#### SCHOOL OPENS SEPT. 7.

##### Everything in Readiness for Opening of 1914-15 Term.

At a meeting of the school board on Thursday night of last week the time for opening of the 1914-15 term of school was set for Monday, September 7th.

Considerable work has been done during vacation on the High school building, the upper story of which has never been finished, and these improvements will give much added room for classes, the lack of which last year proved a serious handicap to the faculty.

Aside from routine matters, the board accepted the bid of the Commercial National bank as a depository of the school funds for the coming year. The bank's bid was 6:30 per cent on average daily balances.

The faculty this year shows four new members and consists of thirteen capable and efficient instructors. They are as follows:

W. L. Hughes, superintendent. F. P. Phillips, principal of the High school and instructor in Science and Mathematics.

Mrs. W. B. Anderson, History. Mrs. Mildred Stout-Williamson, English.

Miss Una Marie Hall, Latin and Spanish.

Mrs. F. P. Phillips, principal Central school and instructor of seventh grade.

Miss Musa Irby, sixth grade. Miss Jewel Caperton, fifth grade.

Miss Lena Carroll, fourth grade.

Miss Winnie Stout, third grade.

Mrs. F. A. Knox, second grade. Miss Gertrude Stout, high first grade.

Miss Inez Butler, low first grade.

#### To Water Patrons.

It has been decided by the Board of Managing Trustees of the waterworks department to discontinue the practice of making a charge for rent on water meters as heretofore. In future the minimum charge for water will be \$1.25 per month, regardless of whether you have a meter or not. No meters will be sold, and we will buy all outstanding water meters now owned by our customers.

BRADY WATER & LIGHT CO. J. M. LYLE, Supt.

Tom Ball, the restaurant man, is back in this fair Brady land. Come to see me when you can, and bring along some other man. You will find me always on hand, always looking for some hungry man. Open early and late. Always with an open gate.

#### At the Methodist Church

The fourth Quarterly Conference for the year will be held at the Methodist Church next Saturday, at 8:30 p. m.

All the official members of the church are requested to be present. Stewards and Trustees should have their reports ready to present so that business may be transacted without delay.

Reports from the Woman's Missionary Society, showing the number of members in each department, Home and Foreign, with the amount of money that has been raised for each department since the first of last November. Also the amount expended in local work on church and parsonage.

Rev. F. B. Buchanan will be here to conduct the conference and will preach for us on Sunday at 11 o'clock. It is to be hoped that all the members of the church will be present on Sunday morning. The sacrament of the Lord's Supper will be celebrated at the close of the morning service. A cordial invitation is extended to all to attend these services.

I. T. MORRIS, Pastor.

Miss Pinkie Jones will teach music at her home, on North Bridge street, three blocks east of Brady High School. Phone 169.

#### Jolly Camping Party.

Complimenting Miss Ozelle Gooch of Navasota, a camping party was given at the H. P. Jordan summer camp two miles west of the city Monday night.

The young people were chaperoned by Messrs. and Mesdames W. W. Jordan and Geo. Yantis, and the occasion proved most enjoyable.

Those in attendance were Messrs. and Mesdames W. W. Jordan, George Yantis; Misses Gladys Yeager, Lucile Yantis, Erin Yantis, Mozelle Glenn, Olga Schaege, Mary Johanson, Carrie Berry, Ozelle Gooch; Messrs. Fritz von Rosenberg of Hallettsville, Sam McCollum, S. P. Boone, Charlie Yeager, Ike Rainbolt, Ben Moffatt.

The party returned to the city early Tuesday morning.

#### To the Public.

I will take charge of the old F. Haberer Boot and Shoe shop next Monday, Aug. 31, and would be pleased to have a liberal share of the business of the citizens of this section when in need of first-class boot and shoe repairing, or shop-made boots and shoes.

I have had many years experience in the business and am fully prepared to care for your wants entirely to your satisfaction.

Respectfully,  
D. M. PORTERFIELD.

**WHEN YOU ARE NERVOUS**

you have the first symptom of a run-down system, and nervous people too often conceal their aches and pains and suffer in silence, while, if neglected, this condition often foreruns more serious trouble.  
If those so afflicted would stop taking medicine containing alcohol or drugs which menace the foundations of health, and just take the pure, strengthening nourishment in Scott's Emulsion, it would create new blood to pulsate through the organs, refresh their bodies and build up the whole nervous system. It is rich, sustaining nourishment, free from wines, alcohols or drugs. Shun substitutes.

