

## Executive Committee Assess Candidates and Appoint Judges

The Democratic Executive Committee of Dickens County met at the court house in Dickens Monday, June 16th, for the purpose of okeying the names of candidates filed for places on the Democratic ballots, drawing the names of candidates for positions on the ballots, assessing the candidates for the payment of election expenses, and appointing judges to hold the primary elections to be held July 26th and August 23rd.

Elliot, Alonzo Lollar, O. E. Minnix, J. J. Wasson, M. L. Rickles, Chas. McLaughlin, J. E. Sparks, J. L. Karr, L. A. Grantham, and Luther Hindman, and Oran McClure acting as secretary.

## T. J. SANDERS WITHDRAWS IN FAVOR OF HIS BROTHER

I take this method of formally withdrawing my candidacy for the office of District Judge of this district, as I am unable to spare the time from my legal practice to devote to an active campaign, however, I want to thank my friends for their encouragement and assurance of their support.

Be it understood that I am not withdrawing from this campaign in favor of any particular candidate, with the exception of my brothers campaign for the office of County Attorney of Dickens County, and assure you that we will both appreciate your consideration in his behalf.

Respectfully submitted,  
T. J. SANDERS.

## M. E. Tree in Race for Justice of the Peace, Pre. 3

The Texas Spur is authorized to announce M. E. Tree as a candidate for the office of Justice of the Peace of Precinct 3, including the voting precincts of Spur, Red Hill, Duck Creek, Red Mud, Highway, Dry Lake and Espuela.

Judge Tree has served on the Justice Bench two or three terms heretofore, is well informed in the law and court procedure, is fair and impartial in the trial of cases, and his court rulings are in accord with the law and have never been "reversed by the higher courts."

Voters of this precinct are respectfully solicited to give the candidacy of M. E. Tree a due and deserved consideration at the polls in the primary election July 26th.

## DICKENS LEADS IN EDUCATION AND GOOD ROADS

E. J. Offield, a leading citizen of the Prairie Chapel community, to the east of Afton, was a business visitor in Spur Friday of last week. Mr. Offield is one of the school board of the recently created independent school district of Prairie Chapel. An election was held Saturday for the purpose of issuing bonds with which to build a new school building. No opposition to the proposition was anticipated, therefore it is presumed that a new school building will soon be under construction at Prairie Chapel. Dickens county has ever been foremost in education progress and advancement as well as in the construction of a better system of highways and lateral roads.

## CAMPAIGN STATEMENT BY CRADDOCK IN RACE

I yielded to the earnest request of some of my friends and filed for a place on ticket. I never did promise to make a campaign, and can not possibly do so. I must make a crop as I only made debts in 1928-29, and so far this year have been planting and replanting, and at this time, June 17th, have just finished planting cotton with most of feed yet to plant. Very little moisture.

Not a cow nor horse have had enough to eat in twelve months. I have used my credit to the last limit. The voters seem to require a candidate to spend six months and \$500.00 handshaking and smirking from door to door. The 'ins' who are drawing funds from the county and no work to do, will stay in. There are too many offices and more are being created. The split-up of the County Judge and School Superintendent's office resulted in each separate office drawing about as much salary as the two combined did before. The office of Sheriff and Tax Collector will be separated. I am not in accord with unnecessary spending of taxpayers money. Also there is, and has been a kind of political "boycot" against me in Dickens county.

I have always felt that our county officials should watch closely the spending of every dollar, to see that it brought 100 cents of value.

"Believe it or not"—I do not care particularly for office of County Judge.

There is another insurmountable reason why I can not campaign. My wife writes me to hurry and come to Johnny, as his condition grows more critical daily.

In view of above, perhaps it is best for my friends to let the matter of my candidacy for County Judge go by default.

I sincerely appreciate the expressions of friendship and good will, and am indeed sorry that I can not serve them.

Respectfully,  
W. A. CRADDOCK.

C. W. Roberts was here the past week from his farm home near the county capitol.

## Head of Mad Cat is Sent to Austin for Examination

A cat at the home of J. M. Robertson in the north part of the city, 'went mad' one day the first of the week, fighting and scratching some of the children. Little Miss Gladys Robertson was one of the number scratched, and is now taking the rabies serum to counteract the possibility of hydrophobia developing.

The cat was killed and its head sent to the Pateur institute at Austin for analysis.

## W. A. Craddock Withdraws From Race for County Judge

The Texas Spur, Spur, Texas:  
On account of serious condition of my invalid son, I am leaving for Austin, and it is probable I shall not be able to return to Spur during the summer months.

Of course it will be asking too much of my friends to carry on my campaign for County Judge.

I sincerely thank them for their very generous solicitations.

Respectfully,  
W. A. CRADDOCK.

## VOTERS OF KENT INTERESTED IN PRECINCT OFFICERS

Ab Fry, of the Cat Fish country, was among the crowds in Spur last Saturday. He stated that the political campaign is now warming up in Kent county, consideration being given precinct candidates, especially that of county commissioner, as well as sheriff and judge. Too often voters lose sight of the most important office, that of commissioner, in the excitement usual to the races for sheriff and county judge. The county commissioners handle the real business and finances of the county, and the very best business men should be selected to fill the office from each of the four precincts.

### A QUESTIONAIRE?

(Continued from last week)

We had two good wells of water at the court house, windmills and tanks. We needed them. What became of them? What becomes of the tax money we tax payers pay for the court house and the jail and their up-keep? How much money have we on hand? Why not fix and clean up some? They could fix one of the finest sewer systems in the West, and Dickens sure needs it. Good roads everywhere, finest people on earth and some fine lookers but oh, that court house and jail. And what is that new name "lavatory" or "labidor"? Any how it's on the south east corner of the square—you can find it when court's in session. You women voters ask your husbands, they may whisper it to you—afraid they may hurt some ones feelings if they speak out loud. Don't they act queer for a week or two after court? It is not drink, it is 'aromia' that they breathe. If you don't believe it, go visit some court week.

Finance needs big men of broad vision. In my next, will give solution of the finances to carry over these problems of our county, you no.—M. L. Blakley.

