## TROOP H FEDERALIZED AT SAN SABA LAST WEEK

Local members of the cavalry troop at San Saba, who had been home on furloughs were called to San Saba again last week, word having come that the troop was to be federalized. This action was taken last Thursday, and the troop was formally inducted into federal service. Some of the boys have secured additional furloughs, but are expecting to be called back to report for military service any day.

Since the troop has been federalized, the members of draft age are no longer subject to orders of local selection boards.

## CASING AT WHITE-LAND CUTS OFF 2 STRATAS WATER

The 15 1/2-inch casing for the C. S. Thomas well at Whiteland has arrived and drillers Tait and Becker have set about 250 feet of the casing thereby effectively shutting off two stratata of water encountered in the well. The well is at a depth of 340 feet. The heavy tools necessary to continue the drilling have not yet been received.

The Liberty Oil & Gas Co. between Lohn and Fife, is drilling steadily with only the day crew on at present. The well has reached a depth of 100 feet, and is in hard lime rock.

G. A. Rudolph has begun the drilling of the first new shallow oil well at Lohn for the Tucker Oil Co. Nothing further has been done towards cleaning out the old shallow wells since it was found they were plugged. D. T. Brown is expected back from the north soon with authority to drill ten new shallow wells.

The Prairie Oil & Gas Co. is making good progress with their preparations for drilling, having made all their pipe connections and other preparations. The crew of riggers is now at work on the derrick, which will be 104 ft., and the tallest in the county. The first three carloads of material brought enough timbers for a second rig, but its location has not yet been announced. No other material has as yet arrived for the Prairie well.

Prof. Chas. N. Gould arrived last Sunday and made a thorough geological survey of the 5,000-acre tract under lease to M. W. Eiser and associates. He returned to Oklahoma City Tuesday night with his data, and will announce the location within a week or so. Mr. Eiser left for the north last night to hurry up the shipment of material and equipment, and hopes to be drilling on the tract within 60 days.

Bowen-Day are still unable to connect with their new boiler. The boiler has been loaded out, but evidently has been lost in transit. Mr. Bowen has gone to Tulsa to see if the boiler can be located and rushed to Brady.

There are no further developments to report on the opening of the shallow oil field. According to J. Meers, this project may have to be temporarily abandoned on account of a suit brought to nullify a lease held by Mr. Meers in the Salt Gap section. Mr. Meers states that such a suit will be certain to retard development in the county, as no oil man will want to invest his money in getting rigs and equipment here only to find the validity of his lease attacked in the courts of law. Consequently until this suit is settled, nothing further may be done towards developing the shallow field at Brady.

U. C. V. Meeting Saturday.  
Members of the U. C. V. will hold a meeting Saturday at 2:30 p. m. to discuss ways and means for attending the reunion at Tulsa. All members and their families who intend to go, should have identification certificates in order to secure the one cent railway rate.

When you want your clothes Cleaned and Pressed, bring them to Kirk, The Old Reliable Tailor, Nuf-Sed.

## BOOKS AUDITED AND INVENTORY BEING TAKEN OF THE BRADY WATER & LIGHT CO.

The Board of Trustees of the Brady Water & Light Works have employed the services of W. H. Ballou to make an inventory of all material of the company now on hand and also to audit the accounts of the company. It will be part of Mr. Ballou's work to open a complete set of new books for the company, and the board expects to adopt an up-to-date and complete bookkeeping system so that it will be enabled to get a trial balance and show what the company is doing at any time they may be called upon for a statement.

As a measure of economy during the present unfavorable times, the board has dispensed with a regular bookkeeper, and Jack Wigginton will in future have charge of the books, performing this service in connection with his duties as city secretary, at a moderate increase in salary. By this means the board has effected a saving of \$45.00 monthly.

## SEPTEMBER 12 SET AS REGISTRATION DAY

Washington, Aug. 31.—President Wilson today signed the man-power act bringing all men in the United States from 18 to 45 years of age within the army draft, and immediately afterward issued a proclamation fixing Thursday, September 12th, as registration day.

An official estimate by the War Department Saturday placed the number of men who will register for military service on September 12th at approximately 12,778,758. This is on the basis of the last census and the figures in the opinion of some officers, may be exceeded.

The estimated total number of males is 13,190,000, but from this number 410,000 is deducted to cover the men of the new draft ages already in military or naval service. Based on the ratio shown by the registration of men from 21 to 31, June 5, 1917, the share of the new registrants expected in Texas is 846,187.

Purpose Victory.  
"We solemnly purpose a decisive victory of arms," said the President, "and to devote the larger part of the military man power of the nation to the accomplishment of that purpose."

"It is the call to duty to which every true man in the country will respond with pride and with the consciousness that in doing so he plays his part in vindication of a great cause at whose summons every true heart offers its supreme service."

The hours of registration will be from 7 a. m. to 9 p. m., and all State and local officials are called on to make immediate arrangements for maintenance of registration places on that day.

All Must Register.  
All men within the new ages, whether citizens of the United States or not, must register unless they are diplomatic or consular representatives of foreign nations.

In case of illness on the registration day, arrangements for tardy enrollment may be made with local boards and men who expect to be absent from their home may register by mail sufficiently in advance that the registration record reaches the board by September 12th. If a man has no permanent residence, he is to register at the place he is on September 12th, and those out of the country on that day are required to enroll within five days after their return.

Youths in Separate Class.  
Youths in their eighteenth year will be placed in a separate group, the War Department has announced, to be subject to a special educational program, and will not be called until the supply of other available men in the new classes is exhausted.

This does not mean that their calling will be long deferred, however, inasmuch as it has been announced that all men in the new registration accepted for general service will be under arms by June 30, 1919. The man power bill makes no specific provision for separate classification of ing will not be long deferred however plans for their treatment have been made on executive initiative.

## CHECK RAISER IN TOILS OF LAW CAPTURED IN LA.

Sheriff J. C. Wall left Monday night for Mansfield, La., for one John Hoots who was captured at that place and who will be brought back here to stand trial for raising a check. It appears Hoots was employed by Chas. Smith of Melvin something like a year ago, and was given a check for \$17.00 in payment of his labors, by Mr. Smith. Hoots raised the check to \$27.00, cashed it, and made a successful get-away. At the instance of the Melvin State bank, Sheriff Wall has been camped on the trail of the fugitive since, and is feeling good over his success in finally apprehending him.

The death of Thomas Henderson Johanson, son of Mr. and Mrs. Henry Johanson, occurred at the family home in the East Sweden community Monday afternoon at 1:15 o'clock, aged 10 years, 11 months and 8 days. The little lad had been afflicted all his life, and the Angel of Death brought a merciful relief from his earthly sufferings.

Funeral services were held at the residence of the parents at 10:30 Tuesday morning, Rev. S. H. Jones conducting, and interment was made in the East Sweden cemetery. The sympathy of all is extended to the bereaved parents.

## SPEC'L FREIGHT RATE TO FARM'RS AND RANCHMEN

Arrangements have been made with the Railroad administrator by the officials of the U. S. Department of Agriculture and the Extension Service of the A. & M. College of Texas, for the railroads to deliver feed in carlot shipments for livestock in the drouth stricken sections of Texas, under certain conditions, at one-half of regular freight. Full instructions have been sent to your county agent, and I will gladly help all who are entitled to this half-freight rate. If you have already placed your order for feed, I cannot get you the rates mentioned above. Therefore, do not ask for feed unless you had your order for feed sent through this office and my o. k. on same. No dealer can get this rate.

Farmers who do not want as much as a car load of any feed are urged to organize and let the feed come in the name of one member of said organization. The president or secretary of the Council of Defense in each district is hereby authorized to organize the farmers in his respective district for the purpose of co-operating in this matter.

Get your order in soon and avoid the rush that is sure to come when the present crop starts rolling. I will be in the office all day on Saturdays and Mondays.

## STACY HAPPENINGS

Small Daughter of Dr. Cheatham Run Over by Auto—Thigh Broken.

Stacy, Texas, Sept. 2, 1918.  
Editor Brady Standard:  
We still continue to have sandstorms and light showers of rain. Saturday afternoon a light shower fell in and around Stacy community. Very little good will be derived from these showers except cooling the excessive heat we have been having the past week.

