BILLIONBUSHELOATRAIN

MOST OPPORTUNE RAIN IN YEARS FALLS.

General All Through This Section—Average Precipitation From 1½ to 4 Inches.

What is universally pronounced the best and most opportune rain in years fell Saturday night, thoroughly saturating McCulloch county, and the entire Central West territory. Following upon the rain of ten days ago, this precipitation assures a good oat crop, and puts the ground in fine shape for other crops.

The rain was preceded by several days of cloudy and threatening weather, which increased hopes as the prospects for rain grew better. Saturday afternoon a sharp shower fell in the East Sweden neighborhood, and San Angelo and several other points north and northwest of Brady reported splashes of rain. The real downpour began about 11 o'clock Saturday night, and continued almost unremittingly all through the night.

The rain in Brady fell slowly and steadily, the total precipitation recorded being 1.4 inches. Brady creek ran through for the first time since the big rain of June 17th of last year—over ten months ago—and the water was pouring over the dam early in the morning. Along in the afternoon a big rise caused by the rain at Eden came down, and the water rose to about three feet over the top of the dam.

Although the amount of precipitation in Brady was just a trifle less than that of the last rain, the general downfall seems to have been much heavier, reports from other places showing from two to four inches of rain. Also the rain of April 23rd put only about two and a half feet of water in the dam, whereas the rain Saturday night not only filled the remaining six and a half feet to the level of the dam, but ran over it to a depth of one to three feet all during Sunday and Sunday night.

The San Angelo Standard reported 2.10 inches, and states the rain was accompanied by some electricity and hail, but that no damage was done.

At Brownwood 1.95 inches was had, and the bayou was reported a mile wide and had backed up into the city yesterday.

At Ballinger three inches of rain fell, and the Colorado river was reported the highest since the flood of 1906. A small cyclone struck the east side of the town about 12 o'clock, demolishing a number of residences and destroying property.

A phone message from James Callan at Menard Sunday evening stated that the heaviest rain in twenty-four years, or since 1889, fell there Saturday night.

Coleman had a three and a half inch rain; Eden was reported as having had between three and four.

Other reports were: Menard, 3½ inches; Mason, 2½ inches; Walker and Gansel ranches, over 3 inches; Lohn, 2½ inches; Voca, 2 inches.

From every part of the county comes reports of creeks and gullies filled to overflowing, together with assurance of a splendid oat crop even without another rain, unless something unforeseen happens.

Following the rain, Sunday

Commencing Tuesday Morning, April 29

WATER RUNNING OVER BRADY DAM

dawned as an ideal, sunshiny day, and many Brady people took advantage of the weather to visit the dam, and take supper in sight of the roaring waters.

The rain, aside from the incalculable value to the farmers, will be of untold benefit in that all the stagnant pools and accumulated filth in the creek beds and gullies were washed out, leaving the banks and water courses clean and inviting, and assuring a minimum of danger from sickness during the summer months.

EGGS TO NEW YORK.

McCulloch County Hen Fruit on Long Trip.

The enterprising firm of H. P. Roddie & Co. will this week start a solid car of eggs for New York, where they will play a leading part in the table d'hote of the Waldorf-Astoria and the cafeterias and the like. Just to illustrate the immense amount of eggs that are being marketed in Brady it might be stated that the week's output for this firm alone is expected to reach the startling figures of 100 cases. The car will be made up of 400 cases, and whatever is lacking in filling the car will be made up at Brownwood.

Joe Carroll, one of our friends on Route 1 out of Rochelle, just simply couldn't do without The Standard, so he came in last Saturday and gave us his renewal.

POPULAR D. G. STORE.

Newly Organized—Takes Over Grand Leader.

A charter was issued Monday by the secretary of state to the Popular Dry Goods Co., of Brady, newly organized stock company, with a paid-up capital stock of \$10,000, and \$4,000 surplus.