Friday of the past week J. P. Goen was on the streets of Spur, coming in from his ranch home to the northwest of Dickens and spending several hours here with friends and on business matters.

E. J. Offield, a leading citizen of the Prairie Chapel community east of Afton, was a business visitor in Spur Friday afternoon of the past week.

A finger print expert was sent for, and it is thought that the burglar will be apprehended within a short time.

## DICK JAY DIED IN JAYTON TUESDAY

Dick Jay, a citizen for many years of Kent county and widely known throughout this section of Western Texas, died Tuesday at his home in Jayton, following a brief illness of only a few days.

Dick Jay was among the early settlers of Kent county and for many years has been identified with the cattle industry, banking and other businesses. His unexpected death will be noted with sorrow by many friends throughout the country.

### WHEN FOOD SOURS

ABOUT two hours after eating, many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and harmless. It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips Milk of Magnesia, the kind physicians prescribe to correct excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

S. C. Thomas, of Gilpin, was in town with the Saturday crowds.  
Trade at Home—  
J. R. Craig, of east of Spur one mile, was here Saturday mingling with the crowds on the streets.

Lee Watson, of the Plains country near McAdoo, was among the business visitors in Spur Saturday. He reports crop conditions very promising at this time on the plains. Because of hail storms and dry weather earlier in the season, the wheat and other small grain crops of that territory were cut short, it being estimated that less than an average of ten bushels of wheat to the acre will be harvested. However, all row crops are now most promising of big harvests this fall—regardless of the prospect of low prices.

Trade at Home—  
J. H. Jones, of south of Spur several miles, was on the streets one day the first of the week. We understand that his territory was favored with a nice shower of rain Sunday afternoon. While possibly the country does not now stand in need of rain, yet rainfall is always acceptable in West Texas.

Trade at Home—  
County Chairman, Robert Nickles of McAdoo, was in Spur Saturday, transacting party business for the Democrats of the county, and other personal affairs. Mr. Nickles has seven or eight hundred acres of wheat further up on the Plains which he is this week harvesting. While the production is not known at this time, it is estimated to be around ten bushels to the acre in this part of the Plains territory.

H. B. Lewis was here from the Croton country Saturday, mingling with the usual Saturday crowds in Spur.

Trade at Home—  
Howard Campbell, of the Dickens country, was in Spur trading and meeting with his friends in the big crowds congregating in Spur last Saturday.

### Cabinet Possibility

Miss Grace Abbott, Chief of the Children's Bureau of the Department of Labor, talked of as possibly the first woman Cabinet member.

### The Tariff and Politics

President Hoover on April 16, 1929, more than a year ago, asked Congress to make some limited changes in the tariff law, especially for the protection of agriculture and as a part of his program for Farm Relief. The response in Congress was to throw the whole subject of the tariff wide open and inject the tariff issue again into national politics.

The Senate seized this opportunity to make another effort to arrogate all Governmental power to itself and to make the President a rubber stamp. The Senate coalition undertook to write into the tariff law a provision that all decisions of the Tariff Commission should be subject to affirmation by Congress. Such a procedure would keep the tariff to the front as a political issue all the time, at every session of Congress. What the President specifically asked for in this respect was a simplification of the Tariff Commission provisions of the law, so that readjustments in rates could be made with less delay than is now the case. The Senate's plan would have resulted in immensely longer delays and would have effectually ruined all the efforts of leaders of both major parties in the past ten years to put tariff-making on a scientific basis.

The Senate also inserted into the tariff bill a provision for a rebate on exported farm products.

The House of Representatives stood fast against those two provisions of the Senate's, and the Senate has finally yielded on both points. It was not statesmanship entirely, however, that dictated the House's attitude. It is largely politics in the simple, plain sense of the word. Every member of Congress comes up for re-election this year. Every member has got to explain to his constituents how come some other part of the country got more out of the tariff bill than his own district did. For the tariff is, after all, a local issue; it is bound up in sectionalism and selfish interests, and one result of all the agitation of the subject in Congress during the past year has been to increase sectional bitterness to a degree we have not known in America for decades.

The only convincing answer any member who voted for the tariff bill can make, when the schedules unsatisfactory to his constituency are criticized, is that the rates in the bill are not permanent. The Tariff Commission and the President can change the rates whenever it is shown that they should be changed in the interest of international parity. Nobody broadly speaking, is satisfied with the rates in the bill itself; but everybody believes that a scientific readjustment of rates by an expert tariff Commission is the proper way to handle the tariff question and will accept the bill, whatever its defects, so long as it has that provision of flexibility in it.

### Here's Another Stab at Age of Mother Earth

One of the most remarkable discoveries of recent years is the radioactive metal uranium, which gradually changes into lead, says London Tit-Bits. The rate at which this process is carried on is well known and it is invariable. By taking rocks which contain both uranium and lead and finding the proportion of each metal now existing in them, the length of time necessary to bring about the present state of affairs is not difficult to calculate. Such a calculation shows that the earth must have been solid not far short of two thousand years ago.

The paths of the earth around the sun and the moon around the earth are not what they were originally. Science can reconstruct them and discover the time needed to give them their present shapes.

All of these methods show that the age of the earth must be more than one thousand million years and less than four thousand millions of years. We shall, then, not be far wrong if we fix the earth's birthday at about two thousand million years ago.

### SAME PRESCRIPTION HE WROTE IN 1892

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as today. People lived normal lives, ate plain, wholesome food, and got plenty of fresh air. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe bowel stimulant.

This prescription has proven its worth and is now the largest selling liquid laxative. It has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds, fevers. At your druggist, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

EXPERT BARBERS. HOT AND COLD BATHS REASONABLE CHARGES

Lee Payne was on the streets from Dickens Monday, spending an hour or two here shaking the hands of friends and transacting business affairs.

Misses Thelma and Addie Jo Adlington, of Amarillo, are here visiting Mr. and Mrs. J. B. Morrison at their farm and ranch home southwest of Spur.

