#### COTTON GINNINGS

Staple is Coming In at a Lively Rate—Gins are Busy.

The past two weeks of pretty weather has caused cotton to open up very fast, and the three gins of Brady are running from early dawn to near the midnight hour, and are turning out about 100 bales per day.

The ginnings up to Wednesday night were as follows:

J. C. Koerth	301
N. B. Embry	250
Brady Gin	221

According to the report given

out by Dimmitt Wood, local representative of the federal census bureau, the crop this year is two or three weeks later than last. The report shows that up to the first of September this year only 49 bales had been ginned in the county, while at the same time last year 1166 bales had been ginned. Ginnings in the state to the first of September this year were 264,200, as against 655,811 last year.

#### ACCIDENTALLY KILLED

R. C. DOELL VICTIM OF ACCIDENT AT MASON.

Instantly Killed by Discharge of Winchester—Was a Former Brady Citizen.

News was received here about noon Tuesday of the killing of R. C. Doell, a former well known Brady citizen, at Mason, by the accidental discharge of a Winchester. The news of the regrettable accident came in a telephone message to his son, Oscar T. Doell, who left immediately for Mason in an automobile, accompanied by his aunt, Mrs. J. M. Lyle.

According to particulars as received here, Mr. Doell, who, with his family, has been making his home with his wife's mother, Mrs. R. H. Garner, since the death of Mr. Garner, a few months ago, was requested by her to take an old Winchester which had been owned by Mr. Garner for many years and clean up, repair and sell it for her. Tuesday morning Mr. Doell spent several hours working on the gun, and then announced that he would get some cartridges and go out and try it. He took the gun and went down town and purchased 10

cents worth of cartridges and walked out to the edge of town, a distance of 300 or 400 yards from his home, to test the gun.

Mr. Doell left the house about 10:30, and an hour later his body was found by one of the young ladies who work in the telephone office, while on her way to dinner. When discovered, the body was in a sitting posture, leaning against the wire fence, with the gun lying on the opposite side, and inside the pasture in which Mr. Doell had been.

Just how the terrible accident occurred will never be known, but from the surroundings, it is supposed that, after firing a number of shots at a tree, Mr. Doell crawled through the fence into the pasture to examine the tree. He had then started back to town, and in crawling through the fence pulled the gun through, muzzle first, and in some manner it was discharged. The bullet struck him in the left breast, pierced the heart and passed out on the right side of the back. So much force was behind the missile of death that a small limb was clipped off a tree after the bullet had passed through the body, and so close was the gun to the body that the victim's clothing was set on fire.

Mr. Doell was well known in Brady, he and his family having made their home here for

five or six years before moving back to Mason something like two years ago. While here, he was engaged in the livery business, being a partner with A. W. Keller, and was held in high esteem by all with whom he was associated. He was always of a sunny, happy disposition, and possessed that rare trait of character which made those with whom he was associated love and admire him. He was a loving husband and father, and one of God's true noblemen, a man whom all delighted to call friend.

Surviving members of his family are his wife and seven children—three girls and four boys—as follows: Misses Mamie, Jessie, Allie Mae; Messrs. Roy, Allen and R. C., Jr., all of Mason, and Oscar T. Doell of this city. One brother, Henry Doell, also of Mason, survives.

Funeral services took place Wednesday afternoon at 4:00 o'clock at the home, followed by interment in the Gooch cemetery.

**First Christian Church**  
All members of the First Christian church, and especially members of the official board, are urged to be present at the church next Sunday morning at 11:00 o'clock, as matters of utmost importance must be attended to.

Chairman of Official Board.

#### PLAY A SUCCESS

Home Talent by East Sweden Young Folks Nets Neat Sum.

The home talent play given by the young people of the East Sweden community at the church last Friday night was a decided success, both from a financial and artistic standpoint.

The play was a 5-act drama, and one in which ample opportunity was given for display of the talent of each member of the cast. The young ladies and gentlemen had worked hard in preparation of their parts, and the performance they gave was worthy of many professional organizations.

A sum amounting to more than \$40 was realized from the work of the energetic young folks, and will be used for the benefit of the East Sweden church.