**READ THE DICTIONARY TWICE**

Gen. Caleb Cushing Noted as One of New England's Most Learned Savants.

To illustrate the abilities of Gen. Caleb Cushing, one of New England's famous men, a writer in the New York Sun vouches for the following remarkable feat. It was in the fifties that the publishers of Webster's Dictionary requested General Cushing to write a friendly notice of the work. General Cushing replied that he had read it and that if they expected complimentary notice of a work that contained five thousand errors they would be disappointed. The publishers replied that if he would prove his statement to the satisfaction of the editor, Professor Porter of Harvard, they would believe him. Thereupon he read the dictionary through a second time and mailed a list of five thousand errors to Professor Porter. This extraordinary achievement, declares the writer, justifies the statement made in 1876 by Wendell Phillips, that he considered General Cushing to be the most learned man of the day.

**PROFESSIONALISM**

The Tough One—I'm tellin' yous, now; I ain't goin' to wiggle me ears nor cuss fer yous nor spit t'ro me teeth until you digs up two cents!

**CONVICT AN INVENTOR.**

There is now at the prison La Sante a criminal who does not occupy his time writing memoirs or in making verses. This is Victor Cras, condemned to death for having assassinated a perfumery girl in the Rue Mozart. He is occupied with aviation and has discovered a new aeroplane system, of which he has made minute drawings. This system would make, he claims, speed of 500 kilometers an hour (about 313 miles), and is destined to revolutionize the aeronautic art. Knowing without doubt, the brutal response given by the president of the revolutionary tribunal to Lavoisier, "The republic has no need of savants," Monsieur Cras will not ask any delay in order to complete his work. He has confided his plans and the continuation and completion of his work to Maitre Emile Doublet, his advocate.—Le Cri de Paris.

**BREAKING INTO SOCIETY.**

"I want you to take some pictures of the wedding," said the prospective groom.  
"Very good," said the prospective photographer.  
"And also have a couple of phony cameras along for me to smash."

**IN THE MARSHES.**

"What makes you stand on one foot and move your shoulders in that way?" asked the snipe.  
"Well," replied the crane, "there's no chance of my learning to sing, so I'm practicing to see if I can't become a classic dancer."

**THE REASON.**

"Most of these feminine societies against matrimony go to pieces."  
"That's because they are generally miss-managed."

**IF HER PARTNER IS CLUMSY.**

"He who dances must pay the fiddler, you know."  
"Yes, and she who dances must with the chiropodist."

**HAPPILY PUT.**

Cholly—Is this horse intelligent, me good fellow?  
Groom—Very! Look out he don't kick you, sir!—Puck.

**FIRST SHALL BE LAST.**

She—Marry you? Why, you'd be the last man on earth I'd marry!  
He—I hope so, if I'm to be the first.—Stanford Chapparral.

**PLANTS THAT FOLD IN SLEEP**

Clover Droops Before Rain and at Night, Some Flowers During the Day.

Clover shuts its leaves before rain and at night, bringing two of its three leaves face to face and folding the third over the top. The young blossoms are also carefully sheltered by inclosing leaves which move forward in the evening and wrap them round.

There are two plants in the garden whose flowers sleep by day—the night-blooming stock and Lychnis vespertina. The former is withered and shriveled in daylight, but expands and exhales a vanilla-like odor at night. The Lychnis is white, and in bright sunshine every flower closes and hangs limply down.

As the sun sets this Endymion plant awakes expectant of the moon. The drooping calyxes raise themselves and slowly expand their flowers; it visibly ceases to droop and fade, and the plant, which almost died by day, is adorned anew. Its sister, the red Lychnis, shines by day and is called diurna, but this white one has long left the beaten ancestral path and has become vespertina.

As it opens small flies appear and visit it; the calyx is of that reddish hue which they approve. The sundew which attracts flies shows the same dull red in its leaves. It is not a rarity, but few have seen its blossoms opened.—The Scotsman.

**WHY NOT?**

Howard—He's crazy on the subject of aerial navigation.  
Hattie—A balloonatic.