Dr. Manning was called to Millersview Saturday to attend the small daughter of Dr. Bert Cheatham, who had been accidentally run over by her father in his car. Her thigh was broken. The little patient was doing as well as could be expected under the conditions Sunday.

Mrs. W. A. Brown is enjoying a visit from her mother, Mrs. Bonds, of Roswell, N. M.

Maxwell Farmer of Comanche, has been a guest of Mr. and Mrs. M. Hammons the past week.

Mr. and Mrs. W. H. Miller of San Angelo, and Miss Bobbie Bonds of Roswell, N. M., were guests of Mr. and Mrs. W. A. Brown Sunday.

Guy Hammons left Sunday for Brownwood where he has a position as salesman in a gents' furnishing store.

**What's the Latest in Batteries?**

Battery improvements are every-day affairs.

Important improvements come only once or twice in a decade.

Experts agree that the most important battery improvement in years is the perfection of Threaded Rubber Insulation by Willard—the invention that indefinitely postpones the need of battery insulation.

We carry a full stock of Bone Dry Batteries—every one as brand new as the day it left the factory. You're protected against delay in getting a battery—and against getting one that isn't in every sense brand new.

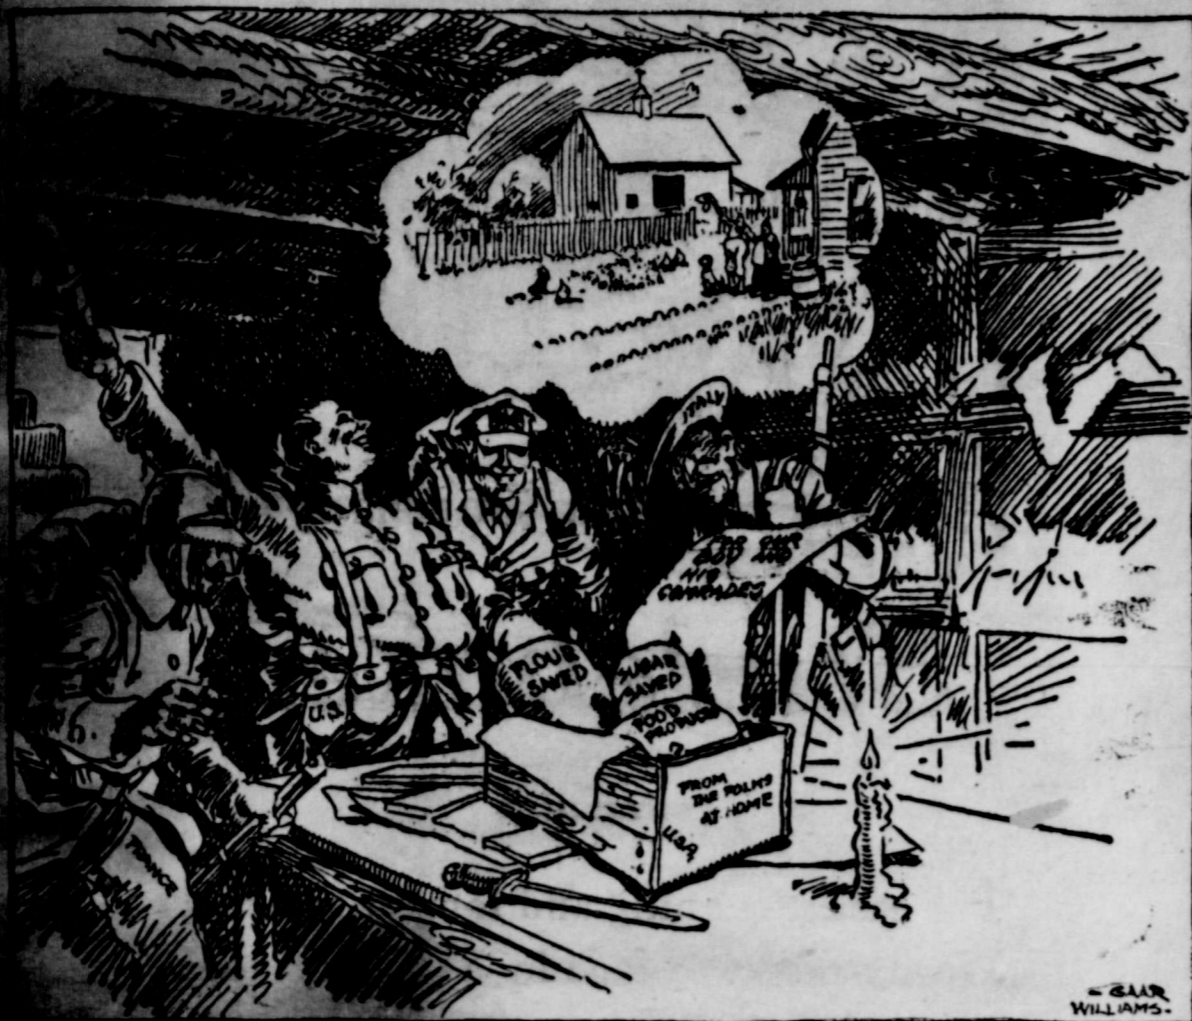

Ask for a copy of the booklet "196,000 Little Threads." It tells the story of this remarkable battery.

## A BOX FROM HOME

Drawn by Gaar Williams, Division of Pictorial Publicity.

Millions of Americans during our first year of war enabled this government to send enormous food shipments abroad for our fighting forces and the Allied nations. The result—out of a short crop—amounted to 154,900,000 bushels; all of which was sent to Europe. We increased our meat and fat shipments 844,600,000 pounds. This was our "box from home" to our army abroad and the civilians and military forces of the Allied nations.

## War Time Sweeteners

AMERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply.

They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening.

When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about one-half cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one-third tablespoons of corn sugar.

Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals. Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful.

Preserving demands this year a thin syrup instead of a heavy syrup.

If sugar is used one-half of the amount may be replaced by another sweetener.

Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps. When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gels and frozen desserts.

Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and cakes.

## SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month.  
French Pound and Half,  
Italians One Pound.

### GERMAN SUPPLY PLENTIFUL.

All Nations Permit Use of Sweetening for Home Preserving Purposes.

America's new sugar ration of two pounds a month per person is equitable when compared with the sugar ration enforced by rigid governmental order in England, France and Italy, nations with which we are sharing sugar.

Each Allied nation—in the matter of sugar consumption—is sharing on nearest possible equal terms the hardship imposed by greatly altered conditions in the world sugar situation.

Formerly classed as a luxury, sugar is now a war time essential. The fair and just division of this essential is in the hands of the various Allied food controllers.

The United States Food Administration has asked this nation to observe a voluntary sugar ration of two pounds per person a month.

In the other countries at war with Germany sugar is one of the scarce articles on every menu—whether in the households of both rich and poor, or in the hotels.

England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a half and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England or France these days and order tea or coffee they serve absolutely no sugar with it. If you want sugar you must bring it with you.

In England it is allowable to use one-seventh of an ounce of sugar in the preparation of each luncheon. In France many persons carry little sacharine tablets about with them for use in hotels and in England rich and poor must take their sugar with them if they wish to have sweetened tea while visiting friends.

Before the war started France had 625,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 180,000 acres. Today the French man or woman with a sugar card has no assurance whatever that he or she will be able to actually buy sugar. To buy it, one must first find it.

Italy Has "State Sugar."  
Especially drastic regulations govern the use of sugar in Italy. Its manufacture, distribution and sale are closely controlled, and in part actually taken over by the state.

Sacharine is permitted to be sold and used as a substitute for sugar and the government manufactures a mixture of sacharine and sugar called "State Sugar," which is largely used.

German Sugar Ration Adequate.  
Germany, before the war, produced a great surplus of sugar and exported large quantities. Today the Germans have virtually gone out of the export business, but have plenty of cheap sugar for home use.

Wholesale prices prevalent in the Allied nations, according to information received by the United States Food Administration are as follows: England, 10 cents a pound; France, 12 cents; Italy, 26 cents.

