

## COUNTY CORRESPONDENCE

### MARION MIXINGS.

#### Large Crowd Attended Party Given by Elmer Bray.

Brady, Texas, Aug. 6. Editor Brady Standard: The arrival of a new comer, but very welcome, is Bill Butler, as he is known by everyone about.

As yet no rain to speak of, but all are in hopes of a big rain soon.

Elmer Bray entertained with a party at his home Saturday night, which was attended by a large crowd.

Mr. and Mrs. Carl Ralston left last Thursday for Mason county, but are expected back this week.

Mr. and Mrs. G. T. Ryan were visitors at Bill Walker's Sunday afternoon.

Opal Duke spent the day with Mrs. Dora Ramsey last Wednesday.

Irene Rice returned home Saturday after a week's visit with her relatives.

W. D. Walker and wife, Irene Rice and Opal Duke were visitors at the H. D. Bradley home last Friday afternoon.

Mrs. W. W. Butler was seriously ill last Sunday night and the doctor was summoned in haste, but proud to say she is o. k. at present.

Eula Mae Butler and sister, Lola, called on Opal Duke Monday.

Mr. and Mrs. McMullen were visitors at the J. R. Butler home Sunday.

Still hoping for a rain I will bid all adieu.

"KAYOLA."

### Colds Cause Grip and influenza

LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

An air-operated hand-pick for miners has been invented by a German. It is used in spaces too small for the swinging pick.

### PEAR VALLEY PICKUPS.

#### Mexicans Help With Maize Heading—Remain for Cotton Picking.

Pear Valley, Texas, Aug. 5. Editor Brady Standard: Pear Valley is still growing. Dr. Stone who recently located at Pear Valley has completed his drug store and office.

Plenty feed made this season. Many farmers will have feed to sell. The big rush heading maize the past week has been accommodated by a large number of Mexican laborers. Most of them will remain for cotton picking.

Mr. Roy Miller has purchased a new Ford roadster.

Mr. J. H. Marshall has also purchased a new five-passenger car.

Mr. Bryon Myers has of late bought himself a car.

Grandpa Neiland's daughter who taught school here several years ago has been visiting home folks here.

Mr. Neiland has been putting the gin in first-class shape, equipping it with a first-class oil burner.

The B. Y. P. U. met in an appreciated meeting last Friday night.

Misses Maude Belle, Rita Reed, little brother, and others from Llano have been visiting in Pear Valley the past week.

Mr. Marshall from Dallas county has been visiting his brother here the last week.

The Salt Gap Singers were very much appreciated last Wednesday night at prayer meeting. They will be present again next Sunday afternoon at the league.

Pear Valley people are still congenial. We think Pear Valley people get along and like each other all the time. Much is attributed to good Christian moth-

ers, honest, industrious fathers and much healthful association. A good school spirit is in the air—with four good teachers, and an additional tax, we hope to have a good school this season. It seems that the time is ripe for a good live parent-teachers association, and boost together for a better school at Pear Valley.

"DUB"

### LIGHTNER COMMENTS.

#### Storm Saturday Evening Damages Outhouses and Buildings.

Whiteland, Texas, Aug. 6. Editor Brady Standard:

Our community was visited by a light storm Saturday evening. It blew down out-houses and fences, and at the Frisco section house the rubber roofing of the motor house was torn off, also blowing out one of the window frames of the house. The rain will help crops a little, is reported.

Frank Fields and Ed Hale and families have been on the San Saba river near the Springs fishing and had lots of fun and plenty of fish.

Mrs. Dewey Gormes has been visiting her parents in Melvin this week. Joe Dewitt was in Brooksmith on business Tuesday.

Criss Manly and family moved to Melvin this week.

There has been some work done on the road this week, which was badly needed.

Ernest Gormes was in Brooksmith Friday seeing about gin supplies.

Joe Dewitt, Jeane Priest, and C. D. Zimmerman had a little sport in catching fish with hands in a small hole of water near the silos on White's ranch Thursday evening. They caught some real nice ones, too.

Mrs. Ace Turk and children were in Melvin shopping Saturday.

Mrs. John Gormes and children were in Melvin Saturday shopping.

T. L. Benson who lives near Melvin was out Sunday looking over crops on his place, where Ace Turk lives.

We had no news last week. All were too busy to go anywhere.

"FLOWER BELL."

### To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE (Tablets.) It cures the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 30c.

### Bed Steads? We've got lots of them, and just the one you want. C. H. Arnspiger at the Second Hand Store.

### VOCA VOICES.

M. A. Leddy and Sister, Mrs. M. E. Mayo, Return from Oklahoma.

Voca, Texas, Aug. 6. Editor Brady Standard:

Here I come again after a few weeks' absence. Crops are just about all burned up here. There aren't many boll weevils now for it is almost too hot.

Mr. Martin Leddy and daughter, Emma, and Mrs. M. E. Mayo and daughter, Minnie, have just returned here from Oklahoma, where they have

been visiting relatives and friends.

Miss Lois Williams is visiting friends at Menard at present.

Miss Myrl Mayo has been visiting Miss Lorena Draper of Pontotoc for the past week.

Miss Mayme Wood spent Saturday night and Sunday with Misses Alma and Leah Passmore.

Miss Emma Leddy and Miss Minnie Mayo spent Sunday with Miss Lois Lemons.

