supreme judge
to know whether he can main-
tain a graphophone in the city
limits or permit limburger
cheese to run at large without
a scent deadener.

Every citizen of Texas, ex-
cept a lightning rod agent or a
man who refuses to pay for his
paper, should be protected, to-
gether with his family, his prop-
erty and whatever reputation he
has, but the state has no right
to invade the sanctity of the
home to keep a bald-headed man
from snoring or to dictate to a
woman the size of the buttons
she must sew on her shirtwaists;
it has no right to deter the de-
velopment of the great western
regions which are yet in the
very infancy of what they will
ultimately become, to satisfy
the desire of piney-woods trust-
buster, who, with roached hair
and Ciceronian eloquence fights
his way up the ladder of politi-
cal success by making the peo-
ple believe that a wild-eyed
geytusgootus lives in every
woodpile and that his is the
strong arm and courageous
heart to shiver its shins.

We need a change of program,

a kind of constructive carnival
rather than a camp meeting.
Texas is a big business which
should be run in a business-like
way; it is not an aborigine or
Riverdrift man who requires
daily training to be weaned
from the worship of a stuffed
toad. The manhood of the state
is par excellence, the opportu-
nities are the greatest on the con-
tinent and to expand in prosper-
ity, power and happiness be-
yond every star in the nation's
galaxy we but need relief from
the freakies.—Del Rio Herald.

LYRIC ATTRACTION.

Williams Comedy Trio Make Hit At Local Theatre.

That Brady folks appreciate
entertainment of the higher
class was attested by the recep-
tion accorded the Williams Com-
edy Trio at the Lyric theatre
Monday evening, when that or-
ganization opened a three
nights' engagement at this popu-
lar amusement place. The
Trio possesses unusually good
voices and their singing was a
pleasing feature of the program.
Quite the hit of the evening,
and the one which brought forth
prolonged applause from the
big audience was the dancing of
a little 3-year-old tot.

The sketch presented by the
Trio was clean and elevating—
none of the rough stuff so com-
mon with vaudeville perform-
ances—and furnished opportu-
nity for display of the individu-
al voices.

The program of motion pic-
tures was unusually good—
"Duty and the Man" being the
feature of the program.

For tonight there will be an
entire change of program, both
in vaudeville and pictures, and
if you are looking for an even-
ing of entertainment, drop in
at the Lyric. You will get your
money's worth.

For Friday night Manager
Levy announces "Deadwood
Dick" as a feature of the pro-
gram of moving pictures. This
picture consists of 3000 feet of
film, and is a great moral les-
son, and one which should be
seen by every man woman and
child in Brady.

BETTER FARMING METHODS
INCREASED CORN YIELD RESULTS FROM PRIZE CONTEST OF TEXAS INDUSTRIAL CONGRESS.

ALFORD BRANCH
"Champion Corn Grower of Texas." 167 1/2 Bushels on One Acre.
Alford Branch is a wide-awake farmer boy living at Overton, Rusk County, Texas, who by careful preparation of his land in the fall of 1911, so that it was in condition for the winter rains to sink in and to be stored for the use of the plant during the following season; who carefully selected the best seed-corn that was grown in his section and by shallow and constant cultivation from the time the corn was a few inches high until it was actually mature, not only kept it free from weeds, but kept the surface for an inch and a half or two inches so finely pulverized that it acted as a mulch and prevented the loss of moisture by capillary attraction, has raised on one acre of second bottom land 167 1/2 bushels of corn at a cost of 13 cents per bushel. Rating the corn at the low price of 70 cents per bushel, there was a net profit of \$95.35 from this acre. Adding to this the \$250 prize money awarded him by the Texas Industrial Congress, makes a total of \$345.35, which is the interest at 6 per cent upon \$5,755.83, and represents the value of an intelligent combination of brains and work.

This young man broke his land in the early winter with a two-horse plow, cutting about six inches deep; followed in the same furrow with a team pulling what is known as a "bull-tongue" that cut ten inches further into the earth, but turned up no new soil, and formed a reservoir to hold the moisture as well as to aerate the land and make more plant-food available. He used five hundred pounds of commercial fertilizer that had been recommended by a reliable house as best adapted to the successful growth of corn upon his black, sandy land, which had been in grass for a number of years and had an ample supply of humus. He used seed-corn that was popular in his neighborhood, known as the "Bloody Butcher." He states that he made as much corn on the one acre by the better methods above-mentioned as his father made on ten acres prepared and cultivated in the old-fashioned way.