While these high prices are being paid abroad the American wholesale price is being held at 7½ cents.

## PRESENT RAIN PROMISES TO BRING END TO LONG PROTRACTED DROUGHT IN COUNTY

What so far promises to break up the long protracted drought is the general rain that began falling over this section of Texas Thursday morning at about 8:00 o'clock. The rain fell following a cool and cloudy night, and in an hour and a half's time three-tenths of an inch had fallen in Brady. Towards noon, there was every evidence of an attempt at clear weather, but in the afternoon the sky again became overcast, promising a continuation of the downpour.

The West Texas Telephone Co. reports good rains at Fort Worth, Comanche, Rochelle, Richland Springs, Eden, Lohn, Waldrip, Stacy and all the northern part of the county. Also a good rain at San Angelo, and as far east as Goldthwaite. Light rains were chell, Menard and Ballinger. The extent of the rain indicates its having been general, and it is to be hoped the present indications may develop into the much-needed soaking rain.

**For a Weak Stomach.**  
The great relief afforded by Chamberlain's Tablets in a multitude of cases has fully proven the great value of this preparation for a weak stomach and impaired digestion. In many cases this relief has become permanent, and the sufferers have been completely restored to health.

### WONDER WORDS.

Wonder, Or., Aug. 23, 1918.

Editor Brady Standard:  
It has been a long while since your readers have heard from this forsaken God, Wilderness of Sin.

Our state agricultural report states that crops are shorter than for several years throughout Oregon; and yet we have produced plenty for home consumption—and some for the boys "over there."

Today is the hottest day we have had for more than a month. It is 90 in the shade. All the first part of the month (August) was real cool. Several times we had fire in the living room—almost cold enough for frost.

It certainly makes me feel sad to think of the exodus from that part of Texas where, when I knew it, was a veritable paradise. If it wasn't so far to come for those hunting work, this would be a good place for some of them, as it is a hard thing to get hands enough here at \$3.50 to \$5.00 a day for single man, and \$8.00 to \$20.00 for man, wagon and team, according to the team of course, from two small horses to four large ones.

But everything you buy is high in comparison: Hay, \$30.00 a ton and grain \$5.00 per cwt.

How are you getting along killing ticks? Good, I suppose, as dry weather is unfavorable for such pests. But do not get too exultant. Just wait till you get a few consecutive rainy seasons, and then they will be as thick and plentiful as ever.

I don't remember when we had our last rain until last week, when it rained all day long, but the ground was so dry it is nearly all dried out again. Our last rain before that was about the last part of May or the first of June.

I believe I told you that owing to the late frosts in the spring there is very little fruit this year and that of an inferior quality.

There has been considerable forest fires this year, and our neighbors nearly all had to fight fire for several days to save their homes. A few in the county lost their homes by being away at the wrong time.

What is it that travels faster up hill than down? A forest fire.

## HERE'S A LOT OF BUNK ABOUT A LETTER—IF SUPERSTITIOUS, READ IT

At various times in its history, The Standard has had all sorts of buncombe put off on it, but the worst yet is the anonymous communication received the past week from Voca, enclosing a letter supposed to have been penned by Christ after His death, and which is popularly supposed to bring all sorts of hard luck to those who do not publish it. The Standard, in the first place, has small esteem for anonymous articles. In the second place it has no esteem whatever for these fake letters, which entail all sorts of hardships upon those who fail to do their peculiar bidding. We are publishing the letter, not because we are superstitiously inclined, but merely to show what a lot of rot people will fall for.

We're not superstitious—not a bit. We don't believe in any kind of signs, except the "Fresh Paint" and "Keep Off the Grass" signs; we don't object to walking over cellar doors (unless they're shaky) nor under ladders (unless some one is apt to drop a brick or a bucket of paint on us); we love to have black cats cross our path; the horseshoe hangs upside down over our door, and Friday, the 13th, is our lucky day.

The article says the original finder of the letter never had it published, and that for over a thousand years it went unpublished bringing all sorts of woe to its holders. Perhaps one reason the letter was not sooner published lies in the fact that Gutenberg did not invent printing from types until in the 15th century. Of course, some talented scribe like Moses might have published it on tablets of stone, but Moses died a long time before Christ's appearance on earth. But here is the letter. It is not so badly written and in itself there is nothing so objectionable except the injunction about publishing it under penalty of death and disaster. If anyone else has any of these "publish under penalty" articles, please don't send them to us—our waste basket has other uses.

### Supposed History of Letter.

The letter first was found at the foot of the cross upon which Christ was crucified. On a stone was written: "Blessed is he who shall turn me over." No one knew what this inscription meant until a child turned the stone and discovered the letter written by Christ Himself.

The letter came into the hands of a man who had been converted, and who kept it as a sacred memento of the Savior. He, however, refused to have it published according to the orders of Christ and consequently he never prospered. He kept the fact he possessed the letter a secret and on his death gave it to his oldest son. Thus the letter was kept in the family for over a thousand years, and was brought to this country by early settlers.

### More Hi Luck.

It was kept a secret by the family while they lived in Virginia, but they never prospered and ill luck continually followed them as it did their ancestors until it was published in the Tribune of Rome, Ga., Oct. 31, 1891.

In the letter are written the commandments of Christ, signed by the Angel Gabriel, ninety-nine years after the Savior's birth, so the legend goes.

### The Letter.

"Whosoever works on the Sabbath day shall be cursed. I command you to go to church and keep holy the Lord's day without any manner of work. You shall not idle or mispend your time in bedocking yourselves in superfluities of costly apparel and vain dressing, for I have ordered it a day of rest. I will have that day kept holy that your sins may be forgiven you. You will not break my commandments, but observe and keep them, they being written by my hand and spoken by my mouth. You shall not only go to church yourself, but your man servant and your maid servant. Observe my words and learn my commandments. You shall finish your work every Saturday at 6 o'clock in the afternoon, at which hour the preparation for the Sabbath begins. I advise you to fast five Fridays in the year, beginning on Good Friday and continuing the five Fridays following in remembrance of the five bloody wounds I received for you and mankind. You shall love one another and cause them that are not baptized to come to church and receive the holy sacrament, that is to say, baptism and the supper of the Lord and be made a member thereof, and in so doing, I will give you a long life and many blessings. Your land shall be replenished and bring forth abundance and I will comfort you in the greatest temptation and surely he that doeth to the contrary shall be cursed. I will also send hardness of heart on them and especially on hardened and unpenitent unbelievers. He that hath given to the poor will find it profitable. Remember to keep holy the Sabbath day for the seventh day I have taken as

a resting day to myself.

The Injunction.  
"And he that hath a copy of this letter, written by my own hand and spoken by my own mouth, and keepeth it without publishing it to others shall not prosper; but he that publisheth it to others shall be blessed by me, and if their sins be as many as the stars of the night, and if they truly believe they shall be pardoned, and they that believe not this writing and my commandments will have my plagues upon you and you will be consumed with your children, goods, cattle and all other worldly enjoyments that I have given you."

When the bowels feel uncomfortable and you miss the exhilarating feeling that always follows a copious morning operation a dose of HERBINE will set you right in a couple of hours. If taken at bedtime you get its beneficial effect after breakfast next day. Price 60c. Sold by Central Drug Store.

## LENERT'S ORATORY BRINGS 82 BOCHES INTO YANK LINES.

This is the story of Private Frank Lenert, a sleepy-looking flat-footed, 19-year-old marine from Chicago, who emerged from Belleau Woods with 82 Boches as his personal prisoners.

Lenert's battalion had been in the thick of the fighting which had been preceded by a series of hitly contested advances since a little after sundown. He himself, in the height of the excitement had got astray from his company and, confused in his bearings he was looking for his own people again in the darkness of the woods when he stumbled into a German machine gun, knew as much by the way they fell upon him.

The Boches dragged their lone prisoner before their captain, who put him through a hurried examination—an examination carried on in German, for Lenert can speak German.

Lenert did not know much but he tried a few details upon his inquisitor, and, noting the profound effect they seemed to have, he quite warmed up to his story. He bent over the map they showed him, and reluctantly described the positions of various American regiments till he had conveyed the impression to the already unhappy captain and this nest of Germans that they were practically surrounded.

