Ruth Chatterton Is Given Dynamic Role In Film, "Journal of A Crime"

Ruth Chatterton will be the stellar attraction at the Ritz Theatre Saturday night for the Prevue and again Tuesday night when she appears in her latest First National picture "Journal of A Crime," which is said to afford her the greatest opportunity of her career to display unusual dramatic talent.

The picture is based on a powerful drama by the noted French playwright, Jacques Deval, and depicts the effect of a murder on a woman of fine instincts and delicate sensibilities who kills an unscrupulous rival because she is wrecking her home. Not that the picture is purely a psychological study by any means, for there is plenty of action, beginning with the slaying of a very popular musical star in a theatre during rehearsal, the chase and the capture of a criminal in the files, and winding with a climax that is said to have one of the most novel

A REVIVAL TO BEGIN HERE JUNE 17

The Presbyterian Church of this city will begin its summer revival meeting next Sunday, June 17th. The meeting will continue through the week, services being held each evening at 8:30 o'clock and each morning at 10 o'clock. The Presbyterian church, and the people of our, are indeed fortunate in having secured the services of Dr. Thomas White Currie, who will do the preaching.

Dr. Currie is the President of the Austin Theological Seminary and serves the Highland Park Presbyterian Church of Dallas as their preacher. He is a man of extraordinary ability as a speaker and as a minister. Those who hear him will never forget him.

The Presbyterian Church of Spur extends a cordial invitation to the entire community to attend each of the services and to cooperate with them in making the services of the week a genuine benefit to this city.

On Sunday morning, June 17th, at eleven o'clock, Rev. F. I. Cairns will be officially installed as pastor of the Spur Church. He has been serving the church two Sundays of each month during the past year. He will devote all of his time to this field from now on. Rev. Alva E. Miller, of Handley, and Mr. F. I. Cairns, Sr. of Houston will be in Spur to take part in the installation service with Dr. Currie, who will preach the sermon.

twists ever conceived for the silver screen.

Miss Chatterton has the role of a murderess who loves her husband a part played by Adolphe Menjou, with such desperation she can't bear to give him up for another. Menjou, really in love with his wife, but so infatuated by the star of his musical show that he is ready to break up his home, eventually finds that love again through one of the most unusual incidents.

Claire Dodd has the role of the home-wrecker who pays for it with her life, while Noel Madison plays the part of a murderer, who also is accused of killing the star because he is caught in the theatre. Douglas Drumbrille is the prosecutor who sends the assassin to the guillotine, and George Barbier is the producer in whose theatre the big tragedy occurs.

Others in the cast include Henry O'Neill, Phillip Reed, Henry Killea, Frank Reicher, Edward McWade, Walter Pidgeon, Frank Darien, Clay Clement and Elsie Janssen.

The more dramatic scenes take place in the theatre during rehearsals of a musical show, which also affords an intimate insight into the backstage life of Parisian theatrical folk. Other sequences take place in a fashionable Parisian home in the prosecutor's office behind the grim walls of the famous Sante prison, in the gay cafes and night clubs and on the French Riviera.

F. Hugh Herbert and Charles Kenyon adapted Deval's play to the screen while William Keighley directed it.

Dr. W. J. Quinn Is Opening Office For Practice In Dickens

Dr. W. J. Quinn, arrived in Dickens Friday from Fort Worth with a view of locating there for the practice of his profession. Dr. Quinn is very favorably impressed with conditions in this section of the country and definitely decided to permanently locate there.

Dickens has for the past several months been without a physician in their immediate vicinity and this together with other inducements has been answered by the coming of Dr. Quinn, who comes very highly recommended as a citizen as well as a physician.

JACK GIPSON HERE

Jack Gipson, a prominent young business man of Dickens was a visitor in Spur Tuesday morning spending some time here looking after business affairs and while here was a pleasant caller at the Texas Spur office.