LARGEST PRIZE-WINNING YIELD
The general average of all contestants was fifty-one bushels to the acre, while the general average for the State in 1912 was but twenty-one bushels. If all of the corn growers in Texas had averaged just what these contestants averaged, at the prevailing price, the crop would have brought one hundred and sixty-odd million dollars more than it did.

In 1911 the average corn crop of Texas was 9.6 bushels to the acre. Seventeen hundred and forty-six contestants for the prizes offered by the Texas Industrial Congress, coming from one hundred and sixty-one counties, averaged 31 1/2 bushels of corn per acre. All of the prizes were won in seventeen counties. In 1912 there were 4,030 contestants from 205 counties. Fifty-five counties won prizes, and 16 of the 17 that won in 1911 won again in 1912. This clearly demonstrates that the work of the Congress is constructive, permanent and cumulative.

The Congress keeps in touch with all contestants, makes suggestions as to preparation of soil, conserving moisture and fertility to make plant food available, as to seed selection and the best methods of cultivation, but all of these are subject to any changes that the contestant thinks best to make; the only object being to offer suggestions that cause the farmer to investigate and with all the information at hand to determine the best methods to adopt.

A large line of harness, collars, etc. **Broad Mercantile Co.**

You Must Buy a Silo.

You will buy a silo when you know what it means to the stockman and farmer.

When you understand that you can put up 100 tons of feed from 10 acres of land that has made a good average crop, you cannot resist buying one.

DO IT NOW!

Come to see me. Let me tell you about the **Saginaw Silo**. It's the standard. All others are trying to imitate it. It is the strongest, best built and most durable silo on the market. Factory at Fort Worth, Texas, also five factories in different parts of the United States.

The **Saginaw Silo** is built out of California Redwood, will not shrink or swell, and is the longest life wood known in this country.

You can buy a 100-ton **Redwood Silo** for about \$350 on good terms.

You can fill it with sorghum, maize or Kafir corn from 10 acres if the crop is good average.

The seed and labor to cultivate this land and the cost of hauling and putting it inside your silo cannot cost over \$100, which makes \$450.

The Experiment stations say it is worth as much or more per ton than dry sorghum, hay or cotton seed hulls. Hulls this year sold for \$7.50 per ton. This would make your silo full of feed worth \$750. Your silo full of feed will cost you \$450, so you have made on this basis, \$300 and your silo clear.

It is not an experiment. It has been tested by most all the State Experiment stations. It is easily fed, no danger of spoiling. It is the only salvation for the stockman-farmer, the beef-producer and the dairyman.

You can get away from the cotton field with a few silos. It's your feed for hogs, cattle, horses, mules, sheep, and the cheapest feed you can have.

I represent the manufacturers of the **Saginaw Silo** and would be glad to take your order now, also to tell you all its good points and you will do well to investigate the **Saginaw Silo** before buying.

Causes Much Disease

Advice about Stomach Troubles and how to relieve them.

Don't neglect indigestion, for it may lead to all sorts of ills and complications. An eminent physician once said that ninety-five per cent of all ills have their origin in a disordered stomach.

Our experience with **Resall Dyspepsia Tablets** leads us to believe them to be one of the most dependable remedies known for indigestion and chronic dyspepsia. Their ingredients are soothing to the inflamed membranes of the stomach. Rich in Pepsin and Bismuth, two of the greatest digestive aids known to medicine, the relief they afford is very prompt. Used persistently and regularly for a short time, they tend to relieve pains caused by stomach disorders.

Resall Dyspepsia Tablets help insure healthy appetite, aid digestion, and promote nutrition. As evidence of our faith in them, we ask you to try them at our risk. If they do not give entire satisfaction, we will return the money you paid us without question or formality. Three sizes, 25 cents, 50 cents and \$1.00.

You can buy **Resall Dyspepsia Tablets** in this community only at our store.

Miss Clara Wilhelm's was the guest of Miss Addie Conner Sunday while enroute to San Saba to attend the wedding of Mr. Lincoln of Boston and Miss Mylah Kuykendall of San Saba which is to be celebrated Wednesday.

The many friends of Mrs. W. R. Davidson, Jr., are greatly concerned over her illness following the operation for appendicitis last Sunday. Mrs. Davidson was reported this morning as having spent a very restless night. It is hoped, however, that she may soon be on the high road to recovery.

Messrs. Marion Rice, W. B. McKenzie, Odom Martin and W. M. Murphy left Sunday morning in the latter's car for his ranch below Alpine, where they will spend the week looking over the country. Odom Martin stopped over in San Angelo, and will return the latter part of the week with W. R. Rice.

