Painfully Scalded.

J. K. Shelton, a prominent farmer of the Lohn community, suffered painful burns on his left hand yesterday afternoon while enroute to Brady in his auto.

In the Cow Gap community a bad stretch of road was encountered and it was necessary to run the car in low speed for a distance of about a mile. The water in the radiator became hot, and upon reaching a well Mr. Shelton decided to add more water and allow the engine to cool off before continuing his journey. Upon unscrewing the radiator cap the steam and boiling water enveloped his hand, severely burning the fingers and back of the hand.

Upon reaching the city the injuries received prompt medical attention, and no serious results are anticipated as a result of the peculiar accident.

To Water and Light Customers.

Water and light rentals for the month of July are now due and payable at the office, Room 5, Brady National bank building, and if not paid on or before the 10th service will be discontinued without notice. A penalty of \$1.00 will be charged for turning on service when discontinued.

J. M. LYLE, Supt.

Soudan Grass.

W. M. Johnson of Lohn was here yesterday exhibiting a sample of Soudan grass which he had grown on his place this year. Mr. Johnson planted two acres of this grass on May 28th, and has only had one rain on it, but the crop has attained an average height of about five feet.

Soudan grass is something new in this section of the state, the seed having been secured last year by Secretary Grant of the local Commercial club, and distributed among the farmers who would agree to give it a fair trial. By its superior drought-resisting qualities it is proving one of the best forage crops for the semi-arid sections, and is said to excel both Johnson and prairie grass as a hay.

SAN SABA SAYINGS

From The News.

The Lackey men, W. F. and G. C., were in town Saturday with about the most striking span of mules it is often one's pleasure to see. This is a span of two year old black mare mules. One brother raised one of the mules and the other the next. Saturday the mules were placed on the scales and balanced in the same notch. The measuring stick was placed beside them and they measured in the same notch. They weigh each 1170 pounds and are 16 hands and 3 inches high. They are simply beauties and will be on exhibit at the fair next week. They are worth seeing and especially so those who take a delight in raising and seeing good stock.

The second primary will be held Saturday, Aug. 8th. Let every citizen go to the polls and vote. Your friends need your help now as bad as they did in the first primary.

Picking Up the Loose Business

Building up a business is largely a matter of picking up the loose trade.

Every business man has a certain amount of trade that is assured. He hopes to build up his business, however, by serving the occasional customer well, and adding him to his permanent list.

The telephone furnishes one of the easiest and surest means of getting and holding the occasional customer.

The WEST TEXAS TELEPHONE subscribers in your vicinity represent an enormous buying power, and you should make it convenient for them to deal with you by having adequate telephone facilities in your place of business.

This is only one of the almost countless uses of the telephone.

VACATION.

When we drew our wages last week Martha took the money and left for the seashore. We thought she was going the previous Saturday, but when the time came she said it would take another week to pack. It is terribly lonesome when a fellow's wife is gone away from home but of course a man is willing to put up with that awful loneliness in order he may enjoy herself. He can read to pass off the time, occasionally he can drop over and spend the evening with his pastor, and in many similar ways he can battle against despair. Especially is he comforted when he receives a letter. We were nervous when we received the first one—were afraid something might have gone wrong, but it was just as cheerful as you please. It said—but we have it here, and you can read it for yourself: "I arrived here yesterday, but after buying postcards and addressing so many of them, I didn't have time to write. Made the trip just fine, but lost my hat out of the car window and had to buy another. This took the money you gave me for the hotel bill and you will have to send me \$5 more by Saturday. Haven't been to the beach yet, but am going this evening. Say, I need another white dress. All the women I see have white dresses, and I can get a lovely one that just suits for \$11.98. Send this with the other. The breeze is just lovely. It blows my hair to pieces. And say, I need a new maxixe pin. All the women here have lovely ones. The one I like costs \$4. It is perfectly lovely, and I can still use it after I get home. Move the fern out of the dirt, take a fork and stir up the dirt around the begonia, and water the moonvines. I can get a lovely new bathing suit for \$6.68, and I don't see how I can get along without it. Turn the chickens out in the evening, but mind them off the periwinkle bed. I drew a draft on you today for \$11 to pay for some little things I had to buy. The man at the bank made out draft and I had nothing to do but sign my name. When you take a meal in town, be sure and carry something home for the cat. I packed up in such a hurry that I put your underwear in the trunk. I would send it, but am trying to be as saving as possible, and it seems such a waste to pay out the postage. Send me the little trunk so I can pack the souvenirs in it when I start home. There is no room in this trunk. Send me some car fare." The balance of the letter was of a sentimental nature, and she

