

"A College Town" Is Senior Play Scheduled For Friday Night

THE TEXAS SPUR

AND THE DICKENS ITEM

VOLUME XXII.

SPUR, DICKENS COUNTY, TEXAS, FRIDAY, JANUARY 29, 1932

NUMBER

Seniors Present Play, East Ward Friday Night

If you have ever been to college, come to the East Ward Auditorium, Friday night and renew old college memories. If you have not been to college, come and see four years of college laughs, thrills and excitement in one night.

The Senior Class of 1932 is to present a play at the East Ward Auditorium on Friday, February 5, at 7:45, entitled "A College Town." The play is a college farce in three acts with many humorous situations. Jimmie Cavendish, a typical college good fellow is a senior at Stanford College, and goes on a lark the night before the play, and gets in trouble with the college professors and their wives. Jimmie's Aunt Jane from New York is to arrive at the college to visit Jimmie, but due to the circumstances there, of the college students impetuous Aunt Jane and when the real Aunt arrived a very confusing situation is created. You will laugh until your sides ache at Major Kilpepper and Tad. You'll feel sorry for Professor Popp, who is the hen-pecked husband. You will see sophistication personified in Marjorie, the college widow. You will fall in love with "Jim", the little girl from way down south.

The admission will be 15c and 35c.

Don't forget to bring your nickles and dimes for the big auction sale, to be held between acts.

The money made will be used to defray the expenses of graduation.

R. E. Slough is Out For Commissioner, Pre. One

R. E. Slough, a prominent citizen of Dickens, has this week authorized us to announce that he will be a candidate for the office of County Commissioner of Precinct No. 1, subject to the Democratic Primaries July 23. This precinct includes the voting boxes of Dickens, McAdoo, Elton and Duncan Flat.

Mr. Slough is a native West Texan having been born and reared in Comanche county. He has been a resident of Dickens county for 14 years or more and during his citizenship here has established a reputation not only of progressiveness but of the highest degree of honesty and integrity. He was a candidate for this same office in 1924 and was defeated by the slight majority of 8 votes.

In making his announcement Mr. Slough states that this is the only thing he has ever asked the people for and that should he be elected his every consideration will be given to the interests of the taxpayers. He states further that his belief is for a square deal to all and special privileges to none and on this basis he solicits consideration at the polls.

Spur Man is Made Manager W. T. U. Co. at Jayton

L. D. McAfee, who for several years has been with the local office of the West Texas Utilities Company as a lineman, was on January 15th given the management of the Jayton office. He is this week moving household effects etc. to that place preparatory to establishing a permanent residence.

The many friends of Mr. McAfee regret to see him leave Spur but are glad to extend him congratulations on this deserved promotion. Mrs. McAfee is this year teaching in the Aspermont Schools.

W. S. Perry, of Spur Hardware and Furniture Company, was a business visitor in Dickens Monday of this week.

C. P. Aufill For Weigher, Pre. 1

C. P. Aufill, of McAdoo, has this week authorized the Texas Spur to announce that he will be a candidate for re-election to the office of Public Weigher of Precinct No. 1 including the boxes of McAdoo, Dickens, Elton and Duncan Flat, subject to the action of the Democratic Primaries of July 23.

Mr. Aufill was elected to this position two years ago and during his term in office has rendered a most efficient and satisfactory administration. And in asking for a second term he wishes to state that if the people again honor him with this position they may expect the same courteous and efficient service they have received in the past.

He respectfully requests the consideration, vote and influence of the voters of his precinct.

Walter Willmon Candidate For Clerk's Office

I take this opportunity to announce to the people of Dickens county that I am a candidate for County Clerk of Dickens County, subject to the Democratic Primary, July 23, 1932.

I feel that my qualifications are such that I can do you an excellent service in the office of the County Clerk. I have lived in Dickens County for the past seven years and am twenty-two years of age. I completed Spur High School in the spring of 1930 and have Commercial College training.

I firmly believe in observing the laws of both God and man. I believe in doing fair and just dealings with every man. I do not choose to conduct a mud-slinging campaign under any circumstance. It seems at this time that it will be impossible for me to make a house to house campaign but I will endeavor to see every one if possible and if I should fail to see you I hope that you will not hold this against me when you go to the polls on the 23rd day of July.

