The program has been completed and contains brief talks by some of the best journalists in Texas.

OPERA HOUSE OPENING.

Immense Crowd Attends First Performance.

The audience which greeted the first performance at the Brady opera house last night was all that could be desired by the management, and the applause with which the first offering was received more than made up for the few vacant chairs to be seen over the house.

The program of pictures was one of the best ever witnessed in Brady, the feature being "For the Honor of Old Glory" or "The Stars and Stripes in Mexico." It is a good story, well acted and well received.

The new opera house is a model, and something entirely new in construction. The building is 30x100 feet and has a seating capacity of about 700. In the foyer is the box office on one side and a confectionery stand on the other. Inside the auditorium the management has given special attention to ventilation, having constructed the walls of the building in such a manner as to permit large sections being removed, thus converting the building into an air-dome. Six large ceiling fans have been installed, and the auditorium is one of the most comfortable places in the city in which to spend an evening.

The crowd attending the performance last night is estimated at 500.

Slayden For Congress.

In the proper column of this issue will be found the name of Hon. Jas. L. Slayden of San Antonio as a candidate for Congress from the 14th district, his candidacy being subject to the action of the Democratic primary July 25th.

Mr. Slayden has served this district during the 53th, 59th, 60th, 61st, 62nd and 63rd congresses, and that he has served faithfully and well is the claim of his friends throughout this section.

He asks a careful consideration of his claims for re-election at the hands of the voters in the July primary.

Elects New Officers.

Brady Lodge No. 623, A. F. & A. M., at their regular monthly meeting last Thursday night elected officers for the coming term as follows:

John M. Plummer, W. M.
S. H. Mayo, S. W.
M. P. Wegner, J. W.
W. J. Yantis, Treas.
J. F. Davis, Secretary.
John Moffatt, Tiler.

The appointed officers will be named by the Worshipful Master at a sequent meeting. The newly elected officers will be installed at the first meeting in July.

Llano County Goes Wet.

The election has come and gone, the antis won by 76 votes and now within a short time will the open saloon be in evidence in Llano town.

The saloons closed their doors in this town on June 20, 1905, and our guess would be that they will open about this date 1914. Of course, this is only a guess.

The commissioners court will meet on June 10 and canvass the vote, while it will pass an order declaring that Llano county has chosen anti-prohibition. As soon as this order has been recorded by the county clerk, Llano will again be a wet town and those desiring to enter the saloon business can then make application to the comptroller for license. Just how long it will take to secure the license is a matter of speculation but the general opinion of those in the best position to know, think it will be about thirty days before the saloons will be doing business here.

Saturday was a busy day and perhaps the biggest vote ever polled in the county was recorded then. There were 1204 votes cast in the election.

The large gain made by the antis is attributed to several reasons. Some say the Allison liquor law, prohibiting liquor from being shipped into dry territory is responsible; others say it was the perfect organization of the antis, while still others attribute it to other reasons, yet be what it may, Llano county went wet by a good vote and the cause of the change is a matter of small consequence.

The pros gained four or five votes at both Valley Springs and Pond Creek and made a percentage gain at Castell. At all other boxes the antis made gains. Some small, others large.

The election is now recorded history. By a majority vote the sovereign voters of this county, the desire has been expressed in favor of the open saloon. Therefore, whether we be pro or anti, let us unite in the work of advancing the interest of our county.—Llano News.

Big Picnic at Tucker.

Arrangements have been perfected for a big picnic to be pulled off at Tucker Saturday and a big time is in store for those who are fortunate enough to be able to attend.

The hospitality of the Tucker folks is well known throughout the county, and the announcement of the event is assurance of a good time.

In connection with the usual picnic and barbecue attractions will be the closing exercises of the Tucker school. The school has enjoyed one of the most profitable terms in its existence, under the able direction of Will Marsden, and the exercises will be a feature of the day.

Plenty of barbecue will be provided by the people of Tucker for all who come, and a general good time is assured. A special invitation is extended to the candidates.

Sister Dies at San Saba.

Judge F. M. Newman was
 called to San Saba yesterday in
 response to a message advising
 him of the critical illness of his
 sister, Mrs. Nannie O. Searin.
 A telephone message from Mr.
 Newman this morning was to
 sister, Mrs. Nannie O. Shearin.
 She passed away last night shortly
 after his arrival there.

Mrs. Shearin was 40 or 50
 years old at the time of her
 death, and has made her home
 at San Saba several years. She
 has been a sufferer from tuber-
 culosis for some time, and this
 dread disease was the imme-
 diate cause of her death.

Surviving members of her
 family are two children, who
 made their home with her in
 San Saba, her husband having
 been killed several years ago at
 Smithville by a negro who he
 was attempting to place under
 arrest.

The body was shipped to
 Smithville today, where inter-
 ment will probably take place
 tomorrow.

Mining Not Dangerous.

Austin, Texas, June 6.—
 State Mine Inspector S. J.
 Bowman has just completed a
 tour of inspection of Texas coal
 and lignite mines and he is
 well pleased with existing con-
 ditions.

In a recent interview Inspec-
 tor Bowman said: "I think it
 due the coal and lignite produc-
 ers of Texas to state that with
 very few exceptions I have
 found them lawabiding and will-
 ing to assist in 'safety first'
 in the coal and lignite mining in-
 dustry of this state. During my
 term of office I have received
 the hearty cooperation of the
 coal operators in reducing the
 hazards in coal mining in Tex-
 as, and during the last year
 only five fatal accidents were re-
 corded in the entire state."