"And I want to get out of here," Lenert went on with growing conviction. "There's a lull now, but they're going to turn the artillery on this patch of woods and blow it to bits. I don't want to be here. I don't want to be here."

With this piece of final information **Heap Big Powwow.**

With this final piece of information to consider, the captain withdrew a little and held a great powwow with his three lieutenants. The council of war did not last long, and very likely was the concluding session of one held a little earlier, the maturing of a plan already considered. A moment later and Private Lenert was startled and a little embarrassed by having the German captain formally surrender to him. He took the proffered automatic, flourished it several times and squared his shoulders.

"Throw down your arms," he said boldly, and the soldiers, who were entirely in sympathy with the proceedings, discarded their weapons with alacrity. They were seventy-eight of them.

"Any more?" Lenert asked. The captain admitted there might be a few more left, but they were stowed away in dug-outs and outposts, and would have to shift for themselves. There was no time to lose.

**Leading His Flock.**

"Come on, then," said the marine, and, in scandalous contravention of the approved methods, brandished his newly acquired pistol, and led rather than drove his prisoners forth. His sense of direction had been improved considerably by his study of the map, and when he became confused once on the way back the captain proffered his compass, and they soon had their bearings again.

It was like that all the way through an affable party, with the Germans doing double time every once in a while when they feared they might not get as thoroughly captured as they had decided, by this time, they wanted to be.

The first point they struck was the headquarters of another regiment, for Lenert did not know his own command had vacated their premises and moved on elsewhere. He got his new directions and started on.

"Need any guards?" they asked respectively.

"Don't need any guards," he replied, "but I'd like a couple of guides." "I got some prisoners."

So his staff was increased by two and off down the road the strange procession moved.—From The Stars and Stripes, printed in France.

BRADY, TEXAS, Sept. 6, 1918

## HONEST INJUN—

It's a dry as a powder house in West Texas, which may be the reason that some folks have the idea West Texas may be "blowed up."

## THE DROUTH RELIEF.

The drouth relief for West Texas seems to be lagging considerably. The Dallas News' suggestion that 1,000 firms and individuals in Texas each give \$1,000, thereby creating a fund of \$1,000,000 for relief appears a good solution—but so far less than \$40,000 has been raised by this method. Governor Hobby has taken charge of the drouth relief, and last week held a conference with the State Council of Defense. Instead of setting about and perfecting plans for the distribution of funds to be raised in Texas for Texans, the council cloud-matters by appealing to the Government for federal aid, which most of the state papers declare will be hard to get and a long time forthcoming.

The government, it is true, has been doing good work in directing drouth sufferers to places where employment is to be had, but in so doing, it has also drawn the people away from West Texas, and has almost stripped the country of its population. As some of those who are thinking about leaving express it, "If I leave, I am never coming back." The government realizes the bad consequences of this, and so has instructed its agents and representatives to avoid this as much as possible in the future. From now on, all wagons passing through counties will be stopped and investigated, so that the occupants may be certain to be on the right road to work. Also the heads of the families will be urged to leave their families at home to take care of their home place. The shipping of live stock out of the country by people who expect to be only temporarily absent, is also frowned upon by the government.

What West Texas needs is to keep her population. The relief she should be given is to provide work in West Texas for the people of the drouth-stricken area. Roads should be built, public works should be undertaken and every encouragement should be given to keep the people in West Texas, until nature again provides the regular employment for the people. Some counties are already doing extensive road work, and are giving employment to large numbers of their citizens. McCulloch county has a large sum of money tied up awaiting promised and expected federal aid in order to construct the Puget Sound to the Gulf highway through the county—but the federal aid has failed to materialize, and the county's funds cannot be touched since they have been pledged for the specific purpose of improving this particular highway.

Now, if ever, is the time when employment is needed in West Texas—by West Texans. The people of all Texas can help in the matter of providing employment, and by the time the rains come, arrangements can be made to supply funds for the purchase of seed and other necessities, through the federal banks and other agencies. But unless something is done to keep the people in West Texas there will be scarce any left to need aid when reasonable times again appear.

## HELP THE DROUTH SUFFERERS

Governor Hobby has issued a call to all the people of Texas to rally to the relief of the thousands of drouth sufferers in West Texas.

This appeal is one that cannot go unanswered if many of our unfortunate fellow citizens of the western section of the State are to escape starvation.

The situation is pretty well known. The third successive year of drouth finds the farmers without products to sustain them or their farm animals and without credit to carry the burden further.

As to the amount needed, an indication is supplied by the action of the State Council of Defense asking Congress for an appropriation of \$50,000,000.

That appeal to Congress, however, must not mislead the people of Texas. It is highly improbable that Congress will appropriate \$50,000,000 or even \$1,000,000 for the purpose. Therefore, such relief as these people obtain will have to come from the people of Texas.

And it will require every cent that every humane and generous person in the State can spare to supply the needs of the sufferers.

The Post assumes that the Governor's request for local organizations to raise funds will be adopted, but there is nothing to restrain people from remitting contributions direct to Governor Hobby and doing so immediately.

Already a dozen citizens and corporations of Dallas have contributed \$1,000 and smaller contributions are pouring in, so dispatches from Austin tell us.

Houston has never been backward in responding to such appeals for succor when convinced that help was needed.

Governor Hobby vouches for the urgency of the need, and he has volunteered to assume the direction of relief measures.

It only remains for every citizen to help, and no contribution will be so large that it will cover all the needs of the sufferers, nor will any contribution be too small to be of service.—Houston Post.

## SUMPIN' ROTTEN IN COPENHAGEN.

P. T. Barnum said a mouthful when he remarked: "The American public likes to be humbugged." Here we, "the plain peepul," have been astride the necks of the big corporations for lo these many years, and have been making them toe the chalk line. The packers in particular have been receiving our respects, and their profits have been limited by the Food Administration to 9% and we swelled up with righteous pride at what we have done to the greedy, grabbing packers. Then Senator Sherman of Illinois, in addressing the Senate in criticism of the Federal Trade commission's recent report condemning the packers as a monopoly making excessive profits, was thoughtless enough to jerk the wool from our eyes and give publicity to the statement that our own Henry Ford's company in 1916 made no less than 29.5% profit.

This is sure a croo-el world and us reformers haven't come to the end of it yet.

## CLEVER I. W. W.

About the only clever thing we ever heard of an I. W. W. member doing, happened the other day at the conclusion of the trial of 100 members of that organization at Chicago the end of last week. Federal Judge Landis imposed sentences on "Big Bill" Haywood and the 99 other convicted members, the sentences ranging from 20 years in the Federal prison at Fort Leavenworth and \$20,000 fine, down to ten years imprisonment.

Benjamin Fletcher of Philadelphia, the only negro member on trial, grinned broadly, showing all his teeth, when he was sentenced to ten years, and as he was led away, he got off the following illuminating remark: "Judge Landis is using very poor English today. His sentences are too long."

## LAW AND W. S. STAMPS.

Thrift stamps, War-Savings stamps and Liberty bonds are the cause of evolving some unique plans to insure their purchase. In Fort Worth some folks who have run afoul the law have been allowed to go their way rejoicing upon promise to buy War Savings stamps or Liberty bonds.

It remained for a police judge out in El Paso, however, to put in effect the plan to require the payment of fines of those found guilty on technical charges, in War-Savings stamps. The court believes in giving a start in the right direction to the offender—personal economy. "The best way a man can help his country and himself is to buy War-Savings stamps," epitomizes this judge.

## THE SUBSCRIPTION ADVANCE.

Without question many readers of The Standard have thought our announcement of an increase in the lar time was ill-chosen, and in a sense it was. The time for announcing an advance in subscription price was a year ago when the price of paper, type, ink and every manner of material going into the makeup of a newspaper, not to mention wages, soared to such unheard-of heights. On account of the unfavorable times, however, we maintained the old subscription rate, hoping that another year would make the occasion more opportune for an increase—and meantime bore the resultant loss ourselves. Instead of improving, the times have gotten worse.

