## WEEK DEVELOPS REMARKABLE ACTIVITY IN OIL OPERATIONS

### NORTHEAST AND SOUTHERN PARTS OF COUNTY COMING IN FOR BIG OIL PLAY

OIL GAME TAKES BIG SPURT THIS WEEK WITH INFUX OF OPERATORS AND DRILLERS—NUMEROUS CONTRACTS SIGNED UP—RIG MOVING TO LOCATION.

The oil game in McCulloch county this week took a big spurt with the announcement of numerous drilling contracts covering various portions of the north, northeast and southern parts of the county. These various sections are coming in for the greatest play ever given them by operators who are convinced after a careful survey of the field, that McCulloch county holds out the greatest of inducements to the driller for the golden liquid. One rig has already been received here and is moving out to a location on the Matthew Capps land, with the intention of spudding in the first of next week. Kentucky capitalists who have purchased all of Cosden's interests in and adjoining the Thad O. Day tract also expect to have a rig in here within the next couple weeks and will begin the first of a series of wells. The Lohn field is to be tested at with from fifteen to twenty new wells, and five wells are under contract for immediate drilling in the southern part of the county, two of the number being contracted to go 4,000 ft., unless oil in paying quantities is found at a lesser depth.

C. W. Purcell arrived here Tuesday from Kansas with two complete drilling crews. Their coming was marked by the simultaneous arrival of three carloads of well machinery, including a 28 Star rig, tents and complete camping outfit. The machinery was unloaded without delay and is now being moved out to a location in the southeast corner of Survey 108, where a test well will be put down for Mastin, Howell & Hyde, owners of what is locally known as the Harrison, Hyde & Meadows tract. The machinery was shipped from Wellsville, Kans., where the company has production. This company holds lease on about 10,000

### MUNICIPAL BUILDING QUESTION

To the Citizenship of Brady:

We have been keeping our engine and appliances for fighting fire at the Brady Auto Company. We have no permanent right to the use of their space, and they now demand that we move our fire engine, and we have no suitable place for same. The city has to have a hall and offices for the city council, city secretary and the water works department. All this space has to be rented. We can find no suitable place for our fire engine. The business men and the council have under advisement the propriety of building a city hall. We think this can be done with an investment of about \$8000.00, and the hall placed convenient to the Wulff and Simpson garages, on the public square. This will enable us to provide quarters for the fire boys who will be with the engine day and night, and thus hold down the insurance rate. Now, I understand that we can vote an additional small bond issue for the above public enterprise, and I do not see how else to provide for our engine, and insurance rate. We can save the rentals on the offices above mentioned which will about cover the interest on the bonds. I wish the business men of our city would take the matter under advisement, and if desired, we will have some public meetings and discussions of the matter.

J. E. SHROPSHIRE, Mayor.

### FIRE DEPARTMENT AND CITY OFFICERS SEEK PERMANENT QUARTERS

PROPOSED TO BUILD BUILDING ON SQUARE TO ACCOMMODATE FIRE TRUCK, FIRE BOYS, CITY SECRETARY, WATERWORKS DEPT. AND COUNCIL CHAMBER.

The question of providing permanent quarters for the Brady fire department and the city officers is one which now confronts the citizenship of our town. The fireboys, who, together with their fire-fighting apparatus, have been domiciled for the past number of years through courtesy of the Brady Auto Company in the latter's building, must now seek new quarters, as the remodeling plans of the auto company call for use by the company of the space now given over to the fire department. Also the Brady Water & Light Co. office has for several years past sought a downstairs location without success. The building of a permanent municipal building on one corner of the public square is now being advocated by leading citizens as a solution of the problem.

The use of one of Brady Auto company's lots has been offered the fire boys, but it is estimated that even a temporary frame abode will cost in the neighborhood of \$2,000.

On the other hand, a permanent brick of concrete two-story structure, sufficiently large enough to house the fire truck, provide sleeping quarters for members of the fire department, office and store room for the city secretary and the city water works department, and a council room for the city aldermen, can be built on the square at a cost of approximately \$8000.

The only way of providing funds for the erection of such a building is in the voting of bonds, and Mayor J. E. Shropshire calls upon the citizens to consider this question and decide if this is the proper method of solution.