The new firm takes over the business of the Grand Leader, A. W. Tipton and S. J. Striegler, proprietors, and will continue in the general dry goods business at the same stand. The new company has not yet elected officers, but S. J. Striegler, who is interested in the organization, will manage the business, which assures its success.

A. W. Tipton, who has been associated with Mr. Striegler the past three years, retires from the mercantile business, and while he has not yet decided upon his future course, his many friends are pleased to learn that he will continue a resident of Brady.

PROFITABLE BUSINESS.

Elsewhere in this issue we are publishing some interesting data upon the value of hens in McCulloch county, as well as the amount and value of their production in eggs, and the totals reach an astonishing figure. At that the statistics from which these figures were compiled were taken some three or four years ago, and with the immense strides McCulloch county has been making along this line during the past few years, it is safe to say the figures have almost doubled in the meantime.

It has been suggested to us that this particular industry, by co-operation of the farmers and merchants, might be developed into the most profitable in the county. It is a well-known fact that the total output of eggs exceeds the total output of cotton in the U. S., and this being the case, there is no reason why the chicken and egg business should not become the foremost industry in McCulloch county, the more so as this country is especially well adapted to chicken raising.

The American hen has long been recognized as a mortgage-lifter, and with improved breeds, scientific care and thorough study of the art of profitable poultry raising upon the part of McCulloch citizens, this industry is rapidly coming to the front, and will soon take its place among the foremost in the county.

For a profitable source of income, and for bringing in the cash at a time when it is most needed, nothing can equal old Biddie.

WARNING, CALLAN.

Dr. J. B. Winn this week sold to J. A. Ballou, recently of Brady, the vacant lot just across the street and north of his residence on Durham Heights, consideration \$800. This lot, which is 150x150 feet, has doubled in value within four years. Mr. Ballou will immediately begin the erection of a residence to cost \$5000. This steady increase in Hamilton property would signify a solid basis of development in the city and also denotes a future of such phenomenal growth as has been experienced the past few years.—Hamilton Record.

About the Milk Business

WE are in the Dairy business to stay. We gave you good service during the hard winter months. Rain, sleet or snow you found your milk at your door every morning. Now that spring is here we would appreciate your staying with us. Don't quit us for the summer dairies and neighbors' cows that will give you service for only a short time while grass is plentiful. Give us your trade and help establish a dairy that Brady will be proud to call her own. We keep a good herd of the best Jerseys, and have them inspected every month by Dr. Zerby, one of the best known veterinary surgeons of the West. We are awake to the fact that cleanliness and purity go to make an ideal dairy and we have installed the best appliances for handling milk sanitary. Our Aerator cools the milk quickly to 50 degrees, taking out all animal heat and objectionable odors, keeping milk sweet twenty-four hours longer than uncooled milk. Our barns are kept clean, milk house well screened, no flies allowed. We invite you to visit us and let us prove to you that

GREAT GAME--CHARITY

BUSINESS MEN SHOW UP IN
FINE FORM.

Win Game by Score of 10 to 5.
Gate Receipts of \$40.60 Go
to United Charities.

Never was there a more interesting game of ball than that played on the local diamond yesterday afternoon between the business men of Brady and the Brady high school team. The business men won, but the school boys made them work for the honors, and put up a game fight from start to finish. Not once did they lay down; and in the last inning they made a rally that netted them two scores, and for a time threatened to overcome the lead of their opponents.

There was a splendid attendance at the game, practically all the business houses closing and there being a large turnout of the citizens. The gate receipts totaled \$40.60, with about \$5.00 expense, and the net proceeds will go to the United Charities fund.

The game opened up in splendid style, the first three innings being played fast and close; the batters coming up and going down in almost one, two, three order. The business men scored one in the third inning on Willie White's three bagger, and the boys evened up by getting three tallies in the fourth, Laurence Fuller landing on the ball for three sacks. For a time, it looked like the boys would give their opponents a hard chase, but Buzz Ogden came to the rescue in the fifth inning with a long drive that brought in two scores, and landed Buzz on second base very much out of breath; so much so, in fact, that he had to retire from the game for an inning or two.