An Important Bill.

Fort Worth, Texas, June 6.
 —A bill is now pending in con-
 gress known as the Newland
 Bill S. B. 4160, same being a
 provision creating an Inter-
 state Trade Commission.

This bill, if passed, will com-
 pletely revolutionize the pres-
 ent methods of commercial ac-
 tivities in the union, and it af-
 fects every corporation large or
 small, that does an interstate
 business.

One example of the bill is
 given: It requires every cor-
 poration that seeks a charter to
 apply to this Interstate Trade
 Commission, the same being
 located at Washington.

Other marked departures,
 such as a requirement that ev-
 ery corporation may have its
 books, accounts, correspondence,
 etc., etc., examined by agents of
 this Trade Commission at will.
 Protests are going to con-
 gress from every section of the
 union, protesting against the
 passage of the bill.

DE LAVAL
 Cream Separators
ARE TIME TESTED

Every little while you hear of some brand new cream separator, claiming to be a "world beater" and just as good as the De Laval but a little cheaper. These "mushroom" machines stay in the limelight only until they are "found wanting" by the users and in a short time drop out of sight.

It takes years of experience to build a "good" cream separator. More than 50 years of experiments and experience have made the De Laval preeminently the best machine on the market for the separation of cream from milk.

If you buy a De Laval you run no risk of dissatisfaction or loss. It's time tested and time proven. Why experiment? Why take chances with an inferior machine when you know that the De Laval is the best machine for you to buy.

If you are thinking about buying a separator we will consider it a favor if you will permit us to set up a De Laval for you on your own place and have you give it a fair trial.

HELPLESS AS BABY

Down in Mind Unable to Work,

Summit Point, W. Va.—Mrs. Anna
 Belle Emey, of this place, says: "I suf-
 fered for 15 years with an awful pain in
 my right side, caused from womanly
 trouble, and doctored lots for it, but with-
 out success. I suffered so very much,
 that I became down in mind, and as help-
 less as a baby. I was in the worst kind
 of shape. Was unable to do any work.

I began taking Cardui, the woman's
 tonic, and got relief from the very first
 dose. By the time I had taken 12 bot-
 tles, my health was completely restored.
 I am now 48 years years old, but feel as
 good as I did when only 16.

Cardui certainly saved me from losing
 my mind, and I feel it my duty to speak
 in its favor. I wish I had some power
 over poor, suffering women, and could
 make them know the good it would do
 them."

If you suffer from any of the ailments
 peculiar to women, it will certainly be
 worth your while to give Cardui a trial.
 It has been helping weak women for

Mr. Schwenker knows the business of making a country newspaper from the devil's job to the editor's effusions and the business manager's diplomatic and complex stunts. He is pleasant and congenial, winning for friends all who are so fortunate as to meet him. The Westminster Chimes

AT THE COMMERCIAL NATIONAL BANK

Everyone who has lived within the sound of the bell of Westminster is familiar with the verse given below. The origin of the carillon has never been positively established. Some writers accredited it to a M. Crotch, who was a pupil of Dr. Randall, Regius Professor of Music. This, however, is disputed by other writers, who accredited it to Dr. Randall's conception of the idea taken from a movement in the fifth bar of the opening of Handel's Symphony, "I know that my Redeemer liveth." The chimes were first fitted to the clock of University church, St. Mary's the Great, in Cambridge, and were long celebrated for their simple harmony, but were never copied until they were reproduced on a very large scale in the Victoria Clock Tower of the Houses of Parliament.

...ng and successful banking house.

Twenty years of prosperous banking, growing stronger and
...larger and larger every month, made possible only by
...on. We want to show our appreciation in a substan-
...ded to install something of public utility, something
...ne general public—a clock and chimes, a real good
...es are soft and beautiful; nothing superior has been
...ld world or new.

Installation has been completed and the clock has begun
...with the full Westminster chimes, 16 bells playing this

Lord, through this hour
Be thou our guide
So, by thy power
No foot shall slide

after which it will toll the hour of the day at the quarter past, half
and three quarters past the hour. These chimes will ring out in vari-
ous musical combinations: quarter past the hour, Westminster four
bells, at half past the hour, eight bells—Reveille; at three quarters
past the hour, twelve bells, cathedral peal; all in a clear vibrant,
soft tone heard through all the noise and bustle of the busy street.

It is the hope that the chimes will mean something to all of our
people. That they will have a message for the youngster on his way
to school; a thought for the business man who hustles through his day,
content on nothing but the picking up of a few dollars; a solace for
the old.

All the preaching is not done in churches. The sermon which
once a week does not always last through the six days of our
life and turmoil and stress of the strenuous life. Every hour of
the chimes will be sounding their message—the note of warn-
ing in time; the chime of rejoicing; the lament, in time of sor-
row; the chime will be all things to all men, for it is going to be-
long to us alone, but to the men, women and children of the
city.

The new chime is intended to make you think whenever you
hear the chime rising out of the noise of the city streets. It will be
a benediction in resounding metal; a benediction set in harmonious
tones.

What will the message be? That depends entirely upon you.
What will you interpret what the chimes say. What is it that gives notice
of the bell. What furnishes the music for the bride and
groom? The bell. What counts the years of man's life when his
steps are following him through the streets? The bell. Always