Mr. and Mrs. Lee Crutsinger spent Sunday afternoon with Mr. and Mrs. Jim Simpson.

Bud Worsham spent Sunday afternoon with Willie Pinson.

Miss Edna Fleming spent Sunday with Miss Hettie Baze.

Mr. and Mrs. Martin Leddy spent Sunday with Mr. and Mrs. Cleveland Perry.

We are sorry to report Mr. Willie Pinson on the sick list this week, but seems to be a little better.

Mr. Henry Behrens and his brother, Harry Behrens of Mason, left Tuesday for Fort Worth on business. As news is scarce, will ring off.

"BOBBY."

### LOST CREEK ECHOES.

#### A Boost for County-Wide Membership in the C of C.

Voca, Texas, Aug. 5. Editor Brady Standard:

I see an article in The Brady Standard of July 28, headed: "Why Farmers Should Join the Chamber of Commerce." In that article I find much food for thought. If the readers of The Standard did not get some good out of that article it was because you did not read it right and I suggest that you look up the paper and re-read it. The first question—What Benefit Have You Ever Derived from a Chamber of Commerce? A Chamber of Commerce is supposed to be an organization that stands for the good of a community, town or county, or all combined. It may not have benefited me individually, but if it benefits my neighbor, it is good for me. If the town and county would co-operate in one big organization for the benefit of all, all would be benefited. If I, or you should want to develop something new along agricultural lines or want to improve or introduce something new in live stock or develop some of our natural resources such as mineral or oils, would we want some one or some organization such as the Chamber of Commerce to take hold of it, and advertise it for us and work for its development, while the ones it directly benefited sit by and looked on, or would it be best for all hands to help? And wouldn't it be fine if the farmer, the stockman, the merchant, and in fact, all work together for the mutual good of all? And when those guys come along to sell us stock in their wildcat project before we parted with our hard-earned money, we could talk and advise with each other and investigate it, one for all, and all for one. So many people need advice along these lines. I have known of thousands and thousands of dollars going kerflunk monkeying with those wildcat projects.

I could write page after page, but must stop now.

P. S.—You say the fee for those other than the business men of Brady should be fifty cents per month. Would it not be better to have five hundred farmers in the Chamber of Commerce at fifty cents per quarter than to have ten or maybe none at fifty cents per month? Is not numericle strength worth more than the financial strength in a co-operative organization like the Chamber of Commerce?

"A. CITIZEN."

## Both are Buick

### One has Four Cylinders—the other has Six

The Buick nameplate on the radiator of a car is the mark of merit. Whether the car has four cylinders or six is of secondary importance. The vital fact is that it's a Buick.

The new Buick Four is the ideal automobile for the motorist requiring a light economical car, yet having all the speed, power and sturdiness of larger and costlier cars.

The Buick Six, perfectly appointed, with all the flexibility and smoothness of the six cylinder car at its best, has earned its position among motor cars as the Standard of Comparison.

Choosing between the Four and the Six is simply a matter of size and price. Both are Buick.

BRADY, TEXAS, Aug. 11, 1922

HONEST INJUN.

No trouble to get "hot under the collar" these humid days, and rather difficult to obey that impulse to "keep cool."

COMMENDABLE ENTERPRISE.

As examples of commendable enterprise, The Standard wishes to point to some of our neighbor cities. There's Richland Springs, for instance. It's a live burg, with a citizenship that is up and doing; ready to co-operate with her big sisters in any good undertaking or to strike out on her own hook if she thinks an opportunity offers. When the San Saba river flood damaged and virtually destroyed the San Saba fair park, causing the directors to abandon for the year what had come to be known as the greatest county fair in Texas, Richland Springs sprang into the breach and boldly announced the West San Saba County Fair to be held at Richland Springs. Here is what the San Saba News says of the enterprise:

"The dates for the West San Saba County Fair at Richland Springs, are set for Wednesday, Thursday and Friday, August 16th, 17th and 18th. This fair is being promoted by the Richland Springs Booster club and is worthy of the support and enthusiasm of every citizen of every part of the county. This is a hard year in all lines of business. The farmers have not recovered from the tragic crash following the war period of inflation and a warning to the management not to over-jump themselves will not be out of place. This fair should be made permanent from the beginning."

The spirit exhibited by the enterprising citizens of Richland Springs, and equally the spirit of fellowship as exemplified by the San Saba News article is to be heartily commended. It is the spirit of friendly rivalry that makes men and communities get up and do things, and it is the spirit of friendship and co-operation that brings success to them both alike.

Then there is Fredericksburg, which favors The Standard editor with a season pass to the Thirty-Sixth Annual Gillespie County Fair on August 23, 24 and 25th. Those Fredericksburg folks always do pull off worth-while public attractions, and their fair is something to really boast about.

In addition, The Standard editor

WHAT CAN A TOWN DO FOR NEIGHBOR FARMERS? WHAT ONE VILLAGE DID

It Made the Town a Convenient, Comfortable and Pleasant Town to Come to—Mail Orders Dropped and Town Merchants Got the Money.

In the state of Wisconsin, where they seem to think as much of the farming business as of any other business, there is a country town of 400 people.

Only 400. There had been complaints of too much mail order business in that community, especially orders sent by mail to Chicago by the farmers.

Pretty soon there arose a merchant who said it might be a good idea to create a better feeling between the 400 of the town and the surrounding farmers. The local newspaper reported his saying and it was decided to do something.

