## VALUABLE HISTORICAL WAR RECORDS IN COUNTY PAPERS

### DESIRABLE RESIDENCE PROPERTY STILL IN DEMAND

Desirable residence property in Brady continues in great demand, and a number of Brady citizens have shown their desire to make their residence here permanent by acquiring a home of their own. Among the most recent changes in ownership of Brady resident property are the following:

The residence on South Blackburn street, now occupied by Lee Vaughn and family, and owned by T. Y. Hill of Llano, has been purchased by J. K. Woosley for \$3,500. The property includes one-half block, with a 7-room story-and-a-half house, located in a desirable neighborhood, and is a most desirable purchase. W. T. Melton & Co. made the deal. Mr. Woosley and family expect to occupy the place about the first of the month while Mr. Vaughn and family will probably move to their ranch.

W. T. Melton & Co. also closed a deal for the sale of the A. F. Rose residence in the South part of town. Mr. and Mrs. W. F. Roberts, Sr., being the purchasers. The property consists of a quarter block, with a well-built, 5-room house, with bath, sleeping porch and other improvements, and is a most desirable purchase. The purchase price was \$1850.

Mr. and Mrs. Gibbon T. Roberts will occupy the place between the 1st and the 15th of the month.

Sam McCallum has purchased from Dr. J. G. McCall the residence now occupied by B. L. Malone, and will occupy it about the 1st of the month. The property includes a half-block of land, most desirably located close-in and is well-improved with permanent walks, garage and other conveniences.

Other deals, including farm and ranch property, which have been made the past week are the following: The H. M. Holmes place, consisting of 181.4 acres of land, well improved and very desirable property, two miles north of Brady has been sold to Mrs. Mary E. Drake, the consideration being \$50 per acre.

Claud Ledbetter has purchased from John Adriance and son, two sections of land in Concho county, the purchase being made at \$15 per acre. Both the two foregoing deals were closed by W. T. Melton & Co.

### FILES OF COUNTY NEWSPAPERS OF 1917-1918 DESIRED FOR TEXAS WAR RECORDS COLLECTION

An effort is being made to collect files of county newspapers for preservation as historical reference, according to Dr. Gutsch, director of the Texas War Records Collection. In view of the fact that the county newspapers published practically all the news relating to the war activities engaged in, files of these papers will be very valuable for historical source material, especially in the future when such information may be obtained only from written documents.

#### Cooperation Urged.

Because of the importance of the happenings of 1917 and 1918, quite a few citizens preserved complete or partial files of their newspapers for these two years. If any of the readers of The Standard preserved complete or partial files of this publication for this period, it is hoped that they will communicate with the publisher at once with reference to contributing or selling them to the Texas War Records Collection, Austin, Texas, as a part of this state collection.

#### Many Records Already Lost.

In a statement given out to the press recently Dr. Gutsch said, among other things, "No complete record exists today of the heroic acts performed by Texans in the previous wars of the country. Records that

might have been had for the asking are now lost entirely or may not be bought because of prohibitive prices. Yet these records could have been preserved easily at the time and had they been cared for, they would today be furnishing inspiration to patriotism and loyalty to many of our citizens.

"Many of the records of the world war in the same manner will soon disappear in some house cleaning or office cleaning time, or in the gathering of waste paper for the peddler, unless we are alive to the value of this material. According to answers to our requests for records pertaining to the war activities of the various organizations, much valuable material has already been lost."

#### What One Woman Did.

After reading the communication quoted above, a patriotic woman of Giddings, Texas, sent a large box containing a partial file of the Giddings News, and some miscellaneous war clippings. In sending them she had the following to say:

"Many moments I spent day after day during the war clipping material that I knew would be of value in after years in the search for history of our conflict with Germany. I meant to make a war book for by own pleasure and for my two children. But if in years to come I can feel that my little saving has made possible a better history for our boys and girls of the coming generation, I give them with gladness for them and my country."

This is the spirit of patriotism, and this is the spirit that will cause to be preserved a monument of records that will stand for all time.