Mr. Harris and son, Delmon Harris, of Blackwell, Oklahoma, were in Spur the past week, visiting Dr. and Mrs. Hale.

Mrs. Marion McElreath, of Greenville, is in Spur visiting her sister, Mrs. A. M. Walker and family.

Uncle Bill Perry was on the streets Saturday, from his farm home to the west of Spur. Uncle Bill stated that he had had good rains and everything now indicates bumper crops and abundant harvests this fall. It is hoped that prices will be maintained around a legitimate figure for cotton and all farm products—and cotton associations are being organized for that specific purpose.

J. W. Jones, a leading citizen of McAdoo, was in Spur the past week on business.

Trade at Home—W. L. Lusk, of Dickens, was a Spur business visitor during the past week.

W. L. Thanisch and sons, of the Wichita country, were in Spur Monday. They say that good rains have fallen over that section, and every body is hopeful and expectant of big fall harvests—but on the other hand are very pessimistic at the prospective prices to be paid. We sincerely believe this is one year that every farmer ought to join in with the cotton association organizations which have for its purposes the controlling of the marketing situation. There is no chance to lose by joining such an association, and there is a good prospect of getting a more legitimate market price.

Mr. and Mrs. W. P. Marshall, of Duck Creek, were shopping and visiting in the city Monday of this week. They report fine rains, good seasons and crops along Duck Creek. Their cotton has squares and corn is tasseling, and with the present season and future prospects, a bountiful harvest is expected this fall.

C. O. Parker, of the Midway section of country, was among the business visitors in Spur Saturday afternoon. He reports everything o.k. in the north part of the county at this time.

Mrs. Eva Brown, of Pomona, California, is here spending the summer months with her parents, Mr. and Mrs. W. P. Marshall, and other relatives and friends of the country.

Trade at Home—E. A. Seaton has filed his name for a place on the Kent county Democratic ballots as a candidate for county commissioner of Precinct 2, competing with Frank Hagar who has held the place two or more terms.

We have just received a big shipment of the

Mrs. Jeff D. Harkey, of the city of Dickens, was visiting and shopping in Spur Saturday.

Earl Harkey was meeting with his friends in Spur the first of this week.

J. R. Sanders and wife returned the first of the week from a trip and visit to Houston and other points in the southern and eastern portions of the state. Mr. Sanders states that he saw fine crops of corn, and that those sections of the state had had plenty of rain.

Mr. and Mrs. M. C. Golding and children returned this week from a trip and visit to Hempstead and Corpus Christi where several days were spent.

### How to Play BRIDGE

Series 1929-30 by Wynne Ferguson Author of "PRACTICAL AUCTION BRIDGE"

Copyright, 1929, by Hoyle, Jr.

ARTICLE No. 23

One of the best ways to recognize "end plays" and how to play them when they come up, is by a study of the various situations. The usual ones involve the forcing of discards and the so-called "squeeze plays". The "squeeze" is really only another name for forcing discards. When a player holds winning cards and is forced to discard them, he is thus subject to the "squeeze". The good cards are forced or "squeezed" from his hand, hence the term.

In the following examples, the first two are simple discard problems. The third one is a fine example of the "double squeeze", that is, when both opponents are forced to discard a winning card or cards. Try your skill in solving these "end plays" for they are not only interesting but also most instructive. The situations involved come up constantly. Solutions will be given in the next article.

Diamonds are trumps and Z is in the lead. How can Y Z win four of the seven tricks against any defense?

Solution: At trick one, Z should lead the queen of clubs. A should play the king and Y should trump with the five of diamonds. B follows suit. At trick two, Y should lead the nine of diamonds, thus forcing A in the lead with the queen. On this lead Z should discard the deuce of clubs. At trick three, A should lead the king of hearts and Y should play the queen, the other players following suit. If Y fails to play the queen of hearts at trick three, A should follow with the nine of hearts and A B must now win another heart and a spade trick. Please note this play. At trick four, A should lead the ten of clubs and Z should win the trick with the six of clubs. Y and B should discard low spades. At trick five, Z should lead the ten of hearts which B can win for the third and last trick. Note that if Z leads the nine of clubs at trick five, Y is forced to discard and any discard he

may make will enable A B to win the two following tricks. This play should be carefully noted. Don't force your partner to make embarrassing discards if it can be avoided.

Also note that at the first trick, if A refuses to play the king of clubs, Y should discard the ten of hearts. Z should then lead the deuce of hearts and again A B can only win three tricks.

Also note that the lead of the deuce of hearts at trick one cannot win four tricks against good defense. A should play the king of hearts and follow with the queen of diamonds. He should then follow with the nine of hearts. If Y should play the queen of hearts on the first trick, A should lead the nine of hearts, B winning the trick with the jack. B should now lead a spade which A should trump with the queen of diamonds. B's jack of diamonds must now win a trick so A B will thus win four of the seven tricks. Note these variations closely.

### Tomato Juice Cocktails Add Zest To Any Meal

By JOSEPHINE B. GIBSON Director, Home Economics Dept. H. J. Heinz Company

WITH the aid of your emergency shelf, even elaborate "company meals" should not prove difficult. And this holds true, despite the fact that only a few fresh fruits and vegetables are in the market at this season, and that the observance of Lent by many people tends to further complicate your problem.

If you are planning a luncheon, for instance, why not surprise your guests with tomato juice cocktails instead of a clear soup? Tomato juice cocktails are easy to make, and everyone likes them. For the main dish try a casserole of corn and Kidney Beans. Hot biscuits—and a glass of Apple Butter from your supply shelf—will be delicious additions to round out a perfect meal.

Following is a menu for an excellent luncheon which you will find very helpful if you entertain informally during Lent:

#### A Lenten Luncheon Menu

- Tomato Juice Cocktail
- Casserole of Corn and Kidney Beans
- Pineapple and Celery Salad
- Hot Biscuit
- Jelly Roll
- Beverage

Tomato Juice Cocktail—To 3 cups strained Tomato Juice add 2 tablespoons chopped onion, 2 tablespoons chopped parsley, 1 teaspoon lemon juice, 1/4 teaspoon Pepper Sauce, 1/4 teaspoon Worcestershire Sauce, and 1 teaspoon salt. Let stand about 3 hours.