In the sixth inning Steffins very unfeelingly landed on the horsehide for a two-bagger and the net results showed in three tallies, which so enthused "Red" that he duplicated the performance in the seventh and brought in two more runs. In the eighth another two were added, bringing the total score for the business men up to 10.

In the meantime the boys had been having hard luck, and in spite of Hardison's long two-base hit in the sixth they blanked up until the ninth inning, when they retired their opponents without a score and succeeded in bringing in two men for themselves, bringing their total up to five.

Hardison made a splendid showing for the high school boys and pitched a splendid game. On the other hand he received good backing, and the boys showed they were masters of the game, and won admiration.

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardui.

Meets, Va.—Mrs. J. C. Green of this place says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well.

One day, I decided to try some Cardui. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life.

The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardui will do for sick women."

A few doses of Cardui at the right time, will save many a big doctor bill, by preventing serious sickness.

It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardui. Suppose you try it. It may be just the medicine you need.

not only from the school boys and girls, but from all the visitors as well. Steffins, for the business men, pitched a splendid game, and he, together with Willie White, Big Fuller and Ogden were easily stars of the game. Will Ballou also came in for distinction by nailing a long fly out in left field and thereby preventing a couple of runs.

MCCULLOCH BOY HONORED

Floyd Smith Elected to Phi Beta Kappa Society.

Austin, April 29.—Floyd Smith was unanimously elected to the Phi Beta Kappa society—the greatest honor that can be conferred by the faculty upon a student at the State University. Membership is confined to graduates of the College of Arts, not more than one-eighth of the graduating class being elected in any one year. Selection by the Phi Beta Kappas is a mark of the greatest distinction, as only students of the very highest standing are eligible; it indicates ability to master a large amount of material, as well as extraordinary constructive capacity and remarkable power of concentration in the analysis of particular problems, as evidenced by original essays and examinations during the entire college career.

Phi Beta Kappa was founded in 1776 at William and Mary college; it has since become a national fraternity, with chapters throughout the country. Eligibility to membership does not depend upon wealth; the fact that a candidate is well-to-do has no weight in his selection, as the only standards are very high scholarship and good morals.

McCulloch county is to be congratulated upon the production of Phi Beta Kappa material.

CHAMPIONS OF DIAMOND

BRADY HIGH WINS TWO AT BROWNWOOD.

Boys Show Up in Fine Form Over College Chaps Friday and Saturday Last Week

The Brady High School baseball team cinched their claim as the champion school team of this section by defeating the Daniel Baker college team in two well matched games upon the grounds of the latter at Brownwood last week, and as a consequence the boys are in fine spirits.

The first game Friday was a spirited match, which resulted in a victory for the Brady bunch by a score of 6 to 3. Overcash and Johnson were the batteries for Brownwood; Morris and Fuller for Brady. In Saturday's game was seen a splendid exhibition, the score being a close one, and the game hotly contested. Again the locals won the victory, this time by a score of 5 to 4. Shrader and Johnson officiated as battery for Brownwood; Hardison and Fuller for Brady.

This makes four games won from Daniel Baker by the Brady boys, the two first having been won on the local diamond. Previous to this the home boys defeated both East Sweden and Midway, which gives them undisputed championship in this section. The East Sweden team is recognized as the strongest in this section, but they fell before the locals.

Not only are the boys highly pleased with the games at Brownwood and the many courtesies extended them, but Coach Wallace is delighted as well. The games were all clean, spirited exhibitions of the national sport in its highest form; there was no squabbling; everything went off harmoniously, and the locals found themselves among a class of boys the equal of which is hard to find ordinarily among high school teams. Also while in Brownwood they visited the college, and made observations of the college work, which will have a tendency to arouse them to greater efforts and tend towards interesting them in higher education.

PERSONAL & LOCAL

H. P. Roddie left Sunday night for Dallas upon a business trip.

G. C. Duncan spent several days here from Brownwood last week on business.

W. B. McKenzie left Sunday night for Coleman on a business visit of a few days.

Mrs. Will Callan of Menard is spending the week the guest of her parents, Mr. and Mrs. J. F. Tindel.