### BRADY WATER & LIGHT CO.'S NEW ENGINES NOW ENROUTE FROM WIS.

WIRE STATES SHIPMENT WAS MADE ON LAST THURSDAY, 19TH—LOCAL PREPARATIONS BEING RUSHED TO COMPLETION.

A wire from Fairbanks-Morse & Co. states that shipment of the engines for Brady's new municipal water and light plant was made last Thursday, the 19th, and W. O. Kirchner, local superintendent, is anticipating arrival of the new machinery in Brady at an early date. Tracers are now being sent on the shipments, in order to speed up the delivery.

The telegram bringing news of the shipment was sent under date of February 23rd, and reads:

"Engine shipped from Beloit, Wisconsin, 19th, C. B. & Q. car No. 44-119—routed C. & N. W.—Santa Fe waybill No. 801. Fairbanks-Morse & Co."

Rearrangement of the old machinery at the municipal plant, and placing of foundations in readiness for the new machinery has already advanced well along towards completion.

### THERMOMETER TAKES BIG TUMBLE—MID-SUMMER AT-MOSPHERE NOW MID-WINTER

When mid-summer weather comes along in February, don't sneer at the man who predicts a change—he may be right!

Any number of citizens were warmed by a feeling in their bones, by their corns, rheumatics or other ailments, that Monday's summery weather was due to be short-lived. They may have hesitated to express themselves upon the subject, but they were none the less sure that the change was due. The weather-man sided with them, and sent a chilling norther during the darkness of Monday night, that made overcoats and warm fires most appreciated today.

Monday's weather was ideally summer-like. It put Spring-fever in one's bones, and the fishing-fever in one's head. The river bank beckoned and the fish waited open-mouth for the early worm.

But winter's no time to loiter on river banks, nor to stroll idly in some shady nook. Even the angle worms burrow down deep into the warmth of Mother Earth. A brisk norther is a sure cure for Spring fever.

How about your watch? Is it keeping correct time? If not, let us remedy the trouble for you. Satisfaction guaranteed. A. F. Grant, jeweler, east side square.

### HEAD FT. WORTH OIL CO. PLEASSED WITH DAY WELL

A. D. Powers, president of the Texas Consolidated Oil Co. of Fort Worth, accompanied by Mr. Tubbs, a driller of many years experience, and two other business associates, spent a day or two in Brady last week for the purpose of investigating local activities and looking over the 80 acres of oil land purchased by the company last summer from H. Meers and which is located in the Hall-Dutton block. The party visited the Thad O. Day producer, and were greatly impressed by the possibilities which this well holds out. In fact, they were convinced that this well assures to McCulloch county one of the most remarkable oil fields in the state. Mr. Powers expressed himself very much impressed and was highly enthusiastic concerning the opportunities offered investors in McCulloch county. He announced that his company would begin drilling a test on their 80-acre tract just as soon as the materials and tools could be assembled. He stated emphatically that while his company owns acreage scattered throughout proven and unproven oil territory of Texas, he considered their 80-acre holding in McCulloch county as one of the best, if not the best, they had.

### POISON IS FOUND IN STUFFED OLIVES SEALED IN GLASS JARS; ORDERED WITHDRAWN FROM SALE

Chicago, Feb. 21.—Warning that poisoned stuffed olives have been shipped by a Chicago wholesale house to dealers in fifty-two towns of eight states was issued today by J. L. McLaughlin, state superintendent of food and dairies. The towns include Pittsburg, Holton and Wichita, Kan.

The bottled stuffed olives were not suspected until a recent case of botulism poisoning at Kalispell, Mont., was investigated by federal authorities, according to Mr. McLaughlin. The investigation, he said, disclosed that three brands of California packed stuffed olives were involved. The brands, his statements says, are "Batavia," "Ferndell" and "Riche-lieu."

The olives are of the ripe, stuffed type known as "pimento olives" and are in bottles.

The distributor has instructed his salesmen in all states to call on customers and instruct them to withdraw the olives from sale immediately.

The olives are infected with bacillus botulinus, a form of poison which recently has caused a number of deaths in several states.

All deaths so far reported, however, come from unopened ripe olives. This is the first time poisoned stuffed olives have been reported.