**THERE WAS A REASON.**

Somebody remarked that many an innocent act hid an ulterior motive. Recently, according to Senator William P. Jackson of Maryland, a sturdy citizen was sitting on the front porch trying to talk to a friend who had called to see him. Within the parlor the piano was going at a speed to rip up the rails.  
"Say, Jim," said the caller on the front porch, bending toward the other in order to make himself heard, "is that your daughter playing the piano?"  
"Yes," replied the sturdy citizen, with a covert smile. "Some music, ain't it?"  
"It certainly is," admitted the caller. "Does she always play so strenuously as that?"  
"O, no," replied the parent. "You see she has got a young man in the parlor, and she is pounding out that music so as to drown the sound of her mother washin' the dishes."—Rehoboth Sunday Herald.

**NEVER THOUGHT OF IT.**

"Your honor," said the arrested chauffeur, "I tried to warn the man, but the horn would not work."  
"Then why did you not slacken speed rather than run him down?"  
A light seemed to dawn upon the prisoner. "That's one on me," he said, "I never thought of that."

**IN THE POLICE COURT.**

Visitor—How pinched these poor creatures look!  
Officer—Of course, they're pinched. That's why they're here.

**SUPERFLUOUS.**

"Why don't you have recitations in history?"  
"Quite unnecessary. History repeats itself."

**RATHER MIXED UP.**

"Do you suppose it would be good policy to reply to the charge?"  
"No, I am afraid a reply wouldn't answer."

**THE LANGUAGE.**

"That fellow is always chaffing, isn't he?"  
"Yes. I tell him he is really a chaffeur."

**Getting Attention!**

BRADY, TEXAS, Aug. 21, 1914.

Col. Rufus J. Lackland, the well-known real estate auctioneer, conducted a sale in Brady Saturday, is a booster and a builder of the sort with whom we delight to meet. In the course of his remarks to the crowd he emphasized the importance of co-operation between the home merchant, the farmer and the newspaper as against the mail order houses, in building up the town and developing the surrounding territory. He advised the farmer where it was in his own interest to take his advertising in the county paper, and with equal force demonstrated the importance of the home merchant utilizing liberal space in the newspaper to present his business to the people. The one whose advertisements should and do receive the most effective is the one who practices what he preaches. Col. Lackland not only reaches a liberal use of newspaper advertising, but practices it during his many years' experience as a sale promoter has always found that the results obtained have more than justified the expenditure.

One of the biggest cotton crops in the history of the county is now assured, and almost ready for gathering. Mexican cotton pickers are pouring into the county from all directions, and there will be no dearth of helpers when the harvest is ready. To meet the requirements of the big fall trade, the merchants of Brady have prepared with large and varied stocks of the latest in their lines. These merchants buy as cheaply as do those of any other section of the state and are satisfied with as small a margin of profit as the average merchant. These things are true, then there is no necessity or even an advantage for you to go elsewhere to your trading.

The Standard acknowledges receipt of an invitation to attend the No-Tsu-Oh Deep Water Festival at Houston, November 9-15, and are sorry to inform the management, but we are not going. A town which has nothing more than the way of attractions than water, and then wants the people to come see it in the dead of winter—when it's too cold to go or go swimming either—is nearly out of attractions. Water is all right for some things, but it is not such a curiosity in West Texas this year to cause us, to separate from sufficient quantity of our immense wealth to travel as far as Houston just for a sight of it.

### "THE BUZZING NUISANCE"

(By Dr. Ralph Steiner, Austin, State Health Officer.)

Mosquitoes have caused 200 deaths in Texas during the past twelve months; this number of Texans have died from malaria during this time.

The mosquito is known in its various species to be the host and disseminator of malarial diseases, and in certain localities, of yellow fever and other germ diseases. It is known also to breed only in stagnant water, and its presence in any community is an evidence of sanitary neglect. The success which has followed energetic endeavor to be free from mosquitoes—both malarial and ordinary—certain localities on Long Island and in New Jersey show that any com-

munity can be rid of this buzzing nuisance. Of the thirty odd species of mosquito known to exist in the Eastern States, but one or two fly to any considerable distance. Breeding places, therefore, may best be looked for immediately about the premises affected. A hoof print, a choked roof gutter or rain spout, a discarded tin can, a little puddle, an unscreened cistern, a leaky green house of flower pot, a fish pond—any of these may in a week or two in hot weather afford breeding opportunity to a horde of offensive mosquitoes. To screen the house is an excellent method of defense, but a better method is to prevent the breeding of the mosquito by drying up the stagnant pools, or by covering with a thin film of petroleum the water-holding vessels which cannot otherwise be

treated. It is a mistake that trees and shrubbery afford breeding places for mosquitoes. Blair in "Public Hygiene" asserts that "in no case is this true, but it is true that when mosquitoes have been bred somewhere thru the provision of the necessary stagnant water, the trees and shrubs afford comfortable lurking places for them."