Then strain and serve in thoroughly chilled glasses.

Casserole of Corn and Kidney Beans—1 medium-size can of Corn, 1 medium can of Oven Baked Kidney Beans, 1 green pepper, 1/2 teaspoon salt, 1 egg, 3 tablespoons grated cheese and a few buttered bread crumbs. Mix the beans, corn, green pepper minced finely, salt, and well beaten egg. Pour into a buttered baking-dish, sprinkle top with cheese and a layer of buttered crumbs, and bake in a moderate oven for 30 to 45 minutes.

Pineapple, Celery and Nut Salad—Combine 1 1/2 cups canned pineapple cut in cubes, 1 1/2 cups celery cut in small pieces, and 1 cup pecans or walnuts. Moisten with a fruit salad dressing made of 1 cup Mayonnaise Salad Dressing and 1/2 cup sweetened whipped cream. Garnish with additional nutmeats, and serve very cold in deep cups of crisp lettuce.

Jelly Roll—Beat 3 eggs until very light, and gradually add 1 cup sugar, beating continually. Pour in 4 tablespoons cold water, then slowly add 1 scant cup flour sifted with 1/4 teaspoon salt and 1/2 teaspoon baking powder. Pour onto a pan lined with waxed paper—the pan should be about 8"x11". Bake for 15 minutes in a moderate oven (375 degrees F.) When done turn out on a clean towel sprinkled with powdered sugar. Trim off outer edges, spread with Currant or Grape Jelly, or with Cherry or Plum Preserves, and roll while hot. Wrap in the towel and allow to stand until cold. Serve sliced and topped with whipped cream.

I Can Not Praise This Konjola Too Strongly

SAYS WICHITA LADY SUFFERED FOR TWELVE YEARS FROM STOMACH TROUBLE

MRS. DELLA SETTLE

"I cannot praise this Konjola too strongly, because I tried many other medicines and treatments, but none gave the remarkable relief that Konjola did," said Mrs. Della Settle, 1719 Mildred Avenue, Wichita. "I just had to force myself to eat, and nearly everything I ate made me sick. I had cramping pains in my stomach and bowels until I could hardly endure them, and I simply felt miserable all the time."

"Finally I decided to put Konjola to the test. That proved to be a wise decision. Right from the start I noticed improvement. I now have a much better appetite, and meals are a pleasure as food digests without pains or misery in my stomach. My bowels are functioning as they should and it is certainly a relief to be rid of that tired, worn out feeling. I gladly indorse that splendid medicine that restored my health."

Konjola has become the most talked of medicine in America because it makes good. And Konjola makes good in the most stubborn cases when given a fair trial and from six to eight bottles are used.

Konjola is sold in Spur, Texas at Sanders Pharmacy, and by all the best druggists in all towns throughout this entire section.

Back Quit Hurting

"I was in a very weak condition from a serious sickness," writes Mrs. I. Leonard, 571 Joseph St., New Orleans, La. "I was so weak, I wanted to sleep all the time. I did not have strength to do anything. My back ached nearly all the time. I was just in misery. "My mother told me I must arouse myself from the sleepiness, and take something to help get my strength back. She had taken Cardui and had been helped, so I decided to take Cardui, too. After my first bottle, I could see that it was helping me. I took four bottles at this time. My strength came back and I gained weight. Pretty soon, I was my old self again. "My back quit hurting, and I haven't had any more trouble since I took Cardui."

Mr. Eskridge, of Dickens, was in the city Tuesday, transacting business and meeting with his friends of this part of the county.

R. F. Rodgers, of Dry Lake, was meeting with friends on the streets and trading with merchants here Saturday.

H. C. Allen, of Dry Lake, was in town Tuesday. Mr. Allen has been favored above his neighbors the past weeks in securing rainfall on his farm, and as a result he now has fine prospects for crops—and is only worrying now about the possible low prices this fall. Here is hoping that the producers may be in position to put a legitimate price on their products and secure that price throughout the marketing season.

G. W. Dodson, of the Tennessee Valley farm in the Midway community, was in Spur Tuesday. Mr. Dodson has been critically ill and suffering the past several months, but we are glad to note that he is now very much improved and rapidly regaining his former good health.

Chesley Phelps, district engineer for the West Texas Utilities Company, was in Spur Tuesday of this week, looking after interests of the company in this territory.

## Reverting Back to the Sunday "Blue Laws" of Long Ago

Trenton N. J.—Hundreds of names and addresses were in the possession of the police recently because their owners played golf, tennis, or radios, bought or sold gasoline, cigarettes or groceries, or operated trolley cars, busses or trains in this capital city on the Sabbath.

Police men armed with notebooks and pencils were stationed yesterday at filling stations, cigar stores and other places of business to record violations of the vice and immorality act of 1798. Any person observed exchanging "currency of the land" for merchandise, or vice versa, was asked his name and address and informed that his name would be presented to the Mercer county grand jury.

Other officers of the law stalked through the residential streets, straining their ears for sounds of non-religious music from radios, pianos, cornets or other instruments. When they detected such sound, they knocked at the door of the citizen and took his name.

The crews of trains, trolleys and the like violating the 132-year-old taboo were duly recorded. Originally the law permitted only drug store purchases of necessary medicines and the driving of buggies for urgent reasons. An amendment permitted walking or driving for pleasure. Only one train a day is legal.

Director of Public Safety La Barre said the police would continue their check-up next Sunday and the next. Yesterday's crusade came after the sudden rebellion of shopkeepers and theatre owners last Sunday, when they opened their doors and did a thriving business.

W. M. Randall made us feel somewhat relieved of the prevailing financial depression the other day by handing us a dollar and fifty cents for another years subscription to the Texas Spur.

Jim Gilmore, one among the old timers of this western country, was on the streets Saturday, meeting with old time friends and acquaintances of the surrounding country.