*Studebaker*  
**AUTOMOBILES**

**One-Profit Cars Because They Are Studebaker Manufactured Cars**

Today—or tomorrow—go to the Studebaker store and see the new Studebaker models, **FOUR and SIX**. Two types of each—five-passenger **SIX** and seven-passenger **SIX**; **FOUR** Touring Car and **FOUR** Roadster. You will find them competing with cars that sell at prices \$500 higher; and you will also find them showing higher quality throughout. Studebaker prices are lower because these cars are completely manufactured in Studebaker plants, carry but one profit, and impose no Middleman's tax on the buyer.

There is only one way by which Studebaker quality can be put into a "Four" or a "Six" to sell at Studebaker prices. That is the Studebaker way, which means complete manufacturing and the elimination of the parts middlemen and their extra profit; not the assembled or semi-manufactured way. Complete manufacturing, its economies and the excess value it puts into the cars represent the Studebaker ideal.

In the case of the Studebaker, millions of dollars are invested in plants, machinery and special equipment. Our huge production and sales turn our investments into manufacturing economies—we can well afford equipment the cost of which must be prohibitive to any producer whose output is smaller than Studebaker. For example, we maintain the largest and most completely equipped laboratories in the automobile industry, which not only work out the special formulae for Studebaker steels, but test and analyze the steels to be certain they are up to specifications. We maintain huge heat-treating plants for the heat treatment of vital parts, like gears, axle shafts, front axles, etc. We make our drop forgings in our own forge shops. We cast and machine and build complete every Studebaker motor. We make our springs in our own spring plant. We make our bodies and tops in our own body and top factories. In short, we make a greater proportion of the parts for Studebaker cars than other producers make for their cars. And being complete manufacturers, we can and do make

STUDEBAKER, Detroit

the parts of Studebaker cars of better, stronger, longer wearing materials; and put better value into the cars at a stated price. Ride in the new Studebaker and you will see the result of Studebaker complete manufacturing. If you are not expert enough to appreciate this value, ask the advice of some man who is expert. He will tell you that the way the Studebaker sticks to the road is due to its perfect balance, and that, in turn, is due to scientific design—complete manufacturing. He will tell you that the lack of vibration is due to perfect fit and alignment of parts—again the result of complete manufacturing. You will learn that heat-treatment of parts makes them stronger and last longer. And you know that light weight means economy of gasoline and oil and tires. Through motor refinements and up-to-date designing, these cars have power in excess of all requirements. You will be delighted with the clean simplicity of the motors; their perfect accessibility; and you will see that you can care for a Studebaker with the least time and effort. We would advise you to waste no time in seeing the new cars. Delivery can be had at once of either model; and the best motoring season is before us. When you shop around, keep your mental impressions of Studebaker value always before you for comparison; and remember that this value is the great result of Studebaker volume and Studebaker complete manufacturing.

**FIFE FINDINGS.**  
Fife, Texas, Sept. 15.  
Editor Brady Standard:  
Cotton pickers are as scarce as hen's teeth here this week, partly on account of the Mexican celebration at Melvin, and partly because there are not enough hands anyway. The farmers of the community, with the assistance of the Commercial club of Brady, have made arrangements for 70 pickers from Ft. Worth to be in on Thursday. E. B. Baldrige and E. F. Dennis were selected to bring them in and left Tuesday night for that purpose.  
A. E. Thurber was at Brady Tuesday on business.  
"Dad" Hibbitts is here this week from Whon, trying to find a job of cotton picking. He has almost located one with his son, Worth, here.  
J. P. Croby came in from Grafrod the first of the week to work at the gin this fall.  
D. Finlay is hauling lumber for an addition to his home here this week.  
J. A. Evans of Rochelle was here on business Tuesday.  
B. W. Bradley was on the sick list a few days last week, but is improving again.  
Tom Wright returned Tuesday from a trip to Temple on business.  
M. L. Burrell, Jr., and family, of Marquez, Texas, are here on a visit to M. L. Burrell, Sr.

J. R. Williams, T. M. Bradley, J. B. Horne and H. D. Bradley were business visitors at Brady the first of the week.  
W. N. White and Ed. Wade were over from the ranch Saturday.  
Moore Bros. are threshing maize for D. G. Baker and E. W. Wade this week.  
Luther Pearce of Whon was here Sunday on business.  
As news is as scarce as cotton pickers here I will close until next week.