If I should be the elected one I will endeavor to show you my appreciations through service with all my power.

Sincerely your friend,
W. J. (Walter) WILLMON

Mrs. C. C. Brewster Died at Home of Son Monday, 25th

Mrs. C. C. Brewster, 80, died at the home of her son, Don Brewster, in the Red Hill community, Monday, January 25. She had been in ill health for several weeks, suffering of dropsy.

Mrs. Brewster was born in Tennessee in 1852 and was 80 years and 17 days old at the time of her death. She moved to West Texas in 1902 and has been a resident of this county since 1920, making her home with her son here since the death of her husband several years ago.

Funeral services were held at Spur Cemetery and were conducted by County Judge, Rev. Leonard Westfall, of Aspermont in Stonewall county, the former home of the Brewsters.

Deceased is survived by three children, Don Brewster and Mrs. L. A. Grantham of Red Hill and Mrs. Ed Hahn of Swenson, and eleven grandchildren.

A Correction

Last week in writing the announcement of R. C. Forbis for the office of Tax Assessor, we erred in stating that he was here at the time and assisted with the organization of the county. We are informed that he arrived here some three months after the organization. The statement was correct in that he was of assistance in the perfecting of the organization, however, and was one of the early day county officials.

It'll Do Him Good, Ma!

J. H. Palmer For Weigher, Pre. 2

In the proper column will be found the announcement of J. H. Palmer as a candidate for re-election for the office of Public Weigher of Precinct No. 2, which includes the voting boxes of Afton, Dumont and Prairie Chapel.

Mr. Palmer has been a continuous resident of this county for 34 years and needs no introduction to the citizenship. He was elected to this position two years ago and is asking for a second term on the basis of his record in office, which has been entirely satisfactory and efficient.

Voters of Precinct Two are respectfully solicited to give Mr. Palmer's candidacy just and deserved consideration at the poll in the primary election in July.

Fire Destroys Two Residences Tuesday

Early Tuesday morning of this week two residences of the city were totally destroyed by fire. They were J. J. South and the Wyatt residence, located on the north side of the West Park. The fire is thought to have started in the roof of the westernmost house and flames blown by the high wind setting fire to the adjoining one. The fire siren failed to work properly and as a result of the delay in spreading the alarm the Fire Department was unable to be of much assistance except in preventing a further spreading of the fire.

Mack Tidwell in Tinning Business

M. V. Tidwell on the 15th of this month leased the well equipped tinning and metal shop formerly operated by Bryant-Link Co. and is conducting the business in the old stand.

Mack is an expert tinner having been employed in the shop for several years previous to leasing it and is able and equipped to handle any job of tin work large or small. He will also include plumbing in his line of business.

Mr. and Mrs. L. A. Welborn have moved to the Poly Williams farm south of the city and will make their home there the coming year. Mr. and Mrs. Williams have moved to the central part of the state where they will be during the remainder of the winter and summer.

Misses Hortense Sandell and Maurice Patton, of Jayton, were visitors in the city Saturday.

Demonstration Club News

(By CLARA PRATT)

CONCRETE HOLLOW TILE DEMONSTRATIONS

Ninety-seven men and women have attended the demonstrations given by county agent, Mr. Lane in the women's home demonstration clubs this month on concrete hollow tile for sub-irrigation for gardens. The use of hollow tile has been tried and found to be one of the most efficient means of irrigating. It is inexpensive for one sack of cement will make about 110 feet of tile, that will water more than 400 square feet of garden. Now is the ideal time to make the tile and get it in place.

GIRLS' WORK

The girls' work in the 4-H clubs has been revised and is to be on the same basis as the women's work. There will be a demonstrator for each line of work in each club; these girls will carry on the work as outlined for the girls of the state, by the Extension Department. All other girls in the clubs will be cooperators and will reach the goals set by the county for the various demonstrations.

The girls' program will center around three demonstrations: poultry, bedroom improvement, and clothing. In the poultry work, the demonstrator will take charge of the farm poultry flock and work toward making it in such a way that it will increase the farm food supply and the family income. The cooperators will hatch 100 baby chicks in order to have 25 pullets laying in the fall.

There is a state contest for girls in the bed room improvement work open to the demonstrators in each county. The girls will work toward having an attractive and comfortable room of their own, which shall meet their needs and become an expression of their own personality.