Notwithstanding the general financial depression throughout the county the Texas Spur has been favored with quite a number of new and renewal subscriptions the past several weeks—and these subscriptions are certainly appreciated at this time. During this month we are giving a one year's subscription to the National Farm News free with each new or renewal subscription to the Spur. We would like to have at least one hundred before the month ends.

## Why Not a German Meal for Your Family Tonight?

By JOSEPHINE B. GIBSON  
Director, Home Economics Dept.,  
H. J. Heinz Company

THE happy custom of serving dinners typical of other lands is growing into quite a vogue among women who pride themselves on the variety of their home menus. Every country is famed for certain characteristic dishes, and those thoughtful cooks find that the whole family enjoys the novelty of occasional dishes favored by other nations.

Of course, most of us are too busy to undertake the serving of courses that involve long preparation. Among the Germans, for example, one of the most enjoyable dishes is a Sauerbraten, or sour roast, which takes nearly a full week of soaking in vinegar and spices to make it ready for the table. However, there are scores of other attractive dishes for which we are indebted to those excellent German housewives, and which require but little trouble in preparing.

German style steak, for instance, is a toothsome addition to any meal. Wilted lettuce, cheese pudding and potato salad are other delightful dishes that every American family should know. So why not try serving a German dinner some night soon? Both of the following menus are decidedly German in origin, and will prove both wholesome and delicious:

- Menu I**  
German Style Steak  
Fried Potatoes  
Wilted Lettuce with Bacon and Vinegar  
Rolets Butter  
Cheese Pudding  
Coffee
- Menu II**  
Platter of Cold Meats  
Dutch Potato Salad  
Sweet Dill Pickles  
Cheese Prepared Mustard  
Spanish Queen Olives  
Rye Bread  
Cinnamon Cake Coffee.

**Steak, German Style**—Cut 1/2 inch thick sirloin steak into rectangular pieces about two by four inches. Lay one slice of bacon on each piece of steak, and 1/2 Sweet Dill Pickle on the bacon. Roll up and secure with a toothpick. Sear in a hot skillet, and place in a casserole. Pour over these meat-rolls a sauce made of 1/4 cup water and 1 teaspoon Worcestershire Sauce. Bake for 45 minutes in a moderate oven.

**Wilted Lettuce with Bacon and Vinegar**—Chop several slices of bacon and fry until crisp. Add 1/4 cup vinegar, 1/4 cup water, about 1 teaspoon sugar, chopped onion and pepper to flavor. Sprinkle chilled lettuce with salt, and pour the bacon sauce over it. Mix thoroughly and serve.

**Cheese Pudding**—6 slices of bread (1 day old), American Cheese, 1 1/2 cups milk, 2 eggs, 1/2 teaspoon salt, few grains pepper, 1/4 teaspoon paprika. Cut crusts from bread and lay slices in a buttered casserole, fitting slices to cover the entire surface. Slice cheese, and lay it all over bread covering with the rest of the bread. Beat eggs, add milk and seasonings. Pour this mixture over bread and cheese. Bake in a moderate oven until custard is set (about one hour).

**Arrangement of Cold Meats on Platter**—In the center of an oval platter (on small lettuce leaves), place a mound of Dill Pickles and a mound of Stuffed Spanish Olives. At each end of these mounds, place overlapping slices of cheese. On both sides of the mounds, arrange overlapping slices of Liverwurst, Blutwurst, Cold Ham, Cold Tongue. At one end of the platter place a large mound of lettuce, and at the other end a mound of sliced tomatoes. Garnish with parsley. From this platter each person may make himself a salad or substantial sandwich.

**Dutch Potato Salad**—2 cups diced cooked potatoes, 2 slices bacon, 1/4 cup Pure Cider Vinegar, 1/2 cup sugar, 1 small onion diced, 1 teaspoon salt. Cut bacon in squares, and fry. Brown the onion and add the vinegar, salt, sugar, and potatoes. Beat thoroughly.

**Communication**

There are still a few places in the world where a man can be completely out of touch with everybody else in the world, but the number of such places is diminishing so rapidly that it is a safe prediction that before many years have passed we can go anywhere and still keep in communication with home.

Telephoning from railroad trains in motion is now an accomplished fact, in practical use. From any important train on the Canadian National Railways, for a fee of fifty cents in addition to the telephone charge the traveler can call up any telephone connected with the Bell system, which covers the United States, Mexico, most of Europe and a large part of Central and South America, Germany, France and other European countries have similar systems. America has no monopoly on inventive genius nor are we always the first to put new devices into use. But there is no doubt that eventually his system of train-telephony will be adopted in the United States.

The large passenger lines now have facilities for telephoning from ship to shore, and vice versa. Seaborne or later all passenger ships and probably most freighters will be similarly equipped.

A portable radio broadcasting set has been devised which takes up such small space and weighs so little that future big game hunters, penetrating the African jungle, can easily take one along with them and report their safety—or the opposite—to the folks at home every day.

Aircraft in flight now carry many of them—radio equipment for both "code" and voice communication with the earth. Admiral Byrd's Antarctic expedition was never out of communication.

The next step forward is television. That has now become practical. Our children probably, our grandchildren certainly, will be able to see around the world as easily as we talk around it today.

All of these inventions which make communication easier tend toward closer international relations, better understandings, reduce the likelihood of war. The time may even come when disagreements between nations will be settled as easily between business interests are settled today and with as little bloodshed.

**With Spotlight on Taxes, New Day Is On Way, Says Black**

Texas is waking up. There is an aroused public interest in state affairs that gives promise of a new day. Taxation is in the spotlight as it should be. It has more to do with success or failure of the individual than all other governmental forces combined.

The lumbermen want to find out why more homes are not built, and what taxes may have to do with the falling off of such business. A committee is to be appointed to study "the question of taxation from a lumber yard standpoint."

Labor in convention at Abilene recites "the tendency of taxing authorities to lay more and heavier burdens on production and enterprise" and that "all such taxes add to the cost of living, reduce our purchasing power and increase unemployment" and then "we protest against these indirect taxes that fall on the backs of labor."