The proposed location is on the west part of the now unused portion of the square. It is pointed out that this location is not only central, and convenient to the fire boys employed about town, but that it would be admirably adapted to the use of the city water works department, as well as making the city secretary's office convenient and accessible.

The saving to the city in office rents will about pay the interest on the bonds, and the value of the new building to the city and citizens should more than recompense for the trifling additional taxes required to take care of the bonds.

### COUNTY CONVENTION NAMES DELEGATES TO STATE CONVENTION TUES.

The McCulloch County Democratic convention was held Tuesday afternoon, at which delegates favorable to the administration were selected, the following being named: F. M. Newell, J. E. Shropshire, Mrs. W. N. White, J. W. Cowan, T. J. Beasley, T. P. Graft. Eleven precincts were represented at the county meeting. The state convention meets in Dallas on the 25th.

ROCHELLE RUMBLINGS.

"Amoskeeter" Writes Newsiest Letter of All—Wedding, Building, Etc.

Rochelle, Texas, May 3.

Editor Brady Standard:

As it has been quite a while since I sent you the happenings in and around Rochelle, I'll try to send in a few items but will say on the start that sickness was the cause of this delay. For about three weeks was unable to even try to write and promise to do better in future, provided I don't fall sick again.

If the wind would only cease to blow so hard we would have some pretty weather, but that just spoils it all for us and also seems to blow the rain away. Have had several days in which we had very good prospects for rain, but the wind either from north or south would blow it away and the farmers have done about all they can until we do get rain and it certainly is needed. Gardens and some little corn is up and just hanging on and we do hope it rains before that all has to dry up and blow away and the oat crop is suffering so much for rain. In fact, I don't know whether rain would help that much or not. Grass and weeds are drying and small tanks will soon be dry.

Bro. Wilson, the Methodist pastor here, accompanied by two lady delegates, Mrs. W. D. Price and Mrs. Aycock, left last week to attend the quarterly conference which convened at Sonora and we hope they have a nice time and that much lasting good may be accomplished at this meeting.

Mrs. Woodford and daughter, Pauline, drove to Brady one day last week in their car and in trying to drive around and keep from hurting a poor little snake, Miss Pauline overturned the car. But with the exception of a few bruises and scratches, they came out all right, but I'd not risk this again, Pauline. You might not come out so lucky—better kill the snake.

Mr. Milton Gainer and Miss Ella Moseley on last Thursday p. m. surprised their many friends by getting married and leaving on the train for a bridal tour to different points. This is a most worthy young couple, both born and raised at this place and also educated here as far as this school could take them. Their marriage took place at the home of the bride's mother, Aunt Sue Moseley, and the ceremony performed by Bro. Gage, the Baptist pastor at this place. It was a quiet home affair

what will be the cost, but will be three or four thousand, I suppose. About four miles north of Rochelle, Mr. Jim Powell and wife, (formerly Mrs. W. H. Cottle), are erecting a nice 6-room bungalow, which will cost 5 or 6 thousand dollars. This home is being built near the well previously drilled with abundance of water and when the house is finished it will be one of the most lovely homes in the county.

Mr. and Mrs. Stovall are rejoicing over the arrival of a new girl in their home a short time back.

As this letter is now too lengthy, I'll close by promising to not write so much next time.

"AMOS KEETER."

## WORN NERVES.

Nervous troubles, with backache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors.

Ask your neighbor.

Mrs. J. U. Silvers, Brady. She says: "I had the 'flu' and it left my back in a very weak state. I could hardly get around as the pains in the small of my back were so severe. I was so nervous the least noise would irritate me. I would have bad spells of dizziness and everything would turn black before me. Nights I was so I couldn't get any rest and I was annoyed by the irregular action of my kidneys. I heard of Doan's Kidney Pills so I bought some and I can't praise them highly enough for what they did for me. I was relieved of the backache and my kidneys were regulated."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Silvers had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Thanks For the Names—They're Pretty—We Chose "Frances."

Brady, Texas, May 4.

Editor Brady Standard:

We came very near having a million dollar rain to report this week. Had the cloud and only a shower yesterday (Monday evening) and we are confident though that before this goes to print we will get rain and plenty of it. We have a good bottom season and it won't take so much rain to give us a good planting season. Some have not planted their seed yet, while some have it planted and up pretty and plowed. No cotton is planted that we have heard of.