# GONE UP IN SMOKE

One-half of your coal—and it did you no good. Hard luck that. But there is a way to fix it. Here's how:

That stove of yours has seen its best days. You need a new one. You know it—but you have let things drift along. Meanwhile, you have been losing HALF of every hod of coal you have put in it. Of course, you know it, but you did not think of it that way. You know that half of every lump is gas. Fail to burn that gas and it is like throwing into the ditch half of every dollar you spend in coal. Rather extravagant? Yes? The ordinary stove made of a lot of separate castings leaks air. They leak air at the wrong place. Places you can not control. RESULT—the best part of your coal—the 14,000 cubic feet of common illuminating gas that is in the average ton of \$3.00 soft coal—goes up the flue unburned. You have lost it. It has gone up in smoke.

Save that gas—mix it properly with air and you have the hottest kind of a blue flame. But there is only one way to do this—buy the only heater that is made tight—holds tight—stays tight.

## Cole's Original Hot Blast Heater

It leaks no air. This is the heater that mixes the gas and air and gives you all the heat in the coal. This is the heater that burns any kind of coal and makes a ton of \$3.00 soft coal do the work of \$8.00 hard coal in a high priced base burner.

This is the heater that is a joy and comfort to the housewife. It makes no dirt or smoke in the house. This is the heater that saves labor—fix it in the morning and at night and FORGET IT THE REST OF THE TIME. This is the heater that gives a steady, constant heat from soft coal or lignite. This is the heater that will hold its fire untouched for a day and a half. This is the heater we sell you under a guarantee that is as "good as old wheat at the mill." Burns soft coal, lignite, slack, hard coal or wood. It is just the kind of a heater you want. Come in and see it.

See the name "Cole's" on the feed door of each stove. None genuine without it.

Editor Brady Standard:  
Here I am again, after so long an absence. But I don't think anyone is very glad to see me come again.

The work on the parsonage is nearing completion. Sweden can't help but feel proud when she looks at such workmanship. Last Friday night the play entitled "Louva, the Pauper," was presented by the young people of East Sweden. The auditorium was crowded to the utmost capacity. Forty dollars and eighty-five cents were collected. Proceeds will go to the church.

Last Saturday night Mr. H. T. Knappe and his good wife threw open the doors of their home to the young people of East Sweden. The beautiful lawn was converted into a place of merrymaking. At the proper hour refreshments consisting of ice cream and cake were served. Everyone had the time of their lives. We wish Mr. and Mrs. Knappe many, many more such joyful occasions.

### FIRE PREVENTION.

By S. W. English, Austin, Texas,  
State Fire Marshal.

As a man sows, so shall he reap, is Divine declaration. The man who is careless with his property, who trusts to chance and circumstance to avoid fires and who trusts to his luck can but reap a harvest of barren regrets.

He who locks the stable door after the horse has been stolen is but making a confession of his own previous dereliction.

The time to fight a fire is the day before the fire. The time to prevent a fire is before the fire begins. They are all the same size when they start.

No greater battle has ever been won by chance. No conflagration has ever been recorded that could not have been thwarted had the foresight been as keenly quickened as the hindsight was keenly anguished.

### HOW CHILDREN GROW

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood; too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sickness.

If your children are under-size, underweight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing-food for children. Refuse alcoholic substitutes.

### Highway Pictures Here

Secretary T. P. Grant is in receipt of a letter from D. E. Colp of San Antonio, vice-president of the Colorado-to-Gulf Highway association, in which he states that the motion pictures which were taken here when Col. A. L. Westgard and party were here a few months ago logging the highway would be shown at the Brady opera house here for one night only, Wednesday, September 23rd.

The pictures consist of three reels, although the scenes in Brady require less than half a reels. The entire picture will be of more than passing interest to Brady citizens, however, inasmuch as all the scenes were taken between San Antonio and Amarillo.

An advance notice says: "Brady has a showing in the movies equal to any town of four or five times its population. The long automobile parade speaks very highly for this enterprising town. The business and professional men have all taken very much interest in this gathering and nearly all will have an opportunity to see themselves as others see them. One of the most unique pictures ever made is that showing the Flying U and Richards ranches, about 15 miles from town—a scene that has created a world of interest wherever these pictures were shown over the Meridian road between San Antonio and Winnipeg. This picture is interesting to every man in the ranching business and also to everyone who knows anything at all about ranch life. Another scene that is rather pleasing is that of Savage and Grant, taken without their knowledge or consent. As you will notice, there was something very interesting just happening or about to happen when this picture was made; most every-

one in Brady will know just what the occasion was, as soon as the scene is flashed on the curtain."