Mr. and Mrs. I. D. Adams and little son spent Saturday and Sunday here the guests of Mr. and Mrs. Tom Case.

Si Colton was in from the ranch yesterday and reported a fine rain out on his ranch, all the tanks being practically filled.

Mrs. J. W. Jones, who has been the guest of her son, Virgil, and wife the past week or two, returned Sunday to her home at Coleman.

Mrs. J. O. Wallace left last Wednesday night for Rockwall, where Prof. Wallace will join her upon the close of the school two weeks hence.

D. H. Henderson and daughter and O. W. Armor were up from Voca yesterday smiling over the 2-inch rain bestowed upon their section.

Miss Mary Bell closed her school at May last week, and is expected home this week. She will spend a few days the guest of her sister at Mercury before her return to Brady.

Mrs. Marion Deans is reported making a splendid recovery at the home of her parents, Mr. and Mrs. T. J. Bradley, following an operation last week for an affection of the eyes.

Mrs. Frank Hardin arrived yesterday for a visit with her father, W. W. Sammons, and friends in the city. Mr. and Mrs. Hardin have been making their home in Big Springs for some time, but are again moving to Fort Worth.

S. W. Leach was in from Fredonia last week to get a large size dose of The Standard.

TRUSTEE ELECTION.

Messrs. Broad, Samuel, McShan and Lowrey Elected.

The election for school trustees last Saturday was undoubtedly one of the quietest in years, there being but 58 votes cast. There were six names on the ticket, four to elect, but the voting was considerably scattered, eighteen names appearing in the list when the votes were counted, and of this number two were those of ladies.

The votes as canvassed last night by the school board were as follows:

Ed Broad	45
H. C. Samuel	43
Lee McShan	39
Henry Lowrey	25
C. A. Trigg	21
J. E. Keeler	11
A. W. Tipton	11

Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. NATIONAL BANK OF COMMERCE, Toledo, Ohio.

Compliment Com. Miller.

Folks who have had occasion to use the Coleman road the past several days are highly complimentary in their praises of the good work done on the roads the latter part of the week under the orders of Commissioner Henry Miller. The first three miles of the road, which has been in a neglected condition for some time, were put in first-class condition, much to the delight of all who have had occasion to travel the road. Mr. Miller has at all times had the best interests of the county at heart, and his readiness and willingness to assist in the maintaining and improving of the roads in his precinct is earning him deserved popularity.

J. M. Duke thinks nothing could be more appreciated by his daughter, Mrs. A. C. Matthews, at Tampa than a year's subscription to The Standard. We think the same.

C. A. Anderson is a very dutiful father-in-law. He renewed the subscription of B. A. Jones at Austin last week.

MANN BROTHERS

SAN SABA SAYINGS

From the News.

Miss Mamie Penn is now chief operator at the Southwestern exchange.

Mrs. E. E. Robertson took the train here Tuesday for her home at Brady, after a visit to her son, Joe, of the Cherokee Herald.

James Burns, the government weather man, says the rain gauge shows a fall for the month of April of 2.11 inches. This makes about five inches of rain fall for the first four months of 1913.

M. Bloomfield of Brady was here on business Friday and Saturday. He formerly lived here, and married one of San Saba's daughters. He is now agent for the Texas Oil Co., at Brady, and is prospering. He keeps posted from the old home by reading regularly the columns of the News.

But few San Saba people know or realize the magnitude and importance of the pearl industry of the San Saba river. J. A. B. Jones last year bought more than 3000 picked up in the San Saba river bed. This year he expects to get over 5000. These pearls are the most valuable to be found. Mr. Jones recently sold one fine San Saba pearl to Mrs. Royal Ferris of Dallas.

From the Star.

Walter Whitley has returned from Brady, where he has been assisting in installing a local station for the Martin Telephone Co. This company has recently finished their line from this place into Brady.

