Directors Meet.

The newly elected directors of the Brady Commercial club met Wednesday morning, and organized with the following officers: F. M. Newman, president; W. L. Hughes, vice president. D. R. Hardison was elected secretary for another year. It was decided to meet every Monday afternoon at 4:15 sharp, five directors to constitute a quorum.

Miss Harriet L. Cook will reopen her sewing school Monday, May 26, for a term lasting until June 30. For information inquire of Miss Cook, at the Queen hotel.

Samson windmills, pipe, fittings, etc. O. D. Mann & Sons.

Elected Superintendent.

Word was received here Wednesday that F. E. Norton had been elected superintendent of the Goldthwaite schools, and his acceptance means the loss of one of the best instructors of the Brady high school faculty. Mr. Norton taught English and History in the local high school the past year, and his methods of instruction have been declared the most efficient in the school. Since the close of the Brady high school Mr. and Mrs. Norton have been visiting her parents in Ballinger.

RAIN SOME MORE.

General All Through McCulloch County.

It rained again Wednesday night. We do not recollect just the how manyth rain this is, but it may safely be said that McCulloch county is wet—soaking wet. A good soaking rain Sunday afternoon, another Monday night, and still another Wednesday night—well, that looks just about like McCulloch county was coming into her own. Brady seems to have received the lightest rain of all points in McCulloch county Wednesday night. A good shower was had, however, commencing about 3 o'clock and continuing for a couple of hours, the total precipitation being .2 inches. The creek was up at 10 o'clock yesterday morning and still rising. Heavy rains are reported at Voca and Stacy, while good rains are reported at the following places: Eden, Pasche, Melvin, Richland Springs, San Saba, Goldthwaite, Rochelle, Waldrip, Menard and Mason. At Lohn, Fife and Coleman the rain was light.

Like the previous rains, the fall was light in spots, and heavy in others. Practically no rain was had at Brownwood, but north of Brownwood all along the Frisco up to Fort Worth good rains were had. Commencing again about ten miles this side of Brownwood the rain was heavy, and especially this side of the river.

The Onion Gap and Rochelle

communities were in the best of the rain. These communities were missed by the earlier rains, and were comparatively dry, permitting the farmers to work the fields, and consequently were in fine shape for the rains.

The hardest rain of all is reported at Pear Valley, where it

almost amounted to a water-spout. Five inches of rain is reported, which, together with the 5-inch rain of April 22nd and the second 5-inch rain last Sunday, gives this community fifteen inches of rain the past thirty days.

Following the abundant rains,

all crops are growing apace, and with them weeds are becoming abundant. A week or two of warm, sunshiny weather will be appreciated now by the farmers, as it will give them an opportunity to work their fields, and also be of inestimable value to the crops.

LOHN GREETINGS.

Lohn, Texas, May 18.
Editor Brady Standard:
The picnic yesterday was a success. Everyone seemed to have a dandy good time, and I know I did, for one.
Rev. Comby filled his regular appointment here Sunday and Sunday night.
Miss Annie Lee Tillard was the guest of Miss Myrtle Hule last Sunday afternoon.
Mr. T. B. Milburn of Rochelle is visiting at Mr. J. E. Hill's this week.
We had a nice time at the picnic yesterday and today. I believe the McCullough picnic is coming to the front again.
Oh, good! I enjoy reading "Aunt Susan's" letter. Was sure glad to see one more good letter from her. Come on more often and help keep our paper full.
Mrs. Ella Ceyer was a visitor at the Butler home last Sunday.
Mr. and Mrs. J. E. Bissett and five sons, Ernest, took dinner with Mr. and Mrs. H. C. Bissett Sunday.
I enjoyed reading Miss Cassie Das Cole's letter from Seymour. Come again with a longer letter; I know you can.
After the picnic yesterday a crowd went out on another rabbit drive. I think they killed 63 of the pests. Rabbits are beginning to get scarce around Lohn.
Mr. Gaver Gattis of Waldrip attended church here Sunday.
Mr. Nellie Embury of Brady passed through Lohn last Saturday evening enroute to Stacy.
Oh, Lohn! Lohn is coming to the front. We now have a cold drink stand.
Mr. and Mrs. C. C. Horne were visitors at Fife last Sunday.
Mr. J. H. Bissett and daughter, Miss Pearl, were the guests of Mrs. R. H. Ceyer last Saturday afternoon.
Mr. Nash of Brady passed through our settlement last Monday enroute to Pear Valley.
Mr. Wade Hampton of Fort Worth is the guest of his sister, Mrs. Orr Carroll, this week.
Well, as my letter is getting long, and I want to leave plenty of room for the rest, will close for this week. Here is good luck to one and all from
P. LONCY.

DUSTY DOINGS.

Voca, Texas, May 17.
Editor Brady Standard:
And correspondents! Hope you are all well and enjoying this beautiful weather and spring breezes.
People of Dusty are generally well. Now, "Aunt Susan," don't quit writing. It would be too bad, for I am sure your letters are appreciated by all. I am sure sorry you have had

LOST CREEK ECHOES.

Voca, Texas, May 19.
Editor Brady Standard:
Our crops are in very good condition; corn and cotton are growing off well since the warm weather set in. The oat crop is doing well. Some estimate their crop at 75 bushels per acre, but I hardly think that will do for a general average.
Snap beans and potatoes are getting common here and the watermelons are blooming. Hurrah for melon time! But the Elberta peach is wanted; plenty of cream, but no peaches.
This is the home of the tomato, and they take the place of fruit nicely. When canned they can be used in many ways on the table. Pies made of tomatoes are equal to those made of fruit, and preserves made of tomatoes cannot be excelled by any kind of fruit, and in their natural state, as they are picked from the vines, they are relished by nearly everyone. Since I have come to think about it, we don't need much fruit.
Mr. and Mrs. Drinkard of Eden are here this week to visit their daughter, Mrs. O. W. Armor.
Mr. Cleve Draper and sister, Miss Lena, of Lohn are here for a visit among relatives for a week or two.
This J. Wood of Brady was here on the creek last week the guest of D. H. Henderson and family, and while here succeeded in bagging thirty-five squirrels and one cat fish. He said he didn't see why he couldn't find any more squirrels out. There is a reason, don't you see?
W. W. Henderson was out Saturday taking the scholastic census.
Oat harvest will begin here this week.
With best wishes for all
A CITIZEN.