The poisoned olives, Mr. McLaughlin said, will have a peculiar odor, which should be easily detected. Olives found contaminated have usually been soft and odorless.

The olives were packed in 1918 and thousands of bottles have been sold throughout the country without any previous reports of poisoning, Mr. McLaughlin said. The cause of botulism poisoning in food is a mystery, he adds. Of 2,485 cans and bottles of ripe olives recently sent to the federal laboratories for examination following several poisoning cases in the East only seven were found to contain the poison. Mr. McLaughlin said that no blame should be attached to the packer, wholesaler or retailer of the olives.

Housewives are instructed to return unopened to grocers ripe stuffed olives of the brands named and state inspectors will take up the stock and destroy it.

The olives were distributed by Sprague, Warner & Co. of Chicago. Major A. A. Sprague, head of the

firm, is fair price commissioner for Illinois.

#### Retort Courteous.

E. Pluribus Jones reached the station platform just as the five-fifteen was pulling out. A little burst of speed before the admiring onlookers netted him fifty feet in overcoming the train's handicap, but the best that his ample carcass could do thereafter was to run a losing race. He quit at the end of the freight yards and returned.

"Miss your train, sir?" inquired the porter, cheerfully.

Jones flicked a speck of dust from his coat sleeve.

"No, my friend," he said earnestly; "oh, no; I was just chasing it out of the yard. You oughtn't to allow it around here. Don't you see the tracks it left?"

On board one of His Majesty's ships two seamen were hotly engaged in an argument as to the class of animal a hog belonged to, one of them asserting it was a sheep and the other equally certain it was a pig.

"Here, Bill," you've knocked about a bit. What is a hog? Is it a pig or a sheep?"

Whereupon Bill, after due consideration, replied: "Well, to tell the truth, chummy, I don't know much about poultry."—London Tit-Bits.

## HONEST INJUN.

We would rather be up a green tree than out on a dead limb.

## RESULTS SPEAK FOR THEMSELVES.

Editor Schwenker of The Brady Standard is uniformly neither green-eyed nor ungenerous, but when he does go "nuts" he has a sure enough bad case of it. Here is a part of his raving last week under the headline "Wake Up, Rip!":

"The San Saba publicity committee is getting a lot of publicity on what the San Saba chamber of commerce is accomplishing, but if that body is doing anything besides the publicity work, the same is not apparent at this distance. One of the most recent of publicity items stated that San Saba was co-operating with other towns, among them Brady, along the Santa Fe to get regular passenger service inaugurated from Temple to Eden. Now it happens that Secretary Grant of the Brady organization is working very hard along this same line, and in order to present figures to the West Texas Chamber of Commerce showing total ticket sales, and daily averages during the past three months, Mr. Grant has called upon the San Saba chamber of commerce to supply the data as concerns that town. The response received is like that of the dead. Will the San Saba chamber of commerce respond?"

Schwenker, no doubt, believes that the whole world ought to "snap" to attention when the Brady chamber of commerce raises its finger. And S. G. is just the same way. I guess, about the San Saba Chamber. The fact is we admit that the Secretary of the San Saba Chamber of Commerce is just as live as they make them. If the correspondence with the Brady secretary was not completed to Schwenker's satisfaction it was because it was being done according to the judgment of the secretary at this end of the line. It was done all right and done promptly.

The Brownwood Bulletin, the Temple Telegram, the Fort Worth Record and Star-Telegram and a majority of the surrounding county weeklies have approved the pulling off of the big Pecan-rowers meeting here as an effort well worthy the admiration of progressive people everywhere. Governor Hobby writes to the president of the San Saba chamber of commerce relative to the Pecan convention and says: "I think the people of Texas could not give their support and encouragement to a more wholesome industry or one that will redound more substantially to the material interests of the State." Old Sport you are up a green tree. Come down and wipe the scales off your eyes and quit knocking. It is unusual for you.