## WONDER WORDS.

Discusses Economic Conditions in Oregon.  
Editor Brady Standard:

It might be more appropriate to say uneconomic conditions. If there ever was an age of extravagance it is at the present time. When I was a boy, my mother used to cut the foot part off of our old sox and knit new feet to the legs and they would last us another year. And my father would cut the tops off our old boots and make feet to them and they would last us another year.

Nothing doing like that nowadays! Too much money! We are too busy getting big wages to take time to do repair work.

I was in Grants Pass the other day and I heard a young man ask another what he was doing? He replied, "running a delivery wagon for the transfer company," but they are only paying \$3 a day and I want \$4." The other man told him to contend for the four dollars and the company would pay it, as they were doing an immense amount of transfer business.

I didn't tell him that he could get six to eight dollars a day in the country, for I supposed he knew it.

One of my neighbors working at a sawmill told his employer who was paying him six dollars for eight hours work that another man had offered him seven to work for him. His boss raised his wages to seven dollars a day and kept him. Another one was getting eight dollars for eight hours work, piling lumber, but it was very hard work handling green, heavy lumber, so he quit it and went to working at a store at one hundred dollars a month. Another neighbor of mine is getting three hundred dollars a month as woods boss, superintending the logging operations.

And yet with all this good pay in the country, the big majority of young men are flocking to the cities, so as to be where they can attend the movies and see the sights. It is almost impossible to get help to do farm work.

I am sending herewith a report from a few of the counties of Oregon to the department of agriculture which will show how difficult it is to procure help on the farm:

Farm Labor Supply:—The shortage in farm labor supply appears to be nation-wide. Reports indicate that the situation is a bit less favorable in Oregon than in the country as a whole.

The supply this year as compared with a normal is reported as 78.0 per cent for Oregon, and 72.14 per cent for the U. S. The supply this year as compared with a year ago also shows considerable deficiency, the figures being given as 95.0 per cent for the state and 87.8 per cent for the U. S. Considerable comment on the farm labor situation was made by the regular reporters to this office for the April 1 report, some of which is as follows:

1. Baker County—"There will be some shortage of work done on account of high wages. The common laborer that has no family is getting too much money per day for his work. Many are loafing around pool halls and other places about half of their time making a shortage of labor."

2. Clackamas County—"Farm labor is almost impossible to procure at any price the farmer can afford to pay, so the farmer does what he can himself and makes out without help."

3. Coos County—"Farm labor is practically not available at prices that the business will stand."

4. Douglas County—"The labor supply is inadequate to meet the requirements for higher production, and wages are prohibitive, from \$5 to \$6 per day being demanded. The producers are going it alone as best

they can."

5. Jefferson County—"Good help hard to get, besides farmers are not in a position to hire much at present wages. Wages higher than at any time during the war."

6. Klamath County—"Farm labor demanding \$100.00 per month and board. Factories and logging camps using many men. Farmers in some cases unable to secure help."

7. Malheur County—"The farmer is down and out so far as help is concerned. Street paving, state road building, and other public activities, together with extremely high wages and the reluctance of labor to go to the farms, leaves Mr. Farmer alone."

8. Union County—"Wages are higher than ever. Farmers must do their own work as labor is scarce and the farmer cannot afford to hire at present wages."

9. Yamhill County—"Owing to open winter seeding is largely done and with aid of tractors more work is done with less men. Labor seems to be plentiful around town and the situation seems to be easing up to quite an extent."

And yet with all these big wages most people are living beyond their means and going in debt. I believe if they were drawing one thousand a month they would spend eleven hundred and compel someone to lose the extra one hundred.

Taxes here are almost three dollars on the one hundred dollars valuation, and increasing at a rapid rate. Our public officials seem to delight in spending an enormous amount of money instead of using it economically for the tax payers. There is apparent graft, wanton waste and extravagance in nearly every let contract. Especially on the public roads work. For instance, a job that should be done for thirty hundred dollars will cost thirty thousand. It is really amazing to hear some people talk about the causes of the H. C. L. and also the remedy for it. For instance the potato crop is exhausted and the price of spuds has advanced gradually from three cents a pound until now they are selling at ten cents and can scarcely be had for love nor money. The housewives of Portland decided they would boycott the use of them and bring the price down. It is my opinion they will be likely to continue the boycott until some more grows, and by that time they will be glad to get them at whatever price they can.