First, they put in plenty of hitching posts for teams and they provided adequate space to park cars.

The next step was to build a few handy sheds for the horses and cars in bad weather.

The hitching posts, park and sheds were well used right off the bat.

This looked bully. So they began to hunch up more things to do. It was found that farmers often had to wait in town while repairs and other things were being done. So the merchants provided a good room on the main street and furnished it with chairs, tables, newspapers and magazines. Very shortly, the farmers' wives and children began to make great use of that nice rest room.

Here was service. And then it began to be noticed that the stores got more business from the farms and there was strong evidence that mail orders were beginning to fall off.

Presently, the business men of the village decided to invite the farmers to a meeting to talk things over. Many came. Lunch and hot coffee were served. There were no set speeches. The villagers said they wanted to meet the farmers on the basis of genuine friendship. The farmers were treated with utmost cordiality. There was no condescension shown. Just a friendly basis of equality.

Then someone suggested forming a community club, villagers and farmers all working together. The idea was immediately accepted. In a few months a community house was built. It proved to be remarkably easy to get funds. The farmers contributed and there was a fine get-together feeling all around.

There will be movies in that little community house. Dances will be held in it. Neighbors will visit and children play together there.

The farmer and his wife, and his daughter and his son come to town now and they are greeted with friendly smiles on every corner. And the villagers say the farmers are the finest people in the world. And the farmers are warming up a little more every day.—The American Press.

has received complimentary passes to the First Annual Pecan Day which was held last Tuesday at San Saba. In the famous paper-shell pecan of the San Saba valley, San Saba has found her biggest drawing card, and progressive community that she is, she is making the most of the opportunity by boosting the pecan in every manner possible. If this editor could only tear himself away from the absorbing task of boosting Brady and McCulloch county, he would attend each and every one of our neighbor's celebrations, to freely praise their efforts and to gather what ideas and information he could, which, in turn, might serve to our own great advantage.

THE BEST HELP.

The Country Gentleman cites two instances of "self-help" of a very simple kind in the following: "The people living about Burnt Hickory Ridge, Georgia, decided their children needed a consolidated school instead of the old one-room, one-teacher school. It had been a bad crop year and there had been a bank failure in the county. Bonds seemed out of the question. So the folks around there rented a planing mill, men contributed their work and the building was put up at a cost of less than \$1,000. The State Department of Education complimented it highly and accredited it as a junior high school."

"When the children attending the consolidated school at Amherst, South Dakota, needed a piano they raised the money for it themselves through entertainments and extra work. Now they are planning to buy and install a first-class radio outfit."

"These splendid examples of self-help—the best help—comprise a valuable lesson for the young. And in them is something that many grown ups can find of value. There is usually a way to get the worth-while things of life if one wants them badly enough."

"These are indeed splendid examples of 'self-help.' And they could be multiplied by the thousand here in Texas. It will be recalled how many Texas communities passed the hat to keep efficient teachers in their schools two years ago when there was no help to be had from any other source. But it is not necessary to include such spectacular instances. In the rural clubs of Texas, not only of boys and girls, but of men and women, such things are being done almost weekly. Indeed, there is growing up in some sections a new movement, but the spirit is old. It is the spirit of 'self-help' clubs. It is a new is the spirit that makes for progress in both the community and the individual life. —Fort Worth Star-Telegram.

"WE APPRECIATE YOUR GOOD WILL AS WELL AS YOUR TRADE."

**PERSONAL MENTION**

F. R. Wulff spent the first of the week in Dallas on a business trip.

W. H. Hill returned the first of the week from a business trip to Dallas.

Jack Savage left Wednesday night for Fort Worth and Mineral Wells on a visit.

Sam McCollum left Wednesday night on a business trip to Fort Worth and Dallas.

Mr. and Mrs. H. W. Zweig returned yesterday from their vacation trip to Corpus Christi beach.

Miss Bessie Pate, who has been attending Southwest Texas Normal at San Marcos, returned yesterday.

Mr. and Mrs. Dan Zimmerman are enjoying a visit from their son, Arthur, and wife, who arrived last week from Galveston.

Mr. and Mrs. W. I. Myers and little sons drove to Marlin the first of the week, where they are enjoying an outing with Mrs. Myers' parents.

Mr. and Mrs. G. V. Gansel who have been spending the past couple weeks visiting relatives and friends in Alma Center, Wis., returned Tuesday.

Messrs. T. B. Cobb and Fred Shield were business visitors here from Doole Tuesday, making arrangement for the opening of fall business within the next couple weeks.

Mrs. H. Meers and family are enjoying a visit from her father, Elder G. W. Cox, and also her brother, S. W. Cox, and family, who arrived here last week from Bastrop county.

H. N. Cook is spending the week in Sweetwater on business. Incidentally he was an attendant upon the Republican State convention at Fort Worth, to which he was a delegate from McCulloch county.

Mr. and Mrs. R. D. Dyer have returned from Christoval where they attended the U. C. V. reunion the past week. They report a delightful meeting, and a most enjoyable meeting place, as well.

Arthur Fahrenthold, who is associated with Werner Tauch at San Antonio in the multigraphing business, is spending the week here visiting with his parents, Mr. and Mrs. Otto Fahrenthold, and relatives and friends.