R. G. Coryell qualified as mayor of San Saba at a special meeting of the city council yesterday evening. The question of the re-election of marshal, secretary and attorney, we suppose, will come up at the next regular meeting.

Jack McGaughy of Brownwood who buys cotton during the fall season, sells harvesters and binders in the spring, talks politics 365 days in the year and an all round good fellow, floated in here Tuesday evening and Wednesday morning a regular trash-moving rain came. Jack claimed the credit for it, and Dick Sullivan says we had just as well let it go at that, as the rain will spread about as much sunshine as Jack would have smeared over us anyway.

BIG SURPRISE TO

MANY IN BRADY.

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, the German remedy which became famous by curing appendicitis. Central Drug Store states that this simple remedy antiseptizes the digestive system and draws off the impurities so thoroughly that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY.

MASON MAVERICKS.

From the News.

A petition is being circulated for signers asking for a prohibition election.

Mrs. Jesse Ballou of Brady is here visiting her sisters, Messdames D. H. Bickenbach and P. C. Baird.

J. W. Howell has the contract for building a two-room dwelling with hall and galleries for Max Martin on his James river ranch.

Harvey Stewart has sold his crop, team, tools and household effects to Jim Tomlinson, and he and family will leave in a few days for California.

Misses Bertha Jordan and Mamie Doell, who have been teaching at Pontotoc, returned home Saturday, the school there having closed last week.

Mrs. Lucy Dobbs, wife of J. H. Dobbs of Katemcy died Tuesday night, after an illness of some time from appendicitis. Rev. J. P. Lyle conducted the funeral Wednesday afternoon.

Henry Hoerster says Emil Durst of Castell sold a fat steer last week weighing 1680 pounds at 8 1/2c. A quarter of a century ago the amount of money received for that animal would have bought a car load of cattle.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is too fatal to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 50c per bottle. REDUCED RATES.

Two Railroads Give Veterans One-Cent Fare.

The following telegram was received last Thursday by Sheriff J. C. Wall from Dallas:

"Please advise all Confederate veterans that the Texas & Pacific and Queen & Crescent Route will sell tickets required for Chattanooga at one cent a mile each direction. Ask camp at Brady not to make any arrangements until we can give this matter as much publicity as possible."

The veterans have been up in arms against the railroads for the past year or so because of the discrimination against them in the raising of the rates west of the Mississippi, and the vigorous protests from the veterans all over the western states seems to have borne fruit, as is evidenced by the above telegram.

San Antonio, which has been an active candidate for the 1914 reunion, and which was favored by practically all the western camps as well as many of those east of the Mississippi, recently announced its enforced withdrawal from the contest because of the discriminating rates of the railroads.

The bringing of the great annual reunion to Texas would be one of the greatest events in latter day history of Texas, and the withdrawal of San Antonio has occasioned much regret among the veterans, as well as an increased hostility against the railroads.

GALLAN CONCOCTIONS FOR MAGNIFICENT MENARD

From the Messenger.

Mr. and Mrs. H. R. Hodges were over from Brady Sunday.

But for the name of the thing plagued if we hadn't as soon have a republican administration.

Edwin Schuchard closed up his post office in Ballinger last week and came to Menard on a visit. He has the leading post office over there.

O. B. Preston was here from Fort Worth last week representing the Trinity & Brazos Valley. He has never discovered that his road doesn't come here.

Will some one kindly inform us of what has become of our congressional boom. At this season we could inflate it with fish yarns and it might prove a worthy air-going craft.

If you are not going to do anything toward destroying the fly incubators, at least provide a basin of water and teach the pesky critters to wash their feet before making calls on your neighbors.

The Herald editor should be pleased with the free wool program even if it breaks the wool men. It will enable him to buy his yarn cheaper, and he may be able to get a change of socks this winter.

Schwenker is for woman suffrage. No doubt Harry, or Harriot, is tired of wearing his disguise and wants to cast off his male attire and return to the laces and embroideries of his girlhood.