BRADY, TEXAS, Sept. 18, 1914

**TEXAS A FARMERS' STATE.**

Of every dollar of its natural wealth—from the farm, the mine, the forest, and the sea—90 cents comes from the farms, through the production of field crops and the sale and slaughter of livestock. Out of this dollar, 47 cents comes from cotton and 12 cents from livestock. Sixty-nine per cent of the population lives on the farms and ranches, and only 31 per cent in the cities, towns and villages.

With these facts in view, can any one doubt for a moment where the saving and making of Texas must be wrought out?

Ordinarily, the cities—clearing houses of news, centers of business transactions, places where life and the things of life are most highly developed and most artificial—get all the attention of the world; they take themselves too seriously because, in the stress and clamor of buying, they forget the man who does the work that makes possible the profits of the undertakings they finance.

Some years ago Henry Exall pointed out to our traffickers and traders, great and small, the essential, vital fact that big business is not the trading, but the production of the things that are traded in; that prosperity is not in bank clearing totals; that our well being is not based upon the expertness of the merchandizer, but upon the efficiency of the farmer. Henry Exall sought to raise this efficiency measurable in the net profit per acre taken out of the soil in field crops or livestock production, and to that end he gave the Texas Industrial Congress the mission of acting as the business man's agency in bringing about proper seed selection, right cultural methods, conservation of fertility, crop rotation and diversification. Henry Exall pointed the way in the crop contests, giving the same importance to cotton, corn, the grain-sorghums, and cowpeas—all of them feed for livestock. Death called him when this vital work was well outlined but only just begun.

Now comes a great crisis, a worldwide war, to stress, in retrenchments and hardships, the lessons that he taught. The cities are again reminded that the totals per month of their building permits are unimportant in comparison with the solvency and prosperity of John Jones and Henry Smith, tillers of the quiet countryside, who must even shelter their work animals behind pole windbreaks. The convulsion of the nations is enforcing the evangel of our visioner of progress.

Some of the lessons of Henry Exall, driven home by the European war, are that we must give to cotton an importance no greater than that we give to

**We Have Our Bale of Cotton! Have You?**

**Better Plumbing**

MANY homes should have better bath rooms than they now have. We have always tried, not only to do better plumbing than we ever did before, but better than anybody else can do. The volume of work we are now doing shows how we are succeeding.

We use only genuine "Standard" plumbing fixtures, and employ only experienced workmen. Our repairing service is prompt and reliable.

corn, the grain-sorghums, and cowpea hay; that we give to larger yields per acre so that the cost of production may be lowered and our farmers be enabled to feed livestock in competition with the states in the corn belt. We must see that this work is not so much philanthropy to others as a necessity to ourselves. Every man must, in his way, become an Exall, giving of his time and substance as an investment in his own business, to the movement for a livestock industry—which means a low feed cost, only to be attained by high yields per acre.

Colonel Exall was right. The high-acre yield of feedstuffs, measured by the efficiency of farming, is the only key that will unlock the portals of prosperity. Texas must be taught

how to exchange its 18-bushel yields of 72c corn for 40-bushel yields of 46c corn—and other feeds in proportion—or we shall never profitably feed livestock and double our incomes per farm as our competitors do.

The European war, laying the necessity upon us of cutting down our cotton acreage next year, imposes the greater necessity of raising great corn and grain-sorghum crops at a cost of production sufficiently low to enable us to keep at home the \$30,000,000 we send out of the state annually for feed, and to feed increased numbers of cattle and hogs cheaper than they can be fed in Iowa and shipped to Texas.

Therefore, the battle of the Texas Industrial Congress for better yields per acre, as planned by Henry Exall, takes on

the semblance of a holy war; and the business man who does not enlist in it is surely, though perhaps unwittingly, inviting conditions of hunger and business distress to the state.

After spending the permanent work appropriation in raking muck from the gutters to the middle of the highway, many road makers go home confident that it will last until the next rain.