COW GAP MOOINGS.

Lohn, Texas, May 20.
Editor Brady Standard:
Why hello one and all! Oh, don't look so angry; I'll promise not to stay long, as news is rather scarce here in the Gap. How are you all enjoying this muggy weather? I think that it is a great pleasure to see the ground muggy in old Lohn.
"Aunt Susan" want a dandy letter you wrote last week. We certainly were glad to see one from you.
Miss Myrtle Hule was the guest of Miss Anna Lee Tillard Monday.
Miss Martha Elliott of Brady was a guest of Miss Bonnie McMorris the past week.
A dance was given at Mr. D. H. Campbell's Saturday night.
Misses Marie and Elsie Correll were the guests of Miss Bernice Winstead Saturday night.
Miss May Belle Bernhouse was the guest of Miss Vera Kuykendall Saturday night and Sunday.
Mr. Glen Elliott was the guest of Darrell McMorris Tuesday night.
Mr. Vivian McMorris and Misses Bonnie McMorris and Darrell Elliott attended the entertainment at Profit Friday night.
Mr. Darrell McMorris was the guest of Mr. Cleve Hemphill the past Sunday.
Mr. Carl Festerant was the guest of Mr. Vivian McMorris Saturday night.
Editor and correspondents should have been at our picnic here in the Gap Saturday. We did not know that so many of the good women did have so many good things to eat, as we had a fine dinner indeed—more than enough for everyone. Quite a large crowd attended all the surrounding communities being well represented. Music and singing was enjoyed throughout the day. The outing seemed to be enjoyed by the old as well as the youngsters. It will long be remembered by all.
Misses Winnie Newton and Willie McMorris were the guests of Miss Bonnie McMorris Monday.
W. A. Newton and N. C. McShan made a business trip to Brady Monday.
Master A. J. Jolly is spending the week with his cousin, Master J. L. Kuykendall.
"Flincy" wrote a good letter last week. I agree with him. When the editor asks us to do anything we should be prompt.
Bye.

As mercury will destroy the cells of the body and completely destroy the skin tissue, it should be avoided. The remedy should be one that will cure the disease without doing any harm to the body. PEAR VALLEY SAYINGS.

Pear Valley, Texas, May 20.
Editor Brady Standard:
As I didn't get my letter in last week, will try to send in what little news there is this week.
Rain, rain! Did you ever hear tell of the like? We had some hail here Sunday evening; don't think it damaged things very much.
Miss Lottie Rush visited friends in the Valley this week.
Miss Kate Collier visited Mrs. S. J. Howard the past week.
Mr. John Slaughter and wife have moved to the Valley. We are glad to have them with us.

Mrs. Ora Reed visited at the Faulkner home Monday.

"Aunt Susan" seems to think I can't take a hint. The very reason I am a lonely bachelor is that I can't take a hint.
I like "E. Z." think the editor will have to excuse short letters until we are not so busy with our work.
With best regards, I am still
THE LONELY BACHELOR.

DODGE DOINGS.

Brady, Texas, May 20.
Editor Brady Standard:
More rain! Sunday afternoon a good rain fell; there was about an inch. There was some hail, but not enough to do any damage. It seems, though, that the rain was very general. Last night we got about one and a half inches of rain and we hope it extended farther away from the creek.
Very few farmers in this section have chipped any cotton.
George Cathey and Arthur 355 have more than most time around here to make time. On the 18th a 10-pound boy made his arrival at the Cathey home and just one day later a young man arrived at the home of Mr. Milburn.
Harold Irvine is down from Fort Worth visiting relatives and friends.
Roy Miller and sister, Miss Jennie, are at the Hurrell home in Lohn; the latter part of this week.
News is scarce this week, perhaps that will be more next.

FIFE FINDINGS.

Fife, Texas, May 20.
Editor Brady Standard:
Times are pretty dull at Fife this week. Everyone who can is hard at work fighting weeds. Cotton is most all up, and a good stand. Oats will make from 10 to 30 bushels to the acre, a good rain Monday night insuring a crop.
H. A. Bradley and E. B. Baldrige were at Brady Saturday on business.
H. A. Zery of Brady was here Monday, being called to doctor a sick horse for W. A. Finlay.
Misses Elva Payne and Beulah Natus went to Rochelle Monday, where they will visit friends a few days before returning to their homes at Mason.
W. T. Stacy, ex-county commissioner, etc., of Waldrip, Texas, was here a few minutes Saturday. Bill is going into the hog business on a large scale, and declares he has quit planting the cotton. He has been on the hog question. Call again, Bill, we are glad to have you.
Guy Burns left Sunday for San Antonio, where he has a position offered him.
A. E. Thurber has received word from his wife at El Paso that their daughter, whom we reported sick last week, has improved considerably and will return with her mother for a visit as soon as she is able to be up.
Clay S. Randalls of Waldrip was a visitor here Saturday on business.
A. M. Finlay and family visited relatives at Brady Saturday and Sunday.
School closed here last Wednesday with a picnic for the children, which was greatly enjoyed by all present. The Misses Payne have taught a highly successful term and the trustees are to be congratulated on having secured their services for the next term.
Chas. H. Bratton was from Rochelle last week looking after his interests here. Chas. has about 300 acres of oats here and is making preparations to harvest them.
Robt. Finlay and wife visited at the home of E. B. Baldrige Sunday.