In the clothing demonstration the girls will provide a harmonious and economical wardrobe which will be suited to their type and social needs. Each girl will make a school dress this spring which will be featured in the county dress contest in June.

Mr. and Mrs. Harry Patton recently moved to the Pitchfork Ranch in the north part of the county to make their home. Uncle Harry will cook for the outfit.

Mr. and Mrs. Luther Hindman recently moved to their farm home on Wilson Draw where they will make a crop the coming year.

Mrs. Littlefield For Dist. Clerk

As the present incumbent states she will not be a candidate for re-election to the office of District Clerk, I am asking the good people of Dickens County to consider my candidacy, subject to the action of the Democratic Primary in July.

As many of you know, I was born and reared in Dickens County and have spent my life with you. I am a graduate of the school at Dickens and did work as a student at the Teachers' College at Denton. I was a teacher in the county for five years and served the people as postmaster at Dickens for nearly six years. These services should give you some idea as to how I am willing to accommodate the public. I feel qualified to care for the duties of the office of District Clerk and will give you my best efforts if elected. Thanking you one and all for your kind consideration and votes, I am,

Respectfully,
MRS. NETTIE LITTLEFIELD

Annual Basketball Tourney to be Held Dickens, Feb. 5-6

The second annual Basketball Tournament will be held in Dickens, February 5 and 6, which will come as a climax to the exceptional record of the Dickens School during the present season. Dickens boasts of a coaching staff of four people and six basketball teams which have played seventy-six games this season and won forty-nine of them. The best record has been made by the team known as the "Owlets" which is made up of Senior boys but small in size. They have played twenty games and won fourteen of them.

The Dickens school also held the first basketball tournament in West Texas to be held the first week of the season. It has become an annual affair and is held the first week in December each year.

Last year twenty-six teams entered the boys tournament here which was won by Meadow. Only twenty teams will be accepted this year. Gold lettered charms will be given to the members of basketballs to the winning team of the consolation games. "Chig" Harrison of Denton an outstanding referee of North Texas will call the tournament.

Miss Mary Elizabeth Hogan, was an honor guest at a social function held in Lubbock Friday evening of the past week.

Legion Exceeds Quota in Membership Drive

According to announcement made at a meeting of the local post of the American Legion, Monday night, the assessed quota of 85 members had been over subscribed in the recent membership drive conducted by the organization. The post, however, expects to get many more members and will continue the drive.

A meeting has been arranged for Monday night, February 1st, and all members are especially urged to attend.

Saturday Night Is Deadline For Poll Receipts

Saturday night at 12 o'clock is the deadline upon which poll tax payments can be made this year to be effective in the coming state and national elections.

Up to press time Thursday only a few more than 700 poll taxes had been paid in the entire county out of a possible 3000 or more. If an unusual last minute rush does not occur today and tomorrow, the smallest percentage in the entire history of the county will be eligible to vote this year.

What effect this would have on local elections is not known but it is a certainty that a minority would be in absolute control and that a single vote would be twice or three times as effective as in ordinary times. It might also be pointed out that if a great number of poll tax receipts are not issued within the next thirty-six hours the section as a whole will have very little voice in naming our state and national officers.

Sheriff Arthur is maintaining two tax payment offices in the county, one at Godfrey and Smart Ford Station in this city, and the other at the Sheriff's office at Dickens; for the convenience of the public—Saturday night is the deadline!

E. N. Johnson For Re-election as Commissioner

E. N. (Nuge) Johnson has this week announced that he will be a candidate for re-election to the office of County Commissioner from Precinct No. 2, subject to the action of the Democratic Primaries in July.

Mr. Johnson is well known over the entire county having lived here for the past 25 or more years, and needs no introduction. He is basing his candidacy on his previous record in office and wishes to assure the voters of his precinct that should they again honor him with the office he will serve them in the same loyal and trustworthy manner as before.

Precinct 2 includes the voting boxes of Afton, Dumont and Prairie Chapel.

Cebe Lambert, of Croton, was a business visitor here Tuesday.