Last year we could make up for the loss on subscriptions out of the advertisements—but this year there is offered no such opportunity. As a consequence of the drouth, our revenue from local advertising has been cut down to an insignificant figure. Our foreign advertising has been cut down to practically nil, not on account of the drouth, but because the government has taken over the output of practically all the large manufacturing establishments. There will be no more tire advertising, automobile advertising or advertising of nationally famous articles until after the war. Hence our advertising will not sustain the burden of increased operating expenses with an added loss on subscriptions.

In future each tub must stand on its own bottom. The subscriptions to The Standard must bear their proportion of the increased expenses.

We might add that McCulloch is the only county in this section of Texas whose papers have so far maintained the dollar rate. The neighboring papers that have raised their price to \$1.50 include The Mason News, Menard Messenger, Coleman Democrat-Voice, Brownwood News, San Saba News, Granbury News, Stephenville Empire, and practically every standard, home-print paper in this part of Texas.

## GOVERNMENT WASTING PAPER.

"No one who knows anything about the flood of publications that pours out of Washington can doubt that tons of paper are wasted every day. The Government prints too much, distributes heedlessly and extravagantly what it prints, and exhibits in all its publication activities far less coordination and control than are urgently needed."

Thus the New York Evening Post comments on the recent debate in the House on the abuse of the privilege of extending remarks in the Congressional Record. Certainly the Government is the most flagrant waster of paper in the country and this applies equally to the legislative and executive departments. Congress is beginning to do something toward economizing on the Congressional Record, by curtailing matter to be printed in it. Whether it will go further and limit the number of copies a member may use for campaign purposes, remains to be seen. But it has made a start.

This being true the various departments and bureaus in Washington which send out daily a flood of practically useless printed matter to the newspapers should be looked into. The Government's publicity could be so systematized that it would be twice as effective with at least half the paper which it now uses.—Fort Worth Star-Telegram.

One hundred and fifty teams are employed in hauling gravel for road building in Mitchell county. That is one way of aiding drouth sufferers and other counties could well afford to follow Mitchell county's example.—The Coleman Democrat-Voice.

Read and be guided in your purchases by the official price list in this issue, compiled and authorized by the Price Interpreting committee for McCulloch county.

We don't want to be unduly pessimistic, especially now since Menard has got her water back in the river, but it must be dern hard to live in a place so dry it's 40 miles to the nearest fishing worms. Then, worse yet, to have to pay a \$1.50 for a dime can fall.

## The Which No Publisher Can Deny.

If we don't cut down the local news and devote considerable of our space to the matter furnished by the various war organizations, we are unpatriotic; if we don't cut out the matter for the war organizations and devote the space to local news there is nothing of interest in the paper; if we don't hustle like blazes and devote considerable of our space to advertising, we can't pay our bills and our creditors say we are dead beats and refuse to send us any more paper, ink or type. That's the position we are in at present.—Sunfield, Mich., Sentinel.

## GERMAN TONGUE IS TABOOED IN PUBLIC IN BRADY

The Brady city council at a special meeting held last Friday adopted a resolution prohibiting the use of the German language over the telephone or in public anywhere within the city limits of Brady. This action is in accord with similar action taken practically all over the United States.

The council also filed a protest with Postmaster General Burleson against the increase in telephone rates to subscribers in Brady. All telephone and telegraph lines are now under government control, with Burleson at the head, although they continue in charge of the company by which they are owned. So far Burleson has taken no stand on the matter of increased rates adopted by the telephone companies in Texas, but something definite is expected by the 15th of this month.

## JACK COE ONE OF THREE BROTHERS FIGHTING FOR UNCLE SAM IN FRANCE.

June Coopender is in receipt of the following clipping from a Muskogee, Okla., paper, in which mention is made of the wounding of Clint Coe, brother of Jack Coe, formerly of this city. As stated in the newspaper article, three of the Coe boys are in the U. S. army in France.

"Washington, D. C., Aug. 5.—George W. Coe, East Muskogee, Okla.—Deeply regret to inform you that it is officially reported that Private Clint Coe, infantry, was wounded in action July 19, degree undetermined. Department has no further information.—McCain, adjutant general."

Less than a week ago this telegram brought word to the Coe family of East Muskogee that the first of the three sons Mrs. Coe had given to her country had been wounded. All three of the sons are in France. Mrs. Coe has only one son who is not in the army. He is married and is in class two.

Of the sons who are in the service, Jack, the eldest, is a corporal in the famous Rainbow division. He enlisted in the service in August, 1917, and made a tremendous sacrifice to serve his country for he is married and has a little daughter who is now five years old. When he decided that he could not resist the impulse to enlist his wife proved her patriotism by telling him to go while she secured a position as stenographer. She is now in Texas, at work while her husband fights.

Clint the second son, who was injured last week is also a corporal. He enlisted last February and is in

## Co. C., Fifty-eighth infantry.

The youngest of the three boys, Dess, is in Co. F, Three Hundred and Fifty-eighth infantry. He, too, is in France. He was in the first lot of drafted men to leave Muskogee and after he went in training at Camp Travis was sent to the hospital, suffering from an injury to his leg, caused by the shock of the big guns used in practice. He was in the hospital when his regiment was ordered to entrain for the east and was told he was not in a condition to go with his company and that he would be left behind. He raised a storm of protest that the medical authorities finally allowed him to leave with the rest of the regiment.

Mrs. Coe is very proud of her three boys who are fighting for the cause of liberty in France and is a spartan mother who bore bravely the shock of learning that one of her sons had been wounded.

**The City of Splendid Buying Opportunity for Fall of 1918**

Brownwood—the Natural Trading Center for this whole section of Texas, finds herself possessed of great stocks of merchandise, and an extra preparation for service by her many establishments. This condition is due largely to the fact that her business interests have been encouraged, by the Oil Boom, to buy heavily—and early.

Two hundred thousand persons who live in the Counties that surround Brownwood and Brown County will find here the best Retail and Wholesale buying opportunities in this entire portion of the State.

Brownwood's stocks at this time—the beginning of the Fall and Winter buying season—are complete; they are well-rounded, well-bought, fairly priced, and embraces all that is needed by the individual, the family, and even the community. Brownwood has emerged from the "big town" class and is now proudly able to offer the same advantages as are usually found only in the large cities, with the added advantage of a less price.

The biggest reason you should come to Brownwood to trade is because of the extra preparations that have been made for serving you—the biggest stocks in all her history—backed by an organized service that will make your buying a pleasure and a visit to Brownwood really profitable. Brownwood is most easily reached by the people who live in the fifteen counties of which Brownwood is the logical and geographical center; the stocks here are the only ones in this whole portion of Texas.

at which time the Woman's Missionary society presented a service flag to the church. The flag contained 37 stars, each one representing a member of the Sunday school, or a member of the family of some Methodist affiliated with the church. A red star in the center of the flag represented Miss Sallie Miller, who has volunteered as a Red Cross nurse, and a silver star, Odum Martin, who has been wounded in battle.

E. C. Berry, who has so efficiently filled the position of assistant postmaster at Brady, last Saturday completed his duties in that capacity, having resigned the place in order to seek his fortune farther west. Mr. and Mrs. Berry leave the latter part of this week for Lampasas where they will visit her relatives for a short while, and then will go to Vernon, Ariz., to visit his father, F. M. Berry, who is now located in that country. Mr. Berry expects to take up a homestead somewhere in Arizona and make his home there permanently. While regretting to lose this estimable family, none but the best wishes of their friends accompany them to their new home.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**HOME SERVICE SECTION RED CROSS WILL ARRANGE FOR CARE SOLDIERS' FAMILIES**  
In view of the fact that so many of our men are being sent to the army, and our county is suffering from the prolonged drouth, the Red Cross chapter wishes to impress upon the minds of the families of these men that the Home Service Section is organized with just one purpose—to see that the families of all soldiers and sailors are maintained in comfort and peace of mind, so that the soldiers representing that family may be of peaceful mind concerning their people left at home.  
Therefore we urge people of soldiers who are in trouble, financially or otherwise to let it be known to our Home section, represented by our chairman, Mr. Howard Broad, and any service in our power will be cheerfully rendered.  
Any person reading this notice who might not be a subscriber of this paper, will confer a favor on us, and on them, by reading this notice to them.