The Standard continues to "bring home the bacon." Both the versatile editor of the San Saba News and the tardy Chamber of Commerce "snapped" to attention. The former tried for a bull's-eye with a scatter gun.

and virtually slapped the face off The Standard editor's wrist-watch. The latter replied to the Brady Chamber of Commerce by letter and gave the data requested of it three weeks previously. True the information came too late to be included with the data from Richland Springs, Brady, Whiteland, Melvin and Eden, and which was presented to the West Texas Chamber of Commerce by Brady's commercial secretary—but nevertheless it makes interesting reading, and proves beyond question that the San Saba body is making good (finally) on its publicity claims of "co-operating with Brady and other towns along the Santa Fe in getting passenger service inaugurated from Temple to Eden." The Fort Worth, Brownwood and Temple papers, and Gov. Hobby may now feel at liberty to approve San Saba's efforts for better train service. The Standard accomplished what its editorial was intended to do. We are willing to leave it to our readers which of the two editors in question is, to use Smith's rather inelegant terms, "nuts" or "raving."

## RIDING TALENT OF AMERICA TO SEEK AWARDS IN RODEO

CHAMPIONS OF MANY SHOWS WILL COMPETE AT FORT WORTH, MARCH 6-13. TRICK RIDING AND ROPING PROBABLY WILL BE BEST EVER STAGED

TOMMIE KIRAN SAYS Good Morning Judge.

That the Rodeo, the great wild west feature that will be the night attraction of the Southwestern Exposition and Fat Stock Show at Fort Worth, March 6-13, will far surpass all previous efforts and be unique among like events throughout the West and Southwest is the hope and belief of the show management.

A real galaxy of stars of the bucking horse riding world, the very best talent in the entire country, will be on hand for the opening of the show, to compete for the big prizes that have been set aside for the different events.

The Fort Worth Rodeo undoubtedly will have the best exhibition of trick riding and roping ever staged in the United States. Harry Walters, world's champion trick rider, will compete, while Leonard Stroud, dethroned from the championship at Cheyenne last year, will endeavor to recover his lost laurels. Tommy Kiran, who won second at the Cheyenne show, already is on hand, ready for the show to start. And there will be a number of other famous riders and ropers in the competition.

Eddie McCarty, who won the world's championship at bucking horse riding at Cheyenne last year, has come to compete for laurels at the Fort Worth show. He also has brought fifty of his hardest bucking horses, famed throughout the land. These have been on Manager Sanson's ranch near Fort Worth for the past three months, being put in shape to be more dangerous and tricky than ever.

Among the famous bucking horse riders who will compete in the classes of the Fort Worth show are Leonard Stroud, former champion; Hugo Strickland, who won first at the Fort Worth Rodeo three years ago; Jack Cretz, last year's winner; Yakams Anut, first winner at the Stampede at Calgary, Canada, last year; Lloyd Saunders, Los Angeles, Cal.; Oklahoma Curley, who won second place at Fort Worth last year, and numerous others.

Bob Tadlock, known to stockmen throughout the Southwest, will be Rodeo Manager. His splendid success last year and his popularity with riders and the public as well gives promise of even better things this spring. He will be assisted by a committee consisting of Bill Rominger, Gil Whittington, Wad Ross and Marvin Thompson.

Girl riders will come in for even stronger notice this year than ever before, for the competition in the riding classes will be much stronger. Ruth Roach, famous trick rider, of course, will be a favorite but she will have hard competition in Kittle Canutt of Clofay, Wash.; Florence King of Los Angeles, Cal.; Dolly Mullins of Universal City, Cal., and others.

A string of "forked" Brahma steers, the very wildest and strongest the management could secure, will be on hand. Steer riding was an innovation with the Fort Worth show and a very popular one. Steer riding has revived with bronc riding and wild horse races in popularity at the past two shows. And a cutting contest, for a prize of \$1,000, also will be of great interest, particularly to the Cattlemen in attendance.

J. George Loos is arranging his twenty-car carnival on the Coliseum grounds. This carnival has more variety than in the past and has several features that few visitors to the stock show have ever seen.

Entries to the livestock classes of the stock show close Feb. 28, and those already received show beyond the shadow of a doubt that the exhibition will be the finest ever made in the South. The show is strictly a "clean" one this year, ticky cattle being permitted for private sale only.