Tol Merriman Died At Home Here Monday

Tol Merriman, 73, a pioneer of West Texas and one of the most beloved of the brotherhood of early day cattlemen of this section, died at his home a few miles south of the city, Monday morning at eleven o'clock, January 28. Mr. Merriman had been in failing health for the past two years and a complication of ailments developed in recent months which resulted in his death. He had been confined to his bed for the past several weeks and little hopes were held for his recovery. And during the last few trying days Mr. Merriman, knowing that he could not survive faced the inevitable with the same undaunted courage that he had faced the trials and hardships of pioneer days and until the very last had a cheerful word for his loved ones and friends.

Tolbert Merriman was born in Louisiana August 19, 1857, but moved with his parents to Texas at the early age of eight years. The family settled first at Galveston, later moving to Hill County where he remained until he came to this section as a young man some 45 years ago and was employed on the old Spur Ranch. During his term of service as a cowboy on the ranch Mr. Merriman came to be one of its most valued and trusted employes and was advanced to a position of authority. January 15, 1894, he was married to Miss Della Gilmore and afterwards settled on the present homestead in the Twin Wells community.

Deceased is survived by four children: Rex, the youngest son who lives at home, and Guy and Don who live at Lovington, N. M., and a daughter, Mrs. R. D. Hill, who also lives at Twin Wells, and his widow.

Funeral services were held at the First Methodist Church of which Mr. Merriman was a member, at 2:30 Tuesday afternoon, conducted jointly by Rev. W. E. Vaughn pastor of the church and Rev. J. V. Bilberry an early day Baptist minister of this section. Interment followed in Spur cemetery directed by Webber Williams. Pall bearers were M. L. Jones, Al Bingham, F. R. Harrington, Bud Morrison, W. J. Elliot and Dock Ellis.

Among those from out of town who were here to attend the funeral were 'Uncle' Tom Harrison of Roaring Springs, Luther Thornton of Matador, Shorty Roy of Paducah, J. H. Reynolds and F. C. Gipson of Dickens, Bill Cherry of Kent County, Will Young, Bill Thannisch, Bill Rucker, Jno. Huffstader, H. C. Allen, S. W. Williams, Will Garner, J. E. Sparks, and many others.

Crosbyton Youths Are Sentenced For Slaying of Negro

Earl Dyess and J. D. Boswell, Crosbyton youths, charged with the murder of T. C. Jackson, a negro, in an alleged holdup of a dice game on a farm near Ralls Saturday night, November 14, each drew five year suspended sentences at the district court held in Crosbyton this week. The trials were held separately.

Tomatoes versus Oranges

WHICH do you root for? Both the Oranges and the Crimsons are out to play a winning game this season. The line-up is already being chosen for the All-American goal-makers of the Dietetic Eleven—and rivalry bids fair to be keen between these two star foods.

The following figures from "Chemistry and Food Nutrition" by Henry C. Sherman, Professor of Chemistry at Columbia University, will help you to determine their comparative values:

	Vitamin A	Vitamin B	Vitamin C
Orange Juice, 350 Tomatoes, raw or canned, 2700			
Orange Juice (about) 150 Tomatoes, raw or canned, 130-250			
Orange Juice, 150-300 Tomatoes, raw or canned, 150-300			

Dr. William Weston in the Journal of the American Medical Association gives the following table comparing the relative mineral content of orange and tomatoes.

	Iron	Manganese	Copper
Oranges	70.5	7.6	4.75
Tomatoes	160	26.7	15.3

With two such excellent foods available, a good plan for making the goal of health, this season, is to alternate between the Oranges and the Crimsons. Serve orange juice one morning for breakfast and tomato juice the following morning. Both can be bought in cans—cans of pure juice pressed from a product which has ripened fully in the sun. This is the principle used in modern dietetic infant feeding which alternates tomato juice with orange juice.

TAXES

(By BRUCE BARTON)

I received a letter from a Senator, enclosing an advance copy of a speech which he has since delivered to his fellow countrymen over the radio.

It was a good speech, but I did not see exactly why it was any part of his official function to deliver it. In fact, I have wondered a little how, with all the speeches he is making constantly, this particular public servant gets any chance to do his work.

In acknowledging his letter I was rather fresh, I said: "It is being borne in upon me more all the time that the rising cost of government—national, state and local—must be one of the important factors contributing to our present distress."

"Some day I wish you would tell the American people frankly how many activities of Washington could be curtailed to their profit."