Some people will pay \$25 a week board to stay in a summer resort where the principal occupation is going to the post office for letters and newspapers from home.

Stock exchanges still closed, but the sports can bet on baseball.

The smart newspaper fellows that used to write those snappy paragraphs about Uncle Reuben's whiskers are now glad to earn \$12 a week editing columns of farm hints.

Don't expect your wife to write home from the summer resort. It saves valuable time for her to call the old man by telephone and have the charge reversed.

**A TEXAS WONDER.**

**Complimenting Miss Benham**  
The following from the social column of the Henderson, Ky., Daily Journal, will be of interest:

**Dance for Miss Benham**—Mrs. A. B. Jarvis and her attractive niece, Miss Minnie Jarvis Crothers, of Brady, Texas, gave a beautiful dance at the Country club Saturday evening to compliment their house guest, Miss Lucile Benham of Brady, Texas. Miss Benham is a charming young girl and is receiving many social courtesies. She is leaving the end of the week to enter college at Columbia, Mo.

The invitations included the members of the younger society circle, and the informal hospitality extended by the hostesses

made the entertainment a brilliant success, sustaining the reputation of Mrs. Jarvis' former entertainments.

The club was effectively decorated in fall flowers, and combined with the music, the beauty, the charm and gallantry of the young society set as they tripped the light fantastic, was a feast of visual brilliancy. Fappe was served all through the evening.

**Inter Se Club**

Miss Olga Schaeg was hostess to the Inter Se club members at the weekly meeting yesterday afternoon.

Forty-two was enjoyed at three tables, and the games were close and exciting.

Refreshments of grape juice,

sandwiches and salad were served. Mrs. Firman Jackson and Misses Ona Vaughn, Mabel Tompison and Margaret Todd were guests of the club. Members present were. Misses Mozelle Glenn, Mary Schaeg, Vera King, Mary Johanson, Ruth and Ruby Wood, Lucile Yantis, Carrie Berry.

In lieu of the regular meeting next Thursday, an all-day picnic will be enjoyed at Dutton park.

**"Weine" Roast.**

The young ladies of the Inter Se club will enjoy a "Weine" roast at Dutton grove this afternoon.

**Mothers and Teachers' Club**

The Mothers and Teachers' club held an interesting meeting Tuesday afternoon at the Presbyterian church.

It was decided to change the time of meeting of the club back to the second and fourth Mondays in each month. It was also decided to hold a Sunday school rally on Sunday, October 11th, and committees

were appointed to look after the details and insure the success of the day.

The next meeting of the club will be at the church on Monday afternoon, September 28th, and all members and those interested in the welfare of the organization are urged to attend.

**Bible Study Class**

An interesting and well attended meeting was that of the Bible Study class at the home of Mrs. A. W. Tipton, last Friday afternoon.

The class will meet with Mrs. Tipton again this afternoon at 4:00 o'clock. The lesson for the afternoon is the sixth list of ten questions on the Four Gospels. All class members are urged to attend, and visitors will be given a cordial welcome.

**City Fathers Hold Short Session Tuesday Night**

All members were present at the regular meeting of the city council Tuesday night. Nothing outside of routine matters received attention of the council, although several important subjects were up for discussion and will be disposed of at a later meeting.

City Marshal J. M. Anderson filed his monthly report of collections, and the report was approved and ordered filed. Receipts as follows were shown by the report: Fines, \$8.00; occupation taxes, \$5.00.

The following accounts were allowed and ordered paid:

County Judge Harvey Walker and County Clerk Yantis appeared before the council with a request that the city make some disposition of a claim for stenographer's fee in the case of H. P. Jordan vs. City of Brady. The claim arose through the amount not having been entered in the bill of costs, which were paid before the error was discovered, and inasmuch as the city did not accept responsibility for the error, the council decided that the matter could not properly be brought before them.

No other business appearing adjournment was taken to the next regular meeting.

## CLUB IS ORGANIZED

### "Buy-a-Bale" Movement Meets With Enthusiastic Approval

The "Buy-a-Bale" movement, which has become so popular throughout the country the past few weeks, received further impetus this week by the organization of a local club, composed of the leading business and professional men of the city.

