YES, THIS IS THE CAR

A 5-passenger beauty, saves you \$160, if bought today

Not all people prefer this kind of car. Perhaps only eight out of ten people do.

To make sure that it will suit you and yours, come and let an experienced and highly intelligent man show you some of the many things that stand out and make a Chalmers a Chalmers.

Take the Motor, for Example It is the most famous and most used of all Chalmers motors. It has high power capacity.

That, certainly, is a logical and extremely sensible type of motor to own. It is never under a strain. At 45 and 50 miles an hour it is using only a part of its power.

> It Saves Tiste on I, Blk And in so doing, saves many a dollar. | Con-

servation of energy means conservation of fu

Watch your gasoline bills go down when you drive this Chalmers!

Better see the motor first. It is the most important thing. But in your enthusiasm, don't miss one other feature: - the dimensions of the body. There are four inches more room in the front compariment than you really need, and eight inches surplus leg room in the rear compartment. Note the rear seat cushion. It is three inches

wider than it needs to be. Every dimension in the body seems decidedly generous. These Are Mere Hints, However

It would be quite impossible to describe the 6-30 5-passenger Chalmers, and you have no way of knowing whether this Chalmers suits you without seeing it.

That makes necessary a trip to the Chalmers

If this Chalmers does suit you, then you won't have to be reminded of the \$160 saving-the item is far too important.

The 2-passenger Chalmers roadster, built on the same chassis, advances, in price \$180 on March 1.
