Mr. Mims precinct includes the voting boxes of Wichita and Croton. He was elected to his present position two years ago and has in cooperation with the other commissioners, given the county one of the most economical and satisfactory administrations. J. Y. Stone of near Dickens was in Spur Wednesday, trading with the merchants and meeting with his many friends in this section. Mr. Stone is on solicitation of his friends seriously considering making the race for constable of his precinct. To The Voters of Dickens County

After due consideration I have decided to make my announcement as a candidate for the office of County Clerk of Dickens County, Texas, subject to the Democratic primaries July 23.

I have also duly considered the responsibilities connected with the duties of this office and while I have never served as clerk of any county, yet I assure you that the clerical work I have done and the business experience I have had during the past several years and the past year in particular has been a school of preparation for any responsible position I would presume to ask of you, my friends—The voters of my County.

I have been a citizen of Dickens County 22 years and have contributed my share to the up building of the town in which I live and the County as a whole—and have only my life as a private citizen to offer for investigation should you care to do so.

And while I have the support and care of two children dependent on me, I will give the office my careful attention should you select me to serve you.

It is my intention to see each of you personally before the primaries and in the meantime, I ask that you give my candidacy due consideration and I solicit not only your vote but will appreciate your influence.

Very Truly Yours,
Mrs. ORAN McCLURE

Joe McDaniel of the City Drug store underwent a tonsil operation Tuesday of this week.

Local Youths Charged in Looting at Stamford

Buster Montoya and Robert Pittman are being held here on charges of burglary as a result of a house being looted in the vicinity of Stamford. The men were arrested here Thursday by Deputy Sheriff Joe Allison assisted by constable Jno. A. Bell. The men held, it seems had formerly lived in Jones county near Stamford, only recently moving to this city. Most of the articles stolen include, bed clothing, curtains and other of the less bulky household furnishings. Mrs. J. W. Benson, of Stamford, from whom the articles were stolen, was here yesterday, identified some of the things and stated that she knew the suspects personally.

Although the youthful suspects have made no statement they have not denied the charges and are being held for bond. Other members of the family stated they had understood that the articles had been bought, possibly at an auction sale.

Senior Play a Big Success

The Senior Play, "A College Town", was given at the East Ward School auditorium, Friday evening, February 5 to a large and appreciative audience and was a decided success in every way. Every character deserving special mention. The between acts were generously endorsed. The proceeds, which were near a hundred dollars will be used to help pay for graduating expenses.

A CORRECTION

Last week in making the announcement of D. B. Wiley for Commissioner of Precinct 1, we stated that he was a citizen of Hill County which should have been HALL County.

The two story home of Jasper Scott in the Afton community burned to the ground early Monday morning. Practically none of the household furnishings were saved and it is reported that very little insurance was carried.

Mr. Scott, who had arisen early and lit the lamp in the kitchen believes that the lamp exploded and caused the fire. After lighting the lamp and starting a fire Mr Scott went to the barn to take care of the live stock and according to his statement, the whole section of the house was enveloped in flames before he or his family became aware of it.

BICENTENNIAL CELEBRATIO

I think that every school in Dickens County is preparing to celebrate the two hundredth anniversary of the birth of George Washington in some fitting manner. In some of our schools trees will be planted on the campus in honor of the Father of Our Country, in other schools splendid programs will be staged. We in Dickens County are very proud of the fact that one of our own citizens, Mrs. W. B. Bennett, has added appreciably to the material available for properly celebrating his birth by writing a splendid book which she calls "Sotry of Washington Told in Rhyme."

Gen. Smeldy D. Butler to Speak in Wichita F. Feb. 17

The most absorbing news of today has to do with the war between China and Japan. Every American citizen realizes the possibility of a war between Japan and the United States. No matter how much we may desire to keep the peace and avoid a war of any kind.

Regardless of how much interest we may have in the Far Eastern situation, very few of us have a clear understanding of just what is taking place or of what is going on behind the scenes in the Orient. Maj. Gen. Smeldy D. Butler of the Marines who, probably next to General Pershing, is America's best known soldier, is an authority on the fighting in China, as he has done a lot of it there himself. Ever since the Boxer troubles many years ago, up to very recently, Gen. Butler has from time to time been in command of fighting forces in China.

As a young officer at the time of the Boxer troubles, he distinguished himself by rescuing a wounded British Tommy from between the firing lines, for which act he was offered the Victoria Cross.

Not only is Gen. Butler familiar with Chinese and far Eastern conditions generally, but he has seen active fighting service in Cuba, Mexico at Vera Cruz, the Philippines, Nicaragua, Haiti and France.