building locked up the balance of the time to go to pieces for lack of attention, and is advocating the use of the school house at least two nights in a month, if not oftener, as a social center gathering place. This idea is shared by quite a number of communities in several sections of the State, and their school house during vacation times is often the scene of very enjoyable entertainments.—Bowie Blade.

It is all true. The school house should be the community's social center. A school house should be something more than four square walls wherein the young idea is taught marksmanship. In the first place the school house should be attractive itself. It should be substantial, like a good man; it should be ornamental, like a

good woman; it should be weatherproof, like a good home; it should be surrounded by refinements, like a good family. The school house should have trees and a green lawn on all sides of it. It should have a hospitable, sheltering aspect to draw the grateful interest of those for whom it exists, for instinctively mankind is drawn toward friendly appearing structures. Too

many school houses are severe, forbidding, bleak, ill-conditioned. The children approach them without enthusiasm and flee from them with gratitude. Naturally such a school house handicaps its patrons, both teachers and pupils. And equally it will handicap those who endeavor to use it as a social center. Improve the school, and automatically you improve the school children and the school neighborhood. Then make it useful for social as well as scholastic purposes, and you will have accomplished a betterment whose influence will mark the present and many unborn generations.—Dallas News.

WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my housework.

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the woman's tonic, and I am not bothered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

Texas Mine Accidents.

Jacksboro, Tex. July 31—Texas has fewer coal mine accidents than any other state in the union, and during last year's operations, only two fatalities were recorded as compared with eight fatal accidents for the year previous. Each year approximately 2,500 coal miners meet with violent death in the United States while on duty.

In 1910 there were 2,840 coal mine fatalities in the United States, 12,719 in 1911 and 2360 in 1912. The death rate per 1000 men employed was decreased from 4 to 3 during the past three years.

The coal mine owners and workers of Texas have led the nation in the inauguration of "Safety First" campaigns and to their efforts much credit is due for the reduction of hazards of coal mining in this state.

PROPOSED AMENDMENT TO THE STATE CONSTITUTION, AMENDING ARTICLE XI, SECTION 7a, OF THE CONSTITUTION—PROVIDING FOR THE AUTHORIZING COUNTIES BORDERING ON THE GULF OF MEXICO TO BUILD SEAWALLS.
(S. J. R. NO. 22.)

Senate Joint Resolution
To amend Section 7 of Article XI of the Constitution of the State of Texas authorizing the counties bordering on the Gulf of Mexico to build sea-walls by adding Section 7a, so as to authorize such counties to build sea-walls and designate sea-wall reclamation districts for the protection of life and property from storm overflow, and to build or condemn land for sea-wall and reclamation districts, the county to have State's title to the roads and bay shore line to low tide within the districts, and the right to issue district bonds for acquiring and developing the district and building the sea-walls, and when district is developed as townsite to sell such portions of the land as not reserved for public use by the county.

