Secures Pickers

Messrs. J. E. Campbell and D. D. Hargrove, who left last week for South Texas in quest of cotton pickers, returned on Wednesday afternoon with a bunch of forty-five.

These laborers were secured at Navasota, and Mr. Campbell states that there are plenty of them in that section of the state who are anxious to get work here. In the bunch brought in were twenty-two whites and twenty-three negroes.

C. C. Ledbetter and W. D. Priest also brought in a bunch of twenty-four Wednesday af-

ternoon from Beaumont. They were taken to Pasche, where there is said to be practically no pickers in the fields.

All these laborers were secured on a basis of 60c per 100 and board themselves, and the farmers who have visited other sections of the state in quest of help say that 40c per hundred is the average price being paid.

THE NEW

Studebaker

AUTOMOBILES

One-Profit Cars Because They Are Studebaker Manufactured Cars

Today—or tomorrow—go to the Studebaker store and see the new Studebaker models, FOUR and SIX. Two types of each—five-passenger SIX and seven-passenger SIX; FOUR Touring Car and FOUR Roadster.
You will find them competing with cars that sell at prices \$500 higher; and you will also find them showing higher quality throughout.
Studebaker prices are lower because these cars are completely manufactured in Studebaker plants, carry but one profit, and impose no Middleman's tax on the buyer.

But we do not want or ask you to consider Studebaker Cars solely on price.
If you ask why they are better—why they give and always have given thorough satisfaction—consider the aims, ideals and honesty of purpose behind them; the quality of Studebaker materials; the vast extent and intensiveness of Studebaker manufacturing methods; the excellence of their engineering designs; and the fact that in each and every important vital particular these cars welcome comparison with the highest priced.

There is only one way by which Studebaker quality can be put into a "Four" or a "Six" to sell at Studebaker prices.
That is the Studebaker way, which means complete manufacturing and the elimination of the parts middlemen and their extra profit; not the assembled or semi-manufactured way.
Complete manufacturing, its economies and the excess value it puts into the cars represent the Studebaker ideal.
In the case of the Studebaker, millions of dollars are invested in plants, machinery and special equipment. Our huge production and sales turn our investments into manufacturing economies—we can well afford equipment the cost of which must be prohibitive to any producer whose output is smaller than Studebaker. For example, we maintain the largest and most completely equipped laboratories in the automobile industry, which not only work out the special formulae for Studebaker steels, but test and analyze the steels to be certain they are up to specifications.
We maintain huge heat-treating plants for the heat treatment of vital parts, like gears, axle shafts, front axles, etc.
We make our drop forgings in our own forge shops.
We cast and machine and build complete every Studebaker motor.
We make our springs in our own spring plant.
We make our bodies and tops in our own body and top factories.
In short, we make a greater proportion of the parts for Studebaker cars than other producers make for their cars.
And being complete manufacturers, we can and do make

the parts of Studebaker cars of better, stronger, longer wearing materials; and put better value into the cars at a stated price.
Ride in the new Studebaker and you will see the result of Studebaker complete manufacturing.
If you are not expert enough to appreciate this value, ask the advice of some man who is expert.
He will tell you that the way the Studebaker sticks to the road is due to its perfect balance, and that, in turn, is due to scientific design—complete manufacturing.
He will tell you that the lack of vibration is due to perfect fit and alignment of parts—again the result of complete manufacturing.
You will learn that heat-treatment of parts makes them stronger and last longer.
And you know that light weight means economy of gasoline and oil and tires.
Through motor refinements and up-to-date designing, these cars have power in excess of all requirements. You will be delighted with the clean simplicity of the motors; their perfect accessibility; and you will see that you can care for a Studebaker with the least time and effort.
We would advise you to waste no time in seeing the new cars.
Delivery can be had at once of either model; and the best motoring season is before us.
When you shop around, keep your mental impressions of Studebaker value always before you for comparison; and remember that this value is the great result of Studebaker volume and Studebaker complete manufacturing.

