Two or three of our members have to be fitted with foundation patterns before that demonstration too.'

Since the wardrobe work is a carry-over in this county this year the work is being given by the demonstrators in each club. Twelve ward-

robe demonstrators attended a use of foundation pattern school conducted by Mrs. Dora R. Barnes, Extension Specialist in Clothing last week and will have charge of a similar demonstration in their clubs in March.

FARMER PLANS TO SUB-IRRIGATE GARDEN

"That is what I have been wanting to learn," answered Joe Hale, farmer in the Prairie Chapel community when asked if he would make concrete hollow tile to sub-irrigate the garden and thus cooperate with his wife in being farm food supply demonstrator for the Prairie Chapel home demonstration club. "I would like to sub-irrigate at least half the garden this spring. The strawberries and berries should be subirrigated too. We have good gardens because we irrigate but I can see the advantages of sub-irrigation and am glad to make the tile for it."

Making concrete hollow tile has been demonstrated in each of the home demonstration clubs in the county in January and February and in part of the girls clubs. The work will be finished in the girls' clubs in March.

Is Castor Oil a Bladder Laxative?

No, but juniper oil, buchu leaves, etc. is. Use it to drive out impurities and excess acids that cause the irritation which results in getting up nights, bladder weakness, leg pains, backache and burning. Juniper oil, buchu leaves, etc., is pleasant to take in the form of Bukets, the bladder laxative. Use a regular 25c box. If not satisfied your druggist will return your money. You are bound to feel better after this flushing and you get your regular sleep. Bukets guaranteed by Gruben Drug and Jewelry Company.