The Dallas Clearing House last March made a strong protest against taxes on enterprise as "the increased levies would inevitably fall upon the consuming public through higher prices for those commodities and services and that in the end the people as a whole absorb them." Economists agree, also, that a ponderable factor in the higher cost of living is the tax burden which has tremendously increased the cost of doing business, a cost which the buying public in the end assumes.

The state bankers passed a similar resolution. These are healthy signs and if courageously followed up, will give us a new and prosperous Texas.—William A. Black.

Mesdames Deck Barnes and John Pennell, of Abilene, returned this week to their homes, after spending several days here with their parents, Mr. and Mrs. Ed Lisenby.

S. L. Davis, Eric Ousley and Jas. B. Reed formed a fishing party this week, spending several days angling successfully, they report.

J. P. Goen came in one day the past week from his ranch home to the northwest of Dickens, spending some time in Spur on business and meeting with his friends and acquaintances.

E. M. Remington is one of the most fortunate of Spur citizens during this dull period of financial depression, since he has struck it rich in oil on his farm near New Castle, and also from additional leases adjoining his property. We understand the oil is of high gravity, the wells flow copiously, and the royalties are running up into four or five figures, while leases are selling in the thousands. Here is hoping he may clear a cool million from his oil activities and investments.

D. D. and J. L. Hagins, of Duck Creek, was among those here trading

Larry Craddock has been spending several days of this week in Spur. He had been down in the Rio Grande Valley while his wife visited with relatives at Weslaco.

W. D. Thacker was on the streets of Spur Saturday. For several years past Mr. Thacker has been employed in county road work, stating that a dullness is now developing in this line of work as well as in all other lines.

H. C. Peterson, of Cat Fish, was among those here Saturday on business.

**What Happened?**

A man who had taken in washing in a Texas city fell into a well when a reporter about it she said, "I got time to talk about clothes are hanging on my line. I must go on with my

farmer out in Eastland county. Oil was brought in on his land and, "I don't like oil. It's greasy and it's ruin my wheat."

Another man in Eastland county he lived at Ranger if we mistake not—when he received \$150,000 said, "All my life I wanted to have all the canned peaches I could eat and am going to get one dozen cans of the finest I can buy." He bought them, ate the contents of several cans, and died the next day.

All of us have speculated what we would do if we came into possession of wealth. We have all had the pious feeling that we would do much good with money, but as a general rule we are about in the same position as the boy who wrote Santa Claus not to forget the orphans but is sure to append to his

letter a long list of things he wants for himself. We remember way back when the Louisiana lottery was in full swing that many pious people bought tickets, promising the Lord that if they drew the winning prize they would give half of it to the Lord's cause. If any of them ever won we never heard of them carrying out the agreement.

Think it over and see if you were not the happiest when you were pulling hard against the stream and when you were making sacrifices for those you loved.

However, we hope an oil well comes in close to that 15 acres we own.—Marshall Messenger.