"O. I. C. U. R. RIGHT."

### PEAR VALLEY WHISPERS.

Mr. John Davis of Del Rio and Miss Eastha Reed Married.

Pear Valley, Texas, May 4.

Editor Brady Standard:

After being absent for several weeks will send in a few items.

Bro. Smith, a Christian preacher of Hardin, preached here Sunday and Sunday night.

Several of the men folks from here went to Lohn today where they are helping clean the Lohn cemetery.

Lee Brock and family of Lohn attended church here Sunday morning.

Mr. John Davis of Del Rio and Miss Eastha Reed of this place went to Brady Thursday afternoon where they were married. They left Friday for Del Rio, where they will make their home. They have the best wishes of the entire community.

Marvin Seymore and Fletcher Marshall made a flying trip to Brownwood Saturday, returning Sunday.

Mr. and Mrs. W. H. Seymore went to Temple Saturday night, where they were called on account of sickness of their daughter.

Mr. and Mrs. Tom Finigan of Waco were visitors at Joe Russell's Sunday.

The party at Mr. Henderson's Thursday night was enjoyed by all present.

Willis Faulkner is the owner of a new buggy.

Roy May of Salt Gap attended church here Sunday night.

Miss Annie Seymore who is teaching school at Doole, spent Saturday and Sunday with home folks.

Charlie Linsley and Dan Williams of Lohn, were seen in the Valley Sunday night.

Mr. and Mrs. J. Reed went to Brady Monday.

Well as news is scarce will bid you adieu.

### LOST CREEK ECHOES.

Many Interesting Items Reported from Lost Creek Community.

Voca, Texas, May 4.

Editor Brady Standard:

We had light rains here Monday.

In the afternoon a small cloud passed over Voca only extending one or two miles east of Voca. There was considerable rain, hail and wind. The hail riddled the gardens and young corn and it was reported that one vacant house was overturned by the wind and considerable damage done

by smashing window lights by hail.

Early Monday morning about four o'clock the big barn of Mr. Gus Liverman of the Long Valley community was destroyed by fire, together with its contents, consisting of a large quantity of corn and other feed stuff and a quantity of bacon, and a Ford car. The origin of the fire is unknown, except they remembered some matches being in the loft and it could have been rats.

The many friends of Lohn Latham will be grieved to hear of his death at his home on Deer Creek just over the line in San Saba county. Mr. Latham was well known throughout West Texas as a leading stockman of many years, having resided on his ranch on Deer Creek for more than fifty years. He was among the earliest if not the very earliest settlers left in this section of the state; this writer worked cattle for him thirty-nine years ago this spring.

Lost Creek will close the most successful term of school in its history next Wednesday night—with a free entertainment.

After having had the San Angelo Standard under his personal management for thirty-five years, J. G. (Pat) Murphy has sold the paper to Houston Harte, newspaperman hailing from Boonville, Mo. Pat's record is either one of having been a long time in the game, or else one of being a long time getting out. Be that as it may, he has made the San Angelo Standard the greatest and most widely celebrated daily paper in West Texas, thereby adding not only fame and glory to himself, but to the city of San Angelo as well. Wherever he may go, we trust Mr. Murphy's future may fall in pleasant lines, and to his successor we extend fraternal greetings and best wishes.

## LOCAL BRIEFS

Jack Chandler of Rochelle is again a Bradyite, having accepted employment in the mechanical department of the Mann-Ricks Auto company the first of the week.

J. V. Chandler, who recently sold his garage at Rochelle to Roy Barton, has taken the express wagon and will handle both incoming and outgoing express for Agent A. L. Lang.

Albert Steelhammer, Jr., returned the past week from Marlin, where he had been employed in the garage conducted by S. A. Conley & Son, and will remain here, having accepted employment with the Mann-Ricks Auto Co.

J. F. Freeman, senior member of the music firm of Freeman & Davis, expects to leave Sunday for Waco, where he will visit with his family while in attendance upon the annual meeting of the State Piano Dealers association. Some two or three thousand dealers are expected to be present.

