Bible Thoughts

"SO LONG AS YOU BOTH SHALL LIVE"

By Ronnie Parker

Marriage is the basis of home and family. It is the basis of our human happiness here and of our spiritual welfare both here and hereafter. Marriage is God ordained and God regulated. God's will is that man shall "leave his father and mother and cleave unto his wife, and they shall be one flesh" (Gen.2:24). It involves a "leaving" and "cleaving."

There is no more solemn moment in the lives of two people than that moment when before God they pledge their love to one another... A pledge to take one another as husband and wife "until death do us part". Those vows are made in good faith before almighty God and should be regarded in the light of their sacred character. In Christian marriage you vow your undying love and fidelity to each other. It is not a marriage that should last until mental cruelty, someone more attractive, or adversity should break it. It is a solemn vow that this man and this woman, in deep love for each other, having chosen one another out of all others, will live together until death shall sever the bonds which made them husband and wife. Jesus said, "Whoever shall put away his wife, except for fornication, and shall marry another, committeth adultery; and he that marrieth her when she is put away committeth adultery". His law has not been changed!

SOMEBODY CARES

It is so important that someone cares about how this child grows up. Someone cares that she is clothed and fed and loved. Someone cares that she goes to school and grows in mind as well as body. Someone cares about her childhood wonder and curiosity and wants to see them satisfied. Someone cares enough to teach her to love other people and will help her in her relations with them. Someone cares about her spirit and desires for her the highest ideals and standards, and will help her to know God. Are you this someone?

Let it be said of her as it was said of Him, "And Jesus increased in wisdom and stature and in favor with God and man." Luke 2:52.

TAKE SOMEONE TO CHURCH THIS WEEK

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**Competition Gas Okayed For Irrigation Farmers**

Members of the Castro County Gas Users Association received news last week that 178 irrigation gas users in Castro, Lamb and Parmer Counties will be allowed to buy natural gas from new sources.

The association met in the community room of the courthouse to hear the report and elect officers and directors for the coming year.

**GEORGE SIDES** of Bethel was elected president of the county gas users' association. Kenneth Christie is the new vice-president, and Roy Dale Underwood was elected secretary-treasurer.

Chosen as directors, by precincts, were John Gilbreath and Francis Wilhelm of Precinct 1, Underwood and Lonnie Bell of Precinct 2, Raymond Riley and Christie of Precinct 3, and Donald Wright and Frank Wise of Precinct 4.

Roy Dale Underwood, Doyle Underwood and Houston Lust will be delegates to the Plains Irrigation Gas Users Association.

**THE NEW purchasing allowance** for local irrigation gas users came in a decision by the Federal Power Commission.

The commission granted the authority to Plains Gas Farmers' Cooperative Society and Tri-County Gas, Inc., to buy gas from the Transwestern Pipeline Co. for 26 1/2 cents per mcf. and from El Paso Pipeline Co. for 22.44 cents per mcf.

The decision was made final Feb. 16, when Pioneer Natural Gas Co.—which presently services the irrigation gas users—chose not to file an appeal with the Circuit Court of Appeals to counter the order issued last Dec. 14.

**D. L. CARMICHAEL** of Friona, president of Plains Irrigation Gas Users Association, termed the FPC decision "a major breakthrough for farmers in securing cheaper agricultural gas."

Castro and Parmer County farmers are now ordering meter equipment to tie in approximately 174 wells to nine additional taps gained from Transwestern Pipeline Co. Also, some 150 wells in Lamb County are being readied for connection to two taps onto El Paso Pipeline Co.

**FOUR MAJOR pipelines** now cross the Panhandle and South Plains, in addition to those of Pioneer, Transwestern, El Paso and the Natural Gas Pipeline Co. of America now have pipelines through Castro, Parmer and Deaf Smith Counties, and Lubbock.

Hale, Swisher and Armstrong Counties are crossed with a Northern Natural Gas Pipeline Co. line.

"This assures eventual competition in securing natural gas for irrigation," Carmichael said.

The original order of the FPC granting Plains Gas Users the authority to purchase gas from

Transwestern was issued Feb. 16, 1965, and service was connected in June of that year to four group lines serving 87 wells.

**THE EXPANSION order** allows 178 West Texas farmers to buy irrigation gas at lower prices, and fixes a precedent for other farmers to buy gas from competing sources, Carmichael said.

**Price Seeks Disaster Funds For Cotton Growers, Ginners**

A resolution to free federal disaster loan funds for distressed cotton farmers was introduced in a House Agriculture Subcommittee last week.