A pretty New York widow says a woman cannot live on less \$25,000 a year. This is alarming if true. It means that almost one hundred per cent of the women in this country are dead and don't know it. They just keep on talking, as if they were alive and well.

Rev. W. S. Wall gave us his dollar and is going to revel in the luxury of receiving the paper a year. Of course, we care nothing for money—as Judd Lewis says, "we think no more of a dollar than the ordinary man does of his life"—but it is gratifying to know that ministers are awakening to the importance of the spiritual help to be derived from the weekly visits of the Messenger.

PAULK BOND \$3000.

Man Charged With Murder of Bud Autrey to Be Released.

R. L. Paulk was carried to Paint Rock Friday, where he appeared before the justice of the peace and waived examining trial on the murder charge he is being held on, and his bond was fixed at \$3000. He was brought back to Ballinger Friday evening and placed in jail, where he will remain until he can secure bondsmen. His father returned to Paint Rock Saturday, where it is reported Paulk will have no trouble in making bond.

Paulk is charged with the murder of Bud Autrey, a ranchman near Eden, which killing occurred in Eden about a month ago. Autrey was shot down on the streets without warning, and Paulk surrendered to the officers and was brought to Ballinger, and has been in jail here since that time, as there is no jail in Concho county. Paulk declined to make any statement, but it is understood that he will plead the unwritten law, and will introduce evidence to prove that the man he killed had ruined his home, and those who are familiar with the case say it is another Sneed case.—Ballinger Banner-Ledger.

Eyes Sunken With Pain.

Three years ago I had a very bad spell of neuralgia which caused my eyes to become sunken and blood-shot with pain. We Get Treated.

If you should go to the post office, and from the depths of your lock box you should extract a large square parcel post-marked all the way from Oregon, what would you think? That's just what we did—go to the post office, we mean, and get the parcel. And when we opened it, lo and behold there was in it—apples. Four varieties of 'em, and each of 'em better'n the others of 'em. And here's a letter that explains the mystery—and the apples.

"I am sending you today by parcel post a box of apples; four different varieties, the names of each being on the paper bag. Of course these late keepers are not nearly so highly flavored, nor so large as the other sorts. Earlier in the season (in fall) I had some nearly as large as Woodrow Wilson's head, and far sweeter to the epicurean."

J. T. Roberson of Wonder, Oregon, was the very party who remembered us in this welcome fashion. And if he would have our opinion, it is to the effect that all the apples—the Russian Reds, the Walkers, the Ben Davis and the Black Twigs were not only of good flavor but were decidedly appetizing as well. If the fall apples are any better, there is but one way to prove it to us—a box of 'em by parcel post.

Get dolled up—you need to look well. And you will when you wear Kirk's shirts, with one of those late ties and comfortable collars. Nuf Sed.

POULTRY RAISING.

In McCulloch County Yields Immense Profits.

The Commercial Secretaries furnish the following interesting facts and figures:

The poultry industry of McCulloch county is assuming large proportions, and the hen is contributing her share toward lifting the mortgages and swelling the bank accounts of the farmers of the county. The federal census reports, which contain data gathered in the spring of 1910, show a total of 40,902 fowls, valued at \$12,469 on the farms of this county. The annual poultry production of 1909 was 61,885 head of fowls and 115,843 dozen eggs which had a combined value of \$39,251, according to the report.

Poultry raising in McCulloch county, when properly conducted, can be made a most profitable investment. The conditions are ideal for breeding and raising chickens, ducks, turkeys and other species of domestic fowls, and our climate makes expensive poultry houses unnecessary. There are 13,670,000 head of fowls on the farms of Texas, and the annual poultry and egg production which is largely consumed at home is valued at \$23,000,000. Probably twenty-five per cent of our produce finds its way to the northern and eastern markets.

See Macy & Co. for the best in all kinds of field seed.

J. T. Jones, one of our Brady friends, hopes to get a dollar's worth out of The Standard during the next twelve months.