Much concern has been felt by S. A. Benham over the condition of his brother, Newt Benham of Coleman, who was taken seriously ill on Tuesday of last week. Mr. Benham spent several days the past week with his brother and left again Sunday night for Brownwood, from which point he accompanied his father, J. D. Benham and his brother to Fort Worth, where the latter was placed under treatment of a nerve specialist. Mr. Benham returned yesterday morning and reports that the doctors give encouragement as to the ultimate recovery of his brother.

Members of the local Masonic fraternity report a most enjoyable meeting with the Rochelle lodge Tuesday night. In addition to initiation ceremonies in the Master's degree, the Rochelle lodge entertained with refreshments and hospitality that caused much praise and commendation from the Brady visitors. It is currently reported that W. J. Yantic captured sweepstakes prize in the refreshment hour. Included among local members visiting with the Rochelle lodge were the following: Messrs. L. Y. Callahan, L. B. Reeves, J. B. Whiteman, A. J. Ricks, M. P. Wagner, W. J. Yantis, Harold Deaton, Evans Adkins, Hubert Adkins, Clarence Snider, J. H. Ogden, Oscar Westbrook, John Moffatt, Dr. Wm. C. ## "Who's Who in America"

In hamlet or city the land over, the names of those who count in America will be found in that universal "Who's Who"—the telephone directory; a book so accurate, so up-to-date, that it is resorted to before all other public directories for correct addresses, initials and names.

Yet the telephone directory is but a symbol of the co-operation of men and women, money and material behind it—the telephone plants, systems and organizations—that make its publication valuable; the organizations that have made the telephone in America, under private ownership and management, the best developed, most modern and most universally used public service of the kind in all the countries of the world.

Thousands of independent telephone directories, in all parts of the United States, testify to the valuable and worthy part independent telephone companies of America have taken in bringing the telephone to its present high standard of usefulness, efficiency and dependability.

## MAKING THE WEAKEST PART THE STRONGEST ONE

Five years ago there was only one answer to the question, "What is the weakest part of an automobile starting and lighting battery?"

It was agreed that the weak spot was

A good many battery builders saw that some day there would be a better and possibly an entirely different sort of battery insulation—and that when it came it would mean a better, longer lived battery.

Some even said, "Why not use rubber?" but gave up the idea when they found how many obstacles barred the way

to its practical use in the insulation of an automobile starting and lighting battery.

Willard began the search with the others, and continued in spite of difficulties. It is common knowledge that we stopped only when we reached our goal, and had produced and proved Threaded Rubber insulation.

Four years ago 35,000 Willard Batteries with Threaded Rubber insulation were put into service. A large part of those batteries are in use today. What more striking illustration could be desired of the strength that has been added to the weakest battery part.

### PERSONAL MENTION

Mr. and Mrs. Jim Matthews and son, Norton, have been guests of relatives here this week.

Mrs. William Strickland left Saturday night for Colcord to attend her nephew, Newt Benham, who was taken seriously ill the past week.

Dr. J. G. McCall is in New Orleans, where he went to attend the meeting of the American Medical association, following which he remained in attendance upon some of the clinics.

Mr. and Mrs. J. W. Kinsel left Tuesday night upon their return to Henryetta, Okla., following a visit of several weeks with their daughter, Mrs. Ida Harrison, at Lohn. Mrs. Harrison accompanied them and will be their guest during the next few weeks.

J. W. Ince was here from the Rochelle community yesterday and reported having had a very good shower at his place, 5 miles west of Rochelle, the downpour filling the tanks. Hail accompanied the shower. Mr. Ince is of the opinion that the shower will be sufficient to bring up crops.

Mr. and Mrs. Thad O. Day went to Fort Worth the latter part of last week on a visit. Mr. Day incidentally enjoying the initiation ceremonies at Mosial temple, when 511 novices walked the burning sands. Messrs. Lee McShan and Virgil Jones also attended the ceremonials, driving through to Fort Worth and return.

