\$18,000 IN LAND DEALS

McCULLOCH FARMS BRING NEW CITIZENS.

Careful Investigation Convinces A. L. Plummer No Opportunities Better Than Here.

Two big land deals closed last week mark the opening of the land sales in McCulloch county for the year 1913, and local real estate dealers confidently expect to reach high water mark this year in the way of sales. McCulloch county is daily coming into greater and more far-reaching note by reason of the unprecedented bright prospects, and this fact is responsible for a wave of immigration that bids fair to add hundreds of settlers to McCulloch county's population before the close of the present year.

The first deal was closed Friday by A. B. Carrithers of the Brady Land Co. for Meers Bros., and was the sale of 645 acres to A. L. Plummer, a very substantial citizen of Whitesboro, in the black land belt of Grayson county. The property is located fifteen miles from Brady on the Santa Anna road, being part of the tract purchased by Meers Bros. some years ago from Claude Ledbetter, and the sale totaled \$9,600.

Mr. Plummer visited McCulloch county three weeks ago, and inspected the tract, but in

order to thoroughly satisfy himself, he visited the Bishop country, then back to points in West Central Texas, and thence to Frederick, Okla. His trip merely served to convince him that no place offered such opportunities as McCulloch county, and with this assurance he returned and closed up the deal at once.

Mr. Plummer will move here this fall, and already has planned the erection of a substantial home place and many other improvements that will make his newly acquired purchase one of the best farms in the county.

Scarcely less in importance was the deal closed Saturday by Melton Land Co. in the sale of the W. R. Davidson farm in the Melvin country to B. L. Darnell of Tom Green county, the consideration in the deal being \$8,250. The farm comprises 160 acres of as fine land as is to be found in the county, and adjoins the property of Mr. Darnell's father-in-law, J. C. Clemmons. Mr. Darnell will move his family to McCulloch county about the first of the year and take charge of his new purchase.

In the trade Mr. Davidson acquires the Darnell farm of 160 acres located two miles from the town of Vancourt, and 16 miles east of San Angelo. He will not take possession of the property until the first of the year, each of the parties to the deal having retained the crops upon their respective farms. Mr. Davidson is well pleased with

ELECT TEACHERS.

School Board Supplies All But One Position.

The school board met Friday, and among other business elected two teachers, Mr. F. P. Phillips of Llano as principal and Mrs. F. P. Phillips to a position in the grade school. Both Mr. and Mrs. Phillips come highly recommended, and the board feels that they have been fortunate in securing their services. This leaves but one position in the school faculty yet unfilled—that of Latin and Spanish teacher. The board has several applicants under consideration, and will doubtless fill this place before long.

Messrs. Jack Savage, S. W. Moffatt and John P. Sheridan were appointed a board of equalization to examine the assessment rolls.

COMING TO McCULLOCH.

McCulloch county boosters
are beginning to reap returns
upon their efforts in the way of
new settlers and new citizens
for McCulloch county. Hardly
a day passes but what some new
family locates in McCulloch
county, and with one accord
they state that McCulloch coun-
ty is being boosted far and near
as never before; and even bet-
ter is the fact that upon their
arrival here they find conditions
even more promising than they
anticipated.

This fact was never more
clearly demonstrated than in
the case of A. L. Plummer of
Whiteboro, who made a pros-
pecting trip over the western,
southern and northern parts of
the state, and then decided there
was no place so good as McCul-
loch.

Aside from the boosting done
by McCulloch county citizens,
the railroads are doing their full
share in promoting immigration
to this section. The Frisco has
issued a large quantity of cir-
culars boosting the good crop
prospects of this section, and
have attached the names of the
local real estate dealers and also
the Brady Commercial club to
the circular for reference by the
homeseeker.

Now all that remains is for
the citizens to extend a welcome
to the homeseekers when they
arrive. Help to make them feel
that Brady is the city and Mc-
Culloch the county for which
they have long looked. Help
boost McCulloch by being a
booster yourself.

WORK PROGRESSING.

Fredericksburg Railroad Tunnel Half Completed.

Fredericksburg, Texas, June
4.—General construction of the
Fredericksburg, San Antonio &
Northern railroad is progressing in
a most satisfactory manner. About
four and a half miles of the main
line track has been laid using 65
pound steel rails. Grading work
is being done at all unfinished
points along the line and within
thirty days entire grading of the
twenty-four miles of road will
no doubt be completed and ready
for the rails. The head of the con-
struction forces reports that at
least eight and one-half miles of
railroad track will be finished from
Fredericksburg Junction at the Guadalupe
river railroad bridge by Satur-
day. The tunnel through the moun-
tain of solid stone is about half
completed. The entire length of
the tunnel is 900 feet. Over 325
feet of it from the south end is
finished, besides the upper portion
of tunnel excavation called the
header has been removed for a
distance, in all, of about 615 feet,
leaving only about 285 feet of the
header to be excavated before day-
light can be seen through the
former dreaded mountain of rock.