Foods That Bind Little Children.

Start Them Off Right With a Good Laxative and Then Watch Their Diet.

Mothers are often unconsciously very careless about the diet of their children, forcing all to eat the same foods. The fact is that all foods do not agree alike with different persons. Hence, avoid what seems to constipate the child or to give it indigestion, and urge it to take more of what is quickly digested.

If the child shows a tendency to constipation it should immediately be given a mild laxative to help the bowels. By this is not meant a physic or purgative, for these should never be given to children, nor anything like salts, pills, etc. What the child requires is simply a dose of the gentlest of medicines, such as Dr. Caldwell's Syrup Pepsin, which, in the opinion of thousands of watchful mothers, is the ideal remedy for any child showing a tendency to constipation. So many things can happen to a constipated child that care is necessary. Colds, piles, headaches, sleeplessness and many other annoyances that children should not have can usually be traced to constipation.

Many of America's foremost families are never without Syrup Pepsin, because one can never tell when some member of the family may need it, and all can use it. Thousands endorse it, among them Mrs. M. E. Darling, E. F. D. No. 4, Bollevue, Pa., who writes: "I certainly think Dr. Caldwell's Syrup Pepsin saved my

MARJORIE DARLING.

E. Sanders and wife returned Monday from an extended visit to relatives in Hays county.

Studebaker

"The wagon that stands up like the reputation of its makers"

When you buy a Studebaker wagon, you buy a wagon that will last until you turn the farm over to your son and he turns it over to his son.

One of the first Studebaker wagons ever made saw constant service for thirty years, and we will gladly send you the names of farmers who have in their possession wagons that have been in constant use anywhere from 17 to 48 years—and there are thousands of them. We are building the same kind of wagons today.

A Studebaker wagon is an investment that will give you full return for your outlay. It is built on honor. Iron, steel, wood, paint and varnish used in its construction are tested and retested to make sure each is the best.

For work, business or pleasure—for town or country use—there is a Studebaker vehicle to fit your requirements.

Farm wagons, dump carts, trucks, buggies, surreys, runabouts, pony carriages, business vehicles of every description—with harness of the same high standard.

WALDRIP WHISPERS.

Waldrip, Texas, May 19.
 Editor Brady Standard:
 We are having some real warm days; corn and cotton looks lovely, and the waving fields of grain will soon be ready for the gleaners' hand. Most farmers report an average yield of grain this year, considering the insufficient amount of rain.

Mr. Jim Lafferty left last week for a few days' visit with his parents at Richland Springs. His father has been ill, but is much better.

Messrs. Brown and Briscoe began putting up the machinery for the Hill gin last Tuesday.

Mr. B. L. Hughes of Mercury came in last Friday for a short visit, also to close his contract as teacher for the next term of school, as principal. We are glad indeed to know they have secured Mr. Hughes' services for another year.

Mrs. Sam White, who has been visiting here, has gone back to Lometa in response to a phone message that Mr. White was ill.

Epo. Burrow preached here Sunday morning, but on account of a change in appointments, he had to return to Stacy Sunday afternoon.

Mr. and Mrs. John Slaughter have moved back to Pear Valley.

Miss Maggie Powell left Monday morning for Mercury, where she will visit relatives. She will also visit at Holt.

Dr. and Mrs. Powell spent Sunday with their daughter, Mrs. T. C. Ramsey, who lives near Lohm. They report a terrible rain and hail while they were down there.

Miss Alberta Butler of Temple came in last Sunday for a visit to relatives here.

The debate was pulled off last Friday night. Quite a large crowd was present. The question was: "Resolved, That the World is Growing Morally Better." Affirmative: D. W. Hill and Ernest Ramsey; negative: J. W. Crider, T. L. Hodges. The negative side won. There will be a meeting next Friday night for the purpose of organizing a literary and debating society.

Dear "Aunt Susan," how good your letter looked to me! Why don't you write more often? Where's our long, newy letters? Seems as though they are getting fewer. "Jerry," "E. Z." and "Phoney," I am going to look for a long, bright letter from each.

EAST BRADY.

Brady, Texas, May 20.

Editor Brady Standard:
 My, my, how blustery the weather has been this week! The wind has blown all the week and is still blowing. It thundered and lightninged here nearly all day Sunday until about three o'clock; then it began to rain and rained steadily until 6:30. It also hailed and the wind blew a good deal, but the hail didn't amount to much. The rain was fine, and put the creek on a five-foot rise.

The Brady people are all smiles over the rain, too, don't you forget it, and I guess all the farmers are too, if the hail didn't strike them.

MILLERSVIEW WELL.

Depth 1226 Feet—Encouraging Prospects.

The well at Millersview has reached a depth of 1226 feet, and the sand has just been reached. Operations have been suspended the past few days awaiting repairs to the machinery, which were shipped out Wednesday, and by the latter part of this week work will be resumed and the sand drilled into.

An interesting feature is a comparison of the logs of the well at Millersview with that at the Lohm field. Beginning at a depth of 1032 feet at Millersview the logs compare as follows:

MILLERSVIEW	LOHM
49 feet shale.	40 feet shale.
9 feet lime.	10 feet sand and conglomerate.
40 feet shale.	27 feet shale.
16 feet lime.	14 feet lime.
19 feet shale.	75 feet shale.
46 feet lime and 26 feet lime shale.	
20 feet shale.	20 feet shale.
Sand.	Oil and sand.

Millersview being 300 feet higher than Lohm, and being 23 miles distant would make, according to the above method of estimating, the dip of formation about 32 feet to the mile. This dip is about the same as in the Oklahoma fields.

PROHIBITION ELECTION

Runnels County Commissioners Order Election for May 28th.