Congressman **Bob Price**, a member of the Agriculture Cotton Subcommittee, offered the resolution which would make \$36 million of disaster loan funds available through the Farmers Home Administration.

**THE MONEY** has already been authorized by Congress for loans

to farmers and cotton ginners in crop failure areas. The \$36 million has been withheld by the Bureau of the Budget and, according to Price, the Farmers Home Administration is using the disaster loan program only on a limited basis.

Price also said that Small Business Administration loans to cotton ginners had fallen far short of actual needs of the cotton crisis.

"An effective disaster loan policy for distressed cotton farmers and cotton ginners can ease the hardship of this rural disaster," Price said. "An expanded disaster loan program would also forestall more federal expenditures in caring for growing numbers of rural refugees in already overcrowded and riot-threatened cities," he said.

"**MANY cotton farmers** over a vast area of the south suffered an almost total crop failure last year and lost millions of dollars in income," Price said. "Many businesses in these areas—particularly cotton ginners—are faced with bankruptcy unless they get help."

"The victims of this disaster are not asking for government hand-outs but for loans to be repaid," Price explained. "Farmers borrowing from disaster funds under limited programs in the past have established remarkable records of repayment."

**IN THE** quest for world peace, agricultural production may be America's most potent weapon. It is one vital area where we far surpass the communist countries.

**MORE** than 460,000 therapists and professionally trained rehabilitation workers are needed to help the handicapped, says the Texas -aster Seal Society.

**Castorbean Test Shows 12-Inch Spacing Is Best**

A 1967 study on castorbean irrigation methods and plant spacing at the High Plains Research Foundation indicated that 12-inch plant spacing may be more desirable than six-inch spacing.

There was a slight increase in yield from the 12-inch spacing in each of the three irrigation methods when compared to six-inch were not significant.

Three irrigation methods and two plant spacings were used in the study, and yields ranged from 2,842 to 3,350 pounds per acre. Full details of this report may be seen in the 1967 Annual Research Report of the High Plains Research Foundation.

**THE 12-INCH plant spacing** would reduce seed costs, and

irrigation efficiency was reduced by a mid-September irrigation which failed to increase yields.

**New Income Source Available Through Grazing Associations**

Farmers and cattlemen are acquiring needed land resources by forming grazing associations and getting financial help from the Farmers Home Administration, the agency's Hale and Castro County supervisor, Donald R. Jennings, said this week.

A **GRAZING association** is composed of a group of family farmers and ranchers who join together to acquire and develop land to provide seasonal grazing for livestock belonging to its members. The nonprofit association is owned, operated and managed by its members.

Small farmers, Jennings said, can increase their incomes, make better use of land and water resources and develop larger equity in land through use of a grazing association.

Other advantages of an association include providing opportunities to improve livestock quality, gain bargaining power in the market place, build more stable operations and strengthen the community.

Results benefit the entire community, Jennings said, because associations accomplish better use of land and water resources and provide expanded tax bases and more local buying power.

Grazing associations range in size from three to 80 members, depending on the number of livestock to be supported and dimensions and quality of the land.

Eligible to form associations are neighboring farmers and ranchers who operate family size units. Financial and technical assistance is provided by the Farm-

ers Home Administration. Additional aid often is provided by the Department of Agriculture's Soil Conservation Service and Agricultural Stabilization and Conservation Service.

The Bureau of Land Management, an agency of the Department of Interior, and the State Department of Agriculture also provide advice and aid to grazing associations.

**LOANS ARE** available to qualified borrowers for periods up to 40 years at an interest rate of 5 percent.

Information and applications may be obtained from the Castro County office of the Farmers Home Administration, located in the basement of the courthouse in Dimmitt. The office is open on Tuesday and Thursday of each week from 9:30 a.m. to 3:30 p.m. The telephone number is 647-3532.

**Easter Seal Letters Mailed**

## Bobbies Face Slaton Tuesday

Dimmitt's district champion Bobbies now go into the rigors of "sudden death" play as they step onto the Interscholastic League ladder to the state throne room.

THEY'll travel to Levelland Tuesday night, where they'll meet the Slaton Tigerettes in the bi-district championship game.

The bout will begin at 9 p.m. in the Texan Coliseum of South Plains College. It is the same floor on which the Bobcats played their bi-district game against Midland Carver Tuesday night.

The Dimmitt-Slaton game will be the second in a double-header, so will be played later than usual for a week night. The first game will pit Ropesville vs. Sundown for the Class B bi-district title.