Mr. and Mrs. I. G. Abney left Monday night on a trip to market where they will purchase the Fall and Winter stock for the Abney store. They expect to spend about two weeks on the trip and in making their extensive purchases.

Mr. and Mrs. Joe A. Adkins, accompanied by their son, Evans, daughter, Miss Mary Jo, and niece, Miss Elizabeth Brown, of Bristol, Tenn., left Sunday on a week's trip to Austin and San Antonio. While in San Antonio, Joe Adkins underwent treatment by a specialist in nervous diseases.

Mrs. W. H. Ballou and daughters, Katharine and Elizabeth, who went to Carlisle last week to attend the ex-Confederate reunion, are remaining over there for an outing, while the Baptist Encampment is in progress. Mr. and Mrs. Demp Brannum are two more of the reunion attendants who are prolonging their stay in Christoval.

The many Brady friends of Mr. and Mrs. H. J. Lowrey, former Bradyites, but who have been located at Lubbock for a number of years, where Mr. Lowrey is engaged in the drug business, were delighted to greet them here. Mr. and Mrs. Lowrey, accompanied by their daughter, Miss Irene, and son, Ernest arrived the latter part of last week for a visit with her sister, Mrs. Harry Evers, and relatives and friends in this section.

Kyle Biggs, who has been spending the greater part of the year at Corona, N. M., on account of his health, arrived here Wednesday, following a visit with his parents, Mr. and Mrs. J. K. Biggs, at Dublin. Kyle says it feels great to be back among his Brady friends once more, and he plans to make his home here permanently, if he finds that his health continues to improve. Mrs. Biggs, who is visiting relatives in Brownwood, will join him here in a few days.

Mrs. Buren Sparks and four children arrived Tuesday from Florence, Texas, to join the Rev. Buren Sparks in making their home here, and the family is now comfortably domiciled in the Baptist parsonage. The children include Rev. and Mrs. Sparks' infant son, and who was very patriotically named James Brady, despite the fact that he first discovered America three weeks ago at Florence, Texas. Accompanying Mrs. Sparks to Brady were her sister, Miss Genet Harper, of Florence, and her niece, Miss Vivian Tice of Killeen, who will spend a few days here.

Our furniture stock is complete and we would like to have a chance to figure with you on your needs in this line. BROAD MERCANTILE CO.

**SOCIETY**

The Editor Will Appreciate Items for this Column. Phone 163.

**Friday Club.**  
Mrs. J. E. Shropshire entertained on Friday night with a delightful Porch party for members of the Friday club, five tables of "42" furnishing the evening's diversion. Those present included Messrs. and Mesdames J. C. Hall, C. P. Gray, Ed Broad, T. Gray, F. M. Richards, J. L. Vaughn, A. B. Cox, N. G. Lyle, H. R. Hodges; Mrs. W. J. Day.

Following the usual series of games, the hostess served cream and cake.

No meeting of the club will be held during the present month.

**Wednesday Club.**  
Mrs. J. B. Granville was hostess to the Wednesday club, and members spent an enjoyable afternoon in playing "42." Present were members as follows: Mesdames N. A. Collier, Edwin Broad, T. Gray, W. D. Jordan, Ira Mayhew; Miss Mozelle Glenn. Guests were Mesdames Jas. T. Mann, A. B. Stobaugh, V. R. Jones, Claud Baker of Eastland, L. Y. Callihan, Gibbon Roberts, F. A. Knox, J. B. Whiteman, M. P. Wegner, Lee King, S. J. Striegler.

The hostess served a salad course. Meeting for next week was not announced.

**Ladies Aid Society.**  
The Ladies Aid and Missionary society of the Christian church met with Mrs. Jack McGonagill on Wednesday afternoon, with twelve members present and one visitor. A very interesting program on "Foreign Missions," led by Mrs. Frank Wilhelm, was had. Papers were read by Mrs. Arthur Wood, Mrs. Tom Bodenhamer and Mrs. J. B. Whiteman.

Following the business session, a social hour was enjoyed, during which the hostess served iced melon.

The Aid adjourned to meet with Mrs. Maxwell the first Wednesday in September.

**Honoring Fort Worth Visitor.**  
Little Miss Drusilla Davidson was hostess last night from 7:00 o'clock to 9:00, at a pretty party given by her mother, Mrs. W. R. Davidson, in honor of little Miss Betty Brannum, who is visiting here from Fort Worth. A number of little friends were invited, and the hours were spent in delightful fashion in various games, following which cream and cake were served.

Those attending the party were little Misses Royle Erickson, Christine Jones, Elizabeth Parker, Loudie Marie Schwenker, Phoebe Graham, Mary Louise Walker, Myra and Logretta Walker of Fort Worth, Ruby Wood, Frances Charlotte Strickland, the honor guest, Betty Brannum, and the hostess, Drusilla Davidson.

**Forty-Two Party.**  
Mesdames E. A. Burrow and J. B. Whiteman were hostesses on Wednesday morning from 9:00 o'clock until 12:00 at a very enjoyable "Forty-Two" party, given at the home of the former in the Jeff Wood residence.

Numbered among the guests were Mesdames A. B. Cox, Wilson Jordan, Henry King, Ira Mayhew, Arthur Wood, Clyde Hall, Virgil Jones, Bert Stobaugh, L. Y. Callihan, G. E. Ehlinger, J. H. Ogden, N. A. Collier, Tom Stobaugh, R. W. Andrews, J. B. Granville, M. F. Price, Marvin Wegner, J. B. Smith, and J. C. Cunningham of San Angelo.