The dairy show promises well, according to the entries received. Substantial increases were made in the premium list and Texas dairymen have not been slow to respond to the opportunities thus offered.

This will be a "clean" show. However, there will be a sales division on the regular stockyards for bulls from below the line. Sales features promise well.

## LOCAL BRIEFS WITH THE CHURCHES

After a two-weeks' suspension because of so many absentees on account of illness among teachers, pupils and patrons, the Brady schools resumed their regular session Monday morning.

Mrs. Nona Montgomery received a telegram last Thursday from her daughter, Mrs. Chas. Rardon, of Hannibal, Mo., announcing the arrival of a daughter. Congratulations are extended the proud parents and relatives.

C. M. Liverman is a new resident of McCulloch county, having come here the early part of the month from May, Texas. Mr. Liverman and family have occupied the C. R. Alexander place, west of McShan's in Carroll Colony, and which he purchased some time ago. Carroll Colony is glad to welcome Mr. Liverman and his excellent family to citizenship.

March 1st, or immediately thereafter, will be moving day in Brady for a number of citizens. Mr. and Mrs. G. M. Bennett are arranging for their removal to Dallas, where Mr. Bennett will be transferred on the 1st by the Santa Fe. Mr. and Mrs. B. L. Malone will occupy the Mann Bros. residence south of the Methodist parsonage, at present occupied by Mr. and Mrs. B. Bennett, while Mr. and Mrs. Sam McCollum will move to their recently purchased residence, now occupied by Mr. and Mrs. Malone. Mr. and Mrs. Gibbon T. Roberts will move to the residence now occupied by Mr. and Mrs. McCollum, and Mr. and Mrs. J. K. Woosley will move from the north side to their new purchase, the residence occupied by Lee Vaughn and family. Mr. and Mrs. Vaughn will probably move to their ranch.

L. Y. Callihan is wearing a rather disfigured countenance, which he ac-

counts for as follows: While he and his family were visiting Mrs. Callihan's parents, Mr. and Mrs. G. W. Woodress at Millersview Sunday, he attempted to tame a motor-cycle. He received full instructions on how to start it, guide it and ride it, but neglected to ascertain just what operation was necessary to stop his steed. In the course of a brief, but thrilling, ride, the motor-cycle struck a ditch, which caused the rider involuntarily to grip the handle-bars with such force as to simultaneously advance the spark and open the throttle valve. The cycle jumped forward and headed straight into a fence. Deeming discretion the better part of valor, Callihan slid off the seat and made a landing to the rear of the speeding machine. Although he alighted safely enough on his feet, the momentum pitched him forward on his face, skinning and bruising him up considerably. In the meantime the cycle described a graceful curve, missing the fence and eventually upended itself. Callihan was dazed by the hard fall, and it was several minutes before he regained his senses—at that, it will be a considerably longer period before Nature smooths out his bruised and sore spots.

**Kindergarten Helps for Parents**

This is No. 27 of a series of articles issued by the National Kindergarten Association. They will appear weekly in these columns.  
By MRS. WINIFRED G. McBROOM.

For those who intend to teach little children of four and five as a profession, a train in kindergarten methods is required by law in practically every State in the Union. Why is such training not equally necessary for those whose future work will probably be home-making? The broad principles underlying kindergarten training have been thought out for us by many great educators and philosophers of the past and present, and these principles will help the individual parent as well as the teacher to interpret his surroundings, to form a wiser attitude toward life, and to love and understand children. Such an education is almost indispensable to mothers who would give to their children the best of all opportunities—the opportunity to grow aright. But if, as mothers, we cannot have such training or cannot send our children to kindergarten, let us plan their early education in the home so that it will be based as far as possible upon sound principles of child-study.

The child between the ages of three and six years is very impressionable, and upon his early experiences must be based his whole future education. Therefore it is important to see that he receives only right impressions and has only right experiences. The child is and should be constantly handling objects and constantly inquiring about them. Such inquisitiveness is the greatest aid to education. How many interesting sights we pass over because we lack the keen observation of a child! "He who is interested in much has in advance a great advantage over the indifferent person and remains younger even in age; whereas the indifferent becomes old in the seasons of youth."