The commissioners court convened Monday for the May term at 1:30, and the first business that came before that body was the petition for a prohibition election. The petition was filed with the county clerk Saturday, and contained 261 names. The court took the matter up as soon as possible, and after examining same and finding that it contained the required number of names, an order was passed calling the election and fixing the date for same on Wednesday, May 28th. Under the law, the election could not be held within less than fifteen days, and as it will be tomorrow before the notices can be posted, the date fixed is the earliest possible time the election could be held. It was the desire of all interested that the campaign be a short one, and the question threshed out and settled as soon as possible. —Ballinger Banner-Ledger.

Religion and Medicine

S. B. HARTMAN, M. D.

Is there any intimate relation between religion and medicine?

Yes, there is. The old-time healer was also the priest. Theology and medicine have not maintained a separate existence very long. They used to be one. Yes, there is an intimate relation between religion and medicine.

It is well known of a person who eats with unthankfulness and ill-natured spirit, that his food will not have the same effect as if he were in a kindly mood. The same is true of medicine. If a person swallows a medicine with suspicion, has no faith in its action, is more or less afraid of the one who gives him the medicine, it cannot do him as much good as if he had unwavering faith in it.

The mind has a wonderful influence over the body. Those who believe that

a loving Father controls the destiny of mankind are a great deal better prepared to meet the vicissitudes of life and to overcome disease than the one who has no such faith. A truly religious man makes a better patient than an irreligious man.

In using the word religion I am not referring to any particular kind of religion. The Jew and the gentile, the Catholic and the Protestant, each have a religion in which they believe. They also agree in the essentials.

A religious man may believe that it is necessary for him to use every means in his power to get well. He may believe that it is perfectly proper for him to employ doctors and take medicines. But he also believes that when he has done the best he can there is a higher power that has charge of his affairs, that absolute justice will be done him, that no evil thing can befall a good man. He goes forward with confidence, sick or well, rich or poor, and sets a great deal more comfort out of life than the man who has no religion.

I have found myself saying many times, to people who have a chronic ailment, "You need religion as well as medicine. You need faith in an overruling providence that guides everything to wise ends; that the affliction of disease teaches a lesson that every one should strive to learn."

This does not mean that sick people are to sit down and trust that an overruling providence will do everything. Nothing of the sort. He is to use remedies guided by his best judgment, but in the use of them he can believe that all things are well and that in the end all things will come out right. Any medicine has a better chance to cure a man who holds such a faith.

Some men are so faithless and unbelieving, so restless and desperate, their minds so unsettled, that even the best of medicine has little chance to do them any good. Therefore I say that religion is often quite as neces-

sary as medicine, that the want of religion frequently defeats the action of the best medicine.

Many a chronic invalid has searched in vain for a physical remedy simply because he has lost his grip on vital religion, the religion that not only provides salvation in the world to come, but soundness of body and mind in the world that is.

Yes, there is a most intimate relation between medicine and religion. Other things being equal, the irreligious man stands a poor chance of getting well when he is sick, while the religious man frequently gets well in the most astonishing way after the doctors have all given him up to die. With a firm faith in a rational religion and an obedient use of the right remedy a great many hopeless invalids could be restored to perfect health.

Well, you have made it clear as to what you mean by religion. But what is the remedy you would recommend?

Of course I would recommend different remedies for different conditions. But the particular remedy that I am interested in at this time, the remedy that meets more chronic ailments than any other remedy I know of, is Peruna. Peruna is a remedy for that multitudinous group of ailments that are dependent upon catarrhal derangements.

I am furnishing a book on catarrhal diseases which I send to any person free. In this book I explain quite fully the uses of Peruna. Those who do not care to wait to send for the booklet at this time will find information and instruction as to the general uses of Peruna explained within the wrapper of each bottle. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NI, manufactured by KA-TAR-NI Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

BRADY, TEXAS, MAY 23, 1913

A NEW CLUB.

A new club has been organized
in Brady, the main purpose
of which is to promote the city's
welfare. D. Doole, Jr., is the
organizer and high priest of the
organization, and his mandates
and dictates must be obeyed to
the letter. The paraphernalia
of the club consists of a square
of screen wire which is perma-
nently attached to a convenient
handle. This is designated a
Swastika, deriving its name
from the swat stick, and is said
to be an emblem of good fortune.
The Swastika must always be
carried in the right hand. The
grand hailing sign of distress is
to raise the Swastika above one's
head and then lower it with a
rapid swing of the arm, always
being certain to let it rest upon
some object at the end of the
swing, even if it is only a fly
upon a bald man's head. The
password of the club is "Swat,"
and the club is known as the
"Swatters Club."

No limit has been placed upon
the membership, and age, sex,
color or service is no bar. The
portals of the club will always
be held wide open, and the glad
hand will be extended to all who
desire to join. "Welcome in."

Callan last week spoke of "be-
ing wrapped in slumber." It
would seem to us that that's
mighty insufficient covering.

OUTLOOK FOR CALLAN.

We notice Editor Callan is im-
proving the suffragettes to allow
him to keep his pants until he
learns to sew, and we would
just like to drop him a hint that
with the prevailing styles his
probation would not last long,
for there's not much sewing to
be done on the present day cos-
tume, specially if he chooses the
two-piece, artistically slashed
skirt, three-quarter sleeves and
Dutch neck.—Hamilton Record.

If friend Record is speaking
from more than mere observa-
tion of the plates in his wife's
fashion periodicals or of the mo-
tion pictures' exposure of what
they are not wearing in Paris,
this is a distinctly attractive in-
vitation to the rest of us, to
Hamilton. But we think he has
sized up wrongly the editor of
the Menard Messenger's prefer-
ence in dress, if Callan's spark-
ling squiblets are to be taken
as indicating his special bent.
We think he would prefer bomb-
azine (is that the way it's
spelled, Ole?) with capacious
pockets and sufficient sweep at
the base to conceal his feet. Cal-
lan in a slashed skirt and
Schwenker in a hobble would be
a sight for gods and men. If
we must relinquish trousers, we
would like to have the direction
of what Texas Press shall wear.
Jim Handsome Sullivan of the
Express would appear in baby
blue with rosettes and the stout
boy at Austin in a red pinafore.
—Waco News.