Be it resolved by the Legislature of the State of Texas:
That the following amendment to the Constitution of the State of Texas be proposed to the voters of the State of Texas for their adoption in accordance with law, and that the Constitution of the State of Texas be amended so as to add Section 7a of Article XI, and that Section 7a of Article XI shall read as follows, to wit:
Section 7a. Where protection against the waters of the Gulf of Mexico is needed for protection of life, health, property or the sea-wall, any county bordering on the Gulf of Mexico may acquire title to the land for said sea-wall or sea-wall reclamation district as designated by the county Commissioners' court by purchase or condemnation of all the land desired for sea-wall and land for the sea-wall reclamation district from the sea-wall reclamation district from the bay and the State hereby cedes to the county, for such district, for reclamation and general uses of the district, the title to bay shore land in the district between the property line boundary and the low tide line of the bay shore, and any land in the reclamation district that may have been retained by the Republic of (or) the State for roads when the lands adjacent were platted and sold, and the county is given the right to dredge in the bay or gulf for fill for the district, and right to sell the land when reclaimed and laid off as townsite or otherwise, and where condemnation is used to acquire the land the proceedings to be as under the Statutes for condemnation for railroads, provided that the condemnation shall vest the title in fee in the county, and county may issue bonds or other evidence of district indebtedness for acquiring the property, building the sea-wall, reclamation developments and all incident thereto as expenses of seawall and reclamation district, with lien on land and such terms and conditions as county, through its commissioners' court may deem best, and the county commissioners' court shall appoint two persons who are owners of land within the district, and who desire to sell for reclamation and buy back from the county when reclaimed, who, with the county judge as chairman, shall continue a sea-wall reclamation district commission, whose compensation shall be fixed by the court, and this commission has power to make all rules and regulations for acquiring the land of district sea-wall building, reclaiming and plating land of district, issuing bonds or other evidence of indebtedness for same, subject, however, to all such rules, regulations and acts of the commission being authorized and approved and ratified by county commissioners' court. The district must bear all expenses of sea-wall and purchase of the land and expense of filing (filling) same and other expenses, and the same shall not in any way involve the county or be a basis for a tax by the county on general lands of the county unless authorized by a vote of two-thirds of the property taxpayers of the county voting at a special election thereof. It is further provided that any owner of land in a proposed district may subscribe and pay for the district commission, when organized, as the pro rata of his land of the expense of the wall, reclamation, plating as town lots on a basis as such area of land is to be the whole land of the reclamation district and sea-wall, and at any time before the completion of the district may surrender the bonds and receive from the county a bond title for his land in town lots, less streets and alleys deducted therefrom, for which on surrender deed may be demanded from the county after the district is walled, filled and platted into streets, alleys and lots, and bonds so bought shall so provide. It is further provided that no district shall be formally designated by the county commissioners' court until owners of at least one-half of the proposed area of district petition thereof and subscribe out for bonds for repurchase from the county as herein provided. This amendment may be acted on without delay of legislation in aid thereof or legislative action may be had in furtherance thereof if desired by the county acting through its commissioners' court.

Be it further resolved by the Legislature of the State of Texas:
That the foregoing proposed amendment to the Constitution shall be submitted to the qualified voters of the State of Texas for their ratification and adoption at an election to be held throughout the State on the second Tuesday in November A. D. 1914, and at such election those favoring the ratification and adoption of said amendment shall have written or printed on their ballots: "For the amendment to Article XI, Section 7a, of the Constitution providing for authorizing counties bordering on the Gulf of Mexico to build sea-walls;" and those opposing the adoption and ratification of said amendment shall have written or printed on their ballots, "Against the amendment

to Article XI, Section 7a, of the Constitution providing for authorizing counties bordering on the Gulf of Mexico to build sea-walls." Summer Constipation Dangerous.
Constipation in summer time is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much cold water during the hot weather, thus injuring your stomach. Colic, fever, ptomaine poisoning and other ills are natural results. Po-Do-Lax will keep you well, as it increases the bile, the natural laxative, which rids the bowels of the congested poisonous waste. Po-Do-Lax will make you feel better. Pleasant and effective. Take a dose tonight. 50c at your druggist.

An item published in last week's Standard regarding a pair of fine San Saba county mules to be exhibited at the fair in San Saba this week has served to call attention to the fact that McCulloch county is "some punkins" herself when it comes to producing fine mules. P. D. Jordan, one of the prominent and progressive farmers of the Lohn valley was in the city Wednesday driving a span of mules that would compare favorably with any thing in the state. The animals are three and six years of age, are the same height and only fifteen pounds difference in their weight one weighing 1255, while the other tips the beam at 1240.

The team is one of the best seen here, and their owner is justly proud of them.