BANDITS TIED VICTIM WITH NECKTIE

Peace officers all over this section of the country are on the lookout today, following a sweeping search begun yesterday afternoon, for three machine gun highwaymen who halted M. D. Brock, a truck driver for the Dr. Pepper Bottling Company of Lubbock, yesterday afternoon about five miles west of Dickens near three o'clock and robbed him of his watch and \$125.00 in money, then tied him with his own belt and necktie.

Forced To Leave Highway Brock was forced to drive his truck away from the highway into a pasture, where he was left tied and without a distributor cap for his truck. He released himself in a short time and caught a Spur car back to Dickens.

The bandits were reported to be driving a black Pontiac coupe, in which a machine gun was seen, and with descriptions tallying, are supposed to be the same men that about forty minutes later kidnaped a farmer, Jerome Hodges, in Blanco Canyon, a few miles northwest of the Brock robbery. Several shots were fired at another car driver who suspected "dark work" and who had been following the black coupe for some distance after his friend Hodges, driving another car, was seen to leave his own car and enter the car driven by strangers and ride on past his home.

Sheriff W. E. (Bill) Arthur was notified of the hold-up by Brock and they gave chase, being only a few minutes behind the vehicle in which Hodges was picked up in the canyon, and where his car also was taken.

Sheriff Arthur, picking up constable Warren Hames, of Rails, continued on to Lubbock, but failed to pick up the trail of the black Pontiac coupe and its machine gun trio.

This week Wilton Copeland, Spur, bought of J. B. Hankins, of Slaton, the domino parlor which has been operating here the past several weeks.

GRUBEN MOVES OFFICE

Henry Gruben moved his office from the Red Front Drug Store to Sanders Pharmacy this week, and will be located there in the future.

Bumpus Is Opening Modern Apartments Over Security Bank

Mr. and Mrs. W. M. Bumpus have this week completed the remodeling and decorating work on the north section of the upstairs of the Spur Security Bank Building and have established a most modern apartment house. All rooms have been arranged so that they have outside windows and have been furnished with the most home-like furnishings and one walking from the street to their apartment house could easily imagine that they had made a journey out into the country.

Mrs. Bumpus states, however, that the apartments are to be priced very reasonable and that most of the places she has to offer have been taken in advance.

Spur has for some years risen above the rating of a small town and needs such apartment houses for its inhabitants and Mr. and Mrs. Bumpus will be rewarded for their initiative in devoting their funds to the upbuilding of this city.

James Hill Perry, Harvey Giddings, David Sisto, Crate Snider, and Enoch Pendleton, returned Saturday from a weeks vacation spent in the Ruidoho Valley in New Mexico, they report a most pleasant time and said the valley was delightfully cool and inviting though not quite so cool as on other occasions visited.

ELECTION TO BE HELD IN DIS. 22

Consolidated Common School District No. 22 comprising most of the north end of Dickens County will vote on the matter of issuing school house bonds on Saturday, June 30. Voting boxes will be placed at the Afton School Building, at the Midway School Building, at the Duncan Flat School Building, and at the Croton School Building.

Henry Palmer has been appointed as presiding officer of the election at the Afton box; L. L. Slayden at the Midway box; W. D. Hughes at the Duncan Flat box; and J. C. Porter at the Croton box.

The proposed bond issue is for \$53,000.00. The proceeds of the bond issue will be used to construct and equip a modern school building to house the newly consolidated school. In addition to the proposition of issuing the bonds, there will be two other propositions of a subsidiary nature to be voted on at the same time: one is the matter of levying a maintenance tax at the rate of not to exceed a dollar on the one hundred dollars valuation of property in the district, and the other is the assuming of the outstanding bonds of the former districts by the consolidated district. These two subsidiary propositions are merely to simplify and clarify the tax and bond records for the district. No embarrassment would or could result to the consolidated district if both the subsidiary propositions should fail to carry. The issuance of the new school house bonds is the real issue before the people of District No. 22 on Saturday, June 30th.