Viewpoints of the Waco News
evidently figures just because
the bottom of Callan's trousers
have a filmy and lacey, not to
say openwork effect, that in the
new order of things he would be
properly attired in a slashed
skirt. And while admitting he
would be a sight, it would not
be for gods and men, but one to
make angels weep. Personally
we would prefer a Bulgarian
blouse to a hobble, although the
two might make a pleasing com-
bination, would they not? And
not too risqué?

LOCATING BROWNWOOD.

Brady citizens are feeling so
fine over the good rains we have
been having that sometimes
their enthusiasm bubbles over,
especially when talking of our
less fortunate neighbors. Dur-
ing the last rain when the clouds
hung thick and damp all around
Brady, a traveling man inquired
of a Brady citizen in what di-
rection Brownwood was located.
Pointing to a light place in the
clouds, the Bradyite said: "Do
you see that light spot? That's
right over Brownwood."

WEST TEXAS TELEPHONE COMP'Y

"The System Reliable"

Mr. Farmer

What is of the most interest to you?
Upon the realization of what fond hope are
you building the loftiest aircastles? You do
not have to pause before replying. Your
answer comes unhesitatingly, "A good crop."
You are right. A good crop means not only
prosperity and plenty to the farmer, but to
the general public as well, and if the weather
man lives up to his splendid beginning this
promises to be a banner year.

More prosperity means more work and
responsibility. Labor is always scarce in a
district where the yield is heavy, but there
will always be districts where the farmer is
not so fortunate with his crops, and there
labor can be had for the asking. How can
you reach these districts with the least cost
and delay? The answer is easy—a West
Texas telephone. OUR UNIVERSAL SER-
VICE reaches everywhere, and if labor is
securable it will get it.

Crop prices fluctuate. A West Texas tele-
phone will keep you in touch with the mar-
ket and help you to secure top prices for your

unusual, too! And worse still,

applies to everybody except

WELL NUMBER EIGHT.

Brought in at Lohn on the
Meers Tract.

Well No. 8 was brought in on
the Meers tract Wednesday at
Lohn by the Brady Oil & Gas
Co., and while lying to the north
and at a considerable distance
from the other seven wells, it
is said to have about the same
production and was brought in
at the same depth. This well
opens entirely new territory and
would indicate that the Lohn
shallow oil underlies a large sec-
tion of country, and undoubtedly
in immense quantities.

All the seven wells previously
brought in are being pumped,
and are producing very satisfac-
torily. A good demand for the
oil is reported, and it is being
used all over the county by the
ginners and factories wherever
crude oil is burned. The oil as
produced is now being pumped
through lines to a storage tank,
instead of being pumped into in-
dividual tanks as heretofore.

HOW AN INDIANA GIRL

Got Strong and Well Again at
Small Cost.

Miss Alta Abel, of West Baden, Ind.,
says: "I was a complete wreck, al-
ways tired, worried and nervous. I
had to spend about one-third of my
time in bed and my life was not worth
living. Vinol, your delicious cod liver
and iron tonic, was recommended, and
it has done me more good than all the
medicine I ever took in my life. That
nervous and tired feeling is all gone.
I have gained in health, flesh and
strength, until I feel like another per-
son."

Vinol is the most efficient strength-
creator for such women. It is the
medicinal elements of the cod's livers
contained in Vinol, aided by the blood-
making and strengthening properties
of tonic iron, which makes it so far
superior to all other tonics to build
up health and strength for weak,
tired, ailing women. It contains no
oil and has a delicious taste.

We give back your money if Vinol
does not do all that we claim.

Lose at Mason.

The Brady High school team
lost their game with Mason on
Wednesday by a score of 4 to 3.
The game was a splendid exhibi-

to the close of the game the
Brady team apparently had the
game cinched, but in the ninth
inning the Mason boys rallied
and ran in three scores, giving

Thirty-Fourth Annual Session of Texas Editors.

Last week was the week of conventions in Texas, among others being that of the Shriners at Dallas, the State Dental association at Temple, the Texas Press association at San Antonio, the K. of P. convention at Corpus Christi, Texas Christian Missionary convention at San Angelo, State Convention Volunteer Firemen at Wichita Falls and the Waterworks Association State convention at Fort Worth.

Personally, however, we believe there was no other convention as good and as great as that of the Texas Press association at San Antonio at which there was some two or three hundred newspaper men in attendance. There was three days' program of papers and addresses upon various phases and departments of the newspaper and job printing business, included in which were addresses by Col. Henry Exall of Dallas on "The Press and the Texas Industrial Congress," by Pres. W. B. Bizzell of the College of Industrial Arts at Denton on "The Girls A. & M. College," and by Gov. O. B. Colquitt. Previous to addressing the body in person on Friday, the governor had addressed them on Thursday from his office in Austin, the address being delivered to the assembled editors by means of the Southwestern Telephone Co.'s loud talking machine, and being plainly audible throughout the large ball room of the Gunter hotel.

Interspersing the program of addresses were trolley rides and automobile rides over the city; visits to the Alamo, the missions and other places of interest; the military drill by the cavalry at Fort Sam Houston, the second largest military post in the U. S.; a smoker for the editors and a reception for the ladies; the La Cema Mexicana tendered the visitors by the San Antonio Express—a supper at which none but Mexican dishes were served; dancing and various other forms of entertainment.