At the mass meeting at the court house Monday afternoon the newspaper men of the county were requested to act with the local Commercial club in perfecting the organization of the "Buy-a-Bale" club, and a meeting of the directors of the Commercial club Tuesday afternoon selected a committee composed of Duke Mann, Howard Broad and S. M. Richardson to solicit subscriptions among the citizens of Brady. This committee, after two hours' work

## DON'T MISTAKE THE CAUSE

Many Brady People Have Kidney Trouble and Do Not Know It. Do you have backache? Are you tired and worn out? Feel dizzy, nervous and depressed? Are the kidney secretions irregular? Highly colored; contain sediment? Likely your kidneys are at fault. Weak kidneys give warning of distress.

Heed the warning; don't delay—Use a tested kidney remedy. Read this Brownwood testimony. Mrs. Mollie Pierce, Brady Ave., Brownwood, Texas, says: "For nearly a year I endured torture. The physicians didn't know what ailed me and said that I would have to have an operation. I came to Brownwood for that purpose but the change made me feel better and I put off the operation. Finally I got to feeling bad again and suffered from intense pains across my back. I saw Doan's Kidney Pills advertised and sent for a box. The third day after I began using them I passed three gravel stones, with great agony. I have been feeling good ever since. I willingly confirm the endorsement I gave Doan's Kidney Pills when they helped me so much."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Pierce had. Foster-Milburn Co., Props., Buffalo, N. Y.

Wednesday afternoon, secured a total subscription of 47 bales. Only a limited number were approached Wednesday, and as soon as the committee can finish their task, it is reasonably certain that at least 100 bales will be subscribed.

Additions to the list will be published each week as received by the committee, and anyone desiring to become a member of the club are requested to give their names and the number of bales they will purchase to any member of the above committee.

Following is the list secured Wednesday afternoon:

## THE GREAT WAR

The greatest war of history is taking place in Europe. More than half the earth's population is directly concerned, and the other half is under the shadow cast by this world conflict.

No other war approaches it in numbers of men involved, in the tremendous sacrifice of life and property that the nations are making, in results that will spread to the remotest corners of the earth. It is an epoch in history that for suddenness and for stirring events stands alone. Those who are alive today will remember the great war always as the most remarkable spectacle of their lives. They will recall what they read of battles where armies as large as small nations fought on a front miles and miles in extent. The stories of conflict, of heroism, will never leave the memories of this generation.

For the story of this war as it is being written Texans must turn to their newspapers. The Dallas Morning News, The Dallas Evening Journal and the Dallas Semi-Weekly Farm News have the sources of world news at their command. At a nominal cost the reader has collected and arranged for him on the printed page the record of this momentous struggle.

Every Texan has kept thoroughly informed on the progress of the war by reading the newspapers named above.

**TEXANS PROUD OF THEIR STATE FAIR**

Different Policy Being Pursued by Management This Year.

**\$80,000 IN PREMIUMS.**

Features That Stand For Best in Recreation and in Education Only Are Considered.

Dallas.—Go to Fair Park and you will be impressed with the magnitude of the work now under way in preparation for the twenty-ninth annual meeting of the State Fair of Texas, which begins Saturday, Oct. 17, and continues six days.

You will see that the "Different Policy" of the management this year is being carried out in every detail. You will find that the deadwood staff of previous years has been eliminated and in its place the very latest in features that stand for recreation and for education installed.

Texans are proud of their State Fair and they have a right to be. No other institution in America is so splendidly equipped in grounds and permanent buildings or in conveniences that add to the comfort of those in attendance at such meeting.

Prizes the Richest.

Furthermore, there is no other fair on the American continent that offers richer and more generous prizes with the possible exception of one than the State Fair of Texas.

The catalogues for the 1914 meeting list prizes amounting in the aggregate to \$75,000. Added to this are specialties and trophies bringing the grand total up to \$80,000.

The demand for space is unprecedented. Secretary W. H. Stratton reports more exhibitors signed up than ever before at this time. With roseate crop prospects there should be big crowds at the fair.

**Superb Park Improvements.**

Thousands of dollars are being expended this year in park improvements. Roadways are being widened, improvements are being made in all public buildings, new and ornamental drinking fountains are being placed in various sections of the grounds, new sidewalks are being built and hundreds of other improvements are being made.