NEWS FROM LOST CREEK

Voca, Texas, Sept. 17.
Editor Brady Standard:
Cotton picking, corn gathering and hay cutting and baling is going on here at a lively rate.
Cotton is not as good as it should be, owing to damage by boll weevil and sharp-shooters. Some claim the sharp-shooter has done considerably more damage than the weevil.
The corn crop is fine, some claiming to have made fifty bushels per acre, while forty is common.
Feed crops are more plentiful than this part of the country has ever had.
Isn't it queer the government is spending large sums of money sending out men to show the farmer how to make more and better crops, when we are making more now than we can find a market for? I am ready to go on record as being opposed to our county paying out a lot of money to demonstrators. I have been watching the work close and been a co-operative worker myself and am ready to say it is a useless expenditure. Give the farmers fair seasons and they will over supply our present markets every time and

leave the demonstrators out of the ring. Then why the expenditure? Echo says why?
A. C. Baze and wife, accompanied by Mrs. Leonard Wood and Miss Mary Bell, all of Brady, visited here Sunday and Sunday night, the guests of Mr. and Mrs. D. H. Henderson. **A. CITIZEN.**

Cured of Indigestion.
Mrs. Sadie P. Clawson, Indiana, Pa., was bothered with indigestion. "My stomach pained me night and day," she writes. "I would feel bloated and have headache and belching after eating. I also suffered from constipation. My daughter had used Chamberlain's Tablets and they did her so much good that she gave me a few doses of them and insisted on my trying them. They helped me as nothing else has done." For sale by all dealers.—Advertisement.

TRAVEL AT HOME

European travel should give
people broader views and more
general intelligence. For some,
it has been mere extravagance,
and useless spending. It may
be worth all it costs, yet it does
drain hundreds of millions of
dollars annually from our coun-
try.

On August 1, Europe closed
up its hotels and railroads, open-
ed its cemeteries, and went
into the killing business. If
the war ends soon, many curios-
ity seekers may then go over,
much as the ghouls flock to a
railroad disaster. Normal peo-
ple will find Europe in turmoil
or several years. Everyone
having leisure and money for
travel may well take this time
to familiarize himself with the
sunders to be seen at home.

The war should teach a re-

newed respect for American
ideas and institutions. While
the powers of Europe have been
loading themselves up with the
barbarous implements of
slaughter, America has been
making better highways, edu-
cating its children, removing
disease, and improving its
farms.

While Europe is now destroy-
ing matchless relics of the past,
America has been erecting
churches and monuments, paint-
ing pictures and carving stat-
ues. Much of this work is crude,
but much is very wonderful.
While foreign powers are work-
ing off the cruel fevers of bar-
barism, let us here at home val-
ue at its true worth all that
our own builders and artises
have done.

There ought now to be in ev-
ery American heart a renewed

affection for his native land. It
should stand for him as the
home of peace, as the land
where love and science and la-
bor are the ideals, not blood
and iron.

One should realize better
the gorgeous scenic beauty of
our fair land, and feel deeper in-
terest in the abounding energy
of American achievement. Let
the traveler then, until Europe
repents of its wild insanity, seek
to learn more of what God and
man have done for his native
land!

SCHWENKER THE VICTIM

Dispatches from Taylor say
an ex-newspaper man there
was robbed of \$62, a \$90 watch,
a \$25 charm and a Panama hat,
but the burglar overlooked a
\$300 diamond stud. Our cre-

dulity might have stood the
strain of the first four items,
but that \$300 sparkler is more
than we can believe. A Texas
editor with a flash like that
would attract more homage and
attention than royalty.—Hous-
ton Telegram.

**THE BOY AND THE FRUIT
TREE**

All moral authorities con-
demn the small boy for stealing
fruit. Yet when the orator
comes back to his native town
for old home week, he seems to
count his kid record at a fruit
stealer as one of his assets. At
least he delights in recounting
these exploits. Many people en-
tertain the subconscious feeling
that the boy who doesn't raid
the neighborhood is lacking in
initiative and not likely to suc-

ceed in life.

Let it be admitted that the
sedate and peace loving citizen,
standing bewildered amid the
shadows of a raided orchard,
constitutes a picture having hu-
morous aspects. Over the fence
he hears the sound of scram-
bling legs, with an accompani-
ment of suppressed giggles. He
is helpless in the darkness to
pursue the elusive youngsters.
It is funny, but somehow he
fails to get the point of the
joke.

Also, there is the viewpoint of
the gardener. Raising fruit
and vegetables is his sport, just
as baseball is the boy's. If a
gang of young toughs from
the next street, while the boys
have left the bail field to get
a drink of water, stinks in and
purloins the bat, ball, mitts, and
gloves, the verdict of boydom is

that the thieves are sneaks, and
deserve a thrashing. They usu-
ally get it.

Perhaps at that moment of
time, the kidlets can realize
how the gardener feels at the
loss of the fruit of the grape
vine or melon patch on which
he spent many hours of labor.

In many localities people have
given up the home garden, as
they can't get the fruit. Even
vegetables are dug up by or-
ganized gangs of prowlers. They
come armed with bags at night
and stock up for the winter.