In the election of new officers, Joe J. Taylor of the Dallas News, more popularly known as "State Press" was chosen as president; D. R. Harris of the Rusk County News, vice president, Sam P. Harben of the Richardson Echo was retained as secretary for the sixth time, and C. F. Lehmann of San Antonio, who has held the office of treasurer ever since 1897, was also retained. Other officers of the association were named as follows: Clarence E. Gilmore, Wills Point, general attorney; Mrs. Estelle Hudson, Farmersville Times, essayist; C. B. Gillespie, Houston Chronicle, orator; Clarence N. Ousley, Fort Worth Record, poet. Wichita Falls was selected as the next place of meeting.

Resolutions of thanks were tendered L. J. Hart and Manager Terrell of the Gunter hotel, the San Antonio Express, the Chamber of Commerce, the traction company and a long list of others for the many courtesies extended and the royal entertainment provided.

ILLUSTRATED LECTURE.

Christian Church Homes in Dallas for Aged and Orphans.

Rev. J. H. Mohorter, general secretary of the National Benevolent association of the Christian church and Otis Hawkins of Dallas, southwestern representative of the association, delivered a stereopticon lecture at the Christian tabernacle Wednesday night. The Christian church is sustaining two homes in Dallas—one for the care of aged indigent members of the church and the other for the care of orphans and other unfortunate, needy children. These institutions are under the general supervision of Mr. Hawkins.

In the course of his remarks Mr. Mohorter said:

"The Christian church stands for a return to apostolic christianity. It has been fairly successful in restoring the doctrines and ordinances of the apostolic church. This work of benevolence is a serious attempt at restoring and realizing the life of primitive christianity. The National Benevolent association is the agency through which the Christian churches are seeking to practice pure and undefiled religion by visiting the fatherless and the widow in their affliction. The association has been at work for twenty-five years, and in the course of these years it has accumulated property in the form of real estate to the sum of \$400,000. It has opened eleven institutions and is now preparing to open the twelfth. It has cared for over seven thousand children. It has placed more than four thousand and children in christian family homes. It has aided two hundred and twenty-five aged,

indigent disciples of Christ; saving them from hunger, cold and nakedness and the humility of having to accept public charity. It has extended a brother's helping hand to about two thousand widows, to say nothing of the sick who have received aid in its hospital. It works along three distinct lines. First, is its hospital service. It has one hospital in active operation in Valparaiso, Ind., and is now building a second hospital in Kansas City. One man has given \$285,000 for the grounds, building and equipment of this institution. One hundred and fifty-six thousand dollars has been raised for an endowment. This endowment guarantees the ability of the institution to do real charity work.

It is operating four homes for the care of the aged. These are located at East Aurora, N. Y., Jacksonville, Ill., Walla Walla,

Wash., and Dallas, Texas.

"Its home in Dallas, commonly known as Sarah Harwood Hall is the most completely equipped and the most nearly ideal of any one of the four, and ranks among the first institutions of its kind in the country. "It has six homes for the care of children. These are located in Cleveland, Ohio, Walla Walla, Wash., Denver, Colo., Atlanta, Ga., St. Louis, Mo., and Dallas, Texas. These homes for children have a capacity for the care of between five and six hundred. It cares for children without reference to the religious affiliations of parents. All placeable children are placed in good christian family homes. Children that cannot be placed in family homes because of physical defects are given special training qualifying them to become self supporting members of society."

Backache is only a simple thing at first;

But if you find 'tis from the kidneys;

That serious kidney troubles may follow;

That dropsy or Bright's disease may be the fatal end,

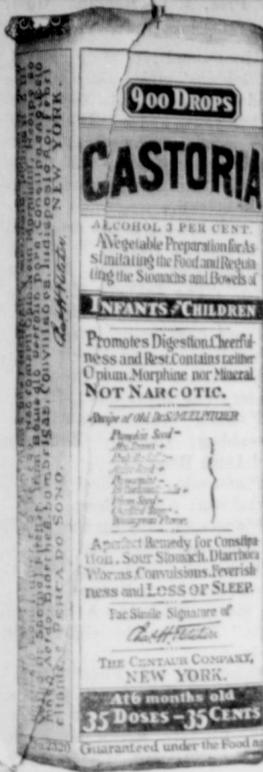

You will be glad to know the following experience.

"Tis the honest statement of a resident of this locality.

Mrs. Nannie Berry, Coleman, Texas, says: "I was bothered by kidney trouble for several years. When I got it so bad that I could hardly move, I had a touch of rheumatic pains and my feet often swelled. I began using Doan's Kidney Pills and I never found any other medicine that gave me so much relief. I am rarely troubled now, and never so bad that a few doses of Doan's Kidney Pills won't bring relief. I take pleasure in telling my neighbors of this medicine."

Excuse Me!

Four days of fun and frolic on board a trans-continental limited train with sixty laughs to the minute—and then some.

CHAPTER XXVI.—Marjorie tries to induce the conductor to hold the train so she can shop.

CHAPTER XXVII.—After marrying Lathrop and Miss Gattie the preacher escapes Mallory by leaping from moving train.

CHAPTER XXVIII.—Mallory's dejection moves Marjorie to reconciliation.

CHAPTER XXIX.—The last day on the train brings to Mallory the fear of missing his transport.

CHAPTER XXX.—Mallory gets a Nevada marriage license from Reno divorce drummer who boards the train.

CHAPTER XXXI.—Mr. and Mrs. Jimmie make up.

CHAPTER XXXII.—Kitty Le-wellyn refuses to return Mallory's bracelet.

CHAPTER XXXIII.—Robbers hold up the train.

They surged up to Mallory in a wave of hope. Dr. Temple, being nearest, spoke first. "Having learned by experience that his own prayers were not always answered as he wished, had an impulse to try some weapon he had never used.

"Young man," he pleaded across the back of a seat, "will you kindly lend me a gun?"

Mallory answered sullenly: "Mine is in my trunk on the train ahead, damn it. If I had it I'd have a lot of fun."

Mrs. Whitcomb had an inspiration. She ran to her berth, and came back with a tiny silver-plated revolver.