"You might start," I suggested, "with the Prohibition Enforcement Unit, the Federal Trade Commission, the Interstate Commerce Commission and the Departments of Agriculture, Labor and Commerce."

"I specify these not because of any special animus toward them but because they are comparatively recent creations. And the American people seemed somehow to get on pretty well before any of them were started."

I did not expect that he would reply to the letter, and I was not disappointed.

In common with all other men whose names are well advertised, I receive in the mail every day one or more "Plans" for ending the depression.

The most common suggestion is that the nation, state or communities should borrow more money and engage in more public works to increase employment.

I am against all these "Plans." I think we have gone wild in this country on public works. In the State where I spend my Summers we have plenty of roads, but the authorities are constantly cutting down great trees and pushing new concrete highways through the woods.

Every railroad in the country is paralleled by a concrete highway, built by taxpayers money on which trucks carry the business that used to be carried by the railroads. And the railroads saddled with taxes, are almost bankrupt.

I wish Thomas Jefferson would come to life and ride up to the Capitol on his horse, as he did so long ago, and say:

"Boys, that government is best which governs least. Let's see where we can cut down expenses."

Elevator at Carlsbad Caverns Placed in Operation

Carlsbad, N. M., Jan. 29.—The National Park Service, through Thomas Boles, superintendent, Carlsbad Caverns National Park, today made the important announcement that the recently completed electric passenger elevator, through the 750-foot shaft had been placed in public operation on Sunday, January 24. At the same time, the Government's guide fee through the caverns was reduced from \$2.00 to \$1.50 each person and a fee charged for elevator service at fifty cents for each one-way trip. There will be no charge in the regulation that children under 16 years of age are admitted free, when accompanied by parents or guardian. Children will be charged 25c elevator fee, however.

The elevator at Carlsbad Caverns was installed with the view of accessibility to persons that could not comfortably negotiate the trail system, and the National Park Service urges the visitor to enter and leave the cavern via trail. Each person thus would save 50c.

Governor Arthur Seligman, of New Mexico, on Saturday, January 23 formally dedicated the elevator at the invitation of the Secretary of the Interior and the Director of the National Park Service. The New Mexico News paper Association will be in session here on January 22-23, and will participate in the ceremony, together with many persons interested and who work for the caverns, have so rapidly placed it in the front rank of America's showplaces.

Russell Smith is here on a visit to his parents, Mr. and Mrs. Alva Smith and other relatives and friends. Russell has been in the more western part of the state, and recently in the east Texas oil fields, for the past two years or more.

Mr. and Mrs. Dickey are in Dallas for a few days visit.

In Memory of Tol Merriman

After long months of suffering, on the 25th of January, 1932, Tol Merriman started on The Long Trail. During these long months of suffering not one word of repining was uttered by him.

He started work as a cowboy for the old Spur Ranch in 1887 and so long as they were here, he was their trusted employe. I know of no man more universally loved and respected than Tol Merriman. Never during the 44 years I have had the privilege of his friendship have I heard him say one word against anyone, and never a curse word. While Handy Cole ran the branding wagon, Tol was his right hand man, and it was a pleasure to work with them. No matter how bad the weather, or hard the work, "it might always be worse".

Tol gave to Religious denominations that respect given by all cowboys, and some time ago joined the Methodist Church. As a husband and father he was the best, and as such greatly loved. Such men as he are few and far apart, and when they leave us no one can take their place. May I be as sure as he, that I will hear the Master say, "Come thou, good and faithful servant, enter thou into the joy of thy Lord." With loving respect to him and his kin, this is submitted in the names of all his Old Comrades of the Range.

The Road to Auto Accident Prevention

At the end of 1931 we look backward on an automobile accident record of 35,000 fatalities and resolve to do better in 1932.

No problem is more within the control of the individual than that of traffic fatalities and injuries. It is within the power of each of us to become a competent responsible and careful driver. Nine out of ten drivers merit that classification now. It is the one out of ten who causes the accidents—and he is the one who refuses to heed accident prevention messages.

It is a tragic thing that carelessly driven automobiles can cause more deaths than a great war. Tremendous advances have been made in automobile construction, from the standpoint of speed, of power and of mechanical safety. But advances in the standard of driving have lagged behind. We have built better cars—but we have not developed better drivers to operate them.