Mr. and Mrs. June Coopender, accompanied by their grandchildren, Rose Coe and June McKee, went to Fort Worth and Dallas the past week. Mr. Coopender returned Saturday, following a business visit to Sherman, leaving Mrs. Coopender and Rose Coe in Dallas, where they will visit her daughters, Mrs. Jack Coe and Mrs. Bill Petree, while June McKee stayed in Fort Worth with his parents.

W. L. Hughes was called to San Antonio last Friday by news of the serious illness of his son, Holloway, who was visiting there with his mother, as guests of the latter's sister, Mrs. C. E. Stowe. Billie Hughes accompanied him. Mr. and Mrs. Hughes returned yesterday afternoon bringing the boys home and friends are glad to note that the little fellow is greatly improved. Mrs. Stowe came with them and will visit here the next few weeks.

## BRADY BALL TEAM TO PURCHASE NEW CLUB UNIFORMS

Brady fans have assured new uniforms for the Brady ball team by contributing the wherewithal for the purchase of twelve suits. A list, circulated the first of the week by local ball enthusiasts, met with ready and almost unanimous response, something like \$180 being made up for the team. The immediate result was the putting of new ginger into the club, with the result that Brady fans were treated to a classy exhibition of ball on the local diamond Tuesday afternoon. New material is being signed up for the regular club, and the Brady "Giants" promise not only to make a record in ball playing, but to give Bradyites the classiest exhibitions of the national sport that have ever been had here.

### Death of J. L. Latham.

The death of J. L. Latham occurred Monday at his home in the Fredonia community following an illness of about three weeks. Death came not entirely unexpected, but news of his demise came as a shock nevertheless, as Mr. Latham was one of the oldest settlers and most widely known men in this section. He had spent practically all his life in the Fredonia community, being raised on Deer Creek, in the edge of San Saba county, where his father made his home during the Civil war. His grandfather was slain by the Indians, and Mr. Latham himself had seen many stirring times in the early days. At the time of death, Mr. Latham was 69 years of age.

The end came peacefully, with members of his family assembled at his bedside. Funeral services were held Wednesday, interment being made in the family burial grounds at Fredonia.

Surviving are his widow, two daughters, Mrs. J. B. McKnight of Carlsbad and Mrs. J. H. Latham of Fredonia, and one son, Dr. Ben Latham of Blackwell, Texas, all of whom were present at the death bed and funeral.

Mr. and Mrs. Brittain returned Wednesday night from Rising Star, where they were successful in negotiating a lease on one of the most desirable business buildings in that place, being in the center of town and on four of the most traveled highways. They report Rising Star bustling with business as a result of the oil boom, and are anticipating the best of success in their new venture. The best wishes of their friends here go with them to their new home.

\* You Do More Work, \*

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

**GROVE'S TASTELESS CHILL TONIC** restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

**GROVE'S TASTELESS CHILL TONIC** is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride long distances to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same, today, and you can get it from any drug store. \$6 per bottle.

Death of I. T. Kendrick. The death of I. T. Kendrick, aged and highly respected citizen of the Camp San Saba community, occurred at 10:00 o'clock Wednesday morning. Had he lived until October 17th, Mr. Kendrick would have been 87 years of age. For the past couple weeks, deceased had been in feeble health. Death resulted from heart failure and dropsy, and was hastened by his advanced years.

Funeral services were held yesterday afternoon at 2:00 o'clock, interment being made in the Camp San Saba cemetery.

A remarkable coincident was that Mrs. Kendrick preceded her husband into the Great Beyond just four years to a day before death overtook him.

Mr. Kendrick was well known throughout the south part of the county, having made his home there the past ten years. Prior to taking up his residence in McCulloch county, he had lived in Mason county for three years, moving to that county from San Saba county.

Mr. Kendrick was a member of the Methodist church, and was an admirable Christian character. He is survived by two nieces, Mrs. Evie Miller of Brownwood, and Mrs. Lillie Brown of Fort Worth. Mrs. Miller cared for him up to the time of her removal to Brownwood a year ago, since when Mr. and Mrs. S. M. Fleming moved to Mr. Kendrick's place and looked after his wants and comforts.

Wonderful.

"You seem very much impressed by all these explanations I have been giving you about banking and currency."

"Yes, Charlie, dear," replied Mrs. Torkins. "It seems perfectly wonderful that anybody could know as much as you do about money without having any."