WINNER of Tuesday night's bi-district playoff will go into the regional tournament in Lubbock Municipal Coliseum Saturday, March 9. And for the loser, basketball season will be over.

Slaton, champion of District 4-AA, is riding a brilliant 29-2 record, with the Tigerettes' only losses to Springlake and Estelline. They swept their district by go-

before the goal. MEANWHILE, Dimmitt's forwards combined accurate shooting and stingy rebounding to pull steadily away from the Owlettes until late in the game, when they went into a stalling pass-and-probe offense to eat up the clock. Allan Webb was the game's top scorer with 32 points, while Ruth Dyer added 10 and Debra Summers 8.

The Bobbies led 12-8 at the end of the defensive first quarter. By halftime they built their lead to an impressive 29-16, and held it throughout the third to lead by 40-29 going into the final frame

## Lometa Odom Nominated For Helms Hall of Fame

Lometa Odom, former Dimmitt Bobbies all-stater who now coaches basketball at White Deer, will be admitted to the Helms Foundation Hall of Fame in April.

SHE WILL join such greats as Babe Didrikson Zaharias in the Hall of Fame.

Miss Odom, daughter of Mr. and Mrs. M. B. Odom of Dimmitt, is to receive a basketball certificate award from the Helms Foundation at the National Women's AAU Basketball Championships in Gallup, N.M., on April 5.

The Helms Foundation, which

THE EASTER Seal Society spends \$25 million each year to help handicapped children and adults live happy, full lives.

THE EASTER Seal Society says that 15,000 occupational therapists are needed to help rehabilitate the nation's handicapped.

honors outstanding Americans in all sports, is located in Los Angeles.

Eligibility for the women's basketball Hall of Fame normally requires that a player attain All-American status for five years.

ONLY TWO exceptions have been made to the five-year rule. They are Miss Odom and the famous Babe Didrikson.

During her brilliant high school career here, Miss Odom played on three state championship teams coached by John Blaine. She was named the all-time all-state post forward in the original McCamey League as a junior, and an all-stater also in the University Interscholastic League the following year.

She later played for the Hutchinson Flying Queens of Wayland College, and was selected on the All-American team four years, 1953 through 1956. She was named captain of the All-American team her senior year at Wayland.

## Bobbies Win It, 50-46

Dimmitt's determined Bobbies got a firm hand on the district title early in the playoff game last Thursday night and wouldn't let go of it as they toppled the potent Hale Center Owlettes, 50-46, for the District 3-AA crown.

THE PLAYOFF game was staged in Plainview High School gym before a packed house. Despite the prospect of icy highways, Dimmitt fans filled their half of the gymnasium.

It was the first district champ-

ionship for the Bobbies since 1960.

Coach Van Kountz's girls had won the first half of the district race with a clean 6-0 record. But in the second half of the race, Dimmitt became the bulls-eye target for every other team in the strong district and finished fourth while Hale Center went unbeaten to force the playoff.

BOBBIE forwards hit 42 percent of their shots from the floor while the guards blocked the lane

and successfully stopped Hale Center's deadly drive.

The combo of determined shooting and fence-pattern guarding put the Bobbies ahead of the frustrated Owlettes by as much as 13 points in the second quarter.

Despite the four-point margin in the final score, the game was surprisingly lopsided as the Bobbies dominated the court from midway in the first quarter.

DIMMITT'S guards seemed to spell the main difference in the showdown. Throughout the contest, Hale Center's forwards—especially the high-scoring Judy Townsen—found the lane blocked and had to shoot from outside. Although Townsen had sunk 49 points against the Bobbies earlier, Thursday night cut her output to 23—nearly all from the outside and the free-throw line.

Elusive Delores Wilke and the taller Carla Robertson, Sharon Barker and Beverly Newman shared the defensive duties, setting up a high, unyielding fence

before the goal.

MEANWHILE, Dimmitt's forwards combined accurate shooting and stingy rebounding to pull steadily away from the Owlettes until late in the game, when they went into a stalling pass-and-probe offense to eat up the clock. Allan Webb was the game's top scorer with 32 points, while Ruth Dyer added 10 and Debra Summers 8.

The Bobbies led 12-8 at the end of the defensive first quarter. By halftime they built their lead to an impressive 29-16, and held it throughout the third to lead by 40-29 going into the final frame

### THIS PIPELINE WAS BUILT BY THE ROMANS AND SERVED FOR 2,000 YEARS

This photo, from the Smithsonian Institute in Washington D. C., shows a section of the original aqueduct that served the water needs of the conquered city of Cologne, Germany. It was constructed in 80 A.D. by the engineers of Fabius Sabinus Titus, Emperor of Rome. The aqueduct extended 56 miles underground between Cologne, and Eiffel and served as the main artery for the Cologne water supply until the late 1920's.