A which tends to make the
domestic and charming pursuit
of gardening unpopular. Yet it
seems a laudable avocation, and
one to be encouraged. It helps
a bit toward high cost of liv-
ing, and promotes health and
contentment. Hence, there are
still old fashioned people who
consider stealing fruit as very
much like stealing baseballs or
money.

**NEWSPAPER RESPONSIBIL-
ITY.**

Josephus Daniels, secretary
of the navy, in an address de-
livered labor day to a press as-
sociation, urged all editors to
subordinate their news to the
good of the country. He par-
ticularly felt, in this time of
international strain, that news-
papers should be very cautious
what they print. This is good
advice. But most people do not
realize how largely editors are
constantly following these coun-
sels.

Controversies as to whether
certain news should be publish-
ed or not almost always arise
out of some individual's wrong
doing. A man gets too free
with the convivial highball and
festive companions, he punches
some one in the face, and next
morning has a headache and a
complaint for assault and bat-
tery. After paying his fine he
calls around at the newspaper
office. His fraternal feeling for
the editor is marvelous and un-
accustomed. Incidentally he
wants to have his little case
"kept out."

"It won't do any good to print
it," is the familiar plea "No
one is interested in it."

But no good purpose is serv-
ed by the suppression of such
incident. Most men care little
about fines, but they care a
great deal about the public dis-
franchise. If the newspapers screen
them, they are twice as likely
to make asses of themselves
again.

It is a different story when
the newspaper man comes in
contact with police and other
responsible public officials. If
the newspapers printed all they
know, many criminals would
have the tip to buy tickets for
Canada.

Most of the newspapers are
handling tactfully the news of
the war. They freely print both
sides. They have a right to ex-
press an opinion as to the cause
of the war. But newspapers of
the saffron type should reflect
that it does not pay to dignify
mere rumor just as if it were an
authentic report. There are too
many people who remember
what you said the day before.

Standing behind the bower of vines the impressive and beautiful ring ceremony was said by Rev. Morris, following which the happy couple was showered with congratulations and best wishes.

The bride was becomingly gowned in crepe de chine, with veil, while the groom wore the conventional black.

Purchases Confectionery
A deal was closed Tuesday whereby John E. Westbrook acquires the confectionery business of G. A. McAfee, on the east side of the square known as Mack's Place, and will consolidate his stock of Watkins remedies with his new purchase, continuing the business in the building occupied by Mr. McAfee.

Since the consolidation of the local offices of the Wells-Fargo and U. S. Express companies the latter of which Mr. McAfee was agent, he finds that the business now demands his entire time and attention, and disposed of his confectionery business in order to devote all his time to the express business.

Mr. Westbrook announces that he will keep a complete stock of candies, fruits and cigars, as well as a large assortment of the famous Watkins products. He has also accepted the agency for the Edison phonograph, and will keep a full line of both machines and records.

Appetite Follows Good Digestion

Nearly everyone indulges their appetite and the digestive organs are abused, resulting in a congestion of poisonous waste that clogs the bowels and causes much misery and distress. The most effective remedy to correct this condition is the combination of simple laxative herbs with pepsin known as Dr. Caldwell's Syrup Pepsin. This is a natural, pleasant-tasting remedy, gentle yet positive in action, and quickly relieves indigestion, constipation, sick headache, belching, etc. Drug stores sell Dr. Caldwell's Syrup Pepsin at fifty cents and one dollar a bottle, and in thousands of homes it is the indispensable family remedy. For a free trial bottle write Dr. W. B. Caldwell, 451 Washington St., Monticello, Ill.

Mann-Morris Nuptials.

At the home of the bride's parents, Rev. and Mrs. I. Ft. Morris, at 7:00 o'clock Wednesday evening, Mr. O. Duke Mann and Miss Lucy Morris were united in the holy bonds of matrimony, Rev. Morris performing the impressive ceremony.

Only members of the immediate family were present for the ceremony.

The Morris home was beautifully decorated in ferns and pot plants throughout, while in the large parlor, where the ceremony took place, garlands of green vines intertwined with white ribbon were suspended from the ceiling to pedestals on which rested beautiful ferns and pot plants. These ropes of vines formed an entrance to a small alcove formed of vines, where the bride and groom

waiting to shower them with rice and old shoes, but they cleverly outgeneraled the crowd and escaped the reception so carefully planned.

The bride is one of the most popular young ladies of this city, possesses many charms and accomplishments, among which is the possession of a beautiful and well trained voice, and her solos rendered on different occasions have delighted music lovers of the city.