Mrs. Jones won high score in the series of "42," played at four tables. The hostesses served iced watermelon.

Shasta daises were used as favors.

**Entertain at Bridge.**  
Mesdames J. G. McCall and Sam McCollum were hostesses at a most enjoyable lawn party on Tuesday night. Eight tables were set for "Bridge" on the brilliantly lighted lawn, Mrs. Jack Ragsdale winning high score and ladies' prize and Mr. G. V. Gansel receiving high score

and gentlemen's prize. Pot plants and cut flowers were used in effective decoration.

Following the series of games, refreshments of frozen chicken salad, sandwiches, olives and an ice were served by the hostesses.

Numbered among the guests were Drs. and Mesdames J. S. Anderson, H. W. Lindley; Messrs. and Mesdames G. R. White, W. R. Davidson, W. D. Crothers, Dick Winters, Bailey Jones, G. V. Gansel, G. C. Kirk, S. S. Graham, Wiley W. Walker. Mesdames Jack Ragsdale, R. W. Turner, S. A. Benham; Misses Lucille Benham, Leslie and Norma Samuel, Erin and Willie Florence Yantis.

**Complimenting Little Guests.**  
Mrs. G. R. White was hostess to a party of little folks on Wednesday afternoon from 4:00 o'clock until 6:00, complimenting little Misses Sunbud and Myra Walker of Fort Worth, who are guests of their aunt, Mrs. Chas. T. White. The little folks had a very enjoyable time playing outdoor games so dear to the hearts of the little folks, following which they were served with refreshments in the dining room of the White home.

Numbered among the guests were little Misses Gladys Bates, Mayfair Woodsley, Loreen Vierus, Drusilla and Rose Mary Davidson, Ruby Wood, Loudie Marie, Helen and Clara Schwenker, Mary Wood, Alice Lindley, Darby Ogden, Elsie and Dorothy Fahrenthold, Evelyn Stobaugh, Marietta Sessions, Mary Louise Sessions, Bernadine Whiteman, Betty Brannum of Fort Worth, Phoebe Graham, Christine Jones, Frances Charlotte Strickland, Virginia Baker of Eastland, Lena Mallory of Mason, and the guests of honor, Misses Sunbud and Myra Walker; Master Hugh White Calvert.

**Basket Picnic.**  
One of the season's most universally enjoyed social affairs was the big basket picnic staged by Ed Broad on Thursday night of last week in compliment to the Brady band boys and also the Brady base ball club. Members of the band and the ball club were on hand, and in addition a large number of friends and supporters of the two organizations had been invited to come and join in the evening's entertainment. Everyone brought well-filled baskets and well-groomed appetites, with the result that there was an abundance of everything good to eat—barbecued meats, potato salads, fruit salads, bread, pickles, lemonade, ice water, and pies and cakes galore—and it goes without saying that the several hundred guests did full justice to all the appetizing viands.

Following the supper, numbers enjoyed a swim in the swimming pool close at hand with compliments of H. S. Snearely, while others constituted themselves an audience for the swimmers. Incidentally, the band boys brought forth their musical instruments and gave a pleasing program for the edification of all.

For his thoughtfulness in providing so splendid a get-together opportunity, and for the extensive preparations made for the event and the entertainment provided, the thanks of all attending were freely given to Mr. Broad.

**A MESSAGE TO MOTHERS FROM DADDY PURE TEST**  
Daddy Pure Test says: When changing the baby's diaper, always use Puretest Zinc Sterate! Then you will not have a "cry baby." It's the smart of the wet diaper that makes "night howls." This new dusting powder is a blessing to them and the mother. A generous size can, 25c. TRIGG DRUG CO. The Rexall Store.

There is a difference in aluminum utensils. We handle Mirror. O. D. MANN & SONS.

**No Worms in a Healthy Child**  
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

We have Cedar Chests for the babies up to the grown-ups. We can surely please you with a Cedar Chest. BROAD MERCANTILE CO.

Ice Cream Freezers. O. D. MANN & SONS.

We have a complete line of shop-made Saddles, Harness and Boots at reasonable prices. EVERS & BRO.

**SEX**

Prove other sex books don't give you the knowledge you need to create a happy marriage. One reader says: "I would have more real information than all other sex books put together. It is plain, easy to read, and money well spent. \$1.95, each, money order, check or stamps." COUNSEL SERVICE, 257 W. 71st St., N. Y. Dept. 507.

**Quality**

You can buy tires that cost more and tires that cost less than Goodrich Silvertown Cords.

But when you come to the only cost you are really interested in—final cost—you can find no greater economy than through the use of Silvertown Cords.

Their ability to withstand continual hard driving and their uniformly high mileage make them the greatest tire value that can be obtained.

Come in and get our prices and service story regarding Silvertowns the next time you are in need of a tire.

# ENGINEERS SEEK TO SOLVE TEXAS RIVERS PROBLEM

E. A. Burrow, McCulloch county engineer, returned the first of the week from Austin, where he had been in attendance upon the meeting of 200 leading engineers and others of the state interested in the matter of flood control. The meeting was held Monday in the Senate chamber of the State capitol, in response to invitation of Governor Neff for the purpose of outlining a definite program for the control and conservation of flood waters.