### THIS PIPELINE IS EVEN MORE DEPENDABLE !!

Because of modern materials and manufacturing techniques, Gifford-Hill-Western's LOCK-SEAL provides an even more dependable underground pipeline. The close tolerance design makes the pipe more suitable, and joint flexibility eliminates the effects of expansion and contraction due to soil conditions and temperatures. By combining a superior product with modern day design and installation know-how, you have an underground irrigation system that serves dependably year after year . . . generation after generation. LOCK-SEAL is the product, Gifford-Hill-Western is the Company . . . depend on them!

## We're All Responsible, Pastor Tells Rotarians

"No man can live in a community and be apart from it. Good or bad, we are partially responsible for what our community is."

**THAT WAS** the basic idea expressed by Rev. Weidon McCormick, First Methodist Church pastor, as he spoke to the Dimmitt Rotary Club Friday on "Man's Place in His Community."

Preceding Rev. McCormick's talk was a short program of gospel quartet music by E. L. Ivey, Tommy Keener, Bill Stephenson and Harold Perkins. They were accompanied by Alvin Frazier at the piano.

Rev. McCormick said every man has a responsibility to his community parentally, politically, morally (civilly and spiritually). These separate phases of responsibility are all necessary to the make-up of a community, he said.

**ON A MAN'S** responsibility as a parent, he said, "I believe that the statement, 'There are no delinquent children—only delinquent parents' is 90 percent true."

"Anytime junior high school students tell each other they didn't go, is last night until 2 or 3 a.m.—and this is happening in Dimmitt—then you know there are parents who are negligent in their responsibility to their children," he said.

On political responsibility, Rev. McCormick stated, "It matters little whether we're Democrats, Republicans or Independents—we must each stand for honesty and integrity in every level of our government. . . . Before any of us can vote our convictions, we must HAVE convictions, and live our convictions."

**MAN CAN'T** escape his moral responsibility to his community, Rev. McCormick said, because "the moral tenor of a community is governed by the moral tone of its citizens."

"You may have no idea that moral values seem to fluctuate in times of conflict," he said. "We're seeing such a fluctuation today. . . . Sixty percent of our people now consume alcohol in some quantity. We don't shudder quite as much

approve of. But I know a few people here who do not approve of anything—they simply disapprove of some things less than they do others."

This, he said, is a hindrance instead of a help to a sound community.

Rev. McCormick pointed out that a man has a greater spiritual responsibility to his community than he probably realizes.

"**YOU WOULDN'T** live here today if the churches weren't here," he said. "You'd get out of Dimmitt the soonest possible time."

"Many use the church without knowing it. The church led the fight for our public education system, for our hospital system, and for our democracy itself."

"If a man doesn't take part in his church, he's not living up to what God expects of him, or of what he should expect of himself," Rev. McCormick said.

## Pink Ladies' Accomplishments Rewarded at Banquet Saturday

At their annual banquet in South Grade School cafeteria Saturday night, Plains Memorial Hospital Auxiliary members received their year's "pay"—service pins and a pat on the back from those with whom they work.

MRS. KATY BURKETT, president, noted that the auxiliary's 52 active members gave 1,922 hours of their time to the hospital during the past year.

N. F. Cleavinger, board chairman, presented 200-hour service pins to Mrs. Burkett, Mrs. Alice Anthony and Mrs. Jane Blackburn. Receiving 100-hour pins were Mrs. Bessie Mae Cox, Mrs. Mary Alice DiCuffa and Mrs. Nancy Ross.

New member patches went to Mrs. Gladys Burwell, Mrs. Reba Touchstone and Mrs. Grace Wright. Praising the ladies for their volunteer service were Hospital Administrator Jerry Cockreham, Cleavinger, and Rev. H. Weldon McCormick, guest speaker.

Dr. Bill D. Murphy, tenor, provided the banquet music through solos and audience participation singing.

A "first grade class" of Pink Ladies performed a hilarious reading of "The Hospital Primer," written by Bea Hawkins, in which hospitals, doctors, nurses and Pink Ladies were the subjects of a comical take-off in first-grade terms.