It will be a million-dollar enterprise. The grounds and buildings alone are worth twice that amount. The exhibits of industrial arts, fine arts, livestock, implements, vehicles and machinery, automobiles, amusement enterprises, in intrinsic value will reach a sum that is staggering to conceive.

**Prominent Men at Helm.**

Those at the helm of affairs are all men of prominence, builders of Dallas and of Texas, men "thoroughly interested in the success and the betterment of every industry in the state." They are as follows: W. I. Yopp, president; Royal A. Ferris, first vice president; Edgar L. Flippen, second vice president; J. B. Adoue, treasurer; W. H. Stratton, secretary; Directors: E. J. Kiest, William Doran, E. M. Kahn, A. A. Jackson, H. A. Olmsted, J. C. Duke, J. S. Kendall, R. E. L. Knight, J. J. Gifford, S. I. Munger, John N. Simpson, Louis Lipsitz, S. T. Morgan, P. E. **COMMUNITY CO-OPERATION**

Copyrighted Farm and Ranch—Holland's Magazine.

There was never a truer saying than that of the great Emerson which has long since passed into a proverb: "If a man can write a better book, preach a better sermon or make a better mousetrap than his neighbor, though he build his house in the woods, the world will make a beaten track to his door."

We talk about a man "making a name for himself." By this we mean that John Smith has excelled in his calling and that his name stands for par-excellence in the eyes of the community, possibly in the eyes of the world. If it is the law in which he has made a reputation, we look upon him as an authority, and when we wish legal advice upon any important matter we go to him. We know that the individual or company or corporation will "sit up and take notice" when papers are served with the name John Smith, Attorney, attached. Why? Because he has "made a name for himself"—he has a reputation for being a successful fighter. We feel that we have as good as won our case when we have such a clever man to fight our legal battle. We know that if the case is scuttled out of court John Smith can do better for us than any one else. Should it go to the courts, we know that his plea and summing up of the case will convince any right-minded jury of our rights in the matter. That was exactly why we asked John Smith, instead of his brother or partner, to take the case. Although both attorneys are capable, neither of these substitutes would have been satisfactory, or given us the confidence that John Smith has, for neither have "made names" for themselves.

The same principle applies to the purchase of trademarked, advertised merchandise. We want a certain razor or shaving soap because each is recognized as the best in its class. "The substitute offered may be "just as good," but why should we take a chance on an unknown article? We are sure of the trademarked brand because we have been using it for years, and its guarantee of satisfaction has been fulfilled. Can we ask for more?

No merchant has a right to offer us a substitute, nor should he give us a substitute without our knowledge or consent. He is working against his own best interests when he does so. Patrons should insist upon receiving the trademarked, advertised brand asked for, and if the merchant does not have it in

**SAVES DAUGHTER**

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months. I cannot tell you how I suffered with my head, and with nervousness and womanly troubles. Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me. At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing. I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health." If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years. At all druggists.

stock, or does not carry it, he should state the fact frankly, and offer to get it for the customer. If he substitutes, if he does not make an effort to give the customer satisfaction he should not complain when he loses patronage. There is usually a reason when trade is dull, at a season of the year when it should be brisk, and the merchant need not go beyond his own door to ascertain the cause; for, if he is a wise man and looks out for his customer's needs, "the world will make a beaten track to his door."

### FATHER DIES

#### Fred T. Fowler Receives News of Death of His Father

Fred T. Fowler received a message yesterday afternoon at 2:00 o'clock telling him of the sudden death of his father, J. M. Fowler, at his home in Zanesville, Ohio, the death occurring at 1:00 o'clock.

None of the particulars were contained in the message, and the cause of death is unknown here, but is thought to have been caused from paralysis.

Mr. Fowler was 68 years of age, and a native of the state of Virginia. Most of his life has been spent in Ohio, he having resided at Portsmouth for a number of years, but removed to Zanesville several years ago to make his home there. He was the father of seven children, six of whom are living.

He was well known to a number of Brady citizens, he and his wife having spent several months here during the past winter with their son and wife, and was a most likable gentleman.

Funeral services will take place Sunday afternoon at 2:00 o'clock, followed by interment in the cemetery at Zanesville.

### Fire at Gin.

What might have proven a serious fire was narrowly averted Wednesday afternoon by prompt and efficient work on the part of J. C. Koerth, when fire was discovered in one of the stands of Mr. Koerth's gin.