Col. Wm. G. Sterrett, representative of the U. S. Geological Survey and the U. S. Engineering department, Nationally-known congressmen, and engineers representing the Mexican government, all were there to council and to give their view of the proper methods of working out this great problem—the next big task that Texas must accomplish.

Governor Neff made the key-note speech of the meeting, in which he pointed out that by proper protection from the flood waters, millions of acres of fertile land will be reclaimed, which will add each year, \$200,000,000 to the taxable values of the State of Texas.

"Texas rivers discharge 30,000,000 acre-feet of water into the Gulf during an average year," said Governor Neff. "Only five per cent of this water is now in use. We let go unappropriated the remaining 95 per cent. The work of this conference is to map out plans by means of which this wild unused water can be harnessed and made to serve mankind. We have lost all wisdom if we do not at once put a stop to this widespread and enormous waste."

To expedite matters, the attending engineers were divided into groups—those from the vicinity of the Trinity river forming one group; those from the Brazos another; those from the Colorado a third, and so on.

Mr. Burrow was placed in the San Saba river group, and read a very interesting and instructive paper in which he advocated control of the water at its source, and the forming of a series of lakes around the breaks of the plains. Mr. Burrow points out that \$20,000,000 of property was lost early in the year by being swept into the gulf by flood waters. Where an excess of rain was had early in the year on the plains, now the lack of water on these same plains is proving equally disastrous. Incidentally, the lack of surface water is intensifying the dryness of the atmosphere, and the aridity of the land.

The following is the paper read by Mr. Burrow before the engineers. It shows both careful study and thorough understanding of the problem, and is worthy of much thought and consideration:

### A Series of Lakes Around the Breaks of the Plains.

- 1) The conservation of flood water.
- 2) The humidifying and cooling of the atmosphere (at elevations over 1500 feet in Texas).
- 3) Irrigation of semi-arid land.
- 4) The supplying of water during droughts for cities, stock-farming and etc. at elevations over 1500 feet.
- 5) The prevention of floods in low lands.
- 6) The drainage of low lands.

We should view this problem at such a distance now that the cone of our vision subtends all the country from the mouth to the head waters of our largest Texas streams. Let us not leave this viewpoint by a wild call of high water in the lowland or scarce heads and pictures in the daily papers.

Each factor that enters our problem should be carefully weighed and credited and all parties heard with patience. We all know that the desire of the people on the head waters is to try to get the water out of the stream on to the farms and on the lowlands at the mouth of the streams the occupation is to try to get it back off of the farms in its channel again.

Now shall we help them? No! I say. The subject of Irrigation or Drainage should not be allowed now, only as a secondary factor, (but of course these both will come up later as detail.)

Let us not allow ourselves to be dragged into either now for they are both local problems that can be handled locally and individually are generally promoted by a speculator, who can also be handled locally and individually.

Now we can handle successfully all of this great scheme by going to the head waters (from an elevation of 1500 feet up) and conserve flood water by damming all draws just where they break from one table land down to another.

As our cone of vision now allows us to look on the head waters of our streams The Plains of West Texas, the worst and best country on earth, a paradox made so by hot winds. When the hot winds blow it is the worst, and when they do not blow it is the best country on earth.

Now what produces hot winds? The shortage of water is exactly the cause; it takes 965 heat units to evaporate one pound of water, so a gallon of water evaporated will carry away 8015 heat units and it must be remembered it will not evaporate without just so much heat. We can not do away with this heat of course, but we can diffuse or scatter it up into the atmosphere. Dry air is a non-conductor of heat, so this dry air will travel along all day and roll the heat of the sun along the parched ground, next mixing it, as it is a non-conductor. Now, if this dry air and heat is allowed to strike water in any form the heat and water proceeds to leave the ground in exactly the proportion given above, thus lowering the temperature.

Remember we are looking at the plains of West Texas (who can feed the State one year and next year the State feeds them) we see numberless small lakes where the pasture breaks into the valley. The material (stone, gravel and sand) is plentiful at the breaks for dams; in most cases these dams can be plain walls, and even if they leak badly our aim, to a great extent, is accomplished for we have prevented floods in lowlands and the drainage in lowlands; eventually they will tighten and allow the water to filter through and sub-irrigate the valley then run into the main river channel as springs, thereby supplying the main channel with spring water.

The solution of this gigantic problem resolves itself into damming the draws above 1500 foot elevation and will finally be solved when all draws are dammed, then we will have no irrigation, no flood water, no drainage and no levee problem of note.

Some draws have a very great fall through a rocky, mountainous country, and should be dammed more than once, probably four dams in four miles; these four dams will take care of a two-inch rain that covers an area of twelve or fourteen square miles, and if you take even this amount of water off the crest of a rise you have materially lessened the flood danger.

Since the beginning of time we have worked unceasingly on our levees (around the center of population our first landing place) what has been the earning power of this levee work? Probably half of one per cent because of it's of service only when it holds the water back and it never does that. Because of a set of circumstances a bunch of rains fall on the tributaries timed just so the "flood" of each meets in the main channel; then the levee is and always will be too low.

Let us open our eyes just wide enough to see both ends of the river then go to the plains around the 2000 foot mark (where the hungry, hot, dry winds literally suck moisture from every conceivable source, then we see vegetation wither and twist when called on by (the agent of the hot wind) evaporation for its last drop of moisture.)