Let the child live with you. This is not easy for a busy farmer's wife such as I am. It does not mean, "Keep out of my way while I mix this bread." It means, "Roll up your sleeves and wash your hands. Now dip out four quarts of flour for me." Perhaps some of the flour may be spilled, but only by using the hands will the child learn motor control. What if the biscuits are not all smooth? By making three rows of four each, he will be learning valuable number facts.

The child may ask, "Why is the flour white? The wheat is not white." This question brings out the whole story of bread. Don't merely tell it; see it if possible—the wheat-seed, the growing wheat-field, the reaping, and the threshing, the flour-mill, the bakery. Enrich the child's experience with pictures, stories and songs relating to this subject, and after this a slice of bread will be an object of new interest to the child.

Tell in the same way about the strawberries that he eats with his bread. Where do they come from? If you cannot show him the growing plants, find a picture or draw one so that he may not say, as a lady of my acquaintance did, "I've always had such a desire to see strawberry bushes."

City children ask, "Why is there a picture of a cow on the butter paper?" If you cannot visit a dairy or a creamery, buy a gallon of milk and let the child skim it and churn the cream into butter with the egg-beater. Then after he has salted it, let him eat some on his bread. My country children ask, "How did the firemen know there was a fire?" Their father took them to the fire house to see the alarm bell and the boots, clothes and brass pole ready for the night alarm.

When fathers go to the field to see the oats planted, they should take their five-year-old boy or girl along and tell the story of the growth of the seed.

On the way for the cows, sharp eyes may find a badger hole or see

some muskrats in the creek. Is all this education? The beginnings of education are started in and about the home in the child's attitude and reaction towards his environment. All the time, he is learning to see and hear and to think. The child whose mother and father live with him is sure to store up experiences and be able to compare and relate them later, to be observing, to be constructive (which is the only remedy for destructiveness), and to be able to express himself as well as to have something in his mind to express.

In play children are constantly educating themselves. They are learning to direct their attention to their motions persistently toward a definite end. We can suggest plays and tasks which will train the eye to see quickly and teach the colors, directions (front, back, up, down, right, left); the points of the compass, the time of day, and the days of the week. My little four-year-old learns much as she sits beside me at the sewing machine. She arranges my drawer of thread, learns the colors and plays a game, guessing which color is gone from a long row of spools.

A set of colored kindergarten balls, a box of crayons, or later a box of paints make an excellent Christmas gift and aid in color training. Colored papers and a small pair of scissors will occupy many a stormy day profitably. The mother who is at all musical can train the ear to detect high and low tones, loud or soft bells, and music for marching and skipping. Have the child bounce a large ball to music, or clap to music. This will help him to gain motor control. Play dominoes with him. Suggest "Hide-the-Thimble," or "Blind Man's Buff" or "Cobbler." All these games help to train the eye, the ear and the hands.

I will not dwell upon the moral training of children, for mothers seem to consider that their duty, even though they may not think it necessary to train the mind. The right idea of preparing a child for school is not to teach him reading and writing unless he is past the age of 6, but to give him many and first-hand experiences, which will train his senses, and make his mind and body active and able to express his feelings.

**ILLINOIS DOCTOR PRESCRIBES IT**  
Says He Has Never Known Medicine To Produce Results Like Tanlac.

B. H. Elder, M. D. with offices at 410 Schradzki Building, Peoria, Illinois, comes out with his unqualified endorsement of Tanlac.  
Dr. Elder graduated from Butler University of Indianapolis, Ind., later took a post graduate course at Rush College, Chicago, and has also studied abroad.  
He has been in active practice over forty years—twenty five years in Peoria—and is one of the best known physicians of that city.

"So far as my knowledge goes," said Dr. Elder, in an interview recently, "medical science has never produced a medicine that brings results like Tanlac. It is altogether too good to keep from suffering humanity and I have been prescribing it in my practice for some time with remarkable results."