Four bridges have been con-
structed over the Block creek
crossings, and several others are
under way. This work is closely
followed by track laying; all ma-
terials for which are hauled on
the construction trains.

When this short line begins
operation, probably about Aug-
ust 15, the general condition of
the track will be much better than
could be expected of new roads,
by reason of the seventeen miles
of graded roadbed built in 1889.
There can be no doubt of this line
being finished and trains operat-
ing thereon under schedule before
the first bale of this year's cotton
crop is ready for market and trans-
portation.

Mrs. E. E. McMillan Dead.

The death of Mrs. M. A. Mc-
Millan, wife of E. E. McMillan,
occurred Sunday night at 9
o'clock at the home of the fam-
ily in South Brady. The cause
of the death has not been de-
termined, but it is thought to
have been pellagra. Mrs. Mc-
Millan has been an invalid about
eight or ten years, and the fam-
ily has just returned from an
extended trip through different
parts of Texas. Mrs. McMillan
was taken suddenly worse Sun-
day morning, and lingered only
until night before death came
as a welcome relief to her suf-
fering.

Mr. and Mrs. McMillan moved
here a little over a year ago
from Tolar, Hood county, Mr.
McMillan being engaged in the
dray business. During their
stay here the family had made
many friends, all of whom will
learn with sincere regret of the
sad loss.

Funeral services were held
yesterday evening by Rev. I. T.
Morris, and interment was made
in the Brady cemetery. Beside
the husband, five children are
left to mourn the loss of their
mother.

sential point—it will pay you to

thing you may need in our line.

WARNING TO FARMERS.

Examine Your Oats—They May Be in Bad Condition.

Messrs. J. B. and H. D. Cottrell
request us to warn farmers to ex-
amine their oat shocks and see if they
are in good condition. The heavy
rains have quite thoroughly soaked
the shocks, and when the Messrs.
Cottrell chanced to examine their
oats the other day they found some
having begun to rot. Examine your
oats and turn the shocks over so as
to expose them to the sunlight and
the air, and you'll be richly repaid
in the saving of your feed.

Hunt's Cure. I used several boxes,
and it finally cured me, and I have
always kept a box with me for fear
it will come back.

TRICKHAM OIL GUSHER.

Effort Made to Keep the Strike Secret Until Well is Capped.

Santa Anna, Texas, June 12.
—Last Monday, June 9th, J. A.
Robertson & Son brought in an
oil gusher in the Trickham field,
and the oil is now spurting over
the top of the derrick. While the
owners of the well refuse to talk
to anyone, and are busy trying
to cap the well, parties from this
place have seen the well and know
that it is a bona fide oil gusher of
large capacity. The Robertsons have
drilled three other wells in the
Trickham field. The gusher brought
in Monday is about a mile north-
west of the other wells in the
field, and is located on the Pitt-
man farm. The depth of the well,
like all other details, is un-
known.

McCulloch county parties who
have visited the Trickham field
since the above report became
known, state that the "find" is
apparently another freak such
as was the oil well brought in
a few months ago. It will be
remembered that oil was reported
coming out of the top of the
derrick at that time, and great
excitement prevailed. The drill-
ers had evidently struck a small
pocket of oil with enough gas
behind to throw the oil out with
great force, and after this pres-
sure had escaped the oil ceased
flowing, and when an attempt
was made to pump the well it
yielded less than a barrel a day.
The last well appears to have
duplicated the actions of the
former, and visitors state that
after the first blow of the gas
the well quieted down and noth-
ing unusual was to be seen
about the well.

THE OAT HARVEST.

D. C. Pence Completed Cutting 375 Acres Monday.

D. C. Pence was in town yesterday and stated that they would complete the big task of cutting his 375 acres of oats by night. This winds up twenty-one days' straight cutting, and best of all Mr. Pence feels sure he will save every bit of his oats. He estimates his oats will average about twenty-five bushels to the acre, the crop running about fifteen to thirty-five bushels, but this is merely an estimate. The thresher will be started at once, and after it has run several days Mr. Pence will be in better position to realize upon his anticipations.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or "in the ears" and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

CORRECT—Attest: J. P. ...

Rufus Adams was here Sunday from Brownwood spending the day with friends.

I. G. Abney returned Saturday morning from his month's visit with relatives and friends in Georgia, and says he never enjoyed any visit quite so much. All his former friends, as well as kin folks, were delighted to see him again and renew the many ties of former friendship. He reports crop conditions very good there, although they have had not so very much rain. He was more than delighted upon his return to note the splendid prospects in McCulloch county, and this latter fact contributed the last portion to the complete success of the trip.