Build these innumerable dams and the job is done. Then we shall have accomplished (1) the conservation of flood waters.

- 2) The humidifying and cooling the air of the plains country.
- 3) The irrigation of semi-arid lands.
- 4) The supplying of water for cities and stock farms during drought.
- 5) The prevention of floods.
- 6) The drainage of low lands.
- 7) And levee improvements.

Only in the rarest of cases should we allow the main channel of our streams dammed for by so doing valuable valley land is submerged and wasted. The subterranean flow below same is filled with dead water, and the normal healthy flow of the stream is thereby killed.

To care for flood control we should see that our river channels are even,

### A TALK WITH A BRADY MAN.

Mr. Bodenhamer of Brady Tells of His Experience.

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We, therefore, give here an interview with a Brady man: "Some years ago my back began to ache and often I got right down with it," says Mr. Bodenhamer. "My feet and ankles became swollen and my kidneys did not act as they should. These troubles came on in spells and every time I used Doan's Kidney Pills they relieved me. I always have Doan's Kidney Pills in the house." FOUR YEARS LATER. Mr. Bodenhamer said: "I still recommend Doan's Kidney Pills as highly as when I first endorsed them." 60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

widened and straightened in places instead of allowing them plugged with a dam.

We are now to set a number of forces to work that will finally accomplish our desires. It will take years of time and millions of dollars and when finished will be just exactly as perfect or imperfect as the organization of men who made it is perfect or imperfect. So it seems we should have a department of government composed of men big enough to hear all factors and balance one with the other so as to find a comparative value for each.

The engineer will be a prime factor in this great development and should not forget the almost sacred word "service" to his fellow man.

E. A. BURROW, County Engineer of McCulloch County, Texas. August 5, 1922, Brady, Texas.

### GUY WILLIAMS, FORMER BRADYITE, WILL SPEND HIS VACATION IN EUROPE

The following item, reprinted from the Comanche Chief, will be read with interest by Brady friends of Guy Williams, former Bradyite, and who, for a number of years, was employed in the W. I. Myers store:

Guy Williams, son of Mr. and Mrs. W. L. Williams, now of Comanche, formerly of Brady, sailed the latter part of this week from Galveston to London, for a two months vacation trip. He expects to return via New York and New Orleans, reaching home about the first of September. Mr. Williams graduated just recently at the San Marcos Normal, where he studied during the regular term last year and the summer term just closed. Last summer he spent his vacation in a trip through California and came home by way of the Panama Canal.

### POINTED PARAGRAPHS.

A \$3,000,000 temple is to be erected in Ste. Anne de Beaupre, Quebec, to replace the one destroyed. A monastery costing \$500,000 will also be built for the Redemptorist fathers.

New Jersey spends \$2,000,000 a year keeping down its mosquitoes.

Bank messengers in Wall Street will be dressed in bright red coats, and have portable safes attached to padlocked belts around their waists. Under this system, it is believed the public will rush to the rescue of any red-coated messenger attacked by robbers.

Mining dumps of South Africa are being worked by improved machinery to recover metals discarded when the gold was being recovered.

The Bolshevik leaders have preserved the great Royal Palace of the Kremlin, of Moscow, almost without change, as a reminder of "the lavish wealth and the pomp and splendor of the old regime."

Except for 100 miles there is now a paved highway from Los Angeles to Portland, Oregon, a distance of 1,200 miles. In less than three years the Pacific Highway will be completed from the Canadian line to the Mexican border.

Twenty-nine men were murdered last year in the half-mile between the Tombs Prison and police headquarters in New York City and only four men have been convicted for these crimes.

The United States consumes two-thirds of the World's rubber production.

Sea Lions, marauders of salmon, are to be fought by the Canadian Government. A patrol steamer left recently from Vancouver, equipped with machine guns to be used against the lions.

Gold is to be reduced from the smoke leaving the United States Assay Office in New York City. During the process of reduction much gold dust is lost through the chimney.

Fishermen off the Norwegian Coast are catching more mackerel than has ever been caught in that section. Fishing smacks are loaded to the water's edge with 10,000 mackerel each. They are retailing at two cents each, and in quantities for less than a cent. The fish are unusually large.

Ferrymetal is a new alloy of lead, calcium, barium and small amounts of other constituents. The alloy is practically unoxidizable.

A new copper process makes it possible to weld together iron and steel parts. The copper penetrates into the fine pores of the iron and forms a firm weld.

University professors of Princeton may retire hereafter on half-pay when they reach the age of 55 years. Professors can continue to teach, if they wish to do so, until they are 68 years of age, but after that they are to retire automatically.

### JOINT CLUB ENCAMPMENT AT RICHLAND SPRINGS FOR SAN SABA AND McCULLOCH

Notice to Members of McCulloch County Boys' Agricultural Clubs:

The San Saba and McCulloch County Club Boys will hold a joint club encampment at Richland Springs during the fair next week, August 16-17 (Wednesday and Thursday). Mr. S. H. Clark, County Agent of San Saba county has extended a special invitation to the club boys of McCulloch county to join his boys in this encampment and I am taking this means of extending his invitation to every club boy in the county. I hope that as many of you boys as possible will take advantage of this opportunity for a couple of days of outing and instruction. An appropriate program will be arranged and the boys will be under the supervision of Mr. Clark and myself. Arrangements have been made for serving meals to the boys at the camp and the nominal charge of \$1.50 for each boy for the two days will be made.