"For years I had suffered from stomach trouble and rheumatism and had devoted my best thought trying to find relief, but all to no avail. Right after eating, gas would form in my stomach and affect my heart, causing poor circulation, cold hands and feet, dizzy spells, spots before my eyes, peculiar feelings, terrible headaches, and cramps in my stomach. The rheumatism was the kind that is caused by uric acid deposits in the blood, which find their way into the joints, and the pain was so great I could hardly stand to move my legs and arms.

"So, it's no surprise that I devoted lots of time and thought, using all my powers, trying to free myself of these troubles. But nothing I ever found until I got Tanlac afforded me more than a little temporary relief. And here is how I found out the powers of Tanlac: I had a patient who had suffered for years with the same kind of troubles and while I did all I could for him, the same as for myself, he failed to improve any. Well, this party came to my office one day, after having been away for about six months, and I never in all my life saw a man look in better health or seem to feel better. While sitting there in my office he told me Tanlac was what brought about the wonderful change. I could not doubt it, for I knew what an awful condition he had been in, and I made up my mind then and there to try Tanlac in my own case. So I did and the results are that a few bottles relieved me entirely of stomach trouble and rheumatism and all my other ailments as well. I am an extra hearty eater, especially of meats and such foods as often produce bad effects, but none of these things disagree with me any more. So now, as I have discovered the value of Tanlac I am ready to honor it as one of the most beneficial of all medicines. I have prescribed it, in cases of rheumatism, kidney and bladder disorders and a run down condition, with wonderful results. I feel that I ought, for the benefit of suffering humanity, to give my experience with Tanlac to the general public."

**\$100 Reward, \$100**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

To the Voters of Com. Pre. No. 3:  
I have been urged by numbers of my neighbors and citizens of this precinct to again offer my self as a candidate for Commissioner of Precinct No. 3, and after careful consideration, have decided to enter the race. Inasmuch as I served in this capacity for two terms (4 years), voluntarily retiring four years ago, I feel that I am known to the greater portion of the citizens of this precinct, and I am willing to make the race upon my merits, letting my record as commissioner speak for itself. I feel that I am in position to capably represent this precinct, and will always be found ready and willing to do everything in my power for the benefit of its citizens, as well as for the citizenship of the county as a whole. I hope to see every voter in person before the primary, and will appreciate the vote and support of all.

Sincerely, your friend,  
J. L. SMITH.

**Announcement J. C. Wall.**  
To McCulloch County Voters:  
In making formal announcement of my candidacy for re-election to the office of Sheriff, I can only state that I fully appreciate the confidence and support that has been given me by the voters, both in my races and during my terms in office. In the coming primary, I hope again to have merited your vote, as well as your support. I feel a pride in the fact that I am McCulloch county's oldest officer, in point of years of service, as I am now completing my 22nd year as Sheriff of McCulloch county. As always, I stand for law enforcement without favor or partiality. To protect the citizens and their property, and to make peace, happiness and prosperity supplant violence and outlawry has been my constant endeavor—and I believe the records will show that McCulloch county is foremost among the counties of the state for almost total absence of crime. I want the support of every citizen, and most especially the ladies of the county, and will fully appreciate every vote given me.

Sincerely,  
J. C. WALL.

**Announcement Marion Deans.**  
To Voters of McCulloch County:  
I am again a candidate for your favor, and hope to receive your vote and support in my race for re-election to the office of County Superintendent of Public Instruction. I believe the work of improving the schools of McCulloch county, and of raising the standards of education vitally important, and have given my earnest endeavor to secure the best results for every school in the county. In this, my efforts, I believe, have been highly successful, and McCulloch county schools now rank with

any in the state. I take pride in what has been accomplished during the three years I have been in office; see even greater possibilities for the future, and hope to be enabled to continue the work of improvement and upbuilding. To this end, I would appreciate the hearty support of every voter and citizen, both ladies and gentlemen. When you go to the polls, vote for  
Your friend,  
MARION DEANS.

### Jealous.

A minister, spending a holiday in the North of Ireland, was out walking, and feeling very thirsty, called at a farm-house for a drink of milk. The farmer's wife gave him a large bowl of milk, and while he was quenching his thirst a number of pigs got round about him. The minister noticed that the pigs were very strange in their manner, so he said:

"My good lady, why are the pigs so excited?"