Maj. Gen. Butler is scheduled to speak on the Sino-Japanese war at Wichita Falls next Wednesday, February 17, at 8:15 P. M. in the Municipal Auditorium, under the auspices of the United Bodies of Maskat Temple A. A. O. N. M. S. The Shriners, realizing the great popular interest in Gen. Butler and the Japanese war, have arranged for a very low admission charge - 50c for adults and 25c for children.

Here's New Firestone "Air Balloon" Tire

When Firestone pioneered and developed the original balloon tire in 1922, they established the principle of very large cross section tires and using very low air pressure and on wheels of small diameter. The "Firestone Air Balloon" simply emphasizes a further degree of this Firestone principle to give added riding comfort and safety.

A new low pressure tire, so ample in its billowy proportions that it gives the impression of being attached to the hub of the wheel instead of to the rim, is announced by the Firestone Tire & Rubber Company.

Known as the "Air Balloon," the new tire carries only from ten to fourteen pounds pressure and is designed primarily to increase rid-

ing comfort. Exhaustive tests made by Firestone Engineers have shown that its cushioning qualities bring about the nearest approach to "riding on air" that it has yet been possible to achieve in tire manufacturing. Cobblestones, car tracks, road ruts and similar rough spots of the highways are taken with scarcely any jar at all.

Along with the comfort phase of their engineering task, the Firestone designers also developed the safety features of the new tire. It is announced that mud, sand, sod or soft ground, wet or slippery pavements are negotiated with ease and safety heretofore unknown. Skidding hazards are greatly reduced. In this respect the tire achieves one of its most important missions, since the combination of low pressure and in-

creased riding surface give it a much higher resistance against skidding than has ever before been attained.

Both the tire and the special wheel were planned by Firestone Engineers with an eye to beauty. The special wheel is a concave black disk, attractively set off with rings of polished chrome. A complete set includes five "Air Balloon" tires and five wheels and an arm for adjusting the steering.

In the evolution of tires for smaller cars, for example, the tire size has been increased from cross section width measuring 3.00 inches to 3.50 to 4.40, then to 4.50 and later to 4.75 inches. Now the "Air Balloon" approximately doubles the cross section size for small cars and increases the air volume about four times.

In Loving Memory of Ola Mae Carlisle

Tuesday evening, February 2, at 3 p. m., a large crowd of sympathizing relatives and friends met at Spur cemetery to pay their last respects to little Ola Mae Carlisle, daughter of Mr. and Mrs. Brinkley Carlisle of Steel Hill. Rev. Vincent Bilberry, of Spur, conducted the services, Mr. Webber Williams had charge of the body.

Ola Mae was born August 26, 1928, and was three years, five months and seven days old. Just a baby, the only girl; a bright, beautiful and charming child loved by all who knew her, too sweet and precious for this world.

She leaves a father and mother and three brothers to mourn her loss. Surely the grief stricken family will be comforted when they remember the precious promises Bro. Bilberry read from the Bible and his comforting words as he pointed them to Him who said: "Suffer the little children to come unto me, for of such is the kingdom of Heaven."

The entire neighborhood extends their sympathies to the bereaved family in this trying hour.

She was too sweet and fair a flower.

To blossom in a vale of woe And God has given her a bowler Where Death can never go.

She can not come to us, but we Can go to her some happy time.

To dwell beside the crystal sea In God's eternal clime.

She's gone where sorrow never waketh

In that land beyond the grave: Blessed be the God who taketh. Blessed be the God who gave.

A Letter from J. L. Jenkins to the People of Dickens Co.

Potter, Ark., Feb. 8, 1932.

Dear Readers: As I was asked by many, before I left Dickens County to write my observations of this country to the Texas Spur, I am now going to tell you some of the things that I have seen and learned.

We left Dickens County January 10 in the teeth of a stiff little norther, leaving there at 1 p. m.

We drove continuously until 6 next morning going, on account of a bad stretch of dirt road, by way of Fort Worth and Dallas reaching Mt. Pleasant at 6 a. m. Resting about 30 minutes we continued on to Maud, a small place twenty miles south of Texarkana, where we had a breakdown that detained us until 5 p. m. It rained nearly all day.

Then continuing on, we got into DeQueen about 9 p. m. and spent the rest of the night. From Texarkana on, we could tell nothing much of the country as it was pitch dark.

The next morning at 8 o'clock we drove up to Potter, a small place in the Ouichita Mountains. Now you would like to know something of what we found. The country was a series of hills and mountains with small creek valleys between.

The farms are naturally small but fairly productive. The soil ranges from a light sand in the principal trucking section south of here, to a yellow silt with savor shale and slate in this section.

This was once a saw mill country and the large timber has about all been cut. However there is an abundance of timber that looks good to me. In sight of where I am writing this there is a pine grove whose trees are fifty to sixty feet tall, that an old timer told me he had seen in cultivation.