The issuing of the bonds can in no way increase the tax for the district since it is a common school district and must take the valuation set by the Commissioners Court. While the issuing of the bonds will absorb more of the dollar tax that the District can levy, yet it will enable them to get more State Aid which will more than offset the funds used for bond purposes.

The faculty of the Consolidated School District No. 22 in the north part of the county has been practically completed according to Supt. O. C. Southall. In addition to Supt. Southall, the faculty at present is composed of the following: C. W. Geisecke, Principal; Miss Ruth Barton, Miss Cedonia Dittich, Miss Lalla Lay, E. M. Richardson, Miss Oleta Bailey, Miss Amelia Hargis, Mrs. Jo Koonsman, Miss Sally Rattan, F. M. McCarty, Miss Ethel Hulsey, and Mrs. Garlin Murphy.

Tentative plans have been made to add two more teachers to the faculty in the future. No further additions will be made until such time as the needs of the school can be more fully foretold. It is hoped that Vocational Agriculture may be added for the coming year, and possibly Home Economics, hence the deferring of the selection of other teachers to complete the faculty which will contain fifteen teachers when all have been employed.

All teachers have been employed subject to assignment by the superintendent as it subjects and grades to be taught.

The salaries paid will conform in every respect to the salary schedule set by the State Department of Education for schools of that size. This schedule will be strictly adhered to as the school is a state aid school and would run too great risk of loss of state aid to do otherwise. Mr. Southall stated when in Spur, Saturday.

HERE'S ONE REASON why long distance calls are fast

Within its own boundaries, this company, like each of the 24 Bell System associated companies, operates its own long distance system. But A. T. & T. trunk lines (shown on map) link these 24 separate systems into a nation-wide unit, over which skilled operators can send your voice almost with the speed of a local call to the remote reaches of the country.

Such nation-wide service would be virtually impossible without equipment built to the same designs and used in the same way... without operators trained in the same methods... without, in short, a nation-wide organization behind it.

How effectively A. T. & T. meets this need is shown by the fact that today 9 out of 10 long distance calls go through while you hold the line; by the constant pushing back of the frontiers of the voice until 92 per cent of the world's telephones are now within your reach; by four reductions in long distance rates, made voluntarily in recent years.

Here you may see the workings of a fundamental Bell System policy, adopted because we believe it to be a policy that works. In an organization planned like the telephone service for the long pull, we feel that what is best for the telephone user becomes in the end the course that will bring us the sounder, more certain success.

Like All Women, You Want Your Clothes to Be Right

AND the only way that you can be sure they will be right is to know what the designers and creators of new styles have decreed shall be right.

Cherie Nicholas, nationally known authority, who writes on women's fashions for this paper, tells you just what you want to know and pictures for you the garments and hats that the well-dressed woman will be wearing in the weeks to come. The styles that Miss Nicholas describes are authentic and the garments that she depicts are up-to-the-minute, but they do not represent style extremes. The garments are those that will be worn by the average woman and that you will find for sale in your home stores.

Keep up with the changing styles through Miss Nicholas' illustrated fashion articles, appearing in these columns, and tell your friends about them.

HAGINS
 Oh, how sad, and grief stricken we are since the death angel visited our brother's home, and kissed the eye lids closed of his darling wife, our sister, daughter, and mother, Gertrude.

She was so good, sweet, kind, true and loving to her children and her home, and to us all.

She was not with us long but we had learned to love her. She drove the arrow of love straight to our hearts.

Like a little Dove she was full of love. She was loved by all who knew her.

And just why our little darling was taken from us we do not understand. Oh, so young, so pretty, and so sweet and good, and just in the bloom of life. Oh, such comfort and pleasure she was to mother Hagins and our dear silver haired daddy, just to know they had a dear daughter like her. At the age of fourteen, God knocked at her hearts door and she heard his pleading voice, accepted him as her personal Savior.

She then built her hopes on things eternal, laid up her treasures in Heaven.