Each boy should bring a blanket or quilt to sleep on and a pillow, if one is desired. You should also bring a change of clothes, towel, comb and brush and tooth brush. We would like to have as many of the fathers of the boys with us as possible and they will be cared for at the camp the same as the boys.

Boys, talk your fathers into going with you and if you go in a car, and have the room, take some boys who haven't a car to go in.

The train fare from Brady to Richland Springs is about eighty cents and the train leaves Brady at 11:00 o'clock in the morning, arriving at Richland a little after noon. Would like to hear from every club boy between now and Tuesday night as to whether or not he will be with us. If you have room in your car to take some other boys, will be glad to have this information also. Boys, drop me a card and say you will be with the other boys at the Encampment. Trusting that a large number of our boys will be with us at Richland Encampment.

GEO. E. EHLINGER, County Agent.

Piles Cured in 6 to 14 Days  
Druggists refund money if PAZO OINTMENT fails to cure Itching, Bleeding or Protruding Piles. Instantly relieves Itching Piles, and you can get a restful sleep after the first application. Price 60c.

Ink Pads of various sizes and colors. The Brady Standard.

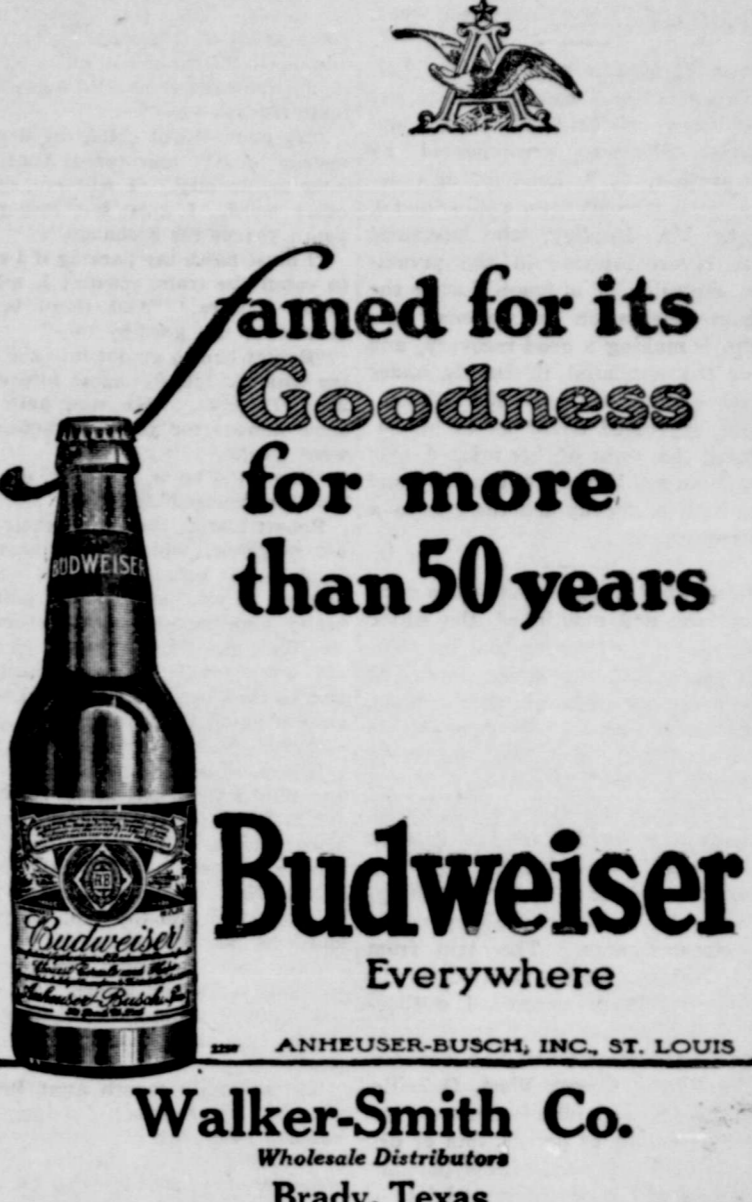

The smallest house in London is opposite Kensington Palace Gardens. It has a six-foot frontage and the ground floor apartment is used as a shop. A sitting room and bedroom are above and a basement kitchen below.

A new gas has been developed for aerial navigation. It is called currenium and costs \$100 a thousand cubic feet less than it costs to produce helium. It is non-inflammable and non-explosive and has a lift about the same as pure hydrogen.

If you want more milk from your cows, feed Polka Dot Dairy feed. MACY & CO.

To Stop a Cough Quick  
take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 35c. Just ask your druggist for HAYES' HEALING HONEY.

## Why the No. 2070 Excels

Built by Shaw-Walker.  
Has no nuts, bolts or screws.  
It's rigid.  
The drawers open and close easily and smoothly.  
The slide is progressive. It's a well-made, durable slide.

The drawers are 25 1-2 inches deep. This gives you eight or ten more inches filing space per four drawers than you secure in other low-priced files.

So this case gives you the essentials—rigidity, big capacity, easy operating drawers.

Of course, it's not as good a case as the No. 1070. Have to sacrifice somewhere. Lighter gauge of steel, steel hardware, and a slip-in follower block save money, yet detract little from the file's actual usefulness.

May be had in olive green or mahogany, with or without locks.