The blaze is supposed to have originated from a match in cotton which was being ginned coming in contact with the gin saws, and only prompt action by Mr. Koerth prevented the destruction of his plant.

In order to get to the fire, it was necessary to break a large glass, and in doing this Mr. Koerth sustained a painful cut on the wrist. The wound bled profusely and required the attention of a physician. Three or four stitches were taken to close the wound.

### Cured of Indigestion.

Mrs. Sadie P. Clawson, Indiana, Pa., was bothered with indigestion. "My stomach pained me night and day," she writes. "I would feel bloated and have headache and belching after eating. I also suffered from constipation. My daughter had used Chamberlain's Tablets and they did her so much good that she gave me a few doses of them and insisted on my trying them. They helped me as nothing else has done." For sale by all dealers.—Advertisement.

### PIANO CONTEST

#### Big Gain is Shown by Contestant No. 115.

The count in the contest for the \$400 Claxton piano to be given away by Jones Drug Co., this week developed the fact that Contestant No. 115 had forged ahead of No. 186, her nearest competitor, making a gain of almost 100,000 votes since the last count.

All contestants who have shown little or no interest are dropped from the published list this week, and their standing will not be published hereafter, unless they become active in the contest.

The standing of the various contestants as shown by the count Wednesday, is as follows:

32	8190
64	5000
72	9015
105	12009
115	336,300
134	3135

### IF CONSTIPATED OR BILIOUS "CASCARETS"

Tonight! Clean Your Bowels and Stop Headache, Colds, Sour Stomach.

Get a 10-cent box.

Take a Cascaret tonight to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

### PICKERS SCARCE.

#### Farmers Are Scouring Country for Additional Labor.

Farmers of this section are experiencing considerable difficulty at present in securing sufficient laborers to gather the cotton crop, and a number of delegations have gone to the large cities of the state to secure additional help.

The warm, sunshiny weather of the past two weeks has caused cotton to open very fast, and as a result, many of the fields which have never been touched are beginning to resemble great snow banks.

The scarcity of hands and the rapidity with which the cotton is opening has been the cause of much activity on the part of the farmers the past week, and delegations have been sent to Ft. Worth, Dallas, Beaumont and Houston to secure more pickers. One bunch of 70 was unloaded yesterday morning at Mercury and taken into Fife country, another will arrive this morning, while J. A. F. Carroll of the Lohn community is coming from Beaumont with more than a hundred, and is expected to arrive today or tomorrow.

Messrs. J. E. Campbell and D. D. Hargrove left last night for Houston to gather up a bunch of pickers, and expect to get back with them Sunday. Mr. Campbell talked with the chief of police in Houston yesterday afternoon, and was informed that he could secure all the help there that would be needed, as there were many idle men there who were anxious for work of any kind.

It is estimated that at least five hundred pickers will be brought in within the next week or ten days, and with this number in the field a vast amount of the fleecy staple can be handled.

### Bank Buys a Bale

A large, healthy bale of fleecy cotton now adorns the lobby of the Brady National bank, and makes the interior of the already handsome banking room much more attractive. A large placard bears the inscription in bold letters: "We have bought a bale at 10c; have you?"

### ASTHMA AND HAY FEVER A GUARANTEED TREATMENT.

"I have arranged with the Central Drug Store so that every sufferer from Asthma, Hay Fever or Bronchial Asthma in Brady can try my treatment entirely at my risk," Dr. Rudolph Schiffmann announces. He says: "Buy a 50-cent package of my Asthmador or Asthmador Cigarettes, try it, and if it does not afford you immediate relief, or if you do not find it the best remedy you have ever used, take it back to the Central Drug Store and they will return your money, cheerfully and without any question whatever. After seeing the grateful relief it has afforded in hundreds of cases, which had been considered incurable, and which had been given up in despair, I know what it will do. I am so sure that it will do the same with others that I am not afraid to guarantee it will relieve instantaneously. The druggists handling Asthmador will return your money if you say so. You are to be the sole judge and under this positive guarantee, absolutely no risk is run in buying Asthmador."

Person living elsewhere will be supplied under the same guarantee by their local druggist or direct by Dr. R. Schiffmann, St. Paul, Minn.