"I'll lend you this. Sammy gave it to me to protect myself in Nevada!"

Mallory smiled at the .22-caliber toy, broke it open, and displayed an empty cylinder.

"Where are the pills that go with it?" he said.

"Oh, Sammy wouldn't let me have any bullets. He was afraid I'd hurt myself."

Mallory returned it, with a bow. "It would make an excellent nut-cracker."

"Aren't you going to use it?" Mrs. Whitcomb gasped.

"It's empty," Mallory explained.

"But the robbers don't know that! Couldn't you just overawe them with it?"

"Not with that," said Mallory, "unless they died laughing."

Mrs. Wellington pushed forward: "Then what the devil are you going to do when they come?"

Mallory answered meekly: "If they request it, I shall hold up my hands."

"And you won't resist?" Kathleen gasped.

"Not a resist."

"And he calls himself a soldier!" she sneered.

Mallory writhed, but all he said was: "A soldier doesn't have to be a jackass. I know just enough about guns not to monkey with the wrong end of 'em."

"Coward?" she fung at him. He turned white, but Marjorie red, and made a leap at her, crying: "He's the bravest man in the world. You say a word, and I'll scratch your eyes out."

This reheartened Mallory a little, and he laughed nervously, as he restrained her. Kathleen retreated out of danger, with a parting shot: "Our engagement is off."

"Thanks," Mallory said, and put out his hand: "Will you return the bracelet?"

"I never return such things," said Kathleen.

The scene was so painful and such an anachronism that Dr. Temple tried to renew a more pressing subject: "It's your opinion then that we'd best surrender?"

"Of course—since we can't run."

(To Be Continued)

Not Fit for Ladies.

Public sentiment should be against it, and we believe it is; there can be no reason why ladies should have to suffer with headaches and neuralgia, especially when Hunt's Lightning Oil gives such prompt relief. It is simply a question of getting the ladies to try it. All druggists sell Hunt's Lightning Oil in 2.5 cent bottles.

HAVE RABBIT DRIVE.

Bradyites Participate in Hunt Wednesday.

Rabbit hunting in McCulloch county has reached a stage where it may justly be designated as a business, although those who have engaged in the profession state that there is a great deal of pleasure to be had out of the pursuit.

Following the lead of citizens in various parts of McCulloch county, a bunch of Bradyites Wednesday morning organized themselves into a posse to track bunny to his lair, and to bring back his scalp or die in the effort. Believing that in numbers there is strength, some fifteen or twenty of Brady's bravest citizens were induced to join in the chase which extended over a large territory in North Brady. The spot will ever be known as the dark and bloody grounds of McCulloch county, for here, amidst the cannonading of long-barreled shotguns, double-barrel shotguns, sawed-off shotguns, and guns that were not shotguns twenty-two bunnies laid themselves down and died.

Without the loss of a single man, the conquerors returned to the city, and dangled from their belts the twenty-two scalps—trophies of the affray. Just what the army will do with the bounty of \$1.10 for the scalps has not been divulged, but we presume it will be used to purchase chewing gum for the children.

START YOUR LIVER. DON'T STOP WORK.

Dodson's Liver Tone Acts Mildly, but Surely—Livens Up the Liver and You Stay on Your Feet.

It is the experience of calomel users that if they take enough of the drug to have the desired effect, it seriously interferes with their work the day after. But this is the least important item, for calomel is often a dangerous drug and acts on the system violently.

Don't take chances with calomel. Get a bottle of the pleasant, safe and perfectly harmless Dodson's Liver Tone, guaranteed to take the place of calomel. Instead of making you feel worse the next day it makes you feel better—and you actually are better, for no remedy in the whole world livens up the liver, regulates the bowels and really rejuvenates the system any better than this dose.

You are the sole judge of its merits. Jones Drug Co. is fully authorized to hand you back your money without question if it fails to, please you—and relieve you.

Remember, if you feel constipated and bilious, what you need is Dodson's Liver Tone. A large bottle and a good guarantee for 50 cents from Jones Drug Co.

NARROW ESCAPE.

Mrs. Joe Proctor Saved From Burning House.

But for the quick work of her husband, Mrs. Joe Proctor, Sr. would probably have been burned to death in the fire which destroyed their home at the corner of Avenue E and Dugan St., at 4 o'clock Friday morning.

Mrs. Proctor was sick in bed and when the blaze was discovered Mr. Proctor had barely time to carry her from the burning dwelling to a place of safety. The fire is of unknown origin.

Mr. Proctor had been up several times during the night to heat water for his wife's relief. When he awoke at 4 o'clock the entire house was in flames. Soon after he and his wife made their escape the roof fell.

The house was almost gone when the fire alarm was turned in and by the time the department arrived the building was a total loss. The house was valued at \$1500 and was covered by \$1000 insurance. In addition, \$500 in insurance was carried on the furniture.—San Angelo Standard.

TWO KILLED AT MASON.

One Struck by Lightning—Other Thrown.

Two citizens of Mason county met tragic fates last week. Guess Woods, age 28, was killed by a bolt of lightning Tuesday of last week. Together with his uncle, Woods was engaged in hauling wood. The uncle was knocked from the wagon by the bolt and the horses were knocked down. Guess Woods was a widower, and leaves several children.

Johnny McDonald was the second to meet an untimely end. It is supposed he was killed about 3 o'clock last Friday, when he went to a pasture after a steer. From tracks in the pasture it is supposed that he had been trying to corner the animal, and succeeded in doing so near a tree. The steer evidently charged him, and probably ran him into the tree where he was thrown to the ground, the fall resulting in a broken neck and a crushed skull. The body was not discovered until Saturday at 4 o'clock. So hard had been the fall that his spurs were bent and twisted. McDonald was also a widower, about 35 years of age, and leaves several dependent children.

Off to the Races.