Five Hundred Club.  
Mrs. G. R. White was hostess to the following members of the Five Hundred club last Friday afternoon: Mesdames J. S. Anderson, C. D. Allen, Dick Winters, J. S. Wall, C. T. White, F. R. Wulff, G. C. Kirk.  
Two tables were provided for "500," Mrs. C. T. White receiving high score and the Red Cross dollar.  
The hostess served a salad course.  
Mrs. Wulff has the club with her this afternoon.

E. B. Ramsay has faith in McCulloch county, and is even now preparing to get in on the ground floor of the prosperity wave when it comes. Recently while in Dallas, Mr. Ramsay purchased a new cylinder head for his big tractor engine, and says he is going to be ready to move houses, haul out well rigs and material, and do plowing for the people when the rains come. Mr. Ramsay says the rains are sure to get here, and when they do come there is going to be need of extensive and immediate plowing, and he is going to be ready to perform this service.

For the first time in history all Brady garages were closed all day last Sunday. The garages are also observing early closing hours on each week night, except Saturday night. This change is in accord with the requests of the fuel administrator, and may be the forerunner of action already taken east of the Mississippi river where the public has been called upon to stop using gasoline for automobiles, motor boats and all pleasure vehicles on Sunday. If the people voluntarily fail to comply with the request, the Fuel administration now threatens to enforce prohibitory regulations.

F. Y. Jackson returned Monday evening from Houston, where he has been the past several weeks and announces his removal to that city the end of the present week. Mr. Jackson has a splendid position as assistant cashier with the Houston Cotton Oil Co., which has induced him to decide upon leaving Brady. Mr. Jackson and family have many friends in and about Brady, all of whom will regret to note the departure of these splendid people, but who are nevertheless pleased to learn of this splendid recognition of his ability and worth. The Standard joins in extending best wishes to them in their new home.

**S. S. Class Enjoys Picnic.**  
Members of B. D. Black's Sunday school class enjoyed a very pleasant outing on the river last Tuesday night. Games were played and contests were had, the picnic concluding with refreshments. The boys had provided soda pop, and the girls cake, both of which were greatly enjoyed. Participating in the picnic were the following: Misses Ruth McShan, Bernice Hall, Fannie Jones, Sybil Shropshire, Inez Day, Stella Tra-week; Messrs. Herbert Marshall, Sabine Marshall, Irvine Marshall, Schubert Robbins, Raymond Plummer, Eklund, Lewis Bell, B. D. Black.

Mrs. E. A. Allcorn has returned from Comanche, where she spent a very enjoyable visit with her sister, Mrs. Gray. The trip and visit was all the more remarkable and enjoyable on account of the ages of the parties, Mrs. Allcorn being 80, and her sister 82 years of age. Mrs. Allcorn's brother-in-law, Judge Gray, is himself 90 years of age, but is just as active as a young man. He is president of one of the Comanche banks, and takes active part in the transaction of the bank affairs. During the past seven years he has missed the semi-monthly meetings of the directors only one time.

### BRADY MAN WRITES OF EXCITING EXPERIENCES ENROUTE TO LEE HALL, VA.

The following letter has been received from Jim Mayes, formerly of the Brady hotel, who was among the number who went to Lee Hall, Va., to work at the government artillery cantonment at that place. Mayes gives a rather interesting account of the trip and the incidents enroute. His letter reads as follows:

This letter will indicate that I haven't forgotten dear old Brady.

I left Brady Friday night, August 17th. Arrived at Fort Worth next morning and left there August 19th, at 11:45 over the M. K. & T., and arrived in St. Louis with 1600 men in 17 coaches—all Texas boys, picked up at Brownwood, Fort Worth, Denton, Denison and Wichita Falls, Texas.

In St. Louis they scattered all over one mile or more. We left there over the Southern railroad through Illinois, Indiana, Kentucky, West Virginia.

At St. Louis we went through a very large and long tunnel. In Kentucky and West Virginia we went through 18 tunnels, the longest being 2 miles. We saw many great sights. Oh, such large rivers.

The boys acted very bad at St. Louis—they filled up on bad whiskey and we left 128 of them there. At Louisville, Ky., we left 60 more; at Lexington, Ky., we left 40 more; at Charlotte, Va., a boy from Amarillo killed two negroes that we got at Fort Worth.

Now, listen please, don't let a Mr. Bailey fool any more of the good, old Texas boys away from their homes. They are doing nothing hardly what they promised. They pay \$3.85 per day, 10 hours' work; no overtime at all, and 100,000 men here from all parts of the globe. I am now working for \$3.85 per day, and paying \$7.00 per week board. Carpenters are getting 80c per hour for work, but they must measure up or they get \$3.85.

North Newport News, Camp Hill, Va. 75,000 negroes camped here.

EDITOR'S NOTE—Mr. Mayes is mistaken in saying that Dr. Bailey misrepresented matters. Dr. Bailey offered 35c an hour for eight hours' work, which amounts to \$2.80 per day. Two hours' overtime at time and a half, equals \$1.05, which brings the total up to \$3.85 for a ten-hour day. The board is the same as stated by Dr. Bailey, and it is to be admitted that carpenters must be able to measure up if they expect 80c per hour.

### CHILDREN'S KIDNEYS.

No Brady Mother Should Neglect the Little One's Health.

Often weak kidneys cause great annoyance and embarrassment to children. Inability to control the kidney secretions, at night or while at play, is attributed to carelessness and too frequently the child is punished. Parents having children troubled with kidney weakness would do well to treat the kidneys with a tested and proven kidney remedy. If there is pain in the back discolored urine, irregular urination, headaches, dizzy spells or a tired, worn-out feeling, try Doan's Kidney Pills at once. A remedy that has been used in kidney troubles for over 50 years and has been recommended by thousands. Proof of merit in a Brady citizen's statement.

Mrs. Lee McShan, Brady, says: "A younger member of my family was afflicted with kidney trouble. Her kidneys acted too freely, especially at night and this was very annoying. A neighbor advised me to give her Doan's Kidney Pills and I did. The first box brought relief and after the use of two boxes, her kidneys haven't caused any trouble."

### GOVERNMENT TO DIRECT PEOPLE SEEKING WORK. INVESTIGATE TRAVELERS.

Dr. Chas. A. Bailey, government employment agent, is in receipt of the following message from Capt. J. T. Dickson, inspector at Brownwood. As will be noted from the message, the government is determined to direct people to places where employment is to be had, and people traveling through the counties will be required to state their destination and give an account of themselves. This will avoid danger of large numbers coming to a place where the employment is insufficient for the numbers. The government also warns the people to leave their livestock at home and not try to ship it or take it out of the county. Also the government is impressed with the necessity of leaving the families at home to take care of the home place in the absence of the others. In other words, the government is determined to "Keep the Home Fires Burning."

The following is the copy of the message received from Capt. Dickson:

"A telegram from Federal State Directory orders that no wagons be allowed to pass out of or through your county without being investigated and cleared through your office. Get names, ages and address and forward to this office. Try to get the men to leave families at home to take care of places. Permit no labor agent to recruit independently of your office."

### BOYD RAINBOLT GASSED ALSO ON JULY 19TH—LETTER WRITTEN WHILE IN HOSPITAL

Word has been received by Mrs. Joe McCall that her brother, Boyd Rainbolt, was gassed in the drive of July 19th, the same drive in which Collis Campbell was gassed. The letter was written by Boyd from the hospital on July 20th, the day after the drive started. Neither the name of Rainbolt nor Campbell have appeared in the casualty list, and this gives rise to the hopes that the effects of the gassing were not serious. No further word has been had from Boyd. In his letter, however, he stated that the open warfare was much worse than trench fighting. Boyd had been in the trenches three times up to the time of being gassed. He is in the 84th company of the marines, while Odum Martin was in the 82nd company. Campbell was in Co. I. As an indication of the bloody nature of the fighting done by the marines in their drive on July 19th, it might be stated that the Temple Telegram reported the 82nd company had lost every one of its officers.