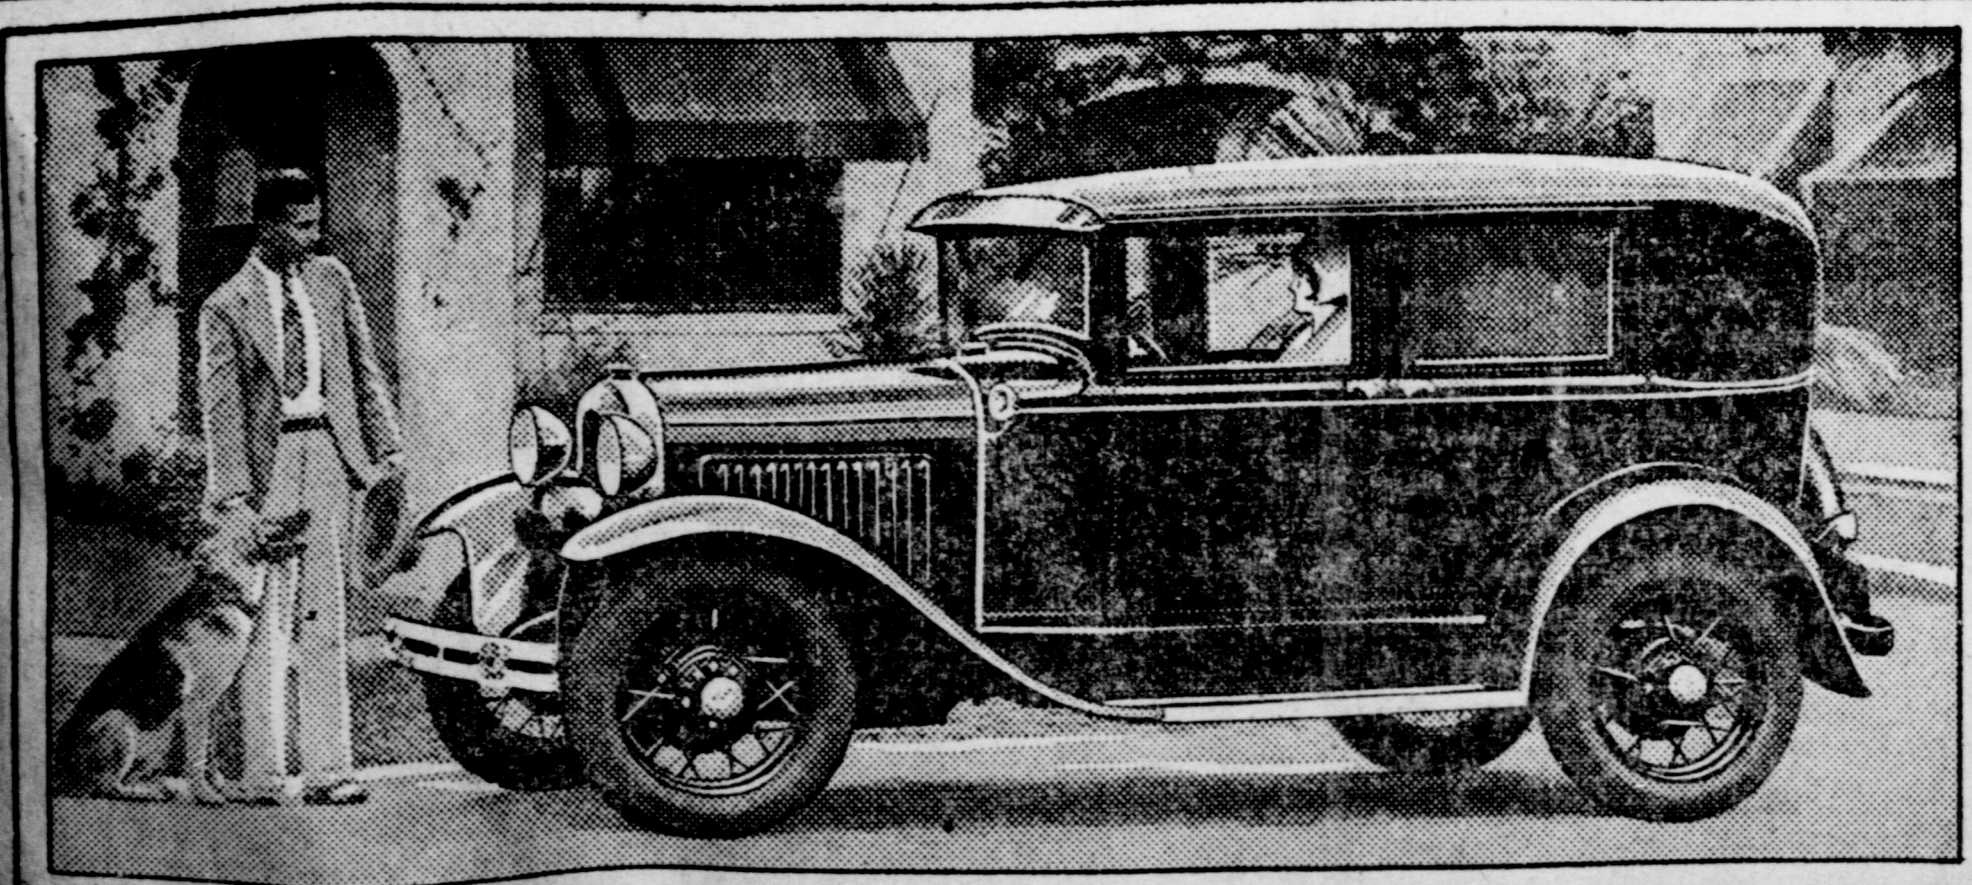

**Proceedings Found 214 Years of Age**

Peebles, Scotland.—A valuable Masonic find has been made here. When a man was looking over some old books which had been stored away for many years he came across a number of account and minute books dealing with Masonry in Peebles.

These were handed to the local lodge, Peebles Kilwinning No. 24 and a scrutiny of the volumes by the lodge officials quickly revealed their importance. The oldest book is dated 1716, and it contains the minutes dealing with the formation of the lodge 214 years ago—one year before the formation of the first Grand Lodge of Masonry in 1717.

Homer Barnes was here Wednesday from the Croton country.

Ford De Luxe Sedan

THE De Luxe Sedan, recently added to the Ford line, is designed for those who desire distinctiveness and unusual comfort in an automobile. The interior is inviting and roomy with wide doors to both compartments. Absence of rear quarter windows gives the car a striking individuality and affords privacy to the occupants.

Other refinements include arm rests for the rear seat, mahogany finished garnish moldings on the windows and beneath the windshield, flexible robe rail and hardware in an attractive pattern.

The front seat is adjustable within a range of four inches to suit the convenience and comfort of the driver. It is moved quickly and easily by a small, inconspicuous handle in the front center of the seat just above the floor.

The De Luxe Sedan, like other Ford body types, can be obtained in any one of several color combinations.

### A REVIEW OF THE CANDIDATES FOR GOVERNOR

The following review of the gubernatorial candidates in the Democratic Primary appeared in the Wichita Times last Thursday, which we believe will be of interest to our readers. Listing them in alphabetical order the Times had the following to say:

Davidson, Lynch, of Houston. Lumberman and banker. Former lieutenant governor. Ran for governor in 1924, finished a good third in first primary. Ran again in 1926, a poor third. One of the soundest thinkers on state problems, but rather inept as a politician. Is handicapped in this race by the fact that he has run unsuccessfully twice before, but has a large personal following; would have stood a much better chance if Sterling had not announced.

Ferguson, Mrs. Miriam. Wife of former Governor James E. Ferguson and running only because he cannot. Was elected governor in 1924 after her husband's skillful campaigning put her in second place in the July primary, with Felix Robertson of Dallas, supposed Ku Klux candidate, as her opponent. Defeated George C. Butte, Republican nominee, in Nov. election, many Democrats bolting the ticket to support Butte. Administration as governor featured by unpleasantness in highway commission, by wholesale issuance of pardons and by the fact that her husband seemed to be governor de facto, is not in any sense a politician herself and is not beloved by the women most prominent in Texas politics. Voters will not consider her record apart from the spectacular one of her husband Mrs. Ferguson ran for re-election in 1926 and was defeated by Dan Moody. Her husband has a considerable following, and a rather loyal one, comprising certain groups of foreign birth or sympathies, and the irremediable among the anti-prohibitionists; his ability as a campaigner for her is not to be underestimated.

Love, Thomas E., of Dallas. Lawyer, insurance man and farmer. Served three terms as member of house at Austin, being speaker in the 1906 session, served as state banking commissioner and as an assistant secretary of the U. S. treasury. Delegate to Democratic national convention in 1912. National committee man for two terms. Chief of McAdoo forces in Texas in 1920 and 1924. Among leaders of Democratic bolt in Texas in 1924, when Mrs. Ferguson was Democratic nominee; also a leader in the bolt of 1928. Ran for lieutenant governor in 1928 but withdrew from second primary after lower courts held him ineligible. Expects in this race to get much of the support of the Hoover or bolters, but is actively disliked by many of them and regarded lukewarmly by others. Takes himself very seriously. In running principally on the "anti-Tammany" issue which he invented.