The groom is a son of O. D. Mann of this city, and the junior member of the firm of O. D. Mann & Sons. He has made his home in Brady practically all his life, and since entering business, has come to be recognized as a young man of unusual ability.

Mr. and Mrs. Mann will return about the first of the coming month, and will be at home to their many friends in the Dr. Granville residence in the southern part of the city, recently purchased by Mr. Mann.

Willis crossing and intersect the Brady and Long Valley road and include all the settlement north of the river up to the bridge and back to Voca. I have the petition and am ready to do all I can. Splendid Medicine Stomach Trouble

I Suffered for Several Years Peruna Restored My Health

Mrs. Elizabeth Reuther, No. 568 Twelfth St., N. W., Washington, D. C., writes: "I am pleased to endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered for several years. I took it for several months and at the end of that time found my health was restored and I felt splendidly ever since. I now take it when I contract a cold and it soon rigs the system of any catarrhal tendencies."

Over Ten Years Ago.

"I would not be without Peruna. Although it was over ten years ago that I first gave you my testimonial, I am of the same opinion as when I wrote it, and give you the privilege to use it as you see fit. I still use Peruna when I think it necessary. I am recommending it to my neighbors whenever a chance occurs."

Miss Katherine Stinson, the girl aviator who is to make daily aeroplane flights at the Brownwood Free Fall Fair, will carry passengers, charging \$25 each. Four Brownwood parties have already signified their intention of taking a trip to the clouds and it is likely that quite a number of the visitors to the fair will avail themselves of this opportunity to ride in an airship.

COMMUNITY CO-OPERATION

Copyrighted Farm and Ranch Holland's Magazine

So much has been written about co-operation of recent years that it would seem that the last words have been spoken and yet it is almost a certainty that every word written has been of some benefit; has attracted the attention of someone, to the advancement of the idea.

Community co-operation is an old idea dressed in a new garb. We have had community co-operation from the hour that Mother Eve was placed in the garden, "an helpmeet unto her master."

Co-operation is one term for friendship. It is one of the links in the chain. When we find ourselves drawn toward an idea a condition that appeals to our better impulses, naturally we want to offer assistance, especially if by so doing we see cause for betterment.

Co-operation might be termed—"United, we stand; divided we fall." For it is but the assembling of thoughts, strength, ideas, toward the general uplift. At every turn, in the highway of life we are brought face to face with the beauty of co-operation, or the ugliness of the lack of it. Take, for example, the freighter's team. We see them slowly moving along the public highway, each animal moving in regular cadence with its side partner. The movements of the van might possibly be slow, as compared to our fast freights, yet it is sure—co-operation exemplified.

Transverse this scene. We see the teams lunging and plunging, hither and thither. Driver, whip in hand, lashing and cursing—and the van

standing still—lack of co-operation.

One of the most pleasing signs of the present day is the universal evidence that mankind is seeking the light of brightest ray to guide his footsteps toward higher effort and the surest road to this condition is the road whose guide posts bear this inscription—Co-operation. —Jno. F. Turner.

My wife rubbed me with liniments and did everything to relieve the suffering, but nothing helped me until I got a box of Doan's Kidney Pills. I was in bad shape when I began taking them, but after a few doses, I felt relief, and my kidneys got normal. Since then I have always had Doan's Kidney Pills in the house and they have given the best of results when I have used them."

Tonight! Clean Your Bowels and Stop Headache, Colds, Sour Stomach.

Get a 10-cent box. Take a Cascaret tonight to cleanse your Liver, Stomach and Bowels, and you will surely feel great by morning. You men and women who have headache, coated tongue, a bad cold, are bilious, nervous, upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out. Are you keeping your bowels clean with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember, a Cascaret tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

CARNIVAL NEXT WEEK

Leonard Amusement Co. Will Exhibit; Benefit of Band

Business Manager R. S. Halle of the Leonard Amusement Co. was here yesterday and closed a contract with the Brady Booster band to bring his carnival company here for a week's engagement, beginning next Tuesday night.

The company is showing this week in Winters, and in conversation with Mayor L. P. Dale of that city over the long distance telephone yesterday afternoon members of the band were informed that the attractions were strictly high-class and moral in every respect, and that no mistake would be made in bringing them to Brady.

Upon Mr. Dale's strong endorsement of the company, a contract was signed last night by Coke Martin, business manager of the band. Under the contract, the band boys will receive 10 per cent of the gross receipts of each paid attraction and 25 per cent of the sale of concessions, and they hope to realize a neat sum to add to their fund for the purchase of uniforms and other equipment.