The farmer's wife replied: "Sure, it's no wonder they are excited, sir; it's their own little box you are drinking out of!"—*Tif Bits.*

## MORTUARY.

### Death of Mrs. Clark.

The Standard was misinformed last week as to the name of the daughter of Mr. and Mrs. J. T. Robertson of the Waldrip community, and whose death occurred the past week. The lady's name was Mrs. Clark. Her death occurred Tuesday evening, February 17th, at 5:30 o'clock, resulting from influenza-pneumonia, at the age of 26 years. The body was held until Saturday, pending the arrival of Mr. Clark's two brothers, and funeral services were held Saturday afternoon, interment being made at Marion cemetery. Mr. Clark, who has also been very low, is reported now well on the road to recovery. The family came here only a couple weeks ago from their home in Tennessee, for a visit with the lady's parents.

### Nollie Hobbs.

The death of Nollie Hobbs, aged about 35 years, occurred Saturday evening at his home on the A. J. Smith place, in Pear Valley community, following an illness with flu and other complications. Funeral services were held Sunday, and interment was made in Brady cemetery. The death of Mr. Hobbs is a particularly sad one, as he leaves besides the widow, four small children. Mr. Hobbs had been living in the county for the past three or four years, was a most likable and industrious citizen, and is highly spoken of by all who knew him.

### C. W. Tucker.

C. W. Tucker of Calf Creek, died suddenly Friday evening, February 20th, at 8:30 p. m. of heart failure. Mr. Tucker was in Brady the day of his death. He rode within about one-half mile of his home with his brother, C. C. Tucker, and then insisted on walking the rest of the way home, from where his brother turned off. He stopped at the home of B. E. Walker, a young man, and particular friend, living on Mr. Tucker's place, near his home, staying a few minutes, and talked as usual until the moment of his death.

So sudden and unexpected was his death, the entire community and adjoining towns where Mr. Tucker was so well known, were shocked beyond realization.

Mr. Tucker is widely known throughout the state, and was beloved by all who knew him. His great influence of straight-forwardness, honesty and love for everyone, will live for years. He was successful in all his undertakings and has accomplished great things in his study of minerals.

Mr. Tucker was born November 15, 1852, near Memphis, Tenn. He came to Texas in the year of 1867 and located in Hopkins county. Nine years later he was married to Miss Lizzie Jones. From Hopkins he moved the year after his marriage to Brown county, where he resided twenty-nine years. He came from there to McCulloch county, making his home here continuously since and up to the time of his death.

His wife died August 18, 1917. He had no children, but is survived by a niece, Mrs. Ethel Bauer, whom he has raised from infancy, a nephew, D. J. Childers, and by three brothers and two sisters, viz: W. A. Tucker of Austin, Texas; J. M. Tucker of Shamrock, Texas; Mrs. Lou Hughes of Zephyr, Texas; Mrs. Anne Sexton of Duster, Texas; C. C. Tucker of Calf Creek, Texas.

Some of his relatives could not attend the funeral on account of sickness.

Those present were his sister, Mrs. Lou Hughes, brother, C. C. Tucker, niece, Mrs. Ethel Bauer, nephew, D. J. Childers, and other relatives residing here.

Rev. T. L. Allen, minister of the Christian church at Brady, conducted the funeral service, and made a very appropriate and comforting talk for the bereaved ones and friends, which was very much appreciated by all present. Interment took place at the Calf Creek cemetery at 3:00 p. m. Sunday afternoon.

### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

## TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Thedford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Thedford's Black-Draught."

Thedford's Black-Draught will help you to keep fit, ready for the day's work. Try it! NC-131

## NOTICE!

I now am advertising my Sorrell English Suffolk horse for sale. Price, \$500.00 (five hundred dollars). Will take all trade. This horse can be seen at my place 4 miles North of Brady. This horse is too well known to go into details as to his breeding and his colts, as his colts are here from sucklings up to 8 and 9 years. He is in his 15th year; this horse is an imported horse. He came from England and have papers on him.