### WILL ATTEND CONVENTION

Ft. Worth, Tex., Aug. 25. — Real farmers—the kind that live in the country and will work out their own problems, as boys in the hot sun and the cold rain, are coming to Fort Worth in hosts from the four corners of the land to attend the tenth annual convention of the National Farmers' Union that opens on September 1. Suburban gardeners have worked out idealistic country life plans for them and economists are weaving schemes for them to get rich quick, but the cream of the real farmers of the United States will settle their affairs for themselves at this convention.

There never was a national farmers' convention before perhaps, that was equal in importance to the approaching Fort Worth convention, according to National President Charles S. Barrett of Union City, Ga. who was here recently to arrange for the convention.

In his call for the convention President Barrett said, in part:

"This promises to be the greatest meeting ever held by the organization. The entire nation has been aroused over what most people are pleased to call the 'rural problem.' Naturally everyone looks to the organized farmer for his O. K. of the solutions offered. The personnel of the Ft. Worth meeting will be made up of men capable of advising, and no member who can possibly come should deny himself the pleasure of attending this meeting."

**Count This Week Shows Mrs. Grover Chambles in Lead.**

The voting in the contest for the Claxton Piano to be given away by Jones Drug Co. has been heavy during the past week. The count, which was made yesterday afternoon, shows Mrs. Grover Chambles of this city to have a safe lead over all other contestants, although a very substantial gain was made by Mrs. Belle Stearns and Mrs. Tom Donnell.

Following is the standing of the various contestants as shown by this week's count:

If your child is pale and sickly, picks at the nose, starts in the sleep and grinds the teeth while sleeping, it is a sure sign of worms. A remedy for these parasites will be found in White's Cream Vermifuge. It not only clears out the worms, but it restores to health and cheerfulness. Price 25c per bottle. Sold by all druggists.

We have purchased the stock of the Craddock Grain Co. and will consolidate same with our present stock and continue the business at our old stand. We will appreciate a liberal share of your business. C. D. Allen Grain Co.

### Prohibition Doomed!

After 64 years of activity by the friends of prohibition the average American today consumes almost six times as much liquors as did the average American of 1860. In spite of this there is less drunkenness. With this wonderful change for the better, prohibition has had nothing whatever to do. The real reason is found in the fact that today there is a vastly greater amount of beer consumed. And beer is not conducive to drunkenness.

Prohibition is a failure and has had but one effect wherever tried: to put a ban upon the open and above-board drinking of beer and other light beverages and to drive men to secret, immoderate drinking of the strongest stimulants. This is notably true of Maine, a prohibition state. There is ten times as much drunkenness per capita as there is in France.

**Vanishing Melons.**

According to a statement of S. A. Conley, McCulloch county has produced something entirely new in the water melon line—a variety which, when offered for sale by the producer, (the producer, mind you) automatically increases in size about 100 per cent. So far this year he has only encountered one lot of this new species, and since his experience is constantly on the lookout for others.

Mr. Conley's experience is related by V. B. Deaton as follows: A few days ago, while seated in the store, a farmer drove up with a load of melons and asked Mr. Conley to look at them. Now, Mr. Conley has reached the age in life when his appearance is considerably enhanced by the wearing of glasses, and in order that the enhancement be strong the glasses were made strong, and an object viewed through them is magnified several times. Ordinarily the glasses are removed when inspecting water melons and such like, but on this occasion this detail was overlooked.

The load of melons was priced at 12 1-2c around, and Mr. Conley snapped up the bargain so quickly that the farmer looked as though he regretted selling them so cheaply. After they were unloaded, the farmer had gotten his money and left Mr. Conley walked out to admire his new purchase, but had removed his glasses. The melons, now viewed with the naked eye, were not the large, luscious beauties of a few minutes before, but the runtiest, sickliest looking assortment to be found anywhere.