Highway safety is made up of many little factors—none of which cost anything. If we resolve to abide by the laws, to lose a minute, rather than gain one at the risk of our lives and others', to remember the unwritten rules of courtesy and carefulness, there will not be 35,000 automobile deaths annually—and perhaps there will not be even 3500. Such progress may be too much to hope for in a single year—but every operator of an automobile should remember that it is possible and act accordingly.

500 Per Cent Jump in Federal Taxes

In a recent address, United States Senator Felix Herbert of Rhode Island, pointed out that a few years ago a tremendous hue and cry was heard because the cost of the federal government had reached \$1,000,000,000 a year. Yet, at the last session of Congress, appropriations made totaled more than four billion dollars. In the 31 years between 1900 and the present, the per capita cost of the federal government increased from \$6.48 to \$32.96—about 500 per cent.

"With a never ending extension of the activities of government into other fields than those originally contemplated by the founders," said Senator Herbert, "these increased costs are inevitable. Through the efforts of organized minorities, we are constantly broadening the scope of our operations, and naturally increasing our costs."

In other words, those groups and cliques which campaigned so strenuously and successfully for government operation of this and government supervision of that, are now paying the piper along with the rest of us who were willing to let well enough alone in the beginning. The hand of the bureaucrat is said to throttle initiative—and it likewise picks the public pocketbook with neatness and dispatch. Nothing is more expensive, or more detrimental to progress, than bureaucracy. Let us remember that when we go to the polls.

Mrs. A. J. Havens of Kalgary was a shopper in Spur Tuesday.

Prohibition Cost to U. S. Estimated at 24 Billion Dollars

Washington, Jan. 18.—Prohibition has cost the United States \$24,000,000,000 since the 18th amendment became effective 12 years ago this month according to statistics given the Metcalf senate committee beer hearings today by F. D. Buck of the Tax Reduction league.

It has cost the government more than \$400,000,000 a year in revenue losses alone, David Burnett, commissioner of internal revenue, testified.

Figures showing government revenue from distilled spirits and fermented liquors dropped from \$3,040,854 in 1919 to \$1,635,267 in 1931. Revenues on fermented liquors dropped from over \$100,000 to \$100.

Bootleggers are now receiving an annual revenue of from two to three billions of dollars, Representative Dyer, Republican of Missouri, told the committee.

Agricultural products used in fermented liquors in 1919 totalled \$1,083,665,156 pounds while last year they only totalled 181,344,740 pounds according to Burnett's figures.

Eighty thousand barley raising farmers have been virtually ruined since prohibition became effective Buck said.

Burnett admitted if all the beer illegally manufactured in the United States last year had been taxed at the present rate of revenue, the government would have received \$132,000,000.

Mrs. Jack Stevens, of Rochester was in Spur the first of the week to visit with friends of the city.

A. M. Lay, of the McAdoo Mercantile company, was a business visitor in Spur Wednesday of this week.

Mr. and Mrs. C. C. Haile, of Afton, were shoppers and visitors in Spur Thursday of the past week.

More Heart Trouble

The increasing part that heart disease is playing in incapacitating and shortening the lives of people in the United States has become a matter of major concern and consideration among the medical profession recently gathered by insurance and medical organizations show a decided increase in the number and percentage of deaths from this malady and also that it is the greatest single factor in mortality figures today. The greatest damage, it appears is done among people in the period known as the prime of life.

Some of the leading heart specialists blame the growth of heart disease and the concurrent malady, hardening of the arteries, to the hurry and worry and bustle and high pressure of modern life, particularly in the big cities. Some of the more eminent are inclined to place much of the blame on the increased emotional pace of our civilization.

"It is an unhappy condition of the mind caused by unfulfillment of desires, conflicts, thwarted ambitions and man's effort to escape from his environment and personal limitations that prepare the way for heart disease," says one. "Tea, coffee, tobacco and alcohol may make the heart more sensitive to emotional struggles, he continues.

He urges out of door games played with congenial partners as one important aid in treating or averting heart strains caused by emotional stresses.—Ex.

Uncle Bill Cherry was among the many old timers here Tuesday to attend the funeral of Tol Merriman.

Mrs. Kyle Rogers, of Donna, is visiting Mr. and Mrs. T. A. Rogers and Mr. and Mrs. M. L. Rickels of this city.