SAN ANGELO STANDARD  
BOUGHT BY H. MARTE—  
PAT MURPHY RETIRES

San Angelo, May 5.—The San Angelo Standard, for thirty-five years under one management, was sold Saturday by J. G. (Pat) Murphy of this city to Houston Harte, young newspaper man from Boonville, Mo. Murphy retains only a small interest in the property which he and W. A. Guthrie, deceased, established in 1884, when San Angelo was only a small frontier town, dependent almost entirely on old Fort Concho, for its support. Indians had not entirely disappeared from the broad plains those days, stage robberies were frequent and the West was, indeed, "wild and woolly."

For the last five years Harte has been publisher of the Republican at Boonville. He is a graduate of Missouri University, class of 1915, and was formerly connected with the Los Angeles Examiner. The Standard, under his charge, will continue to be an independent Democratic paper.

BRADY BEATS MERCURY  
IN SNAPPIEST GAME OF  
SEASON—2 TO 1 IS SCORE

(By the Sporting Editor)

One of the fastest and the most exciting game of baseball was played Wednesday afternoon between the Brady Giants and Mercury Red Sox, the game being one continuous thrill from start to finish, Harkrider, the High school wonder, twirled for the Giants, allowing seven hits, and pulled out of several bad holes by pitching real ball, the Giants giving him almost perfect support. Beasley of the Red Sox is one of the best pitchers the Giants have faced this season, getting nine strike-outs. The Red Sox also gave Beasley fine support.

The sporting editor extends to both teams the hearty approval of the fans on the exhibition of such clean sport as was witnessed in this game, and to say to the Red Sox to come again—you are welcome.

## BRADY PEOPLE

## PREVENT APPENDICITIS

Many Brady people are using simple glycerine, buckthorn bark, etc., as mixed in Adler-i-ka. This flushes BOTH upper and lower bowel so completely it removes all foul, accumulated poisons from alimentary canal and prevents appendicitis. Adler-i-ka relieves ANY CASE gas on stomach or sour stomach. Often CURES constipation. In one case of chronic stomach trouble ONE bottle produced wonderful results. C. A. Trigg Drug Company.

A double shift is being maintained, and Mr. Day hopes to complete this well to the 870 ft. sand between the 20th and 25th of the month. Day well No. 2 is still shut down.

C. S. Thomas well at Salt Gap is reaming to reset casing to shut out water.

Cunningham & Devine's two rigs are completed and ready for operation with the exception of laying the water lines. Drilling is expected to begin next week.

J. A. Liggett, president of the McCulloch Development Co., is here from Fort Worth, being accompanied by Morris Resch of Minneapolis, president and general manager of the M. R. Company of Fort Worth. Following a visit to the Lohn field, where a well is being drilled by Leroy Jobe for the Development Company, Mr. Resch announced that he had contracted with Mr. Jobe for the drilling of ten wells on various tracts of acreage located between the Tucker and White shallow fields. All of these wells are contracted to drill to a depth of 400 ft., unless pay sand is sooner found, the depth specified being a new departure in the Lohn field. Mr. Resch states that at least one of the wells will be deep test, as his company wants to test out this section from every angle. Mr. Liggett also contracted a number of wells, having at least six wells in view at the present. Leroy Jobe will drill for both Mr. Resch and Mr. Liggett, alternating between the two companies represented by these gentlemen.

Both Mr. Resch and Mr. Liggett are enthusiastic about the possibilities of the Lohn field, Mr. Resch stating that he had visited practically all of the shallow fields in the state, but that the Lohn field held out the best possibilities of any he had seen. Before returning to Fort Worth, they visited the White field, noting the progress there.

The White well No. 3 Sunday had reached a depth of 291 ft. with drilling steadily in progress with a double crew.

Jeff Meers reports having put on a double crew at the Texas-Meers well in Concho county, and expects to drill down to the 1400 ft. sand next week. Chas. Stewart, head driller for the Shultz Oil Co., and his brother are in charge of operations at the Texas-Meers well.

The Shultz Oil Co. well is shut down until pipe, recently lost in the hole, can be worked over.

It is currently reported among oil scouts that the Prairie Oil & Gas Co. had made a new location on the Zelle ranch. However, C. O. Collins, local superintendent, could not be