Hereafter Mr. Conley avers that he will buy his melons by touch, and is trying to dispose of his purchase at 5c around.

ment against defendant W. M. McMorries for the amount of principal, interest and attorney's fees specified in said notes so owned and held by plaintiff, and that she have judgment against all of the defendants for costs of suit and foreclosing her lien against said property and that same be decreed to be sold according to law to satisfy her debt and for such other and further relief to which she may be entitled.

F. M. NEWMAN, Attorney for Plaintiff.

I, F. M. Newman, do solemnly swear that the residence of B. F. Mason is unknown to plaintiff and to affiant and plaintiff asks that citation issue be served by publication for defendant.

F. M. NEWMAN, Sworn and subscribed by F. M. Newman, before the undersigned authority, on this the 19th day of August, 1914.

### FACTS ABOUT TEXAS CITIES

(Editor's Note—This is one of a series of articles dealing with Texas cities, their past history, present advantages and future possibilities.)

Sutherland Springs, as a modern health resort, is only five years old, but the waters have been curing people for 60 years and have been prescribed by some of the best known physicians of the state.

Hundreds of people, among them a number of state and nation-wide fame, have been cured by Sutherland Springs mineral waters.

Sutherland Springs has a large number of springs and artesian wells, furnishing three distinct classes of medicinal water, which, with their variations and combinations, give a wide range for medical use.

More than \$100,000 has already been spent in developing the resort features of the town, and development is still in progress.

A new sanitarium has just been completed at a cost of \$10,000, and will shortly be open to the public.

There is room for many mercantile establishments to help supply the needs of the town and its surrounding farming territory.

A bottling plant to take care of the demand for medicinal waters, both in natural form and carbonated, will find a good field.

Sutherland Springs is on the Victoria division of the G. H. & S. A. railway, has double daily train service and extra trains from San Antonio to handle the excursion traffic.

Many northern people have their winter homes here, many more come for a few months each year, and the demand for furnished cottages and furnished rooms for light housekeeping is never supplied.

### Notice to Public School Patrons.

By order of the Board of Trustees the Brady Schools will open on Monday, September 7. I will be in my office in the High School building (north side) beginning September 1, until school opens to assist students in making out their course of study. It is desirable that high school students make their enrollment before the opening day so that we will lose no time in getting to work.

There will be no change of books this year. The change last year was not made by the teachers, but by the Legislature of Texas. The books we are using now will be used for the next six years.

We are issuing a catalog this year, and hope the patrons will each get a copy and read it. Our new High School building is now finished and the patrons are invited to visit and inspect it. We are looking forward to one of the most successful years in the history of the Brady Public schools.

Very respectfully,  
W. L. HUGHES, Supt.

### To the Public

Through a misunderstanding of a conversation had with friends a few weeks ago, the impression has gone out that I am offering \$1.00 per hundred for picking cotton. Such is not the case, and I will say that I am heartily in sympathy with the action of the mass meeting at the court house Saturday, and expect to be governed by the schedule of prices adopted at that time.

### IMPORTANCE OF HEALTHY KIDNEYS.

### Brady Readers Should Learn to Keep the Kidneys Well.

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching frequently begins, and is often accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for kidneys only, that has been used in kidney troubles 50 years. You will make no mistake in following this advice. It comes from a resident of this locality.

R. D. Johnson, Coleman, Texas, says: "Some years ago I began to have pains across my back. Nothing seemed to bring me any great benefit until I took Doan's Kidney Pills. I continued taking them and was cured. I have since enjoyed good health. I am pleased to recommend Doan's Kidney Pills to my friends." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Johnson had. Foster-Milburn Co., Props., Buffalo, N. Y.

### Child Hurt.

Forest, the small son of Mr. and Mrs. Virgil Jones, received a painful cut on the head Wednesday when he sustained a fall while playing in the yard at the home of the family in the southern part of the city.

The child undertook to climb a heavy plank which had been put up for the chickens to walk up to the roosting place, and when near the highest point, the plank slipped, precipitating the child to the ground, a distance of four or five feet, the heavy board falling on him.

A long gash on the forehead was the only injury sustained, and at last reports the youngster was ready for another climb.