Bazel Clardy, boiler inspector for the United States in the Panama Canal zone, was the guest of his cousin, Mrs. H. P. Roddie, Sunday, while on a 60-day vacation trip to the U. S. His visit Sunday afforded the first opportunity he and Mrs. Roddie had of seeing each other in fifteen years, and was all the more enjoyable for that reason.

Mr. Clardy has been in the government employ for twelve years, enlisting when twenty years of age in the navy, and after serving four years he went to Panama, where he began at the bottom of the ladder and worked himself up to his present enviable position. He returned Monday to Brownwood, from where he will go to New Orleans and take passage back to Panama.

GALLAN CONCOCTIONS FOR MAGNIFICENT MENARD

From the Messenger.
A Milwaukee man has decided to drown in the Atlantic by attempting to cross that stream in a balloon.

If it continues to rain so often our people will have to increase expenses in one of two directions. Either we must have more sidewalks or more silk stockings.

The Brady girls are not buying new hats this spring. They are trimming over their last year's bird's nests with pink cheesecloth and turkey feathers.

Blowing on the Deaton climate, the Herald says that there "they are already taking 'em off"—referring, of course, to the bankers, plumbers and a few other favored ones who had 'em on.

Up north recently they sent two girls to jail for giggling in church. They should have applied the thumb screw to them. People should know better than to make noise in church—it disturbs the sleepers.

We are trying to raise funds to buy a linen suit in which to make our campaign for congress. We will also need funds to buy large emblems of all the lodges we belong to. Pay your subscription now—you're away behind.

Del Rio is probably the only place in the country where the old practice of "jigging" the pantaloons is still in vogue. Every Saturday night there you can hear practically every man in town out in his back yard "jigging" his pants out so they will be nice and clean for Sunday.

The president will have a crate of cabbage for St. Patrick's day dinner. We are going to have cabbage that day ourself, and have him press a button just as he takes the first bite, so that while he's eating his'n we'll be eating our'n. This will be the first time we ever dined with the president.

Schwenker called on her Sunday night and the final arrangements were talked over. A little dispute arose over the ceremony, he wanting it said in Dutch, but this was finally settled her way, and nothing remains but for him to promise to buy a muffler for his breath, to use after eating limburger and onions.

"Miss Helen Taft wept softly," says the reports from Washington. Democrat that we are, we would have raised above party lines upon an occasion of that kind, and comforted her. Gladly would we have taken our coat sleeve and brushed the tears from her pretty eyes, and told her to let joy be unconfined, and the like.

Joe Adkins was here campaigning for congress, but it is no matter. We long ago conceded him this county, but we are going to beat him outrageously in McCulloch. Our plan of campaign there is to wear yarn socks and promise the people to have the government distribute monthly supplies of coffee, meal, tobacco, bacon and licker to everybody in the district.

A. H. Murchison bought the stock and fixtures in the sale Thursday. The stock, invoicing \$1000, he bought for \$425, and the fixtures, worth \$900, for \$400. The \$1300 worth of accounts were bought by Earnest Wilkinson for \$102.50. From the way the accounts sold—at about 7 cents on the dollar—we judge they were, for the most part, against Brady folks.

EDEN ECHOES

From Eden Echo:
Pancho, a Mexican sheep herder in the vicinity for thirty years, died this week on the T. L. FL. Bengel ranch, Millersville. Pancho was 75 years old. He had the friendship and esteem of all the older citizens and sheep men.

Rev. Mr. Joyner, missionary for the Brady Baptist association, visited this section this week. He preached in Eden Friday night and at Live Oak Sunday. He is a very pleasant man and an earnest minister. We were glad to have him visit us.

Mr. Craig and family will move from their farm in Salt Gap. Lock ranch in Crockett county in the very near future. Mr. and Mrs. Craig and daughter, Miss Mary, passed through Eden Saturday enroute home from Schleicher county, where arrangements were completed for the Craigs to take charge by lease of the ranch.

Mrs. Buck Bishop, who lives in Carter's Valley, Edwards county, killed a Mexican one night recently who had effected an entrance into her dwelling at night. A severe fight ensued before Mrs. Bishop and her small son won. Her husband had gone to Del Rio trading and was not at home. Mrs. Bishop's step-mother, Mrs. L. K. Henderson, was killed by a Mexican some two years ago at her home near Rock Springs. The citizens of that section later caught and lynched him.

LIVED ON RAW EGGS

Mr. Richard's Experience With Different Diets. Peaches and Buttermilk for Three Years.

Cecilton, Md.—Mr. George Richards, of this place, during the past 12 years, has probably tried more different diets than the average person would ever use in a lifetime.