Messrs. H. P. and W. W. Jordan, accompanied by W. R. Davidson and J. C. Clemmons of Melvin, made a trip into the San Angelo country, going by way of Eden. The party was highly pleased with the favorable prospects they encountered all along the way, and state they never saw the country as a whole looking better. Much of the land was reported in first class shape, the rows being clean and the crops having a good growth and healthy appearance, while at other places the crops were full of weeds, the heavy rains having prevented the farmers working out their crops thoroughly. The trip just covered seventy miles each way and was made in 3 1/2 hours going and in the same length of time returning.

Mr. and Mrs. P. A. Campbell returned Saturday from Pecos county, where they spent a week visiting relatives. P. A. is now confirmed in the opinion that Brady citizens have a corner upon the garden spot of the universe, and openly states that he wouldn't trade a jack knife for that country. He reports very little grass there, and what grass there is is mighty poor. Greasewood and scrub mesquites are about all that contribute to the landscape. Nevertheless he reports a wonderfully substantial growth in the town since his last visit some eight or ten years ago, and says the country has made remarkable progress especially during the past three years. One of the prettiest sights he saw was the vineyards, none of which are much more than two years old, but which give great promise for the future.

If it were not for the neighbors' wicked children your little folks might be so good that it would make them sick, mightn't they.

Menard is so well fixed that we can afford bad roads, but what is the use of having such a luxury when there is no pleasure attached to it?

It doesn't make much difference what kind of clothes women wear. After all it is what is in the clothes that counts. If a woman has a real mind, a noble heart and a gentle disposition, she is a real queen, even if she dresses in the very latest style.

Local people are surprised at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, the German remedy which became famous by curing appendicitis. The cyclone season is over, and as there is very little meningitis scare in the state, it may be considered safe to resume swearing and talking about your neighbors. Did you ever notice how good we become on a dark and stormy night, when the raging wind—the unseen air we breathe—exhibits its mighty force, with power to brush man's work from the earth in an instant, or hurl him into eternity? And we forgive our enemies and resolve to do better ourselves as we look into the night and see the terrible lightnings play upon the bosom of the ebon sea above. But when the morning comes, and the sun mounts the eastern sky, we feel strong and brave and irreligious again—ready to beat a debt, cheat a neighbor or flirt with a dream form. And we wonder at our weakness of a short time before, forgetting that a night will come when a passing of the long hours will bring no dawn.

John Holland and others were saturating a bed of grass with gasoline Saturday morning preparing to burn grasshoppers when the gasoline became accidentally ignited and Mr. Holland was very painfully burned. He was carrying a large pan of gasoline and wearing a heavy jump suit, his clothes had become somewhat saturated with the gasoline. He is burned pretty severely most all over the body, and especially over the stomach and legs.

Mrs. Mildred A. Brown, affectionately known in San Saba as Grandma Brown, died at 5:30 o'clock Friday morning on a Pullman car near Amarillo, Texas. She was on her way from Chico, N. M., to San Saba, accompanied by her daughter, Mrs. W. I. Smith, and O. E. Hildreth, a friend and neighbor near Chico. The party was met at Fort Worth Saturday by W. C. Edwards, a son-in-law of Mrs. Smith, and reached here Sunday at noon. Funeral services were conducted from the Christian church.

A petition in bankruptcy was filed in the federal court at Austin today (Thursday) for J. M. Clark, proprietor of Clark's Variety store at San Saba. The petition shows assets of \$7,712.92 and liabilities amounting to \$5,507.69. Mr. Clark came to San Saba from Yoakum some four years ago and opened a stock of variety goods in the Neal building on the north side of the square. Last year he moved to one of the new Clark fronts on Wallace street. Mr. Clark was mayor of the city

from 1911 to 1913 and has taken a live interest in the progress of the town.

Congressman Jas. L. Slayden writes Postmaster Hill that the chances to get a Sunday mail clerk on the Lometa to Eden Santa Fe line are extremely slim. The authorities at Washington claim that before the clerk was taken off all the postmasters along the line were consulted and every postmaster except at San Saba agreed that it would be all right to take the clerk off. We do not deny this, but we do say that if it is a fact then some of the postmasters along the route are very easy to please and are showing very little regard for the accommodations of their patrons. The first suggestion of a protest against this injustice came to the editor of the News from the business men of Richland Springs, and if the postmaster there has made this representation to the postal authorities there is evidently a mixup somewhere. The News believes that the people at the San Saba office are entitled to as good service in the handling of their mail as other people who are similarly situated. It's likely that Brady gets clerk service over the Frisco road and hence they are very little discriminated. All we want is what is right and what other people are getting, and "by Gatins," we are not going to feel satisfied until we feel like we are getting it.