# THE TEXAS OIL FIELDS

A WORD WITH THOSE WHO OWN AND OPERATE THEM, or who wish to become identified with them—HOW CAN WE CO-OPERATE in our mutual interest? Permit us to suggest—

HOUSTON has the TEXAS, LOUISIANA, MEXICAN, OKLAHOMA and KANSAS PETROLEUM FIELDS, from which to draw... THE COTTONSEED, PEANUTS and CASTOR BEANS of the same zone, and the COCOANUTS of the TROPICS—HER GREAT SHIP CHANNEL furnishes unsurpassed sites for REFINERIES, OIL MILLS, STALL FEEDING PENS, AND PACKING HOUSES. HER SHIP CHANNELS PUTS HER IN TOUCH WITH EVERY PORT ON EARTH, by tide-water. HER GREAT RAILWAY SYSTEMS will ultimately connect her with EVERY RAILWAY STATION ON THE CONTINENTS OF THE WESTERN HEMISPHERE. GREAT PIPE LINES are being constructed to CONNECT HER WITH THOSE FIELDS.

HOUSTON CAPITALISTS have been long enough identified with the oil industry to know the great wealth producing possibilities, and are ready to aid in financing those of real merit. THE REPRESENTATIVES OF THE LARGEST OIL INTERESTS OF THE GLOBE are gathering here for headquarters. What other port on earth offers such an array of facts to ENTERPRISE CAPITAL, to make of it THE WORLD'S CENTER? HERE IS THE PLACE TO MAKE YOUR CONNECTIONS.

If you wish to engage in the oil industry, we can furnish you SITES FOR REFINERIES AND OIL MILLS. LANDS TO DRILL PRODUCING OIL PROPERTIES. PRODUCTION BOYALTIES. Draw your papers and obtain your CHARTERS FOR YOU, under THE LAWS OF TEXAS, and secure CAPITAL TO AID THE LEGITIMATE OIL INDUSTRY that has sufficient development to demonstrate that it possesses real merit, the owner of which is willing to give capital an equitable division in the enterprise. If you wish to EXAMINE THE MAPS of the different fields, or the counties in which they are located, we have them.

If you want to BUY IN, or SELL OUT, an INTEREST in any property, and do not want to be known in the transaction, if we are situated so as to permit us to take the business, we will give it our best capacity.

If you are a LAND OWNER, you will find it to your interest to COMMUNICATE WITH US.

(a) If you wish to SELL YOUR LAND, OR TO SELL THE MINERAL RIGHTS in it, or to DIVIDE THE GAMBLE, by selling part of your mineral rights and get some READY CASH NOW and hold part, or if you want to get it drilled for oil and other minerals, or if you have contracted your mineral rights and are not getting SATISFACTORY RESULTS, if you want your LAND SURVEYED, if there are DEFECTS IN YOUR TITLE and you WANT THEM CURED.

(b) If you WANT TO BORROW MONEY ON YOUR LAND in sums of less than \$100,000, the FARM LOAN BANK is in HOUSTON, and is your best source to acquire money at LOW INTEREST and ON LONG TIME. I can serve you in the details necessary to secure loans from this bank. If you want to borrow MONEY IN SUMS OF \$10,000 up to \$100,000 or more, and your lands are good security for it, I can get you the money.

If you see A BUSINESS POSSIBILITY FOR YOU, in this ad., suggest it to me, and let us SEE IF WE CAN DEVELOP IT, in our mutual interest.

### REV. HJALMAR SANDSTROM GOES TO FORT WORTH AS PASTOR SWEDISH CHURCH

Rev. Hjalmar Sandstrom, for the past year or more in charge of the Swedish church at this place, has accepted the pastorate of the Swedish M. E. church at Fort Worth, and has gone to that city to take up his work there. The Star-Telegram last Sunday published a splendid likeness of the pastor, together with the following mention of his coming to that city.

"Rev. Hjalmar Sandstrom, new pastor of the Swedish M. E. church, Broadway and St. Louis, will preach his first sermon at 11 a. m. today. The night service will be in English at 8:15.

"Rev. Sandstrom is a graduate of the Swedish theological seminary of Evanston, where he finished in the class of 1917. He came to Fort Worth from Brady, where he served a year. He fills the vacancy caused by the appointment of C. F. Thornblade to district superintendent by the bishop of the Eastern Swedish conference for Brooklyn and Greater New York."

Leyendecker Original Grantee.  
That Plaintiff is still the owner and  
entitled to the possession of said  
lands and premises.  
SECOND.  
That while this plaintiff was such  
owner and in possession of said lands  
and premises the said defendants and  
each of them with force and arms  
unlawfully and wrongfully entered  
upon said lands and premises and  
with force and arms unlawfully and  
wrongfully ejected this plaintiff there-  
from, and still unlawfully and wrong-  
fully and with force and arms with-  
hold possession thereof from this  
plaintiff to his damages in the sum  
of \$10,000.00.  
THIRD.  
That in addition to his title to said  
lands and premises in fee simple  
from and under the sovereignty of the  
soil this plaintiff is the owner and en-  
titled to the possession of the said  
lands and premises under and by vir-  
tue of the five years statute of limi-  
tations; that he and those whose es-  
tates he has and holds have had and  
held actual, peaceable, adverse, con-  
tinuous and uninterrupted possession  
of the said lands and premises under  
an enclosure, cultivating, using and  
enjoying the same, claiming the same  
under deeds duly registered and pay-  
ing all taxes on the same for more  
than five years next before the said  
unlawful entry of the said defendants  
or either of them and next before  
the institution of this suit.  
FOURTH.  
That this plaintiff in addition to  
his title to the said lands and pre-  
mises in fee simple from and under  
the sovereignty of the soil is the own-  
er and entitled to the possession  
thereof under and by virtue of the  
ten years statute of limitations in  
that he and those whose estates he  
has and holds have had and held ac-  
tual, peaceable, adverse, continuous  
and uninterrupted possession of the  
said lands and premises, cultivating,  
using and enjoying the same for more  
than ten years next before the said  
unlawful entry of the said defend-  
ants or either of them and next be-  
fore the institution of this suit.  
FIFTH.  
That the said defendants and each  
of them are asserting some kind or  
character of right, title, claim or in-  
terest in and to and lien upon the said  
lands and premises, the nature of  
which this plaintiff does not know  
and is unable to ascertain, but that  
all such claims asserted by each and  
all of the defendants herein are fic-  
tious and fraudulent and a cloud  
upon the title of this plaintiff and he  
is entitled to have the same cancell-  
ed by the judgment of this court.  
WHEREFORE, Premises consid-  
ered, Plaintiff prays for citation to  
the defendants and upon hearing  
hereof that he recover judgment  
against the defendants for the title  
and possession of the said lands and  
premises, and his writ of possession  
and judgment cancelling all claims  
and interests asserted by each and  
all of the said defendants and for

costs and general and special relief,  
at law and in equity and will ever  
pray.  
Herein fail not, and have before  
said Court, at its aforesaid next regu-  
lar term, this writ with your return  
thereon, showing how you have exe-  
cuted same.  
Given under my hand and the Seal  
of said Court, at office in Brady,  
Texas, this 7th day of August, A.

FEDERAL DROUTH AID  
BILL INTRODUCED BY  
BLANTON—\$50,000,000 FUND  
Washington, Aug. 29.—Representa-  
tive Blanton of Texas, today rein-  
troduced his drouth relief bill, making  
it applicable only to Texas, and pro-  
posing \$50,000,000 for loans to farm-  
ers and stockmen. Farmers will re-  
ceive a maximum of \$5 an acre for  
purchase of seed, feed and supplies in  
making an essential crop. Stockmen  
would receive a loan of \$10 a head on  
cattle for the purchase of feed and  
for moving to new pastures.  
The Government would take a mort-  
gage on the farmer's crop, and where  
he is a tenant, the owner of the land  
be required to join in the obligation,  
the Government being reimbursed out  
of the proceeds of the crop. The Gov-  
ernment's mortgage in the case of  
live stock would only be second to  
bona fide liens upon the cattle that  
existed on Sept. 1, 1918.  
No application would be granted  
until approved by a county board  
composed of the County Judge, mem-  
bers of the Commissioners' Court,  
Tax Assessor and Collector and the  
emergency farm demonstration agent  
of the Government. All transactions  
would be through the Dallas Federal  
Reserve Bank.  
It is proposed that loans be ad-  
vanced so that emergency crops may  
be produced, the fund to be adminis-  
tered by the Federal Reserve Bank at  
Dallas.  
The drouth covers 150 counties, it  
is stated. Hundreds of ranches are  
wholly without grass and water and  
cattle have been mortgaged to their  
full value for feed, which is exhaust-  
ed, the bill recites.  
To feel strong, have good appetite  
and digestion, sleep soundly and enjoy  
life, use Burdock Blood Bitters, the  
family system tonic. Price \$1.25.