What he has to say about his experiments, must therefore be highly interesting to anyone suffering from indigestion or stomach troubles of any kind. He says: "For more than 12 years, I suffered with stomach troubles, and paid hundreds of dollars for doctor bills and medicines. I was also operated on for piles.

I lived on dried peaches and buttermilk for nearly three years. The only thing that would not give me pain was raw eggs. I was a physical wreck. I could not sleep, and was as near crazy as a man could well be.

I must say that after taking two 25-cent packages of Theford's Black-Draught, it did me more good than all I ever spent for other medicines. I have been working daily on the farm ever since, and I am as hard as iron. This purely vegetable remedy has been in successful use for more than 70 years. Try it. But be sure that it's "Theford's."

SAN SABA SAYINGS

From the News.

John Russell was in Brady the first of the week on cattle business.

The city council has determined to use the money derived from the proceeds of the play last week to put down a concrete crossing across Wallace street at the Sloan crossing. The idea is to make something permanent as a memorial to the noble efforts of the school and young people of the town to make the town more beautiful.

Hon. Matt F. Allison came up from Austin Friday and spent Sunday with Mrs. Allison and the children. The legislature had adjourned to go and visit the fat stock show at Fort Worth and Mrs. Allison came home while the others were having a holiday. He says his liquor bill has been reported favorably in the Senate and will likely come up in that body this week and the chances are good for it to pass that body.

It was easy. That's the way the San Saba boys beat the Brady boys playing base ball. Brady is all right in many ways, but she just simply is not in a class with San Saba when it comes to playing ball. Three games had been scheduled last week. The first day our boys encouraged the visitors. The next day our boys trotted around just as easy for seventeen scores and the visitors being still shut out the game was called. If the Brady boys ever do get in the game we cordially invite them to come back and interest our players, for Bradyites are a bully set of fellows and we like them.

The News man had a hard time this week to find out and get some accurate estimate of the damage done by the freeze last Friday to Sunday. Inquiry among the farmers from various parts of the county brings forth about as many different opinions. For instance, the response from: M. M. Roach was that he supposed the fruit and most everything else was killed. J. T. Gunter, another of the

INDIGESTION

A Disorder that Breeds Disease in the Body, and an Easy Way to Cure it.

Take care of the stomach and you will have little need for the doctor.

When the stomach begins to show signs of disorder; when the food digests slowly and with discomfort; when you have heartburn; feel bloated and uneasy, you are in a condition that needs attention.

Prickly Ash Bitters corrects the disordered stomach by strengthening and toning up the digestive organs, driving the badly digested food into the bowels and thence out of the system.

Constipation is nearly always present when the stomach becomes sour or disordered. Prickly Ash Bitters contains the medicinal qualities which act as a restorative and regulator for the stomach and bowels. It strengthens the digestive organs, cures constipation and prevents the return of bilious conditions.

Thousands of people who have received lasting benefit from this great remedy willingly testify to its power in curing indigestion, constipation and kidney trouble.

"I suffered from constipation for years, and tried many remedies, but Prickly Ash Bitters is the only medicine that has ever done me any good. Through its use I am now in good health and entirely free from all traces of my former trouble."—B. F. STYGALL, Winsboro, Louisiana

CIVIC LEAGUE NOTES

Don't forget the clean-up day for the cemetery. Are you going to help?

Don't forget to burn the papers. Get rid of the tin cans and other trash.

Come to the meeting of the Civic League Monday, April 7th, and bring your dues.

Be sure to attend the meeting of the Civic League at the Methodist church the first Monday of April, at 4:30 o'clock.

Do you know that there are some nice, attractive rent houses out on the hill where it's cool and pleasant to live that are not renting as promptly as they ought. Do you know the reason? There are no sidewalks between them and town. Good reason, eh?

What about some window boxes and some gallery boxes full of old fashioned flowers? The old fashioned flowers are now prime favorites with the people who keep up with things. In the cities every house is brilliant with gallery boxes of petunias, portulaca, calliopsis and verbenas. Try them; you can get seed enough at your grocery store for 25 cents to make your home attractive all summer. Do it now, so they will bloom early.

Do you think it quite fair if your neighbor wants to have flowers or grass or trees which will be a delight to everybody, to throw any obstacle in the way? That's what you do when you turn a bunch of chickens loose on the neighborhood. One enterprising old hen can do more damage in a half hour than can be repaired in a whole summer. Remember the golden rule. One can't fence the front yard against chickens, so your neighbor is at your mercy. Many a yard would gladden the eye and blossom as a rose if it were not for this neighborhood pest. Don't do it, friend.