The principal crops here are corn, cotton (not much cotton), soy and mung beans, peas, peanuts, cane for syrup, sweet and Irish potatoes, together with some peaches, apples, pears and blackberries and strawberries.

Trucking is not done on a commercial basis at present.

The woods are full of blackberries, nuckleberries, black haws, and grapes in season.

The old settlers tell me that it is very easy to have plenty of good things to eat, but very hard to have any money.

Much of the land here is clear of grubs and stumps and some (tho not many), use riding tools. The people are better dressed so far as work clothes go, than in Dickens county.

They do not spend so much for "Sunday clothes."

Good gravel highways traverse this (Polk) county, from north to south, also from east to west.

The intersecting roads are not so good as in West Texas.

The school system will compare favorably with Texas.

Taxes are not very different from Texas, except the license tax on cars, and the gas tax. The cheapest gas here is eighteen cents, and the license fees run from \$15.00 for model "T" roadsters, to \$22.00 for Chevrolets.

Horses and mules are much smaller than in Texas, and it is rare to see more than two on a farm.

Dairy cows too, are scarcer and of poorer quality than there.

These people made good corn crops, there are few hogs.

Groceries, in some lines, are cheaper than in Texas. The exception being coal oil, which sells for ten to twelve cents.

First quality sorghum may be had for 35 cents, and dry salt meat for seven cents.

Now, if this doesn't cover all the ground, and more is desired, I shall be glad to continue this.

Respectfully,

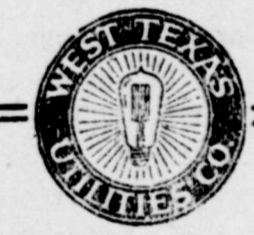

J. L. Jenkins

Dependable Electric Service--- A Necessity to the Growing Town

Efficient and dependable electric service provides the very life-blood of every community -- large or small -- for in this modern and progressive age, the wheels of commerce and industry are most effectively and most economically turned by Electricity.

The advantage of the transmission line public service company, distributing electrical energy over a wide area through a vast network of high voltage transmission lines, are well known and appreciated by business leaders everywhere.

The prime essentials of power -- economy, flexibility, immediate accessibility and cleanliness -- are inherent to Electricity, especially when supplied to the small town and community over transmission lines.

The West Texas Utilities Company, rendering service to 125 progressive cities, towns and communities in this "Land of Opportunity", makes available a surplus power supply sufficient to meet at once the constantly growing requirements of the small cities of this great Empire.

"Singing Lady"

FOLLOWING her phenomenal success in Chicago, where she made her radio debut about eight months ago, Kellogg's "Singing Lady," a program designed according to the best of modern kindergarten theory as a service for mothers, teachers and children, is to be broadcast over the NBC Blue Network every afternoon except Saturdays and Sundays, beginning January 11th.

In this comparatively brief time more than 40,000 mothers and children have written, expressing their appreciation to the "Singing Lady."

Endorsed by authorities as being one of the most constructive child programs ever arranged, "The Singing Lady," presented by W. K. Kellogg of Battle Creek, will sing the songs and tell the stories dear to childhood.

At the same time, she will teach many constructive things—encourage children to eat proper food, form habits of healthful play, sleep and exercise and, all the while, work to develop imagination and build character.

Coming on the air just before children's evening meal, when the average mother is busiest and when it is of most importance that the children be quiet and restful, "The Singing Lady" will broadcast every afternoon, except Saturdays and Sundays: from 5:30 to 5:45, E.S.T., over WJZ, WLW, WBAL, WJR and WGAR; from 5:15 to 5:30, C.S.T., over WENR, WREN, KOIL, and KWK; and from 6:00 to 6:15 over WGN.

Mrs. Joe Whitten

The good Lord has seen best to call another of our good mothers and companions of the Afton Baptist Church home to Heaven.

Miss Ada McCarty was born November 1908. She was married to Mr. Joe Whitten of Afton community December 27, 1925 and to this union four children were born, all of which are dead, having died in infancy. Mrs. Whitten made a profession of faith in Christ in a revival held by Rev. H. T. Harris at the Afton Church in August of 1929. She united with that church where she has lived a consecrated christian life ever since.

She leaves a lonely husband to mourn her going. Mr. Joe Whitten has a great treasure in Heaven, his wife and four children, and he too is living a consecrated life that when the good Lord sees fit his family will be unbroken in Heaven.

She leaves a mother and five sisters and one brother who still live and mourn her going.

She was just in the bloom of life, age 23 years 2 months 20 days, she died February 5, 1932.

It seems that the good Lord is calling very many from our Afton community to be with him. This making three mothers and one infant in one month that has been buried there at Afton Cemetery.