Love, Paul, of New Braunfels. Farmer and business man and an avowed anti-prohibitionist. Says he is "German by inheritance, Irish by instinct, and Jewish by business integrity." Incidentally, he lived in Wichita Falls at one time. If Tom's name is Love, Paul's is Loven. Despite the similarity in their names there is probably little other resemblance in these two candidates. (Paul Loven lived in Haskell several years ago and is a graduate of the Haskell High School)

Mayfield, Earl E., of Austin. Lawyer, though not in active practice for many years. Twice elected to state senate, twice elected railroad commissioner. Elected U. S. senator in 1922 being matched with J. E. Ferguson in the run-off. Election attributed largely to Ku Klux Klan support. Nomination resulted in first considerable bolt in Texas Democracy since 1894, many Democrats voting for George E. B. Peddy of Houston. Mayfield's campaign methods investigated by U. S. senate committee, which declared charges baseless. Defeated for re-election in 1928 by Tom Connally, after leading field in first primary. One of the most adroit campaigners Texas has ever known, and a factor to be reckoned with in any contest he enters. Has platform that adopts the supposedly popular questions; has also an effective organization.

Miller, Barry, of Dallas. Lawyer. Now serving his third term as lieutenant governor. Long prominent in Democratic affairs in Texas being a protégé of the late Charles A. Culberson, U. S. senator. Will receive a share of the support of those who endeavored to send a Smith delegation from Texas to the national convention in 1928, but not as large a share as he would if James Young were not in the race. A man of

engaging personality, with many warm personal friends throughout Texas, and a very able campaigner. Moody, C. C., of Fort Worth. Laundry wagon driver, who seems to think there is occasion to do something to redeem the Moody name. He should provide the comedy relief in the campaign.

Parrish, Pink L., of Lubbock. Lawyer. Now member of state senate. Is said by friends to resemble former Governor James S. Hogg, and there is undoubtedly some physical resemblance. His candidacy would cut sharply into the chances of Clint Small to carry West Texas. Putnam, Frank, of Houston. Newspaper man. The first avowed anti-prohibitionist to announce. Too good a newspaper man not to realize that those who make gum paramount to their voting know that J. E. Ferguson can look after their interests well enough.

Senter, E. G., of Dallas. Lawyer and editor, principally the latter. Former state senator. A born scrapper. A leader, in 1907, in the legislative attack on U. S. Senator J. W. Bailey. Protagonist of the effort to make judicial procedure less technical and more efficient. A man of much ability, but considered by many as too radical and too temperamental. Very outspoken in his speech and writings. His candidacy adds color and interest to the contest, probably without having much effect on the results.

Small, Clint C., of Wellington. Lawyer. Has held various local offices. Now state senator. Senatorial services featured by his bills to protect West Texas landowners in their titles. Is the only candidate whose candidacy has something of the sectional aspect, and will receive earnest support of West Texas in general and Panhandle-Plains in particular unless voters there become convinced he cannot win. A comparative newcomer in state politics; an able campaigner and convincing speaker, who seems less afraid than most candidates to speak his mind.

Sterling, Ross, of Houston. Newspaper publisher and banker, former oil operator. Now chairman of state highway commission, to which he was appointed by Governor Moody. Was chairman of navigation district board at Houston for many years and had conspicuous part in developments that made Houston a real port. A somewhat higher type of man, everything considered, than is usually seen in Texas gubernatorial contests. Is handicapped by his support of state highway bond issue and by the belief that his connections would make him friendly with big oil corporations and power interests. May be expected to receive a large part of the "business" vote. Is untried as a campaigner.

Walker, Dr. J. H., of Grapevine. physician. Has a unique platform,

the details of which we do not rec. A good citizen who is exercising constitutional right to run for office and who can't be expected to get much out of it except the exercise.

Young, James, of Kaufman. Lawyer. Former congressman, who retired voluntarily. A comparatively stranger in present day state politics. Is supposed to have been drafted for the race by some East Texan. Has one of the most statesmanlike platforms of any of the candidates but has been experiencing difficulty in getting the voters interested in and in himself. Has the support of number of Democratic leaders who tried to send a Smith delegation from Texas in 1928, but must divide the support with Barry Miller. Will get the votes of many Texans who look upon him as being "different" from the general run of candidates.

Such is the lineup. The voters who look for statesmanship will find very little of it. The voters who look for ability, for sound views on state questions, will find something of these elements. The voter who looks for demagogism, poltroonery or insincerity, will probably be able to discover them without great difficulty. There is a chance for Texas to get, out of that array, a governor of average or above average ability. That chance is about equal to the chance of getting someone altogether unworthy.

The world moves and so we do all kinds of hauling. 222. P. & P. Transfer Co.

#### Sweetwater Woman is Lucky She Took Advice

**TRIED ORGOTANE WITH REMARKABLE RESULTS.**

"I am now 70 years of age, but since taking Orgotane I don't feel that old by a good many years," said Mrs. V. R. Horn, who conducts a hotel and boarding house at 203 Bowie St., Sweetwater, Texas, recently.

"I feel it my duty," said she, "to tell all the suffering people I can about what Orgotane has done for me. About two years ago I lost my appetite, and my stomach went back on me and I would have indigestion after every meal almost. What I ate seemed to sour almost as soon as I ate it, and cause a slight case of indigestion. I was in a general run-down, weak condition and my whole nervous system seemed to go to pieces and any noise out of the ordinary would almost make me jump with fright.

"I had taken a great many different things and still suffered but lucky for me I began reading about so many people being benefited so much from the use of Orgotane, that I decided to give it a trial. By the time I had taken it a week or so I noticed the indigestion pains were disappearing and that much relief made me feel very hopeful. I kept on with the treatment and my appetite has come back to me and when I go to my meals now I enjoy every mouthful and can eat anything without suffering the least bit from it. My nerves are much better and stronger in every way and have more strength and vitality every day. I keep on taking Orgotane. It is a pleasure for me to tell you about this medicine."