Walked in light. Talked of things that was right. Until she finished her work here and her life's crown was won.

And now God has called her from this earth, she'll be with us no more. She is singing with the angels on the Golden Shore. There is no one to take her place. No, never any other.

She did not fear at all to die, the thought of death was sweet. She knew that Jesus would be near to lead her on the Golden Street.

Let us try not to weep for her

Thursday morning at nine o'clock at her home on west Harris Street, Mrs. Bullock Tillotson very delightfully entertained members of the Joi de Voi Bridge Club and a number of other invited guests. Bridge and animated conversation were indulged by the six tables of

dear ones for if we live the life she did we will not have to bear our burden alone. She is where there is no pain. Weeping, sadness, sorrow, anguish, she will never know again. She is gone where all is love and the soul never dies. Sweetest peace is ever with her.

She is resting now above, in the arms of blessed Jesus, in the sunlight of his love.

There on flowery hills of pleasure in the fields of endless love. She will be with Christ forever in the shining courts above.

Let us then be true and faithful. Let us pray forever more, that we'll meet her with the angels, on Heavens Golden Shore.

Where we never grow tired and weary and life seems dark and dreary. But all is sunshine and joy unspeakable.

There with her we will part no more, upon that Golden Shore.

Oh, how sweet when life's complete where all is love.

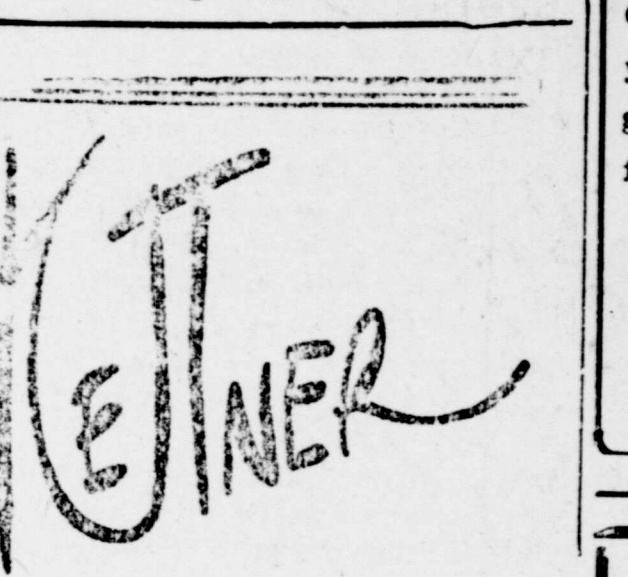

How glad the angels must have been, when God called her home with them.

—Mrs. Jerome Hagins.

This signature is familiar to you if you follow the cartoons that appear regularly in this paper and if, by any chance, you are not following them you are missing something.

Kettner ranks as one of the great cartoonists of the country. His cartoons reflect an unusual insight into human nature and an extremely keen sense of humor. There is never a sting or an unpleasant suggestion in any of them, but there is always an idea or a thought that is worth while.

We are glad to be able to give our readers this splendid feature. We know that you always find it pleasant to spend a minute or two with

Startling price reductions, just announced, place Chevrolet further ahead of its field than ever—in price, quality and value

CHEVROLET In the face of the biggest demand in years, right when the trend toward Chevrolet is at its peak, Chevrolet reduces prices! No wonder America was startled when this news flashed across the country just a few days ago. And now that the public has had a chance to figure out what this price reduction means in terms of greater value, the news becomes even more important than before. Because it means that Chevrolet now offers you a big, substantial, quality car with the famous valve-in-head engine for as little as \$465, f. o. b. Flint, Mich.—making it by far the lowest-priced Six in the world. It means that you can get enclosed Knee-Action, Blue-Flame performance, cable-controlled brakes, and all the other big advancements of the day, for as much as \$35.00 less than before—and Chevrolet's former prices were already among the lowest of the low. It means, in short, that Chevrolet now presents America with the finest buy the low-price field has ever seen.