"SEE THE NURSE," reads Mrs. Jody Lippard from The Hospital Primer, "she is very democratic — she ignores everybody." This comical skit by "first grade" Pink Ladies was a highlight of Saturday night's Hospital Auxiliary Banquet in the South Grade School cafeteria. Those taking part in the "reading class" lampooning hospitals,

doctors and nurses were (seated, from left) Bea Hawkins, "teacher" of the class, who wrote the primer, and Mmes. Gladys Burwell, Helen Braafladt, Pearl Sheffy, Courteny Armstrong, Mary McCormick, Lena Mae Cooper and Gail Bruegel.

TOP AWARDS for volunteer service to Plains Memorial Hospital during the past year were awarded Saturday night to Mrs. Kathy Burkett (left), Mrs. Alice Anthony and Mrs. Jane Blackburn (not pictured), Hospital Auxiliary members who worked 200 hours in addition to the 100-hour "honor level." They were presented 200-hour pins at the Hospital Auxiliary Banquet by N. F. Cleavinger, hospital board chairman.

MRS. MARY DICUFFA contributed 100 hours of volunteer service to Plains Memorial Hospital during the past year, and in recognition she receives a 100-hour pin from hospital board chairman N. F. Cleavinger during the Hospital Auxiliary's annual awards banquet Saturday night. Also earning 100-hour pins, but not present to receive them, were Mrs. Bessie Mae Cox and Mrs. Nancy Ross.

### "Pray In One Accord" . . .

Are you concerned about our Nation? In a period of unprecedented prosperity the prevailing National mood is marked by frustration and insecurity, pessimism and doubt.

Are you concerned enough about our nation to do something about it? Then you can pray! There is a call to prayer for the spread of the gospel throughout our land, to the end that the U.S.A. may indeed be a "Nation whose God is the Lord." It is a call to prayer for increasing spiritual vitality within all our churches.

This week of March 3-10 is our week of Prayer of our Home Missions. During this week a special program is presented each day in the church auditorium at 10:00 o'clock (except Wednesday). This time will be spent in prayer for the 2,266 Home Missionaries now at work in every State in the Union, plus Puerto Rico, Cuba and Panama. Our Missionaries and Nationals in Cuba continue in special need of our prayers.

Our Southwide goal is \$5.5 million for 1968. This provides an added \$1 million for "Project 500". This is an effort to establish 500 new churches and church type missions in carefully selected, strategic places in New York, New England, Ohio, Michigan, Colorado, California, and in all the Northern and Western States.

The year 1968 is also a year of preparation and prayer for the great Evangelistic effort entitled "Crusade of the Americas." This crusade is called "Pact" and is the largest evangelical crusade ever planned. During 1969 Baptists from almost all countries in North, South, and Central America will combine strength to speak the good news of salvation to all people. We will be hearing more about how we can join "Pact" and pray with others in other countries.

A church open only on Sunday is a church divorced from human need where it presses hardest. Life is most difficult in the Monday through Friday world.

Pray for our young people, our service men, our leaders, and persons of other races, and mission causes in our homeland. Ask God to forgive you for missed opportunities, attend the week of prayer for Home Missions March 3-10 and demonstrate your concern through your gift to the Annie Armstrong offering for Home Missions that the people of our nation may know God.

Growers bought every pound of Planavin® Herbicide they could get their hands on last season. Read why.

## Planavin® is the cotton-soybean herbicide that gives you more than your money's worth.

Shell's Planavin® Herbicide gives you more than just excellent preemergence control. Nothing on the market does a better job.

It had to be more than just another good weed killer in order to break in against established competition. Growers found out *how good* last season. Planavin proved itself under the worst weather conditions in years. It held the fort against most annual grasses and many broadleaf weeds—right through the early period when control really counts. Growers got what they paid for—freedom from weed problems during the time when weeds can strangle young cotton and soybeans. Plus a sound control base that makes season-long control programs simpler and more economical.

Planavin also gives you a bonus. It frees you from immediate incorporation. Takes the pressure off. And it can save you hours of application time.

With Planavin you can spray by ground or air. You can use large rigs, wide booms. Covering large acreage fast saves you hours. There's no waiting for incorporation equipment to catch up. No downtime for custom applicators. The reason? Planavin doesn't require immediate incorporation. You can take your time. Even a few hours of exposure to air and sun won't wipe out your weed control when you use Planavin. Note: When you *do* incorporate, keep it shallow—no deeper than 1 to 1½ inches. Don't bury your Planavin below the sprouting weeds.

Get Shell's Planavin® Herbicide early—to keep the pressure on weeds and off you. Shell Chemical Company, Agricultural Chemicals Division: Suite 500, First Bank and Trust Bldg., Richardson, Texas 75080