The animals were shipped to Brady in care of A. W. Keller, and while at the stable here were the objects of much attention and admiration.

Commencement Exercises.

The commencement exercises of the high school were held on Thursday evening at the Christian tabernacle, with a large and appreciative audience in attendance in spite of the inclement weather.

The program was converted into a splendid stage, which was banked with evergreens and blooming plants. A diamond-shaped frame shaped the front of the stage, and bore the Piano solo, "My First March" motto "Aut invenimus viam aut faciemus" written in field daisies—the class flower—upon a background of white.

Those seated on the stage were the school faculty, the high school teachers, Hon. Joe A. Adkins, Dr. Potts of State University and the graduates, Miss Bernice Bell and Mr. John Doole.

The program had been well planned and was complete in every detail, and especially were the essays of the graduates praiseworthy, for as Miss Bell pictured in her paper "Looking Backward" the glories and happiness of the past, Mr. Doole painted a vision equally as fair in "Looking Forward" of the prosperity of the future.

The awarding of thirty-one certificates of honor to pupils who had neither been absent nor tardy during the year added an interesting feature to the occasion.

FOURTH ANNUAL EVENT

BRADY COMMERCIAL CLUB HELD TUESDAY NIGHT.

Interesting Program and Entertaining Speakers—New Directors Are Elected.

The fourth annual meeting of the Brady Commercial club was held Tuesday evening in the Syndicate building, with a small but enthusiastic bunch of members present.

Prof. W. L. Hughes as toastmaster proved a happy choice and kept interest and enthusiasm at the bubbling over stage.

The meeting was opened with an invocation by Rev. I. T. Morris. Hon. Sam McCollum made the address of welcome in a clever speech in which he lost no opportunity to say a good word for Brady, "the best city in Texas."

Responding, J. T. Freeman, agent for the Frisco, said as many more nice things for Brady, telling how, although a comparative stranger, he was impressed with Brady as a city, and the Brady folks as citizens of the most progressive type.

Secretary Hardison in his annual report for the past year reported collections of \$1155.50; expenses, \$1236.46; balance in bank, \$29.30. While this statement appeared paradoxical, it was explained by Secretary Hardison that a balance was on hand from last year, and the remainder of the deficiency had been made up by him out of his own pocket. Sec. Hardison took opportunity to tell of the work that had been accomplished in Brady by the club, among other being the fact that McCulloch county had been the first south of Fort Worth, with the single exception of Comanche, to secure a farm demonstrator, and had also been instrumental in securing a demonstrator for Mason county. The lead that the club in the successful fight against the rate advancement by the railroad was also touched upon, and many other points were brought out wherein the club had been of untold benefit to Brady and McCulloch county.

Hon. J. E. Brown painted Brady's future in glowing terms. In an apt illustration he showed that while Brady was not as big as Fort Worth "it was young," and there was plenty of time and opportunity for growth.

In his usual entertaining style Hon. Joe A. Adkins told about the live wires of Brady—the citizens who were ever awake to the city's interests, ever alert to do their duty, and always looking forward to larger and better things. And then in a glowing eulogy the judge designated the livest of live wires in Brady—the ladies of Brady, who brought success out of failure, who led in reforms where the men had fallen down. And the judge intimated that unless the men were careful and gingered up a bit, it might become necessary to turn the government over to the ladies.

G. M. Bennett told what the Santa Fe had done, and was still doing for Brady. That the Santa Fe had picked Brady as one of the best cities in this section, and had given it one of the best depots on the line. That the Santa Fe was still doing all in its power to aid and assist the citizens of Brady, and that it would continue to do so.

J. T. Mann, designated time and again as one of the livest of live wires, closed the program of addresses with many good reasons why every man should support the Commercial club. He spoke of the benefit a commercial club was to Brady—and to any town, in fact, and the duty every citizen owed to himself, his neighbor and his fellowman in the support of a

commercial club.

A committee of three, composed of Dr. J. B. McKnight, W. B. McKenzie and Sam McCollum, was named to select directors for the Commercial club for the ensuing year, and reported as follows: W. D. Crothers, D. F. Savage, Dr. J. B. McKnight, J. T. Mann, Howard Broad, D. Doole, Jr., F. M. Newman, Joe A. Adkins, Prof. W. L. Hughes, Aug. F. Behrens. The committee also recommended that, in view of his faithful and untiring efforts during the past three years or more, Sec. D. R. Hardison be retained for another year.

The report of the committee was adopted unanimously.

The meeting concluded with the serving of refreshments consisting of pickles and sandwiches, and punch.

Notice Delinquent Taxpayers!

I am ordered by the city council of the city of Brady to collect all unpaid taxes due the city for the year 1912, and all previous years, by suit, if necessary, which means a suit in the district court, and the treatment of all alike.

Respt.,
E. P. LEA,
City Attorney.

Splendid Team.

One of the proudest citizens of Brady is S. J. Durnett, the efficient operator of Brady's street sprinkler, and the object of his pride is one of the finest teams ever seen in Brady, and which furnish the motive power for the sprinkler wagon.

Both the dun and the bay horse, composing the team, are magnificent animals, the former weighing 1450 pounds and the latter tipping the beam at 1500 pounds, while each stands about 16½ hands high. Mr. Durnett believes in contributing his share toward civic pride, and his theory very correctly is that strangers will at once form a decidedly favorable impression of Brady when they catch a glimpse of the magnificent team attached to the street sprinkler.

And when Mr. Durnett succeeds in getting water from the city in as abundant quantities as he desires, he states that he will give the citizens of Brady a service not to be excelled or even equaled in the state.

C. C. Johanson has reached the conclusion that he cannot afford to do without a Ford, so he has purchased a 5-passenger touring car, and as soon as it arrives from the factory, doubtless Mr. Johanson will devote his entire time to carrying his friends about and showing them the beauty of living in Brady.