**FIRE PARTIALLY DESTROYS  
B'WOOD STEAM LAUNDRY  
STOBAUGH BROS. PROPS.**

Friday morning at about 7 o'clock  
the fire department was called to the  
Brownwood Steam Laundry on West  
Broadway. The fire, from an un-  
known origin, broke out in the rear  
of the building, and the flames spread  
quickly, causing almost a total de-  
struction to the plant and equipment.  
The Brownwood laundry, formerly the  
Selvidge Laundry, was owned by Sto-  
baugh Bros. The plant was valued at  
\$8,000 to \$10,000 and was partially  
insured. Some of the heavier machin-  
ery may be salvaged from the fire al-  
most intact, but the plant generally  
is badly damaged and the loss to the  
proprietors is considerable. They  
will reopen the laundry as soon as  
the place can be cleaned and rebuilt  
and new machinery obtained.  
About twenty people, mostly girls  
and women, are temporarily out of  
employment.  
The loss in clothing and linen be-  
longing to the patrons of the com-  
pany is thought to be light, as much  
of the week's laundry on hand was  
delivered Thursday evening. Had the  
fire occurred a day earlier the loss  
in garments and linen would have  
been very considerable.—Brownwood

CAPTURE OF 700.**  
WITH THE AMERICAN ARMY IN  
FRANCE, Aug. 27.—The capture of  
700 Germans is the exploit attribut-  
ed to Pierre Cellier, 23, a corporal in  
the French Tank Corps. Two field  
pieces were also taken.  
Cellier has been awarded the Cross  
of the Legion of Honor, a reward  
rarely given to anyone but a com-  
missioned officer.  
Cellier was in command of a tank  
manned by sixteen Americans in the  
recent fighting in the Marne salient.  
A shell struck the tank and rendered  
it useless. The men then advanced on  
foot. Cellier discovered the Germans  
ambushed in a cave. He kept guard  
at the entrance for an hour when a  
German appeared with a white flag.  
Behind the first one came the rest of  
the 700, one by one. The Germans  
threw down their arms before Cellier  
and marched to the rear at his direc-  
tion.

# Government Orders

## Country Newspapers Ordered to Consume Less Paper

Washington, Aug. 23.—Reduction of 25 per cent of all publication space in excess of eight pages for country weekly newspapers was ordered yesterday by Chairman Baruch of the War Industries Board.

The order reducing the amount of print paper that may be used by weekly newspapers by 15 per cent will be effective September 15.

Other features of a conservation plan for news print paper by which this order is extended to include the country weeklies, are discontinuance of papers to subscribers three months after subscriptions expire, stopping use of free copies for exchanges except such as are printed within the same county or within a forty-mile radius, stopping of publication of extra copies for

advertising stimulation and stoppage of returns of unsold copies from news dealers.

An increase in the subscription price of the paper, especially where the price is less than \$2.00 a year.

During the war "no new newspapers shall be established."

The newspaper conservation regulations affecting weekly, bi-monthly and quarterly magazines announced by the War Industries Board, require use of lighter paper and a reduction of 10 per cent in the tonnage of paper used this year. No guarantee is given of adequate supply under the reduced tonnage. Selling of advertising on the basis of a rebate if circulation falls below the guarantee is ordered stopped, as are various alleged wasteful practices.

## Subscription Advance

Effective September 15th, the subscription price of *The Brady Standard* will be as follows:

To all points in McCulloch county and immediate surrounding territory within a radius of 50 miles **\$1.50 per Year**

To all points 50 miles or more distant from Brady **\$1.75 per Year**

This includes papers sent to our soldiers in France and to the U. S. soldiers in all parts of the world.

Foreign subscriptions **\$2.75 per Year**

### SPECIAL OFFER

We have no desire to attempt to benefit by the subscription advance while the distressing drouth conditions prevail in this section, and accordingly have decided upon the following patriotic offer to all subscribers within a 50-mile radius of Brady:

**FOR EACH \$1.50 SUBSCRIPTION RECEIVED, WE WILL ENTER THE SUBSCRIPTION FOR ONE FULL YEAR TO THE BRADY STANDARD, AND IN ADDITION GIVE THE SUBSCRIBER A THRIFT CARD STAMP BOOK WITH TWO THRIFT STAMPS, EQUALLING 50 CENTS.**

In effect, this will be giving our county subscribers the paper at the old rate of \$1.00 per year; also both we and our subscribers will be performing a patriotic service in the purchase of Thrift Stamps. At the same time our subscription price will be established at the new rates.

### PERSONAL MENTION

Ray Willoughby is visiting here from Eldorado.

Ellis Gotcher was here from Brownwood for a visit with friends.

Miss Mary McKnight is here from Carlsbad, a guest of Miss Maggie White.

D. L. Rambo writes from Corpus Christi to have his paper changed to that place.

J. E. Shropshire left last Friday for South Texas, where he hoped to find pasturage for his cattle.

Mrs. J. F. Quicksall of Cleburne is here on a visit to friends, and is incidentally attending to business matters.

Messrs. Joe and Jim Matthews came over from the ranch at Peg Leg Tuesday to pass the time of day with their friends here.

F. W. Henderson returned Saturday from Winchester, Ky., where he has been visiting a number of weeks with Mrs. W. H. Wooten.

Miss Loys Walter, who has been spending the summer here with her aunt and grandmother, returned to her home in Houston last week.

Wood Jackson is here from Brownwood to look after the business of the Brady Storage Battery Co., while Chris Brantley is off on his vacation.

Miss Louise Hoskins, who has been spending the summer with home folks in Houston, has returned to Brady to resume her position in the Brady grammar school.

Mr. and Mrs. Chas. Tupman have returned from a visit of the past several months with his parents at Evansville, Ind., and report the most enjoyable of times.

Sidney Meers returned last Friday from his visit with his uncle W. H. Meers, at El Paso, having driven home from Big Springs in his car. He reports a most enjoyable trip and visit.

Christian Brantley, manager of the Brady Storage Battery Co., is off on a two-weeks' vacation. With Mrs. Brantley, he has gone to Brownwood and Stephenville for a visit with relatives.

R. G. Prater came over from Brownwood Tuesday and spent the day here greeting his many friends. Bob will spend most of his time in Brownwood this year, but promises to visit us frequently.

June Coopender returned Tuesday from a visit with his daughters and also Mrs. Coopender at Fort Worth and Dallas. Little June McKee returned with him to attend school here and also to keep his grand-dad company until the return of Mrs. Coopender.

Miss Pearl Walter returned Tues-

day from Houston, where she had been on a visit to her brother, Fred Walter and family. Incidentally she took advantage of her vacation to visit at La Port beach and at Galveston, and reports the most enjoyable of times at the seashore.

Leon Fahrenthold came up from Austin last week. He has been attending the School of Mechanical Aeronautics. Leon thought he was home on a 13-day furlough, but received a message Tuesday calling on him to report for duty at once. It is supposed he is to be transferred immediately.

Mr. and Mrs. W. J. Willis, Mr. and Mrs. Si Proctor and Mrs. Lewis Jordan yef here Saturday for Eastland City. Mrs. Jordan goes there to join her husband, who is engaged in carpenter work at that place, while the balance of the party went to take a look at the country and will return to Voca this week.

Lieutenant Berry Joyce was here from Saturday to Monday for a visit with home folks, and to greet his many friends here. Berry is one of the instructors in the Signal corps at College Station with the rank and pay of Second Lieutenant. He took advantage of the fact that Monday was a holiday, to make a hurried call home.
